### LOYAL SUPPORT EXTENDED BY BUSINESS CONCERNS IS GIVEN AS SCHOOL SUCCESS

#### The Record's Second Annual Session Closed Wednesday Afternoon With Ladies Of Wide Area Beneficiaries

Success of The Record's second annual cooking school closed Wednesday afternoon was due, in large measure, to loyal support extended by the entire business community at Colorado and wide area, noting and maintaining interests having retail connection in the city.

Attendance upon all those of the afternoon session was larger than the previous year's initial cooking school, conducted a year ago. Miss Jessie Hogan, nationally recognized cookery expert and co-director of the school, stated late Wednesday before leaving for San Saba, where on the following afternoon she opened another school.

"I have never been privileged to witness a more interested group of women and girls at a cooking school conducted by myself and I have been in the business several years," Miss Hogan declared. "I was delighted to find that the attendance was representative of this section and I am leaving Colorado feeling that The Record and cooperating business interests have made material contribution toward the goal of advancing the art of cooking and of living."

The school opening Monday afternoon at 2 o'clock, was conducted in auditorium of the American Legion building, where a larger and more convenient place was available. Last year the school was held in a downtown store building. It was to be noticed that every available seat in the building was occupied as the initial school session was opened.

"The Record is deeply grateful to every business interest and private individual assisting in any manner toward success of the cooking school," W. W. Whipkey, publisher, stated Wednesday afternoon a short time after the final lecture and demonstration had been brought to a close. "But for this splendid evidence of community interest the school could never have attained the proportions and offered the educational features that obtained through out."

### GIRL POISONING VICTIM DIES ON GREYHOUND BUS FEW MILES WEST OF HERE

#### Miss May Jones, 22, of Albany Stricken Near Coahoma; Granddaughter of Prominent Shackelford Pioneer

The lifeless body of Miss May Jones, 22, of Albany was taken from the eastbound Greyhound bus here Wednesday noon. Miss Jones had died a few miles west of Colorado after having been stricken violently ill when the bus was east of Coahoma. An inquest verdict of "death by poisoning, apparently self-administered" was later rendered by A. D. Leach, coroner.

Investigation revealed that Miss Jones boarded the bus in Midland Wednesday morning after having visited a sister, Mrs. Ruth Roberts, there. In Big Spring she got off the bus and went to a drug store and asked for empty capsules. Told that the store did not handle them, she left, later returning to ask for a drink of water. At another drug store she bought a soft drink.

It was said that she requested bus terminal workers in Midland not to tell anyone that she had taken the bus. A Big Spring officer reported that he saw the girl hurrying down an alley before the bus left Big Spring.

An inquest was held by Dick Hickman, chief of police, Coroner Leach, and Dr. Johnson aboard the bus in Colorado. The body was then taken in a Kiker & Son ambulance to the Kiker Funeral home, where the inquest was continued after investigation into the girl's actions in Big Spring and Midland.

Miss Roberts, the sister from Midland, came to Colorado late Wednesday afternoon. A brother-in-law, See POISON VICTIM Page 5

## THE COLORADO THAT USED TO BE 25 Years Ago 15 Years Ago

### 25 YEARS AGO

A big "panther hunt," with the hunters riding all night had taken place at Westbrook twenty-five years ago, according to the Colorado Record for June 2, 1911.

"Rumors have been filling the air for some time about a huge panther that has been seen and heard near Westbrook," the Record article read. "Unearthly screams could be heard at night. Children were kept indoors as a precaution. The panther had been seen skulking through the bottoms. Dr. C. L. Root of the Westbrook Sporting club and C. B. Hooper, its secretary, became thoroughly aroused."

"Some of the boys, knowing the whole community to be on tiptoe, conceived the idea of having some fun. They invented a whistle to make a scream that aroused the natives about 9:30 one night. Dr. Root jumped from his bed, got Hooper and about 25 other men and 43 dogs, and took to the bottoms. They chased those boys over the bottoms all night and the boys had great sport at the expense of the Westbrook Sporting club."

Tragedy had stalked in Colorado when Bud Sparks, 19-year-old son of Mr. and Mrs. Charley Sparks, fell from the top of a new building at the Colorado salt works and was fatally injured, dying Tuesday morning about 3 o'clock.

The G. F. C.'s had met with Miss Ethel Dyas and had held a program on which the following took part: Carrie Mae Mitchell, Winnie Crockett, Winnie Vaughan, Mrs. Cooksey, Zelma Crow, Lula Mae Dulaney, Eltona Dulaney, Florence Simpson, Gertrude Schroeder.

Mrs. J. W. Porter and R. L. Porter, mother and brother of W. W. Porter, were here visiting from Pilot Point.

Miss Lois Prude had returned from her college term at St. Mary's in Dallas. Junius Merritt had returned from a trip to the Plains. A. B. Coleman was at the home of Robert M. Webb recovering from a serious fall.

### 15 YEARS AGO

Twenty-five white-gowned girls formed a choir for Memorial Day services here 15 years ago, according to the Colorado Record for Friday, June 3, 1921. The choir marched to its place in the First Methodist church led by Mary Dickson Smith as Columbia, Eugene Soper as Uncle Sam. Mrs. J. H. Guitart sang, Annie Mary Lupton read, Dr. D. R. Hardison made the address, and a male quartet composed of Thos. Dawes, T. J. Ratliff, S. D. Wood, and Chester Thomas sang.

Rev. Guy B. Duff of First Presbyterian church was attending a general assembly in St. Louis. Leon Jenkins and E. B. Smith had bought the Moseley Barber shop.

Mr. and Mrs. Joe Smoot, Rebecca Smoot, and Mrs. H. B. Smoot had returned from Dallas. John Vaughan was critically ill in Scott and White at Temple and was to be taken on to Marlin. The "Klasy Klasy" tailor shop, owned by Alvin Myhre and Robert Porter, had moved into the Snyder building on Walnut street.

The Oran C. Hooker Post, American Legion, had leased the second floor of the F. M. Burns building for club rooms and auditorium. Work of improving the basement of the Baptist church was nearly completed.

Mrs. L. W. Sandusky's father, Colonel Charles W. Geers, had been buried at Denton. Colonel Geers was the owner of the Denton Record-Chronicle and a pioneer newspaper man.

The third wedding anniversary of Mr. and Mrs. Ross Dixon had been celebrated by Mr. and Mrs. F. E. McKenzie with a dinner. Lela Maude Skinner and C. Ray Williams of the Williams-Miller Gin Co. had been married on Thursday evening.

They were to live in Idaho. G. D. Adams and family had moved to Baird. George Goodwin of northwest of Colorado had been in Colorado on Saturday. Lillian Majors of Sweetwater had been visiting relatives here. Charlie Thompson was to leave Lorraine on June 12 to enter the State University.

An operation was performed Monday, but the tumor from which he is suffering was not removed because it had entered the brain proper, making removal impossible.

**FARM FACTS**

**CONTROL OF LARGE RED ANT OR THE AGRICULTURAL ANT**  
A number of requests have come to this department for the control of the red ant. The best control is the sodium cyanide method. The treatment consists of dissolving sodium cyanide eggs in water at the rate of one ounce per gallon and pouring this water in the nest while all the ants are in, usually late in the evening or during the noon hour or thereabouts, and then stopping up the outlet so that the gas will not escape. The ground should be thoroughly wet before the treatment is applied to insure best results, thus after a rain is the best time to kill the colony. In some cases repeating the treatment may be necessary. If properly applied the treatment will result in 100 per cent control. The cost is very nominal. Usually five cents will take care of the average colony.

Of Judge A. F. King**

Colorado Business Man Will Seek Nomination For This Office In Primaries

A. F. King, former Mitchell county judge and for several years engaged in business at Colorado and Westbrook, Thursday morning made formal announcement of his candidacy for the Democratic nomination as county judge. In statement to the voters, Judge King said:

"After having given the matter serious consideration I have decided to and am now entering the race as candidate for office of County Judge of this county. I shall conduct my campaign on a high plane and do not expect to inject any special issues into the campaign.

"If I am elected I have no promises to make other than to serve the best interest of Mitchell County insofar as circumstances and my ability will permit.

"I shall endeavor at all times to be faithful to the demands of honor and justice and shall greatly appreciate all consideration and support I may get."

**MUSIC, MAGIC, AND  
ARTISTRY ON LEGION  
HUT PROGRAM FRIDAY**

Magic tricks interspersed with crayon talks and musical numbers will be featured in a program which will be presented by the Lookout class of First Christian church at the Legion hut Friday evening, beginning at 8:15.

The Rev. A. L. Haley, church pastor, will be presented as the magician. He has already gained wide note in Colorado for his cleverness along this line. The crayon talks will also be by him. Mrs. Farris Lipps is to be presented in piano numbers.

An admission charge of 10 and 25 cents will be made. The public is urged to attend.

**LUBBOCK LOOKING AHEAD  
FOR ANOTHER GATHERING**

LUBBOCK.—The Chamber of Commerce Managers of West Texas will be co-hosts to approximately 150 managers throughout Texas who meet here for their 30th Annual Convention on June 11, 12 and 13.

Lubbock was the convention city for the Texas Chamber of Commerce Managers Association in 1925, and these past 10 years will bring new sights and a new Lubbock to the visitors.

Lubbock has entertained over 150 associations with an attendance of over 100,000 in their annual meetings during the last six years—and with this knowledge of conventions in the bag, a great meeting is promised all who attend the Texas Chamber of Commerce Managers Association Convention here June 11, 12 and 13.

An informal gathering at the Hilton Hotel, convention headquarters, on Wednesday, June 10, is scheduled with registration starting at 4 p. m.

A complete and constructive program, based on problems confronting the Chamber of Commerce Managers in Texas, has been worked out by Geo. S. Buchanan, Marlin, President of the TCCM, Grady Shipp, Longview, Vice President, and Pet Smith, Longview, Secretary, together with the fine cooperation of the various Chambers of Commerce in Texas.

**MANY ACCIDENTS DON'T  
HAPPEN THEY ARE CAUSED**

In a recent interview, H. P. Hobart, General Manager of Gulf's Lubricating Sales Department, used a report of the Pennsylvania Department of Revenue to substantiate his belief that many accidents are caused by improper lubrication or by the lack of lubrication. In analyzing this report, Mr. Hobart said, "Out of 80,488 motor vehicles involved in accidents, over 90 per cent were apparently in good condition. The condition of drivers in approximately 40 per cent of the accidents was apparently normal. From these facts the conclusion may be drawn that accidents involve machines which have some mechanical imperfection, even though they may appear to be in perfect condition."

Many persons who are driving what they consider to be safe cars are really chauffeuring vehicles that are accident hazards. The lack of proper lubrication, or improper lubrication, causes concealed parts of the steering mechanism, shackle bolts, drag links, and wheel spindles to become so worn that a sudden turn or bump in the road may cause them to snap. When such an event occurs, the driver is left to bring back to control a vehicle that threatens to involve itself, as well as others, in a serious accident.

Do your part to reduce accidents in Colorado. If your car has not been lubricated recently, perhaps you, too, are unknowingly driving an unsafe car. Play safe—Lubricate for Safety!

**Pension To Aged  
Is Set To Start  
Within A Month**

Sixty-Five Thousand People To Receive Benefits, Says State Director

Orville Carpenter, old age assistance director, said Tuesday at Austin that pensions ranging from about \$9 to \$30 would be paid approximately 65,000 persons beginning July 1. The average will be about \$20.

All payments will be made on a basis of need, the director said, in accordance with statutory requirement. The maximum permitted is \$30, or \$15 from the state and \$15 from the federal government.

Carpenter said there was no doubt payments would start July 1 "because both state and federal money will be in the Texas treasury." Texas was granted \$1,181,250 recently by the social security board.

"As far as I can estimate now," he said, "there will be approximately 65,000. Each will receive up to a maximum of \$30 a month.

"Payments will be based upon need because of the federal social security law and the Texas law. People who do not need as much as \$50 will receive less."

Old Fort Chadbourne Near Robert Lee Reflects The Courage Of Pioneers

When the northern section of Tom Green county, now Coke county, had but one cemetery, identifications were carved on gravestones in the old Fort Chadbourne cemetery that represented, but did not tell, of dramatic events in the ranch life of West Texas.

A simple epitaph reads: "G. G. Warren, born January 27, 1845, died February 10, 1885." It is not engraved on the headstone, however, that Warren was a star state witness in a case on the docket of the district court in Sweetwater which was to come to trial February 11, 1885, in which several men were charged with fence cutting. A gun pointed through a window of a Sweetwater hotel forever sealed the lips of G. G. Warren.

Another headline with a story behind it: "In memory of T. A. Yarbrow, born September 8, 1839, died May 7, 1878. Old timers say it was Mrs. T. A. Yarbrow, a ranchwoman, who became ill and while neighbors attended her cowboys went to Coleman for a doctor. For some reason he could not come and another chapter was concluded in the story of hardships in a pioneer country."

There is a covering for a vault cut from limestone with a cowboy's name on it but his body does not lie beneath it. The cowboy rests on the Wylie range near where he died when his horse fell with him. He is buried west of Maverick with Bill Brown, the last man to be killed by the Indians in that section. On the vault is carved: "In memory of Stephen A. Douglas Odum, born March 8, 1856, died May 6, 1877. The beautiful and the good die young." His mother had undertaken to have his body moved to the cemetery but died before it was done.

**RATTLESNAKE IS SOURCE  
OF INCOME TO THE AREA**

The rattlesnake, menacing to livestock and men since the days of the open range, has become a source of profit for some West Texans.

Probably the smallest ranch west of the 100th meridian is the rattlesnake "ranch" of J. R. and Pat Patterson, and Steve Payne. It comprises a sheetiron pen located south of Merkle and is maintained chiefly to study the habits and nature of the reptiles. A bounty of five cents a rattle up to five rattles, and two cents for each additional, put the men in the business. On their best hunt the trio killed 81 snakes one afternoon.

The live snakes are "milked" for venom by having them strike a rubber-covered container and the poison is ejected from the fangs. It is used in the manufacture of medicine.

A bank failure that took his savings, says Ed Mowery of Robert Lee, Coke county, put him into the rattlesnake business. He ships reptiles to zoos and to persons who make various uses of them.

Capturing them, Mowery uses a hook like a shepherd's staff and a pole with a leather strap at one end that drops about the neck of the snake and drawn tight with a trigger. He has not been bitten.

**FOOD NEWS**

Registrations of new cars at the office of the tax collector amounted to 115, a gain of 41 over April and 56 above May a year ago. Total for the year is 491, far above the year's total of 469 in 1933 and compares with 429 for the first five months of 1935. Proportional gains the remainder of the year will push the total past the record of 1,267 for 1929.

Building permits continued far ahead of last year's totals and the \$18,090 for May brought the amount for the first five months to \$50,589.95, slightly more than for the entire 1934 total and only \$18,000 under the final figures for 1935. May permits compared with \$11,954.50 for April and \$8,215.00 for May a year ago. It was the best May since 1930.

Postal receipts kept the record for gains perfect showing \$4,906.70 for the month, slightly over the \$4,850.84 for the preceding month. The figure was, moreover, 12 per cent over the \$4,371.58 for May of 1935. Receipts for the five months period are \$1,767.79 over the corresponding year of 1935. The record for the period is second only to the peak of 1929. It was the best May on record for the office.

**Retail Trading To Higher Level Last Week, Is Report**

Cool Weather, However, Had Effect In Checking Parade To Better Business

Despite cool weather in some regions the nation's retail trade gained last week, while industry, aided by heavy goods demands, stubbornly postponed its march toward the usual summer decline.

Although chilly spells in scattered districts tended to slow the retail buying pace, the swelling tide of summer buying served to push the country's general consumer demand to levels from 10 to 15 per cent ahead of the like week of 1935, according to an authoritative trade report.

With farmer cash income expanding and soldiers' bonus payments ahead, wholesalers enjoyed materially heavier volume.

Industrial activity, in terms of the Associated Press seasonally adjusted index, was slightly lower at 89.0 compared with 89.2 the previous week.

Somewhat slower steel mill operations which reflected a trifling loss in automobile output tended to weigh the index down a little, but the sharply better than seasonal advance in residential building afforded strong support.

Meanwhile reports from the automobile industry showed payrolls in April at the highest peak since the spring of 1929.

**Ranchers Looking To Time When All Rustlers In Jail**

District Judge Suggests An Aggressive Drive To Stop 'Motorized' Stealing

Ranchers in West Texas have banded together to halt a wave of motorized cattle rustling.

The 1936 stock thief employs "chutes and fast trucks instead of a pony and six-shooter, but his work is more costly and more deadly than the romanticized rustler of old. Cases have been found where the bandit gang did not bother to load their quarry alive. The animals were slaughtered and hauled away as beef.

If the rustlers are going "modern," the stockmen must follow suit. Judge A. S. Mauzey wanted a protective organization modeled on the line of department of justice agents—working quietly, rapidly and prepared to meet the outlaws on their own terms.

Veteran stockmen, who recalled when hanging was the only sentence for a convicted cattle rustler, shouted applause when Mauzey condemned the practice of giving suspended sentences in cases of cattle and sheep thefts.

"The industry can never be prosperous," Mauzey said, "when its profits are stolen at night."

Jack Yarbrough has been employed by the Nolan county organization to aid in halting the raids. Members pay his salary by contributing to the "war fund" 10 cents for each cow and one cent for each sheep they own.

Last vestige of the horseback rustler may be found in the "Big Bend" country of Texas along the Rio Grande river. Here mounted Texas rangers stand guard as they did half a century ago when there was no "law west of the Pecos" except the hallowed Judge Roy Bean.

**FUNERAL SERVICES AT TEAVILLE TUESDAY FOR MRS. JOHNSON, AGE 86**

Funeral services were held at the Teaville cemetery Tuesday afternoon at 2 o'clock for Mrs. Anna Wade Johnson, 86, who died at the home of her daughter, Mrs. J. M. Robertson, at Cuthbert at 6 o'clock Monday morning.

Mrs. Johnson had been bedridden since sustaining an injury about 20 months ago. She had lived in this county eight years. Her husband, James M. Johnson, died two years ago.

Funeral services were conducted by the Rev. Lynn Bodine and the Rev. O. C. Floyd. Burialbearers were Frank Robertson, Lon Robertson, Morman Sanders, Sep Watts, and Johnny Gunert.

Kiker & Son had charge of funeral arrangements.

**ENROLLMENT IN DAILY BIBLE SCHOOL AT 215**

Enrollment in the daily vacation Bible school which opened at First Baptist church Monday morning had reached 215 Thursday morning.

Last year's highest enrollment was 210. Mrs. P. D. O'Brien, acting general superintendent this year, with Mrs. Doyle Williams, Truett Braber, Miss Pearl Bryant, and Mrs. Jack Eckleberry as departmental heads. The school is held from 8 until 11 each morning except Sunday and Sunday and will continue through next week.

**Resettlement Project Near Lubbock Is Answer To Problem Of Home Ownership**

Texas and Oklahoma are the cotton farmer's "last frontier." The recently established project in Hockley County by the resettlement administration is an example of how land may be profitably placed in the hands of former tenants and laborers.

The Nation will need 30,000,000 acres of new farmland within the next quarter century and possibly twice that much. We will have 20,000,000 more people to feed and clothe and our foreign trade can hardly be less. Texas and Oklahoma have more good land awaiting the plow than all the remainder of the Nation combined. On the Hockley project landless farmers from the old South are meeting those who went to the Pacific Coast.

With adequate equipment those who attempted to homestead West Texas and have undergone acute suffering. Reports have been received of hundreds of farmers buying land from one company, with no down payment, who have been unable to carry on during the arduous conditions of the past few years. The resettlement project is demonstrating that a safe start may be made under conditions that will carry the homesteader through the hardest seasons.

There are thirty-three families on the Lubbock project, each working 120 acres of land.

Instead of paying 6 per cent interest as must be charged by private companies, these families pay only 3 per cent interest, and instead of having to pay out their land in twenty years, they have forty years. They have good houses and good barns.

Each of them has a garden, a poultry house and a good foundation stock of chickens. They have one to half a dozen cows, several hogs and four or five work animals. Each family has been supplied with a pressure cooker and canning outfit for putting up meat and home-grown garden products. Yet their annual payments are no more than they would usually pay as rent.

Ten of the homesteaders were tenant farmers last year, working on a third-and-fourth basis. They had an average income of \$555 above what they used at home. They were working an average of 155 acres of

land. There are seven former share-croppers and fourteen others who last year made their living as farm laborers. The average income for the farm-labor families last year was \$307.

On the average, the men had lived twenty-eight years on the farm and the women twenty. Their average education had been ninth or tenth grade. The average size of the family is four, two adults and two children. These families were selected from 800 applications received as soon as it became known that this project was being established. Scores of those not accepted were practically as well qualified and would very likely make as much of a success if given the opportunity.

It is estimated that the average income for families on this project will be \$910 cash this year, in addition to the home-grown food and feed which they themselves will consume. This is almost twice as much cash as was received by the most prosperous of these families last year when they were operating farms as tenants, and it is three times as much cash as was received by those who were farm-laborers.

Their houses have running water in kitchens and bathrooms. They consist of two bedrooms, a living room, bathroom and a combination kitchen and dining room. The houses are soundly built, though not expensively. Average cost of improvements is \$2,400 and land \$3,600.

The resettlement administration has not attempted to do everything for these families, but has left it to them to complete many of the improvements. Fencing was supplied with which to enclose one and a half acres for homestead and garden, but every family constructed the fences with its own labor. They also built their pipe lines from windmill to livestock pens. Many additional improvements will be needed before these farms are entirely in keeping with the plans which are being made by their new owners and by the resettlement administration.

Farm homes for 533 farm families are being developed this year by the resettlement administration in Texas and 265 in Oklahoma, in addition to the Lubbock project.

**Texas Vets To Receive Eighty Million Dollars As Baby Bonds Are Liquidated**

The current spendings and money in circulation in Texas is expected to increase by about \$80,000,000 during the next few months as result of the Federal Government issuing bonus bonds to veterans of the World War.

The number of bonusholders in Texas is 148,771, with an average face value of the bonus certificate \$960 but a large number have borrowed against them.

Arrangements are being concluded by the Post Office Department to dispatch form Washington more than 3,500,000 bonus bonds to veterans who may hold them until maturity or surrender for cash. The bonds will be sent to 4,500 post offices throughout the country and delivery will be made to the veteran in person by registered mail.

Twelve Texas post offices have been named paying offices: Dallas, Amarillo, Austin, Beaumont, El Paso, Fort Worth, Galveston, Houston, Port Arthur, San Antonio, Waco and Wichita Falls.

The Dallas and Austin post offices have been designated as paying offices not only for their respective postal districts but also for the remaining post offices in respective districts.

Although the bonus bonds earn simple interest at the rate of 3 per cent per annum, no interest is payable on any bond redeemed prior to June 15, 1937. The bonds will be mailed in \$50 denominations with accompanying checks to cover the odd amounts. In a radio address from Washington Postmaster General Farley will give the veterans full and complete information concerning payment of the bonds.

The Government's gratuity goes to 3,531,800 who were in the World War service, their bonus certificates aggregating nearly \$3,500,000,000 (billions) in face value. Six out of seven borrowed, so that the total bill now to be paid is generally referred to as \$2,245,000,000 (billions). The legislation remitted interest the Government charged on loans and reimbursed banks for interest they charged.

It is now estimated that 95 per cent of the bonds will be surrendered for cash by the veterans which would mean that something like two billion dollars will be put into circulation immediately. Statisticians have figured there would be an increase in the cost of living.

There are 148,771 bonusholders in Texas who will receive a total of \$83,696,221 and if the estimate of surrender for cash holds good in the State, the current spending there will be increased by about \$80,000,000 within the next few months.

Harris County will have the largest amount in the Texas bonus payment, \$5,310,149. Dallas County will come next with \$4,813,061 and Bexar next with \$4,323,052. Other Texas counties having large payments are: Cameron, \$1,145,886; El Paso, \$1,

## Women From All Over County To Cooking School

Every Community Represented At Gathering; 50% Come From Outside City

Proving that The Record is as widely read in Mitchell county's rural communities as it is within Colorado's limits, the Record's cooking school at the Legion but this week drew more than one-half of its audience each of the three afternoons from outside Colorado.

Every community in the county was represented in the increasing attendance registered each afternoon. There were 442 women over 16 years of age at the school Monday afternoon, 467 on Tuesday afternoon, and 494 on Wednesday afternoon.

Women coming from outside Colorado's limits were asked to stand Wednesday afternoon and more than half of those present stood. A poll revealed that the following places were represented in addition to Westbrook, Iatan, Loraine, and rural communities of the county: Lubbock, Big Spring, Sweetwater, Snyder, Sterling City, Atoka, Okla., and Spokane, Washington.

### VALUABLE EXPERIENCE FROM FEEDING CALVES

"I did not make a great deal of money out of feeding my calves but I received some valuable experience that I plan to use next year," declared Quinton Hamrick, local Future Farmer, in talking with Supt. J. E. Watson after he had sold his calves. Quinton's calves sold for \$153.86 and cost him a total of \$137.15, leaving a net profit for his labor of \$16.71. The calves made an average daily gain of 2.4 pounds, which is one of the best records made during the year. They consumed 5400 pounds maize, 600 pounds of cottonseed meal and approximately 1800 roughage.

### ELEPHANT HEADED FOR CENTENNIAL THRU HERE

### Poison Victim—

(Continued From Page One) Boyce Nichols of Albany, came here with J. L. Castleberry, Albany undertaker, to get the body Wednesday night, leaving here about 8 o'clock. None of these made any statement throwing any light on possible reasons for Miss Jones' action.

When personal effects of Miss Jones were examined here at the bus station an unmailed postcard addressed to Miss Jones' mother, Mrs. Riley Jones of Albany, was found. It read, "Dear Mother—Am having good

time. Will be home soon." Miss Jones is the granddaughter of A. J. Jones, well-known pioneer of Stephens and Shackelford counties and the daughter of Mrs. Riley Jones of Albany. She is also survived by four brothers—Elmer, Oran, Vick, and Rayford Jones of Albany; four sisters, Mrs. Roberts, Mrs. Nichols, Mrs. Vallie Farnell, and Mrs. Merle Miller of Albany.

She was graduated from Albany high school with the class of 1933. Her family moved to Albany about twelve years ago. A few months ago

**Soft Ball Leagues To Vie For County Championship Belt**

Junior and Senior Units At Colorado and Loraine Out For Coveted Award

Organization of two soft ball leagues for competition in Colorado and Loraine has been announced by Col. C. M. Adams, supreme arbitrator. The dual sports organization is made up of a junior and senior department. Regular play during afternoons and evenings at Cantrill Field is to be taken up as soon as schedules have been accepted by Colonel Adams and the league sponsors. There are seven teams entered in the junior league and six in the senior.

Ben Daniels is chairman of the junior league with Marvin Majors and Weldon Skinner other members of the committee. Teams have been entered by the Boy Scouts (two), Stars, Aggies, Panthers, Tigers and the band. John Deffebach, Mose Moseley and Morris Kirschbaum are skippers for the senior league, composed of the Fire Boys, Shell, Col-Tex, Lions, Loraine and Young Business Men.

**DANCING REQUIREMENTS ELIMINATES COLORADO'S FOLLIES REPRESENTATIVE**

A last-minute announcement that girls chosen for the Fort Worth Frontier Follies must be able to dance or willing to study dancing in Fort Worth for four weeks at their own expense eliminated Miss Virginia Reese, who was officially Miss Colorado in contests at Fort Worth Saturday night.

This requirement also eliminated a number of the other girls representing more than 50 West Texas towns in the contest.

Following the contest Miss Reese went to Dallas to spend several days visit with her sister, Juanita Reese, and her aunt, Mrs. Ivan White.

J. H. Greene, secretary of the Colorado chamber of commerce, attended the judging in Fort Worth Saturday night and says there's no doubt that Mrs. Berger and Miss Fort Worth were the most beautiful girls there.

**TIMELY SUGGESTIONS TO PUBLIC BY COUNTY AGT.**

Ben J. Baskin, county farm agent, submits the following interesting suggestions that should be of interest to the public:

Existing weather conditions are such to bring about foliage diseases of tomatoes, such as Leaf, Spot, Bacterial Spot and other tomato troubles. With first appearance of brown or black spots on the foliage and a slight discoloration spray the plants with 1 lb. bluestone, 2 lbs. hydrated lime and 12 gallons water. Wet the entire tomato plant thoroughly. Do not wait until this trouble shows up over the entire garden.

Due to good rains sudan is showing fine growth, and sudan pasture is promising to be unusually good this summer. Sudan that has matured makes a poor pasture. It is recommended in case your sudan is growing faster than the livestock can keep it grazed down that one half of the sudan be mowed down, and two weeks later the other half be mowed down. Such management of your sudan pasture will insure the farmer of plenty of good grazing. Be sure to keep your sudan growing.

Now is the time to be planting New Zealand spinach and Swiss chard. These will give you a hardy hot weather leafy vegetable for the summer months.

If you have not already done so now is the time to plant cushaw, pumpkins and Ford hook squash.

For Fall tomatoes Earliana, June Pink or Bonny Best may be planted at this time. These should be planted on a piece of land that will have plenty of summer moisture. Plant the seed at the rate of 8 to 10 seed per running foot in the row. Later the plants may be thinned out to a stand about 2 1/2 feet apart.

**BUCHANANS HAVE GUESTS**  
 Overnight guests of Mr. and Mrs. J. A. Buchanan Wednesday were Mrs. L. C. G. Buchanan and daughters, Gillian and Lucille, of Clovis, New Mexico. Dr. L. C. G. Buchanan is J. A. Buchanan's brother.

 Rev. Dick O'Brien of First Baptist church was in Colony, Callahan county, Wednesday afternoon to conduct the funeral of E. G. Wood of Floydada. Burial was at Cisco.

**TO NIECE'S GRADUATION**  
 Mr. and Mrs. A. D. Kiker and daughters, Shirley Kiker and Mrs. Ivan Barber, were in Abilene Sunday night to see Mr. Kiker's niece, Mary Ruth Humphreys, receive her certificate as a graduate nurse of West Texas Baptist sanitarium.

**RETURN TO STANTON**  
 Mr. and Mrs. Riggs Shepperd, who spent several days last week with their parents, Mr. and Mrs. J. W. Shepperd and Mr. and Mrs. John R. Baze, returned to Stanton Monday. Mr. Shepperd is to be superintendent of the Courtney consolidated school near Stanton next year and is working this summer toward securing credits for the school.

**HARRY RATLIFF WILL TRY SUB-IRRIGATION**

"I want to give sub-irrigation a thorough test before going in for it on a large scale, therefore lay a hundred feet in my garden," said Harry Ratliff in a recent conversation with Doyle Williams, head of the Vocational department.

The tile has been laid by members of the F. F. A. club and Harry plans to try tomatoes and other vegetables this summer. This brings the total gardens underlaid with tile to 10 in the Colorado section.

**GRAND JURORS BALLOT TO  
ELECT FOREMAN AS BODY  
IS CONVENED AT COLORADO**

**Little Business Pending As  
District Court Session Is  
Opened Monday; Judge  
Mauzey On The Bench**

For the first time of record in annals of 32nd judicial district court at Colorado, members of the grand jury balloted Monday morning to designate their own foreman. W. J. Chesney of Dorn's Chapel, who has served on the deliberating body a number of times, was voted this distinction.

"I am going to establish a precedent in the case of you gentlemen and allow you to name your own foreman," Judge A. S. Mauzey, presiding, announced after having empaneled the twelve men. The voting and subsequent election of Chesney was announced by a court bailiff within a few minutes after the men had retired to begin their work.

It was ascertained that eleven of the men empaneled as grand jurors had served in that capacity before. Jack Delaney and C. E. Franklin were sworn in as bailiffs to the jury.

Other members of the jury include Harold Bennett, Earl Brown, Earl Jackson, George Dawson, T. L. McKenney, A. K. Northcutt, J. W. McGuire, J. A. Pickens, G. B. Slaton, L. B. Elliott, and J. Ralph Lee.

The jurors recessed late Tuesday to June 17 after reporting the voting of only three bills of indictment. Two of the indictments were based on charges of driving while drunk and the other specified the offense of theft.

The three negroes held in county jail several weeks as suspects in connection with the murder of B. W. Toothman and Wilson Hamel at a Westside service station and grocery on last Thanksgiving morning, were listed on the "unfinished business" register as the grand jury recessed. Further investigation into the case is to be taken up when the jury resumes work on June 17.

**Vacant Places Of Confederate Veterans  
Impressed Memorial Day Speaker Sunday**

The vacant places of Confederate veterans who heard his Memorial Day address fourteen years ago impressed Harry Ratliff as he delivered this year's address during Memorial Day services at First Methodist church Sunday afternoon at 5 o'clock.

Ratliff recalled how a number of Confederate veterans sat in a group to hear his talk fourteen years ago. This year all those places were vacant and the ones who filled them, Ratliff pointed out, have since passed on to join the number whose memories are honored in the placing of wreaths each Memorial day.

Wreaths of cedar tied with the United States and Confederate colors, decorated the church for the memorial services, which were sponsored by the American Legion auxiliary, the U. D. C., and the D. A. R., with the help of the Legion post and local Boy Scouts. Forming an impressive background for the program were two Boy Scouts standing on each side of the altar holding United States and Confederate flags and three other Scouts behind them holding the Texas flag, the Confederate battle flag, and the Boy Scout service flag.

**Road Convention  
To Build Interest  
In The Broadway**

Directing Officials Elated  
Over Prospects Of Tourist  
Travel In The Future

First State convention of the Broadway of America association held in Colorado Thursday of last week is scheduled to do much in further popularizing the route, officials of the organization stated before leaving that afternoon to return to their respective homes. Delegates representing the road from Dallas to El Paso were registered.

"We already have the most important tourist travel lane in America and I have every reason to believe that the Broadway of America is due for bigger business in that respect," Henry W. Stanley of Dallas, president, said before leaving for a business trip to El Paso.

**FORMER COLORADOAN  
IS IN EL PASO RACE**

Judge John M. Worrell of El Paso county, who will be remembered by many Coloradoans as the nephew who was reared here by G. E. Quinney, now of Compton, California, is a candidate for district judge at El Paso, according to an item in the El Paso Herald.

Worrell made his home here with the Quinneys from the time he was 12 years old until after the war. He served during the war with his cousin, Gilbert Quinney, in the second division of the Sixth Marines. Shortly after the war he left here to go to school. He is also a cousin of Floyd Quinney of Colorado.

**ATTORNEYS INTO OFFICE  
BUILDING DURING WEEK**

Judge C. C. Thompson stated Saturday that he, Dell and Truett Barber, members of the law firm of Thompson & Barber, would move into their new offices on second floor of the old City National bank building during latter part of this week. The building, recently purchased by the law firm, is being improved and remodeled throughout on the second floor interior and considerable work is to be done on first floor and the outside walls.

**HAYES HOLMAN TO  
WASHINGTON, D. C.**

Hayes Holman, principal of Colorado Junior High school during the past several years, left Sunday for Washington, D. C., to visit Congressman George Mahon and Lloyd Crosslin.

He will return to this section in time to attend the first term of summer school at Boulder, Colorado, and after that will go to Post to assume his new duties as superintendent of schools there.

**SWEETWATER PRIDES IN  
NEW HOSPITAL PROPERTY**

The new hospital opened to the public in Sweetwater Monday is being referred to with pride by citizens of that city. The property represents an investment of \$100,000, including loan from the Works Progress Administration.

Mrs. J. G. Merritt presided during the service, which was as follows: Hymn, "How Firm A Foundation," by the audience with Mrs. N. H. White leading and Hazel Grubbs accompanying; invocation, Rev. Cal C. Wright; original poem, "Will Texas Forget?" Mrs. J. E. McCleary; address by Harry Ratliff; reading, "Dear Old Confederate Flag," Billie True Templeton; benediction, Thos. R. Smith.

In his address Mr. Ratliff expressed his appreciation of the women's organizations who work to keep alive the memory of Mitchell county's war dead.

Boy Scouts carried the wreaths to the cemetery. Floyd Quinney, commander of Oran C. Hooker Legion post, carried the national flag, Mrs. Jack Smith and Miss Mabel Smith the two Confederate flags, Mrs. Penton Templeton the Texas flag.

Wreaths were placed on 103 flag marked graves by the Boy Scouts. Taps were sounded by Don DeGarmo and Lawrence Siveley after the placing of the wreaths.

Members of the organizations sponsoring the services thank the Boy Scouts for their help.

**Hyman Is Flooded  
By One Of Heaviest  
Rains Known There**

Six Inches Falls In Short  
Time, Flooding The Area  
and Damaging Property

One of the heaviest rains in history of the community fell at Hyman Friday afternoon, citizens of that community report. Estimates varying from five to six inches have been advanced.

Streams in the section were swollen and roaring flood waters rushed across fields to leave damage in their wake. A number of farm terraces were broken and gulches washed across plowed lands.

The rain extended toward Colorado for several miles. At Spade the precipitation is estimated to have totaled four and one half inches. Only a light rain fell at Colorado and other parts of the county.

The heavy downpour extended east across southern part of the county, bringing to the Spade ranch its largest rain in several years. I. L. Ellwood, here Wednesday from the ranch, stated that as much as eight inches of moisture fell over some parts of the large cattle domain.

**REVIVAL CAMPAIGNS TO BE  
OPENED IN SEVERAL PARTS  
OF MITCHELL DURING WEEK**

**Spirit Of Evangelism Holding  
Attention Of People In The  
Country and Town As June  
Is Ushered In**

A number of revival campaigns are either being held or will be opened within the week in Mitchell county as congregational leaders in a number of rural and town churches give more earnestly to the call of evangelism.

In Colorado two special campaigns are to open Sunday morning with men recognized as leaders in the field of evangelistic work doing the preaching. One of the meetings is to be held at the Church of Christ with Minister Jim Harvey of New London doing the preaching. The other campaign is to be held at First Methodist with Bishop Hiram Abiff Boaz of Fort Worth as the leader.

The Rev. Willis J. Ray of Big Spring, district missionary for the Baptist church, plans holding revivals in communities in which there are no organized congregations. Detailed announcement as to these revivals are to be announced later.

Rev. N. J. Pitts of Abilene is to open a revival campaign at Carr on Friday night, June 12. Rev. Mr. Pitts is pastor of Baptist churches at Shep and Nolan, in Taylor and Nolan counties and is a former pastor of the Baptist church at Brouse.

Rev. H. B. Naylor of Big Spring announces opening of a revival at Conaway school house on the evening of June 12. Rev. Mr. Naylor is pastor of the Baptist church at Payne for half time and gives remainder of his services to the Westside Baptist church in Big Spring.

Third of the revival series to open on June 12 is slated for Iatan with Rev. James Alexander of Abilene doing the preaching. Rev. Mr. Alexander entered the ministry two years ago at the age of 43 and is now attending Hardin-Simmons university. These services are to be held in the school building.

The three mission revivals in Colorado, being conducted under sponsorship of First Baptist church, are now well along in their second week. Wednesday morning a total of 61 professions on faith had resulted from the services. Ministers leading in the services are Rev. Dick O'Brien of Colorado, Revs. Willis J. Ray and H. B. Naylor of Big Spring, Rev. A. A. Watson of Coahoma, and Revs. O. D. Welch and Reginald Caraway of Plainview.

**WOOTEN JEFFRESS SENDS  
MEMORIAL DAY DONATION**

An unexpected gift to Memorial Day services in Colorado Sunday was a \$5 check from Wooten W. Jeffress of Dallas, former Coloradoan, who made his gift through Mrs. J. G. Merritt.

"I learned of the services from this week's Colorado Record, read last night," Jeffress wrote, "and this is the only way I have of participating in this commemoration of those who have passed on. Among them are some of my own kin. . . There is something grand and noble about people who take the time and trouble to sponsor and do these things and I am proud that it was my privilege and honor to have been born and reared among such folks."

**MISSION SUNDAY RITUAL  
OBSERVED BY CATHOLICS**

**Attractive Service Station Bldg. To Be Erected By Col-Tex**

Brick and Glass Structure To Stand At East Second And Hickory Streets

An attractive and ultra modern service station is being erected by Col-Tex at corner of East Second and Hickory streets. Contract for erection of the building was let here Tuesday afternoon to O. V. King of Colorado. It is to be completed and furnished in time for formal opening on July 4.

The building is to be 27 by 27 feet in size and of brick and glass construction. The south and west sides of the building are to be faced with cararra glass, new finishing material that resembles crystal white tile. Other outside walls are to be painted white.

The station is to contain four electric gasoline pumps, washing and greasing rack and offer every modern convenience to the motoring public. Jake Richardson, Col-Tex wholesale dealer, stated Wednesday morning. A stock of tires and accessories will be carried. Richardson stated that identity of the station manager would be announced later.

**Tyler Oil Attorney Advocates Old Age Pension Payments**

F. W. Fischer Is Candidate For Governor On Revised Tax Levy Schedule

TYLER.—F. W. Fischer of Tyler who is running for governor of Texas on the platform of paying old age pensions in full, is spreading his philosophy of taxing natural resources from one end of the state to the other.

"A new source of revenue means a new deal for Texas," he says. He thinks prosperity can be returned through taking the tax off of land and putting it on oil, gas, sulphur, etc. This new source of revenue would provide means of helping schools, highways, the agricultural interests and the Texas consumers of gasoline who are now having to pay a tax of 4 cents a gallon.

Fischer, an oil attorney who gained fame as a constitutional lawyer in the legal squabbles over the East Texas oil field, dealt the first death blow to NIRA when the United States Supreme Court upheld his contention against Section 9 (c) the oil provision of the NIRA.

Fischer was born in West Virginia, spent his boyhood riding bronchos in southwestern Oklahoma, and later studied law on the farm. He is a Mason, a Methodist and a member of the American Legion.

TAXES, OLD AGE PENSION AND THE TOWNSEND PLAN

In this great day of science and invention and revelation of the wonders and mysteries of the universe, we should be careful about what we may not be accomplished. For several thousand years after human beings inhabited the earth the flying machine had to be demonstrated before a skeptical world would believe the air could be navigated.

Many other wonderful things not dreamed of a few generations ago have already come to pass. We should not marvel at what may yet be accomplished that may now seem to be impossible.

Everybody has gone hog wild on the subject of taxes. Congress, the Senate, all the legislatures and all the candidates are working talking taxes to pay old-age pension and run the government. The easiest way out as we have said before is a sales tax, and as one of the planks in the Townsend plan is a 2 per cent sales tax we have about decided to become a Townsendite.

The greatest need of our country is steady employment for all able-bodied persons between 20 and 60 years of age. An adequate volume of circulation will have to be idle. Dr. Townsend's is only way steady employment can be accomplished. The Townsend plan is the best method ever proposed to keep our circulating medium circulating. In this great machine age it is not necessary that all should work steady to produce all the wealth that is needed for all the people.

It is inevitable that a great deal of the time many millions of our people will have to be idle. Dr. Townsend believes it should be those above 60 years of age, that the younger and more able-bodied with dependents should have an opportunity for employment. He believes that a transaction tax of 2 per cent on all financial business transactions of our Nation in a normal year like 1929, amounting to more than \$1,200,000,000 (trillion) would create a fund of two billion dollars each month to retire 10,000,000 persons above 60 years of age at \$200 per month, and put 10,000,000 younger unemployed persons to work at an average of \$150 per month. It being estimated that each \$200 commodities would include \$150 for labor.

This re-employment of 10,000,000 idle persons will take them off the relief roll and pay three fourths of the expense of the operation of the

Townsend plan. The 10,000,000 aged citizens will have a purchasing power of twenty-four billion dollars each year. The 10,000,000 re-employed will have a purchasing power of eighteen billion dollars. Business will so increase the 40,000,000 regular workers will have a purchasing power of seventy-two billion dollars each year. A total purchasing power or annual national income of one hundred fourteen billion dollars after the Townsend plan is in full and complete operation.

Let it be remembered that as the transaction tax is collected it immediately goes back into the channels of trade as all the money has to be spent within a month after being received. You cannot bankrupt an economic system with a revolving fund, especially when all able-bodied persons are working and producing the commodities purchased.

With nearly twelve billion dollars gold and silver on hand, and the legal right to issue more than twenty-five billion dollars full legal tender Government currency, backed by the greatest resources of any nation on earth it can finance the plan. These 10,000,000 aged citizens have created a large part of our three hundred sixty-two billion dollars national wealth. They have supported the Government, some forty, some fifty, and some for sixty years.

If the Government will now support them for a few short years, they will take 10,000,000 of the younger off the relief roll and put them to work.

I know of no better way to answer the fine letter of U. R. Honeyman, in The News May 12, than to call attention to the above and to say that it is impossible to wreck a financial structure by collecting a 2 per cent transaction tax as proposed by the Townsend plan and put it back immediately into circulation. Our Nation has more money, more resources, and more skilled producers of wealth than any other nation on earth. All that is needed to end this terrible depression is an opportunity for 50,000,000 of our able-bodied citizens to produce the wealth that would be afforded by the operation of this wonderful Townsend plan.

If the turnover for each dollar for the year 1929 was 132 times, as has been estimated and that should be the average number for the years to come, and a turnover tax of 2 per cent were to be collected, as provided for in the Townsend plan, what would become of this vast sum of money. Of course, a considerable part of it would be required to pay the pensioners the first year. But that would go back to the American people during the year, and the same amount, the same identical money if it could be gotten together, would pay for the next year and each succeeding year, to the same number of pensioners, since they are not allowed to keep any of it.

IN THE GARDEN

This writer spends quite a lot of his time in the garden among the vegetables and flowers. Well I am about through with gardening. The best I get out of it is a lot of free advice from the neighbors.

When I lay a manly hand to a spading fork and begin turning up grubs and beer bottle necks in my back yard, I like to be left alone. It's nobodys business what I think I am doing, and loafers who come along to tell me it's the wrong time of the moon to plant make themselves despicable.

No moon can regiment my agricultural efforts. There isn't anything to that hokey about it anyway. I've made just as big failure in the white of the moon as in the black of it. I've even failed when the blame thing was in neutral. Others can wait on the moon the morning star or orders from Washington but when I get ready to flood the market with vegetables I shove down the starter and go, red lights or green lights.

I was fool enough to wait for the signs to get right once and the fish got to biting while I was waiting and that year I didn't get my garden planted at all.

Beyond the wall of the garden  
My neighbor strode alone,  
Angry with me, not knowing  
I longed to atone.

I crept from out of the shadows,  
I lifted the latch of his gate;  
We talked till the round moon told us  
The hour was late.

Today I walked in the garden—  
How good was its cool, deep shade!  
Though God still walked in my garden,  
I was not afraid.

So, wet or dry, hot or cold,  
The world goes on, laughing, crying,  
loving, hating, painting and powdering.  
If a pauper dies we never know it,  
if the President dies the world never  
misses a lick. We can't stop it, it is  
too big. It has taken many thousands  
of years to get it up to this speed and  
if we ever get it stopped we will be  
so far from here 1935 will sound  
more ancient than "In the beginning"  
does to us now.—Joe Gandy in the  
Kilgore Herald.

No doubt you have reached the age of reasoning, Mr. Gandy, and have observed that nothing makes much difference with anything. Man is a hero to himself and he cuts big licks. But in his confidential moments, when he holds communion with himself, he confesses in unspoken words that all his works are trivial in comparison with the ways of the natural world. The recording angel makes little note of any man, although his immediate biographers may try to make him immortal, if he was wonderful in their estimation. One King about equals another King so when one goes and the other comes the world feels no difference. A dictator rises, dictates in lordly fashion and makes himself and his crowd believe he is an epoch in the trend of civilization, but he dies and somebody else starts dictating for better or for worse, and nobody could sense the change with eyes closed.

The field daisy blooms, fades, dies and is gathered into the soil to make humus for the next crop of daisies. It lived, it died and the sun continued to shine, the rain to fall or the drought to dry out without reference to the daisy blooming or the daisy dead. Man has sought to amplify himself since his first ancestor walked on his hind feet, but all he has accomplished is the digging of some tunnels, the building of dams, the laying of some railroads, the clearing of some fields.

After attending the three revival meetings this last week in Colorado we pen these thoughts:

One who accepts the Garden of Eden story of man and the Creation is not disposed to accept the hypothesis that man is still to be made perfect, for that would necessarily

mean that he must accept also the theory of Evolution. This of course he cannot do, for Evolution rejects the idea that man came from the hand of his Creator like Minerva from the brow of Jove—perfect and full-panoplied.

If man accepts the story of Creation as given in the Bible he also accepts the world as it is, as a perfect creation, and all that is in it except man is perfect. Also he finds man perfect at the beginning but that he brought imperfection upon himself by his meanness. He has not yet reached perfection as he well knows, and therefore his meanness continues. Just whether his meanness causes his imperfection, or his imperfection causes his meanness, is something else for him to consider.

This would imply that if he will "quit his meanness," as the late Sam Jones used to phrase it, he will to the extent that he does this become perfect. This should be another reason for being good, and if taken at its face value would mean that man made himself imperfect, which the Bible says he did, and that it is within his power to reperfect himself, if we may coin a word.

But the Book that tells of man's perfection at the beginning also tells him that he can't do anything of the kind, for if he could have done this it would have been unnecessary for the One Perfect Man to come and tell him how He had made it possible for him to regain his lost estate—purity and perfection.

Henry Ford says business will be just the same regardless of who is elected president.

Provisions Under Which Soil Conserve Law Be Operated Detailed By Baskin

Ben J. Baskin, county farm agent, has the following suggestions to offer farmers who plan cooperating with

the government in soil conservation program: "If a producer wishes to plow under rye, oats, barley, Italian rye grass, wheat, or a mixture of any of these, and apply for a grant on such acreage for such Soil Building Practice," he should—1. Get a receipt from the grain dealer from whom he purchased such seed showing thereon (a) date of purchase of such seed, (b) amount of such seed purchased and (c) signed by grain dealer or merchant making sale;

2. Stake off with permanent stakes the area so "turned under" so it may be readily identified and measured (it is recommended that the producer have his local committeeman inspect this field immediately);

3. Have two witnesses sign a statement, or certificate, (signed by the producer) in which it is stated (a) that such crop was devoted to a Soil Building Practice as a green-manure crop, and (c) the date, or dates, on which the crop was plowed under as a Soil Building Crop.

The producer will keep in his possession 1. The Sales Certificate, and 2. The certificate showing the date of "plowing under" the green manure crop until his farm is checked for compliance (measuring land) and at that time he will turn over such evidence to the Compliance Supervisor. If it is suggested that the witnesses (to the certificate showing date of "plowing under" the green manure crop) be no kin to the producer.

**Poetry Anthology Compiled By Mrs. Sam Majors Delivered, Receives Wide Praise**

Greeted with praise from every quarter, the poetry anthology compiled for the sixth district, Texas Federation of Women's clubs by Mrs. Edna Coe (Sam L.) Majors of Colorado, district poetry chairman, was delivered last week and this, having come off the press May 27.

The anthology, which is the first of its kind ever compiled by any district women's organization in the state, is called "Sheaves We Have Bound," that being the title of the opening poem written by Mrs. Elizabeth Grubbs McCleary of Colorado, poet laureate of the sixth district.

The book is copyrighted and dedicated to the poets of the sixth district, with this foreword written by Mrs. Majors:

"The purpose of this anthology is to stimulate the writing and appreciation of poetry in West Texas. . . . Through the publication of this book many fine poems are being preserved for Texas which otherwise would have been lost, due to the natural modesty of these writers and the lack of avenues for publication. Sixth district's offering to the Texas Centennial Book Shelf."

**Nearly One Million In Bonus Bonds To Be Paid Veterans Of 4-County Section**

The current spending and money in circulation in Nolan, Fisher, Scurry and Mitchell counties is expected to increase about \$876,699 during the next few months as a result of the federal government issuing bonus bonds to the veterans of the World War.

The number of bonus holders in the four counties mentioned, and handled through the Sweetwater office of the Veterans' Administration, is more than 600 and amounts to the above figure.

Amount of cash due the veterans in the four counties is as follows:

Nolan County, \$286,555.30; Mitchell County, \$209,396.33; Scurry County, \$180,114.27; and Fisher County, \$200,434.02; total \$876,699.92. It will require 17,533 of the \$50-baby bonds, plus \$49.92 cash, to take care of this amount.

This entire amount will not be paid out beginning June 15, for many applications in the area have not been certified to the Treasury Department and some veterans have not applied for their bonds, though it is estimated that a very small per cent in this area have not applied.

The Dallas Federal Reserve Bank is to be fiscal agent for the Treasury Department for this district, and all bonds in this area are to be paid there. The local postoffice is to be the certifying agent and not the paying office, according to J. Y. Fraser, postmaster.

The bonds are to be dispatched by registered mail on June 15 from Dallas to the certified applicants in this area and the letters are to be marked "Deliver to Addressee Only."

That means, said Mr. Fraser, that no matter if the letter may be addressed in care of a person or institution, it will not be delivered to anyone except the addressee.

The National Veterans Administration has authorized the local veterans office to provide an identification committee to assist local postal employees in delivering the bonds to the addressees.

Mr. Fraser said that bonds which could not be delivered by his office within 30 days are to be returned to the department.

He points out that all registered letters bearing bonds may not be ready for mailing by the Treasury Department by June 15. Veterans who may not get their bonds as soon as anticipated are requested to cooperate with postal employees by refraining from making repeated inquiries at the office about them, "for they will be delivered as soon as they are received here," he said.

A small fortune is to be spent on postage in mailing out these bonds even to the veterans in this area. In the state, it is estimated that postage alone will come to \$42,000, since the letters carrying the bonds and checks for odd sums will each carry 28 cents postage, including 15 cents for registration, 10 cents for delivering only to the addressee, and 3 cents for a return receipt.

In order that no more additional expense than necessary will be incurred in the delivery of these bonds, the postal department has cancelled all vacations for postal employees during the month of June so that extra clerks to handle the expected volume of business will not be necessary.

Besides the necessity of establishing his identity before the letters bearing the bonds are delivered, the veteran must again identify himself when he sends the bond to Dallas to convert it into cash. On the back of each bond will be identification forms for the bonus recipient's use. He must sign his name exactly as it appears on the face of the bond and must write his address on each bond in the space provided.

With his identity established and the bond back at Dallas he must wait before he can get his hands on anything representing real money.

The Dallas office will take his returned bonds and have a check prepared to cover the amount due the ex-soldier. This check will be mailed in a window pane envelope. It probably will be several days before the check reaches the recipient.

It will not be until the veteran takes this draft on the Treasury Department to the bank, representing the value of his bonds, that he will receive cold cash.

Banks will cash these government checks like any other check.

At least one woman in the area served by the Sweetwater veterans office is entitled to receive bonds. She is Mrs. George McIlvaine, Sweetwater.

Few veterans are due amounts that can be exactly cared for by the \$50 bonds, but they will receive as many as can be taken up by the amount, with the difference to be paid in cash. For instance if a veteran's certificate calls for \$585, he is to receive 11 \$50 bonds and \$35 in cash, paid by check.

Those not desiring cash, may hold their bonds as an investment until 1945 at 3 per cent interest. Although the bonds earn this simple interest, no interest is payable on any bond redeemed prior to June 15, 1937.

Further instruction to veterans on obtaining and redeeming the bonds is to be given in a radio address by Postmaster General Farley June 15.

**INSURE SUCCESS IN ALL CAKE BAKING HEREAFTER**

Knowing that baking powder-leavens cake it is natural to assume that adding an extra half teaspoon to the amount specified in a recipe will give a cake greater lightness. However, that is not true, and the best plan to follow is to use the amount recommended on your baking powder can.

Because of the increased efficiency of K. C. and some other baking powders in use today, representing about 80% of the baking powder consumed, they should be used properly to insure successful bakings.

The following rules will be helpful in bringing about desired results:

First, always use the amount specified on your baking powder can. This proportion has been worked out as best for that particular type. With K. C. on level teaspoonful to a cup of sifted flour is sufficient for most recipes.

Second, measure carefully—remember that an excess amount of any baking powder does not produce best results. A level teaspoonful means that you must level off with a knife.

K. C. Baking Powder, the brand used in the cooking school, is one of the most economical and efficient products entering the kitchen. Properly used it will produce for you, the finest of baked goods. You will be convinced of this by giving it a fair trial and observing results obtained.

You can get additional helpful information and a number of practical, tested recipes by sending for the K. C. Cook's Book. A copy will be mailed, postage paid, if you will send your request together with the slip taken from a can of K. C. Baking Powder, to Jaques Manufacturing Company, Chicago, Ill.

*A message from a last year's bride*

Texas Electric Service Company  
 City  
 Gentlemen:

Attached is a copy of the advertisement you published last year, suggesting Electrical Gifts for the June Bride.

I am one of last year's brides who profited from this hint, and after a year of housekeeping I'd like to repeat your suggestion for the benefit of this year's June brides. Our electrical appliances, given us by thoughtful friends and relatives, have made my housework easier and our home more comfortable.

And what amazes me is how little it costs to use electric appliances every day of the year. I'll agree with you when you say, "Electricity is Your Biggest Bargain."

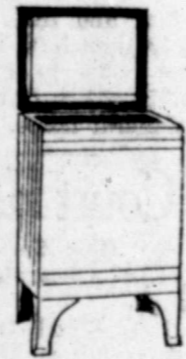

Sincerely,  
 A June Bride of 1935

P. S. We observe our first anniversary next week and I hope our friends remember that Electrical Gifts always are appreciated.

**Production To Be Over 13,000,000 Bales, Is Estimate**

**Cotton Crop Two Weeks Late, With Pests In Attack**

**Planted Acreage In Cotton To Reach 35,000,000, In Opinion of Economists**

Government economists who have been making a study of the new soil conservation program and its effect as revised to the end of March indicated, it is said, a 13,200,000 bale to 13,900,000 bale cotton crop next season.

In arriving at an estimate of this size crop, it is said, the report assumes that from 10,500,000 to 11,000,000 acres will be diverted from base cotton acreage of 44,500,000.

The report predicts that acreage diversion by producers who participate in the program will be offset in part by increases on the part of those who do not, giving a planted acreage of 35,000,000 acreage. With an average yield of 180 pounds, which is equivalent to yield obtained in the 1926-35 period, a production of 13,200,000 bales would follow. Should the yield average 190 pounds as it did in the 1933-35 period, a production of about 13,900,000 bales is indicated.

The Texas cotton averages two weeks late in Central Texas, but growth and fruiting will be stimulated by heavy general rains as will grass and weeds. The Dallas News summary for the week ended Friday indicates.

Insects are beginning their depredations in the Gulf Coast region, the more active reported being weevils, fleahoppers and lice. Although insects were checked by a spring highly unfavorable to their development, they can be expected to increase speedily since the heavy rains. Late and tender cotton can easily fall a prey to leafworms, which were reported on the coast May 5.

Washing of soils and packing of the surface are general complaints in North, Central, East and South Texas counties, which have had precipitation of from two to ten inches or more in the last few days. Stands are damaged and there is little hope of replanting at this late date for cotton south of Waco. Planting is nearly completed in North, Central and East Texas; 65 per cent planted in west central counties and 40 per cent on the South Plains of Northwest Texas. The latter region has received abundant rain and the outlook has improved decidedly there. Chopping is seriously hampered by wet soils in most of Texas.

Central Oklahoma reports the best cotton progress in several years and the State as a whole reports fair to good progress. Planting is finished in the south and 65 per cent in the west, which now has abundant moisture. Grasshoppers are doing minor damage, but may increase with more rain.

Progress of New Mexico cotton is average to good, with weather warm enough and all counties through planting, but little chopped except in Dona Ana where it is 50 per cent.

**[ QUESTIONS THAT ARE ASKED ABOUT BANKING ]**

*"What do bankers consider a good Bank loan?"*

**MOST** bankers consider a loan good if it possesses the following qualifications:

1. A borrower who has a good business reputation and credit standing.
2. A sound purpose for which the loan is to be used other than a fixed investment in a business, for this type of loan is not a proper field for a commercial bank.
3. A reasonably short term until repayment for commercial loans; adequate security in the case of collateral or real estate loans.
4. Reasonable proof of dependable income for repaying the loan when due, or a definite schedule for repayment.

This bank has many good loans on its books. We are making new ones constantly. In every loan our first consideration is to safeguard the deposits entrusted to our care.

**A Sense of Responsibility**

We are aware that most people have little knowledge of the problems which arise when a loved one passes away. Our obligation is to protect their interests and give impartial advice at this trying time. As in the sale of merchandise, our conscientiousness of this responsibility to those who have placed confidence in us makes our assistance highly valued by those we have served.
