Billie Armstrong, little son of Mr. and Mrs. R. L. Armstrong, was accidentally shot just above the right eye with an air gun in the hands of a playmate about his own age. The specialist who made the picture is of the opinion that the bullet will never cause serious trouble, stating that in the event it is found to be injurious it can be removed at any time. TOO RICH, SAYS BARON

Baron Empain, 33-year-old Belgian heir, one of the richest young men of the old world, says that he would give anything to be poor.

Visiting the French capital not long ago, he declared that he is really only happy when in camp where nobody recognizes him.

The father of this poor little rich man amassed his gigantic fortune as a public works contractor and electrical engineer in Belgium, France and Egypt. The son is continuing his work and 8 o'clock every morning finds him at his office the director of 65 companies and chairman of 25.

Unintentional Suicide

Many people are slowly poisoning themselves just as surely as if they drank iodine every morning for breakfast. They are daily absorbing the toxins, or poisons, created by accumulated waste matter in their constipated digestive systems. Sooner or later disease will conquer their weakened bodies.

If you have headaches, coated tongue, bad breath, no appetite, bilious attacks, you are probably suffering from self poisoning caused by constipation. A relief for this condition is Herbine, the vegetable cathartic which acts in the natural way. Get a bottle today from

GOLDEN WEDDING PARTY

Elaborate preparations are being made to entertain a large company of relatives and a few friends at the golden wedding anniversary party of Mr. and Mrs. J. H. Johnson of North Hollywood, which will be enjoyed this evening at Vickroy park. A bountiful dinner will be served, and the special guests will be presented with appropriate gifts.

Mr. and Mrs. Johnson are the parents of eight children, thirty-nine grandchildren and seven great grandchildren. The descendants of the couple and their families are expected to be present. Moulder Johnson, a Texas farmer, and Joe Johnson an attorney at Fort Worth, Texas, are expected to arrive here for the celebration.

Other children of the couple are Mattie Cockrell and Fred Johnson, of Burbank, Cloey Boulter, Ernest Johnson, Bob Johnson and Grace Wood, who live in this vicinity.

Mr. Johnson, who is 68 years of age, was born in Arkansas. During his active life, Mr. Johnson was engaged in farming. The couple came to California eight years ago from Goldthwaite, Texas, and have lived in North Hollywood the past six years.

The above taken from a Hollywood paper, will be read with interest by the many friends of the Johnson family, formerly of Big Valley.

POOR FISH

There is a story going the rounds about a naturalist, a large bass and some minnows. It seems that the naturalist divided his aquarium by a glass partition, then placed the bass in one half and the minnows in the other.

The bass, spotting a nice dinner for himself, made a rush for the minnows. He hit the glass and bruised his nose. Again and again he tried to get at the savory morsel. The net result was a series of additional bumps.

His efforts became less and less frequent. Eventually they ceased entirely. The bass was thoroughly convinced that he was just not going to eat.

At this point the naturalist removed the glass. The minnows, revelling in their additional freedom, swam all about the tank. The bass, however, made no move. He was sold on the idea that business was bad, and was going to stay bad.

The attitude of many business men today suggests an analogy.—Exchange.

SPECIAL SESSION CALL

The long expected call for a special session of the legislature was issued Wednesday by Governor Sterling, who asked the law makers to reconvene next Tuesday noon, July 14.

The Governor called the session "to enact such legislation as will adequately provide for the conservation of the natural resources of our state and to consider and act on such other subjects of public importance as the executive may from time to time during the session submit by message or otherwise." The Governor had said congressional redistricting would be submitted.

The constitutional limit of a special session is 30 days. The Governor had said he would submit very few subjects. Besides oil conservation and congressional redistricting, he had not mentioned any other general subject which he would open. He said local bills would be limited to those "absolutely necessary."

A REASONABLE CHARGE

The Eagle makes a charge of 5 cents per line for obituaries, resolutions of respect, cards of thanks, notice of entertainment where there is a financial benefit, as well as for all similar articles. The sender of these articles will be expected to see the bill paid. The fact that the Eagle has accumulated quite a number of these accounts makes it necessary to require that payment be arranged before the articles are published.

A LAW ABIDING CITIZEN

(A paper read before the Methodist Sundayschool last Sunday morning.)

You have asked me to take five minutes of your time to discuss one of the vital questions of the age. The question is "A Law Abiding Citizen." The definition of "a law abiding citizen" is one who has the assurance that the law of God and the law of man can be kept and must be kept and who is putting forth his utmost endeavors to secure these results.

Paul to the Romans declared: "There is no power but of God. The powers that be are ordained of God."

There is a different school of thought whose contention is that the law cannot be kept, is not being kept and will never be kept. They are putting forth their utmost endeavors to make their predictions come true. The greatest battle of the age is being planned with the greatest precision by tremendous forces having almost unlimited power.

Old Glory, that floats over the greatest nation of modern times, if her laws cannot be enforced, must go down in defeat and trail in the dust. Let us contemplate what it has cost. Washington with his heroic band made the supreme sacrifice. The Fourth of July with its celebrations keeps these scenes alive. Great sacrifices in time of peace and time of war have been made. If Old Glory is to continue to float over the free and the brave, her laws must be enforced. But no one can contemplate such a catastrophe as Old Glory going down in defeat when we recognize that no question is settled until it is settled right.

Mighty forces with skilled opposition may bring temporary defeat to the cause of truth. Truth is mighty though crushed for a time, yet it will rise with triumphant power and prevail. Ultimately righteousness shall see her cause triumph and will rejoice.

GLASS HOUSE IN PARIS

One can throw stones at the first glass house built in Paris, France without disturbing the tenants.

Peeping Tom could station himself at the windows when they are lit up at nightfall with opera glasses and see nothing but translucent glass.

Pierre Chateau, the architect, says glass will last longer than brick or cement, and thus finds the cost relatively cheap.

The unusual structure has three floors and looks like an igloo, striking an Arctic note in the Latin Quarter, which already boasts a Mohammedan mosque, chalets and tumble-down shacks. But it is easier to heat than an igloo, says Chateau.

GRANDMA GRADUATES

Mrs. George R. Waite, 45, left a Buffalo, N. Y. high school 28 years ago while a sophomore, and since then has had a desire to complete her course. She has now realized her ambitions, graduating from Central High school at Flint, Mich.

As the mother of five children and later as a grandmother, Mrs. Waite did not find time to attend school again until two years ago. The first day she reported for classes she caused a mild sensation.

Mrs. Waite, who is the wife of a motor company executive, took an active interest in all school affairs, joining several clubs and taking art and literary courses in addition to the required courses.

when land was cheap and the fertility of the soil was undiminished; when the population was small and the necessities of life were few; when taxes were low and farm prices were uniform; when crops were not continually endangered by disease and insect pests, most anyone could "make a living" on the farm. A strong back and a good set of muscles were the chief stock-in-trade of the successful farmer.

IT IS NOT SO TODAY

In this day and age it requires foresight, keen judgment and the application of modern methods to make farming show a profit.

If you will call at our exhibit at the Fair, we will present you with a little booklet which is filled with helpful suggestions for making money on the farm. May it help you toward the success which you justly deserve.

THE GOLDTHWAITE EAGLE

The cost of operating Southwestern Methodist University in Dallas is \$958,000 a year.

A machine gun was used to shoot off a valve from a blazing oil well near Kilgore this week.

An aerial survey has been ordered preparatory to building a new 120-foot highway between Austin and San Antonio.

Rangers stood guard at the polls in Loving county last week when the last unorganized county in Texas elected its first officers.

Sheriff Martin Hays of Gregg county may be a millionaire now. It all depends on how much he gets for the oil from a 30,000 barrel gusher on his land.

Whooping cough saved the lives of a San Antonio family. The house caught fire and the smoke made Stanley Long start coughing. This roused the family in time to escape.

A Dallas man decided to commit suicide, so he took a drink of whiskey to bolster his courage. Another and another followed. He woke up in jail charged with drunkenness.

After Houston spent over a million dollars for a farmer's market, farmers say it is no good. With only one small entrance, traffic jams keep customers away, they say.

An explosion caused by older children attempting to start a fire in the stove with gasoline cost the life of the two-year-old daughter of Mr. and Mrs. Gene Wygal near Farmersville.

A local bill passed by the legislature which gave the sheriff of Coleman county an ex-officio salary of \$3,000 has been declared unconstitutional by the attorney general's office.

Superintendent of Education, S. M. N. Marrs is demanding a \$17.50 per capita school fund again for next year. It is hoped that the cigarette tax will make up the present deficit in the fund.

A 19-month old Fort Worth boy was saved from drowning by artificial respiration Wednesday. His grandmother found him floating on the surface of a small fish pond, apparently lifeless.

Overproduction is affecting the lawyers. At the State Bar Association meeting in Galveston resolutions favoring more stringent requirements for license to practice law in Texas were unanimously adopted.

Alvin Mabray, young negro at Cnoro, admitted stealing chickens, but plead extreme hunger as an excuse. So the jury arranged free board for him for two years in Huntsville. He won't get chicken, however.

A high powered oil stock salesman was arrested in Houston recently, after deputy sheriffs and a postoffice inspector had tapped his telephone wire. They heard him talk to Canada, New York, Florida and other states and offer profits of 30 to 1.

E. W. Rahn of San Antonio just escaped death in a double accident. He slipped and fell in his bathroom, and his head struck the gas jet, turning it on. The blow left him unconscious and his wife battered down the door just in time to save him from death from inhaling the gas.

Scores Find Quick Relief From Summer Listlessness!

Amazing Benefits Reported By Users of Famed Herbal Remedy On Sale at HUDSON BROS. DRUG STORE

Each summer thousands of people become languid, listless and out of sorts with the world. Something in the hot weather seems to sap their energy and strength and leave them tired and worn out. Whatever the cause, Herb Extract (formerly called Herb Juice) has helped countless thousands of people to regain full strength and vitality.

Natural Herb Extracts Bring Instant Relief

Herb Extract strikes right at the source of nagging ailments by ridding the body of toxic poisons created by improper elimination and inactive liver and bladder. Herb Extract promotes easy, natural elimination and cleanses the entire system without the use of pills, violent purgatives or other medicines. By aiding digestion it helps to build more effectively than so-called "blood purifiers."

Mr. C. R. Gibson of Fort Worth, Texas, in writing of the way Herb Extract helped him, states:

For six years I had suffered from constipation, sour stomach and gas pains. I was very nervous and could hardly sleep at night. Then I tried Herb Extract, and although I have taken only one bottle my condition is wonderfully improved. It has relieved my constipation. My food agrees with me. I feel much better and sleep and rest better. I can and always will recommend your wonderful medicine to my friends."

Why continue to suffer? To delay taking Herb Extract is to invite the danger of serious consequences. Get a bottle today!

TEXAS FARM INCOME

The monthly Texas farm income thermometer of the agricultural page of the News registered a total sale of Texas farm products at the half year mark in excess of \$112,000,000.

On the whole, of the money crops of the state yet to be placed on the market. The showing is unusually good for a year when the anticipated final income will fall short of record totals, due to lowered prices. While it is not an evidence of farm prosperity, it is a decided proof of farm activity.

The Texas farmer who is marketing fruit and truck crops, dairy products, cattle, hogs, eggs, poultry and small grain crops and hay, etc., will not be in the market for a grand piano, but he is a good sales prospect for the necessities and perhaps a few luxuries. He is still making his living.

Too much stress can not be laid on the fact that Texas is an all-the-year-round producing state. That is of importance to business seeking investment, where there are customers, and to the farmer himself who has the vision to perceive what can be done toward making a steady living on the farm.

There is an all-the-year market if the farmer has the products to enter to it. \$112,475,000 in January-June sales proves that rather conclusively.—Dallas News.

Adults Contract Children's Diseases

Adults can, and do, contract many children's diseases. And, usually, they suffer from them much more than children do. For instance, many adults contract worms, an ailment usually associated with children. Sometimes they suffer intensely and take expensive medical treatments, without realizing that worms are the cause of their troubles. Yet, the symptoms are the same as in children, loss of appetite and weight, grinding the teeth and restless sleep, itching of the nose and anus, and abdominal pains. And, the same medicine that surely and harmlessly expels round and pin worms from children will do the same for adults—White's Cream Vermifuge, which you can get at HUDSON BROS. DRUGGISTS

OLD TEXAS LETTERS Austin.—Letter File No. 2 of the Treasurer of the Republic of Texas, in which the letters were copied by pen, has been found. The first letter is dated at Columbia, Dec. 13, 1836, and others are from Houston, when it was the capital city.

The book is in a good state of preservation, every letter being legible. The ink has not faded and the paper is in perfect condition. Henry Smith was treasurer of the Republic at that time and signed the letters. There is one from Sam Houston on treasury matters and others from the Attorney General giving advice on financial questions.

CUT EAST TEXAS OIL

An order restricting production of oil in the East Texas fields to not more than 250,000 barrels daily during July, August and September, was issued Friday by the Texas Railroad Commission. The order said it would apply for the full three months "unless sooner modified or changed," but that in no event would the 250,000 barrels allowable be changed before August 1.

It is understood that if this proration order is not obeyed, a special session of the legislature will be called to deal with the situation.

BANKS TO AID STATE IN CIGARETTE TAX

Austin, Texas.—While some banks have refused to handle cigarette tax stamps for dealers to use on stocks on hand when the new law becomes effective, Aug. 22, State Treasurer Charles Lockhart said Friday that fully 85 per cent of the state and national institutions have indicated a willingness to sell the stamps for this period.

The stamps will be in nine denominations, six for the ordinary cigarette and three for the extra heavy smokes, taking a tax of twice that of the others. The first class is taxed 3c for packages of twenty. The smallest stamp will be for 3/4c for packages of five ordinary cigarettes and they are graded to 7 1/2 c for fifty in a package.

PAINS QUIT COMING

"When I was a girl, I suffered periodically with terrible pains in my back and sides. Often I would bend almost double with the intense pain. This would last for hours and I could get no relief.

"I tried almost everything that was recommended to me, but found nothing that would help until I began taking Cardui. My mother thought it would be good for me, so she got a bottle of Cardui and started me taking it. I soon improved. The bad spells quit coming. I was soon in normal health."

CONFEDERATE PENSIONS

Austin, Texas.—The State pension fund has gone on a deficit and can not reach a cash basis until the legislature makes provision to augment its income. State Treasurer Charles Lockhart said the deficit was \$855,000 June 30 and that only a third of the June pensions had been paid. Hereafter all pension warrants will be subject to discount unless the banks cash them at par and hold them until called.

Mr. Lockhart investigated the fund and its income expectancy and found that its requirements are more than \$800,000 annually above its income. Its deficit, therefore, constantly increases.

No additional money can be had without legislation as the pension tax is at its maximum. The pension tax is 7c and that figure has been levied for years.

BROWNWOOD

In a bankrupt sale Friday of the W.M. Brewer jewelry stock, F. S. Abney was the successful bidder, with the stock being sold to him for the price of \$3,210. There were six bidders in the sale and the stock is said to have invoiced for approxi- mately \$15,000.

An arrangement of shasta daisies made more lovely the home of Mrs. E. B. Gilliam, Jr., on Elizabeth Drive Thursday when she entertained with an afternoon courtesy for the members of the Mariposa Club and a number of additional guests. Among the out-of-town guests were Mrs. Foster Brim and Roy Rowntree of Goldthwaite.

Patrolman Henry Hamilton, who was assaulted a week ago in a downtown cafe by a local man, is steadily improving and is resting well in the hospital. He is rapidly regaining his strength and the swelling is gradually leaving his face. For a time it was thought that he would lose the sight of his left eye, but physicians say that they think as soon as the inflammation is gone both eyes will soon heal.

The grand jury which reconvened Monday morning adjourned late Wednesday evening, after having returned 13 other indictments, which made a total of 31 for the time the grand jury was empaneled. Dur- ing the entire session of court this term there was not a case tried that did not end with a verdict in favor of the prosecution. Thirty-four criminal cases were disposed of which included nine dismissals, 13 sus- pended sentences, seven cases transferred to the county court and five sentenced for jail and the penitentiary.

Mrs. J. W. Gore, 904 Fisk Ave., happened to a very myster- ous accident, which has puzzled the officers of the city as to the real cause. Thursday morning about 8:00 a myster- ous explosion took place after she had lighted a pile of trash that had been raked up the day before. She was bending over the pile of trash when the ex- plosion occurred and innumera- ble bits of metal were blown into her body. Officers are of the opinion that a gun shell ex- ploded when the fire was light- ed, and some state that it could have been nitroglycerin in a can.—Record.

W. H. Walton is now at his accustomed place with the Lam- pasas Auto company, after hav- ing been away from his place of business for a few weeks on account of illness.

The many Lampasas friends of Mrs. Emma Cauthen will be glad to know that she is con- valescing nicely, following an ill- ness and operation in a Temple hospital and it is believed that she will shortly be able to re- turn home.

A meeting of the directors of the Lampasas Fair association was held here Monday to de- cide whether or not it would be advisable to hold a fair this year. The directors were of the opinion that it would not be wise to undertake a fair this year, owing to the financial con- dition of the country at the present time, and the fair will not be held.

Bedel O'Hair received a very painful injury while out on the Country Club golf course with Dr. J. E. Willerson. Bedel was close by when Dr. Willerson made a practice stroke and his club struck Mr. O'Hair on the forehead. He was knocked out for a short time and it was nec-

COMANCHE

S. C. Findley is attending the Sovereign Camp of the W.O.W. at Buffalo, N. Y.

What is thought will be the final shipment of wool was made from Comanche Saturday when 28,000 pounds went out over the Cotton Belt to Boston.

N. E. Palmer, former County Clerk and well known citizen of the county, died at his home in Comanche Thursday after- noon, June 25, following sever- al months of illness.

Fifty-six cars of grain includ- ing fifty of oats and six of wheat had been shipped from Comanche at noon Thursday, re- presenting approximately 100,000 bushels.

Approximately 6,000 acres of grain were harvested this year in the vicinity of Piddy and

essary to take stitches to close the wound.

J. L. FISHER DEAD

Mr. Jackson L. Fisher, aged about 80 years, died in the hospital at Lubbock last Saturday. His remains were brought to Mullin on Sunday night's train, and interment was made Monday afternoon in Duren cemetery.

Mr. Fisher was a pioneer citizen of this county. Before the railroad was built to Goldthwaite or over the town was thought of, he lived here and used some of the territory now occupied by Goldthwaite as a farm. When the railroad was built and the town organized one of the main streets was named in his honor. He later moved to the northern portion of the county, in what is now the Prairie community, and lived there many years. He owned a fine farm and ranch in that section and a good many years ago served as county commissioner from the Mullin precinct. After the death of his wife, a few years ago, he sold his ranch and has since visited among his children.

Recently he has made his home with his son at Amhurst and it was there last Friday he slipped and fell, breaking his hip. He was hurried to the hospital at Lubbock, but died after a few hours of suffering.

Lester Lee Moreland has been quite sick this week.

Wanted—About 60 yards of sand and gravel.—J. V. Cockrum Ernest Linkenhoger visited in the family home here last week end.

Residents on Fisher Street are having oil put on the street to keep down the dust.

Miss Laura Virden came home from Denton to spend the 4th with relatives and friends.

Alfred Schweining of Junction visited his mother and other relatives here this week.

Miss Frances Page, who is a student in Denton Teachers' college, was at home for the 4th.

Mr. and Mrs. C. H. Sanderson and daughter, Juanita, spent last week end with relatives in Brownwood.

Adrian Thomas has returned to his home in Brownwood, after a two week's visit in the T. B. Graves home.

Chas. Land, wife and daughter, Frances, from the Rio Grande Valley, are visiting Mr. and Mrs. Jas. Rahl and other relatives in this city.

Wesley Linkenhoger and wife of Sweetwater were week end visitors in the home of his parents, Mr. and Mrs. W. H. Linkenhoger.

Volume Number 1. —JULY 10, 1931.

Published in the interest of the people of Mills county by Barnes and McCullough.

PAUL McCULLOUGH, Editor

The Mills County Fair will begin next week.

PANTS AND THE LAW Judge (sternly): "Well, what is your alibi for speeding fifty miles an hour?"

George "I had just heard, your honor, that the ladies of my wife's church were giving a rummage sale, and I was hurrying home to save my other pair of pants." "Case dismissed."

Inquire about our speed lay shingles to go right on over the old roof.

FAST WORKERS

Head of business college: "In teaching shorthand and typewriting, we are strong for accuracy."

Inquire: "How are you on speed?"

Head of business college: "Well, of last year's

class, six married the employes within months."

Do not let your husband dismiss the idea of the new Built-in-Kitchen Cabinet for your home. Hoover will soon have built-in-kitchen cabinet stalled in his new home.

SAVING LIVES

"Congratulations, boy." "But you just said I flunked out of my school." "Ah, but think of lives you have saved."

Have you noticed the new roof that A. M. W. is putting on the home of J. D. Dym? He is using Edgewood All-Heart, Edgewood Red Shingle. This shingle guaranteed for 40 years.

Yes, we guess it was "million dollar rain" right, but not if your roof leaked. Better see us before we have another down-pour.
