#### Grandpa Shrock.

Grandpa Shrock was at home April 1st to his many friends, that day 82 years ago he made his first appearance on this stage where "everyman must play a part" from the time when in infancy he learned to lisp his baby prayer at his mothers knee, then to boyhood lively and frolicsome ready with mirthful sports to while away the hours with his comrades until again we shift the scene and we see him leading proudly to the altar his beloved wife, there to make the vows which he ever kept inviolate, and again we see him as he shoulders his musket and bidding the joys of home and family farewell for a while, marched away to the call of an injured South. We cannot follow him through that period of suffering and anguish, no one can but "Those who like him wore the gray and walked by him with marshall tread among the bodies of their dead.

The writer was present on one occasion not long ago when the remark was made, in a lesson on History "That was when the South was defeated." No one knew that Grandpa was listening, he immediately arose however and the music in his voice which will never die in one who wore the gray, said "they were not defeated, they were overpowered." Hats off, and all honor to those who wore the gray, the spirit yet lives and will

arise to confront all opposition. It lives in the heart of that daughter who cares so tenderly for her aged father, for as she planned in childish fancy, the things that would please daddy, (as indeed does my own little one) so yet, Grandmother tho' she is, she again becomes a child and father's wish is her law, and when the frost of age shall come to chill her heart it will be kept warm by the filial fire of love in her own posterity, kept aflame by the memories of duty done in former days.

Mrs. W. G. Hardin.

#### Last Call.

Those knowing themselves to be indebted to the firm of May & Wright, prior to April 1st, must make satisfactory settlement, as J. T. May has no further interest in the business. One and all note this fact.

#### Woodman Supper

The Woodman Supper last Saturday night, was almost the acme of perfection, and with the exception of only two topics, it was carried out as skeduled. One was on account of sickness and the other either laziness or indifference. The home talent speeches almost excelled all other efforts of the speakers, and ought to convince the most skeptical that the Woodman lodge is the one for either rich or poor, young and as old, as can get in. The music too, was as sweet as the famed nightengale, and the song was excellent. With the big rain that had just fallen as sauce to the splendid supper the ladies had prepared, and all enjoyed a most hearty meal. It looked for some time as if some were going to indulge too much, but we heard of no ill effects. Yes, the supper was just splendid, and as usual in Terry county, enough for two such crowds, but it seemed almost impossible to have accomodated more people in the hall.

Suffice to say that every member was highly pleased with the occasion and believe it will mean much to the order.

The green grass and warmer weather makes one want to shed his winter garments and stretch their cramped muscles.

Everybody is going to work just like they expected to make the banner crop of Terry, this year, and that is just about what will happen with such efforts, whether there is any more rain than common or not.

Of course the Herald is not at all dissatisfied with its lot, if it was, it would simply get up and drag it, but a blind man can see that it is a sight easier for State Press, Bros. Rankin and Gambrell to be pros (lower case p) where they can practice their daily vaulting over stacks of booze barrels, and take their morning plung in Budhiser, than it is for us away out here where we are not even allowed to have just a tiny bit for snakebites. One has almost to be a hero out here to be a full fledged Pro. We don't pretend to say that the above editors pull off such stunts as described above; we just said

they could.

We notice with pleasure that the Gomez High School will put on the eleventh grade next year and add another teacher. This is a step in the right direction, as we have always contended that it is much cheaper to educate the children at home than to send them off. Besides, as a general rule a tenth, or even eleventh grade pupil, for that matter, is not old enough to send away from home, as at that age they are more likely to spent their time in homesickness than they are to study, and a parent who is spending hard earned dollars on their child, is naturally expecting work and not foolishness from their child.

I will be noticed from time to time that several of the county candidates are running ads in the Herald, as some of them, on account of other work, will not be able to make the usual two rounds over the county, and an ad in the Herald at minimum cost, will reach the most of the voters. There was a day once when people thought it strange for a candidate to run an ad in the papers, other than the usual announcement, but that day is past and everybody is now using the paper to tell their wants. That is one object of a paper in this world. It would cost a candidate some \$10 or \$15 to make the canvas of the county, not counting his time, and it would be the height of foolishness for a voter to expect a candidate to spend that amount on an office that pay no more than our county office, when he can reach them with a message much cheaper and in less time. Of course all the candidates aim to see you before the July primaries, but these messages in the Herald are intended to answer for one visit, which will be cheaper for all concerned, especially if the candidate should spend the night or take dinner with you. If when you read a candidate's speil in the Herald, just consider it as personal to you as if that candidate was talking face to face with you, or that one of the merchants were talking to you through the paper for your trade.

The Brownfield Herald of last issue is a newspaper worthy of town four times the size of Brownfield. Bro. Stricklin is a live newspaper man and a versatile writer, giving the people of

Terry county a paper they should appreciate. We receive a number of local papers published in county seat towns upon railroad, which do not by any means measure up to the standard of the Terry County Herald—Post City Post.

Thanks, Bro. Murray, and we want to say that the people of Terry county do appreciate the Herald. Some of them sometimes call it the Bladder or the Rabbit Twister, but roar like the devil when they miss a copy. As long as they seem real anxious to hand us a \$1 per year for it, we don't give a continental what's the name, would you?

Mr. Houston, of near Tatum N. M., came through here with one of his boys in an auto, bound for Post City, where the boy will undergo an operation for appendicitis. They spent the night at the Duke home.

Medicines patched me up for awhile but then I would get worse again. Finally, my husband decided he wanted me to try Cardui, the woman's tonic, so he bought me a bottle and I began using it. It did me more good than all the medicines I had taken."

I have induced many of my friends to try Cardui, and they all say they have been benefited by its use. There never has been, and never will be, a medicine to compare with Cardui. I believe it is a good medicine for all womanly troubles."

Meets first Saturday night after the full moon and two week thereafter in each month in Odd Fellows Hall

The rainfall Tuesday and Wednesday of this week amount ed to 52 100 inch. This rain on top of that last week makes a total of 1 and 72 100 inches, and gives us an excellent season. Mercury dropped to 30 Wednesday morning and 32 Thursday morning, but it is thought nothing is damaged.

Mrs. W. G. Hardin gave us several local readers last week, announcing her millinery opening, but we overlooked them, which seldom happens, especially when these readers happens to be paid advertising. Her opening is to be today, and this notice is complimentary to her inasmuch as we failed to get in her ad. She will be pleased to show you her splendid line of millinery any old time.

Possibly the youngest child that ever took examination in Brownfield for a teacher's certificate, was little Lois Brownfield, 12 years of age who applied for a second grade certificate, by taking the regular examination last Friday and Saturday. We have been reliably informed that she leads her class, and is almost perfect in the eighth grade. The career of this child will be closely watched in the future, and great things are expected of her.

Someone is always ready to score the poor old candidates. As an illustration of the fact, when the people of J Cross recently gave their box supper and invited the candidates, and it was found there were more people than boxes, E. L. Duke, candidate for County Judge, proposed that all the boxes be spread together and everyone feast, whereupon some of the boys stoutly protested, saying that they did not want to give old Brownfield candidates a chance to eat up everything.

Mrs. E. B. Wright is visiting in Lubbock, this week.

The Anniversary of Odd Fellowship will be celebrated as usual in Brownfield this year, but instead of being on the 26th as usual, it has been deferred until the 1st day of May, and will take place on the night of that day at the school auditorium. A speaker of Statewide reputation will be secured and punch will be served at the door. Everybody is cordially invited.

## LIVE STOCK INSTITUTE

### Ft. Worth Fat Stock Show Will Be Attended by the Leaders of Herds.

A state institute for instructing livestock in the art of correct shape, personal appearance and market conditions will be held at Ft. Worth, on November 22-28. For eighteen years the Fat Stock Show has been giving the livestock of this state a course of instruction annually in physical culture and the translation of the rules and regulations of the National Feeders' and Breeders' Association into the language of the animal has done more to improve our livestock than any other educational influence in Texas.

The best stock on the farms and ranches will be sent as delegates to the Fat Stock Convention and receive a special course of instruction in the latest models of physical perfection and how to acquire it. These dumb animals are close students of market designs, breeding models and feeding standards of animal flesh. They listen attentively to the ruling and interpretation of the judges and return to the pastures, determined to build flesh and blood to conform to the verdict of those in authority.

They are given higher ideals in life. It is here they are taught lessons in high-thinking and cheap living. They are taught that producing revenue for man is the highest calling to which they can aspire and they are thoroughly instructed in the science of living economically and fattening cheaply and rapidly.

They are given authoritative information on diets and shown how to take on the greatest quantity of flesh within the least time and with the smallest expense.

These cultured animals when given a course of instruction and decorated with blue ribbons, enter the elite of packing house society and parade at the head of the market, and the newspapers, with flaming headlines, give glowing accounts of their record-breaking triumphs.

The Texas steers once traveled overland under their own steam to Fat Stock Shows, piloted by cowboys with six-shooters, but since they have become more refined and cultured, they travel in palace cars and uniformed attendants anticipate their wants. They are met at the train by the mayor with a brass band and conducted to palatial stalls, where they prepare for the exhibits.

## KEEP SEED POTATOES COOL

### Farmers Should Endeavor to Have Temperature for Tubers at About 33 Degrees.

(By WM. H. UNDERWOOD, Illinois.)  
Potatoes intended for seed should be kept hard and plump during the winter, and this can be done only by keeping them so cool that they will not sprout.

When potatoes sprout they take part of the starch that is stored up in them and manufacture it into living cells. This energy is all wasted for the sprouts have to be pulled off.

Some farmers make it a point to "sprout" their potatoes once or twice during the winter, this being done to prevent their growing. But the amount of energy thus lost is considerable and the loss increases as the winter draws to a close.

I raise potatoes in large quantities, and each year place them in cold storage. I prefer to pay the expense of the storage and be sure that they are kept in a perfectly plump state, rather than to keep them in a room with a high temperature, as is done by some.

In the spring the potatoes come out of the cold storage house in perfect condition, and it takes but a few weeks for them to develop strong sprouts that rise out of the soil and develop strong stalks and leaves.

Many farmers have not the opportunity to put their potatoes in cold storage houses, but they should endeavor to keep their potatoes at a very low temperature. The nearer 33 degrees potatoes are kept, the better.

### Importance of Self-Control.

"The ability to restrain appetite, passions, tongue and temper, to be their master and not their slave—in a word, absolute self-control—is also of first importance. One who can not govern himself is unfitted to govern others."—Marshall Field.

## PEACE, THE PLOWMAN'S HOPE

### Pro-Anti Conventions Have No Rights Voters are Bound to Respect.—Dove of Peace Cooing to the City Business Man.

Fort Worth, Texas.—We would not feel that we had fully performed our duty to the citizenship of Texas if we did not make a final statement of the attitude of the Farmers' Union toward the coming convention of so-called constructionists. We have two serious objections to that convention. First, it is undemocratic; second, it is a factional convention. The Terrell Election Law prescribes the manner in which nominees for the Democratic party, as well as all other parties, shall be chosen and the methods pursued by the prohibitionists and that adopted by the opposition is outlawry and a crime against good government.

We do not see how a convention called for the purpose of defeating prohibition can be anything but an anti-prohibition movement, for an anti convention by any other name is an anti just the same. Factional issues madden men and those who contribute toward making factional strife paramount in this campaign deserve to be crushed at the polls. We believe it would be as impossible to keep liquor representatives out of that convention as it would be to keep a duck out of water, and the farmers will have nothing to do with any convention whose leaders represent or have represented special interests, liquor or otherwise.

Like the prohibition convention, it has no rights that voters are bound to respect. We are as much opposed to an anti-prohibition faction in this campaign as we are to a prohibition faction. In our opinion no man, as a candidate of any faction, can be elected Governor of Texas, and none should be. The people of Texas are tired of factional strife and peace is the plowman's hope.

### Discretion the Better Part of Valor.

We realize how trying it must be upon anti leaders to engage in peaceful pursuits while the air is thrilled with the bay of the greyhounds of prohibition as they strike the trail and set politics to the music of the chase and we know full well the power of the bugle call of mighty hunters as they make the welkins ring, marshalling their forces for the contest and challenging the brave to the battle; but discretion is the better part of valor and there are things far more important in our public affairs today than scrambling over a bottle of booze.

### Be Not Deceived.

Let the farmers of Texas be not deceived by promises of either pro or anti for agricultural legislation "after the scrap is over." No party organized for the chase ever did anything more than pursue the object of their wrath or pleasure, and then divide the spoils and none ever will. No party or faction thereof organized to fight for or against prohibition ever plowed the fields, built factories or opened mines and none ever will. The prohibition question was here before we came and it will

be here when we are gone and Tennyson's brook it will flow on forever; the final word must be spoken. But it shall be permitted to permit the life of state. Let us have the administration of peace.

## A Peace That Surpasseth Understanding.

The Farmers' Union stands for peace and we want a peace that surpasseth the understanding of the politicians who feast upon the offal of strife. Peace acquired by one faction conquering another is not sufficient. We want a peace that contemplates the retirement of liquor warriors, both pro and anti, as well as the elimination of the liquor question from this campaign.

### Frightening the Dove of Peace.

We know of no spectacle more calculated to frighten the dove of peace than for an anti major-general to come galloping up to the convention with his saddle bags filled with recommendations, and nothing could more effectively point the crooked finger of suspicion at any candidate who might be selected than to have his name put forward by a man or men whose pockets are filled with plunder from the distilleries and whose occupation is that of sapping the lifeblood of the breweries. It is as if a cat were to spring upon the dove of peace.

Such an act would be an outrage against the peace of the commonwealth that could only be excused in vulgarity by prohibition leaders fighting booze both in the bar-room and out, coining fame in the counterfeit molds of righteousness and making indecent exposures of ambition that shock the morals of society.

### Farmers Must Stand Together.

There is no use for a farmer to take part in a convention or series of conventions where his vote is not considered in the final count and government by delegates who are not responsible to their constituents is immoral and silences the voices of the people in the selection of candidates. We want to again urge the farmers to have nothing to do with the precinct, county and state Democratic conventions on April 4th, 6th and 14th, respectively, but to stand as a jury passing upon the platforms and conduct of all candidates who offer for the July primary and select a governor freed from domination of special interests of whatever character.

The farmers of Texas, both pro and anti, must stand together in their efforts to secure peace, giving the prohibitionists and the anti-prohibitionists as a faction, identically the same treatment. Peace can only be obtained by hurling helter-skelter pro-anti leaders down the precipice of obscurity and clubbing obstreperous politicians into the dungeons of silence.

### The City Business Man's Problem.

With these few remarks, we leave the Fort Worth convention in the hands of the city men. There never was in the history of Texas, such an opportunity presented to smash machine rule and exterminate bossism as is now offered to the voters of this State and they can do it by withering the Fort Worth convention with silence and placing business above politics in the July primary.

The dove of peace now sits cooing upon the shoulders of the city business man. Will he frighten it with prejudice and indifference or caress it with courage and wisdom? We shall see.

(Signed)  
W. D. LEWIS, President.  
PETER RADFORD, Ex-President.  
Farmers' Educational and Co-Operative Union of Texas.

## FARMERS HOLD MEETING

### Legislation Needed by Farmers Declared to be the Paramount Issue.

### National Aid in Marketing Requested. To Co-operate with State University.

The called session of the Farmers' Union, held at Fort Worth, January 14th and 15th, was attended by over 600 delegates from local Unions all over the state. The convention was called to consider marketing

problems and special attention was given warehouse legislation adapted to handling the cotton crop.

### Farmers Want Warehouses.

Some of the features of the warehouse bill approved by the convention are these: It provides for voting bonds for building warehouses, a state warehouse commission to supervise the operation of the warehouse system; the sampling of cotton at gins and guaranteeing the quality as represented by sample; warehouse receipts on cotton will be guaranteed by the state, and many other provisions which facilitate the handling of this commodity. The proposed measure, when enacted into law, will enable the farmers to secure cheap money on cotton placed in warehouses and provides for economic and systematic marketing of cotton.

The subject of legislation needed by the farmers absorbed most of the attention of the convention, and the trend of discussion was that the next legislature should devote itself diligently to the solution of farm problems. The convention, by unanimous vote, adopted the views of Peter Radford, which have been given wide publicity in the press, on the legislative needs of the state.

### Radford's Legislative Views Endorsed.

The platform given out by Mr. Radford declares marketing and helping the tenant farmers to be the paramount issues in the present campaign. A strong appeal is made for a system of co-operative laws that will give the business of farming the same legal facilities that are now accorded commerce and industry; the anti-trust laws are commended and amendments strengthening them are requested; the improvement of railroads and increase of mileage is asked for; woman's suffrage is opposed. The most interesting declaration, from a political viewpoint, is the liquor plank, which emphatically declares that no liquor legislation of any character be enacted by the next Legislature. Compulsory education, good roads, care for our wards, consideration of our convicts, and a business government are demanded.

The action of the convention is doubly significant in that it is the authoritative voice of agriculture, and it has spoken at the opening of the campaign. The session was a most harmonious and satisfactory one, and the organization will now take up the work of putting its legislative views into law.

### Aid to Be Asked of Congress.

Recognizing the great need of immediate relief in the marketing of perishable truck, the convention voted in favor of requesting the United States Department of Agriculture to endeavor to secure such legislation from Congress as will enable it to establish and maintain inspectors of carlot shipments of perishables in every city in the United States, who shall examine and report by wire, upon arrival, the conditions, grade and market price of the same to every efficient co-operative distributing agency.

President Lewis was heartily commended by the convention for his wise and conservative handling of the many problems which have come before the Union and for his success in his recent attempts to have the funds appropriated by the Thirty-third Legislature for increasing marketing facilities used for that purpose.

### Texas University to Co-operate.

Mr. F. M. Bralley, in charge of the Extension Department of the University of Texas, addressed the gathering and gave his views on rural life problems, including land ownership, rural population, country homes, rural schools and kindred subjects.

He stated that the University of Texas expects to co-operate with the Farmers' Union of Texas in the matter of gathering statistics on farm products and its study of rural cooperation and farm finance. He laid stress upon the land ownership problem and quoted statistics to show that the tenant farmer is on the increase in Texas. He pointed out the need for better homes and better schools in the country and stated that this could only be brought about by a better system of farm finance and marketing of agricultural products, so that the producer would get what belongs to him in the way of proper remuneration for his efforts

Joe has recently finished up a 100 ton underground silo all by himself. Some told him he would never finish it by himself, but he told them if his machinery did not break, he would. Instead of fooling around cold drink stands as a heap of boys do, Joe is always doing something, and we predict that there is a future for him.

To the Citizens of Terry County:--

In view of the fact that I shall be busy in the school room for several weeks yet, and as I do not wish to assume new obligations until I shall have disposed of those already on hand, I take this means of soliciting your support in the interest of my candidacy for the office of County Judge, in the Democratic Primary. And it is only justice to you that you should know something of my past history, as well as what policy I believe in at present.

I was born in Tennessee, but when I was only a small boy, my parents moved to Alabama, where I was raised principally on a farm. My father died when I was six years of age, and then came a period of privation and hardship.

I came to Texas twenty-one years ago, and after spending a few years in college, have with the exception of three years, been closely connected with the public schools of the state.

I came to Terry county eleven years ago and have supported every interest that has had for its aim the betterment of the county. I have been teaching for the past four years in the Brownfield High School. My methods of discipline have sometimes been criticized, and sometimes misrepresented, but at no time, so far as I know, have I ever been accused of playing double or shirking a duty. I have never betrayed a confidence nor gone back on a friend; and if I am elected to the office to which I aspire, I promise to perform the duties of that office as faithfully as I have others in the past.

I am a democrat and have always voted the ticket straight. I am in favor of good roads, good schools, the enforcement of the law, and of better conditions generally, but I am not in favor of a careless and extravagant expenditure of the county funds.

Within a few weeks I expect to see you and personally present to you my claims. Hoping to receive your hearty support and influence in the July Primary, I am,

Most sincerely yours,

W. G. Hardin.

Wiley Bridges was over this week after seed corn, which he obtained at T. J. Price's.

The splendid rain that fell last week amounted to 1.2 inches, which with the splendid bottom season we had, makes an ideal planting season when that time comes.

ATTENTION:—After a few weeks, the Herald will begin to use a mailing machine and names will be printed on the paper or wrapper, instead of written as heretofore, and we will not keep those on our mailing list that are behind, so you had better see about your subscription if you want the Herald to come to your address.

### "Clean Up the Bowels and Keep Them Clean"

There are many remedies to be had for constipation, but the difficulty is to procure one that acts without violence. A remedy that does not perform by force what should be accomplished by persuasion is Dr. Miles' Laxative Tablets. After using them, Mr. N. A. Waddell, 375 Washington St., Waco, Tex., says:

"Almost all my life I have been troubled with constipation, and have tried many remedies, all of which seemed to cause pain without giving much relief. I finally tried Dr. Miles' Laxative Tablets and found them excellent. Their action is pleasant and mild, and their chocolate taste makes them easy to take. I am more than glad to recommend them."

"Clean up the bowels and keep them clean," is the advice of all physicians, because they realize the danger resulting from habitual constipation. Do not delay too long, but begin proper curative measures.

Dr. Miles' Laxative Tablets are a new remedy for this old complaint, and a great improvement over the cathartics you have been using in the past. They taste like candy and work like a charm. A trial will convince you.

Dr. Miles' Laxative Tablets are sold by all druggists, at 25 cents a box containing 25 doses. If not found satisfactory after trial, return the box to your druggist and he will return your money. 12 MILES MEDICAL CO., Elkhart, Ind.

Rev. McReynolds filled his regular appointment Sunday and Sunday night.

J. E. Woodard of southwest Terry, was in trading last week.

H. D. Leach and family, were visiting and trading in town one day last week. H. D. carried lumber home to build an addition to his residence.

Roy Poe was at the hotel Sunday night, enroute to the T4 ranch from Lubbock with a load of freight.

Bert Kennedy of southwest Terry, spent last Friday and Saturday here, having repairs made on his auto.

Rev. McReynolds, E. E. Sims and wives and little Naoma, took dinner with Guy Taylor's family last Sunday. They report an excellent dinner.

Mrs. Lusk, who was reported sick last week, left the 1st inst. for a sanitarium at Arkansas City.

Tom Glover came home from school Monday evening quite sick.

H. L. Ware and wife went out to the ranch last week and have not returned yet. Ennis is staying with his sisters during their parent's absence.

Harry Timms and Miss Katie Copeland were visitors here last Sunday.

Tom Davis moved their family out to their home in Yoakum Co. recently.

A. E. Moore moved his family into the house Mr. Davis vacated on Monday. It is a settled fact here now, if anyone one moves in, someone has to move out to give them a house.

Geo. McWhirter came in Sunday with a huge load of cotton seed cake for the Ivey ranch.

Bert Ingram moved out to the Lee place east of town Monday, where he will make a crop this year, and Mr. Short will cultivate the land Bert had rented on the town section.

Mrs. A. P. Moore visited her daughter, Mrs. Alvin Duke, of Brownfield, last Monday.

Mr. Russing of Brownfield, was here on business, Monday.

Ben Yates, of Yoakum county, has been here for a week, help Alvin Key on the farm.

Mr. V. Taylor is back here from Borden county on business. He was in town Saturday.

Paul Hudson, who has been seriously sick with pneumonia for a week, was thought to be better Monday.

The election of school trustees last Saturday resulted in the reelection of the present board. Our school next year will be an improvement over the present term in having the eleventh grade taught and four teachers instead of three. It will cost more money, and as our special tax is already 50c on the hundred dollars, the extra money will have to be raised by private subscription, but that will be easy to do, for our citizens realize that money spent in educating our children will bring in compound interest in the future lives of the children.

Joe Black has almost completed digging an underground silo, which will hold 100 tons when completed.

Bert Ingram reports killing a huge rattle-snake, Monday.

Mrs. Currier visited ye scribe last Saturday; also she was in trading Monday.

Mrs. Copeland and Charlie, were trading here Monday.

Wiley Bridges was in Monday talking votes to the men.

Dee Hunter and wife are staying over at the Wallace place for a short time, while Dee plants R. W. Glover's crop over there.

Well, everybody in Terry county know that we had an all day rain last Friday, and as there was no wind and it fell slow, the ground is thoroughly soaked. Most all the farmers were done breaking before the rain came, so they are ready to plant now. Prospects are good for another rain, this, Tuesday morning.

Will Snodgrass and family came in to church Sunday.

There was a second baseball nine organized here last week. The boys decided it would be best to practice on home talent awhile before going elsewhere to get licked.

Joe Black was coming in from Brownfield in his auto, Monday and stuck in a sand bar east of town and broke a few things, and finally hitched on a team to carry it out home. Horses are slow, but they are more sure than an auto in a sandy road.

Geo. Black Sr. and wife and Misses Defie and Nora Black and Mrs. Horace Adams will all leave Wednesday for Kansas to take a course of treatment in a sanitarium. We hope they will all be benefited by the trip.

Tom Glover and Miss Willis Black went over to Brownfield last Friday and Saturday and took the teachers examination.

Well, this is our first letter on our fourth year, as we have written three for the Herald and have missed only one issue. If we WILL to do anything, we sure

CAN. (You have done splendidly, West Wind, and you are hereby unanimously elected to serve another four year term, and hope you much luck.—Ed.)

D. 1914, same being the 27th day of April, 1914, then and there to answer the plaintiff's petition, filed in a suit in said court on the 24th day of February, A. D. 1914, wherein E. S. Buffington is plaintiff and the above named parties, together with A. J. Beardsley, are defendants; file number of said suit being 211. The nature of plaintiff's demands are as follows, to-wit:

That the plaintiff is the owner in fee simple, and has possession of the following described lands, situated in Terry county, Texas; being 640 acres, known as Survey No. 35, in Block 4-X, about 13 miles N., 27 E. from the center of the county, located by virtue of Certificate No. 318, issued to the Central & Montgomery Ry. Co., and patented to A. J. Beardsley, with field notes as follows: Beginning at stake the N. E. cor. or Survey No. 34, this Block for the S. That the other defendants are setting up some claims, or title to said land, to plaintiff unknown, in that they have transferred certificate to lands, of the same number as to this plaintiff's land. That these claims constitute a cloud on plaintiff's title to said land, and plaintiff pleads the three, five and ten years' limitation to same, and prays that all claims, right and title of each of the defendants be divested out of them and vested in plaintiff; that he be quieted in the title and possession of said land, and that the error in his deed be corrected and remedied.

Herein fail not, but have you before said court on the first day of the next term thereof, with your return thereon, showing how you have executed the same.

Witness, D. J. Broughton, Clerk of the District Court of Terry County, Texas.

Given under my hand and seal of said court, at office in Brownfield, Texas, this 24th day of February 1914, (SEAL) D. J. BROUGHTON, Clerk of the District Court of Terry County, Texas.
