Stock Landing, New Orleans, La.

THE Union Stock Yards,

CHICAGO, ILLINOIS.

The Largest and Best Live Stock Market in the World

The entire system of the Railways of the West centers here, making the Union Stock Yards the most accessible point in the country. The capacity of the yards, the facilities for unloading, feeding, reshipping, or for the sale of stock are unlimited. There is no point in the United States where stock will find as satisfactory market and sale to the shipper as the Union Stock Yards.

The quality of feed and accommodations given cannot be surpassed at any point in the country. The great city of packing houses that are located here, the large bank capital and the large number of buyers for the Eastern market constantly on hand, make this a quick, active and independent market. Cattle from the North, West and Southwest should reach this market without fail, in order to procure the best prices. There is now established a direct Cattle, Hog, Sheep and Horse trade between these yards and the most important markets in Europe. Agents constantly here from London, Paris, Hamburg, Liverpool and Manchester. The daily shipments from these yards to Europe are from one to two steamer loads. THIS IS STRICTLY A CASH MARKET.

Williams, 26 bulls, 1028 lbs, \$1.75; Lindsay, 79, 1069 lbs, \$3.

KANSAS CITY.

KANSAS CITY, Oct. 12.—This week has been a record breaker as to receipts of cattle for any one week, the official count showing 41,988 head, a gain of 13,942 over last week, and the bulk of this heavy run has been common and thin range stuff, too thin for good beef and such as feeders do not want; consequently sales have been hard to make, and the market has ruled dull and weak.

The following sales show the run of the market:

Wright & Hannah sold for J. O'Neil, Velma, I. T., 40 steers, 906 lbs, \$2.75; 11 cows, 876 lbs, \$1.70; C. T. Gorton, Purcell, I. T., 19 cows, 944 lbs, \$2.10; N. Burney, Silver City, I. T., 22 steers, 977 lbs, \$2.40; 25 cows, 798 lbs, \$1.50.

The Fish & Keck Co. sold for Glidden & Sanborn, Panhandle, Texas, 84 cows, 824 lbs, \$1.50; American Pastoral Company, Cherokee Strip, 242 steers, 1051 lbs, \$2.50; 122 steers, 1050 lbs, \$2.50; Millett Bros., Ellsworth county, Kas., 50 steers, 799 lbs, \$1.95; Ewell & Justis, Cherokee Strip, 61 calves, \$7.50 each; American Past. Co., 84 steers, 907 lbs, \$1.85; 69 steers, 906 lbs, \$1.85; Ark. Valley L. & C. Co., 311 steers, 1078 lbs, \$2.40; Glidden & Sanborn, 51 cows, 806 lbs, \$1.55.

M. S. Peters & Co. sold for Beatty Bros., 12 steers, 1127 lbs, \$2.75; 30 steers, 1102 lbs, \$2.60; 15 steers, 1125 lbs, \$2.60; 12 steers, 875 lbs, \$1.90; Walter Dymont, 34 cows, 781 lbs, \$1.60.

The James H. Campbell Co. sold for D. S. Green, 135 cows, 916 lbs, \$2.30; 153 steers, 988 lbs, \$2.80; S. F. Reynolds, 66 calves, \$7.25 each; A. C. Crothers, 67 calves, \$6.25 each; West. Mort. & Inv. Co., 48 calves, \$7 each; 52 cows, 775 lbs, \$1.50; 27 steers, 849 lbs, \$2.10; Lee Harper, 43 steers, 1330 lbs, \$2.75; D. R. Streeter, 53 calves, \$8 each; 57 calves, \$7.50 each; 57 steers, 1292 lbs, \$2.85; 59 steers, 1240 lbs, \$3.35; 56 cows, 704 lbs, \$2; 47 cows, 910 lbs, \$2.10; Amer. Pastoral

Co., 257 cows, 917 lbs, \$1.85; T. S. Bugbee, 79 steers, 1043 lbs, \$2.40; Kinney & R., 25 steers, 843 lbs, \$2.75; F. B. York, 115 cows, 954 lbs, \$1.90; G. W. Miller, 66 calves, \$7.25 each.

Hunter, Evans & Co. sold for E. Fenlon, Kiowa, Kan., 51 calves, \$5.50 each; 12 calves, \$7.50 each; 92 heifers, 630 lbs, \$2.05; 60 cows, 779 lbs, \$1.55; 83 heifers, 692 lbs, \$2.07½; 81 cows, 831 lbs, \$1.90; Rocking Chair Co., 142 steers, 1015 lbs, \$2.45; 57 steers, 952 lbs, \$2.35; J. C. Pryor & Co., Kiowa, Kan., 99 steers, 1073 lbs, \$3.05; Forsythe & Swearingen, Pond Creek, 486 steers, 1087 lbs, \$2.70; S. Lazarus, Giles, 225 cows, 783 lbs, \$1.60; 68 heifers, 528 lbs, \$1.40; 67 calves, \$7.25; Phoenix F. & R. Co., 197 steers, 947 lbs, \$2.10; 53 steers, 937 lbs, \$2.15; 12 cows, 848 lbs, \$1.55; 20 cows, 845 lbs, \$1.25; B. C. Evans, Giles, 198 cows, 720 lbs, \$1.65; Goodnight & Moore, 59 heifers, 537 lbs, \$1.45; 50 calves, \$6.50 each; A. Gorham, Woodward, I. T., 117 steers, 1153 lbs, \$3.05; 132 spayed cows, 989 lbs, \$2.40; 18 same, 988 lbs, \$2; Forsythe & Swearingen, 483 steers, 1088 lbs, \$2.80; G. R. Greathouse, Kiowa, 30 cows, 823 lbs, \$1.60; J. S. Thornton, Giles, 26 cows, 798 lbs, \$1.60; Edmund Seymour, Kiowa, 64 steers, 971 lbs, \$2.30; 63 steers, 972 lbs, \$2.32½; Matador L. & C. Co., 257 heifers, 719 lbs, \$1.75; A. P. Bush, jr., Kiowa, 143 steers, 899 lbs, \$2.32½; 23 steers, 917 lbs, \$2.20; M. T. Rust, Kiowa, 48 steers, 897 lbs, \$2.32½; E. Fenlon, 61 calves, \$7 each; 105 heifers, 584 lbs, \$1.90; 29 cows, 768 lbs, \$1.50; 59 cows, 781 lbs, \$1.45; 80 cows, 785 lbs, \$1.75; 64 heifers, 568 lbs, \$1.67½; T. S. Hutton, 61 heifers, 714 lbs, \$1.50; 13 cows, 650 lbs, \$1.25; J. A. Gaddis, Quanah, 23 mixed, 784 lbs, \$1.70; G. R. Greathouse, Kiowa, 14 calves, \$6.50 each; 63 steers, 899 lbs, \$2.20; 13 cows, 748 lbs, \$1.25; 7 cows, 762 lbs, \$1.40; 5 heifers, 540 lbs, \$1.60; 21 steers, 910 lbs, \$2.15; Williams Cattle Co., Deer Trail, Colo., 75 steers, 1072 lbs, \$2.05; Jas. Mabon, Canadian, 13 steers, 1093 lbs, \$2.30; 4 steers, 1297 lbs, \$2; W. M. Hays, 22 steers, 1055 lbs, \$2.60; 23 cows, 863 lbs, \$1.70; Fairmount Cattle Co., Red Rock, I. T., 553 steers, 911 lbs, \$2.20; H. Kollar, Englewood, Kan., 16 bulls, 1468 lbs, \$1.70; J. D. Jeffries, Childress, 41 steers, 990 lbs, \$2.40; 20 steers, 1167 lbs, \$2.80; S. B. Jones, Englewood, 75 cows, 795 lbs, \$1.80; G. W. Boyd, Canadian, 49 steers, 882 lbs, \$2.20; J. H. Walner, Winnwood, I. T., 22 cows, 811 lbs, \$1.65; S. B. Jones, Englewood, 41 steers, 1043 lbs, \$2.20; 49 steers, 996 lbs, \$2.10; D. H. & J. W. Snyder, Amarillo, 52 bulls, 1098 lbs, \$1.40; 367 cows, 835 lbs, \$1.65; 48 steers, 968 lbs, \$2.35; 66 steers, 939 lbs, \$2.35; Sam Lazarus, Winthrop, I. T., 478 cows, 757 lbs, \$1.50.

Receipts to-day 3200. Market closing strong and active, and 10@15¢ higher than last Wednesday.

ST. LOUIS.

ST. LOUIS, Oct. 12.—The receipts to-day were insignificantly small and mainly of native cows and heifers. Demand moderate and mainly for the better grades. Texas steers brought \$2.50 to \$2.80; cows, \$1.65 to \$2.50. Texas sheep scarce, one ear-load of common Texas clipped, 69 lbs, brought \$1.65 per 100 lbs; good ones in demand.

NEW ORLEANS.

NEW ORLEANS, Oct. 12.—Market continues heavily supplied with all classes of butcher cattle. Prices low and irregular. Hog market fully supplied. Good fat sheep firm.

QUOTATIONS:—Choice beeves, per

ROUND-UPS.

Messrs. Normand & Morgan have 100 head of stock horses for sale at Coleman and would like to find a purchaser for the stock.

Eagle Pass Guide:—Mr. W. M. Mathews has sold 500 head of fat beeves to parties from the City of Mexico at \$20 (Mexican money) per head.

San Angelo Standard:—J. P. Maloney of Sterling sold last week, 100 yearling steers, delivered on the range, to Gen. M. Z. Smissen at \$9.50 per head. This is the best price we have heard of in years, being paid for yearlings.

San Angelo Standard:—John Gaddis has sold 99 ones and twos to Jinks Blocker at \$7.50 and \$11.50. Joe Ellis delivered, last Saturday, at Jinks Blocker's ranch on North Concho, 500 ones and twos of the Jefferson, Miller and Ellis cattle at \$7.50 and \$11.50.

Messrs. Wheeler, James & Co. of the

will reach 2000 head, and the contract calls for the delivery of 200 head every eight days until the supply is exhausted. This is the largest sale of beef cattle ever consummated in Southern Arizona, and the price is considered by cattlemen a fair one.

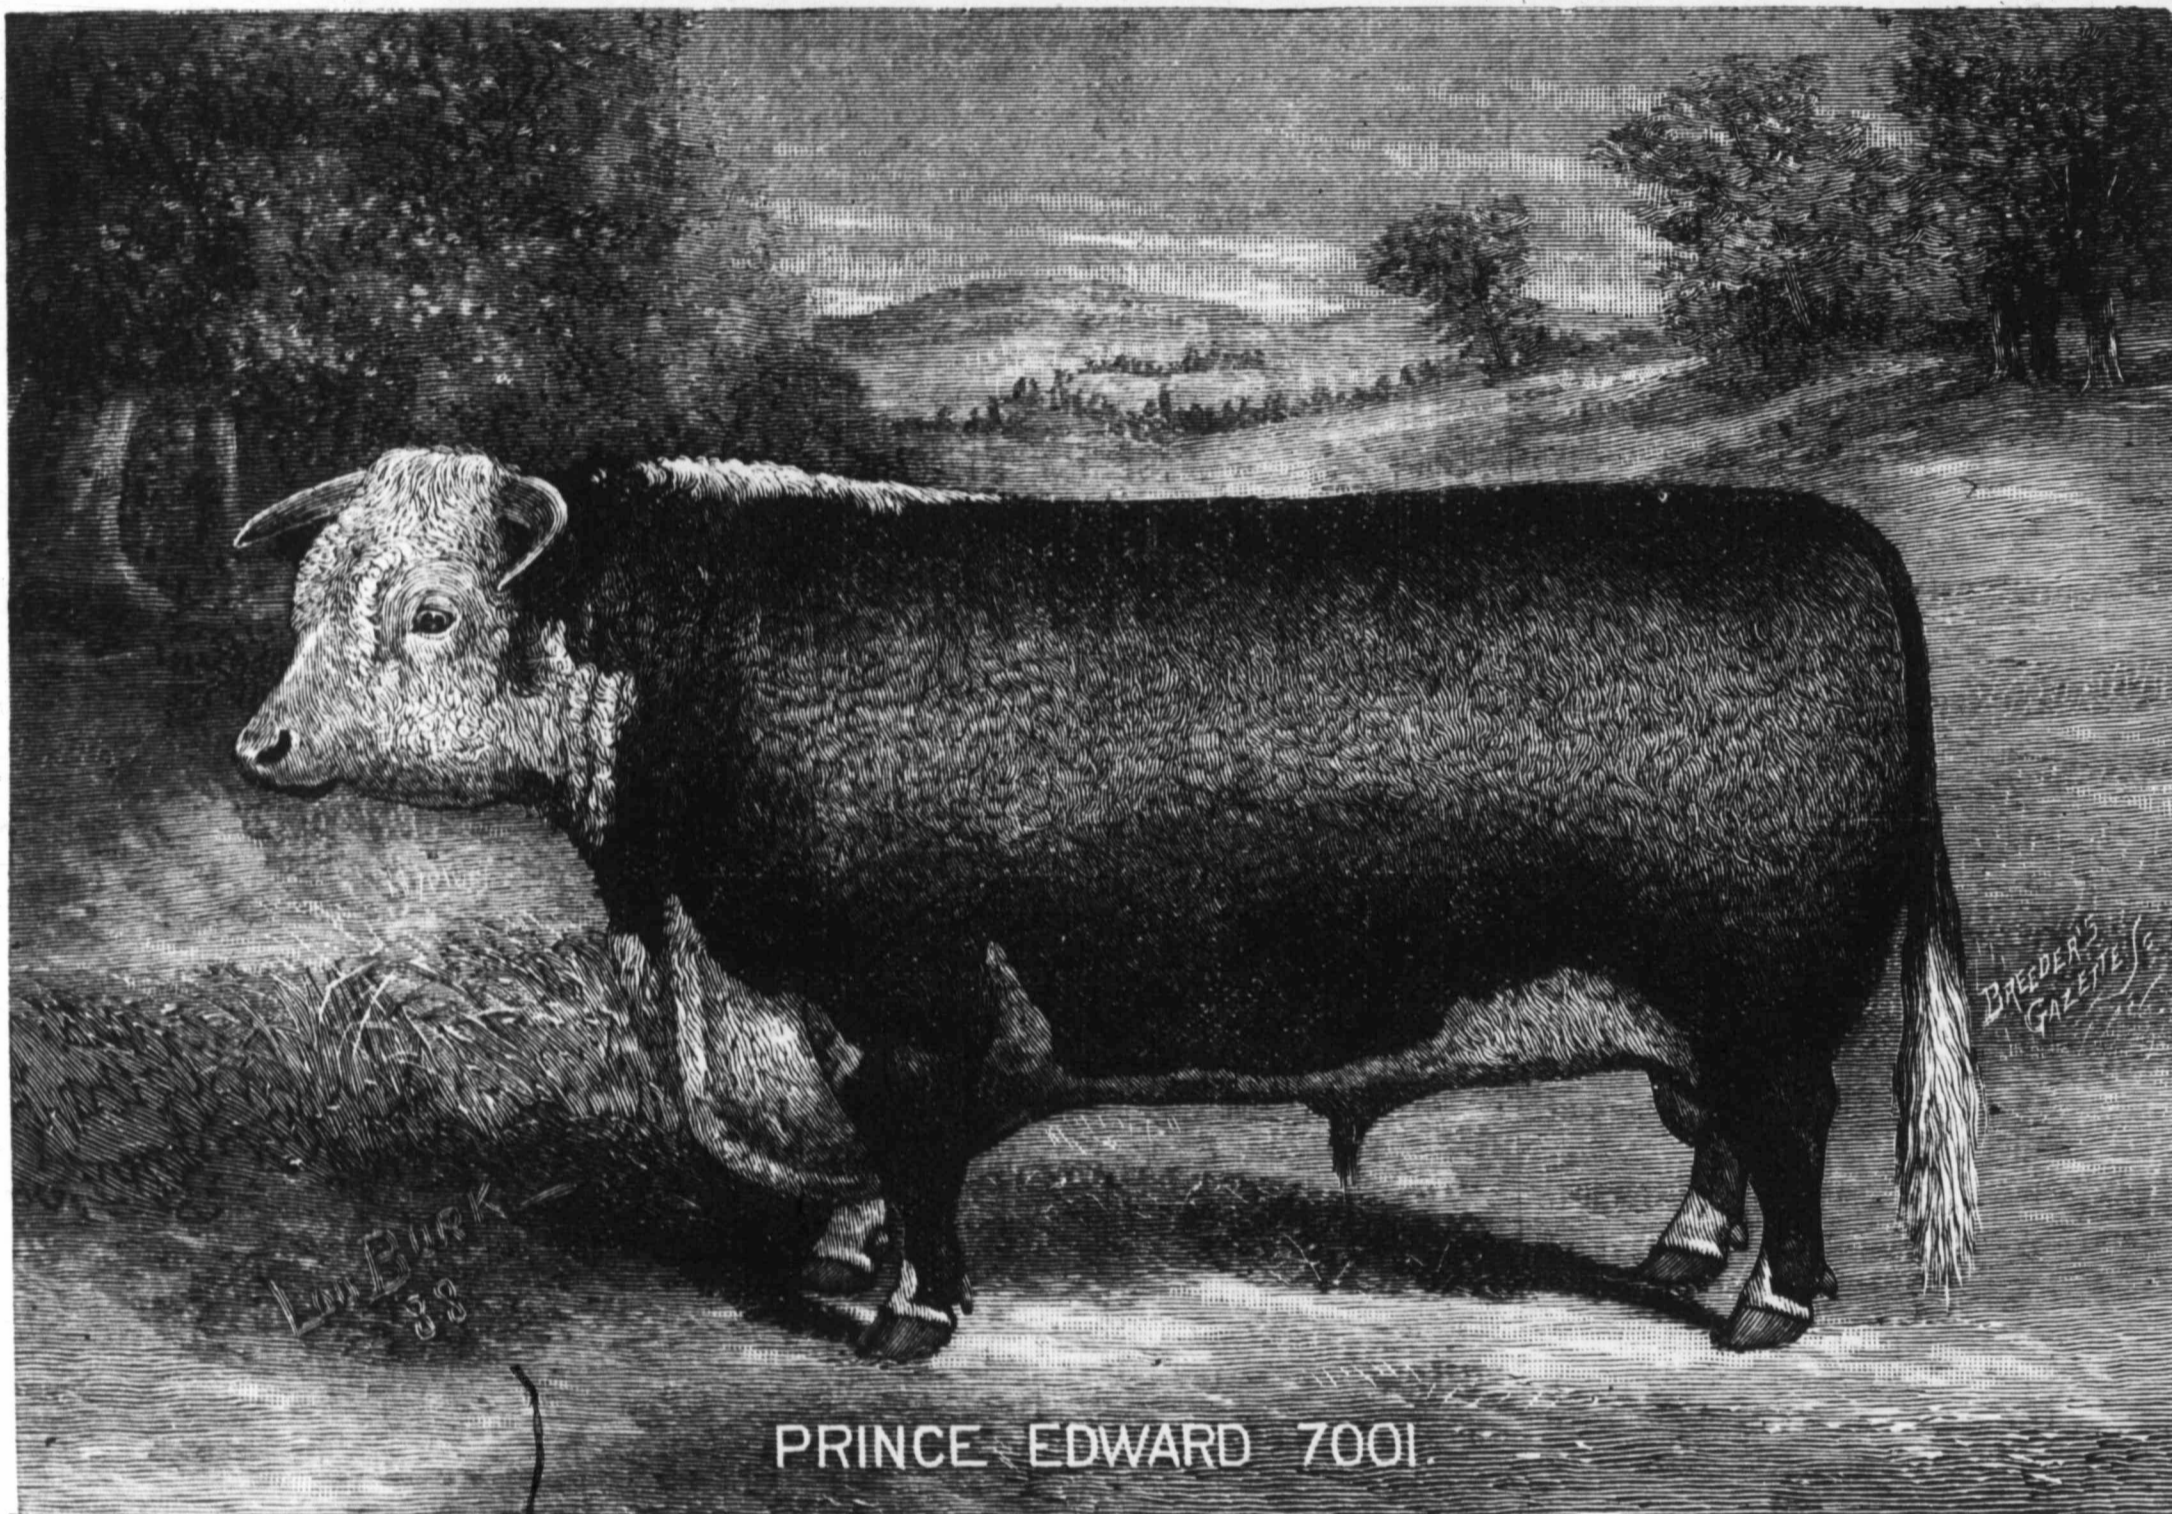

San Angelo Standard:—Messrs. D. C. Ogden and C. G. Burbank, prosperous stockmen of Menard county, received this week from Illinois, three fine blooded stallions as follows: A two-year-old thoroughbred Norman; a half-bred Morgan and Clydesdale, and a three-year-old pedegreed trotter, sired by Mambrino, which is the nearest looking trotter ever brought to this country. They also received about forty head of Merino bucks, Illinois raised.

Tascosa Pioneer:—Captain G. W. Russell, range foreman of the extensive Reynolds Land and Cattle company, has been doing court duty this week as head of the grand jury, and taking in the festivals where "we

arrived from Sonora the other day tells of a singular sight which he saw about 45 miles southwest of Hermosillo: While traveling along he came to a spot covering perhaps half an acre where water had probably remained standing for a time after one of the few rains that had visited that section this season; but instead of the place showing a depression in the earth it is literally a mound of dead cattle. It appears that as the water disappeared the cattle began to bog down, and thirsty animals continued to wade in, get stuck and die, until they were three and four deep. He estimated that there were at least 450 dead cattle in the heap, and states they doubtless came, many of them, from great distances, as water is very scarce on the arid range in that section.

Is Consumption Incurable?

Read the following: Mr. C. H. Morris, Newark, Ark., says: "Was down with abscess of lungs, and friends and

PRINCE EDWARD 7001

Union Stock yards, St. Louis, Mo., are quoting muttons as follows: We quote muttons, common to fair, \$2.25@2.75; fair to good, \$2.75@3.25; choice to fancy, \$3.75@4.25; good to choice lambs, \$4@5; common to good, 75c@ \$1.75 per head.

New Mexico Stock Grower:—200,000 cattle must be dumped into the markets of slaughter this fall if the government maintains the position recently taken by Secretary Vilas in the treatment of the Cherokee Strip question. This is not a pleasant subject for the Western cattle industry to dwell upon. It means deluged markets for the remainder of the year, and the ill effects which extreme low prices bring in their train for the cattlemen.

Tombstone Prospector:—The Barbacomari Cattle company have sold all of their beef cattle to Vickory & Hine, of Los Angeles, for 24 cents per pound gross, delivered at Benson. The number of available cattle on the range

young folks" had front seats. H. F. Mitchell, superintendent of the LIT ranch here, spent a few days up at Trinidad this week. Trinidad is the American headquarters of the Prairie Cattle company, and some of the Scotch stockholders have been over looking into the business.

New Mexico Stock Grower:—The Cedar Canon pool from the vicinity of Fort Sumner is now holding 80 cars of cattle within 60 miles of Las Vegas, while terms are being made with the Santa Fe road for rates on same to Eastern markets. The pool threatens to drive to the terminus of the Rock Island in the Neutral strip, from which point to Kansas City a \$40 rate per car is in operation, unless the Santa Fe road gives them a \$50 rate from Las Vegas. About 6000 head of cattle will follow in a few days those of the Cedar Canon pool to the Kansas City stock yards.

Nogales Herald:—A gentleman who

physicians pronounced me an incurable consumptive. Began taking Dr. King's New Discovery for consumption; am now on my third bottle, and able to oversee the work on my farm. It is the finest medicine ever made."

Jesse Middlewart, Decatur, Ohio, says: "Had it not been for Dr. King's New Discovery for consumption I would have died of lung troubles. Was given up by doctors. Am now in best of health." Try it. Sample bottles free at H. W. Williams & Co.'s store.

Largest stock of tin plate, metals, sheet iron, iron roofing and siding in Western Texas, Piper & Schulthess, San Antonio, Texas. We sell at factory prices, only freight added.

Farmers, Ranchmen and Hotels, Sending their address to Turner & McClure, wholesale and retail grocers, Fort Worth, Texas, will receive by return mail their very low price list.

WOOL HAS GONE UP.

What Boston Merchants Say of the Increase in Price and its Causes.

The Boston Post says: The wool market for the past six or eight weeks has improved very noticeably, and the price of wool has gone up several points. A Post reporter called on several of the leading merchants to learn the cause of this rise.

One merchant said: "Yes, for the past year and a half the wool market has been very dull indeed, and last year a large amount of money was lost in the business. Prices were not only down, but the market was depressed and weak. Prices were undoubtedly too low, and it was also reported that the number of sheep was diminishing. So this rise in the price of wool comes, I think, in the natural order of things. Merchants and manufacturers alike have taken hold of things and the prices have advanced from 2 to 4c on a pound, or about 10 to 15 per cent. This all applies to domestic wool. The latest advices from London, however, show that there has been an increase in the price of colonial wools of about 10 per cent., and at the last sales the market opened very strong. I think, also, that the prices will continue to go up and the condition of the market continue to improve. The prices are not up now as high as they were before the depression came, and neither are they up as high as they should be. At the present prices there are no wools that can be imported to compete with the domestic wools. We have had a healthy and beneficial rise, which I think will be maintained until the prices have gone up from 5 to 10 per cent. more."

A Federal street merchant, who did not wish to be quoted, stated that the rise was a good thing and had made the market healthy, active and strong. There was a much better feeling among manufacturers and merchants than there had been for some time. It was not likely that the prices would go up any more, for the Australian wool clip would soon be in the market and would have its effect upon the prices of domestic wools. The improvement in prices was not to be wondered at, for the market in May was so dull and prices were so low that it was only natural to find that the minimum point had been reached. Sales began to increase, and naturally the prices went up. The advance was not unprecedented, however, as the prices now were not as high as they were when the market was in its condition two years ago. If the improvement had been the result of speculation, a much more marked advance would have been noticed than there has been.

At the Territorial wool association the situation was characterized as "a great improvement over the depressed condition of a year ago." The prices on domestic wool had gone up about 3 cents on a pound, and it was very likely that they would go up still higher. The condition of the market, not regarding the prices, was ever so much better than it was. Previous to the rise in prices merchants were anxious to dispose of their stock, and would take almost any price. It was not an uncommon thing for them to sell 2 or even 3c under the price first asked of a customer. Now the tables were changed. Merchants are very firm in their prices and do not sell unless they obtain their prices. They generally get them.

THE CLIP.

Fall wools have sold at Colorado City up to 15 3/4c per pound.

San Angelo wool market recorded a sale of fall wools at 15c per pound, which was the highest price of the season.

The St. Louis wool market has received considerable wool from Texas during the past week. The stock on hand is not large.

The Patterson & Williams spring clip in Tom Green county, was reported sold at 14c. This is one of the strict fine clips of Texas.

San Angelo Standard:—The Sandersons finished shearing 11,000 head of sheep near Knickerbocker on Thursday. They will average about three and a half pounds—five months' clip.

The U. S. Economist of New York reports sale of 40,000 pounds spring Texas at 20@22 1/2c, and 3600 pounds old fall at 15@17c; 3300 pounds scoured Texas 4 1/2@4 5/8c also 5000 pounds scoured fine at 50c.

Quotations for Texas wools from Boston Advertiser:—Texas and Southern wools—Texas spring medium (12 mos) 18@22c; Texas spring fine, 15@21c; Texas spring fine (6 to 8 mos.) 17@20c; Texas fall fine, 11@15c; Texas fall medium, 13@18c.

The article on wool in this issue taken from the Boston Post would indicate that we have had considerable of a raise in the price of wool. The Texas people will be somewhat surprised as this is the first intimation of any actual three-cent rise on domestic wools.

Mr. J. C. Crowder of E. S. Brooks & Co., St. Louis, wool commission merchant is making a round trip in the state after fall wools. The firm is soliciting consignments of wool from growers and dealers, and are in every way competent to sell wools to good advantage. Messrs. Brooks & Co. will make reasonable advances.

Field and Farm:—At Folsom and Clayton, New Mexico, on the Gulf road, 575,000 pounds of wool have been shipped. At Folsom the amount stored and shipped amounted to 275,000 and at Clayton 300,000 pounds. About 100,000 pounds of a late clip is expected to be handled yet. In some instances the clip was hauled many miles, and another season more wool stations will be erected.

Boston Advertiser:—There has been some call for good staple 12 months' Texas and California wools, and fair sales have been made. The range is up to 53c scoured for fine lots, and some special lots will go even higher. The supply of Montana wools has been well reduced, and it is now very hard to pick up good selections. Territory wools are generally inclined to be easy, but the trade in these wools hold up well. Some of the better grades will sell at full prices, but most common lots move slow without some giving way from top figures is resorted to.

Field and Farm:—Hon. T. D. Burns of Tierra Amarilla, New Mexico, is clipping from four to five thousand sheep these days of October. The gentleman expects to get 14c for the clip. When asked why he took the jackets from his sheep so late in the season, replied: "Why, apprehending that the free trade dogma may prevail one of these days, I am going to strip every dollar possible from the woolly brutes and then let them go. Let the wolves have them if they want them. When the duty is removed from foreign wool a sheep in New Mexico will not be worth the keeping. Had the Mills bill prevailed we would not be shearing sheep to-day."

Boston Advertiser:—The market still holds in a firm condition, and a review of the sales will show that the movement still holds up well. The outlook is considered favorable for values being maintained, and, strange as it may seem, both political sides of the tariff question argue that in case their candidate is elected the outlook for higher prices on wool is assured.

The protection party base their argument on the fact that with protection assured, and the present discriminations between worsteds and woollens done away with, as the senate bill proposes, confidence will be restored, and manufacturers and dealers who are now only working along slow will branch out again to their full capacity. One large wool dealer said to-day that the evening up of the discriminating duty between worsteds and woollens that now exists would make an increase of fully 50,000,000 pounds in the amount of wool used in this country, and would reduce the imports of worsteds fully that much.

Farmers and others who have a little leisure time for the next few months will find it to their interest to write to B. F. Johnson & Co. of Richmond, Va. They offer great inducements to persons to work for them all or part of their time.

SAN ANTONIO.

IF ESPERSETTE or sainfoin as some call it, is what is claimed for it, it is the forage plant for this section of country. It should be given a trial as we can not have too many varieties of good grasses.

THE yellow fever scare is about over. Several shipments have recently been made to the cotton states, and a carload of horses went to Marriana, Florida on Tuesday. The railroads receive stock for all points except those in which yellow fever is known to actually exist.

THE majority of the Mexican horses sold in San Antonio are sold at the same price that they cost on the ranch hundreds of miles in Mexico, and still the speculator makes money. The difference of 33 per cent. in the money of the two countries pays all the expenses and leaves a fair profit. They are bought with Mexican money and sold for American money.

WHAT has become of the promise of the International Tariff association to give us a live stock tariff schedule based on weight? They say that it will come in the "sweet bye and bye." It will come when the next legislature makes them give it, which it will do with other needed reforms putting Texas stock shippers on an equality with stock shippers of other states and territories.

THE STOCK JOURNAL is a great favorite with stockmen of all classes for its extensive and reliable market reports, and is also the same with speculators, but some of the latter for selfish ends, do all they can to bring it into discredit with ranchmen generally because it is to their interest that the price of stock should not be too well known. If you find a buyer discrediting a market paper you are pretty safe in placing renewed confidence in the same. Men are seldom known to talk to their own disadvantage.

EVERY once in a while we hear of a small sale of stock at \$5 and \$7 to \$8 for twos, but it is noted that these transactions occur in places, and by persons unacquainted with the STOCK JOURNAL. It only costs \$1.50 a year to have the live stock markets from Chicago, Kansas City, St. Louis, New Orleans, Dallas, Fort Worth, Galveston and San Antonio besides the figures on all ranch sales of stock obtainable. The difference between \$5 and the present ruling price of a yearling as published in this paper, for over a month is made up by the sale of two head and would more than pay a years subscription to the paper, leaving the remainder as a clear profit. Truly it is often said that ignorance is the most expensive luxury indulged in by mankind. The STOCK JOURNAL is not a boomer nor a depresser of the market, it simply aims to give the facts. That it sometimes errs is because it is deceived unawares, which owing to its experience in reporting is much more rare than one would suppose.

WHEN the natives which were turned into the pens used in the Union stock yards in Chicago for Texas cattle, took the Texas fever and died, every Northern live stock paper and many of the leading dailies and weeklies give the news especial prominence and some dilated on the deadly contact of Texas cattle, and the danger to the Northern cattle interests. But when the experiments went on by putting healthy native cattle with the sick, and no further spread of the fever occurred, none having the fever except those which had actual contact with Texas cattle, or had been penned in the same pens, not a line could be found in the papers that had previously devoted columns to the deadly Texas fever item. This is an unfair treatment of Texas at the hands of the Northern agricultural and live stock papers. No intelligent Texas stockman denies that certain Texas cattle, (and exactly which is not yet determined) may communicate a deadly fever to Northern stock, but they have always asserted that said fever cannot spread except by actual contact or coming into contact with pens or pastures recently occupied by the Texas cattle, consequently there is no danger whatever of a Texas fever epidemic. The Chicago experiments clearly prove this very important fact, and justice demands that the Northern live stock journals give this fact wide spread publicity. Nevertheless we can hope for some fairness in the reports from the bureau of animal industry at Washington. Texas is not afraid to have the world know the "truth, the whole truth and nothing but the truth" about Texas fever. It is the garbled truth that is worse than a lie.

San Antonio Horse Market.

The market is recovered materially under the order by the railroads to receive stock for all points in the cotton states except those in which it is known that yellow fever actually exists. There has been considerable inquiries for mules and saddle horses are fairly active for ranch uses. Mares are dull and some very low sales were made this week of thin stock, one going at \$8 per head. The retail trade, owing to the very fine weather has been fair. Shipments were 856 as against 690 for the week previous.

Quotations are as follows:

Scrub and poor mares, 12 to 13½ hands.	\$ 8@12
Scrub fair conditioned, 12 to 13½ hands.	11@14
Medium mares, 13 to 14 hands, fat.	17@20

Yearling mule colts, Mexican.	15@20
Two-year mule colts, Mexican.	20@30

San Antonio Wool Market.

The market has been unusually active for the past week, although there have been only two foreign buyers in, the local buyers being important factors in the trade. Prices reached 16½c, which is the top of last springs 12-months wools, and several clips are held at 17c. At present the sales are equal to the receipts, the aggregate sales for the season reaching fully 3000

sacks. As soon as a clip is complete it is usually sold and shipped.

Quotations are as follows:

HORNS AND HOOFES.

D. R. Fant of Goliad is in town.

E. E. Bonner of Kyle is here taking a hand in the horse market.

John R. Mahone, the big horse buyer of Marshall, Texas, is here again.

Wm. Ragland is back from a trip West on the Texas & Pacific railroad.

A. P. Rachal of Breckenridge made a flying visit to the city the latter part of last week.

Chas. E. Hicks is just in from Nueces county with a couple car-loads of W 6 saddle horses for the local market.

James H. David is about again after a protracted illness, looking a little pale, but ready to get back to business.

F. O. Skidmore was in town the latter part of last week on business connected with the big land deal in which he recently figured.

B. Hackett of Fort Worth has been here for several days figuring in the cattle market, and a good report of his transactions may soon be looked for.

O. H. Rominger dropped from somewhere took one long breath of ozone during which he bought a fine lot of colts and "lit out" with them for Memphis.

B. F. Dane of Kendall county, a fine horse breeder, was in the city the latter part of the week, making arrangements for attending the fair with some of his stock.

John I. Clare of Bee county, was in town for the first time since May. He says that there is considerable inquiry in his section for young stock, but traders are hard to come to terms.

W. E. Jessup, the live stock agent of the Southern Pacific has just returned from a trip North during the dull summer months. He expects a good trade this winter.

Edmund Seymour has disposed of his interests in Presidio county, and left for Wyoming with a bunch of horse stock which will be driven overland. He will make Wyoming his future home.

J. Webb Sullivan of Encinal was in town last week tracing up some missing horse stock and found some of them. When Webb camps on their trail, the shady horse "speculators" had better jump the country.

Judge E. U. Cook of Iowa, president of the Hereford Cattle company and general manager of the Keystone Cattle company of Frio county, and the ranchero poet laureate, writes to a friend here in verse from which the following is taken:

Jesse H. Pressnall of the firm of Clark & Scott San Antonio and Collins, went to Collins on Tuesday, and a good trade in stock may be looked for soon. Jesse is one of the best known and reliable ranchmen and commission men in the Southwest.

S. B. Burnett of Burke station, on the Fort Worth & Denver railway, shipped 65 car-loads of young steers from Kleberg to Burnett. Of these 1200 were bought of Mrs. H. M. King, 1000 of Richard King, and 250 of another party. Prices were given when purchased.

H. B. Clarke & Co., 79 Union street, Memphis, Tenn., are prepared to feed horse stock in any numbers at reasonable prices. All stock transferred free of charge. They solicit the

patronage of all who ship by way of Memphis. Call on Ben Darlington, Southern hotel San Antonio, for information.

Beeville correspondence in Corpus Christi Caller:—Kohler & Heldenfels have made a sale of 350 of their best beeves, threes and fours, for the sum of \$5700, to parties in Gonzales county, one-half the purchase money paid and remainder on delivery of the cattle, about December 10th.

John O'Neil, sheriff of Jackson county, was in the city last week. Mr. O'Neil is a breeder of pure Brahmh cattle, one of the very few in the United States. He believes that the best results can be attained by a cross between the Shorthorn and Brahma, as one gives the other the needed points for this climate and range.

A. J. Dull of Pittsburgh, Pa., who has large ranch interests in La Salle county is here looking after the same. Mr. Dull was really the first man who put prickly pear feeding enterprise in motion, and after once having the prickly pear analyzed left it to Dr. A. E. Carothers to give it the practical test.

John R. Blocker's shipment of the 3800 head of young steers which he recently bought of Mrs. H. M. King, and which was reported in the STOCK JOURNAL of last week, went through here from Kleberg, Nueces county, to Kerrville. They made the run over the S. A. & A. P. road, 225 miles without the loss of a single head.

H. S. Tom of Willson county, was in town this week and says that yearlings at \$6 are scarce as saints in his section, because the grass is too good to let it go to waste for want of stock to eat it. In a recent shipment to New Orleans some two-year-old steers of his netted him over \$16 per head. "You bet, they must have been Joe Dandies."

"And then we love the Southern climate
Where naught does never vex us,
And this is why we spend our time
Among our friends in Texas.

"And now if I am counting right,
I hope you will remember
To turn the "kivers" down some night,
The last week in September.

"For I will reach your town perhaps,
Near the hour of eleven,
And then I'll dream I'm with the chaps,
Among the stars in heaven."

Frank Robinson attempted to ascertain a mule's age a few days ago at the Traders National stock yards in this city, when the mule set down his teeth on one of his fingers. Frank danced a cancan and the mule placidly chewed the finger into mince meat and spit it out. It was a female mule and would not have its age exposed. The superiority of a Texas mule is thereby proven, as it has two instead of one business ends, as have the Northern hybrid.

Kerrville News:—About 500 head of cattle were delivered last week to Capt. Schreiner at Hartwell's ranch and Markler's pasture, and this week he received 3000 head of ones, twos and threes on South Gualdaoupe. A third bunch for the same gentleman is being bought up in Kendall county at \$5 and \$7.50 for yearlings and two-year-olds. W. D. C. Burney of Center Point, sold 76 head of good cattle in fine condition to Jesse Burney at \$5 per head, calves included.

Morin Bros. report the following among their sales for the past week: 28 mares, horses and mules, \$23; 26 mares and horses, \$16; 16 mares and horses, \$14.50; 78 mares and horses, \$13; 28 mares and horses, \$9; 28 mares and horses, \$8; 13 mules, \$50; 25 mules, \$25; 39 mares and horses, \$12.50; 9 two-year-old mules, \$13; 24 mules, \$45; 28 horses and mares, \$18; 26 horses, mares and mules, \$18.50; 20 mares, \$15; 24 mares, \$15; 11 horses, \$16.50; 33 horses and mares, \$8;

20 mares and horses, \$11; 40 mares and horses, \$14.50; 56 horses and mares, \$15; 12 mares, \$14.

Geo. S. Williamson, Texas agent of the bureau of animal industry, is back from Chicago where he has been attending the Texas fever experiments. George looks very much as if he had been prepared for the fat stock show that is to take place in that city soon. As to the experiments, he has seen that Texas gets a fair deal and while the Northern papers only gave wide spread publicity to that portion of the experiments detrimental to the Texas interests, the official reports from Washington will enlighten the public in a way that won't hurt us so very much after all.

One of the most important land transactions in this section of the state was the purchase of some 37,000 acres in McMullen county recently by Hollingsworth, Skidmore & Malone of Bee county. The purchase comprised the entire pasture of F. M. Drake, and of the Gueydan Brothers of San Diego, and some outlying sections belonging to H. B. Shiner of San Antonio, the prices varying from \$1.25 to \$3 per acre. This will be thrown into one ranch with sub-divided pastures, and good opportunities will be offered to small farmers to cultivate part of it on shares. It will be fully stocked, but it in no way interferes with the present ranch enterprises of Col. Malone or F. O. Skidmore in Bee county.

THE WOOL SACK.

Monday the wool market opened brisk and a sale was made at 16½c. This was the top up to that time.

T. H. Poag of Bandera county was down last week with his wool clip, and bought some Northern fine rams.

A wool buyer said the other day that every body had gone crazy to pay such prices as have recently been paid. Wool growers are glad to hear an attack of such a turn of lunacy.

Geo. W. Coombs of Boston is here again to take a hand in the fall wool market. Mr. Coombs was one of the largest buyers on this market last spring, and is consequently warmly welcomed this fall.

Kerrville News:—Up to yesterday 450 bags of wool had been stored in the Kerrville warehouse, and 596 bags had been shipped from the depot, making a total of 1056 bags, or about 210,000 pounds received up to date.

Howard Bland of Taylor, one of the most prominent fine stock raisers in Texas, was down this week, and it is presumed that he interested himself considerable in the wool market as he is an extensive wool grower and dealer.

R. Meake of the firm of H. Fink & Co., Bexar county, was in town this week. He says that they could have sold all their young rams this fall at \$10 per head, the demand being strong for Texas raised rams bred by responsible men.

B. H. Ross of Kerrville, the mutton buyer, made a flying visit to the city on Tuesday. He says that he is not dealing extensively now, but only buying as occasion offers a good bargain with a margin to warrant holding over on the ranch for a better market.

Major Beauregard is just in from his ranch in Wilson county and says that his sheep are doing very well except his lambs, of which there are only about 100 left out of 600. He thinks that the grass was too rank and coarse as they all had sore mouths which interfered materially with their eating.

The buck trade is about over in this city for this year. The total number sold reach about 1400, which is only about fifty per cent. of the sales last

year. The cause of this decrease was undoubtedly the uncertainty of the pending presidential election, flockmasters being unwilling to continue breeding until the question of free wool was settled.

The opening of the Mexican National railroad to the City of Mexico will bring a lively competitor into the mutton market of this section. At present muttons can be sent to that city with a better net result than can be realized in the Chicago market. Also that market will take a class of muttons almost unsaleable in Chicago. The Mexicans are great mutton eaters, and thousands of sheep have been driven from Southwest Texas to the Mexican cities years before a mile of railroad had been built from the Rio Grande into that country. The Big Four have not yet set up business in Mexico.

"Zozo, the Magic Queen."

New York Daily News.

Last evening the spectacular drama, "Zozo, the Magic Queen," began an engagement at the theatre and the vast house could not contain all who wished to see it. Since it was seen here last it has been rewritten in a great measure and vastly improved. The salient features, however, were retained, and the scenic and mechanical effects are just as brilliant and startling as heretofore. Mr. E. M. Gardiner is the sole proprietor, and under his directions new and beautiful scenery has been prepared by Henry E. Hoyt. The company, too, has been strengthened and now gives an evenly balanced performance. There are a score of graceful girls in the cast. The business of the week is bound to be enormous. The company is a large one and contains such artists as Sol Aiken, Chas. Girard, Edward Clarence.

A whole family in Nebraska, consisting of a man and his wife and three children, were burned to death in the burning of their house, and a tramp who was staying with them shared the same fate.

SUBSCRIPTION PRICE.

Weekly Edition per annum.....\$1 50
Monthly Stock Farmers' Edition..... 75

Entered at the Postoffice, Fort Worth, Texas, as second-class matter.

Entered at the Postoffice, San Antonio, Texas, as second-class matter.

Entered at the Postoffice, Dallas, Texas, as second-class matter.

SUBSCRIPTIONS to the TEXAS LIVE STOCK JOURNAL are solicited upon the ground that the information given is worth the money to any man in Texas who is either raising, dealing in, or feeding any description of live stock in Texas, Louisiana, the Indian Territory, or any section of the range country. The weekly edition costs but \$1.50 per year. We ask those who are subscribers to renew promptly and those who are not subscribers to give the paper a yearly trial. Subscriptions can be sent direct to the TEXAS LIVE STOCK JOURNAL.

THE last heavy cattle movement from Texas grass ranges is going on from Colorado City, Amarilla and Canadian and will soon stop, but promiscuous shipments will continue.

"WITH the approach of cold weather, etc.," says a writer "wool should be untaxed." So say we all of us. The sheep raisers of Texas as a unit will consent to absolute free trade, in wool and in woolen goods, if the interests of the masses demand it. But of what avail is it to take off the duty from the raw wool, and then advance the duty on woolen goods?

A COMPANY in New York has just been incorporated to manufacture lard from cottonseed oil, and in advancing claims as to quality asserts that it is not adulterated with any hog products. Next we will have pure oleomargarine guaranteed as being free from butter adulteration. The world moves upon cheek, and cheek pays a sight better than hard labor or any legitimate business.

THE policy of the national government seems to be decidedly in the line of retaining all acquired rights over Indian lands, and one administration seems just as decided as another. The

Cherokees will be able to lease their lands until the national government sees fit to interfere, and there can be no security or permanency of tenure on Indian land under the circumstances.

THE executive interference with the Cherokee Strip if resulting in withdrawing six millions of acres of cattle grazing territory from use, will certainly reduce values of young cattle in Texas, because Texas fills up the Cherokee Strip. On the other hand the withdrawal of so much grazing territory will materially cut down the supply of beef and will enhance values of matured beef.

ANOTHER packing town has started in Kansas, and Hutchinson is the place, that town having succeeded in downing Wichita in a contest over the location of branch houses of N. K. Fairbanks, lard refiners, P. L. Underwood & Co., pork packers, and Fowler Bros., pork and beef packers. Armour is said to have concluded to build a branch establishment at Wichita, Kansas.

WHY is it that protection is a good thing and receives the support of Mr. R. Q. Mills, when protection benefits the manufacturers of the New England states? And why is it that protection is robbing the poor when it benefits the wool growers of his own district? Mr. Mills has never learned that charity begins at home. Mr. Mills is a member from a Texas district, but in congress he represents the wool growers of Australia.

Hard Markets.

If a man desires to realize how hard a market we have had recently for Texas and Indian cattle, he may examine the following sales made at Kansas City last week, and which are a fair sample of the way cattle sold at other markets at the same time. The sales are as follows.

No.	Av.	Pr.
130 steers.....	977	\$2.50
107 same.....	1178	2.00
198 same.....	1077	2.30
101 same.....	913	2.50
63 same.....	1081	2.25
88 same.....	1025	2.45
46 same.....	1130	2.10
162 same.....	1123	2.40
57 same.....	952	2.35

Now here are about one thousand steers averaging 1050 pounds in weight selling at an average price of \$2.30 per hundred, and netting to the owners not over \$20 per head or less than 2c per pound. These steers were full four years, or 1500 days old, and if they were worth as calves \$5 per head they paid about a cent per day for grazing privileges during their existence on grass, and this not counting as loss their brothers that fell by the way-side before reaching a marketable age.

It is a wonder that cows and calves are going to market, or that cattle production is decreasing with rapidity?

Texas and Northern Range Sheep. On Thursday, October 4th at Chica-

go about 10,000 sheep were upon the market including some very fair samples of sheep from Texas and from Montana, Oregon and Utah. For the purpose of comparison these sales are selected and submitted to our readers to ask why it is that Texas does not produce mutton to compare in value with these Northern range sheep, all being grass-fed and managed under somewhat similar conditions except as to climate?

The sales were as follows:

No.	Av.	Pr.
95 Texas sheep.....	73	\$2.85
522 same.....	67	3.12½
270 same.....	72	3.20
253 same.....	72	3.20
245 same.....	76	3.40
250 same.....	78	3.40
254 Montana sheep.....	89	3.00
228 same.....	91	3.00
13 same.....	103	3.00
611 same.....	110	3.25
186 same.....	101	3.50
392 same.....	106	3.55
882 same.....	106	3.55
100 Oregon.....	107	3.50
370 same.....	117	3.70
310 same.....	117	3.70
366 Utah.....	115	3.55

From the above our readers can see the greatest difference in weights, our sheep leaving off just where the Montana sheep begin and not at all comparing with the product of the Oregon and Utah ranges. In these figures there is a lesson to be learned and some good to be obtained by studying it. We can make plenty of money raising sheep in Texas if we can reach Montana mutton weights on our Texas ranges.

Electric Bitters.

This remedy is becoming so well known and so popular as to need no special mention. All who have used Electric Bitters sing the same song of praise. A purer medicine does not exist, and it is guaranteed to do all that is claimed. Electric Bitters will cure diseases of the liver and kidneys, will remove pimples, boils, salt rheum and affections caused by impure blood; will drive malaria from the system and prevent as well as cure all malarial fevers. For cure of headache, constipation and indigestion try Electric Bitters. Entire satisfaction guaranteed or money refunded. Price 50 cts. and \$1 per bottle at H. W. Williams & Co.'s drug store.

Don't buy the Missouri penitentiary saddle trees, but buy the genuine Loeloff, for sale by L. S. Brackett, San Antonio, Texas.

OPIUM Morphine Habit Cured in 10 to 20 days. No pay till cured. Dr. J. Stephens, Lebanon, Ohio

What are Feeding Cattle Worth?
National Stockman and Farmer, Pittsburg, Pa.

A patron would like an opinion in the Stockman as to what one would be justified at this time in paying for cattle for feeding purposes. This is not an easy matter on which to express an intelligent opinion, so many contingencies are there bearing upon it. Of two men in the same neighborhood one can pay a price which the other cannot afford. There is also a vast difference in the quality and condition of cattle sold for feeders, and the question is affected to no slight extent by locality and neighborhood conditions. All things considered, we can only reply in a general way, without attempting to adapt our remarks to specific cases.

In the first place feeders have for several years been relatively higher than any other cattle. They have to a great extent been bought on a declining market—i. e., when converted into fat stock prices have been lower than were current when they were purchased. And even when they have not met with this fate they have largely been a source of loss because laid in too high. Years ago, when cattle were high, a scale of prices for feeders was fixed from which the decline has been less rapid and steady than that of fat cattle; and now that fat cattle are starting the other way, feeders should follow slowly, in order that a proper ratio and equilibrium be established, and that a proper margin remain between store and finished stock.

Nevertheless, we believe that buyers are justified in paying a little more for choice feeders than a year ago, for two reasons: (1) The heaves made from them (we are speaking of good cattle only) must bring decidedly better prices than have ruled for a long time prior to the last few months. (2) Feed is so abundant and cheap that it cannot be marketed in any way for an adequate consideration except in the form of fat stock. Feeders at current quotations ought, if good, to be worth the money. Now that the Texas fever season is almost over, farmers can soon invest with safety; but if we were buying should be very conservative in the matter of price.

Bucklin's Arnica Salve.

The best salve in the world for cuts, bruises, sores, ulcers, salt rheum, fever sores, tetter, chapped hands, chilblains, corns, and all skin eruptions, and positively cures piles, or no pay required. Is guaranteed to give perfect satisfaction, or money refunded. Price 25 cents per box. For sale by H. W. Williams & Co.

To the Afflicted.

We call the attention of our readers to the advertisement of Dr. J. R. Pollock in this issue of the JOURNAL. To those who are afflicted with rectal troubles we can recommend the doctor as a specialist in that particular; he having effected some remarkable cures in cases which had become chronic. Dr. Pollock successfully treats consumption, bronchitis, catarrh, dyspepsia and all other chronic diseases with oxygen and electricity. Correspond with the doctor if you need the services of a reliable physician who can give the best of references.

Open Orders Solicited.

Messrs. Turner, McClure & Co., the wholesale and retail grocers of Fort Worth, Texas, are making low prices on all goods in their line, and have a full and complete stock. They make a specialty of sending goods all over the country, and stockmen can save a big per cent. on their purchases by sending the firm open orders for goods. A letter received by them is given the same attention as if you visited them personally, and satisfaction is guaranteed in every case. Send for their price list at once. Address
TURNER, MCCLURE & Co.,
Fort Worth, Texas.

Have You Heard

What Ayer's Cherry Pectoral has done and is doing for thousands in the cure of Colds, Coughs, Pneumonia, Bronchitis, and even Consumption? For this class of complaints, Ayer's Cherry Pectoral stands far ahead of all other specifics.

George W. Dick, of Newton, Mass., says: "Two years ago I took a severe cold, which, being neglected, was followed by

A Terrible Cough.

I lost flesh rapidly, had night sweats, and was soon confined to my bed. A friend advised the use of Ayer's Cherry Pectoral. I began to take this medicine and, before finishing the first bottle, was able to sit up. Four bottles effected a perfect cure."

Ayer's Cherry Pectoral,

Prepared by Dr. J. C. Ayer & Co., Lowell, Mass. Sold by all Druggists. Price \$1; six bottles, \$5.

UNDERTAKER

314 W. Weatherford St., FORT WORTH, TEX.

Open Day and Night. Orders by telegraph receive prompt attention.

If a man is not completely fixed to fully care for and feed the number of steers he is going to put up for winter, he had better fix himself before buying the steers. This fixing business is doubly difficult after the steers are on the ground.

ALL the cattlemen seem to have considerable faith that something good will come of the St. Louis meeting, November 20th. They are going to join the butchers and petition all state governments to enact laws requiring all cattle exposed for sale as fresh meat to be inspected alive where the cattle are to be sold.

THE Prairie Farmer furnishes us an example of the money realized by sale of a 1300-pound steer. It is as follows: Butcher pays \$41 for steer. Butcher sells steer for \$87.48 including \$9 for hide and tallow. Total received by butcher over cost of steer to pay expenses and profit one or two days, \$46.48. The details of this transaction are to be found in other columns of this paper.

FORT WORTH NOTES.

Mr. W. A. Huffman sold 50 good feeding steers to Joe Fowler of Azel at 24 per pound.

Mr. Val Dickey of the Dickey Cattle company was in Fort Worth during the week after steers.

An advertisement is in the For Sale or Exchange column offering 100 head of stock horses at Coleman.

Messrs. Richardson & Hackett sold 100 steers averaging 840 pounds at 2c to Joe Fowler of Azle, Tarrant county.

Mr. Moritz Weinrich, president of the Ironside Cattle company of Missouri was here to buy colts and feeding steers.

R. A. Riddles, Mark Kennard, W. G. Davis, J. H. Savage and B. F. Wolcott were in town one day last week after feeders.

A. S. Nicholson sold to J. H. Savage of Grandview, 75 head of choice feeding steers weighed up at 24 cents at Fort Worth.

The Fort Worth butcher market is running as usual on cattle, but really good sheep are worth 24 cents, and hogs sell at fancy prices.

The W. A. Huffman Implement Co. are fitting up a deep well pumping jack for the ranch of Maddox Bros. & Anderson in Menard county.

Captain J. D. Reed has returned to Fort Worth after visiting the New Mexico ranch of Reed & Bruton. He says it is pretty dry out there.

Jno. S. Powell & Co. will receive a car-load of Durham and Holstein cattle, Norman stallions and a few jennets, all good stock and from Missouri.

Ed East has recently purchased about 15,000 head of stock and steer cattle including the Box K cattle formerly owned by the Falls Cattle company.

Phil E. Chappell of Kansas City has been making one of his regular trips to the ranch of the Hesperian Cattle company, in which company he is largely interested.

Mr. Wm. Gould Busk of Coleman, Texas, has 300 head of 3 and 4-year-old steers for sale in a Coleman county pasture. He is advertising in the For Sale column.

Jno. S. Powell & Co. of Fort Worth, sold to J. W. Shepherd of Plano, one car-load of cow-horses at \$27.50. These horses had seen service on the Pace & Stovall ranch.

W. L. Gilliland & Bro. of Baird have purchased from Hearne & Son of Belle Plaine, 1200 head of yearlings, twos and threes, all steers, at \$8, \$12 and \$18 respectively.

Mr. W. F. Patterson of Fort Worth is advertising to sell the Model dairy. It is a good paying concern and one of the very best equipped dairies in the state.

In Bosque county Gip Smith sold 70 head of three and four-year-old steers at \$16@17 per head. S. J. Wilm sold 150 threes and fours weighed up at Kopperl at 2 cents gross.

The black land farms offered by Gano Bros., on the second page of this paper, in exchange for one and two-year-old steers, consist of several of the very best farming properties in Texas.

Captain Sam Hunt announces that two hundred more new Street stable cars will be available next month besides a number now used in the Northwest. He can be addressed at Fort Worth.

A. T. Wooten of Beulah, Tarrant county recently picked up about 250 head of steers at \$11 for two-year-olds and \$15 and \$16 for threes. He had to work over considerable country to get them.

Mr. N. R. Powell returned from a trip to Missouri and reports considerable activity up there in jack stock nearly everything in the shape of jacks and jennets have been sold to California parties.

Young, Andrews & Kuhlen of Fort Worth are moving into their new stables and yards on Houston street. They have a very large and elegant place and can accommodate a thousand head of stock.

The utter demoralization of the cattle market by reason of heavy rains has reduced the prices, feeders were apparently willing to pay a few weeks ago for steers. They now want their feeding steers cheap.

The cattle sold by Mr. Jno. A. Lee of the Louisville Land & Cattle company to Messrs. Swearingen & Forsyth made the purchasers about \$13,000 and was the most successful cattle purchase known to the JOURNAL for several years.

Captain C. C. Poole of Colorado City is on his way to the Indian Territory, with horses, so as to ship out the steers he put there last spring. He is doing his sleeping in day time, and holding a hand against the boys at night as usual.

Hatcher, Woods & Coppinger of Fort Worth, say that the trade in feeding steers is dull because very few steers are near the city. There are buyers in plenty, and prices range from 2 to 24 cents.

Captain T. P. Martin has returned to Fort Worth from a trip to Llano and Mason counties bringing with him some specimens of gypsum, coal, iron and mica, mined in that region. Captain Martin reports the grass in excellent condition and all stock thriving.

P. A. Huffman & Co. sold the Brewster residence on Lamar street, Fort Worth, for \$15,000 to Mr. M. G. Ellis, one of the leading stockmen of Tarrant county. They also sold Mr. George's place on Henderson street, to Mr. D. C. Kempfer, butcher in the city.

Mr. D. C. Plumb, ranching in Archer county, recently sold to Indian Territory parties 1800 head of yearling heifers at \$9.70 per head for the first 500, and

\$9 around for the remaining 1200 head. These cattle will be wintered and fed for the next spring market.

A. S. Nicholson of Fort Worth, intends to remain in Fort Worth for a few weeks and will be found in his office. He unfortunately fell from a street car and broke his left arm, which forces him to remain at home when he says, he has plenty of running around to do.

Jno. K. Rosson, who returned from Canadian, in the Panhandle gave a very fair example of how the cattle are running, by saying that out of ninety-seven cars of cattle shipped to Stephens & Dobyms, the firm he represents only two or three were of steers, the balance were cows, calves and heifers.

The Moon pasture in Cottle county, 90,000 acres, the property of Judge J. M. Lindsay of Gainesville and others, was sold recently to English parties for \$135,000 cash. Mr. W. F. Somerville of Fort Worth is representing the purchasers. The cattle in pasture estimated at 5000 head were sold to Mr. W. de S. Maud, for \$40,000. Mr. Maud is ranging his cattle in the pasture.

Mr. R. H. Milling of Bradford, Anderson county, Texas, very kindly observes that he is reading the JOURNAL very close and that the paper has saved him about \$2 per head on his stock this year; he concludes the letter by saying "Success to the TEXAS LIVE STOCK JOURNAL." Such compliments are highly appreciated since many a man thinks he is wasting money when he pays a couple of dollars for about \$500 worth of information.

John Shelton of Fort Worth, Texas, has returned from an expedition into the Western range country and crossed portions of the Spur, Matador, Denton Cattle company, Kit Carter, Pitchfork and Louisville Cattle company pastures. He reports all those ranges, excepting the Denton company's ranch, as in excellent condition as to grass and water; the Denton range was a little short of grass.

Cattle companies or individual cattle owners having stock for sale will find it to their advantage to advertise in the For Sale or Exchange columns of the JOURNAL, stating the exact grade of the stock offered. The easiest way to to inform ten thousand people that you have stock to sell is to advertise in the TEXAS LIVE STOCK JOURNAL, which reaches many active men in the cattle trade who are now hunting for cattle to suit them.

Mr. R. A. Riddles of Alvarado was in town the early part of the week after feeding steers; he has recently gathered in about 400 from Hamilton county and proposes feeding them for spring market. Mr. Riddles has also some remarks to make about feeding gentle cattle and states, his preference for Central and North Texas steers with a little blood in them, over the wild and wooly rangers of the boundless West. Mr. Riddles says only a few steers have been placed in feeding pens at two cents, some have cost a little more.

Miles City Stock Growers' Journal:—The Chariton-Montana Co., sent out a tremendous train of beeves from here Thursday; the train being composed of thirty-two Street stable cars. Two other long trains were also sent out from our yards the same day composed of common cars, and filled with beeves from the Mizpah Co., and Otter Creek pool. The latter sent off another train yesterday.

At the laying of a corner-stone of a Catholic church at Reading, Pa., yesterday, a temporary structure fell down, injuring about a hundred people.

DALLAS.

Prince Edward 7001.

A notable example of choice Hereford cattle is the bull whose picture appears in this issue. Prince Edward is the property of G. W. Henry of Rossland Park, Ashkum, Ill., who in conjunction with Mr. Wm. Powell of Beecher, Ill., is making an exhibit at Dallas. These gentlemen have now a choice collection of bulls at Rhome, Texas, which were sent to be acclimated one year ago, and some are sired by Prince Edward, 7001. A good representative lot of their stock will be at the state fair at Dallas, and will be moved to the fair at San Antonio.

Prince Edward 7001 is the chief stock bull at Rossland Park, and the fine appearance of his progeny shows that he is adding laurels to his already great reputation as a sire. He has for his sire, the great Lord Wilton 4057 (4740), and has been pronounced by good judges to be the best Lord Wilton bull in America. He has been seen in the show ring but little, having been kept almost exclusively for stock purposes; he has, however, a record of several first prizes as an individual, besides heading the winning young herd at four prominent fairs. He is of the true Hereford type; low and blocky, with a broad level back, thick mellow hide covered with a good coat of hair, and an extra well formed hind-quarter.

More Cattle Than Sense.

The Dallas News of last Tuesday contains the following which simply shows that a man may own a good many cattle and still be a fool:

"A gentleman who owns more cattle than did the ancient party who ranch-ed on a multitude of hills, stated to the News yesterday that the live stock sanitary boards ought to be called in, and diseases given a chance to kill off the surplus cattle, so that the fittest which survived would be worth something. He says that if it were not for hog cholera hogs would not be worth a continental. What ails the cattle business is not beef syndicates, and things of that sort to which the depressed condition of the market is generally ascribed, but too many cattle, and the remedy he suggests is to give the pleuro-pneumonia, splenic fever and other bovine diseases, real and alleged, which the cow doctors say are looking for situations in this country a showing at the cattle. He says that nothing would contribute more to the boosting up of cattle values in this country than the introduction of all the surplus cattle diseases lying around loose in Europe. He says he would be willing to lose half of his herds if half of all other herds in the country died at the same time.

To Our Farmers.

Among the many candidates in Dallas county offering themselves for positions of public trust, we desire to call the attention, especially of our farmers, to one who has been identified with their interests for many years in the handling of grain, hay, etc., and one who is well known to be the friend

and worker for every enterprise that assists the farmers to market their products to the best advantage, being always the strong and vigorous advocate of good roads, (macadamized if possible) and as thousands of our farmers know has always exerted himself to keep them thoroughly posted on the market values of their products, where and to whom to sell, and to bring them the best information he had in regard to probable values during the season; and in this connection it would not be improper to say that his object in running for the office he now asks of you, is, that in the event of his election he may be enabled to invest such proceeds, as he can save therefrom, in the enlargement of his power and opportunities to better facilitate and advance the general interests of the grain and hay producers. It is his object to build up a great central emporium of this kind and it is certainly to the interest of all farmers to encourage him to that end, for the more capital put into the business the greater the strength of the values of the goods handled. Thus it is that the farmer, though indirectly perhaps, helps himself in voting for Thomas F. McEnnis for county clerk of Dallas county.

Elsewhere in these columns it will be seen that Gano Bros., Dallas, offer some fine bargains in blackland farms in exchange for Texas steers. Their lands are located in the best portion of the state.

Sales of Cattle at Carter & Sons' Stock Yards, Dallas, Texas.

- R. F. Williams sold to local butchers, 74 mixed cattle at \$12.25 per head.
- D. E. Stokes sold 9 yearlings at \$7.50 per head.

- E. V. Jones sold 4 yearlings at \$6.50 per head.
- G. I. Harper sold 18 hogs at 6 1/2c, av. 204 lbs.
- H. Tarbert sold 77 hogs to local butchers at 6c.
- B. J. Hinds sold 14 hogs at 6c.
- N. B. House sold 4 hogs, av. 137 lbs at 5 1/2c.
- Sam Madison sold 14 cows at \$12.25 per head.
- C. L. Cly sold 7 steers, av. 900 lbs, at 2 1/2c.
- G. G. Williams sold 11 cows at \$13 per head.
- R. S. Gray sold 3 milk cows at \$27 each,

A horrible story of widespread destitution comes from Ramsey county, Dakota, where the entire population is said to be on the brink of starvation. An appeal has been signed by the county officials and prominent citizens of Ramsey urging the people of St. Paul to take steps at once to alleviate the distress existing in the county.

Frank Bergen, the elevator boy at the Windsor hotel, Dallas, had his neck broken by sticking his head out of the elevator door while descending.

MARKETS.—Continued from 3rd page.

pound gross, 3@3 1/2c; common to fair, 2@2 1/2c; good fat cows, 2@2 1/2c; common to fair, \$9@12; calves, \$3.00@6; yearlings, \$6@9; good fat corn-fed hogs, per lb gross 6@7c; common to fair 4 1/2@5 1/2c; good fat sheep, each \$2.50@3.; common to fair, \$1@2.

GALVESTON.

[Reported by Winfree, Norman & Pearson].

BEEVES AND Cows—Choice, per lb, gross, 2@2 1/2c; common, per head, \$8@10; 2-year-olds, choice, per head, \$8@10; common, per head, \$6@7; yearlings, choice, per head, \$6@7; common, per head, \$4@5; calves, choice, per lb, gross, 2@2 1/2c; common, per head, \$3.00@3.50.

SHEEP—Choice, per lb. gross, 3@3 1/2c. Hogs—Choice corn-fed, per lb. gross, 6@6 1/2c; mast-fed, per lb. gross, 5@5 1/2c.

REMARKS.—Receipts of all classes of cattle have been comparatively light for the past two weeks, giving a healthier tone to the market and steadier prices. Common sheep in full supply. Hogs wanted.

SAN ANTONIO.

The local beef market has been stationary for some days, the demand being light and the supply not excessive. Hogs are in strong demand with no supply except local from the surrounding country, coming in on wagons. Several of the commission men have large orders by car-load lots for \$5 per 100 pounds, but can't fill them. Sheep nominal.

Quotations are as follows: CATTLE—Steers, shippers and butchers, \$14@16; cows, fat, from \$10@14; light, at \$7@10; yearlings, \$6@7.50; calves, \$3@4.

SHEEP—Muttons, \$1.00@2.00. Goats, average stock 50c@1.25 per head. Hogs—Natives \$4.50@5.50

DALLAS.

CATTLE.—Choice fat steers, 2@2 1/2c; choice fat cows, 2c; choice fat yearlings, \$6@9; milch cows, \$25@30; bulls ready sale at 1c 1/4; veal calves, 2 1/2@3c.

SHEEP.—Choice fat sheep, 2 1/2@3c; fair to common, 2 1/4@2 1/2c; goats, \$1.25@1.50. Hogs.—Range, 6@6 1/2c.

Jim Burrows, the leader of the band that robbed a train on the St. Louis, Arkansas & Texas railroad about a year ago, and who was arrested in Arkansas, died in jail at Little Rock.

A negro desperado in Virginia shot and killed three white men, without provocation. He fled to the woods, and if captured he will be lynched.

The postal department has put on a fast mail service between New York and St. Louis, which will lessen the time between Texas points and the East.

LEE H. HUGHES, Candidate for County Clerk, Dallas County. Election November 6, 1888.

THOMAS F. McENNIS, Candidate for County Clerk, Dallas County. Election Nov. 6, 1888.

HENRY H. SMITH, Treasurer of Dallas County. Candidate or re-election. Election Nov. 6, 1888.

Meat from a Thirteen Hundred-Pound Steer.

The following contained in the Prairie Farmer is of interest to all stock growers:

We take a 1300-pound steer as an example, for which the buyer pays 4 cents per pound, or \$52. A fairly fattened animal of this grade will yield about four per cent. of tallow—52 pounds, and 5 per cent. of hide, 65 pounds. The dressed carcass ranges from 55 to 59 per cent., according to the condition, say an average of 57 per cent., or 57 pounds of dressed carcass to each 100 pounds of live weight. This gives a dressed carcass weighing 741 pounds from the live weight of 1300 pounds. The 52 pounds of rough tallow at 5 cents equals \$2.60. The 65 pounds of hide at 8 cents equals \$5.20. The head, tongue and feet will bring 60 to 90 cents, say 75 cents; or for hide, tallow, etc., \$9. Suppose the butcher takes this amount for killing, dressing, taking care of and selling the carcass, and his profit. The carcass would cost the retailing butcher \$41, or \$54 cents per pound.

Hardly two butchers would cut up a carcass in exactly the same way, but an average from several Chicago butchers gives about the following percentages for the divisions of the carcass: Porterhouse steak, 4 1/2 per cent.; sirloin steak, 15 per cent.; round steak, 23 per cent.; chuck steak, 18 per cent.; rib roast, 10 1/2 per cent.; coarse meat, various, 29 per cent. Apply these figures to the 741 pounds of dressed carcass from the 1300-pound steer, and taking the present average charges of retail butchers, we have, omitting fractions:

33 lbs. Porterhouse steak [4 1/2%] @ 18 cents per lb.	\$ 5 94
111 lbs. sirloin steak [15%] @ 16¢ # lb.	17 76
170 lbs. round steak [23%] @ 12¢ # lb.	21 25
78 lbs. rib roast [10 1/2%] @ 14¢ # lb.	10 92
133 lbs. chuck steak [18%] @ 9¢ # lb.	11 97
194 lbs. rough meat, averaging 5¢ # lb.	10 64
22 lbs. [3%] shrinkage and loss.	00
741 lbs.	\$78 48
Cost of carcass, as above.	41 00

Retailer's remuneration and profit...\$37 48
If the retail butcher does his own killing he receives whatever additional profit there is in the \$9 allowed for this work. The prices of meat are those paid by the average consumers in Chicago.

New Style of Cattle Trains.
Cincinnati Price Current.

A new era in transporting live stock from the far West to the Atlantic seaboard has been inaugurated by a New York company, and the first train of Idaho beef cattle to make the run through was loaded September 20, at Soda Springs. This shipment consisted of 360 head of steers, averaging about 1350 pounds each, and was loaded in the new improved palace cars, having a compartment for each animal. The stock is fed and watered in the transit. A time schedule of 25 miles an hour has been figured, which would deliver the stock in the New York market in less than 120 hours, fresh from the Idaho ranges, 2500 miles distant. It is intended to establish a regular rapid transit line, each train being equipped with a dining and sleeping car, in charge of a trainmaster and special crew. The stock will not be unloaded, and the only delays will be one or two hours in replenishing the water tanks. The animals will be feeding at all hours on the journey.

A Frightful Skin Disease.

Sufferings Intense. Head Nearly Raw. Body Covered With Sores. Cured by the Cuticura Remedies.

Messrs. Stevens & Bruner, Monroe, N. C.: Dear Sirs:—About two months ago, on your recommendation, I bought a bottle of CUTICURA RESOLVENT, one box of CUTICURA SALVE, and one cake of CUTICURA SOAP, for my son, aged thirteen years, who has been afflicted with eczema for a long time, and I am pleased to say that I believe the remedies have cured him. His sufferings were intense, his head being nearly raw, his ears being gone except the gristle, and his body was covered with sores. His condition was frightful to behold. The sores have now all disappeared, his skin is healthy, eyes bright, cheerful in disposition, and is working every day. My neighbors are witnesses to this remarkable cure, and the doubting ones are requested to call or write me, or any of my neighbors.

WM. S. STEPHENSON,
Winchester P. O., Union Co., N. C.

MONROE, N. C., Oct. 20, 1887.

The Potter Drug and Chemical Co.: Gentlemen—Mr. Wm. S. Stephenson of this county brought his son to town to-day to let us see him, and to show us what CUTICURA REMEDIES had done for him. This is the case referred to in our letter to you some time ago. To look at the boy now one would suppose that there had never been anything the matter with him—seems to be in perfect health. We have written and herewith inclose what his father has to say about the matter—wrote it just as he dictated.

We are selling quite a quantity of CUTICURA REMEDIES, and hear nothing but praises for them. We regard the CUTICURA REMEDIES the best in the market, and shall do all we can to promote their sale. Yours truly,
STEPHEN S. & BRUNER,
Druggists and Pharmacists.

Cuticura, the great skin cure, and Cuticura Soap prepared from it, externally, and Cuticura Resolvent, the new blood purifier, internally, are a positive cure for every form of skin and blood diseases from pimples to scrofula.

Sold everywhere Price, CUTICURA, 50 cts.; SOAP, 25 cts.; RESOLVENT, \$1. Prepared by the POTTER DRUG AND CHEMICAL CO., Boston, Mass.

Send for "How to Cure Skin Diseases," 64 pages, 50 illustrations and 100 testimonials.

PIMPLES, black-heads, red, rough, chapped and oily skin prevented by Cuticura Soap.

WEAK, PAINFUL BACKS, Kidney and Uterine Pains and Weaknesses relieved in one minute by the **Cuticura Anti-Pain Plaster**, the first and only pain-killing plaster. New, instantaneous and infallible. 25 cents.

An Open Letter.

CHICAGO, ALTON & ST. LOUIS R. R. CO. }
OFFICE GEN'L LIVE STOCK AGT., }
ST. LOUIS, July 20, 1888. }

The undersigned, as the live stock representative of the old reliable and well-known Alton road, respectfully calls the attention of live stock shippers to the improved fast time now being made by this line from St. Louis, Kansas City and Higbee to Chicago. The cars of this line are uniform in size, and the roof is higher and better ventilated than any other ordinary stock cars now in use on other lines. In addition, the Alton is furnishing more of the improved palace stock cars to Texas shippers than all other lines combined. The Chicago & Alton makes a specialty of the handling of live stock, and in the past five years shipments have largely increased each year, which shows to all fair-minded people that we give attention to our patrons. No other line in the country transports as much live stock as the C. & A. in proportion to mileage. The books of the stock yards at St. Louis and Chicago will verify this. I can say, without fear of successful contradiction, that the C. & A. in the past has done some good work in behalf of live stock shippers so far as rates are concerned. The officers of this company have at all times looked upon the prosperity of stockmen as being beneficial to the road. The success of one was prosperity for both. I respectfully solicit of shippers a good share of their consignments, and promise them good treatment, fast time and rates as low as any first-class road makes.

I sincerely thank live stock shippers for the large patronage given our line in the past, and ask for their friendship and support in the future.

Shippers desiring any information or favors, by addressing me at St. Louis, will receive prompt replies.

JNO. NESBITT,
Gen. Live Stock Agent.

Breeding or Feeding.

Major Henry E. Alvord in the American Cultivator.

It is a curious fact that in quoting a man in print, and especially upon some disputed agricultural subject, he is often made to say a thing was black, when he had tried his best to express his opinion that it was white. This thing would be very exasperating if it were not so common.

In several places lately I have seen Dr. Sturtevant and others, as well as myself, quoted as stating broadly that it did not make any difference what was fed to a cow, as to the milk could not be changed by the food. I hope few people have been led to believe that the persons named ever made such absurd statements.

What I have said and written upon this point has been merely a repetition of the general truth, which is abundantly sustained by experimental evidence, that the breeding has more effect than the feeding upon the quality of milk, if not the quantity, which is produced by any given cow. If a cow, as the result of a long line of breeding in a particular direction, has fixed upon her and her dairy products the characteristics of her breed and family, these will never be materially changed by the way she is fed, or even neglected, so long as she remains healthy. If bred a butter cow and inheriting this trait, she will always be a butter cow. If by nature her milk is poor in butter fats, it will always be so, relatively, no matter how she is fed. If by

nature her milk is poor in butter fats, it will always be so, no matter how she is fed. If by inheritance a large milk-er, a generous yield will be her habit, even upon scanty rations; and if naturally a small milk-er, no quantity of feed will profitably increase her product. But these statements, which are certainly well substantiated, are perfectly in accord with the well-known increase or decrease in milk or butter, or both, from a given cow, as the direct result of a change in her feeding or other treatment.

Dr. H. P. Armsby, whom I regard as an excellent authority on this subject, has recently expressed his views admirably, in these words: "The quality of milk which a cow can produce depends upon her breed and individuality, and, in this sense, the quality of the milk is more dependent upon breed than upon feed. On the other hand, the quality of milk which any given cow will produce is very largely dependent upon her feed." Other good authorities may also be quoted, I believe correctly, as follows: "The disposition by breed will preponderate." "The quality of the milk is mainly dependent upon the breed of the cow, but not exclusively." "If by quality is meant richness of milk, it certainly depends primarily upon the breed." "The good cow will give good milk on quite poor feed; the poor cow will give better milk on good feed than on poor, but always a small mess of comparatively inferior quality."

It may be regarded as a settled fact that every cow has her limit of capacity, both as to quantity and quality, or richness of milk. Beyond this limit she cannot go, and no feeding or treatment can force her beyond it. It does not require much observation to determine what this limit is, and ascertain beyond what point food is wasted if consumed. In the well-bred animal, the limit of possible production is much farther removed from average product than in the common cow; hence, as a rule, highly-bred cows can be fed highly with profit. While we speak of a cow being unable to do better than her best, it is true that our cows are seldom at their best—rarely maintained at their utmost limit of the production, and so it is generally easy, by some change or improvement in feeding and care, to get direct results and prove that food does affect product. The general statement remains true, however, that in the dairy cow breed is more potent than feed, in determining the product and the profit of the animal.

How it Happened and all About it.

It was Tuesday September 11, 1888, always Tuesday, the 220th Grand monthly drawing of the Louisiana state lottery occurred under the sole management, as usual of Gen'l G. T. Beauregard of La., and Jubal A. Early of Va. The prizes, ranged from \$100 to \$300,000 and were distributed everywhere. Do you want to know to whom and where? No. 97,429 drew the first capital prize of \$300,000. It was sold in fractions: one-fourth sold to Jacob Shipley, New York city; the rest went to Costa Rica, C. A. The second capital prize of \$100,000 went to No. 21,025, sold in fractional parts at \$1 each, sent to M. A. Dauphin, New Orleans, La.: one twentieth went to Bank of Maysville, Maysville, Ky.; one to J. O. Roman, St. James Parish, La.; one to Ohio Valley Nat'l Bank of Cincinnati, O.; one a depositor through State Nat'l Bank, New Orleans, La.; one to B. L. Bennett, care of So. Bank of Ga., Savannah, Ga.; one to depositor through Wells, Fargo & Co., San Francisco, Cal.; one to Anglo-Californian Bank, San Francisco, Cal.; two to John H. Howard, Columbus, O.; through Com'l Nat'l Bank of Columbus. The Third capital prize of \$50,000 was drawn by No. 44,545, also sold in fractional parts of twentieths at \$1 each, sent to M. A. Dauphin, New Orleans,

La.; one went to Chas. T. Silk, Gainesville, Wis., through Bank of Gainesville; one to First Nat'l Bank of Sulphur Springs, Tex.; one to a depositor through Louisiana Nat'l Bank, New Orleans, La.; one to Israel Seligman, New York; one to First Nat'l Bank of Temple, Texas; the other parts went elsewhere. The Fourth capital prize of \$25,000 went to No. 1587, also sold in fractional twentieths: one to Jno. Weinnig, Jr., 86 Derbigny street, New Orleans, La.; one to R. C. Porter, Central Music Hall, Chicago, Ill.; one to Martin Welch, through Atlanta Bank of Atlanta, Tex.; one to James Robards, Hillsdale, Mich., through First State Bank of Hillsdale, Mich.; one to D. Geiger, So. Chicago, Ill. Any information desired can be had on an application to M. A. Dauphin, New Orleans, La. The whole affair will go over on Tuesday Nov. 13th, 1888. Take note of date.

Missouri Pacific Railway and Iron Mountain Route

offer a choice of routes to St. Louis and all points north and east; the Iron Mountain Route through Arkansas and Missouri, and the M., K. & T. through the Beautiful Indian Territory. Pullman buffet sleeping cars run through via both routes without change. This is also the direct line to Kansas City, St. Joseph and Omaha, and the Colorado Short Line from Kansas City to Pueblo and Denver.

Rock Salt.

Messrs. Turner, McClure & Co. of Fort Worth have en route a car-load of the celebrated rock salt, which is the best salt that can be used for cattle, horses, and all kinds of stock. Cattle like the rock salt and prefer it to all other. They cannot eat enough to hurt them, as it is as hard as a rock and must be licked. Messrs. Turner, McClure & Co. will fill orders by mail promptly, either in large or small quantity. Send a trial order.

CHICAGO MARKET LETTER.

Cows, Yearlings, Bulls, Breeding Stock of all Kinds and "Trashy" Cattle Fairly Overflowing the Market—Very Few Good Texans—Prices Higher Than Last Year—Banner Receipts of Sheep.

Regular Correspondence Texas Live Stock Journal.

U. S. YARDS, }
CHICAGO, ILL., Oct. 8, '88. }

The cattle market for this week opened weaker on all common cattle with heavy offerings of inferior to fair culling cattle.

Sales were at \$1.55@2.15 for inferior to fair cows, \$2.10@3.10 for poor to prime steers.

Black & M. marketed 317 steers 897 lbs at \$2.90; 133 yearlings, 574 lbs, \$2.20; 305 cows, 759 lbs, \$2.05, and 23 bulls, 1149 lbs, \$1.75. H. W. McKey marketed 90 steers, 934 lbs, \$2.60; 86, 884 lbs, \$2.60; 134, 884 lbs, \$2.60; 134, 892 lbs, \$2.50, and 234 cows, 807 lbs, \$1.85.

D. Waggoner & Son sent in 111 cows, 851 lbs, which sold at \$2.10.

J. Williams marketed 26 1028-lb bulls at \$1.75.

Belcher & Belcher 20 steers, 1077 lbs, \$3.10.

C. C. Roff 18 cows, 782 lbs, \$1.55.

A. F. Crowley 62 mixed, 904 lbs, \$2.45; 12 cows, 790 lbs, \$1.95; 26 cows, 866 lbs, \$1.95.

R. P. Lindsey 79 steers, 1069 lbs, \$3.

Indian L. & C. Co. 434 cows, 784 lbs, \$2.15; 100 yearlings 580 lbs, \$2.05; 37 bulls, 1157 lbs, \$1.70.

Very few good Texas and Indian cattle are now coming. There is a good demand for the best, though just now they meet pretty strong competition from Western cattle.

Receipts of sheep last week were 48,000 being the largest ever recorded and shipments which were 24,000 were also the heaviest ever known. Texas has contributed only a small share of the receipts lately. The runs have been almost exclusively from the far West. Utah, Idaho, Oregon, Wyoming and Montana. Sales of the latter have been at \$3@3.55 to feeders and \$3.45@3.70 to butchers.

The Western sheep men had expected better prices for their sheep this fall and got their ideas up pretty high in the spring when Texas sheep were selling at \$5@6, but they waited too long and their sheep were too much on the same pattern, all of medium quality, in good condition to feed but not to attract much competition from the mutton men.

Prices for different kinds of live stock compare with one year ago as follows:

	1888.	1887.
Best native beeves.....	\$6 50	\$5 10
Best Texas steers.....	3 00	2 50
Best Western range.....	4 40	3 40
Good cows.....	2 75	2 50
Best hogs.....	6 50	4 60
Best native sheep.....	4 00	3 90
Best Texas sheep.....	3 50	3 30
Best western sheep.....	3 70	3 55

The above shows a very substantial gain this year over last.

Extra fine hogs sold lately as high as \$6.90, being the highest in four years.

The amount of "trashy" cattle, cows, bulls, calves, stags, yearlings, etc. now coming to market was never before equaled in the history of the cattle trade. Even a year ago when the country was literally "burned up" with drouth and cattlemen everywhere

were compelled to market their stock whether or no, we did not get so many breeding and young cattle as are now coming forward. What does it mean? Feed is not short, on the contrary it is unusually abundant. It means, in the opinion of the writer that hundreds of cattlemen who have been disappointed for several years at the results of the business have resolved to cut down their herds and see no way so effective as butchering the cows and calves and yearlings. Said a Texas cattle salesman: "You can now call us cowmen with better reason than ever before. We never handled so many range cows as are now coming."

Men who have recently visited Texas tell us that prices for stock cattle are being marked up and there is more real trading than during any fall since the great boom. A. C. HALLIWELL.

ST. LOUIS MARKET LETTER.

The Regular Sales of a Low-Price Week.

EAST ST. LOUIS, ILL., }
Oct. 9, 1888. }

Regular Correspondence Texas Live Stock Journal.

It is the continuation of the same story, namely, heavy receipts of range cattle, and native and Southwest cow stuff, with prices as low as ever.

The influx of grass cattle of common to fair quality still continues. To say the least, the markets of the country are flooded with cattle. Shippers and handlers of stock are all losing money, that is certain, and the end is not yet. The market at the present writing is the worst of the season. The sales reported below will show what cattle are now bringing:

Cassidy Bros. & Co. sold for P. N. Blackstone, Muskogee, 25 steers, 969 lbs, \$2.75; Eckelberger & Fitzgerald, Denton, 20 steers, 857 lbs, \$2.62½; 20 steers, 938 lbs, \$2.40; E. Fitzgerald, Denton, 26 cows, 709 lbs, \$1.65; E. Eckelberger, Denton, 14 cows, 783 lbs, \$2; 20 calves, \$5.50 each; Russell & Morgan, Henrietta, 25 cows, 660 lbs, \$2.10; 16 calves, \$6.25 each; 49 cows, 691 lbs, \$1.70; J. M. Russell, Henrietta, 26 cows, 759 lbs, \$2.05; Cobb & Martin, Hunnewell, 50 steers, 901 lbs, \$2.65; 23 steers, 865 lbs, \$2.55; 77 steers, 874 lbs, \$2.50; W. Burdett, Gainesville, 27 cows, 760 lbs, \$1.67½; C. Dillon, Gainesville, 25 cows, 789 lbs, \$1.62½; Smith & Forsythe, Hunnewell, 64 steers, 873 lbs, \$2.65; 10 steers, 928 lbs, \$2.75; C. W. Morgan & Co., Henrietta, 50 steers, 883 lbs, \$2.50; B. L. Naylor, Baxter Springs, 45 steers, 1146 lbs, \$3.45; J. Butler, Henrietta, 22 steers, 765 lbs, \$2; J. P. Williams, Antelope, 16 steers, 938 lbs, \$2.90; James & Williams, Antelope, 47 steers, 734 lbs, \$2; D. L. Denny, Claremore, 21 steers, \$3; S. J. Woodward, Denton, 22 steers, 1016 lbs, \$3; 31 steers, 907 lbs, \$2.75; 14 cows, 828 lbs, \$1.90.

Hunter, Evans & Co. sold for Muddock & Moore, Oakwoods, 19 steers, 797 lbs, \$2; J. A. Gray, Greenville, 21 cows, 747 lbs, \$1.65; Cage & G., Alexander, 15 steers, 822 lbs, \$2.12½; 31 cows, 733 lbs, \$1.60; Slaut & Frazier, Hillsboro, 27 steers, 763 lbs, \$1.95; 28 steers, 701 lbs, \$1.90; R. Driscoll, Kleburg, 80 steers, 915 lbs, \$2.40; 25 cows, 764 lbs, \$1.90; 58 calves at \$6.75 each.

Scaling & Tamblin, sold for Geo. C. Peck, Abilene, 12 steers, 1101 lbs, \$2.70; A. E. Ray, Whiteright, 19 steers, 905 lbs, \$2.25; Espuela Land and Cattle Co., Dockum, 24 head, 885 lbs, \$1.85; E. V. Woodward, Hagensport, 14 steers, 787 lbs, \$2.10; 14 cows, 747 lbs, \$1.55; J. H. Sanders, Gainesville, 25 cows, 704 lbs, \$1.50; J. F. Taylor, Coleman, 25 steers, 982 lbs,

\$2.85; 87 steers, 883 lbs, \$2.75; 49 steers, 968 lbs, \$2.65.

The James H. Campbell Co. sold for Jordan & Broadus, Nacona, 13 bulls, 1080 lbs, \$1.75; 21 cows, 780 lbs, \$2; Forsythe Land and Cattle Co., 83 steers, 1024 lbs, \$2.90; 88 steers, 1015 lbs, \$2.80; 66 steers, 1005 lbs, \$2.75; 50 steers, 1020 lbs, \$2.75; from Beeville, 47 calves, \$6 each; from Henrietta, 120 steers, 1130 lbs, \$2.80; 99 steers, 1125 lbs, \$2.90; 100 steers, 1121 lbs, 2.80; 20 steers, 1112 lbs, \$3; 19 steers, 1092 lbs, \$3, 24 steers, 1077 lbs, \$3; 226 steers, 1035 lbs, \$3.12½; 25 steers, 864 lbs, \$2.70; from Colorado, 22 steers, 960 lbs, \$2.30; 25 cows, 735 lbs, \$2; 21 steers, 1048 lbs, \$2.50; 171 cows, 760 lbs, \$1.75; Henrietta, 180 steers, 1055 lbs, \$2.75; 160 steers, 1080 lbs, \$2.70.

But comparatively few Texas sheep are coming forward. Good fat Texas muttons are wanted and bring decent enough prices. To-day a train-load, shipped by J. F. Turner, of 80 lbs average, brought \$3.25 per 100 lbs. The sheep were in good condition. However, the bulk of the small arrivals consists mostly of light to fair, and bring less than \$3 per 100 lbs. Common thin Texas sheep bring only \$1.75 to \$2.25 per 100 lbs. Dealers predict high prices for sheep this winter and coming spring. Light sheep should be kept at home.

There is no change of any consequence to note in the Texas horse market. Offerings were not very large the past week, as Texas shippers are finding out that it does not pay to ship at this season of the year. The demand is very small, and almost wholly for the better grades. Prices range in extremes from \$15 to \$25 per head.

The wool market is quiet and unchanged. RATTLER.

Minnie Maddern.

Boston Home Journal.

One of the best performances in town this week is that given by Miss Maddern and her excellent company. Miss Maddern appears in roles which she created in New York and played at the Lyceum theatre. She is a unique and in several senses of the word, a surprising actress. Her wonderful sincerity, her exemption from all the trammels of theatrical traditions, her artistic comprehension of pathos and womanliness, and her exceptional means of natural execution, entitles her to the most critical attention. Miss Maddern has all that inward comprehension for which one looks in vain in the ranks of other American actresses, and a face and voice that reflects feeling along the entire compass of sweet and lovable womanhood. There are points in this young actress' work we can think of no other actress who can excel.

Stock Feeding.

Last year stock feeding was for the first time pretty extensively done throughout Southwest Texas. Generally it was found to be practical, utilizing the abundance of prickly pear and buying cottonseed meal from Central Texas. This year very few cattle will be fed in the same section, on said seed, but it is not because it is considered impracticable, but because the grass is so rank that stock will be rolling fat unless the winter is unusually wet and cold, and in many sections there has been a large corn crop that can be gotten rid of in no more profitable way than to feed it to stock. But the feeding of cottonseed meal has not been abandoned by any means. But experience has proven that stock must be fed more systematically than here before, and as a proof that the result will more than pay for the outlay we refer to the experiment in New Orleans last winter by a Mr. Vick in feeding cottonseed meal, and the hulls for roughness. The result was such as to warrant the increase of the enterprise by feeding fully 10,000 head this year. The firm is now Vick & Chittim, and 2000 head will be fed in Houston, Texas. 2000 in New Orleans and 2000 in Atlanta, Ga.; where the remainder are to be fed is not known. Mr. Chittim has been buying cattle about Victoria, Texas, for some time. These cattle are tied in covered stalls, where they receive the closest attention. The question now presents itself, if experience proves that Texas stock can be shipped to Atlanta and New Orleans and fed in good substantial stalls, why would it not pay to feed in stalls on the ranch, where fodder can certainly be raised much cheaper than it can be bought and fed in said cities. The greatest drawback to complete success last winter was the frequent stampedes, and the shrinkages by the exposures to the northerners. With well-built and clean pens these losses in time and money would not occur.

A Sun Motor.
American Cultivator.

For several years attempts have been made to employ the rays of the sun for the production of a useful mechanical motor. Such an apparatus has been particularly desired by the agriculturists on the Pacific coast of the United States, where other sources of mechanical energy are scarce.

Several difficulties have stood in the way of a satisfactory solution of this problem, such as imperfect apparatus and the lack of accurate knowledge as to the diathermancy of the atmosphere.

A distinct improvement has, however, been made in this line of engineering by the well-known pioneer, Capt. Ericson, who recently contributed an article to Nature describing his discoveries and his methods of carrying them out.

His apparatus for concentrating the sun's rays upon the steam-generating vessel consists of a portion of a large parabolic cylinder, with a reflecting surface of 100 square feet. The surface is made of a series of flat strips of silvered glass, fastened in a parabolic iron frame. The silver is placed at the back of the glass, so that it is protected from the tarnishing action of the atmosphere.

This construction combines the advantage of both cheapness and perma-

nency. Capt. Ericsson has also found that the variation of radiant solar energy at different zenith distances is so moderate that it is possible to work the engine for eight hours during the day under almost the same conditions.

The inventor is sufficiently satisfied with the practicability of this scheme to recommend its adoption by those who have sought for such an apparatus; but it must be with an element of grim humor that he makes such an announcement to English engineers.

Tasosa Pioneer:—James H. East, for two and a half years the efficient manager of the Lee-Scott interests on the range close to town, is arranging to retire from the position and will remove to the mouth of the Brazos river, on the Gulf of Mexico, where Mr. Lee is interested in a budding town, and where he will embark in business. He has taken up his residence in town for the present, and will occupy perhaps a month in arranging and winding up his affairs here. Mr. East is also too much of a politician to wish to quit us just at the eve of an election. His successor in the management of the ranch will be Mr. Al Popham, also a practical cowman and formerly connected with the Lee-Scott ranch, first here and afterward in Montana. Mr. East has lived among us in town and country for a long time, and it goes without saying that both he and his estimable lady will be greatly missed.

Silver City Enterprise:—At the recent sale of stock at Watrous, A. L. Campbell bought the bulk of the cattle, the prices paid ranging from \$12.50 to \$17 for cows and calves. A small bunch of old cows fetched a trifle less, and yearling steers were knocked off at \$8.25 a head. On the whole the sale was a very satisfactory one.

FT. WORTH OPERA HOUSE,

GEO. H. DASHWOOD, Manager.

ONE NIGHT ONLY! MONDAY, OCTOBER 15!

The great Spectacular Opera, the new

ZOZO

THE MAGIC QUEEN.

(Successor to R. F. TACKABERY.)

[Manufacturer of and Dealer in]

Saddles and Harness,

Strap Goods, Leather.

West Side of Public Square, FORT, WORTH, TEX.

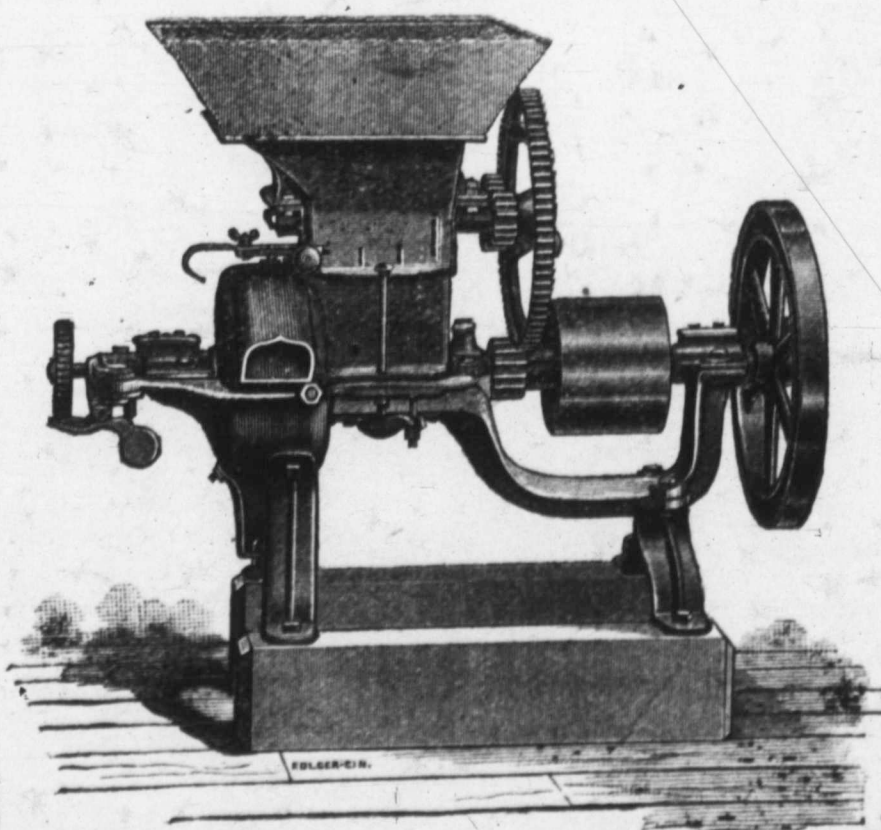

Having bought the the entire stock of Saddlery and business of R. F. TACKABERY, and combined it with my own large stock of Saddlery Goods, I am prepared to fill any first-class order in that line. I have also secured the services of C. E. Moore, late foreman, and all the old reliable saddlers formerly with the house. It will be my aim to keep up the reputation of the Tackabery Stock Saddle, and as an inducement to the old patrons to renew their business relations with the house, I will for the next sixty days duplicate any of his make of saddles, by number, both in style and material, at 10 per cent. discount on former prices. Every stockman on the range will confer a favor by sending me his name and address.

Scientific Grinding Mill.

The only mill on earth that will successfully grind

EAR CORN WITH SHUCK ON,

As well as cotton seed and all small grain.

Grinders, you can make money by having one of these mills.

Feeders of stock, you can save one-third of your feed, by grinding it.

It is an established fact that ear corn with shuck on ground up makes the best and most economical of all feeds. Send for our circulars and sample of the feed. Mention this paper, and address the state agents,

THE

KANSAS CITY STOCK YARDS

Are by far the most commodious and best appointed in the Missouri Valley, with ample capacity for feeding, weighing and shipping Cattle, Hogs, Sheep, Horses and Mules. They are plankled throughout, no yards are better watered, and in none is there a better system of drainage. The fact that

HIGHER PRICES ARE REALIZED HERE

Than in the East is due to the location at these yards of

EIGHT PACKING HOUSES,

with an aggregate daily capacity of 3300 cattle and 27,200 hogs, and the regular attendance of sharp, competitive buyers for the packing houses of Omaha, Chicago, St. Louis, Indianapolis, Cincinnati, New York and Boston.

All the sixteen roads running into Kansas City have direct connection with the yards, affording the best accommodation for stock coming from the great grazing grounds of all the Western states and territories, and also for stock destined for Eastern markets.

The business of the yards is done systematically and with the utmost promptness, so that there is no delay and no clashing, and stockmen have found here, and will continue to find, that they get all their stock is worth with the least possible delay
