Sales were light this last sale, only about \$1,800 worth was sold through the ring, due to the fact that farmers are very busy with crops just at this time of the year. However all hogs that were brought were sold with strong market. Some few animals were not sold, due to the declining market of the week in Fort Worth.

Mgr. Glenn Cunningham is very anxious to have plenty of stock for Monday's sales to supply the demand, so list your stock now, and he will get the buyers there.

**ELECTRIC POWER RATES**

The Wichita Falls City Council Monday night (the 16th) will decide whether or not they will accept the Texas Electric Service Company's new proposed rate reduction of \$40,000 annually, or whether they will call an election and let the people decide whether or not they will accept the Government PWA Loan of \$963,000 and Grant of \$787,000 with which to build a Municipal Light Plant. Legislation authorizing these projects has already passed the House and is now before the Senate. According to the best information available, the citizens of Wichita Falls are now paying more than \$500,000 annually above TVA rates.

At the request of citizens of Wichita Falls the writer has furnished them the latest information as to comparison of rates at Wichita Falls, with that of TVA; Tacoma, Washington; Ontario, Canada and Manitowoc, Wisconsin. Each and all of these Municipal Light Plant services are furnished their citizens at less than 1/2 the cost of the service rendered to the citizens of Wichita Falls. Cities having their projects ready will be given preference when this legislation is enacted.

**THE RECOVERY PROGRAM**

The new Recovery Program passed the House Thursday by a vote of 329 to 70 and now goes to the Senate for their consideration. It is estimated this work will furnish employment to more than 4,000,000 persons. Projects to be constructed under the new program must be approved by local communities which will insure work on the most worth while projects where the greatest amount of labor will be employed. Since February 1937 more than 3,000,000 workers have lost their jobs in private industry and this has caused more than 2,000,000 additions to the relief rolls. The new program is not only designed to help educate the youth, but to assist the farmer, laborer and all those in need.

**COTTON ADJUSTMENT PAYMENTS**

Congressman Tarver and myself were appointed by the Agricultural Subcommittee to submit an amendment to the Committee to accelerate the cotton adjustment payments to the farmers this year. These amendments it is hoped will expedite payment at the earliest possible time this Fall. It is recognized that this \$130,000,000 is of great importance to the prosperity and

general welfare of the South.

**RADIO INVESTIGATION**

The writer was the first to testify before the House Rules Committee last Thursday, urging approval of his resolution to investigate the radio monopoly. He pointed out that two former United States Senators had interfered with the activities of the Department of Justice in prosecuting anti-trust suits against the Radio Monopoly. He also pointed out how the Radio Monopoly and Telephone Monopoly after a Bill of Complaint was prepared, had settled out of Court their monopoly in the sound motion picture field, and how these monopolies of Telephone, Radio and Moving Pictures, because of the Consent Decree and lack of anti-trust prosecution, go merrily on. The testimony before the Rules Committee urging an investigation of the Radio Monopoly will be continued this week.

**THE CALENDAR**

The House last week considered and finally passed the Relief and Recovery Program and this week will consider on Monday and Tuesday, Unanimous Consent, Suspensions and Private Calendar, and the remainder of the week Civil Aviation and Flood Control Legislation.

The Senate last week debated and finally passed the Merchant Marine and Civil Aeronautics Bill and this week will consider Conference Reports on Appropriation Bills and the Relief and Recovery Program.

**Early Payment Of '37 Cotton Bounty Approved By Senate**

Early payment of the 1937 cotton bounty of two cents per pound has been approved by the Senate in adopting the amendment of Senator Tom Connally of Texas to the agricultural appropriation bill. When the bill is finally enacted into law the department will start immediate preparations to make payment upon proper proof of compliance, Senator Connally has been advised.

The benefit payments to cotton farmer are made possible by the Connally-Jones amendment to the agricultural adjustment act of 1935. This amendment which was sponsored in the Senate by Senator Connally, provided that a percentage of the revenue from customs duties should be used by the Secretary of agriculture to pay bounties to farmers and otherwise aid in the increase of agricultural exports.

Last August Senator Connally offered a resolution in the Senate making provision for benefit payments to cotton farmers on their 1937 crop under the terms of the Connally-Jones plan. It was finally put into effect but provided that payments should go only to farmers who

cooperated in the 1938 program. The Comptroller General ruled that such payments could not be made until the end of the 1938 crop year and officials of the Department of Agriculture said it would be December before farmers would get their checks. Senator Connally then introduced his amendment providing that the payments should be made just as soon as a farmer shows he is complying with the 1938 program. Approximately \$130,000,000 will go to cotton farmers as benefit payments under the provisions of this amendment.

**Large Crowd Heard Baccalaureate Sermon**

Rev. Paul J. Merrill, pastor of the First Christian Church delivered the Baccalaureate Sermon last Sunday May 15th to a capacity-filled house at the First M. E. church at 11 A. M. to the 1938 graduating class of 42 students.

Rev. Merrill used for his theme, "How Big is Your World?" with a scripture lesson from the 12th Chapter of Romans. He suggested that all attend Christian Colleges if possible. He stated that "In every heart there is a world. In some it is small, while in others it is quite big." "Your world is as big as your soul, no bigger," he said.

"The Apostle Paul's world was the universe because his soul was filled with a burning zeal to benefit mankind.

"A lad was sitting in the hills of Galilee gazing dreamily over the beauty of the blue sea and the still blue skies beyond. In his youthful heart was burning the fires of universal conquest. Conquest over life and death. He said it is now time for me to be about my Father's business.

"A sower went forth to sow." The seed is the word of God. And the good soil is the heart of men." In the heart is your world." Let your ambitions reach to the ends of the earth and on into eternity."

The following poem was read in connection with the wonderful sermon.

**SPRING MIRACLE FOR A DIME**

I paid a dime for a package of seed  
And the clerk tossed it out with a flip.  
"We've got 'em assorted for every man's need,"  
He said with a smile on his lip.  
"Pansies and poppies and asters

and peas—  
Ten cents a package! And pick as you please!"

Now seeds are just dimes to the man in the store,  
And dimes are the things that he needs;

And I've been to buy them in seasons before,  
But have thought of them merely as seeds;

But it flashed through my mind as I took them this time,  
"You have purchased a miracle here for a dime!"

"You've a dime's worth of power no man can create;  
You've a dime's worth of life in your hand!

You've a dime's worth of mystery, destiny, fate,  
Which the wisest cannot understand.

In this bright little package—  
now isn't it odd?—

You've a dime's worth of something known only to God."

—Author Unknown.

Mr. A. V. Slagle and Mr. A. J. Oheim have returned from Austin where they attended a Texas Abstractors Convention. They also visited Del Rio, Acuna Villa and other interesting places in Old Mexico.

### Crowley Finds Radio Is In Hands of The "Big Uns" in Texas

In a furious verbal blast, Karl A. Crowley, candidate for governor, this week challenged the right of what he termed "monopolistic radio over-lords" to censor his radio speeches, turning hard upon station WOAI, San Antonio, through which his address was to have originated and been broadcast over the Texas Quality Network Tuesday evening.

Crowley, having recently resigned the post of Solicitor General of the Post Office Department and returned to Texas to further his campaign, sharply resented the stipulation of WOAI and associated stations that he submit his radio script several days ahead of the program date to attorneys Boyle, Wheeler, Gresham and Terrell and agree to permit them to refuse, revise or censor the speech.

Charging that John Boyle of that firm was two years ago a regional campaign manager for E. O. Thompson and was now interested in advancing the present candidacy of Thompson, Crowley lashingly accused the radio and the press of the large cities of suppressing free speech, and of being under "monopolistic dictatorship of corporate robots that are trying to squeeze the very life-blood out of private individual enterprise."

Small town daily and weekly newspapers are being threatened with virtual extinction because of dastardly influences of the "big-time pressure gang" that dominate many sources of advertising, Crowley declared.

Refusing to allow the text of his speech to be censored or altered by representatives of the radio station, assertedly more friendly to an opponent, Crowley hit back by demanding an investigation by the Federal Communications Commission of practices which he said had "stifled the freedom of the press and conspired to violate the Federal Communications laws."

His message to Chairman Frank McNinch of the Commission follows in part:

"I am sure that while Mr. Boyle is professionally honest, nevertheless he is the campaign advisor of Ernest O. Thompson, one of my opponents. He was the state-wide organizer and head of the Jeffersonian-Democrats, an organization which bitterly and viciously opposed President Roosevelt during the last campaign. He was a staunch supporter of the Republican nominee Governor Landon in 1936. He is vigorously anti-administrative, his clients include great oil companies, utilities and interests which are viciously opposing me in this campaign.

"It is unthinkable that not only the freedom of the press is

destroyed in Texas by corporate influence but that radio stations often times owned by newspapers, can violate federal laws by censorship of their own, and in this instance it is unthinkable that I submit a week in advance copies of my speeches to the campaign managers of my opponent giving them the privilege of rewriting the speeches, censoring them, or refusing to allow them to be broadcast. This also gives the corporation favorites that I oppose the opportunity to destroy the effect of my speeches before they are made.

"As a citizen and candidate for a high office in this state I request that an investigation be made of the radio monopoly in Texas, especially these radios owned in connection with metropolitan daily newspapers."

Campaigning through West Texas during the past week, Crowley spoke Monday night in Del Rio. He is scheduled to visit San Antonio Wednesday and later in the week to be at Dallas and Fort Worth.

Set your radio dial at 840 kilocycles every morning at 6:15 and every evening at 7:30 every day and every night until the primaries are over.

Of interest to their many friends was the marriage Friday evening May 13th of Miss Lazelle Hohenstein and Mr. R. E. Williams of Denton. The simple ring ceremony was read at the First Christian church at 8 o'clock, by Rev. Paul J. Merrill, pastor of that church, in the presence of only close friends and relatives of the couple.

For the occasion, the church was beautifully decorated with lillies, pink roses and peonies, and blue cornflower, which combined with fern created an appropriate setting for the service.

Preceding the ceremony, Miss Miss Mary Nell Milner sang "I Love You Truly" with Miss Helen Prewitt accompanying. Miss Prewitt also gave the processional from Wagoner's "Lohengrin" and provided a muted conception of Liszt's "Liebestraun" during the ceremony.

The bride is the attractive daughter of Mrs. Margaret Hohenstein. She is a graduate of the Henrietta High School and attended Texas Wesleyan College in Fort Worth one year and North Texas State Teachers College in Denton for two years. For her wedding she was attractive in a sheer frock of navy blue with which she wore white accessories, and a corsage of pink rose buds and lillies of the valley.

Mr. Williams is a son of Mr. and Mrs. C. R. Williams of Denton. He is a graduate of the N. T. S. T. C. of Denton and a prominent young business man of that city.

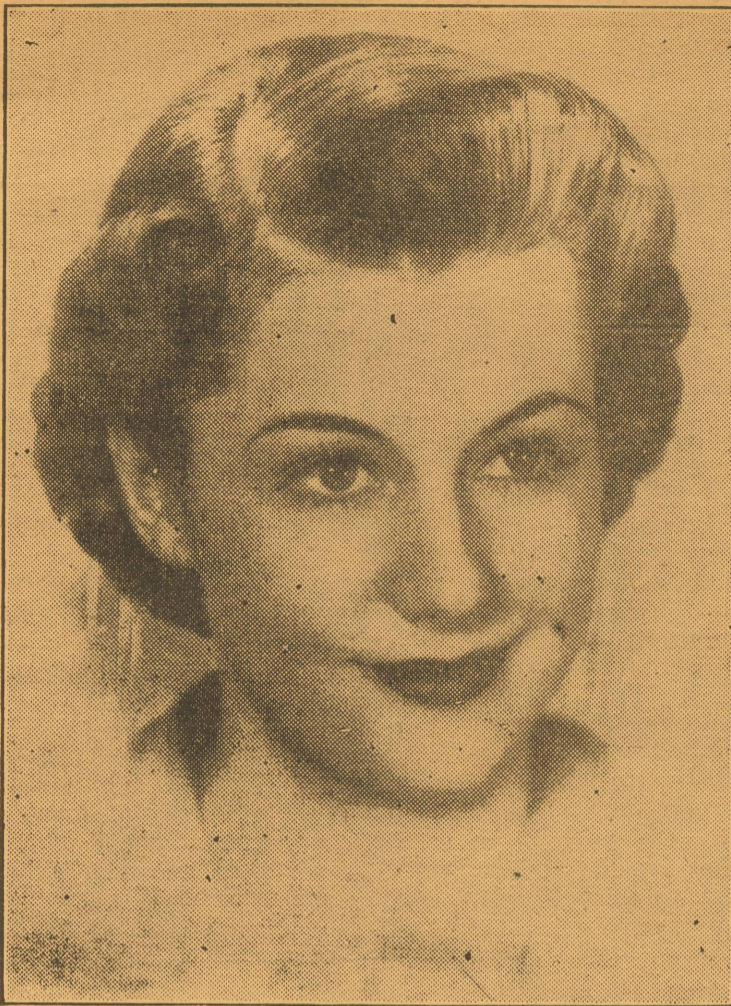

Mr. Ragan Rutledge of Corsicana was best man for Mr. Williams.

Immediately following the wedding, Mr. and Mrs. Williams left for a short wedding trip to Fort Worth, Dallas, Mineral Wells and other points of interest in south Texas. For travel, the bride wore a navy wool suit. Upon their return they will be at home to their friends in Denton.

A little while ago just before Senator Pepper was renominated in Florida, the minority party spokesmen were gravely telling us that that nomination would settle the fate of the New Deal.

That distinguished political prophet, M. Frank Kent, for example, as late as April 12th proclaimed that Senator Pepper was in the throes of desperation and he referred to the contest between Senator Pepper and Congressman Wilcox for the Senatorial nomination as a clear-cut issue, and he saw "a realization that something more than a Roosevelt endorsement was needed to pull him (Pepper) through." We were advised in the same story that those best posted had decided that in the primaries no candidate would receive a majority, and if Senator Pepper and Mr. Wilcox did face each other in the run-off, "the Pepper advantage of a split opposition will disappear and a struggle between a Democrat who votes independently of Mr. Roosevelt and one who votes subserviently will be simplified." And Senator Pepper, when it came to the voting, polled more than all four of his competitors combined.

Mr. Mark Sullivan, another eminent political philosopher, assumed the outcome of the Florida contest, which had not yet come off, would be defeat of the Senator who supported the President. From this he deduced the moral that the Republicans in States where they had no chance to win the election, should vote in the Democratic primary and there support the anti-New Deal Democrat. "I am told," said Mr. Sullivan the President a lesson.

Mrs. C. Chadwick and Mrs. Alfred Goehring were in Bellevue Tuesday to attend the funeral services of Mrs. G. W. Davenport.

## Annual Buddy Poppy Sale

Each year during the week of Memorial day the Veterans of Foreign Wars conduct their annual national sale of Buddy Poppies. Proceeds are used for the relief of those war experiences left them handicapped for self-support, and a share is allotted to the V. F. W. National Home for Widows and Orphans of Ex-Service Men, at Eaton Rapids, Mich. The sale has received the endorsement of the President of the United States, the General Federation of Women's Clubs, religious leaders, labor organizations and many other associations of business and professional people.

All Buddy Poppies are guaranteed by a copyrighted green label, which identifies them as the handiwork of disabled and needy ex-service men; they are made in government hospitals through an arrangement with the United States Veterans Administration. More than five million poppies are ready for the 1938 sale.

By the purchase of a Buddy Poppy you will be rendering a service to those who have suffered much, through rendering a real service to you.

## JUST CRUISING

(By the Captain)

This year's gubernatorial campaign grows more promising as each week passes, and it is still quite apparent that there are many ways in which one can "muddy the waters" if such tactics are resorted to and put into action. The latest entry into the governor's race is one "Vernest O. Thompson" of Dallas, whom press reports stated has filed and paid in the necessary hundred dollars filing fee. He is said to be a Dallas filling station operator, and the fact that his name is so much alike that of the Railroad Commissioner, Ernest O. Thompson of Amarillo, who is recognized at this time as one of the five leading candidates for this important office, it appears certain that someone already in the race is trying to "slip something over" on Commissioner Thompson. It is said the Dallas city directory lists this newest entry's name as "V. O'Neal Thompson," so it can easily be read between the lines that since he has filed as Vernest O. rather than "V. O'Neal" Thompson, it is being done to complicate matters and in order to take some votes, likely, from the R. R. Commissioner, and this being true, another thing is reasonably certain and that is, some candidate already announced has gotten this fellow to enter the race to make things more complicated. This will be watched with much interest, for everyone will admit that the recent Dallas entry is not known to the people of the state and has no chance of being elected and most likely knew this to be fact when he filed.

Senator Minton, Indiana, is seeking to have a regular senate lobby committee investigator "look into the propoganda" being published by certain newspapers throughout the country. The senator is of the opinion that they are being paid for the matter they are carrying and which has for its purpose the turning of public opinion against the administration's special program, admittedly, many of the larger papers and publications are against the policies of the New Deal because they look upon certain phases of the program as being detrimental to the future welfare of the nation as a whole, while it will most likely be found, should such an investigation be made, that many are receiving pay for the matter they are carrying. But, in the latter case, just what could be done about it? This is supposed to be a land where freedom of the press predominates! If one or more of the newspapers care to sell their space for the proverbial "mess of pottage" they surely have that right, at least until we have our present plan of government changed and we

take on the "dictator" form which does away with "freedom of the press" along with every other known right of individuals or groups.

Walter Winchell in his radio "flashes" Sunday night stated that one of the Justices of the U. S. Supreme Court believes that some of his "private wires" to his home or office are being "tapped" because some of his discussions or decisions are reaching the public before the Justice announces them in open court. Winchell did not name the Justice who made the complaint. Surely, if this be true, someone or somebody must believe this Justice is doing things unbecoming the high office which he fills and that he needs "watching". Or, on the other hand, if the Justice is right in his opinion, then he should never discuss his private opinions or affairs over the wire, but do this only in the privacy of his own office or home. However, stranger things than this have happened in this fair land of ours, and are happening every day right around us everywhere! This is the "day of modernistic action,"—so say the special writers and columnists, so one must not let anything upset them to any great degree, if they care to maintain their equilibrium.

Disney, Okla., new "Dam Boom-town" on the Grand river in Mayes county, is getting much publicity these days through the fact that they are "trying out" a Woman Mayor for thirty days who believes in having "an open town" and during the month of June they will try another woman mayor who believes in a "closed shop." After this 60-day trial of both plans, the citizens will vote on which they prefer. The business men of this city, which has sprung up over night, have petitioned the president of the chamber of commerce to have the county authorities call an election at once in order to have a legally elected mayor and city officials. The outcome of Disney's final selection will be watched closely.

Speaking of what constitutes "socialism", some people have very strange ideas about it. Too often their ideas or opinions are formed for them and not by them, and more especially is this often true when the remuneration they are receiving indirectly is considered.

With this week-end our graduates will bring to a close their school days in the old home town. Many will go away to continue their studies, while others will find employment here or elsewhere. But wherever they may go or whatever they may do, we join in wishing for each of them success in whatever they may undertake.

## Home Demonstration

Miss Ruby E. Hayden, Clay County Home Demonstration Agent

### New London

Dress up your old furniture and make it look like new. This can be done using some good upholstery, samples of materials were studied by our club Wednesday afternoon at the New London Church. An interesting English lesson on pronunciation was given by Mrs. Frank Borgman.

Members present were Mesdames R. W. Scudder, Floyd Cullers, Frank Borgman, R. C. Shackelford, Jim Weatherford and Misses Fannie and Mattie Vaughn. Visitors were Mesdames H. L. Scudder and Mrs. Herman Fonville.

The next meeting will be on May 25th at the home of Mrs. Rollie Wells.

The dress parade was held on Saturday, May 14 at the agricultural building with Edith Lois Wilson, Montague County Home Demonstration Agent, leading in the comments on the dresses.

There were 3 children's and 19 women's garments shown.

Miss Wilson brought out the points that in children's clothes one should have suitable materials, colors, and designs. Desirable materials for play dresses are those that are easily laundered, fast colored, and with a design small enough to be pleasing and in keeping with the size of the child.

Children have developing personalities, and clothing, although neither child or parent are conscious of the fact, certainly affect them. The dress that is too tight causes the child to be con-

scious of her clothing and in some cases may cause the development of a nervous gesture or retiring personality.

Women's clothing, too should be suitable in material color and design.
