### HOGWALLOW NEWS

DUNK BOTS, Regular Correspondent

Poke Eazley had a good offer on his squirrel rifle the other day, but decided to wait and see what the United States is going to do.

Raz Barlow visited the Wild Onion school house last Friday afternoon. He just wanted to see if the teacher had any sense.

The Dog Hill church took in three new members last Sunday. This makes it the leading church of this section. For a while the Baptist was the biggest.

Poke Eazley, who has considered himself the best marksman in this community, has gone to selling fruit trees. New every time he tells a lie he is liable to make a little out of it.

Fit Smith will take his owl to a magic lantern show in the Calf Ribs neighborhood Monday night.

Dock Hocks, our enterprising blacksmith, who cuts hair on Saturdays, is preparing to open his spring and summer barber business, and will go to Tickville to buy the calico for the long apron that goes around the neck of the customer. He used a skirt to fit down over the patrons last season, but some of them object-

ed to it as they want to have their hands free for protection while the work is going on.

Slim Pickins made an unexpected visit to Rye Straw last Saturday. He was leading a calf down the road near Hogwallow, and when the animal became unruly, and began to run, Slim discovered that he had the rope fastened around one of his wrists and had to accompany the calf all the way to its former home, in a long run.

Jefferson Potlocks is sharpening up his knife, as the post master has just set out on the front porch a new soft pine box.

The Mail Carrier desires to say to his patrons, also his friends that it is a waste of time and money to send a letter over his route by special delivery, as he will travel at the same gait and take the same pains on a postal card as he does on either one marked special delivery or general delivery.

Miss Hostetter Hocks, who has been buying a stamp at the post office every week for the past year, missed last week, as she is contemplating a change in unknown correspondents.

The Excelsior Fiddling band

is practicing up to play for a wedding next second Saturday though among its music it has but one sad piece.

Washington Hocks is thinking of running for Coroner. His supporters have guaranteed him several cases if he is elected.

Columbus Allsop desires to announce to his many friends and acquaintances that he and his bass fiddle are again connected with the Excelsior Fiddling Band and asks the public to gather up near the east end of the band when the band plays in public.

Yam Simms has received a nice suit of clothes from a mail order house, and for a few days will wear them with the tag attached to show how much they cost.

Miss Fruzie Allsop is to enter a popularity contest in Tickville. The contest is to decide who is the prettiest and most popular young lady, but she will enter anyhow.

Tobe Moseley and his family left last Monday for a weeks visit to his wife's people at Rye Straw. While he is absent he hopes that his house will burn as he has a two hundred dollar insurance policy.

### Notice to Creditors

You that are indebted to me, are hereby requested to come in at once and settle your accounts especially those of long standing, as I must have the money. We have waited long and patiently on some of our customers, and now we expect a prompt settlement.

## RAILROADS APPEAL TO PRESIDENT

The Common Carriers Ask for Relief—President Wilson Directs Attention of Public to Their Needs.

The committee of railroad executives, headed by Mr. Frank Trumbull, representing thirty-five of the leading railroad systems of the nation, recently presented to President Wilson a memorandum briefly reviewing the difficulties now confronting the railroads of the country and asking for the co-operation of the governmental authorities and the public in supporting railroad credits and recognizing an emergency which requires that the railroads be given additional revenues.

The memorandum recites that the European war has resulted in general depression of business on the American continent and in the dislocation of credits at home and abroad. With revenues decreasing and interest rates increasing the transportation systems of the country face a most serious crisis and the memorandum is a strong presentation of the candle burning at both ends and the perils that must ultimately attend such a conflagration when the flames meet is apparent to all. In their general discussion the railroad representatives say in part: "By reason of legislation and regulation by the Federal Government and the forty-eight states acting independently of each other, as well as through the action of a strong public opinion, railroad expenses in recent years have vastly increased. No criticism is here made of the general theory of governmental regulation, but on the other hand, no ingenuity can relieve the carriers of expenses created thereby."

President Wilson, in transmitting the memorandum of the railroad presidents to the public, characterizes it as "a lucid statement of plain truth." The President recognizing the emergency as extraordinary, continuing, said in part:

"You ask me to call the attention of the country to the imper-

ative need that railway credits be sustained and the railroads helped in every possible way, whether by private co-operative effort or by the action, wherever feasible of governmental agencies and I am glad to do so because I think the need very real."

The conference was certainly a fortunate one for the nation and the President is to be congratulated for opening the gate to a new world of effort in which everyone may co-operate.

There are many important problems in our complex civilization that will yield to co-operation which will not lend themselves to arbitrary rulings of commissions and financing railroads is one of them. The man with the money is a factor that cannot be eliminated from any business transaction, and the public is an interested party that should always be consulted and happily the President has invited all to participate in the solution of our railroad problems.

## SAVES DAUGHTER

Advice of Mother no Doubt Prevents Daughter's Untimely End.

Ready, Ky.—"I was not able to do anything for nearly six months," writes Mrs. Laura Bratcher, of this place, "and was down in bed for three months."

I cannot tell you how I suffered with my head, and with nervousness and womanly troubles.

Our family doctor told my husband he could not do me any good, and he had to give it up. We tried another doctor, but he did not help me.

At last, my mother advised me to take Cardui, the woman's tonic. I thought it was no use for I was nearly dead and nothing seemed to do me any good. But I took eleven bottles, and now I am able to do all of my work and my own washing.

I think Cardui is the best medicine in the world. My weight has increased, and I look the picture of health."

If you suffer from any of the ailments peculiar to women, get a bottle of Cardui today. Delay is dangerous. We know it will help you, for it has helped so many thousands of other weak women in the past 50 years.

Those not equipped with a spray, can use a bucket and dipper on their favorite trees, unless they have a small orchard, in which case, they can protect all the trees in the orchard with the bucket and dipper method.

The Carter Tent Show will be in Brownfield next Thursday and Friday nights and Gomez Saturday night. This show is on the vaudeville order, though clean and moral, so says Rev. M. D. Williams, who has seen it. He further adds, that it is one of the best he ever saw.

The white topped prairie schooners, laden with their burdens of stern men, smiling mothers and flaxen haired children, headed west (with apology to Bob Taylor) have suddenly terminated on account of the rigid live stock quarantine between Texas and New Mexico.

Delayed.

The Spring days are few and far between, for it is still cold and windy. But as Easter is so late this year, the fourth of April, I suppose we need not expect any pretty weather until after then.

We made a tour of inspection in our orchard this week and find all fruit buds safe thus far. The plums and peach buds are just ready to burst and a few warm days would bring them bloom, and right now the pesky English Sparrow is getting in his worst work on the plum buds. He is in the bushes continually picking them. We have examined several limbs after he had flown from them and he had literally cleaned up the most on that limb. A gun is the only thing that will eradicate them as they are hard to poison. Some folks often wonder why their plums are scarce from no apparent cause. Here is one cause; watch the sparrow and see.

## Gomez

By West Wind

The Livery Barn and all contents, was burned here on last Saturday night. Just at midnight Mr. Williams who lives across the square from the barn, heard a roar that he thought was fire and went out to look, and discovered the flames beginning to break through the roof and by the time he aroused others and they got there the east side of the building was beginning to fall in. A buggy and surrey that was under an open shed on the west side of the barn was saved but both were damaged by the fire. Old Red, the saddle horse that R. W. Glover rode in home after dark, the only horse in the barn and his tragic death has caused more pity than the financial loss of the barn. Though the loft was full of maize and kaffir heads and there was no insurance The Odd Fellows Lodge closed here one hour before the fire was discovered and several men stayed at the lodge thirty minutes later, then Wood Johnson rode right by the barn but saw no trace of the fire. How it originated is a mystery not yet solved.
