## C. D. SHAMBURGER BUYS SITE FOR HIS NEW RETAIL LUMBER YARD AND WILL BE READY FOR BUSINESS APRIL 15TH

Well Known Lumber Dealer Sees Bright Future for Clay County And Puts In Second Yard.

C. D. Shamburger, owner of the well known Shamburger Lumber Company, Inc., has purchased lots in Henrietta and will soon begin the erection of office building and lumber sheds for putting in his second retail yard in Clay county. Mr. Shamburger has owned and operated a lumber yard in Byers for a number of years and told this reporter for The Leader Wednesday afternoon that he sees a bright future for Henrietta and Clay county and has decided to put in his yard here.

Mr. Shamburger purchased the half block owned and operated heretofore by Mr. James Henry for his grain and feed store and wagon yard and which brick building has been used for some time for high school band practice room. He also purchased the lot owned by Rex M. Gates and which Mr. Gates has been using for his Used Car lot. He has also been figuring with Mr. J. B. Oheim on the purchase of his lots to the north of the Gates lot, but they have not yet reached agreement. Should he purchase these lots from Mr. Oheim, he stated to this reporter he would improve the entire block, using it for his new lumber yard.

Mr. Shamburger informed us that he was submitting plans of his proposed venture to the city authorities for their approval since these lots are in the fire zone and structures erected in this zone must meet certain requirements. He stated he anticipates no trouble in this instance, for he wants his entire plant to be as near fire-proof as it is possible to build such a yard.

Mr. Shamburger says that it will be April 1st before he can secure the Henry brick building, but will begin improvements as quickly as he gets possession and hopes to have his retail lumber yard in full operation by April 15th.

## Makes 1200 Barrels Oil In Official Test With Gravity of 42 Plus

Clay County Leader

Making 1200 barrels of high gravity oil after an official test, Burns No. 1 Browning Well has been shut down to await pipeline connections.

This well is located in Block 94, J. H. Belcher subdivision and approximately twelve miles southwest (Continued on Back Page)

## T. Everett Slagle Passes to Reward

Just as The Leader goes to press we learn with regret of the passing of Mr. T. Everett Slagle, City Tax Collector, whose illness has been failing the past three months. Mr. Slagle passed away at 1 o'clock Thursday.

He is a brother of Mr. Arthur V. Slagle of the Henrietta Abstract Co., and was indeed popular and esteemed in church lodge, civic and political circles.

Funeral arrangements were pending as we go to press, but it is learned the funeral will be held

## Supt. Richardson Asks Co-operation

Since there have been a number of cases of measles in the past few days, the health officer has asked that parents assist the school in preventing the further spreading of the disease.

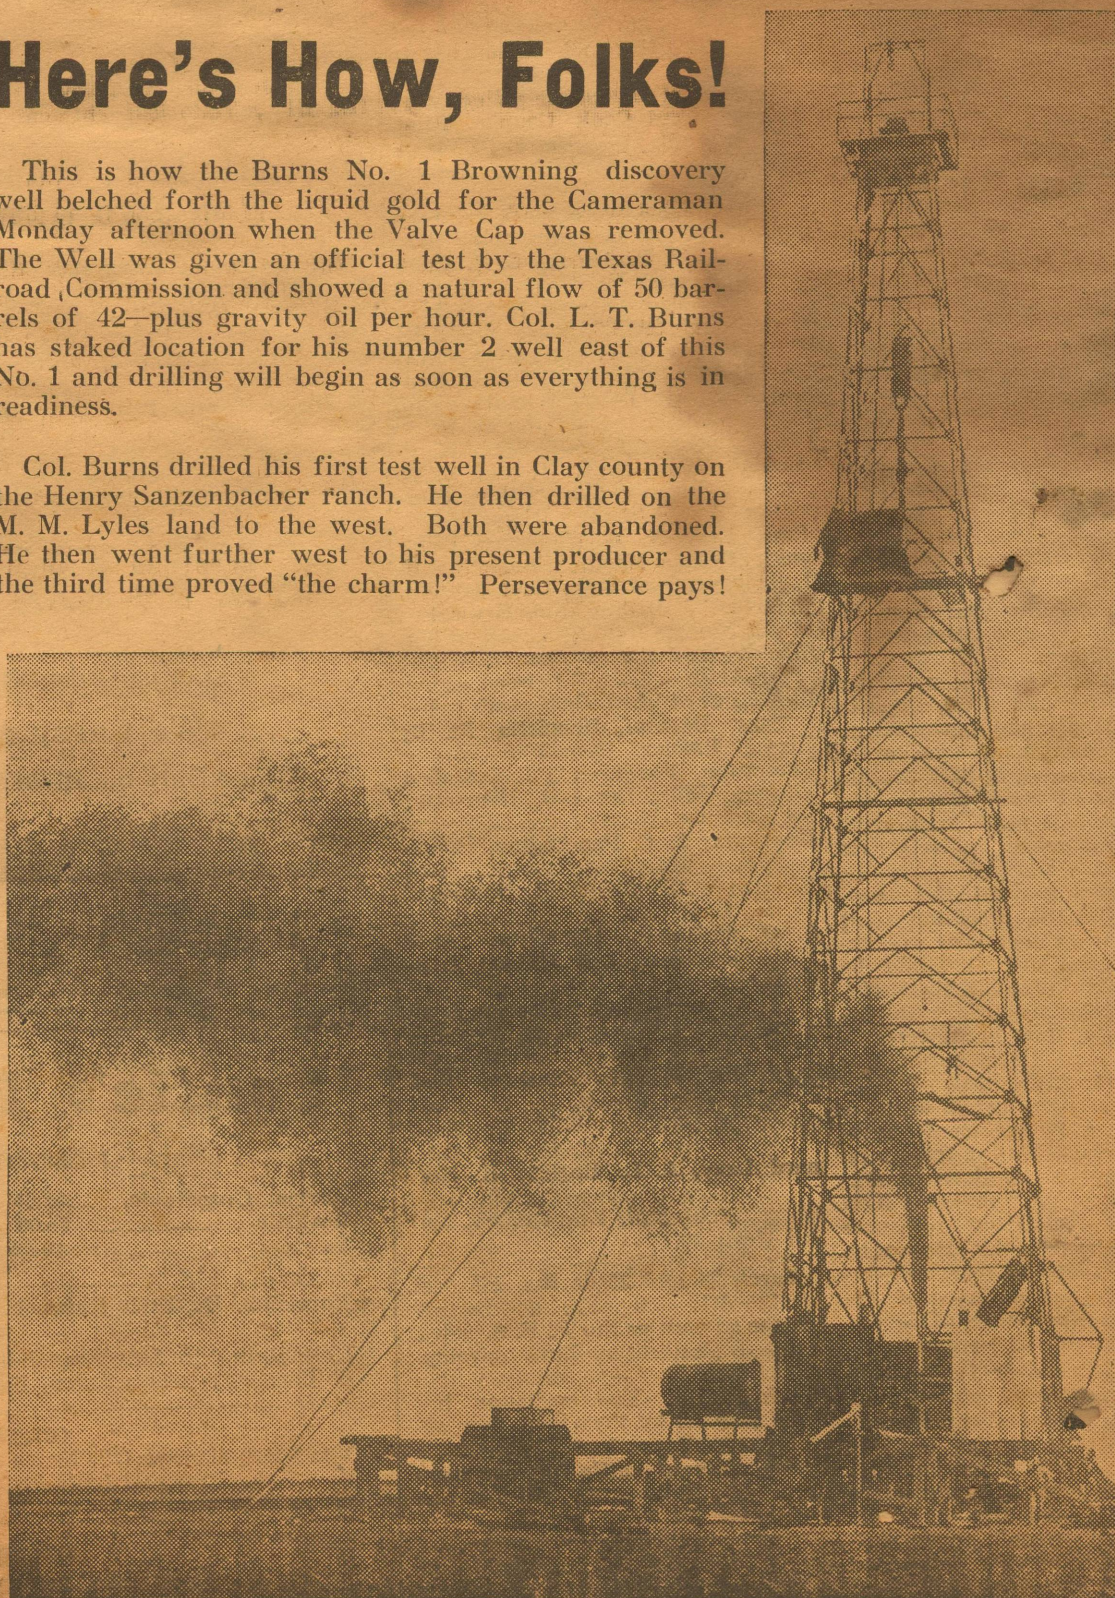

Mr. Dymally, Howard Noma, Th Church, Paul Oklath, conducting, was for 33 years treasurer of Sunday School.

Mr. Slagle is a long-time resident of Henrietta. A more extensive mention of his passing will appear in next issue.

## Here's How, Folks!

This is how the Burns No. 1 Browning discovery well belched forth the liquid gold for the Cameraman Monday afternoon when the Valve Cap was removed. The Well was given an official test by the Texas Railroad Commission and showed a natural flow of 50 barrels of 42-plus gravity oil per hour. Col. L. T. Burns has staked location for his number 2 well east of this No. 1 and drilling will begin as soon as everything is in readiness.

Col. Burns drilled his first test well in Clay county on the Henry Sanzenbacher ranch. He then drilled on the M. M. Lyles land to the west. Both were abandoned. He then went further west to his present producer and the third time proved "the charm!" Perseverance pays!

### By Boyce House

Someone sends in this rhyme:  
 Ever trouble Adam had,  
 A man in days of yore  
 Would say, when Adam cracked a  
 Joke,  
 "I've heard that one before."  
 Among the most ancient is the  
 Story of the negro who was about  
 To be hanged. Thousands were as-  
 sembled about the scaffold. "Have  
 you got anything you want to say?"  
 the sheriff asked. And the con-  
 demned man replied, "Jest this,  
 white folks, this shore am gwine to  
 be a lesson to me."

Do you know where Hickory  
 Grove is? If not, Jerry Sadler will  
 tell you to describe the exact lo-  
 cation of the town in which the  
 railroad Commission has located  
 "Hickory Grove" in Young County,  
 near Springs, north of  
 the town of Stuckback and  
 about 10 miles back, to be exact, it's  
 about 10 miles east of the depot at  
 Adams said, "Write me  
 if you know one who loves his fellow  
 man as much as E. C. Stovall of Gra-  
 ham. He is one who loves hu-  
 manity and modern health re-  
 sults. He sprung up near the little town of  
 South Bend in Young County. When  
 an oil gusher on his land changed  
 overnight into a sulphur water  
 gusher, Stovall found that the  
 water had remarkable curative  
 qualities and he built a bathhouse  
 for his own use. Noticing one morn-  
 ing that tracks led from the build-  
 ings, he saw that others were mak-  
 ing use of the water so he erected  
 a larger bathhouse and, making  
 no charge gave two boys the towel  
 session in return for running  
 the place.

From that modest beginning, a  
 bath house costing perhaps \$50,  
 has been constructed and, last  
 year, there were 30,000 who bathed  
 in the hot curative waters. Feeling  
 that the waters are God-given  
 and that the bathhouse has not sought  
 a profit and where a person is  
 willing to pay even the nominal  
 fee, he is welcome to bathe  
 at any cost.

Visitors came last year from al-  
 most every State and from several  
 foreign countries.  
 Perhaps 75 per cent of the  
 visitors, big and little, opposed  
 the fair trades and anti-discrimi-  
 nation bills, sentiment against the  
 measures is growing in both Houses  
 and citizens from small towns and  
 rural communities write in. A small  
 group of legislators actively for  
 the bills were pledged early by  
 merchants who thought the meas-  
 ure would benefit them but some  
 business men now are be-  
 coming doubtful that it would be  
 advantageous to place in the hands  
 of manufacturers the power to dic-  
 tate the price that housewives of  
 this State must pay. Those out-of-state  
 manufacturers might take it into  
 their heads to jump prices on their  
 products 10 or 20 per cent over-  
 night and thereby levy a tribute on  
 this State running into millions of dol-  
 lars annually. A valiant fight  
 against the price-fixing measures  
 is being waged in the House by  
 the representatives from widely  
 separated points. Abe Mayes of At-  
 lanta, Harold Hankamer of El Pa-  
 so and Jim Taylor of Kerens.

There are and there over Texas: Con-  
 sultations to Texas on the ses-  
 sion of Mrs. Lexie Dean Robert-  
 son of Rising Star as poet laureate  
 of the State. She is a genuine per-  
 sonality. This columnist was years  
 ahead of the Legislature in recog-  
 nizing Mrs. Robertson's poetic abil-  
 ity. Anyone sufficiently interested  
 should write into the files of the old  
 Fort Worth Record and find an ar-

which Robert's  
 claimed laureate of the oil  
 fields."

Grady Owen, long-time friend of  
 your favorite writer (I hope) has  
 entered the practice of law in Dal-  
 las. His has been a varied career,  
 farmboy, school teacher, track coach,  
 World War veteran and attorney.  
 Owen was assistant county attorney  
 at Denton under Alvin Owsley, now  
 United States minister to Denmark.  
 It was Owen's privilege also to  
 study law in the famous "inns of  
 court" in London. He was assistant  
 district attorney in Eastland Coun-  
 ty and assisted in the Santa Claus  
 Bank Robbery Cases.

### 100 Acre Tract Out Of Yearley Survey Sells For \$150 Per Acre

Clay county is already getting a wide range of "front page" publicity all over the entire state and in every oil section of the country, as best evidenced by the interest shown by oil scouts from every nook of the land.

The Fleetwood Oil Company of Tyler, Texas this week purchased the highest priced lease yet recorded, paying \$15,000 for 100 acres out of the Yearley Survey, south of the Burns No. 1 Browning well, which came in Saturday morning about 11:30 o'clock with an initial flow of 1200 barrels of 42-plus gravity oil.

The Fleetwood Company bought this lease from the First National Bank of Henrietta, and have stated they will soon drill on the lease, going down 6,000 or more feet, if necessary in order to strike the deep sand.

This company just recently disposed of some of their oil holdings in East Texas for ten million dollars, and informed us that they be-

lieve Clay county sands will develop into some of the best paying wells in the entire state when drilled.

The Leader is glad to join in welcoming this company to our county and feel that such concerns as theirs and Col. Burns, and Col. Knight and the famous Gant Brothers, et al, will develop Clay county and make ours one of the leading oil producing areas in the entire state.

**GIRLS AT GOVERNOR'S MANSION**  
(Daniel in Dallas News.)  
The girls from the McGregor High School came to go through the Governor's mansion and what a nice group they were from the department of the school. They brought us a sample of their learning—of what they have learned because it was one of the things they brought to make in the hall of the Governor's mansion so pretty and decorated. They brought in different colors. In the center of the state, where Austin would be located, was the Daniel family. In the letters of a bright red color, it was a very attractive beauty and taste. It brought me a present very flattered to remember the girls who said that all of the school read my and like it. The flatterer of the girls to the present they brought beautiful lunch sets of black and white and very unusual design. I was very surprised when I read the that they had been to see the entire set had been to see of being for the material, I was amazed at the shows when they do it. You can see it in anyone's hands. I was excited about the way the design on the quilt. I've get in such a hurry some of the girls over to McGregor and see if they won't let me in on the secret. Speaking of girls, I've been wanting to tell you some time about the quilt a man gave daddy over at Old Washington when we were here for Texas Independence Day. It was a most remarkable piece of work. It also had the map of Texas on it, but a little more detail, because it had each county outlined.

the name written on it. And the gentleman went farther than just Texas, but to the bordering states, and they all of any one state but, you know, just the borders of them. Daddy is so proud of it—he's proud of anything for that matter. It has to do with Texas—and can you blame him?
