New Citizens On Rotary Program

Brief talks were made at the Rotary Club last Thursday by two relatively new members, Jay Bee House, local Federal Land Bank office manager, and Don Boydston, Production Credit office manager.

House was born in New Mexico, reared in Stanton, he was with the Land Bank Association at Lamesa eight years before coming here to succeed Ross Smith, retired, two years ago. He and his wife own a local fabric shop. They have three children.

Don Boydston was reared at Falls, graduated from Tech in 1971 with a degree in agricultural economics worked with the PCA here and Lubbock PCA before being installed a local office manager when Dwain Lusk resigned a few weeks ago to join the First National Bank staff. He and his wife have a son four

months old. They recently bought Harold Reynolds home.

Dr. Emil Prohl was present for the first time since his recent surgery, and as the current District Governor of Northwest Texas Rotary District 573, reported the district in excellent shape, and that he and his wife, Grace, had made all their official club visits before he became ill.

Fred McGinty, who was in charge of the program, cited many changes since he arrived 60 years ago on January 5th.

Eudy Named Easter Seal Representative

W. H. Eudy will lead the 1975 Easter Seal Appeal in Lynn County, it was announced by Thomas N. Jenness, Jr. of Fort Worth, President of the Easter Seal Society of Crippled Children and Adults of Texas.

Residents in the county will receive traditional Easter Seal Appeal letters beginning February 15. The Easter Seal Appeal

is conducted each Spring to provide disabled persons and their families treatment and services. It will continue through Easter Sunday, March 30.

Eudy is one of 234 men and women throughout Texas who serve in this capacity to help meet the cost of the statewide Easter Seal program, which, assisted 20,152 handicapped Texans in 1974.

The Easter Seal Society and its statewide network of treatment centers and local volunteers spent \$1,410,902, financed by the Additional Spring Easter Seal Appeal and Fall Membership Drive. Over 90 percent of all funds raised remain in Texas to support the growing needs of the disabled in the state.

Special emphasis is being given in the 1975 Easter Seal Appeal to the disabled citizen who may need assistance and not know where to obtain it. Contact Eudy at First National in Tahoka to receive the simple, self-mailing request for service form. A determination of the extent and type of assistance needed, the most

efficient means of obtaining that assistance, and arrangements for qualified treatment or other services will be made by the Texas Easter Seal Society.

RAY ADAMS

Ray Adams Angus President

Ray Adams will serve as president of Texas Angus Association for 1975. Currently serving as vice president, he was elected to the top office at a meeting in Fort Worth January 27. The annual banquet was held at the Hilton Inn.

The new president gave the welcome address at the fourth annual Performance Tested Bull Sale and made the presentation of trophies to the champions. He was an official at the open show a presided at a board meeting held in the Stock Show offices.

The Texas Angus Association is a 900 member organization of registered and commercial Angus breeders throughout the state. Duties of the president include coordinating the work of the office and field man. The office is located at Fort Worth. He will preside at the Board of Directors meeting which is made up of 15 directors and 4 officers. Adams will represent the Angus breeders at field day and various functions held throughout the state.

Mrs. Ray Adams was recently installed as president of Texas Angus Auxiliary at a brunch held at the Hilton Inn. This is a first for husband and wife to serve as presidents of the organizations. They will attend the state functions together.

TRUCKING ATOMS - Orlan L. Ihms will bring a "This Atomic World" program to Wilson High School on February 12. The next day, it will be presented at Tahoka High. The presentation is sponsored by Texas A & M University.

Atomic Energy Program At Schools

A demonstration - lecture showing how atomic energy helps people will be presented February 12 and 13 at Wilson and Tahoka High Schools.

The program, titled, "This Atomic World," will acquaint students with basic principles and sources of nuclear energy. Its role in agriculture, industry, medicine and research will be described.

Orlan L. Ihms will conduct the 40 minute program sponsored by Texas A & M University's College of Engineering.

Using student terms, he will explain structure of atoms, nuclear reactor operation and concepts such as radiation, fission and fusion.

He will employ special elec-

tronic equipment to demonstrate how nuclear energy is harnessed

to generate electricity plus other applications. Use of radioisotopes in scientific studies will be depicted.

Ihms also will give a chalkboard talk to science classes. It will go into further detail on atomic structure, radioactivity, radiation biology and nuclear science careers, among other topics.

Specially trained in nuclear science, Ihms (rhymes with seems) has bachelor and master's degrees from Texas A &

M. He has presented "This Atomic World" in Texas schools more than three years.

Rep. E. L. Short Committee Chairman

Representative E. L. Short has been assigned Chairman of the Intergovernmental Affairs Committee this session by Speaker of the House Bill Clayton.

Short will also serve on the State Affairs Committee.

Chairman Short is one of 15 members of the Intergovernmental Affairs Committee which will have jurisdiction over matters pertaining to the creation,

Cliff Gardner Student Teaching

Cliff Gardner, son of Mr. and Mrs. Clifton Gardner of Box 1147, Tahoka, is fulfilling the

student teaching requirements for teacher certification this semester at McMurry College in Abilene.

Cliff, a senior physical education major, is teaching at Lincoln Junior High School.

Cliff is a 1971 graduate of Tahoka High School.

Farmers To Borrow PCA Money

Qualified farmers and ranchers should be able to borrow the production money they need for 1975 at gradually declining interest costs, Don Boydston, Lubbock Production Credit Association vice president, said today.

Boydston said projections are that the gradual decline in money costs will continue. "By June PCA farmers and ranchers should be paying from 1 to 1 1/2 percent less for their borrowed money."

The PCA officer said that his organization's method of obtaining money ensures an adequate supply for his stockholders in 1975. Funds for the Association are obtained through the public sale of bonds.

"Our main concern," Boydston stated, "is that our members will not be able to tighten their belts enough to meet the increased production costs that we know are here to stay -- at least for awhile. Necessities are about all our members can afford now. 'Needs' and 'wants' are going to have to wait for better times."

Lubbock PCA provides loan funds for farmers and ranchers in Cochran, Crosby, Gaines, Garza, Hockley, Lubbock, Lynn, Terry, and Yoakum counties.

Water, Inc. To Meet February 15

Rep. Bill Clayton, speaker of the Texas House of Representatives, will address the luncheon session of the Eighth Annual Water, Inc., Membership Meeting in Amarillo February 15. The annual get-together gets underway at 9 a.m. in the Sunburst Room, Quality Inn, I-40 East.

Clayton, a Springlake farmer who formerly served as executive director of Water, Inc., has become known as "Mr. Water" in the Texas Legislature. During his 12 years of service in the lower house, he has either authored or co-authored every piece of major water legislation that has been passed. By far the most exacting of this legislation was the water law recodification bill passed in 1973.

Other platform speakers at the area water promotion organization's annual meeting include U.S. Rep. Jack Hightower, State Senators Max Sherman of Amarillo and Kent Hance of Lubbock; Gen. James Rose, director of planning coordination, Office of the Governor; and Harry Burleigh, executive director, Texas Water Development Board.

Other activities in connection with the membership meeting include two meetings of the board of directors, one on Friday and the other immediately following the membership meeting. The latter is the board's annual session at which officers and members of the executive committee are named.

NEW HOME NEWS

by FLORENCE DAVIES

Mr. and Mrs. Bob Parker and Mr. and Mrs. Monroe Parker, New Home, James Parker, Lubbock and Mrs. Orvill Hughett of Welch went to Big Spring Friday for funeral services for Mr. J.B. (Gabe) Hammack. Mr. Hammack age 66, died at 11:00 p.m. Thursday in Monahans after a sudden illness.

Services were in the Temple Baptist Church in Big Spring with Rev. Draper, pastor, officiating. Survivors are his wife, Irene, two sons, Billie of Austin, and Kenneth of Fort Worth, one sister, two brothers, and six grandchildren. Mr. and Mrs. Hammack had been on a sight seeing trip to Arizona and were spending the night with his cousin Jack Butler and family, in Monahans. Shortly after retiring for the night he suffered a fatal heart attack. In June, Mr. Hammack retired as County Executive Director of the Agriculture Stabilization and Conservation Service office in Big Spring, after 37 years in government service. He was well known as he and his wife visited here often with cousins.

Mr. Jim Roach of Brownwood is in Room 690 Methodist Hospital for treatment and possibly back surgery. Mrs. Roach is staying here with their daughter, Mrs. Charles Brewster.

Mrs. Bertie Russell spent a few days last week in Union with her brother and sister in law, Mr. and Mrs. Rhea Pierce.

Mrs. A.M. Davis was dismissed from University Hospital and returned home, Wednesday. She had major surgery Wednesday, January 22.

Mr. and Mrs. Boswell Edwards returned Tuesday after visiting a week with their children, Larry and family in Arlington and Sylvia and family in Sweetwater. On the way down they stopped in Snyder for a visit with the Walters, Wayland, Ann and Bryan, who are slowly recovering from injuries in a car wreck November 23. The Edwards went to Denver City Friday and spent the night with Carlos and Don Mac.

Jeff and Menette Black, Cot-

ton Center, and Ricky Maloney and Kathy Feller of Mission, ACC students in Abilene, spent last weekend here with the Marlin Maloney Family.

Mr. and Mrs. Mike Sartin recently moved to New Home from Rankin. He is manager of Bob's 8 til Late Grocery in New Home.

Charles Armontrout was sick a few days last week. He and Amy are employed at the state school in Lubbock.

Mr. and Mrs. Alva Beaty of Hedsburg, California, and their daughter, Nancy Fagan, and three children of Hobbs, New Mexico, visited here last week with Mrs. Beaty's sister, Mrs. Clyde Smith and family and in Tahoka with Mr. and Mrs. Emmett Edwards.

Several from New Home were in Lubbock Friday for funeral services for Harold Lindsey, age 26. He was killed in a car wreck near Odessa Wednesday, January 29th. He was salesman for Brownie Cookie Company. Services were at 10:00 a.m. Friday in Sanders Funeral Home Chapel with Wayland Bruton, and elder, of Trinity Church, officiating. Burial was in the Resthaven Memorial Park. Survivors are his wife, Lynda (Farr), one daughter, Niki, and one son, Monty; his parents, Mr. and Mrs. O.T. Lindsey of Lubbock, three half brothers and one half sister, all of California.

Gary King, minister, of the New Home Church of Christ went to Phoenix, Arizona, Wednesday, January 22, where he was involved in a state wide Youth Revival. He also visited his parents, Johnie and Hazel King, and his sister, Sharon Chilton and family of Phoenix. Donna spent the week with her parents Joe and Bernedene Bollinger in Lubbock.

Mr. and Mrs. J. A. Evans and her brother and sister in law, Mr. and Mrs. Warren G. Waldrip of Lubbock went to Odessa Friday for the Golden Wedding Anniversary for their sister and brother in law, Mr. and Mrs. Charles O. Quillin of Seminole. The reception was at 7 p.m. Friday in the home of their daughter, Mrs. Bill Henderson

Tyran County News

and family, in Odessa. Daughters and granddaughters were hostesses for the lovely affair.

Miss Shirley Smith had major surgery Monday, January 27, in Highland Hospital. She was dismissed and returned home Saturday.

Mrs. Mattie Arms had further surgery Saturday in Methodist Hospital. She is in room 803. Woody Turner is making good recovery from surgery last week in Methodist Hospital. He expects to return home this week.

Mrs. Douglas Findley is in room 484 Methodist Hospital, Mr. Findley has farming interest in the New Home Community.

Mr. and Mrs. Wayman Smith were at Lake Whitney several days returning home Monday.

Mr. and Mrs. Leroy Nettles were in Stamford Friday to see her neice, Cindy Compton graduate from nurses school. Graduation exercises were in the Methodist Church. Leroy and Marjie went on to Ft. Worth to visit Von and Kenneth McClung, returning home Sunday.

Mr. and Mrs. Oscar Roamn and Mrs. Carol Riveras and Mrs. Susie Arzate of Austin went to Springfield, Missouri Friday to see their brother, Jessie Arzate who was ill. Returning Sunday, the Austin ladies left by plane Monday afternoon.

Mrs. Wes Duckett visited here Monday with Mrs. Bob Parker. The Ducketts live on Rt. 4 Lubbock where he is manager of the Barton Gin.

Mr. and Mrs. Gene Eades, Allen, and Andrea spent the week end at Possum Kingdom Lake, they didn't get to fish as it rained the entire time they were there.

Don McBrayer went to Ft. Worth to enter 10 of his roller pigeons in the Fat Stock Show. They won several 1st, 2nd, and 3rd places. Don visited his parents, Mr. and Mrs. R. A. McBrayer in Ft. Worth and with Nelda's aunt, Mrs. Lucille Roseman in Grand Prairie. He returned home Sunday afternoon.

Mr. Fritz Speckman is reported in stable condition in the monitor room in Methodist Hospital.

Mr. and Mrs. Jack Clements were in Lamesa Saturday visit-

ing with her brothers, Fred and Steve Barrington and their families. They attended promotion day at the Fred Barrington Chevrolet Inc. Bob Lilly, Dallas Cowboy who was to be guest arrived by plane over the city but was unable to land because of fog. He grew up with the Barrington boys in Throckmorton. Mr. and Mrs. Tommie Brannon and baby were also visiting in his parents home.

Renay McBrayer was the birthday girl at a party in her home Thursday afternoon to celebrate her 4th birthday. After Renay opened her birthday gifts; games were played, favors of hats and horns presented each child, and refreshments of birthday cake and punch were served to: Clint and Clay Forbes, Percy and Justin Haley, Jennifer and Blaine Fillingim, Scott Fillingim, and Scott, Tracy and Chuckie Smith, Lissa McBrayer. Mothers present were Carolyn Haley, Joy Smith, GG Fillingim, Shere Forbes, Shelia Fillingim, and Nelda Dollie Forbes, Delores, and Katie Clements.

Dinner guest in the Roger Blakney home Sunday were: Mr. and Mrs. Loyd McCormick of Lubbock and Mr. and Mrs. Russell McCormick of Wilson also, Misses Shelia McNeely and Lynda Sue Ford.

Visitors in the New Home Baptist Church Sunday included, Mrs. Loyd McCormick, Lubbock, and Lester Johel, of La Cross Wisconsin.

Sunday is ladies day in the New Home Baptist Church, so come out ladies and help us in a good program.

Thursday, February 6, 1973

Rites Held For Goldie Shadden

Services for Goldie Shadden, 80, of Lubbock were held at 4 p.m. Wednesday at Sanders Memorial Chapel. Officiating was Dr. Edmund W. Robb, pastor of St. Luke's United Methodist Church. He was assisted by the Rev. Leo Cole, pastor of the New Home Baptist Church. Burial was in the City of Lubbock Cemetery.

Mrs. Shadden died at 5:40 a.m. Tuesday at Methodist Hospital. A native of Omaha, she had lived in the Lubbock area since 1919. She was the widow of the late A. J. Shadden who farmed near Idalou and New Home. She was a member of St. Luke's Methodist Church.

Survivors include one son, J. W. of Idalou; three daughters, Mrs. Aubrey Smith and Mrs. E. R. Blakney, both of New Home and Mrs. Clyde Ashcraft of Tahoka; one sister, Mrs. May Duncan of Wolfe City; nine grandchildren; and 17 great grandchildren.

Palbearers were Sam Ashcraft, Benny Handley, Jerry Shadden, Bryan Shadden, Geraldine, Larry Brown, Kenneth Smith and Max Blakney.

Fred Barker Dies Monday

Fred Barker, former Tahoka and a Levelland banker for a number of years, died Monday night of a heart attack, the News was informed Tuesday.

He was formerly with First National Bank here.

THREE WAYS YOU SAVE WHEN YOU BUY A CHEVY

from **BRAY CHEVROLET**

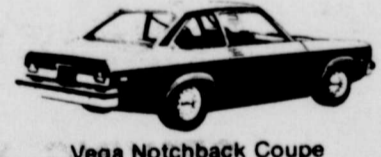

HIGH USED CAR VALUES COULD MEAN MORE FOR YOUR TRADE-IN.

Right now, most used car values are higher than they were one year ago for comparably aged and equipped cars, based on all three geographic zones as published in *Automotive Market Report*.

IMPROVED FUEL ECONOMY LOWERS OPERATING COSTS.

Thanks in part to Chevrolet's new Efficiency System (including High Energy Ignition, catalytic converter, Early Fuel Evaporation, outside air induction, steel-belted radial ply tires), most 1975 models deliver better gas mileage in both city and highway driving, as compared to comparable '74 models.

SAVINGS ON RECOMMENDED MAINTENANCE ADD UP.

Engineering advances plus the use of unleaded fuel mean '75 Chevrolet owners can look for substantial savings in money, time and bother through extended recommended maintenance intervals (oil and filter changes, chassis lubrication, spark plug replacement) as compared to comparable '74 models.

Come in and see how we can trim your transportation costs.

BILL GRIFFIN SAYS

Syntex Agribusiness, Livestock Genetics will be conducting an A. I. School in our Extension District (2) the week of February 10 - 14. Mr. Marvin Meeks, of Hi-Pro Feeds in Lubbock, is coordinating the school and can furnish tuition and curricula information.

The nematode is a microscopic pest that can cause lots of damage to field crops as well as home vegetable gardens. But help is available through the Plant Nematode Detection Laboratory operated by the Texas Agricultural Extension Service at Texas A & M University.

Nematode damage may be suspected when plants do poorly even after sufficient water and nutrients have been furnished, says Griffin, county Extension agent. Since nematodes damage

plant's root system, poor growth and unhealthy foliage are the results. Root knot nematodes form knots or galls on plant roots and cause severe damage to most garden vegetables.

Soil samples taken where nematode damage is suspected should be submitted to the laboratory in plastic bags to keep them from drying. Place the bag in a crush-proof cardboard box to protect it from damage.

Take soil samples from the root zone, advises Griffin. Nematodes will go as deep as roots penetrate and generally are located near root systems, where they have developed.

Both chemical and cultural means can help control nematodes. Several fumigants give effective control but must be applied two - to - four weeks before planting.

Lynn County News Cotton Classing Lowest Since 1950

Cotton classing volume was the lowest on the High Plains since 1950, according to Paul R. Dickson, in charge of the USDA's Cotton Classing Office in Lubbock. "We've had two years close to this season's total". "The 1967 crop of 1,117,000 and the 1971 crop was 1,121,000," he commented.

The USDA's Agricultural Marketing Service reported 20,000 samples were classed during the week ending Friday, January 31. This brought the season's total to 1,083,000. On this same date last year the total was 2,418,000, Dickson said.

Predominant grades this season were 41, 51 and 42. Grade 41 accounted for 21 percent, grade 51 was assigned to 23 percent and grade 42 was 28 percent of the samples. Last year the predominant grades were 31 and 41 at 26 and 46 percent respectively.

Twenty - nine percent of this crop was reduced one grade because of bark. Last Year's crop had bark reductions of 4 percent.

The average staple length this year was 31.7 thirty-seconds of an inch compared to 31.1 last year.

Micronaire readings in the premium range of 3.5 to 4.9 accounted for 20 percent of this crop compared to 81 percent last year.

Pressley strength averaged 83,000 pounds per square inch for both crops.

Prices paid farmers for mixed lots this week ranged from 16.48 cents for low mike cotton to 26.75 cents for premium mike cotton. Most lots brought 20.00 to 25.50 cents per pound. Demand was steady to fair for current ginnings and trading was steady to slow.

Prices paid to farmers for their cottonseed averaged \$122.50 per ton.

Texas Commission On Alcoholism

In the first quarterly report to the Texas Commission on Alcoholism, the South Plains Alcoholism Counseling Services Project served 147 clients, according to Joe Meador, Coordinator Counselor of the 14 county area project. The first quarterly report was for the months of October, November, and December.

Besides counseling the alcohol abusers and the families as well as alcoholics, counselors have initiated three Mexican - American Alcoholism Study Sessions and one Black Alcoholism Study Session. The counselors also have initiated two DWI classes for county probates in Garza and Crosby Counties.

Goal for South Plains Alcoholism Counseling Services Project is to reach 300 alcohol abusers and alcoholics and their families in Bailey, Cochran, Crosby, Dickens, Floyd, Garza, Hale, Hockley, King, Lamb, Lynn, Motley, Terry and Yoakum Counties.

Thursday, February 6, 1975 Kerr Glass Corp. To Make Refunds

The Kerr Glass Manufacturing Corporation will make refunds to consumers for all Kerr home canning lids that failed to seal and which were sold between November, 1973 and August 1974, and will reimburse home canners for food losses.

"We have now concluded that a relatively small, but unknown quantity of lids, which were not of the quality either we or the consumers expect, were inadvertently shipped to a few states," Mr. William A. Kerr, President of the 73 year old firm said today.

He said, "Consistent with our history of standing behind the products that bear our name, we are preparing a program for payment directly to consumers for Kerr lids that failed to seal and for food lost as a result for such failures."

The program will be announced shortly, according to Mr. Kerr.

"I personally regret the difficulties our customers suffered because of our sealing failures," Mr. Kerr said.

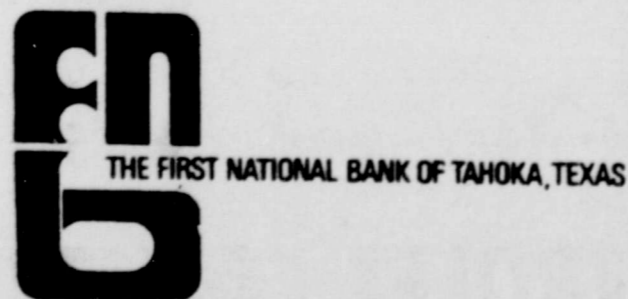

"Kerr Lid Sealing compound was modified in accordance with Federal Directives. Testing disclosed the first modification did not produce consistent results. The modifications were revised for 1974 shipments but inadvertently not all of the lids containing the modified compound were removed from shipments," Mr. Kerr concluded.

PERSONALITIES 1974-1975:

Personalities were elected by popular vote by the Tahoka High School Student body. Only juniors and seniors qualified for these positions: Most Likely to Succeed: Betty Curry and Cole Brecheen; Most Friendly: Gwes Sterling and Randy Strickland; Most Talented: Belinda Williams and Joe Don Nevill; Most School Spirit: Robin Stark and Richard Lopez; Most Athletic: Mitch Raindi; Most Dependable: Cindy Park and Johnny McDonald; Best Dressed: Marilyn Thomas and Lindy Thomas.

FACING THE FUTURE WITH CONFIDENCE

Today's young people face problems and uncertainties. But many of them are building for their futures on the solid ground of REGULAR SAVING. As one of them said: "It's one sure thing in an unsure world!"

FACTS FOR YOU

from Texas Farm Bureau

FOREIGN ASSISTANCE PROGRAM

This discussion deals with U. S. trade and sales transactions representing commercial programs which do not qualify as official development assistance. Specifically, they include Export-Import Bank loans and foreign military sales. This program cost the United States \$5,594.2 million for the fiscal year ending on June 30, 1973. The cost of the Export - Import Bank loans amounted to \$2,096.5 million which was 37.48 percent of the total. Foreign military sales amounted to \$3,497.7 million which was 62.52 percent of the total.

One nation, Iran, received \$2,292.0 million of this money which was 40.97 percent of the total. Of the \$2,292.0 million received by Iran, \$2,054.3 million or 89.63 percent of the total was credited to military sales. The following countries received more than \$200.0 million; Turkey, \$247.6 million; Republic of China, \$245.5 million; Spain, \$22.2 million; and the Federal Republic of Germany, \$216.4 million. Interest rates charged by the Export - Import Bank for the fiscal year ending on June 30, 1973 was 6 percent.

FOOD, FAMINE AND IDEOLOGY

"Food, Famine and Ideology" was the subject of an article released in the WALL STREET JOURNAL of January 20, 1975. The editor, Henry Luce, Professor of Urban Values at New York University and co editor of the quarterly, THE PUBLIC INTEREST. He is also a member of the WALL STREET JOURNAL's board of contributors. The distinguished professors who contribute periodic articles reflect a broad range of views. The editor of the article, "Food Famine and Ideology" outlined the reasons for food famine as follows: "There are three main reasons for the current short-ages and threat of world famine which it evokes. These are: (1) Russia, (2) China and (3) India." Editors note: The general idea that whenever the Socialist doctrine is put into effect, it, in reality, destroys any semblance of adequate production. Socialism is defined as government's control of the production machinery with in the form of ownership, or (b) state system of management.

LIVESTOCK AND MEAT FOREIGN TRADE

Printed on page 23, is USDA's Foreign Agriculture's latest report of U. S. exports of meat and selected livestock products. These figures are all expressed in product weight. Total exports of all red meat and its products for the January - September 1974 period at 124,968,000 is only 23 percent of the 204,089,000 reported during a similar period of 1973. Live animals exported during the January - September 1974 period showed a considerable decline when all animals are included.

Printed on page 24, in USDA's Foreign Agriculture Service latest report with regard to U. S. exports of meat and selected livestock products. All figures are expressed as product weight. Total red meats imported during the January - September 1974 period at 1,226,969,000 lbs. is 40 percent of the 1,410,156,000 lbs. of red meat imported during a similar period of 1973. Live cattle imported during the January - September 1974 period at 536,754 is only 75.86 percent of the 707,561 cattle imported during the similar period

of 1973. Hogs imported during the January - September 1974 period were 174,129 head and was 264.6 percent of the 65,809 imported during a similar period of 1973.

MINIMUM WAGE INCREASE:

Farmers and ranchers who are covered by the Federal minimum wage law are required to raise their hourly pay to \$1.80 per hour on January 1, 1975. There is also a change in the method of determining coverage under the law. The standard is still the same -- 500 - man days in any calendar quarter of the preceding calendar year, but in figuring man - days, the only labor that can be excluded is parent, spouse, child, or other member of that employers immediate family. (See FACTS FOR YOU, 1974, page 79)

STATE ASCS COMMITTEE:

The U. S. Secretary of Agriculture has announced the re-appointment of all members of the Texas State Agriculture Stabilization and Conservation Committee. The committee is as follows: Charles L. Calhoun, El Paso County, was renamed Chairman. Members are Harold W. Thomas, Eagle Lake; Don Ray Crook, Childress; Alfonso Margo, Rio Grande City; and Pat L. Northcutt of Silverton. John E. Hutchinson; Director of the State Extension Service, is an ex officio member of the committee (TEXAS NOTICE (1975) -IM-4, Press Release 6)

State ASCS Committee is responsible for administration of farm action programs such as the voluntary feed grain and wheat programs, price stabilization measures, acreage allotments and marketing quotas, farm storage facility loans, programs under the Sugar Act and related Agricultural Stabilization and Conservation Service activities as directed by the U. S. Secretary of Agriculture.

DELEGATES NAMED FOR CUBA TRIP

The ZAVALA COUNTY SENTINEL of January 16, 1975 announced that four members of the Raza Unida Party in Crystal City will be among a group of party members scheduled to visit Cuba in the near future.

Making the trip at the invitation of the Cuban government will be Zavala County Judge Jose Angel Gutierrez from Crystal City, Crystal City Independent School District Superintendent Amancio Cantu, City Manager Ezequiel Guzman, and Elpidio Liz-

cano, director of one of the school's bilingual programs. Other persons participating in the program are as follows: other Texans included in the delegation are Abel Cavada of Kingsville and Roberto Maggiano of Austin. Carlos Guerra of San Antonio has been named as alternate.

Other RUP members scheduled for the trip are Daniel Zapata and Sharon Dellalo of California; Manuel Sepulveda and Mario Garza of Michigan; Francisco Rodriguez and Ernesto Chacon of Wisconsin; Angel Moreno of Illinois and Lupe De Leion of Indiana. (ZAVALA COUNTY SENTINEL, January 16, 1975)

The County Judge was quoted in the article as saying that the Cuban government would pay the expenses of the 10 - day tour.

PROPERTY RIGHTS

County Farm Bureau leaders will recall several years ago that two farmers and ranchers from Zavala County appeared at the Education and Research Con-

ference held in connection with the State Convention. These people outlined to the Conference the very critical situation that existed in Zavala County with regard to freedom and the right to own property. It appears now that the local government has been completely taken over by a group of radicals who receive practically all their finance from the federal government.

The following was printed in the Zavala County Sentinel of January 9, 1975 with regard to the ownership of land and taxation:

A reassessment for tax purposes of all land in Zavala County is one of the highest priority projects of County Judge Jose Angel Gutierrez, who was sworn into office last Wednesday.

Gutierrez said Tuesday that no action toward making the reassessment has been taken yet, but that he does want the land assessed at a rate closer to its real value.

Noting that Del Monte Foods, Inc. owns land and has processing plant in Zavala County, Gutierrez said "I would guess-- and I'm just guessing, I don't have statistics yet -- that on the basis of a reassessment, Del Monte will be paying five times as much in taxes on its land as it's paying now."

Another project of the new judge is to obtain land from the owners for a communal - type farming operation.

"With such big holdings assessed at a rate closer to their real value, come ranchers will be ready to sell or lease some of their land to the county," he said. "The right of eminent domain will be invoked to obtain decent land that can be used to provide work for the people of the area."

"Twenty - six gringos own 87 percent of the land in this county," he said. "We think this is against the public welfare. Using arguments couched in the language of eminent domain we can take some of the land away for the public welfare."

Gutierrez said that eventually he hoped to take over a million acres of farm land in the county, " but I'll settle for 10,000 or 20,000 acres the first year."

The Raza Unida administration will need help in organizing and administering the land it acquires, he said. "All of us know how to hoe and weed, pick certain crops. But we don't know management or marketing. We'll have to fine people to come in and help us."

Taking over land in this way was a central theme of Gutierrez's campaign. He noted that his supporters were "ticked pink" over the idea. "Some of them think I'm crazy and that it can't be done, it won't work. But they'd sure like to believe it will work."

Gutierrez admitted that it would create quite a storm "among the people we take it from, but it will be an even bigger storm among those who get it. We're talking about wages and a share of the profits." (ZAVALA COUNTY SENTINEL January 9, 1975)

FREEZONE IS FOR CORNS THAT HURT.

Why fool around with painful corns, when Freezone can help you remove them. Try it. You'll see. In just days, the corn will be gone... the hurt will be gone. Painlessly. No dangerous cutting. No ugly pads or plasters. Drop on Freezone - take off corns.

FARM CENSUS TIME AGAIN - Farmers and ranchers throughout the United States are being asked to report on their agricultural operations during 1974. The 1974 Census of Agriculture is the 20th nationwide farm census since the first one in 1840. Report forms are mailed out in January and the Bureau of the Census would like to have them filled out and mailed back promptly. All information is confidential by law. The results, published only in statistical form, provide the yardstick by which American agricultural advancement is measured every five years. No information can be released which might reveal the operation of an individual farmer or rancher.

Spending each day since writing last week, in school, has not left me much time to gather news items. Sorry if you tried to reach me. Please try again. At latest report, Mrs. Carter, having returned from the hospital on Sunday, is doing well at her home, after her surgery, Thursday. She expects to be back in her school room on next Monday.

Mr. and Mrs. C. W. McClintock parents of Mrs. Johnny Littlepage, have moved to Morton and will make their home there, where they have two sons. Their home has been at Golden Manor for the past two years, and residents there are really missing having them for good neigh-

bors.

Visiting here from Wichita Falls, Mr. and Mrs. J. A. Shawn spent several days in the home of Mr. and Mrs. W. E. Shawn, his brother. On Sunday the two couples went to Abilene for a short visit with an elderly aunt. On the return trip they went by Colorado City to see Wayne Shawn family.

The 88 Club met with Mrs. Ora Curry on Friday night.

Ruth Koch and Leona Waldrip visited with Leta Brown in Lubbock Sunday afternoon.

Rev. Jim Turner will be leaving Saturday for Columbus, Ohio, where he will hold revival services in the church pastored by Rev. James Efrid. James

Lynn County News

Hollars is the minister of music and youth. Both are formerly of the First Baptist Church here. Bro. Turner plans to be back in his pulpit here on the following Sunday after the week's services.

Letter to the Editor

Dear Editor:

The controversial Equal Rights Amendment (ERA) will be the 27th Amendment to the Constitution of the United States when it has been ratified by 38 States. Two states, Nebraska and Tennessee, have already rescinded their ratifications.

Below is an article proposed by Senator Sam Erwin to replace the current E.R.A. This is quoted directly from the Congressional Record.

"Section 1. Equality for rights under the law shall not be denied or abridged by the United States or by any State on account of sex. The provisions of this article shall not impair the validity, however, of any laws of the United States or any state which exempt women from compulsory military service, or from service in combat units of the Armed Forces; or extend protections or responsibility for the support of children; or secure privacy to seduction, or other sexual offenses.

Section 2. The Congress shall have the power to enforce the provisions of this article by appropriate legislation.

Section 3. This amendment shall take effect two years after the date of ratification."

For 9, Against 82 ... This was defeated as it reads above. The accepted Equal Rights Amendment is the underlined part only.

Senators John Tower and Lloyd Bentsen of Texas were listed among those voting against this article in its entirety. Don't be led to believe we (the voters) ratified this amendment 4 to 1. We have never, nor, will we ever, vote for this amendment to be added to the United States Constitution. This is voted on only by our legislators.

Under the State Equal Rights Amendment, 22 Texas laws are currently being changed to comply. If the 27th Amendment (National Equal Rights Amendment) is made a federal law, over 400 Texas laws could be affected.

PROponents of ERA ARE YOU TRYING TO MAKE ME BELIEVE THERE IS NO DANGER IN RATIFICATION OF THE EQUAL RIGHTS AMENDMENT???????????

I'M NOT CONVINCED!!!! Submitted by: Mrs. Douglas Simpson, 4401 49th Street, Lubbock, Texas 79414; and Mrs. Robert Welch, 4007 48th Street, Lubbock, Texas 79413.

THS Beauty Contest Feb. 21

The annual THS Most Beautiful and Most Handsome contest will be held Friday, February 21, at 7:30 p.m. in the high school auditorium. Everyone is invited to attend.

LOCAL:
Wade Holland fell while loading some hogs at the A. D. Riddle farm and injured his shoulder, hip and ribs. Nothing was broken, but was badly bruised. He wants to thank all of those who came by to see him and asked about him at the store and domino hall.

LOCAL:
Larry Durham of Lubbock and Mr. and Mrs. John Edwards of New Home attended the wedding ceremony of Mary Alyce Mosser and Dale Joseph Wimmer, January 18, in St. Joseph's Catholic Church in Slaton.
Monsignor Peter Morsch performed the couple ring ceremony. Parents of the couple are Mr. and Mrs. Hugo Mosser and Mr. and Mrs. A. A. Wimmer, all of Slaton. Mrs. Larry Durham was bridesmatron.

Pesticide Certification Law Needed

AUSTIN-- Certain restricted-use pesticides will not be available in Texas after October 1976 unless legislative action is taken in the next session.

According to Agriculture Commissioner John C. White, the action is needed for Texas to implement a pesticide certification program in compliance with the Federal Insecticide, Fungicide and Rodenticide Act of 1972.

Under the law every state must submit a plan for certifying applicators of restricted-use pesticides to the Environmental Protection Agency (EPA) during or before October 1975. The plan will go into effect a year after that date.

Certification will be necessary for commercial applicators, farmers, ranchers, apartment owners and individuals using the restricted pesticides.

Pesticides on the list will be those deemed by the EPA as causing unreasonable, adverse effects on the environment when used in commonly accepted practices.

The Texas Department of Agriculture is the state agency responsible for carrying out the provisions of the law in Texas.

Club To Sponsor Blood Drive

The Phebe K. Warner Club will sponsor a blood drive at the United Methodist Church, Thursday, February 13, from 4 p.m. to 8 p.m. Blood Services of Lubbock will be on hand and hope all eligible donors will respond. This is a volunteer blood donor program and extends services to 38 hospitals in a 23 county area. An added incentive for donating is that when you become a donor, Blood Services will take responsibility for blood center charges which you and your spouse or children may incur within a six month period following your donation, with the exception of treatment for hemophilia. All healthy

Lynn County News

persons between 17 and 65 are urged to come and donate. For additional information call 998-4873.

Lutheran Church Prayer Breakfast

The St. Paul Lutheran Church in Wilson will have a prayer breakfast Ash Wednesday, the beginning of Lent, February 12, at 8:30 a. m.

Coffee and sweet rolls will be served. Everyone is invited.

Letters are sent by the Veterans Administration to each man and woman as they leave military service, urging them to take advantage of veteran's benefits. A second letter is sent six months after the person's separation date.

Expert Recommends Checking Cotton Seed Crop

Cotton farmers planning to save seed from their 1974 crop should be sure it is high in germination and low in free fatty acid.

"Most farmers check germination closely but may not be aware of the importance of the free fatty acid content," points out Dr. Robert Metzger of College Station, cotton specialist for the Texas Agricultural Extension Service.

"Free fatty acid is a by-product of seed deterioration so its content should not be more than one per cent. Seed exposed to long periods of wet weather prior to harvesting or subjected to poor storage after harvesting generally will have a higher acid content, indicating considerable seed deterioration," said the Texas A & M University System specialist.

The acid content of cottonseed is especially important this year since much of the 1974 cotton crop suffered from wet weather this fall, explains Metzger.

He said cottonseed delinting plants commonly use the one per cent level of free fatty acid as the breaking point in saving or rejecting seed for planting purposes.

"Seed with a high acid content often shows a high germination test, initially, but these seed will deteriorate rapidly in storage and germination will drop," he explained. "Of course, a low acid content does not insure top quality seed. Immature seed may be low in free fatty acid content."

Metzger advises producers against saving cottonseed for planting that has two per cent or more free fatty acid. Seed delinting companies can assist producers in obtaining an acid test on their planting seed. Numerous laboratories in the state also are equipped to check the acid content of cottonseed.

"Get your seed tested and then store it in a dry location," says Metzger. "The use of high quality planting seed is important in getting a crop up to a good stand and growing vigorously."

COTTONSEED DELINTERS INC.
Tahoka, Texas Ph. 998-4115

Rains Benefit Farm Country

Six days of mist and slow rains, although totalling only 1.02 inch, have been of material benefit to this farm area.

This brought the precipitation so far this year to an above average 1.35 inches. Average rainfall for January is only .60 inch and for February the average is .65 inch.

There was already a deep season in the ground from fall rains, and this added moisture is of great benefit as showers in April and May will permit planting.

The local observer for the National Weather Service reports .08 recorded last Thursday morning, .03 on Friday morning, .27 on Saturday morning, .03 on Sunday, .03 on Saturday, .03 on Sunday, .48 on Monday and .13 on Tuesday for a total of 1.2 inches.

THS Beauty Contest Feb. 21

The annual THS Most Beautiful and Most Handsome contest will be held Friday, February 21, at 7:30 p.m. in the high school auditorium. Everyone is invited to attend.

LOCAL:

Wade Holland fell while loading some hogs at the A. D. Riddle farm and injured his shoulder, hip and ribs. Nothing was broken, but was badly bruised. He wants to thank all of those who came by to see him and asked about him at the store and domino hall.

LOCAL:

Larry Durham of Lubbock and Mr. and Mrs. John Edwards of New Home attended the wedding ceremony of Mary Alyce Mosser and Dale Joseph Wimmer, January 18, in St. Joseph's Catholic Church in Slaton.

Monsignor Peter Morsch performed the couple ring ceremony. Parents of the couple are Mr. and Mrs. Hugo Mooser and Mr. and Mrs. A. A. Wimmer, all of Slaton. Mrs. Larry Durham was bridesmatron.

Pesticide Certification Law Needed

AUSTIN--Certain restricted-use pesticides will not be available in Texas after October 1976 unless legislative action is taken in the next session.

According to Agriculture Commissioner John C. White, the action is needed for Texas to implement a pesticide certification program in compliance with the Federal Insecticide, Fungicide and Rodenticide Act of 1972.

Under the law every state must submit a plan for certifying applicators of restricted-use pesticides to the Environmental Protection Agency (EPA) during or before October 1975. The plan will go into effect a year after that date.

Certification will be necessary for commercial applicators, farmers, ranchers, apartment owners and individuals using the restricted pesticides.

Pesticides on the list will be those deemed by the EPA as causing unreasonable, adverse effects on the environment when used in commonly accepted practices.

The Texas Department of Agriculture is the state agency responsible for carrying out the provisions of the law in Texas.

Club To Sponsor Blood Drive

The Phebe K. Warner Club will sponsor a blood drive at the United Methodist Church, Thursday, February 13, from 4 p.m. to 8 p.m. Blood Services of Lubbock will be on hand and hope all eligible donors will respond. This is a volunteer blood donor program and extends services to 38 hospitals in a 23 county area. An added incentive for donating is that when you become a donor, Blood Services will take responsibility for blood center charges which you and your spouse or children may incur within a six month period following your donation, with the exception of treatment for hemophilia. All healthy

Lynn County News

persons between 17 and 65 are urged to come and donate. For additional information call 998-4873.

Lutheran Church Prayer Breakfast

The St. Paul Lutheran Church in Wilson will have a prayer breakfast Ash Wednesday, the beginning of Lent, February 12, at 8:30 a.m.

Coffee and sweet rolls will be served. Everyone is invited.

Letters are sent by the Veterans Administration to each man and woman as they leave military service, urging them to take advantage of veteran's benefits.

A second letter is sent six months after the person's separation date.

Expert Recommends Checking Cotton Seed Crop

Cotton farmers planning to save seed from their 1974 crop should be sure it is high in germination and low in free fatty acid.

"Most farmers check germination closely but may not be aware of the importance of the free fatty acid content," points out Dr. Robert Metzger of College Station, cotton specialist for the Texas Agricultural Extension Service.

"Free fatty acid is a by-product of seed deterioration so its content should not be more than one per cent. Seed exposed to long periods of wet weather prior to harvesting or subjected to poor storage after harvesting generally will have a higher acid content, indicating considerable seed deterioration," said the Texas A & M University System specialist.

The acid content of cottonseed is especially important this year since much of the 1974 cotton crop suffered from wet weather this fall, explains Metzger.

He said cottonseed delinting plants commonly use the one per cent level of free fatty acid as the breaking point in saving or rejecting seed for planting purposes.

"Seed with a high acid content often shows a high germination test, initially, but these seed will deteriorate rapidly in storage and germination will drop," he explained. "Of course, a low acid content does not insure top quality seed. Immature seed may be low in free fatty acid content."

Metzger advises producers against saving cottonseed for planting that has two per cent or more free fatty acid. Seed delinting companies can assist producers in obtaining an acid test on their planting seed. Numerous laboratories in the state also are equipped to check the acid content of cottonseed.

"Get your seed tested and then store it in a dry location," says Metzger. "The use of high quality planting seed is important in getting a crop up to a good stand and growing vigorously."

Rains Benefit Farm Country

Six days of mist and slow rains, although totalling only 1.02 inch, have been of material benefit to this farm area.

This brought the precipitation so far this year to an above average 1.35 inches. Average rainfall for January is only .60 inch and for February the average is .65 inch.

There was already a deep season in the ground from fall rains,

and this added moisture is of great benefit as showers in April and May will permit planting.

The local observer for the National Weather Service reports

.08 recorded last Thursday morning, .03 on Friday morning, .27 on Saturday morning, .03 on Sunday, .03 on Saturday, .03 on Sunday, .48 on Monday and .13 on Tuesday for a total of 1.2 inches.

GENEALOGY CAN BE FUN

Genealogy by any other name is still ... digging in the past! What's your bag? Are you doing your "thing" in oils, or collecting stamps or butterflies?

According to the New York Times, Antiques are "an expanding U. S. business."

From California to Tennessee, whether it is cultural antiques, collectibles, or junk "spelled JUNQUE" the thing is collecting Barb wire, old telephones, old coke bottles and bottle collecting in general, telephone pole insulators, barber poles, bath tubs, wood stoves, cast iron wash pots (also used for bathing and

making lye soap), wash boards, cream cans and butter churns are but just a few of the many items that are the "in" thing to collect.

Who collects "Americana"? People from all walks of life, all ages and all cross sections of the country. "These things just take people back to their childhood." "People want to identify with the past. They'll say that the brass bed was their grandmother's or the barber pole was their uncle's," said dealers in both East and West coast areas.

But how about collecting something that really belonged to your

Lynn County News

great uncle or your great great grandfather, and belongs to you at the same time? If you like digging into old attics, or dusty trunks or browsing through old musty books and family correspondence, you may discover some surprises uniquely your own. This writer found the family brand and had the registration updated.

What is genealogy? The dictionary says "the recorded history of the descent of a person or family from an ancestor or ancestors. The science or study of family descent, pedigree, lineage." Collecting ancestors can be every bit as rewarding as "antiques" and while searching for a lost ancestor, you may find the "perfect antique" to add to your collection of fruit jars or barbed wire, or "old embalming fluid" jars (\$25.00 with label in Portland Oregon.)

"Ancestor hunting" concerns the past and how on far in the past you ancestry extends, depends considerably on the researcher. No particular skill is required for research in genealogy beyond the ability to decipher poor handwriting and the willingness to make careful notes and recording accurately the

sources of information.

There are genealogists who do research as a profession, from searching in specific areas to complete family trees including family crests when applicable. More "collectors" prefer to do their own research. For them, it is similar to a fox hunt, the fun is in the "chase," or search.

On a leaflet published by the Everton Publishers of Logan, Utah, the question is asked, "Are you proud of your ancestors? Would you like to know more about them? There are several ways to compile your genealogy. Some writers gathered their genealogy and the history of the communities where they settled and wrote of the daily events

Thursday, February 6, 1975

concerning community and home. Some compilers are only interested in the pedigree from present to past.

Faye Melton of Grassland weekened with Joyce Bailey, visiting several families in the community.

James Williams and daughter, J-Lynn improving from recent illness.

Graham Hensley auction well attended by former area residents as well as local friends and neighbors.

The Noel Caswells visited with daughters Linda and Cathy in San Angelo last weekend.

LYN

BASKETBALL

By George Glenn

Friday night the Bulldogs started the second half of district play with a pressure-packed 60 - 57 victory over the Slaton Tigers. In a game that saw the lead switch from team to team for 3 quarters, Slaton led 13-12 at the quarter. Tahoka led 31 - 27 at the half, the lead went back to Slaton 45-41 at the end of the third quarter. The Tigers extended their lead to 10 points in the fourth quarter, but the Bulldogs refused to fold, applying pressure to the Tigers who were trying to control the ball, and slow the game down, the Bulldogs came up with timely steals and interceptions and when they got the ball, they looked for and found hot shooting David Graves, who responded with 5 baskets from the right corner. Trailing 58 - 57 with just seconds left on the clock, Slaton inbounded the ball, was met just as they crossed the center line, tried to pass off, but the ball was picked out of the air by Mitch Raindl who drove for a lay up as the clock ran out.

Scoring had Graves with 24, Moore 13, Botkin 11. Rebounds Raindl 10, Botkin 5, Steals Botkin 5, Graves 3. Press turnovers 26 and the team shot 39 percent. The Bulldogs lead the second half of district play 1 - 0, as Post was defeated by Roosevelt and Denver City fell to

Cooper. Tuesday, February 4, the Bulldogs are at home against Post, and Friday, February 7, they travel to Denver City.

Tuesday January 28, the Varsity Boys traveled to Shallowater and came away with an 88 - 73 victory. The Bulldogs trailed 19 - 14 at the end of the first quarter, pulled into a 4 point lead (40 - 36) at the half. Held onto their 4 point lead 59 - 55 through the third quarter, but outscored the Mustangs in the 4th quarter (29 - 18) to win by their 15 point margin. The Bulldogs

Lynn County News

had 5 players scoring in double figures, led by Graves 23 points, Moore 22, Raindl 19, Botkin 10 and Dodson 10. Rebounds Raindl 7, Graves, Bailey, and Moore 5 each. Steals, Botkin 9 and Graves 5. Press turnovers were 33 and the team shot 44 percent.

Art Association Has Meeting

The Lynn County Art Association met January 28th for their regular monthly meeting. Mrs. James (Julie) Storie of Lubbock presented the program. She held a class on drawing, using her sister, Gabrielle Jacobsmeier of Lubbock as the model. Ed Redwine was host. Eighteen members were present and the club hand books and by - laws were handed out.

The next meeting will be February 25th with Ed Redwine to present the program on perspective drawing.

All present were urged to be there and prospective members are welcome also. These meetings are very entertaining and helpful.

BRIDGE WINNERS:

Winners in the annual ACBL Membership bridge game last week were: Mrs. Meldon Leslie and Frank Hill, first; Mrs. Jess

Gurley and Mrs. Coyle Collier, second; and tied for third and fourth were Miss Echo Milliken and Mrs. Lillian McCord and Mrs. Frank Hill and Mrs. Audie Norman.

Tex Watson talks about

The Cost of Natural Gas

It's logical that Pioneer customers should ask why they are paying more for the energy they use in their homes. We are eager to have them understand why.

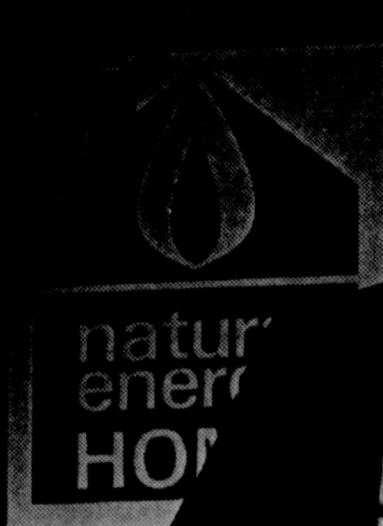

There is a lot of natural gas in West Texas, but we still must buy the gas in competition with other gas users across the country. To assure the people of West Texas that they will have the gas they need, now and in the future, we must pay the going price for new gas. Not only gas for our homes is involved, but most people's jobs depend on gas to run business and industry.

The gas is available, but we must pay the going price to get it. That price is reflected on your gas bill as a "cost of gas adjustment." I'm sure you don't like it. Neither do I. But I'm sure you agree that we must have the gas to run the homes and businesses of West Texas.

All energy will cost more in the future, but be assured that the Natural Energy Home will still be the way to go.

PIONEER NATURAL GAS COMPANY

Earl Nightingale internationally known lecturer and broadcast personality

K. Bert Tex Watson, president of Pioneer Natural Gas Company, a subsidiary of West Texas Industries, Inc., speaks and lectures frequently throughout the state with a special emphasis on

TEXAS TALK

By Fred Myers

COTTON PLANTING — Temperatures, even when considerably above freezing, severely limit the growth of cotton. This is especially true for planting time. It is generally agreed that cotton emerges faster and grows better when the seeds are not planted until the soil temperature 8 inches below the surface stays above 60 degrees fahrenheit for at least ten days. Depending on who is running the figures, average planting time for cotton on the Plains of Texas is either May 3rd or 4th.

MAJOR GROUPS — Formal designation of the three major cotton groups is described by authorities as: Asiatic Diploid, American Diploid and American Amphidiploid. Polynesian hybrids are generally grouped with the American Amphidiploid. Diploid refers to the composition of the cotton cell. Hybrids are developed to improve staple qualities, shorten growing season and enhance drought resistance.

SOIL CONSERVATION NEWS

Cotton is still king in Lynn County. But, many farmers are looking at the price of cotton in comparison with wheat and Grain Sorghum and will shortly have to decide which way to go and how far. Along with this is the stark reality that the price rise in 1974 greatly raised operating cost on all crops. This cost must be reduced. One way is to reduce the number of trips over the field. This is one reason why the idea of minimum till or no-till farming is edging closer. For this concept to work there must be large amounts of residue on the land each year

or at least every other year. This means that high residue producing crops such as small grain and grain sorghum must be included in the rotation. Looking at the price of grain this may be the year to start. Some land users are looking at the trouble spots in their fields and are considering continuous wheat all residue left on the field, and no cultivation. Weeds and volunteer grain will be controlled with improved chemicals and with careful use of existing ones. Other land users are finding dryland grain sorghum can be worked the same way. These

Lynn County News
practices also reduce moisture loss, wind and water erosion, and makes fertilizer go a lot further. With all this going for it, no wonder more people are taking a second look.

Mrs. White Hosts Phebe K's

Phebe K. Warner Club met January 28 at 4 p.m. in the home of Mrs. Binie White. The program was entitled "1600 Pennsylvania Avenue", and was a colorful history of the White House. Pictures showing each room were shown through the use of an opaque projector. Mrs. Jim Wells brought the program, with the help of Mrs. Mike Huffaker who showed the pictures. Mrs. Wells also told many interesting stories of things that took place in the White House.

In a short business meeting the club voted to place the books used on the White House and the Presidents in the Tahoka High School Library as part of their Bi-Centennial activities.

Roll call was answered with a favorite presidential family member. The meeting was dismissed with a prayer for America by Mrs. Wendall Patterson.

A. E. Leverett is a patient in Lynn County Hospital after having suffered a stroke last Friday.

Thursday, February 6, 1975

Carolyn Haley Says...

The first inclination of the overweight person who has just decided to become thin again is to cut all carbohydrates. But to diet and also have a balanced diet, crash dieters will find it helpful to know that a half cup serving of rice contains only 82 calories.

In addition to supplying needed carbohydrates, rice has another advantage for dieters as well as others -- it contains a substantial number of important nutrients. Besides its food energy, rice provides iron and other minerals and some of the B-complex vitamins. The protein in rice, while limited, is composed of all eight of the essential amino acids in the proper proportions to be effectively utilized.

Closely tied to the nutritional values of rice in the diet are some other very practical factors many of them important to certain individuals. Here is a brief review of them:

1. Rice has a low fiber content which renders it 98 percent digestible, and rice is dig-

gested in about an hour, compared with two to four hours for most other foods.

2. Rice is low in sodium, low in cholesterol and gluten free -- additional characteristics which make it well suited to those on restricted diets.

3. Rice is non-allergic -- another advantage when selecting foods that are suitable for use with a wide range of diets or a large audience.

4. Rice has a pleasantly bland flavor which absorbs and blends well with the flavors of almost any other food, increasing its usefulness on the menu.

5. Rice extends the flavor of other foods, which either coat the rice grains or are absorbed by the rice, thus creating a dish that is fuller in flavor as well as in bulk.

6. Rice, although subject to the same pressures of inflation as other foods, still costs less than four cents per half cup serving, a small portion of the food costs of a meal. Served by itself or with some flavorful variation, it becomes the filling side-dish that every meal needs.

RECIPE OF THE WEEK:
SPICY PIZZA SURPRISE
To make crust, combine 3 cups cooked rice, 2 beaten eggs, and 1 cup shredded Mozzarella Cheese. Press firmly into a 12 inch greased pizza pan spreading evenly with a spatula. Bake at 450 degrees for 20 minutes.

For topping, combine 2 cans (8 ozs, each) tomato sauce, 1/2 teaspoon oregano, 1/2 teaspoon basil, and 1/2 teaspoon salt. Spread evenly over the rice crust. Top with 1 cup shredded Mozzarella cheese and 2 tablespoons grated Parmesan cheese. Bake 10 minutes longer. To serve, cut in wedges.

New Home Livestock Show

Judging for the New Home Stock Show will start at 10:00 a.m. Saturday morning, February 8. Bobby Lee, Vocational Ag. Teacher from Wilson will serve as judge this year.

Judging will start with barrows after lunch we will complete barrow judging and start judging lambs.

We want to welcome each and everyone of you out to our stock show. We should have between 110 - 125 barrows and about 25 to 30 lambs.

Remember all FFA & 4-H members in New Home Community, all livestock will be accepted from 2:30 p.m. until 6:00 p.m. Friday, February 7, 1975, at Mach's Barn.

Scout Leaders Has Session

Final plans were made for the Girl Scout cookie sale which starts February 21 and ends March 8. A sesame cracker has been added to the usual five choices of cookies. Cookies will sell for \$1.25 per box this year with .15 cents per box going to the troops and 65 cents to the girl scout camp and council. Girl Scouts in Tahoka will meet at church together March 9 the first day of Girl Scout week. There will be a Father-Daughter supper on March 11. A program and entertainment will be provided. Prizes will be awarded to the best decorated boxes. There will be an area meeting on March 20. Final day camp plans will be made at this time. Day camp will be held in Wilcox this year with Mrs. Onetta Steinhilber as director.

The Girl Scout fund drive will start with a kick-off coffee on April 7 and end April 18. This is very important for the continuation of the Girl Scout program. We have 90 girls and 20 adults registered with Girl

Scouts in Tahoka. We can't continue having an active Girl Scout program without the backing and support of our town.

Following the meeting, a surprise salad luncheon and bridal shower was held at the Methodist Church, honoring Miss Patricia Schindler, our field representative. Leaders from O'Donnell joined us for the luncheon and shower.

SWPS Employees Receive Awards

Three Tahoka employees of the Southern Division of the Southwestern Public Service Company were honored Tuesday, February 4th at a Safety Breakfast. The awards presented by Mrs. Lloyd Davis, Division Superintendent, to the employees working without a lost time accident during 1974.

Harold Roberts was presented a Presidential Citation for notable achievement in accident prevention as a supervisor for successfully completing the year without injury to any personnel under his supervision.

Pat Patterson received a Safety Decal for 27 years without personal injury. Rudy Johnston received a 17 year safety award.

Since the first of the three GI Bills became effective in 1944, some 15 million veterans have taken training under some Veterans Administration program. Six million persons have trained at the college level.

FINNEY

SAYS

As you know, for the last 17 years, we have been an agent of the Fox Photo Finishing Company of Lubbock and places. Their service has become increasingly slow and bad.

Fortunately our portrait business is so good we do not have time to make Kodak prints. So we have made arrangements to have this type work done by another company.

We can no longer offer one day service, but to make up for this, the price will be about one-half that of the Fox Company.

On another page of this newspaper you will find a coupon good until February 17 on Kodak finishing. The price is right.

We have installed new equipment in order to do our own color printing and developing, to insure the best possible quality portraits.

The week of February 10 - 15 inclusive we, in company with other South Plains photographers will have an exhibition of Professional Photographs at the South Plains Mall. It will be well worth your while to see this exhibition. We will have approximately 20 to 25 portraits on display, mostly of local people.

Don't forget if you are going to be married, and you want the best in wedding portraits and candid pictures, there is only one photographer - C. Edmund Finney.

Have a nice day.

Why gamble on a herbicide that's not made for sandy soils?

Now you can get one that is.

SANCAP.® It's made specially for your sandy soils. It's made for cotton on your land.

You can forget about experimenting with rates to adjust for sandy soils. Just follow the recommendations, and you'll get weed control you can depend on—without injuring your cotton.

You'll get control of the most troublesome weeds in this area—carelessweed and Russian thistle.

And you can forget about moisture loss due to incorporation. Just apply Sancap at planting, or within two days after.

Then watch your cotton come through, clean and healthy. No more experiments. No more mistakes.

Because now you've got a herbicide for sandy soils.

Agricultural Division, CIBA-GEIGY Corporation, P.O. Box 11422, Greensboro, NC 27409.

Sancap. The first and only herbicide made for sandy soils.

CIBA-GEIGY

Lynn County News Breathing Clinic Begins Feb. 15

The West Texas Area, American Lung Association, will sponsor its fourth "Buckin' Bronchos", a breathing exercise and physical fitness class for children with asthma or other chronic pulmonary diseases. The Medical Director again will be James R. Crisp, M.D.

Classes will begin February 15 to April 26 from 9:30 to 11:00 a. m., each Saturday. Classes will be held in the Physical Therapy Department on the first floor of Thompson Hall on the TTU School of Medicine Campus.

Children 8 to 12 years of age are admitted. A minimal charge of \$10.00 is made for the ten lessons. Applications may be picked up at the American Lung Association office, 1961 Texas Avenue, and must be signed by the child's physician.

Charlie Searce and Neal Hughes, physical therapists, will supervise the breathing exercises. Frank Fee, a graduate student in Rehab Counseling, will do pretesting of children and parents. Two graduate students from the Texas Tech Women's P.E. Department under Dr. Ruth Rodgers, will be in charge of physical fitness exercises and games.

The course is open to children living in the 23 counties served by the West Texas area. For further information, call the Lung Association office, 762-0506.

Agonizing Pain From Ingrown Toenail? Get Outgro For Fast Relief

Outgro gives you fast temporary relief from ingrown toenail pain. Outgro toughens irritated skin, eases inflammation, reduces swelling without effecting the shape, growth, or position of the nail. Stop ingrown nail pain fast with Outgro.

TFWC Presidents To Tour Austin

Presidents of 25 state federations of women's clubs will arrive in Austin Thursday, February 6, for a tour of the capitol city, Texas President Mrs. Harriette Williford Whatley announced today. The executive officers will represent such distant states as Alaska, Vermont, Arizona, and Washington. Conservation chairmen from 16 states will also attend. Thursday evening, the Texas Federation of Women's Clubs' Executive Committee, district presidents, and past state

presidents will host the distinguished visitors for dinner at the TWFC Clubhouse, 2312 San Gabriel. Friday morning, the group will tour the Texas Capitol and be guests of Lt. Gov. and Mrs. William P. Hobby, Jr. for coffee. A tour of the LBJ Library will complete their visit.

Mrs. Harold Green of Tahoka is President of the Caprock District.

Fred McGinty underwent a severe heart attack last Friday morning. He is a patient in Lynn County Hospital.

Branch-Birdwell Engagement

The engagement of Nancy Branch and Billy Birdwell is announced today. Nancy is a recent graduate of Middle Tennessee State University, Mississippi. She is currently employed by Gordon County (Georgia) School System. While at MTSU

she was a member of the Student National Education Association, and the Baptist Student Union.

The bride-groom elect is a graduate of Southwest Texas State University and is now the staff photojournalist for the Daily News Journal in Murfreesboro, Tennessee. Birdwell is a member of the Professional Photographers of America, Texas Professional Photographers Association and the Tennessee Professional Photographers.

Parents of the couple are Mr. and Mrs. Pickny Branch of Knoxville, Tennessee, and Mr. and Mrs. C. E. Birdwell of Tahoka, Texas. Mrs. Jesse Branch of Knoxville, Tennessee is the grandmother of the bride elect.

The wedding is planned for June 20 in the Southeast Baptist Church of Murfreesboro.

Di-Gel QUICKLY RELIEVES 'Gasid Indigestion'

It's those times you suffer acid indigestion and painful gas, too.

DI-GEL® gives more comfort because it does what antacids can't. It reduces stomach acid; also contains bicarbonate that gets rid of gas. Heartburn, painful gas go Get DI-GEL.

Evelyn Russell
Administrator

On January 11th I boarded the plane at 9:03 a.m. on my way to Sacramento, California. I changed planes at Albuquerque, New Mexico for San Francisco, California. They served a delicious breakfast. We flew over parts of the Grand Canyon, Reno, Nevada and up over the high Sierra mountains. I saw lots of snow. Charles and Barbara Pennington met my plane at San Francisco at 11:15 a.m., we drove over San Francisco and saw many noted places, then on to Sacramento which is very beautiful place even though the fog was bad 12 days out of the 15 days I was there. Needless to say we did lots of talking over old times. Charles had a big orange tree in his back yard that was loaded, so I helped myself to the big oranges. It was very cold and I can't say it was sunny California. I flew back to Lubbock January 25, and the sand was blowing so I knew I was home. I enjoyed the trip but was glad to be back in my Colonial Nursing Home, oh so tired.

I was saddened to learn of the death of Mrs. Mattie Spruiell. Mrs. Georgia Cook is in the Lynn County Hospital and Mrs. Mireles is quite ill.

Our newest resident is Mr. Luther Thomas who seems to be happy here.

Several ladies from Lake View W.M.U. came and helped out in the gospel singing, also they brought cake and punch which was enjoyed.

The rain is welcomed. Mrs. Pribble, Jim Lester, Dorothy Jordan and Stella Peeks were all here doing their job.

Mrs. Russell reports her mother is howing improvement. Clark Allen is in the Brownfield Hospital.

Brother Tut Jones from the Sweet Street Baptist Church brought our church services, he read St. Luke 15, ch. 1 - 10 ver.

ses where Christ is always concerned.

Mrs. Alice Phillips taught our Bible study as Mrs. Jones was unable to be here.

Jeannie served hot chocolate and cookies. Thank you. See you next week.

Larry Spruiell Gets Promotion

Larry Spruiell, 33, son of Mr. and Mrs. Clyde Spruiell, has been promoted to sales manager, fine papers, at E. C. Palmer and Co. in Dallas, where he has been since 1972. His duties will include account management and sales promotion.

Larry started in the printing trade at the Lynn County News, attended Texas Tech where he majored in marketing. He held jobs in Lubbock in the printing field from production and sales to management.

He and wife, Peggy, have a nine year old daughter, Misti. Larry recently represented his company at Print '74 in Chicago.

Faith Circle Continues Study

The Faith Circle met Monday at the United Methodist Church to conclude the study of the book of Jonah. Mrs. G. M. Stewart lead the study. She was assisted by Mrs. R. M. Stewart and Mrs. E. M. Walker. This has been a most enjoyable study with emphasis on the university of God's love. Nine members were present.

The circle meets next Monday in regular meeting with Ann Wharton leading the program of Call to Prayer and Self-Denial.

Lynn County News Team To Play In State Tourney

A women's volleyball team sponsored by Dayton Parker Pharmacy has won a place in the Texas Amature Athletic Federation State Tournament to be held in Austin, April 5 and 6. After six weeks of play, the team won first place in the Lubbock League. Members of the team are Doris Pollard, Sandy Teaff, Leslie Beatty, Marsha Shaffer, Eileen Wilson, and Frances McGuire. Substitutes are Sally Berry and Susan Moody.

Dayton Parker Pharmacy beat Lubbock Avalanche, Lubbock State School, Southwestern Bell Telephone and Nelson Pharmacy of Brownfield, two times each and Praters of Brownfield, once.

The team participated in an All-Day tournament at Abernathy, February 1. They lost to Nelsons and Praters in a hard fought 3 games each. Dayton Parker Pharmacy won 3rd place with Praters being first and Nelsons second.

The team will be entered in the Tahoka Booster Club tournament to be held February 18-22.

Basketball Concession Workers

Listed below are the concession workers for the following week. If you are unable to work at the time appointed to you, please get someone to work in your place.

February 7 - 6:30 - Cooper - J. V. Girls - Mr. and Mrs. Jimmie Williams, Mr. and Mrs. Thomas Jolly; A Girls - 8:00 - Mr. and Mrs. Elwayne Crowell, Mr. and Mrs. Otis Marrett.

February 10 - 5:30 - Frenship-7th Boys - Mr. and Mrs. Johnny Ash, Mr. and Mrs. Bill Braddocks; 8th Boys - 7:00 - Mr. and Mrs. Jerry Brown, Mr. and Mrs. E. M. Hammonds, Jr.; 9th Boys - 8:30 - Mr. and Mrs. Binnie White, Mr. and Mrs. Hilton Wood.

PAY INCREASE - Shown above are Texas Public Employees Association President George Watkins congratulating Governor Tom Briscoe on signing into effect Senate Bill 1, that will give employees a much needed pay increase.

LEGAL NOTICE: NOTICE OF INTENT TO ENGAGE IN WEATHER MODIFICATION ACTIVITIES:

Notice is hereby given that Colorado River Municipal Water District, 1318 E. 4th, Big Spring, Texas 79720, who holds License Number 75-5 of the State of Texas, intends to engage in an operation to change or attempt to change by artificial methods the natural development of atmospheric cloud forms for and on behalf of the Colorado Municipal Water District located at P.O. Box 869, Big Spring, Texas 79720, and will conduct the program of weather modification designed to increase precipitation

by means of the aerial application of silver iodide or other artificial nuclei as follows:

1. The area over, or within which, equipment may be operated shall include the counties of Lynn, Garza, Kent, Dawson, Borden, Scurry, Fisher, Martin, Howard, Mitchell, Nolan, Glasscock, Sterling, and Coke.
2. The target area, within which the precipitation is intended to be enhanced, can be described

as follows: The boundary may be described by a line beginning at a point of origin at Big Spring, Texas, and running along Hiway 87 in a northwesterly direction to Lamesa, thence north-northeast on Hiway 87 to the north border of Dawson County, thence east along the north border of

Dawson, Borden and Scurry Counties to Hiway 84; thence southeast along Hiway 84 to Roscoe, in Nolan County; thence southeast to Maryneal; thence southwest to Silver in Coke County; thence south-southwest to Hiway 87 at a point approximately 13 miles northwest of Sterling City; thence northwesterly along Hiway 87 to the point

of origin at Big Spring, Texas.
 3. The materials, equipment and methods to be used in conducting the operation within this area of approximately 3500 square miles include a 3 cm radar system, cloud seeding aircraft, and the application of silver iodide ice nuclei, hygroscopic nuclei or other nuclei considered appropriate to the artificial nucleation of clouds or weather systems.

4. The person in charge of this program shall be Owen H. Ivie, Colorado River Municipal Water District, Big Spring, Texas.

5. The program will be operational during the period from April 15, 1975 to October 15, 1975.

6. Any persons who feel they may be affected in some adverse way by this program may file a complaint to the Texas Water Development Board, P. O. Box 13087, Capitol Station, Austin, Texas, 78711.

Signed: Owen H. Ivie, Colorado River Municipal District.

THE FAMILY LAWYER

Church Feud

Two factions of a church were engaged in a bitter struggle over the powers of a controversial minister. Finally they took the issue to court for settlement.
 But the judge refused to take sides. Calling attention to the constitutional separation of church and state, the judge said:
 "Courts do not inquire into religious matters exclusively ecclesiastical. If the courts should deal with religious matters of that nature, the whole fabric of theology would have to be examined. Such a course would diminish the courts as the final arbiter in every religious controversy."

This is the law's usual attitude toward religious disputes, declining to intrude into "things that are Caesar's." However, the courts can take a hand in "things that are Caesar's."
 For example, in one case a pastor had a disagreement with his church about the terms of his employment contract. A court had no jurisdiction in weighing the opposing arguments and in ruling (on purely legal grounds) against the church.
 Likewise, courts have dealt with mundane matters as the ownership of church real estate or the administration of trust funds left to a church.
 Furthermore, of course, churches are just as subject to the general law as any other citizen.
 A minister, while denouncing in his sermon, described it in especially vivid language. Outraged members of his congregation complained to the police, and the minister was duly haled into court on a charge of using obscene language in a public place. Finding him guilty, the court sentenced:
 "He has a right to propagate religious views, but will not be permitted to commit a breach of the peace under the guise of preaching the gospel."
 Public service feature of the American Bar Association and State Bar of Texas. Written by Bill Bernard.

John C. White, Commissioner

Cotton Planting Underway . . . Still Number One But Not Bragging . . . In Case You Missed It . . . Pesticide Question.

Now that February is here, cotton planting can officially begin in the Rio Grande Valley. A reduction of 50 per cent in acres to be planted this year compared to 1974 is now indicated for that section of the state.

The continued bleak outlook for cotton is the chief reason for the anticipated downturn in acreage. Expected to offset that cotton acre cut is an increase in grain sorghum, however.

While changes can yet occur, the following are recent percentage estimates of acres to be planted to cotton this season compared with last year: Coastal Bend 40 per cent; Upper Gulf Coast 40 per cent; Brazos-Navasota River Bottoms 40 per cent; Southern Blacklands 50 per cent.

EVEN though Texas continues to be the number one cattle feeding state in the nation, you don't hear too many people bragging about it any more, at least not for the present.

But for the record, Texas had 1,327,000 head of cattle on feed as of Jan 1., the Texas Crop and Livestock Reporting Services notes. This is 40 per cent below the 2,205,000 head on feed as of a year ago. It is seven per cent below the number on feed a month ago.

The number of cattle on feed is the smallest for Texas since June 1970 when there 1,292,000 head on feed.

Nationwide, similar downturns are reported.

Cattle and calves on feed for slaughter market in the 23 major feeding states totaled 9,619,000 head. This is 26 per cent below a year ago and 31 per cent lower than two years ago.

In Texas, the "large" feedlots--those with 1,000 or more capacity--had an occupancy of 43 per cent of their capacity. Twenty-five per cent of the large lots were completely vacant.

Feedlot operators report intentions to market 850,000 cattle between now and March 31. This would be 64 per cent of the number on feed as of Jan. 1 and would be 13 per cent lower than marketing during the same time span a year ago.

IN CASE you might have missed the final 1974 projections for major crops in Texas, here they are. Cotton production is set at 2,260,000 bales; this is 2,053,000 bales less than the 1973 upland cotton. Production of American-Pima cotton, however, showed a slight increase in 1974 over 1973. Production in 1974 was set at 27,000 bales compared with 25,800 bales in 1973.

Grain sorghum production for Texas in 1974 is expected to be down a fourth from 1973. Total 1974 production is set at 312,000,000 bushels compared with 417,000,000 bushels produced in 1973.

The 1974 corn crop in Texas which comprises 73,600,000 bushels is the largest for the state since 1943. Yield is expected to average 92 bushels per acre. Peanut production in Texas in 1974 is expected to total 420,375,000 pounds, or about 50,000,000 pounds less than 1973. Wheat production in 1974 was about half the 1973 crop. Rice is expected to be up 25 per cent, hay will be down about 12 per cent; oat production for 1974 will be down 70 per cent from 1973.

LEGISLATION will be needed to assure Texas farmers they can continue to use certain restricted-use pesticides. Under the law every state must submit a plan for certifying applicators of restricted-use pesticides to the Environmental Protection Agency on or before October, 1975. Thus, legislative action will be needed at the current session of the Texas Legislature.

DIANE RASH

Diane Rash Graduate

Diane Rash graduated from Lubbock School of Vocational Nursing with Class 53 on January 30, 1975.

Miss Rash, a 1972 Tahoka High School graduate took her "on the job" training at Lubbock's Methodist Hospital, and since her graduation, she has been employed by that hospital.

Diane is the daughter of Mr. and Mrs. Elmer Rash.

TAHOKA BASKETBALL

8TH GRADE BOYS

The 8th grade boys lost their first district game to Slaton 35-31, January 27. February 3, the boys overpowered Post, 56-15. Clifford Bailey tossed in 18 pts and Rene' Ledesma 14.

7TH GRADE BOYS

The 7th grade boys lost to Slaton, 31-17. They were beaten by Post Monday night by the score of 23-8.

9TH GRADE BOYS:

The Tahoka freshmen Bulldogs outplayed the Slaton Tigers, 54-48. Ronnie Thompson tossed in 16 points. Post 56 - Tahoka 46 was the score of Monday nights game.

7TH GRADE GIRLS

The Tahoka 7th grade girls lost to Slaton, 56-13. Monday night they were edged out by Post, 21-18. Bryson was leading scorer.

8TH GRADE GIRLS:

Slaton 47 and Tahoka 28 was the score of the 8th grade girls game. They were beaten by Post, 39-32. White tossed in 19 points and Wood 10.

9TH GRADE GIRLS:

The freshman girls lost to Slaton 70-35 in a tilt played January 27. Post 44 Tahoka 36 was the score of Monday nights game. Garcia tossed in 16 points.

Jim Dulin is the president of the newly formed JC Chapter in Slaton, which received the outstanding club award at the 49th annual Slaton Chamber of Commerce Monday night. The banquet speaker was Don Baker.

U.S. Department of Agriculture intentions to eliminate 271 of the 532 grade and staple combinations or "qualities" from the Commodity Credit Corporation upland cotton loan schedule in use since 1959 were revealed by the Federal Register of January 23.

USDA previously announced a "Preliminary" 1975-crop loan rate of 34.27 cents per pound for Middling 1-inch cotton, 3.5 to 4.9 micronaire at average location. Premiums and discounts for other qualities, other micronaire readings and individual warehouse locations are now under consideration along with proposed modifications to the schedule.

The qualities USDA wants to drop from the schedule would "lose their individual identities" but would remain eligible for the loan, the Federal Register notice stated.

USDA says many qualities are no longer produced in sufficient quantity to warrant an individual loan rate, and proposes to eliminate some and lump others into groups, each of which would carry the same loan value.

USDA will accept, and presumably consider, comment on the proposal until February 21. Donald Johnson, Executive Vice President of Lubbock-based Plains Cotton Growers, Inc., said PCG would submit its views after the proposal is discussed at an upcoming meeting of the organization's Executive Committee.

The modifications wanted by USDA are detailed by the Federal Register in four parts, two of which would eliminate or combine certain colors and grades and two of which would combine staple lengths.

The color group "Yellow Stained" and all grades thereunder would be eliminated. Cotton classed as Yellow Stained would enter the loan at a discount 200 points greater than the discount for the same grade in the "Tinged" color category. Only 62 bales of Yellow Stained cotton were produced in 1973, and dropping that group would reduce by 42 the total number of qualities in the loan schedule.

The grade "Good Middling" would be cut from each of the remaining six color groups. Such cotton would be placed in a grade labeled "Strict Middling and better." Less than 100 bales of Good Middling cotton were produced in 1973, and deleting that grade cuts another 84 qualities out of the schedule.

The proposal calls for combining the three shortest staple lengths into a single classification and would do the same for the four longest staples.

The staples "13/16," "7/8," and "29/32," would all be combined and placed under a grouping called "13/16 through 29/32." This would "eliminate discounts for 58 additional qualities and, in effect, raise the value of the lower qualities involved," the notice reads. Presumably, this means the 13/16 and 7/8 inch staples would carry the same loan value as the longer 29/32 inch staples. Only 33,534 bales, a little over 0.2 per cent, of 1973 crop cotton fell in the two shorter staple designations.

On the long end of the staple range, all lengths "1-5/32" through "1-1/4 and longer" would be redesignated as "1-5/32 and longer." Only 1,335 bales, less than 0.01 per cent, of the 1973 crop fell in the 87 classifications that would be thus eliminated. Value-wise, the effect of the change would be "negligible," the notice stated.

A SHORT REPORT

By REPRESENTATIVE E. L. SHORT

To meet needs either at local or state level Federal Revenue sharing has had quite a roll in preventing new taxes - Advisory Committee on Intergovernmental Relations says "Do not count on these funds so heavily". They must be reaffirmed by Congress. They run out December 1976.

More Money - After WW II the Fed had plenty surplus (properly) they sunk it, buried it, burned it and gave it away. Most recent count Texas had about 1 Billion Dollars surplus - if we are not careful it could get into "New Continuing Programs" - then our worries would just begin. "There is no money surplus for new programs" because 1 Billion is barely enough to meet price increase of inflation. The Governor has cut his staff by not filling vacancies. Hope some Agencies do the same.

The House voted its members \$4,000 per month and \$3,000 per month - in Session and out of Session respectively - for staff salaries, equipment, supplies, travel, phone, etc. The Senate is \$8,500 per month for staff

salaries, alone - other needs for their operation shall be Senator's discretion.

State Employee Emergency Pay Raise - Senate Bill: under \$10,500 will get 14.2 percent over \$10,500 get 10.5 percent increase, over \$20,000 - 5.5 percent. This expires with fiscal year, August 31, 1975.

Headlines last week - "Governor endorses water importation" - A byline - quoted a prominent state environmentalist - "He called for the people to be moved to the water".

A pub is now on campus at U.T. - Atty. Gen. John Hill ruled it is O.K.

Eighty - seven counties are still dry - most of them in top half of state.

Friend Bill Clayton is now Speaker - Clayton - vote 112 -33.

Met with grain producers and Commissioner White - Fees no longer can be collected from farmers - Supreme Court said it was unconstitutional and was a form of tax. Now all Associations will have to find other ways to advertise and promote agri-

cultural products.

Ronnie Pearson of Andrews is an Assistant Sergeant at Arms of the House of Representatives. Jerry Goff of Plains and Robert Harvick of Tahoka were visitors in the Capitol last week.

Letters have been sent to the 27 schools in District 77 inviting students to work in our capitol office during the Session.

In Arizona Rep. Daniel Peaches says "the E.R.A. would upset the ancient cultural patterns of his tribe, presenting the threat of all

of allowing women into the tribal sweat baths restricted to

In Arizona Rep. Daniel Peaches says "the E.R.A. would upset the ancient cultural patterns of his tribe, presenting the threat of allowing women into the tribal sweat baths restricted to men."

TWIN CALVES - Surprised when Toby Gass and Julie Meeks discovered the day old twin calves on the Jack Hoskins farm. It was a rare sight for the whole family. Julie is the daughter of Mr. and Mrs. Junior Meeks and Toby is the grandson of Jack and Billie Hoskins
