There were only a few pass-outs, and of those few some were reconsidered and sold later.

Buyers included: Herman Scheer, Lawrence Klein, Harry Symons, Henry Fuhrman, R. Fuhrman, L. G. Blakely, Henrietta; John Ruddy, of Wichita Falls; Frank Johnson, G. D. Thompson and Carl Scheer.

"The Place of the Jews in the Fulfillment of Prophecy." It is a second of a series of four sermons on the general theme of prophecy and the present world conditions.

The other two will be "The Anti-Christ," and "The Second Coming of Christ." These subjects should be of much interest at this time, and every effort possible will be made to stay with the facts and keep from drifting into senseless speculations. A most cordial invitation is extended to all who care to be present.

Henrietta High School

After some two weeks or more of noise and clamor spilling chatter of sound by students and instructors, a silence, so still that you could hear a pin drop, reigned behind the walls of this home of

knowledge building through the past week. Due to the cotton picking season being at its top peak, and the government's defense needs for this raw material is known by all of us, the students and teachers

have joined in the efforts of the harvest, lending that aid to help win the war, in a war we did not want. The schools throughout the county are to be commended for their fine cooperation.

Women Are Running Things These Days

Chicago—In most places now, it is observed that the women and the girls are running things, carrying on the business while the men boys go to war.

You can go to your bus station or taxi headquarters and take a bus driven by a woman; or you can see plenty women driving delivery trucks. Women barbers cut your hair and shave you; women carpenters build your houses, and repair your fences; women clerks fill men's jobs in stores; women delivery boys deliver your messages; women are working in offices and running jobs heretofore run by men; women serve you the food in restaurants; women are running the farms and directing traffic in cities, where they also serve as detectives and cops.

They just will get used to it, they (the women) are going to have to run things, if this war keeps up, and we don't see any chance of it closing within the next three years, by which time the men and also boys between 18 and 19 will be in actual war service, as the bill has already been introduced in the senate and house, at Washington.

Another Call For Recruits For Navy

Previous naval enlistment records in the North Texas district are expected to topple in September, judging from mid-month figures which show that slightly less than 120 men a day have joined the Navy during the first fifteen days of September.

To date, the total figure for the month includes 3 recruits from Clay County.

At the main office in Dallas, we are handling more men per day than ever before," Lieutenant Ridd-out explained. Naturally, we are gratified at this evident response to the Navy's call for both skilled and unskilled men.

To attain the month's goal of 3,600 recruits, however, we need exactly 120 men each day. Right now, we are not getting them. This means that all recruiting efforts must be increased to make up the difference. With the help of patriotic Americans, we can do it.

Join the Navy and see the world.

Make Your Meat Go Farther, Urges Miss Mary Branch

Secretary Wickard's announcement that this county will experience meat rationing with a few months will mean fair sharing of the nation's supply and should not bring hardships to anyone.

We'll be on shorter meat rations than we have been recently, but we have enough meat and other protein foods to keep American families well nourished.

To make meat go farther, use more of foods which are plentiful, and less beef and pork. Fortunately, there's an abundant supply of protein foods. Supplies of cheese are at an all time high, and there are more chickens than ever before. Although beans are not an exact substitute for meat, they will make a good nourishing dish. And beans, too, are plentiful.

If every American family has a cheese dish instead of pork chops more often than usual, or chicken instead of steak, the pressure on beef and pork supplies will not be so great.

Other ways of making meat go farther include serving more stews and hashes. It is a good idea, too, to save all trimmings both of fat and well-flavored lean tidbits. Meat bones may be saved for making soup. Here are other helps: Always keep meat clean and cold, so none will go to waste from spoilage or poor flavor. Cook meat according to cut and fatness, and with moderate heat. And finally, use different seasonings in meat dishes and variety.—Mary Branch, ii. D. A.

Chevrolet Gets Flag Merit Award

Detroit—The Army-Navy "E" Flag, top award in America for excellence in war equipment production, has been presented to Chevrolet for "high achievement in the production of war goods."

More than 7,500 employees of the gear and axle unit of Chevrolet's nation-wide volume system share in the award and now wear the E pin as a symbol of their production efficiency.

When it comes to merit of helping the Government in turning out its material, Chevrolet is right in there delivering the goods, as is shown by the award, which they always merit.

Chevrolet can be depended on to do what they are expected to do.

STATE HEALTH NEWS

Cox, State Health Officer, announced today that the State Department of Health in collaboration with the League of Texas Municipalities has prepared a pattern ordinance for the disposal of garbage which is hoped will be widely adopted by cities and sections throughout the State.

"Rats, like any other animals, seek those fields which offer the most food and best shelter," he said. "Any Typhus control program must necessarily hinge on making food inaccessible to rats. It has been found that the rat population

Dr. Geo. W. Truett Begins 46th Year At Dallas First Baptist

It means a whole lot to be a good preacher. Our paternal grandfather Rev. S. G. O'Bryan, was a good one, having served as pastor of the First Baptist churches at Waco and at Huntsville. We have a brother, Rev. C. L. O'Bryan, of Earlsboro, Okla., who is also a Baptist preacher, but the ablest preacher we ever knew is pastor of the First Baptist church at Dallas.

Dr. George W. Truett, pastor of the First Baptist church of Dallas, is the greatest Baptist preacher in America, Canada or abroad, and we have heard them in New York, Washington, Philadelphia and Baltimore, and Dr. Truett out-distances them all. When he steps into the pulpit they all listen; what he requests that they do, they will do. He uses no notes; he talks impromptu, and he sways them with his eloquence. He is as good a man as ever graced a pulpit.

Sunday he started on his Forty-Sixth year as pastor of the largest Baptist church in America.

A Texas farm boy who dreamed of being a great lawyer, then became the greatest name in Baptistdom. President of the Baptist World Alliance; known wherever the Baptist faith is practiced, or the English language is spoken, he is known and recognized as the greatest Baptist preacher since Charles Spurgeon.

The first great Baptist preacher whom we really learned to love was our late father's boyhood friend, Dr. Jerome Bonapart Cranfill, of Dallas, who on last Sunday also celebrated his 80th year, and his large Mens' Bible Class at Dallas rendered a fitting program. A great man, a good man, and an able Baptist preacher, who has served the Baptist faith so faithfully for over three-quarters of a century, and is still going strong. Like Dr. Truett, he is known throughout Texas and the nation in Baptist circles.

Dr. George W. Truett Sunday issued the following message to his friends and acquaintances throughout the world:

"The heart-breaking conditions of the world are now such that every true friend of Christ is challenged to pray and to work and to pray and to live at the utmost, in cooperation with Christ, to answer the prayer, 'Thy will be done on earth as it is in heaven.'"

Vigorous and active at 75, his messages are simple and forceful, and you know he means what he says. His huge Baptist church covers a whole city block, and once he raised \$507,850 in one collection.

In his 45 years he has added 18,000 members, personally baptized more than 5,000, and has heard more than 15,000 professions of faith in other churches.

Newspaper Carries You Through Life

From out of the nowhere, all thru life's storms and trials, to the very threshold of the pearly gates, the newspaper carries the individual.

When Doctor Stork deposits six pounds of pink and shriveled angelic, squalling something, at the home of the parents, the home paper assumes its helpful watchfulness over the new-born babe's destiny by adding four pounds and making him "a fine, bouncing ten-pound boy."

When he reaches manhood and wanders from the old nest and, through the influence of Uncle George gets a job driving a bus for the Insect Inn at Bingville, the old home town paper comes thru and puts him in "a lucrative position of trust."

When politics gets into his system and he tries to get elected to the legislature, he is again made over by the same cheerful agency from the ordinary bonehead he is into "a friend of the people, whose statesmanlike qualities commend

Teachers Are To Be Found All About You

Somehow we cling to the idea that only paid people—and those in schools and colleges—are really teachers! Teachers are all about us. They are in that library book you are reading; they grow out of the ground in the form of rocks, flowers, and creeping plants. They stand out majestically in the heavens, and in fact, through every manifestation of the wisdom of the Creator. Teachers are ever before us. No matter in what direction we look, him to the thoughtful consideration of the voters."

And finally when his body is all ready to return whence it came, and Satan stands smiling, ready to receive the sin-singed soul, then the home paper throws its last bluff and tries to sneak him past St. Peter with the choicest collection of fairy tales to which his career has given rise. On the off chance that he might run across a copy it even tries to palliate the miseries of the hereafter by having his relieved and rejoicing widow "prostrate with grief."

Dear old home town paper, hopeful, cheerful, old liar that you are. How commonplace most of us, were it not for the great, big charitable heart that guides you.

Organized labor would be ruthlessly suppressed, even as it has been in Germany, Italy and the conquered countries. The average worker knows the alternatives all too well. EX-HITCHHIKER OBSERVED FIFTH ANNIVERSARY OF PASTORATE AT DALLAS

(Dallas News.)

Rev. Kenneth M. Hay, pastor of the Central Christian Church in Dallas, celebrated his fifth year as pastor last Sunday with an appropriate program. He and a friend hitch-hiked from his home, Swift Current, Sask., to Kansas. Funds were exhausted. In K. C. a cop pulled them off a freight. They finally reached Dallas with less than \$4 in their pockets. Bro. Hay worked in Dallas and married a Dallas girl and accepted the pastorate of a church at Vickery at \$50 per month.

He was elected pastor last Spring when Dr. Glenn Frank retired. It is a long way from Canada to Dallas; but he came, being sold on Dallas by a group of Masons who were attending a Shrine convention in Canada.

NOTABLE LABOR DAY

J. M. Patillo in Waco Farm & Labor Journal: The workers of America will not celebrate this Labor Day as in bygone years. There will be big celebrations in some of the larger cities, where a brief cessation of activities will not interfere with defense work. But in Waco, there will be no letup. At the Army camps Killeen, McGregor and Waco next Monday, Labor Day will be no different from any other day. The 10,000 or 15,000 thereabouts, who are building these mammoth camps, will stay on the job and be just that much nearer to completion. All the business agents of the building trades have held conferences with the contractors and that is the agreement of these leaders. Donald Nelson, the WPB manager, is in harmony with this view. So this Labor Day, 1942, will be celebrated—not in merriment—by pushing to completion these government Army camps, where the soldiers of the nation are trained to better fit them to beat Hitler the Japs and Mussolini.

Waco and vicinity carried out this fine observance of Labor Day 1942, as outlined by Mr. Patillo. No more appropriate or more worthwhile celebration could have been

 Dr. Cox said that this pattern ordinance conforming with war restrictions eliminates the use of critical materials substituting wooden garbage pails for the cast iron type formerly used. In order to eliminate the use of war materials for building incinerators the ordinance provides for the use of the land-fill method.
 Some of the cities now considering the adoption of this ordinance are Brownwood, Mineral Wells, Killeen, Velasco, Ft. Stockton, and

other defense areas. Dr. Cox stated that full information concerning this ordinance can be had through the State Health Department and suggested that all cities and communities which might be benefitted by such protection consult the State Department of Health for full particulars.
 Federal allotment of funds for garbage disposal have been made in some instances, in defense areas where local funds were inadequate.

Treasury Tax Saving Notes On Sale Now

Secretary Morgenthau today announced changes in the terms of the Treasury Tax Savings Notes, which have been on sale since Aug. 1, 1941, for the convenience of taxpayers and which are receivable at par an accrued interest in payment of Federal income, estate and gift taxes.
 The changes are effective in new Treasury Notes of Tax Series A-1945 and Tax Series C-1945, which will be offered for sale beginning Sept. 14 although the new notes will not be ready for delivery before the latter part of the month. The notes of Tax Series A-1944 and Tax Series B-1944, which have been available since Jan. 1, 1942, were withdrawn from sale at the close of business Sept. 2, 1942.

The new notes of Tax Series C are adaptable for dual purposes: (1) for the accumulation of tax reserves and (2) for the temporary or short-term investment of cash balances which are at present idle. This new series of Treasury Notes, the Secretary said, will furnish a security well adapted to corporations and other investors for the mobilization of their idle funds for the War program. The new terms provide greater flexibility, and through provision for cash redemption with interest permit holders of Tax Series C notes to realize on the notes without loss of interest.

Members of the Victory Fund Committees in the twelve Federal Reserve Districts, with a trained securities sales personnel, will participate actively in the sale of the new Tax Savings Notes. Each Federal Reserve District Committee is headed by the President of the Federal Reserve Bank of the District. Members of Victory Fund Committees, as well as bankers and securities salesmen generally, will have complete information and application form and will assist taxpayers and other investors desiring to purchase these notes.

The notes of Tax Series A-1945, like those of prior Series A notes, are intended primarily for the smaller taxpayer. The new notes will be dated Sept. 1, 1942, and will mature Sept. 1, 1945, thus providing a maturity of three rather than two years from issue date. The limitation on the principal amount that may be presented on account any one taxpayer's liability for each class of taxes (income, estate or gift) for each taxable period has been raised from \$1200 to \$5,000. The new limitation will also apply to prior Tax Series A-1943 and A-1944, or to any combination of the three series. In other respects the terms of notes of Tax Series A-1945 remain the same as those of A-1944. Interest will accrue (from Sept. 1942) at the rate of 16 cents per month per \$100, equivalent to a yield of approximately 1.92 percent per annum. The notes will be issued at par and accrued interest. If not presented in payment of taxes, the notes will be redeemed at the purchase price only, either at or before maturity, without advance notice.

The notes will be available in denominations of \$25, \$50, \$100, \$500 \$1,000 and \$5,000.
 The new notes of Tax Series C will be dated as of the first day of the month in which purchased, will mature three years thereafter, and they will be issued at par. Interest on the notes will accrue each month from month of issue, on a graduated scale, the equivalent yield if held to maturity being approximately 1.07 percent per annum. The amount of accrual each month on each \$1,000 principal amount of notes, from month of issue to month of maturity, follows:
 First 1/2 year.....\$0.50.....\$1,003.00
 1/2 to 1 year.....0.80.....1,007.80
 1 to 1-1/2 yrs.....0.90.....1,013.20
 2 to 2-1/2 years.....1.10.....1,025.08
 2-1/2 to 3 years.....1.10.....1,032.40
 1-1/2 to 2 years.....1.00.....1,019.20

REDDY KILOWATT'S Wartime Lighting Lesson No. 1:

WARTIME economy demands that we make the best use of what we have. **GOOD LIGHT**, so essential to good work, can be **BETTER** light, just by keeping light bulbs and glass diffusing bowls clean.

There's no rationing on soap and water, so improve your lighting in a few minutes this easy way. Disconnect your lamp and unscrew the bulb and wipe it with a damp cloth. Remove the glass diffusing bowl and give it a good bath in soap and water. Be sure the bulb and bowl are dry before putting them back in the lamp. You'll be agreeably surprised how much more light you get.
