#### Amendment To Put State On Cash Basis

Henrietta, Texas, Oct. 27, 1942.

Clay County Leader, Henrietta, Texas.

Gentlemen:

On November 3rd, the people will vote upon a constitutional amendment known as Resolution Number 1, amending Article 3 of the State Constitution. It will require the Comptroller to make an estimate of the income of the State and will require the Legislature to hold its expenditure within the income. Colorado, Nebraska, Kansas and other States find this plan to be successful. It puts the State on a business basis and State warrants will always be paid because the money will be there to pay them, and the State will save money by doing this. When this amendment is understood, the people will undoubtedly vote for it.

Resolution Number 23 seeks to enable the State to borrow not more than \$2,000,000.00 from the permanent school fund at 3% interest and build additional State buildings in Austin. The interest will not exceed \$60,000.00 per year and the State is now paying \$126,000.00 of office rent in Austin. The loan will be safe and will save money for the State and the amendment should be voted for.

There are other amendments, but space will not permit the explanation of them. Will you kindly give the above information to the readers, and oblige.

Donley Suddath,

The new restaurant is artistically painted inside, and has eight tables, on one side, while stools are provided at the long counter.

If you want music with your meals, just pick up the radio in the piano. The Leader printed the Menu books, "Steak House Menu," for the new restaurant this week.

#### Early Morning Fire Takes Heavy Toll At Bluegrove

Bluegrove residents were awakened early (about 6:30), last Friday morning to see their town burning up, in fact, all stores there burned except one. It seems the flames began on the south side, burning the drug store, feed store, dry goods and office of the United Electric office.

A wind was blowing, and lack of fighting apparatus prevented them from checking the flames.

It seems that the fire at Bluegrove was first seen in the Garage, and as a northeasterly wind was blowing it was not long before the entire business district, as it went along.

Those losing business establishments were—

Malcolm Roach—Garage.  
Edgar Childs—Grocery.  
Harve Rollins—Barber Shop.  
Robert Childs—General Merchandise Store.  
Ed Childs—Drug Store.

The Chamber of Commerce of Henrietta will make a great effort to get each Bluegrove merchant who lost his building and stock in the fire last Friday, to move to Henrietta to live and engage in a like business. We have plenty of vacant buildings available for them right now. Rent houses here are scarce.

#### Funeral Rites Byers Pioneer Held Tuesday

Funeral services for Mrs. M. J. Liggett of Byers were held from the First Baptist Church in Byers Tuesday afternoon.

Survivors are two daughters: Mrs. A. L. Durham, Brice, Texas; Mrs. Temple Wade, Byers, and three sons, O. H. Liggett, Prospect, Texas; C. F. Liggett and A. F. Liggett, of Byers.

#### Auction Sale Held Here Last Monday

Another auction sale was held in Henrietta Monday at the Agricultural building, and was well attended. Plenty of stock was provided and bidding was lively at times. Although the weather was just a bit cool, it did not keep a goodly number from attending.

The receipts of cattle and calves met weak to lower rates here Monday in many cases, steers and yearlings ranged mostly 10 to 15 cents up spots off a fraction.

Cows were mostly 15 to 25 cents higher, especially good milchers, while good fat bulls were firm, although it was noted that bulls were unchanged. Fat bull calves, we noted brought steady to 25 cents higher. Stockers were very slow and quite a few sales were withdrawn.

Swine opened 10 to 15 cents high; closed 5 to 7 points up. We requested Mr. Duncan and Price to tell us as the prices fluctuated, but they were too busy to get all the bids.

Stockmen and farmers—bring your stock, cattle, steers, cows, milchers, hogs, mules, horses etc., to Henrietta and let them be sold through the pen here, where they will bring the highest prices.

#### Last Minute Shopping For Navy Places

Men who want to enlist in the Coast Guard from now on will have to do so before the are ordered to report for army induction.

Lieut. Commander V. F. Tydlacka in charge of Ft. Worth area recruiting, announced today that hereafter no one will be accepted for enlistment in the Coast Guard after receiving notice from his selective service board to appear for induction into the army.

The new order is expected to curtail drastically the last-minute shopping for a particular branch of the service which has characterized recruiting for the last several months, and have added many a gray hair to the heads of draft board members trying to fill their quotas.

However, enlistments in the Coast Guard will continue at full capacity for all men whose induction date has not been set. Applicants should first obtain a release from the draft board, then write or visit the offices in Ft. Worth, San Antonio, Wichita Falls, Amarillo, Dallas or Waco.

#### CARD OF THANKS

We wish to express our sincere appreciation to our friends and neighbors for the many kind deeds of sympathy extended us during the illness and death of our mother, and for the expressions of devotion through the floral offerings.

The Liggett Family.

#### Cool Weather Came In Sunday Morning

Cooler weather swooped down upon us early Sunday and continued through two days, with Tuesday afternoon slightly warmer.

Radio Tuesday warned farmers to look out for heavy frost that night, but it failed to reach this area.

Snow was reported at Amarilla and counties farther north Sunday night.

Quite a few geese were seen Monday going south, so colder weather must be just around the corner.

Better have your stoves put up, your gas pipe stoked into, and be prepared for old man winter.

#### CARD OF THANKS

We take this means of extending our sincere thanks to our neighbors and friends who so quickly and so gallantly came to our assistance last Friday morning and aided us in fighting the flames which destroyed our places of business.

The people of Clay County will enlist in Nov. for a one day battle against rats, mankind's most destructive pest. Many thousands of dollars loss every year is caused by rats in Clay County, and rats are found around houses and in fields everywhere. Rats yearly destroy or consume property worth at least \$2 dollars for every rat. They cause disease and greatly menace health. No one wants these costly pests about the premises. Methods to be used in the rat campaign will make it easy for everyone to get rid of his rats with little effort and expense. Various kinds of bait material will be had. Under co-operative arrangement the bait will be furnished at wholesale cost, but it is necessary to reserve the bait in advance.

Tickets for poison will be placed later on at your nearest community store, and poison will be delivered at the following points—

Henrietta, Petrolia, Deam Dale, Thornberry, Charlie, Byers, Riverland, Stanfield, Hurville, Bluegrove, Halsell, Windthorst, Scotland, Deer Creek, Joy, Shannon, Buffalo Spgs., Prospect, Vashit, Bellevue, Newport, and Post Oak.

Rats are highly migratory, so it is hoped that everyone will cooperate to free Clay County of these destructive pests.

The Clay County campaign will be under direction of the U. S. Fish and Wildlife Service and sponsored by Henrietta and Clay County Chamber of Commerce.

M. S. Duncan, Co. Agt.

Among the Missionaries who will speak are Mrs. Eugene Sallee and Miss Blanche Groves, both of China. Dr. Homer P. Rainey of Texas U. Dr. George W. Truett, Dallas, and Mrs. J. M. Dawson of Waco, will also speak at the Convention.

## Coast Guard Enlistments Increase

Enlistments, in fact, have been so heavy that during September the main office and the five "mobile" units in Texas—located at Wichita Falls, San Antonio, Amarillo, Dallas and Waco—signed up 1,042 recruits. It was the biggest recruiting month in Coast history in this area. Charged to speed enlistments to the rate of at least 35 recruits for each man attached to the office, the staff of 17 instead signed up an average of 60 men apiece during the month—almost doubling its quota.

Despite rumors to the contrary, the United States Coast Guard still is accepting enlistments from qualified men of general service, Lieut. Comdr. V. F. Tydlacka, in charge of the Fort Worth regional office announced today.

Wanted for general service in the oldest sea-going military organization in the country are physically fit men between the ages of 17 and 50. Birth Certificates are required of those over 21, and parents' consent papers of those under that age.

Applicants may report to their nearest recruiting station or write to the Fort Worth office, in the Electric Building, for further information.

Being once in great danger at sea, everybody was observed to be upon their knees but one man, who being called upon to come with the rest to prayers said to the captain, "Not I, it is your business to take care of the ship; I am a passenger."

Another, A dog was rushing at a man who stuck a pitchfork through him. The owner remonstrated, "Why didn't you hit him with the other end of the pitchfork?" and the man replied "Why didn't he come at me with the other end?"

## Curtis Candy Co. In National Metal Drive

A campaign providing for 800 salesmen of Curtis Candy Company in nine States throughout the middle west to collect at least 100 tons of small pieces of metal weekly as a contribution to the war effort in cooperation with the Nations salvage drive has been announced by Otto Schnering, pres. of the Company.

Slogan for the campaign, which will start October 19, is "small scrap of metal will win the big Scrap."

In a letter to Donald Nelson, chairman of the War Production Board, outlining plans for the Company's activity, M. Schnering said: "Curtis Candy Company has headed your call for more metal. We have developed a drive built around the Company's 800 franchise salesmen who are calling on approximately 150,000 food, grocery and confectionery establishments weekly in the States of Minnesota, Wisconsin, Iowa, Illinois, Kansas, Missouri, Arkansas, Oklahoma, Texas.

Each of these 800 franchise salesmen will attempt to collect at least 50 pounds of small pieces of scrap metal daily, or a total of 100 tons weekly as they call upon dealers.

Dealers are being supplied with receptacles for the collection of scrap metal, also with door and window streamers and display cards which urge the cooperation of the public with the nationwide scrap metal collection campaign by bringing small scraps of metal to these stores when they come to shop.

## What Everybody Can Do Everywhere

War changes the pattern of our lives. It cannot change our way of life unless we are beaten. The kids still play baseball on the corner lot but they knock off early to weed the victory garden, cart scrap paper to the salvage center, carry home the groceries that used to be delivered.

The factory whistle blows—but it calls three shifts of workers instead of one. The daily paper still has comics, but its front page that carries the answer to the urgent question, "how are we doing?" All over America there's a new tempo, a new purpose, a new spirit.

Hard work isn't hard—it's a badge of courage. "That old clothes look" doesn't matter now, it's smart to be mended. "Sorry ma'am, we can't get any more of those." Good! That means materials are going where they belong—into war weapons.

Only one thing worries us—"I'm too old to fight."

"I'm too young to fight."

"I'm too busy all day cooking and cleaning and mending."

You rarely see the bottom of your mending basket.

You work so hard that you hardly ever get around to find leaky faucets.

You don't need spare time.—You need imagination to see the connection between tasks which to you may seem small and unimportant—and winning the war.

## Effort to Wipe Out Malnutrition

Clay County is helping to wipe out the evil of malnutrition through its Community School Lunch Programs which are now getting underway, David G. Guthrie, Jr., Area Supervisor, Agricultural Marketing Administration said yesterday.

Sponsors of the programs have expressed a determination this year to surpass their record of last year when some 443 school children were reached through School Lunch Programs operating in 12 schools in the county.

The Agricultural Marketing Administration assures sponsors steady supplies of evaporated milk, one or more dried fruits, wheat cereal, wheat flour and dry edible beans for school lunches this year," Guthrie said. Sponsors may be reasonably certain of steady supplies of one or more additional dairy products, cereal products, potatoes and eggs, as well as a number of proposed or fresh fruits and vegetables. Other commodities also will be available from time to time.

Records reveal that over 9 million American children are suffering from undernourishment. This number will rise as the war goes on unless something is done. It is up to local sponsors to see that the lunches are prepared and served.

An editor of a weekly paper commenting on the fact that sometimes errors creep into his columns, says that he made several in the last issue and a good subscriber told him about them. The editor goes on to relate, then, that about the same day there was a letter in the post-office box that didn't belong to him; he called for No. 98 on the phone and got No. 198; he asked for a spool of No. 40 thread and was given No. 60; he called for No. 5 on the phone and got No. 65; he received his milk bill and there was a mistake of 10 cents in his favor; he felt sick and the doctor told him he was eating too much meat, when as a matter of fact he hadn't eaten any meat for two weeks; the local preacher turned in the church news items with the name of the president of the ladies' aid society spelled wrong; he went into a restaurant and ordered a T-bone steak and french fry potatoes, and the waitress brought him fried liver covered with mush-rooms; his garage man said his jitney was missing because it needed a new timer, but the editor just cleaned the spark plug recer... he called up the grocer and ordered two small cans of tomatoes, and the merchant sent him two large cans of potatoes. So you see mistakes don't only happen in newspapers.

## REGISTRATION FOR MILEAGE RATIONING FOR CLAY CO.

Ogle, Chairman of the Clay County War Price and Rationing Board announced today, and actual rationing 22nd. Mr. Ogle states that the blanks will be available by Nov. 7. We will try to see that they are distributed at garage tire inspection stations where every passenger car owner can obtain an application form conveniently. Each motorist should fill out the form listing the serial number of each tire.

Registration days are Nov. 12, 13, and 14th. Schools will be dismissed on Thursday during the registration.

Mr. Ogle said the Board has completed setting up a fuel rationing panel to handle applications and other matters which the mileage rationing program will entail.

The following are the list of the garage Tire Inspection Stations:

## Styles At N. T. S. T. C. Are Discussed

Denton, Texas, Oct. 13.—"In reverse of Miss 1942's victory bob and bare legs for silk conservation, the girls of 1917-18 who bobbed their hair were considered 'not quite nice', and all the girls wore black stockings, according to Edith L. Clark, dean of women at North Texas State Teachers College, who acquired her present position during the 1918 period of World War 1.

"The girls utilized the military idea in clothes fashions just as much as they do now, but the girl of today doesn't seem as anxious to follow a brass band and brass buttons, in the marriage line, as her mother in 1918.

The white-haired little lady, self-designated grandmother of the North Texas students, believes that, "By stabilizing and integrating the situation in our college curriculum, we have eliminated much of the emotional side of the problem and are developing a war attitude of acceptance of sacrifice and self-denial whenever the time.

## From where I sit...

by Joe Marsh

LAST Saturday night we were settin' around Jeb Crowell's house, and from upstairs we hear the squawks those Crowell youngsters put up while their Ma was dunkin' 'em in soap and water. Causes Jeb to comment:

"Just shows how times change. Used to be a law here in America that nobody could take a bath without a doctor's prescription!"

Then we got talking about the funny laws some people have put through in this country—like the state where they made it against the law to wake a man up if he's sleeping on the railroad tracks.

"Railroad law I once heard about," says Basil Strube, the stationmaster, "said when two trains meet at an intersection, neither can proceed until the other one has gone ahead."

"How could that be a law?" asks Pete Swanson. "That just don't make sense."

"Lots of laws don't make sense," says Jeb. "Why just think! We're livin' in a land where most folks hold for tolerance and understanding. And yet it wasn't so long ago we had a law of Prohibition. Account for that, if you can."

Well, he had us there. Here's America—where we set so much store on seein' the other fellow's point of view—havin' such a law. Now that it's all over, it's hard to realize how people put up with a law like that, even as long as they did.

From where I sit, a man's got every right to enjoy a satisfyin' glass of beer when he wants to quench his thirst. Beer's a friendly drink. It's a drink of moderation, too. And most folks—even the ones that don't drink beer themselves—are tolerant enough, nowadays, to respect the rights of folks who do.

I reckon Jeb was right—we've had some mighty strange laws in this country.

A melting sermon being preached in a country church, all fell a-weeping but one man, who being asked why he did not weep with the rest, said, "Oh, I belong to another another parish." A good cigar is as great comfort to a man as a good cry is to a woman.—Bullwre-Lytton.

# Certainly, ranges are rationed Here's why:

## Range factories are making War Goods

IT'S a good sign, too, when you think about it. It means this country is bearing down on the war. Think of the guns, tank-plates, and airplane parts that American gas-equipment factories can turn out (some of the range factories had been making 550 ranges per day).

Take good care of the gas range you have. Gas ranges are for sale in the U.S.A. only to those persons who positively need them. (The same applies to Water Heaters).

## Spoon Bread

This famous American recipe doesn't sound exciting, but it makes up with a spirited flavor and a high fragrance. Lots of vitamins, too.

|                                   |                           |
|-----------------------------------|---------------------------|
| 1 cup boiling water               | 2 teaspoons baking powder |
| 2 cups yellow corn meal           | 1½ cups milk              |
| 1 teaspoon salt                   | 2 egg yolks               |
| 2 tablespoons butter or margarine | 2 egg whites              |

Pour boiling water over the meal, salt, and butter, stirring constantly. Let stand until cool. Add baking powder, milk, and beaten egg yolks, and blend well. Fold in stiffly beaten egg whites. Bake in a moderate gas oven (350 degrees F.) for 45 minutes. Serve immediately.

## WEDNESDAY BRIDGE CLUB ENTERTAINED

The Wednesday Bridge Club was delightfully entertained with an unique Bridge Party by Mrs. Lois Cummings.

### Be A Good Citizen And Go Cast Ballot

You may be too busy to do certain things, and not find time to do others, but don't get too busy to go and vote on Nov. 3rd, which is the General Election date.

The ballot includes five columns—The first presents a full Democratic ticket.

On the second column you will find Republican candidates for 12 state offices.

The People's Party offers seven candidates including Charles Laverne Somerville for U. S. Senator.

The fourth column is for Independent candidates, and the fifth for write-in votes.

At the bottom of the almost full-page ballot appear five proposed amendments to be voted upon. They are as follows:

1. "Pay-as-you-go" amendment. It would make for a more systematic and businesslike administration of the state's finances and would provide for wiping out by a bond issue, of the present general fund deficit of about \$30,000,000.
2. Authorizing the state to pay for a building which already has been constructed at John Tarleton College at Stephenville, Texas.
3. Permit the Legislature to create Special County Courts in the more populous counties.
4. Permit the State to pay the salaries of army or navy officers on duty in Texas schools.
5. Authorize the construction of a state office building at Austin, to allow State Board of Education to invest an amount not to exceed \$2,000,000 of the State Permanent School Fund in the building.

Two country visitors in the city went to the theatre for the first time. The orchestra played several selections and then the curtain rose
