Lawanna Calder, Mullin High Senior, Named Homemaker Of Tomorrow

The Betty Crocker Homemaker of Tomorrow in Mullin High School is Lawanna Calder. She received the highest score in the written examination which tested the homemaking knowledge and attitudes of senior girls in the graduating class. She will be entered in competition to name Texas' candidate for the title of All-American Homemaker of Tomorrow and also be considered for the runner-up award in the state.

The national winner in the competition designed by Trifari and the school received a "Betty Crocker Good and Easy Cook Book".

LAWANNA CALDER
Search conducted among 256,534 young women in the nation will be named April 12 at the American Table banquet in Philadelphia.

General Mills is the sponsor of the program designed to assist schools in building in young women a deeper appreciation and understanding of the American home and to emphasize through a sound scholarship award program the personal qualities and sense of values necessary to successful homemaking. More than \$100,000 in scholarships will be awarded.

Each girl who took the test received a homemaking guide that will assist her in pursuing the career of homemaking. Lawanna, a senior, is the daughter of Mr. and Mrs. E. L. Calder of Mullin. Lawanna is in the upper 3% of her class, president of the Mullin Chapter of Future Homemakers of America, and a member of the Bulldog annual staff.

PHILLIP J. O'CONNELL is the new principal of Goldthwaite Elementary School. He joined the Goldthwaite Faculty in January filling the vacancy created by the resignation of D. W. Newton.

Mr. O'Connell moved here with his family from Toyah, Texas. He is a native of Fort Stockton and graduated from Howard Payne College and did work on his masters degree at Hardin Simmons College.

He was connected with the Brownwood Schools for six years before going to Toyah. The O'Connells have four children. Three daughters, Ruby Ann, 14; Myra Beth, 12 and Brenda Gayle, six. Also one son, Charles Phillips who is three months of age.

Quotas Are Set For Red Cross Drive For Funds

Quotas have been set for the various communities of Mills County and chairmen are being named this week to take charge of the forthcoming Red Cross fund drive which will be conducted during the month of March, it was announced Wednesday by Glynn Collier, fund drive chairman for 1956.

Letters have been sent out regarding the appointments and about one half of those asked to serve as community chairmen have accepted the job and notified the chairman of their willingness to work on the drive. Acceptances are coming in daily through the mail and the chairman is hopeful that all acceptances will be in before the end of this week. Those who have not mailed their acceptance card are urged to do so now so that plans can be completed and final arrangements can be made for the kick-off on March 1.

Quota for Mills County this year has been set at \$2,050.00. In setting the national budget for 1956-57, \$5,232,400.00 was earmarked for disaster relief activities. Announcement has since been made that this department will actually need about 28 million dollars due to the heavy losses from floods on both the east and west coast. This will require even more effort on the part of the entire organization to help meet the much needed budget for the year.

Miss Carole Hill, student in the University of Texas was a recent guest of her mother, Mrs. Edna Hill and Larry. Red Jones of Hot Springs, Arkansas spent a few days here this week with his brothers.

Priddy Community Achievement Day Will Be Held This Week Saturday

AUSTIN, Texas.—US Trust and Guaranty creditors can expect first payments about mid-July, Liquidator, J. D. Wheeler told the Senate investigating committee.

Liquidation process was set in motion when a Temple firm was appointed to collect notes owed US Automotive Service, a US Trust affiliate. Insurance Com. Chmn. J. Byron Saunders would not say that Texas is "over the hill" yet with insurance problems. But he did say that companies which pass the solvency test and get licenses after May 31 "will be entitled to public confidence."

If sound management had been instituted, US trust might have been saved as late as fall according to a Dallas CPA who made a partial audit. Felix Einsch said he found inadequately trained clerks handling million-dollar operations. He quit his work after refusing to prepare for A. B. Shoemaker, president, a "certified financial statement inconsistent with my evaluation of facts."

Continuing its "clean-up" drive the Insurance Commission:

1. Granted leaves of absence to four examiners named in a suit alleging conspiracy to commit fraud, but indicated they would not be re-employed.
2. Ordered the following companies to "show cause" why their permits should not be revoked: Trans-Mutual Life Insurance Co. of Dallas; American Home Mutual Life Insurance Co. of Dallas; Texas Union County Mutual Insurance Company of San Antonio; and Merchants National Life Insurance Co. of Denton.
3. Announced plans to cut rates for insuring crops against hail damage.
4. Reminded companies that all advertising of insurance securities must be approved by the commission before publication.

HART BACK WITH GOVERNOR

Return of Weldon Hart to his old job as Gov. Allan Shivers' first assistant is causing much speculation. Hart has been serving as chairman of the Texas Employment Commission since 1953. Before that he was the governor's top political and public relations strategist. His return to the Capitol is variously interpreted as (1) girding for the battle to control the Democratic state convention, (2) priming for new political campaigns, or (3) an aid in clearing up criticism resulting from insurance developments.

DEMOCRATIC LEADERS EXCHANGE FIRE

Early skirmishes by rival leaders in the Texas Democratic party indicate a real brawl for state convention control in May. Executive Committee Chairman George Sandlin charged the Liberals are planning to bolt the convention if they don't win out. He proposed a "winner-take-all" agreement to avoid sending competing delegations to Chicago as in 1952.

GHS Boys Defeat Burnet: Boys And Girls Win Over Llano Friday Night

By ZORA LEE ROBERTS
The Goldthwaite Eaglettes played the Brownwood Sweethearts here on February 7. This was a very close game with Goldthwaite being the winner by a score of 48-45. High point girl for the Sweethearts was Betty Ethridge with 20 points and Shirley Rowlett with high point girl for Goldthwaite with 27 points.

Last Friday night the Llano boys and girls journeyed to Goldthwaite for conference games. The Goldthwaite Eaglettes won their game by a score of 58-34. Linda Plant was high point girl for Llano with 15 points and Shirley Rowlett was again high point girl for Goldthwaite by chalking up 39 points during this game. The Goldthwaite boys roared to a 66-47 victory over the Llano boys. Douglas Ricketson scored 19 points for Llano and Jerry Kight was high boy with 23 points for the home team.

A week ago tonight the Goldthwaite boys scored a close victory over the Burnet team by a score of 47-45. This was a touch and go game from start to finish with Goldthwaite scoring in the final seconds to win the game which was tied up to the very last minute of play. Carl Smith was high point boy for Goldthwaite and Wheeler was high point boy for the Burnet team.

Tomorrow night the Goldthwaite teams will play hosts to the Santa Anna teams on the local courts. Game time will be 7:00 o'clock for the girls and the boys taking the floor at 8:15 p. m.

BOYS AND GIRLS LOSE TO MASON

Tuesday night the boys and girls traveled to Mason for their regular conference games and both games were lost to Mason. The girls lost by one point with a score of 55-54. In the boys' game the score came out 65 to 45 in favor of Mason. If Goldthwaite Eaglettes win over Santa Anna Friday night and Mason loses to Llano on the same evening then Goldthwaite and Mason girls will be tied for first place in the district and the tie will have to be played off or matched for.

Lone Star Gas Installations Show Gain Here

Growth of Lone Star Gas Company in service connections, in the Goldthwaite office, is reflected in a report from L. J. Ward, local manager of the firm. The report shows the company had 233 service connections in 1949 when operations were started here and service connections in 1955 were 662. This shows an increase of 329. The largest increase was made during 1950, the second year, when 234 services were installed. Services installed in the years following 1950 were as follows: 1951, 92; 1952, 37; 1953, 26; 1954, 23; and 1955, 17. During 1954 and 1955 the company installed 400 feet of new main line to reach new customers.

Jimmy Wigley Shows Grand Champion Hereford In San Antonio Club Show

Jimmy Wigley, son of Mr. and Mrs. Fisher Wigley, a member of Mills County 4-H Club showed his Hereford steer "Buch" to the grand championship of the Club show at San Antonio Livestock Exposition last Saturday. The 1,000 lb. steer from the Lee Campbell herd of Dublin, Texas, was the top place winner in the heavy weight Hereford class and was also named reserve champion Hereford steer of the show. Other winners from Mills County in the Hereford classes are as follows: Leo Reynolds, 3rd heavy weight class. Charles Cornelius 1st place, Wayne Poe 3rd and 5th, in the medium weight class. Alvin Glen Tiemann 6th and 10th, and Donald Padgett 9th in the light weight class. The local club also won first place for their group of five steers in competition against about twenty counties. Local club members were accompanied to San Antonio by County Agent George Reese under whose direction their steers were fed.

Water Consumption to Increase Expect U. S. to Use 350 Billion Gallons in the Next Two Decades Gallons Daily 20 Years Hence

Special to Central Press Association

WASHINGTON—Americans are using water in such increasing quantities that by 1975 they are expected to need 350 billion gallons a day, compared to 185 billion gallons they used daily in 1950. Practical effects of this unprecedented use of water on an average city of 10,000 is summed up in the Department of Agriculture's new yearbook, entitled Water, in these words:

Secretary Benson

"The city of 10,000 in 1950 will be a city of 13,300 in 1975; the average daily consumption of water in that city in 1950 was 1,400,000 gallons; in 1975 it will be 2,067,000 gallons.

"In other words, any city in the United States can expect by 1975 a growth in population and an increase in the rate of water use of such size that the city will have to provide 142 per cent of today's supply for tomorrow's city. That is an average day."

"Assuming that the peak demand in 1975 will correspond to the 1953 record, we can compute that the average city will need to provide facilities to meet a 1975 peak day reaching 235 per cent of its 1952 average day."

Ancient civilization developed in areas where good water was available, and some of them disappeared and disappeared because they allowed silt and pollution to contaminate their water supply.

Water was a first consideration among early settlers in this country. Most homes were built near a spring or stream. Our largest cities developed along navigable water, for this vital substance has long provided the easiest mode of transportation.

Water has played a vital role in the religions, literature and industrial development of mankind. And today's civilization uses more water in industry and in the home than ever before.

Pulp mills that make newspaper for your newspaper and other paper products use enormous quantities of water. Steel mills normally have a 65,000-gallon intake of water for every ton of steel. Industrial use of water that was 80 billion gallons a day in 1950 in this country is expected to increase to 215 billion daily by 1975.

American homes are using more and more water for each person as home laundry machines, air-conditioning apparatus, automatic dishwashers, garbage grinders, lawn sprinklers, and two-bathroom homes equipped with showers grow in popularity.

"I HAVE LITTLE NEED to remind you that water has become one of our major national concerns," Secretary of Agriculture Ezra Taft Benson asserted in a foreword to Water. "We have to stop wasting water. We have to use it more efficiently in industry, in towns, in general farming, and in irrigation, which is destined to be adopted in all parts of the nation."

"We need an increased awareness among all Americans of the oneness of our physical resources. Just as many lives make up our one national life, so our agriculture has many parts of a single whole. Water, land and people are inseparable components of one thing, our welfare."

Despite alarming facts on constantly increasing demands for water in every part of the nation, optimism prevails in the USDA's Water. Intensive research is being devoted to every facet of the sources, uses, distribution and conservation of water.

Many industries are re-using water efficiently. Floods, droughts and other water problems have awakened more people to an awareness of the mounting water problem.

"Planning for the maximum development of our water resources for the longtime benefit of all of our people, when properly conceived, can bind together individual and the community, farmer and urbanite, as few other conservation activities can do," said one writer in the 751-page yearbook.

"Conservation has received perhaps its greatest impetus since our dealings with soil, forests, wildlife, recreation, community betterment and industrial development have come to be viewed in terms of their interrelationships with water."

Wayne C. Cornelius has purchased the building and lot known as the Dick Burgess Blacksmith Shop located on the east side of the square. Mr. Cornelius plans to enlarge the building and open a garage and used car lot.

Saturday night Mrs. L. B. Porter heard someone knock and went to the door and was greeted by her son, L. B. Porter Jr., who was still in Korea a week before. He flew from the Philippines to San Antonio, and on to Goldthwaite before his family knew he had landed. He had been stationed in Korea for the last year. He flew from Korea to California in thirty-two hours. Among his many priceless souvenirs he brought his mother a beautiful white silk table cloth of much value from Shanghai, China.

Mmes. L. E. Miller, R. M. Patterson and J. A. Hester entertained the Self Culture with a take off on the famous Breakfast in Hollywood, on Saturday morning, February 9, in the private dining room at the Goldthwaite Cafe.

Dr. W. R. White delivered the keynote address at the official ground breaking ceremony held on the new church building site last Tuesday afternoon. Dr. White is the pastor of the First Baptist Church of Austin.

Mrs. T. C. Graves entertained with a tea on Saturday, February 9 honoring Mrs. Garth Carter, nee Miss Violet Weathers, a recent bride.

Mrs. Sallie Rudd went to Abilene Sunday, to attend her grandson, David Rudd's wedding. David and Miss Virginia Teague were married at 2:00 o'clock Sunday afternoon in the Methodist church.

Evangelist and Mrs. R. L. Frow-

ers left Tuesday morning for Pehokee, Florida, where they will have a series of evangelistic meetings.

Mr. and Mrs. W. C. Magee of Harlingen spent the weekend here. They surprised his sister, Mrs. R. M. Patterson when they drove in Saturday night on their return home.

Sunday afternoon, February 10, openhouse inspection was held at the Locker Plant. Approximately four hundred people registered. There were guests from Brownwood, Eastland, Burnet and Comanche present.

The ginner's reports, made to W. H. Oglesby, reporter for the department of commerce, shows 4,054 bales of cotton ginned in this county from the crop of 1930, prior to January 16, as compared to 5,148 on the same date the previous year.

In order to create more interest in athletics, Mr. and Mrs. L. E. Miller, Jeweler of this city, have been kind enough to offer a silver loving cup to the boys' and girls' basket-ball team that wins the championship. The cups are very beautiful and well worth the time and effort which it will be necessary to spend in order to win them. These cups are given with the understanding that they must be won three consecutive years by the same school, before they become the property of that school.

VIC'S... SOLILOQUY

A lot of folks have expressed a lot of ideas regarding the wool industry in this country and how it may be improved. That is a subject which comes pretty close to home for many of our readers since we are situated right in the heart of the wool growing industry. Wool is big business in Mills County. The future of the wool industry is vital to the economy of this area.

A new thought along that line was expressed by Albert H. Conradt of Route 2, Lometa, when he wrote a letter which appeared in Texas Sheep & Goat Raiser in January.

Mr. Conradt wrote as follows: "Boys, I am in a bad way this afternoon. The wife is mad; the old cow kicked over the milk bucket this morning, and the hogs ate up the old woman's prize red hen."

"All this domestic trouble seems to have started over an attempt to buy the missus a woolen coat for winter wear. Just could not find a color or weave to suit even though we tried from Cape Cod to Hickory Bay. Finally compromised on a dull shade, nappy affair that shows no change in weave or color for the past 10 or 15 years. The price was about the same as we would have had to pay for 75 per cent uranium ore. All this was fine because we thought we were helping the wool growers of Texas and the United States."

"You can imagine our consternation when we gave the article a closer examination after getting it home. In one of the secret compartments reserved for female articles, such as powder, paint and perfume, we found a label stating that the coat was made out of imported wool. What is the matter with our wool? Is it unfit for apparel use?"

"There are several women to my knowledge who would like to buy woolen coat suits and dress coats if the color and weave was satisfactory. Woolen suits for men are hard woven and of many colors. Why is it that the

same color weave cannot be offered to women? "The synthetic boys are offering such coats that a woman can buy a dress coat, enter one store, go a block or two down, shake the coat and have another color, and so on down with the same coat until she has run the full gamut of colors or shown the coat in every store in town.

"Seems to me that the woolen industry is not catering to one of our most potential markets. Why not give the women the weave and color to choose from in woolens that the men have? Another factor is let's have more home-grown wool used in our markets. I can see no need to raise such a howl over tariffs. The mill that uses most domestic wool could be allowed a cheaper rate than the one that used mostly foreign wools.

"I am sure that, if Secretary Benson knew my ideas, he would have me up there to help. So don't let him know about this because I just cannot go help out. I have a herd of sheep and goats that I must try and get through the winter to shearing time so we can have a little money to buy synthetic wearing apparel next fall and winter."

The following item was forwarded to us by one of the offices of the Internal Revenue Service of the U. S. Treasury Department so I guess it may be considered as authentic.

The size of many families poses a problem to agents of the Internal Revenue Service answering taxpayers questions. One agent asked a taxpayer to also enter the name of his youngest child in the exemption section.

"We haven't got around to naming him yet," he was told. "Well," said the agent, "what do you call him?"

"We just call him 'Young Punk'."

And that's the name that went on the return for the official record.

OPPORTUNITY FOR YOUTHS

A wonderful opportunity for youngsters exists in the Army Reserve.

The Army's all-important mission is to uphold the interests of the United States whether we be in a shooting war, a cold war, or in peace. During times of peace the Army's main job is to deter aggression. That can be done only by maintaining a reserve that is both numerically strong and technically trained.

There always exists a chance that any young man will be required to serve in Uncle Sam's Army. There are very few men alive today, regardless of age, who have not served in some war or in preparedness of same.

It has now become a patriotic duty of every young man to prepare himself to defend his country. Some young men do this by enlisting in some branch of the armed services. Some defer military service so that they may complete their education, by joining an ROTC unit. Others

keep in touch with the developments, and in joining the national guard, their education and at the same time serve their country in Reserve forces.

Actually it is a matter of preservation. Uncle Sam covered in World War II untrained men were used to defend themselves from a selfish standpoint. He hooves every young man to himself in fighting training procedures, to know the weapons and warfare techniques.

Now, thanks to the Reserve Forces Act of 1955 a young man of high school age can enter the reserves, be paid for the time he serves, train only one night a week, go to camp two weeks in the summer, receive credit against his military obligation for the time spent in Reserve training, and graduation from high school serves six months' active service six months' active receiving his basic training, following which he is ready to enter college without further interruption.

What better deal could a young man have than that now offered in the U. S. Army Reserve?

Think it Over... Some day you must decide on a family cemetery lot. As in planning life insurance or making a will, the sooner you do it the greater the relief and satisfaction. Make this important decision today. By all means, visit a lot on which you may erect an appropriate monument of granite or marble.

Jesus Faces the City

ILLUSTRATED SUNDAY SCHOOL LESSON

Scripture—Luke 19:28—20:47.

By Alfred J. Wood

Arriving in Bethany on the way to Jerusalem, Jesus sent two disciples to obtain a colt. When they returned Jesus mounted the colt and rode triumphantly into the city with the disciples crying, "Blessed be the King that cometh in the name of the Lord."

When Jesus came near to Jerusalem and began to cast out the merchants who sold various things to the worshipers, and also those who bought them. He said, "It is written, My house is the house of prayer; but ye have made it a den of thieves."

Then Jesus went into the temple and began to cast out the merchants who sold various things to the worshipers, and also those who bought them. He said, "It is written, My house is the house of prayer; but ye have made it a den of thieves."

Christ's enemies sent spies to ask questions to trick Him. One asked Jesus if he was lawful to pay tribute to Caesar. Jesus looked at a coin, then said, "What was due him, and to whom was due him?"

FEB. 22 IS U. S. ARMY RESERVE DAY IN TEXAS!

YOUNG MEN WANTED

UNCLE SAM needs young men for his peacetime Army of Reservists. YOUNG MEN need what Uncle Sam has to offer.

Strong nations seldom are attacked. It is only when a nation becomes weak, when its military strength is at a low ebb . . . when its men are untrained for battle . . . that an enemy strikes. To keep peace — keep strong. For a nation to maintain military might it must have a large, well-trained Ready Reserve — well versed in the latest in military know how and equipment.

It is up to the young men of America to provide this manpower. Under the Reserve Forces Act of 1955 American youth may continue in school with a minimum of interruption, while serving in the U.S. Army Reserve.

Questions And Answers On Self Employment Tax Law For Farmers

number of farmers concerned about the self-employment tax law, according to Mr. Cheatham, Administrator in Charge of the Social Security Law Office. Amendments to the Social Security Law subject to self-employment tax during 1955 for the first time. Mr. Cheatham pointed out the five most common questions asked by farmers for answers for the information of farmers in this community.

1. What form does the farmer need to fill out in order to pay his self-employment tax? He will use Schedule F listing all farm income and deductions to determine net farm profit or loss. Page 4 of this form is used to figure your self-employment tax. This form needs to be filed along with his income tax return, Form 1040.

2. Can a farmer owe self-employment tax and not owe any income tax? Yes. His net income from farm operations is \$400 or more and the total amount of his exemptions is more than his net income, then he would be required to pay self-employment

or mandatory for farmers? No. If the farmer had net earnings from self-employment of \$400 or more last year and did not receive any wages subject to the social security taxes on employees, or if such wages were less than \$4,200, he must pay self-employment tax for last year.

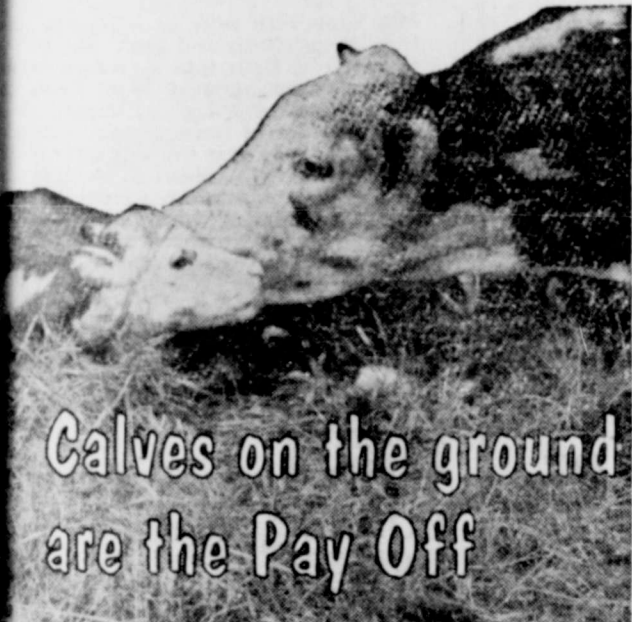

3. Can a farmer owe self-employment tax and not owe any income tax? Yes. His net income from farm operations is \$400 or more and the total amount of his exemptions is more than his net income, then he would be required to pay self-employment

It costs a lot of money to feed a cow. A husky calf is the dividend. And if a cow isn't properly fed you pay for it in short calf crops, scrawny calves, calving trouble, poor cow condition that results in breeding trouble the next year.

Purina Range Checkers contain choice grains, a variety of protein, vitamins and minerals—everything a cow needs to grow and drop the kind of calf that's up and sucking a few minutes after he hits the ground.

Witness Ends Life

THE BODY of Julius Kalman (above), 65, wealthy real estate operator, was found hanging from a ceiling beam in the basement of his Boston apartment house. The owner of seven realty firms, Kalman was allegedly swindled out of \$243,000 by George C. Matland, a former Boston constable, and Marshall A. Ries, of Braintree, Mass., a trust company official. Kalman had been scheduled as a key witness for the government in an overall \$6,000,000 swindle.

tax but would owe no income tax.

4. What is the self-employment tax rate for farmers? If, in the taxable year, he receives no wages subject to social security taxes and his self-employment net earnings from farming for the year are at least \$400 and no more than \$4,200, the entire amount is subject to the 3% rate.
5. Are farm rents, as such subject to self-employment tax? No. If the landlord rents his land receiving a crop share or the proceeds thereof, under the ordinary crop-sharing arrangement, he is considered to be receiving rentals from real estate, and such rentals are excluded from net earnings for self-employment.

Hillside Mission

God's message can be marred by misquoting of the scriptures. We should study for ourselves, getting our own interpretation; we are told thus in Timothy, 2:15: "Study to show thyself approved unto God, a workman that needeth not to be ashamed, rightly dividing the word of truth."

Unlicensed Driver Is Pointed Up As Traffic Hazard

AUSTIN, (Sp1)—The unlicensed driver was pointed up today as a traffic hazard on Texas highways in a statement by Col. Homer Garrison, Jr., Director of Texas Department of Public Safety.

In quoting a survey made during the first six months of 1955 by the Texas Highway Patrol, Garrison said the unlicensed Texas driver is two and a half times as likely to be involved in an accident as a licensed driver.

He also said the survey of rural highways showed that when involved in an accident the unlicensed driver's mishap is half again as apt to prove fatal as that of the licensed driver.

In explanation Garrison said, "The irresponsibility of the driver in not obtaining a license is a reflection of the character of that driver and his driving habits."

"In most instances the unlicensed driver is deficient in either his physical and learned abilities, or his driving attitude. In obtaining a license and taking the driver tests, his deficiencies are brought to light before an accident occurs. By being aware of his shortcomings and making adjustments for them a driver usually is able to avoid being involved in a costly traffic accident."

Only 3.9 per cent of the driving public is unlicensed, yet 9.8 per cent of the drivers in non-fatal accidents and 13.9 per cent in fatal accidents are unlicensed.

1955 SCHOOL TAXES ARE NOW DELINQUENT

All school taxes that are unpaid as of February 1, each year, are past due and delinquent.

All property owners are reminded that the school budget is prepared each year with anticipated tax collections taken into consideration, and it is necessary for taxes to be collected in order for the district to operate within the budget.

All taxes for 1955, and prior years, that remained unpaid on February 1 are now subject to interest and penalty.

The Board of Education reminds all property owners, who have not paid their taxes, to do so now before it becomes necessary to send out delinquent notices for collection.

Work Progressing Toward Building Permanent Camp For Girl Scouts

The fund for the established camp of the Heart of Texas Girl Scout Council, Inc. has recently received a gift of \$1,000 from the Hall Brothers Trust. The Hall Brothers Trust was established in 1953, following the death of Ed. G. Hall, last surviving member of one of Brownwood's earliest families. Mr. Hall's will provided that his estate be used to establish the trust and trustees felt that the Heart of Texas Girl Scout Council, Inc.'s Established Camp, located on a 73 acre site in 36th Division State Park on the shores of Lake Brownwood, would be a worthwhile project to receive support from the Hall Brothers Trust.

One-fourth of the Girl Scouts' permanent camp at Lake Brownwood is now completed. Girl Scout officials state. By June, 1956, it is anticipated that the camp will be half completed. By that time nearly \$20,000 will have been invested in buildings and improvements at the camp site. This amount does not include the Administrative unit which will cost around \$35,000. Total cost of the camp when

completed is expected to be about \$75,000. The completed camp will have four units, each unit housing about 24 girls for a total of 96 girls at one time. There are over 2,000 Girl Scouts in the 16-county Heart of Texas Girl Scout Council who will be benefitted by these fine camping facilities.

Counties in the council are: Brown, Coleman, Callahan, Comanche, Eastland, Erath, Jack, McCulloch, Mills, Palo Pinto, Parker, Runnels, Shackelford, Stephens, Throckmorton and Young.

Up to this time, the Girl Scouts themselves have raised about 95 per cent of the money that has been spent on the permanent camp. These funds have been raised through the annual sale of Girl Scout Cookies.

The Camp needs additional equipment which can be purchased through the Girl Scout Council. Council officials state that they hope the residents of the 16 counties of the council will join in contributing funds for the above units of camping equipment so that the camp at Brownwood will be fully equip-

The contribution by the Hall Trust marks the second contribution to the camp fund. Mrs. E. C. Richards of Jacksboro, Council President, recently made a contribution of \$1,000. The Girl Scout Association in Winters and Jacksboro contributed \$100 each to the camp fund also.

In addition to Mrs. Richards, other council officers are: Mrs. A. C. Robbins of Stephenville, vice-president; Wendell Mayes, Jr. of Brownwood, treasurer. The position of council secretary is vacant at the present time.

PARENT PROBLEMS

Are We Raising Softies?

By GARRY CLEVELAND MYERS, Ph.D.

ARE we educating our children to be physical, mental and even moral softies?

Recent scientific studies clearly show that our children are woefully inferior to children of European countries in physical strength and endurance. Further studies made by the National Science Foundation indicate that our youth, even the bright ones, are avoiding the study of science and mathematics to an appalling degree and at the very time when our growing technical needs demand more persons trained in these subjects.

Qualified Teachers

Also, there's been a drop of 53 per cent in the number of qualified teachers in these subjects in the last five years and an almost corresponding drop in the number of high school students taking them.

Low salaries for teachers is one cause of this tragedy. The prevailing theory of home and school education, which holds that children should do only what they feel like doing, is another. Furthermore, the doctrine of effort seems to be dead.

Since science and mathematics usually require more effort than most other subjects, more and more youths, even the brighter ones, choose to avoid science and mathematics. Here, I believe, is the crux of the matter.

At home, the average parent seems to be under the impression that the exercise of effort, needed in good practice of helping about the home, must be made so attractive the child just can't avoid the usual home drudgeries. But you and I know this theory rarely works.

Steeped in this doctrine of no requirements at home, parents generally approve of practically no requirements at school. Accordingly, the parents usually approve their child's choices of subjects he will study in high school, while the youth usually chooses what he supposes will be easiest for him.

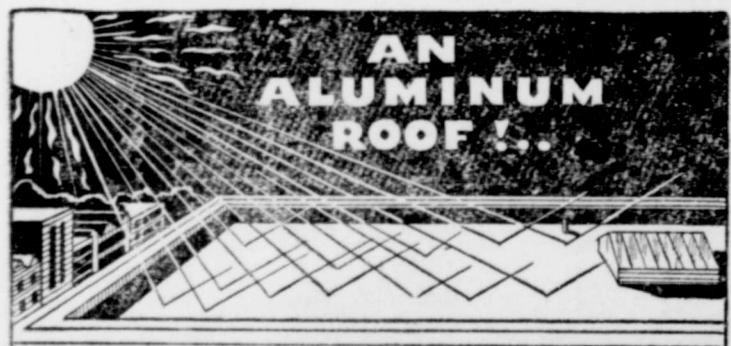

School Society

Last summer, I heard a father pleading with his bright adolescent daughter to take physics and mathematics in her senior year. She argued that by taking certain other subjects instead, she could be sure of making a certain selective school society since it required all A grades. To clinch her argument, she cited the advice of her high school counselor which agreed with her point.

"You might earn only a B or C in physics or math," he told her, "while you could easily make A's in these other subjects."

Fresh Pear Desserts

By ALICE DENHOFF

THIS is an exceptionally good year for fine, fresh pears. They are delicious whether they're eaten out of hand or in a tempting dessert. You might like to try this recipe for Meringue Pears.

Pare and core 8 large, fresh pears. Place in baking dish and fill center of each with tsp. sugar and a little grated lemon rind or candied ginger which is especially good. Add 3 or 4 tsp. water; bake until tender.

Cover with a meringue made with 3 egg whites beaten stiff with ¼ c. powdered sugar. Should be browned quickly.

For Elegant Parties

Stuffed pears make an elegant party dessert.

To serve 8, peel 3 large, fresh pears and cook until tender in a thin syrup. Add small red cinnamon candies if a pink color is desired. Cut pears in halves and remove cores. Combine ¼ c. cream, whipped until stiff, ¼ c. chopped nuts, ½ tsp. sugar and ¼ tsp. vanilla.

Pile lightly into cooled pear halves.

If an Upside Down Cake is on the agenda, give it a novel touch.

©1956, King Features Syndicate, Inc.

In lieu of the usual fruit, mix 2 tsp. of grated, candied ginger with the brown sugar and butter mixture in which halves of fresh pears are arranged.

Then, follow the usual cake batter recipe.

Fine Dessert

Pear Tapioca Pudding is a fine dessert this time of year. To serve 8, cook ½ c. tapioca, 3 c. boiling water and ¼ tsp. salt in a double boiler until tapioca is clear.

Peel 3 fresh pears and cut in quarters. Add ½ c. sugar and ¼ c. water; cover and simmer 5 min. Combine with tapioca and 2 tsp. lemon juice. Pour into buttered baking dish, cover with 2 c. marshmallows and bake for 20 min. in moderate oven.

How about putting up a batch of Pear Marmalade? Peel fresh pears, then slice and cover with sugar, using ¾ lb. of sugar to each lb. of fruit. Let stand until syrup is formed. Boil slowly until thick.

When fruit is partly cooked, add ½ can of grated pineapple for each 4 lbs. of pears used in your recipe. Then seal in sterilized jars.

grow over 8 to 10 feet, are best suited. There are many true shrubs that are drought and insect resistant. Among these are rosemary, lavender, the dwarf junipers, spirea, dwarf pyracantha, nandina, abelia, native agave and others.

Proper location of shrubs will not only save work in pruning and care, but will add to the attractiveness and comfort of the home grounds.

I will attend a Household Equipment Meeting and THDA Agents Training Meeting in Stephenville from February 20 to 24.

Center City News

By MRS. JOE GREEN

We have received some snow, rain, and sleet out this way since my last letter.

Rev. Barth conducted services at the Methodist Church here Sunday. There was a good attendance at each service.

Mr. and Mrs. Charlie Horner and Mrs. Harry Welch are in Louisiana visiting Mr. and Mrs. Bill Lambert and children and Mr. and Mrs. Bobby Woodard and baby. Mrs. Woodard will be remembered here as Miss Janetha Welch.

The Workers Conference was held at Priddy last Monday night and the Center City Baptist Church brought back the banner, which we are proud of. Next Workers Conference will be at the Center City Baptist Church, March 12.

Herbert Coffman and Allen Carter are not well, but are able to be up some. Herbert will re-

port back to the hospital the 23 of this month.

Mrs. George Brown spent last Wednesday with me.

Mrs. Billy Jo Hamilton and son from McGregor spent the day with Mr. and Mrs. George Brown Sunday.

Eva Faye Green was a guest of Hilda Mae Franks Saturday night.

Mr. and Mrs. Luther Meeks and children spent the weekend with Mr. and Mrs. Millard Meeks.

Mr. and Mrs. Z. Karnes visited the Joe Greens Saturday night and watched TV.

Mr. and Mrs. O. B. Hill were Goldthwaite visitors Saturday and they reported Mrs. Evans and Gladys are doing very well.

Mr. and Mrs. Walter Frank visited Mr. and Mrs. Paul Ising

in McGirk community Sunday afternoon.

Frank Carr and Lee Ramon Simms visited Mr. and Mrs. Herbert Coffman and family Sunday.

Tom Head of Fort Worth visited homefolks here Sunday.

Mr. and Mrs. M. L. Lindsay visited Mr. and Mrs. Millard Meek Saturday.

Mr. and Mrs. Boots Boykin visited Mr. and Mrs. Allen Carter Sunday afternoon.

Mr. and Mrs. Joe Wild were our guests Saturday afternoon.

Mrs. Wild is taking care of her mother, Mrs. Gage. She reported her mother was not feeling well at this time. We hope she is soon better.

Joe Green visited Jimmy and

Mollie Jones one day last week. He also visited Lewis Jones. Both Mr. Jones and Mr. Green have not been well. We hope they will soon be better.

MILK FOR TOPPING

Whipped topping made from non-fat dried milk. If you're a calorie hound you'll find it lower in fat than whipped cream. It's nutritious, too. One-half cup of dry milk contains three-fourths of the calcium daily requirement.

Use it as a garnish or topping, or use it in making salad dressing, chiffon pie, frozen desserts, bavarian cream or fruit whips.

SETTING OR RE-SETTING SHRUBS

Now is a good time to organize shrubs into screen or foundation plantings around the home. Any shrubs that dot the lawn and

complicate mowing may be re-set at this time.

Consider potential size of the tree or shrub, when choosing a location for setting or re-setting. Large growing plants are not suited for planting around the walls or foundation of the average home. They do make excellent screen plantings to give privacy to the work or recreation area of the landscape. Some large plants that require very little water are the althea, ligustrum, Arizona cypress, cherry laurel, crape myrtle, evergreen sumac and others. Nearly all of the hollies should be used in screen planting rather than placed around the house.

Shrubs for foundation plantings should be in proportion to the size of the house. For the low, ranch type house, which is very popular now, true shrubs, that is shrubs that will not

County Agents Report Progress In Pasture Improvements In 1955

COLLEGE STATION, (Spl)—management difficult in many Texas areas. But E. M. Trew, extension pasture specialist, in a year-end report said sound profits and made good pasture

be much more important from the profit standpoint in 1955 than in years of high prices and normal rainfall.

He said extension workers continued to emphasize the need for getting maximum livestock production from pastures. But for the state as a whole, forage produced was 24 percent below actual needs. On the brighter side of the picture, county agents reported that educational programs which they conducted within the counties added an estimated \$35,651,228 to the value of pastures. Farmers and ranchmen stored 12 per cent more hay and bundle feed and 37.6 percent more silage than in 1954, and the same reserves were 44 and 31 percent respectively above those stored in 1953.

Trew said the county educational programs on pasture improvement involved the holding by county agents of 1,009 indoor meetings with more than 31,000 persons attending; 340 pasture tours attended by 16,600; the writing of 1,800 news stories and supervising 5,058 demonstrations involving approximately 800,000 acres. These demonstrations included permanent and temporary pastures, fertilization and rotation grazing.

In addition, county agents established another 2,536 new permanent pasture demonstrations on 111,687 acres. Trew said the drought years have made Texas livestock producers appreciate more than ever the importance of forage reserves for use when green grazing is not available.

WATCH OUT FOR 'SHYSTER' PLANT PEDDLERS

This is about that time of year when a plant enthusiast's thumb turns a bright shade of green, making the season ripe for the annual crop of unscrupulous nursery stock salesmen.

In previous years, many Texas housewives have been "victimized" by door-to-door nursery stock peddlers with misrepresented merchandise and high-pressure sales tactics. While there are many reliable door-to-door salesmen in the nursery business, it is advisable to buy from such sources with caution, and if a contract purchase is recommended, read it well before signing.

The "shyster" plant salesman usually paints a rosy picture

of beautiful landscapes with no money down, or a payment on delivery plan. The person who signs such an order may find himself bound to a non-cancelable contract loaded with fine print. And the plants which arrive in the mail may be a far cry from those shown in the salesman's glossy color print examples.

One good thing to remember in planning your spring planting is to buy plants which are native to, or grow best in, your native soil. Locally-grown nursery stock is most likely to prove successful.

Also, there's no such thing as bargain basement prices on good-quality nursery stock. Prices may be high this year on some of our better decorative plants due to cold weather cutbacks. But by careful budgeting and wise selection, good hardy ornamentals can be found.

Most firms pushing doubtful nursery stock operate just barely within the law. Misrepresentation is hard to prove, so a few precautionary measures may prevent being "taken in" by

Clementine Wilmeth Briley Writes From Temporary Home In El Paso

By CLEMENTINE WILMETH BRILEY

The paper reported that our snowfall of last week amounted to 8.1 inches—the heaviest continuous fall here in 50 years. The heaviest record was 8.4 inches on November 19, 1906. I hadn't suspected that it could happen to El Paso. But more fantastic still are the reports of "the snow in the Panhandle and South Plains, especially around Plainview and Lubbock. Imagine snow 30 inches deep and drifts up to the eaves of houses. I wonder could it break that drought and let some, who have had to leave, go back to their homes.

Last summer I attended the Egger reunion in Brownwood. Most all the Eggers came from Ebony, and we have often thought that it should have been called Eggerville instead of Ebony. Some years ago the Noah Egger family moved to Nolan County not far from Sweetwater.

At the reunion I was happy to see him and his nice family. He and his wife had a fine farm in Nolan County. He told me they built a dream home there. But when the drought struck and stayed, they had to leave. They bought irrigated land near Plainview. And the house they have there does not compare with the dream home they left in Nolan County.

I'm just wondering should good years come again to that section, could the Owen Eggers go back to their dream home?

Tuesday, Feb. 7, my 5-dollar Bird chrysanthemums arrived. Though there was a cold wind blowing, I just had to put them out. They had plenty of roots, but they were the poorest looking specimens of chrysanthemums I ever set out.

Monday evening after school Grace and Johnny went downtown where they met Bill and did some shopping. The next day was "Go Western Day" at school and Billy had to have a new cowboy hat. It was after dark when they got home. In came Johnny, walking just like a cowboy, very picturesque, in his suspenders and cowboy pants, his cowboy shirt, his pink silk handkerchief knotted around his neck, and on his head a beautiful new green cowboy hat, just like Billy's.

I have received a letter from Granddaughter Carol Jean encouraging me to attend again this year the ACC Annual Bible Lectureship, Feb. 19-24. I want

more than ever to go since this is the 50th anniversary of the college. And besides the wonderful Lectureship program, they are presenting the Golden Anniversary Pageant, "A City Set On A Hill," depicting the high lights of the College's fifty-year history.

We had snow again today, (Thursday, Feb. 9.) For awhile it fell in big soft flakes. In a little while the ground, the housetops, and everything were white with snow, but by dinner time it had all melted. Yesterday's paper said, "Heavy crop saving rains fell over the eastern two-thirds of Texas today." I'm hoping Ebony got its share.

Tuesday evening late the delivery wagon brought some furniture. Bill and Grace had got the day before. There was a step end table and lamp which Grace put at the end of the divan. Immediately Johnny came along and asked her to take it off the step and put it on the lower

part of the table. She didn't understand, but he got behind it showed her how it was just right for a pulpit for his Bible and hymn book.

Mr. and Mrs. Fred D. Marshall of Lubbock were weekend guests of Mr. and Mrs. Fred Laughlin. They also visited in the home of Walter Fairman before their return to Lubbock Monday evening.

Reserve Armories Being Planned For Texas

armories at Dallas and Waco about December 31; and an additional 1,000-man armory in Dallas expected to be completed about March 31, 1957.

General Griffing stated that it is expected that armories will be constructed in many more Texas cities and towns as fast as the Reserve strength in those cities and towns increases.

Also, concluded Griffing, Feb. 22 has been proclaimed by Gov. Allan Shivers as U. S. Army Reserve day in Texas. Reservists throughout the state will conduct a one-day, all-out recruiting effort, aimed at building a strong ready Reserve.

At the present time permanent type Reserve armories are located at Houston, Beaumont, Fort Worth, and Austin. In other Texas cities and towns, Reserve training is conducted in either leased, rent-free facilities, or at Regular Army installations.

Already under construction is a 200-man type armory at Huntsville which is expected to be completed about February 29; a 200 man armory at Lubbock about August 31; 400-man

Annual Girl Scout Cookie Sale To Get Underway February 24

By **ROBBIE DALTON**
Mrs. Forest Straley and leaders of Girl Scout and Brownie Troops are getting things underway toward the third annual Heart of Texas Girl Scout Council Cookie Sale, which begins February 24 and ends March 3.

Purpose of the sale is to raise funds for the development of a campsite for the Heart of Texas Council. Goldthwaite is a member of the Council and all registered Girl Scouts are eligible to attend this camp. It is open at the present time for troop camping.

Several of our local girls have attended established Camps at Mineral Wells and Austin. The parents of these girls fully realize the value of a good camping experience for a girl. It isn't just camping and being outside or away from home. It's learning to get along with the world and it stimulates enjoyment and appreciation through adventure. Camping provides training in citizenship through the give and take of community living. Each girl has a part in planning and carrying out programs always with the help of an experienced leader. Also camping contributes to the physical and mental well-being of the girl and helps in the development of such qualities as resourcefulness, self-reliance and initiative.

Please give your support to the Cookie Sale.

Wilbur L. Heath Is Promoted To First Lieutenant

CAMP GORDON, Ga.—Promoted to first lieutenant here at the Signal Corps Training Center was W. L. Heath of Lubbock, Texas. Lieutenant Heath, whose wife, Mrs. W. L. Heath lives at 1205 Avenue "R" Lubbock, is assigned as supply officer for the 206th Signal Company in the Signal Corps Unit Training Group here.

He is the son of Mr. and Mrs. Clarence Heath, former residents of Goldthwaite, and now of Silsbee, Texas.

Governors' Proclamation

Heart diseases take more human lives in Texas annually than all other causes combined. This dread source of more than 52 per cent of all deaths has been sharply reduced in the last generation through constant research and treatment. Medical science feels that the gate is just being opened upon far broader and more effective fields of treatment and cure.

The people of Texas are privileged to join in a national campaign to further these benefits through voluntary work and contributions.

THEREFORE, I, as Governor of Texas, do hereby designate the month of February, 1956, as HEART MONTH in Texas, and urge the wholehearted response of all Texans.

In official recognition whereof, I hereby affix my signature this 3rd day of February, 1956.

ALLAN SHIVERS

SOIL CONSERVATION DISTRICT NEWS

OUR SOIL ★ OUR STRENGTH

By CHARLES HAENISCH

ATTENTION: Farmers and Ranchers interested in seeding grass this spring!

The supervisors of Brownmills Soil Conservation District remind all interested cooperators that now is the time to prepare for seeding grass.

Act now—Decide upon the kind of grass to plant and make arrangements for securing the seed so you will be ready to begin when seeding time comes.

L. B. Burnham, near Goldthwaite, has good success in planting old fields to grass. Although weather conditions have been unfavorable to grass planting, Mr. Burnham has been able to get some of the grass he has planted to a stand.

To those who plan to retire old

fields to grass, Mr. Burnham has these suggestions to make.

1. Plant grass in rows using regular planting equipment or the grass drill owned by the district.

2. If using regular row equipment, run sweeps flat making wide shallow furrows.

3. Cover seed from one-fourth to one-half inches deep using light weight chains behind the planter.

L. B. has also had some experience in seeding native ranges. His best results in this type of seeding have come from using native harvested grass seed. He has found that it is best to disturb the ground before planting the seed.

The best type of seed bed preparation he has found is pitting

or chiseling. This eliminated other vegetation that would compete with the young seedlings.

Mr. Burnham has also found that a full year deferment is essential after seeding the grass.

If you are planning to do any type of grass seeding this spring and are in need of more information, contact one of the Soil Conservation Service technicians assisting the Mills Soil Conservation District. Their office is located on the second floor of the Courthouse in Goldthwaite.

State Highlights

(Continued From Page 1)

Liberals Byron Skelton and Tom Moore Jr. countered with predictions that the "Shivers Executive Committee will control the party machinery, in particular the credentials committee—depriving legally elected delegations of their votes."

As each faction held schools and sent out literature to bolster its strength, the sniping continued. Samples: Conservatives said Liberals were bringing in out-of-state union organizers; Liberals said Conservatives would use machine tactics and tricks.

AMENDMENTS LISTED

A drawing for positions on the Nov. 6 ballot gives first place to the constitutional amendment providing for financial compensation to prisoners later found innocent of a crime.

Second on the ballot will be the amendment relating to re-allocation of county funds; third, an amendment broadening the University of Texas investments and the college building program; fourth, one expanding teacher retirement; fifth, a \$100,000,000 veterans' land bond issue; sixth, revising the constitutional oath of office; seventh, providing waiver of jury trial in lunacy cases; and eighth, authorizing a judge to deny bail in a felony case to a person twice previously convicted of felony.

Because of a legislative error in the contest of the 9th amendment, authorizing state aid to the totally disabled, it will have to be voted upon at a special election on Nov. 13.

"RIGHT-TO-WORK" DECISION DUE

Texas Supreme Court reports it will make a decision soon on the validity of Texas' "right-to-work" law. Previously the court had set the case aside pending U. S. Supreme Court action on a similar Nebraska case.

An early decision by Texas high court might permit the issues involved to be considered by the federal tribunal before it rules on the Nebraska case.

ALGERIAN MOB STAGES PROTEST

ADMIRING THROWS in Algeria gather about Jacques Soustelle (arrow), former French Resident General of Algeria, as he prepares to leave Algiers for Paris after being replaced by Gen. Georges Catroux. Enraged French colonials threatened bloodshed if new French Premier Guy Mollet stands firm on the change. Mollet, who flew to Algeria in an effort to end the 15-month-old rebellion, was given a stormy greeting. Faced by open opposition, Gen. Catroux has reportedly resigned from the post.
