ONE STREET IS BOOMING

Residents of a small town like Goldthwaite get to thinking sometimes that there is no building or improvement going on. There are some pretty dull seasons, or times, when it comes to new construction going on.

Then there are times when things seem to be booming—especially on some streets or certain sections of town.

That is the picture on Hanna Valley Road in Goldthwaite this summer. Could be that it is showing up more to me since I travel that road a while of a lot, although I get over town to inspect other streets and areas too.

At any rate I want to mention a few of the projects that have been going on this summer or are about ready to begin on that street.

Starting from Fisher Street and going west.

Mr. and Mrs. Roy Wilkins have been literally working things over at Roy Wilkins Funeral Home. They started early in the summer installing refrigerated air-conditioning in their home and business. About the time they finished with that they started quite a sizable addition to their building which is in full swing at the present time.

You can go across the street from there and you see where Mr. and Mrs. Wallace Johnson have started their new home. Wallace reports that they hope to have it completed in about 90 days.

Across the corner from there is the new home of Mr. and Mrs. Norman Duren with construction well underway. "We hope to be in by Christmas," said Norman in reporting on their project.

A few doors west and again across the street on the north side J. Y. Tullos is having his house painted.

Down the block you see where Mr. and Mrs. Eugene Dyas have done some repairing and rebuilding on their front porch.

A little further down and across the street Mr. and Mrs. Floyd Spradley are getting ready to start an addition to their home, two bedrooms and a bath.

A little further west the Glynn Delapps have been giving their home a new coat of paint.

Across the street at our house things have been happening. After the June 21 fire our home has been in process of being redone inside and out and while we were out of the house and all torn up we are making some improvements that have been in the planning stages for several years. They include converting a garage into a bedroom and bath and adding a breezeway and two car garage.

A little further west Mr. and Mrs. Walter Summy have put a new roof on their home and still further down the street Mr. and Mrs. M. F. Horton have done some redecorating and also a new roof on their home—also they have had constructed a new tank on their acreage.

At Hanna Valley Road and the city limits Mr. and Mrs. S. P. Sullivan have been doing considerable improving where they live and on the home across the highway.

All that stacks up as a lot of improvement for one street in one summer.

I'm going to talk to Mac Horton about that tank situation. Give him a little encouragement on getting it stocked with good fish—you know, it isn't very far from our house

CHICKEN EVERY DAY

The time was not long ago when chicken was a specialty meat to be enjoyed at special times. "Chicken Every Sunday" was the way one novelist put it in her book title.

Today, chicken is still special, but in other respects. Of all meats, today's chicken is unquestionably the best value in the market. In the fact of skyrocketed red meat prices, the competitive nature of the broiler business and continued progress in broiler growing have provided the housewife with a delectable alternative dish which should appear on every table several times each week.

Because more broilers are being grown and marketed each successive year (a current week's placements of chicks for broiler production in Texas alone is normally around two and a half million), and because better broilers are being produced at less cost than ever before, the food-wise shopper should head for the broiler counter regularly.

This transition in the broiler business has been phenomenal during the past seven years. In 1950, broilers were selling at 31 and 32 cents a pound, prices that would make today's broiler growers wealthy in a hurry. Cost of production at that time was about 25 cents a pound, which still left an excellent profit spread.

Today, cost of production in Texas runs about 18 cents a pound, with broilers bringing a much narrower profit margin. Since the volume of operation is also larger however, broiler-growing is still a big and sometimes profitable business.

The housewife is still the one

who profits most, however, since the poultry processor who dresses the bird for market works on an equally competitive and slim profit margin as does the grower and the food store often "specials" broilers.

Since the poultry processor who dresses the bird for market works on an equally competitive and slim profit margin as does the grower, and since the food store frequently foregoes profit to use broilers as a "special" in drawing in customers, the housewife is still the one who profits most from the booming broiler business.

Fried or fricasseed, chicken is good enough and inexpensive enough to enjoy every day.

COOKING FOR WEIGHT WATCHERS

Any weight watchers in your family? If so, you, the cook, can be a big help by planning and preparing foods to cut calories. Here are some suggestions:

- Use nonfat, dry milk solids for cooking.
- Keep desserts simple. Serve fresh fruits or canned and frozen fruits packed in water or juice—not syrup.
- Roast or oven or pan-broil meats, poultry and fish instead of frying in fat. Avoid "bread-ing" and use of egg batters on

foods. Trim extra fat from the meat.

- Serve salad materials plain—or use low-calorie seasonings or salad dressings. These can be made with tomato juice, herbs and lemon juice or vinegar.
- Prepare food without added fat, sugar or flour whenever possible.
- Tempt appetites with herbs and spices instead of rich seasonings, sauces and gravies.
- Serve low-calorie items for nibbling or appetizers. Try celery, cabbage wedges, carrot sticks, or other low-calorie vegetables or fruits.
- Avoid high fat foods such as cream, butter, gravies, sauces, nuts, potato chips, oil, pastries, rich salad dressing; sweet foods, such as cakes and cookies, rich puddings, candies, fountain drinks and sundaes, carbonated drinks and alcoholic beverages; and starchy foods, such as macaroni, dry peas and beans.

Open Letter

Dear Fellows:
It has been with a great deal of personal sadness that I resigned as Scoutmaster of Troop 77, and moved my home away from Goldthwaite. I must confess that among my first thoughts, as I found I must move away, was a great disappointment at leaving Troop 77, and although I was no longer working with the fellows in Post 77, they were included in my thoughts also.

It is very difficult to write a letter like this and keep it at reasonable length. There is so much to say.

The past five years have been so rich in many varied experiences that it would take a pretty good book to catalogue them all. I shall always remember our outings more than anything else, (except the Eagle awards and God and Country presentations). Sure we had cut hands, blistered heels, sunburn, stomach aches, grass fires, lost skillets, wet camp-outs and a "jillion" other mishaps, but for each one of them there were good things in great quantity.

You learned to be better outdoorsmen, cook your own meals, build fires under adverse conditions, find your way if lost, quite a lot of you mastered the art of signaling with the International Morse code, and there were many more things you learned, but I think a very important thing all Scouts learn if they stay a Scout for any length of time, is to work together, not separately or against each other, always a team is the Scout way.

To most of you fellows in Post 77 I still think of you as "My Scouts," even though Joe White is now your leader. Don't fall by

the wayside fellows. Now is a time that you can put your knowledge of Scouting and your many experiences in Scouting to good use. Those little fellows down there just coming into Scouting need encouragement and that Scoutmaster, whoever he is, can use some help. Junior Assistants can really make a troop amount to something if they will work at it. Believe me, when you show that new Scout how to build a fire with flint and steel or tie some of those complicated looking knots, (complicated to him, duck soup to you) or anything like, say, reciting the Scout Laws without hesitating to think which one comes next, then, Fellow, that boy will look up to you and as far as he's concerned you are just about tops and he is going to learn fast so he will be as smart as you are.

It's a wonderful opportunity to further your own Scouting career while helping a little fellow up that long trail to Eagle. See your committee chairman and tell him you want a Junior Leadership training course. You won't have to put in too many hours and it will be worth so very, very much to you.

You younger fellows in Troop 77 keep up the good work. Just keep on showing those folks you are the best troop in Comanche Trail Council.

I am sorry that I missed the Swim Meet at Lampasas with you and that we didn't get to meet more often the last month or so I was there, but that is just fate and there is not much we can do about it.

Troop 77 will have a new Scoutmaster soon and he will need the full cooperation of all you fellows in the workings of the troop. Work hard while you work on that Scouting and then when play time comes, play as hard as you like. Your new

Scoutmaster will be only as good as you want him to be, I don't care who he might be, if the boys in a troop don't want to make it a good troop a Scoutmaster isn't going to make it a good troop; so keep up the good work fellows and stay right up there at the top. Round-Up time is near, so start herding those new boys in and get all shaped up for all those good meetings and other activities you'll have in the coming months.

I would like to close this letter with just a few words to the Moms and Dads in Scouting in Goldthwaite.

The past five years have been some of the most enjoyable of my life. You have helped to make this so by your loyal support of the Troop in all phases. Always it seemed that you knew just when to put in some words of encouragement when I felt I was doing a bum job of being a Scoutmaster. There are a number of men there who have better qualifications and will make a far better Scoutmaster than I have ever hoped to be. You guys take over there and really make people notice Troop 77.

For the many gifts you presented me over the years I can only say thanks from the bottom of my heart. I have no words to really express my appreciation for those, they have meant very, very much to both me and Mrs. Langford.

Again, to everyone with whom I have had occasion to work in any connection with Scouting: Dads, Moms, Grandfathers, Grandmothers, Brothers, Sisters, any and all of you, this has been a wonderful five years I shall never forget. God bless all of you and remember, a Scout is always working "Onward For God and My Country."

Yours for more and better Scouting,

Floyd Langford, Jr.
406 Featherstone,
Cleburne, Texas.

The sculptured bodice was fastened with small covered buttons and had bracelet length sleeves. The draped skirt featured a bustle back and chapel length train. Her finger tip veil of silk illusion was held in place by a pearl crown. She carried a bouquet of lilies of the valley centered with a white orchid.

Miss Wanda Kelly of Goldthwaite was maid of honor. Bridesmaids were Misses Patsy Kelly of Huntsville, Cynthia Reynolds of Brady, Carol Bailey of Corpus Christi, June Adcock of Wichita Falls and Barbara Sojourner of Abilene.

The bride's attendants wore waltz-length gowns of peacock blue taffeta featuring bracelet length sleeves, semi-princess lines, draped neckline, and a dramatic trapeze back topped by a small bow. Their accessories were in matching shades and they carried bouquets of high styled glamelias.

Kenneth Wesson of Goldthwaite, served his brother as best man. Vernon Whitley, Goldthwaite, Robert Hunt and Dale Hunt of Garwood, Billy Miller of Corpus Christi and Jesse Hammond of College Station were groomsmen. Alton Smith, Dale Hunt and Robert Hunt, all of Garwood, served as ushers.

For her daughter's wedding, Mrs. Hunt chose a mauve lace over matching taffeta dress accented with a draped taffeta sidepiece. Mrs. Wesson, mother of the bridegroom, was attired in a gray nylon lace over pink taffeta. Both mothers wore rossette corsages.

A reception was held in the Magnolia Tea Room in El Campo immediately following the ceremony. The bride's table was laid with a silver embroidered net cloth over satin and decorated with a silver candelabra and the bride's bouquet. The four-tiered cake was set in a ruffle of lace illusion and decorated with roses and lilies of the valley, topped with a miniature bride and groom. Approximately two hundred guests attended the reception.

Misses Gayle Givens, Sue Smith and Mmes. Dale Hunt, Alton Smith, Albert Hubanek, and Tommy Hilderbrand were included in the house party.

For a wedding trip to Mississippi the bride chose a two piece brown and gray suit of cotton-dacron blend with matching accessories. Her corsage was a white orchid.

Upon their return the couple will be at home at 1906 Coleman, Apartment 2 in Snyder, Texas.

Mrs. Wesson is a graduate of Abilene Christian College where

Conservation in the Brown-Mills Soil Conservation District has reached the point to where it is evident on practically any road you travel in the District. Perennial grasses exist on hundreds of acres of cropland diverted from cash crops, crop residues are left on or near the surface, waterways are grassing over, ranges are improving, and many farm ponds have been stocked with fish.

Terraces have been constructed on a number of farms to control erosion and conserve moisture. Farmers completing terraces recently are Sam H. Rahl, M. L. Spinks, Haskel Gatlin, C. H. Teftillier and C. G. Featherston.

Diversions to break up the concentration of runoff water and divert it to protected outlets have been completed on the Hazel Cobb and Haskel Gatlin farms recently.

Farm ponds for livestock water and to better distribute grazing have been constructed on Willie Lorenz, J. W. Welch, H. B. Campbell, Guy Waldon, Walter Tubbs, Mark Calaway, W. W. Limmer, B. F. Rainey, P. O. Harper, Barney Laughlin and Dick Hughes places.

Time is growing near to plant winter cover crops. The Mills County ASC office is furnishing cost-share assistance on a number of legumes. Be sure to check with them before planting this fall.

It takes time to grow...

A good farmer knows what his crop needs: sunlight, soil, enough rain . . . and time. Each contributes, each is important. In fact, any one of them can spell the difference between a good harvest and a meager one.

People have to grow, too . . . and the growing season lasts a lifetime. Like plants, we also need some outside help along the way: a family to grow up in . . . friends to grow up with . . . and Faith to guide and strengthen us.

Most of us take our Faith pretty much for granted. Like all familiar things, we just assume it will be there when needed. The point is, it's needed *all* the time . . . every day, every week, all our lives.

Begin now to make sure your Faith is strong enough to weather whatever storms may lie ahead. And help your children find that same strong Faith. Take them with you to your Church or Synagogue this week . . . and *every* week.

Find the strength for your life . . . worship together this week

We are right at the last summer. Friday, August 29, things are happening Saturday, as I was excited the Mitchells, I made chocolate chiffon pies. I thought, "I'll make chocolate cookies for the children. I can take them on the way Monday morning, after the long gone, I discovered the cookies in the pan on the board.

There is some more of my absence. Could it be age? Wednesday morning while the children were I was hardly good awake I heard John's accusing saying, "The tank's draining. There's not a drop of water when I'm watering my garden—John will say, 'I drain that tank dry.'" I struck me. I tried to Did I turn the water on for anything? Then remembered. Tuesday evening went to town but me. I really and worked all day about things. When they

Final Rites For Connie Thomas Held In Fairbanks

Funeral services for Connie Thomas, 13, daughter of Rev. and Mrs. John J. Thomas of Fairbanks, Alaska, were held Wednesday, August 27, 1958, at Calvary Baptist Church in Fairbanks, Alaska.

Connie was born at Abilene, Texas, February 28, 1945, and passed away August 22, of a brain hemorrhage. Her father, Rev. Thomas, was organizer and former pastor of James Street Baptist Church of Fort Worth and also former pastor of the Bryant Street Baptist Church of Fort Worth.

She is survived by her parents and four brothers, John Charles, Sidney, Gene and Calen, of Fairbanks; her grandparents, Mr. and Mrs. W. I. Raley, Miles, Texas; and the following aunts and uncles, Dr. and Mrs. R. G. Raley, Goldthwaite, Mr. and Mrs. C. K. Raley, Dallas, Rev. and Mrs. Duke Shaw, San Bernardino, California.

This Thursday, August 21, is really an eventful day. Today I got an invitation to a housewarming for the Frank Crowders to be Thursday, August 21. I surely am sorry to have to miss that.

When Frank was at our Auld Lang Syne party last June, he didn't give us a hint that there was a wedding in the making. But just about a week later he brought his bride to church. She's goodlooking and she's good to talk to. And the more you talk to her the better you like her.

When Grace was here last week, she said, "Mr. Frank, she's pretty." "Yes," he said, "I know it. I tell her that every day." "Keep it up," was Grace's admonition.

Questions And Answers About Social Security

T. Lewis Jones, prominent Dallas civic leader and long time Bell Telephone executive is the founder of a new, non-profit, self-supporting association for the benefit of older people. The organization will be known as Senior Universal with headquarters in Dallas, Texas, and will have local clubs throughout the nation.

Question: Another person and I have recently purchased a business, which we will operate as a partnership; and we will share the net profit equally. I will be paid a monthly salary, but my partner will not. At the end of the year, how do we consider my salary in arriving at the net profit on which we will pay social security tax as self-employed persons?

Answer: The salary you receive may be deducted as a business expense for the partnership, but your salary will be added to your share of the profits and reported as a self-employment income on your income tax return. If the partnership does not make a profit, your salary is still net earnings from self-employment to the extent that it does not reduce your capital investment in the partnership.

Question: I am a household employee. My employer pays me \$40 monthly. I also receive my room and board, which is valued

at \$40. My employer is reporting my earnings as \$40 monthly. Should not this be \$80?

Answer: No. Your employer is correct. Wages in kind for a household employee working in a private home are not taxable, only the actual wages paid are taxable.

Question: I am receiving social security benefits. How long will it take to change the address on my check after I file notice of a change?

Answer: If you mail the notice so that it reaches the payment center before the 20th day of the month, your check for that month will usually be sent to your new address. If

the notice is received later than the 20th day of the month, the new address will be on your check for the following month.

Question: After filing for social security benefits, when should I report if it appears that my total earnings may run over \$1200 during the year?

Answer: As soon as it appears that you will earn in excess of \$1200 during the year, you should report to the social security office. Count as earnings all bonuses, commissions, fees, and vacation and holiday payments, as well as wages and self-employment income.

STATE CAPITAL Highlights AND Sidelights

by Vern Sanford
TEXAS PRESS ASSOCIATION

WAXING, TEX. — Labor Day is, by custom, summed up in a few days of last fling. For millions it's a chance for a little more swimming or boating before the season starts. For safety officials, it's a time to spend the week-end picking up the pieces, totaling the score of those for whom this "last fling" was real-estate.

Department of Public Safety officials, who base their statistics on grim experience, reported 29 traffic deaths in Texas during the holiday weekend. To beat the odds is a mission of public agencies and private organizations cooperating in a drive spearheaded by Gov. Price Daniel.

Texas Traffic Safety Council, Governor's Highway Safety Commission and DPS will be assisted by several statewide civic organizations and trade associations in emphasizing the importance of careful driving.

DPS will have 700 patrolmen on duty with two radar speed traps in each highway district. Governor Daniel has proposed the Labor Day weekend as "Deathless Days in Texas" the following week as "Back School Highway Safety Week" through school officials assisting groups safety tags programs will be brought to millions of school children.

This sort of thing has been done before, every year, but there's special emphasis and wider participation this year. Texas safety leaders are straining to set a record of 10 per cent fewer traffic deaths this year. Goal, set by the governor, is in sight. Thus far, 1958 fatalities are 14 per cent less than for the same period last year.

Ultimate success hinges on being able to "keep the lid on" through the holidays ahead. If it can be done, several hundred Texans, not expected to be, will be alive at the end of the year.

NO SPECIAL SESSION— Governor Daniel said he would not call a special session of the Legislature to extend unemployment payments to jobless Texans.

Atty. Gen. Will Wilson recently ruled that Texas could not take advantage of a new federal plan to advance states money for 12 additional weeks of unemployment pay without a special law by the Legislature.

Governor Daniel pointed out that (1) the recession seemed to be easing, (2) the Legislature would be in regular session in less than five months and (3) more than half of the some 54,000 who had used up all their unemployment benefits were housewives, students or others only temporarily in the labor market.

But State AFL-CIO President Jerry Holleman sharply criticized the governor's position. He declared the state's unemployed workers have already lost \$8,500,000 by Texas' failure to act.

Said Holleman, "If the oil industry or the insurance industry or any other industry were losing that kind of money and the governor had the power to stop it, I believe he would act."

Daniel retorted that the additional federal benefits were offered as a loan, not a gift, and would have to be repaid by Texas taxpayers. "It is not a matter of picking up free money."

BIGGER OIL FLOW—For the third straight month, Texas oil production will inch up. Railroad Commission set the September allowable at 3,173,736 barrels a day on a 12-day producing pattern.

This will be a 228,302 barrel-a-day increase from August.

Oil production, cornerstone of the state's economy and prime source of tax revenue, was in a deep slump for more than a year. As demand dwindled and crude oil stocks piled up, the Railroad Commission was forced to make deeper and deeper cuts in permitted production. During April, May and June an all-time low of eight producing days was maintained.

Upturn began in July with nine days of production, continued in August with 11 days. At the hearing to set September production, one major buyer asked for 14 days, saying his company's crude stocks were at the lowest level in 19 years.

REFEREES — A credentials committee has been appointed to settle any hassles that may come up as to which delegates shall be seated at the Sept. 9 Democratic convention in San Antonio.

Committee members, announced by Executive Committee Chairman Jim Lindsey, are Judge Earl Sharp, Longview, chairman; James P. Bailey, Houston; Larry Blackmon, Mineral Wells; Mrs. Arthur Harris Sr., Bay City; Mrs. Dorothy Gurley, Del Rio.

Notice of contests (at least five are foreseen) must be submitted to the committee 10 days in advance of the convention. Hearings will be held the day before the convention.

SLIPPED, BUT NOT HURT— Despite a 2 per cent dip in Texas business activity, experts read "Texas' economic signposts as generally favorable."

University of Texas Bureau of Business Research labeled the June decline as probably a "random variation."

"On the whole," observed BBR staffer Francis B. May, "this recession has manifested itself in Texas primarily as an interruption of the upward progress of the economy, a leveling off, more than a decline." Diversification of the economy has helped, said May, with an improvement in agriculture helping to offset the decline in oil.

Looking ahead, May could see "nothing in the immediate future to augment the recession; consequently, recovery seems the most likely course of events."

BBR noted that Texas building is at a level approaching the "boom" stage with permits for the first six months of the year 2 per cent above the previous January-June record.

SHORT SNORTS—State Highway Commission tabulated \$24,259,167 in low bids on road construction projects. August lettings covered 584 miles of work.

A fourth polio shot (or booster) may be considered desirable to give a high level of protection, especially in high-incidence areas, says the State Health Department.

By MRS. DUTCH SMITH
(Delayed)

We had a good shower last week that we really did appreciate. We are hoping for a good rain soon.

Dutch and I skipped church Sunday and visited our children, the Johnnie Smiths, in Burnet. Her father, Carl Brown, also visited them. Saturday was Margaret Ann's birthday and we helped her celebrate Sunday. Other visitors were an aunt, uncle and cousin, Mr. and Mrs. Macon Crocker and Sue of Troy. Also Mr. and Mrs. Charlie Lemroth and Tom of Bertram.

In the late afternoon Johnnie took us to visit my nephew, Gene Harris, at Marble Falls. Gene was at home but Jan and Regenia were not at home. We also went to Inks Dam and Buchanan and enjoyed the trip so much.

Saturday Mrs. Nickols invited me to Mrs. J. M. Campbell's to see Mr. and Mrs. Walter Langston and children. I had a nice visit with them. The children are so cute. The Langstons now live in Temple, where he is music director for the Methodist Church. Mrs. Campbell and Mrs. Nickols had prepared a wonderful lunch and knowing Walter as I do he did justice to the lunch.

Mr. and Mrs. P. R. Jordan and daughters entertained company from West Texas, her sister and family. Her niece remained for a longer visit. Mrs. Jordan and girls took them home and will visit her mother before returning home.

This morning I heard a terrific noise and looked out the window and saw Dutch hitting at something, and our little blackcocker spaniel barking his head off. The dog had found a rattlesnake in the corner of the yard. Dutch killed the snake. P. R. Jordan has killed three snakes in his barn and Johnnie Smith killed one in the road in front of his house.

I had thought about giving Buttons away but now I would not sell him for a pile of money, he has found several rattlers.

Mr. and Mrs. Fred Laughlin have as their house guest Miss Peggy Stone of Tennessee, a friend of their son Jimmy.

We visited the Buckner Boys Ranch and saw Velda and Charles Blackburn. They were fine and said tell everyone hello.

Mr. and Mrs. Harold Brearley of Fort Worth spent the week-end with her parents, Mr. and Mrs. T. A. Casbeer.

We Salute Labor On The All-American Team...

Yes, the strength of our nation depends on the wage-earner... the man, or woman, who produces the necessities and luxuries that make our nation the most abundant in the world. Without Labor, America could not have survived the wars that have demanded so much in the way of raw materials and manufactured goods. Without them, none of us would enjoy such a high standard of living.

Labor Day was first observed unofficially in 1882... but in 1894, Congress passed a bill making it a legal holiday. Today, employers and employees join hand-in-hand in celebrating the day with picnics, meetings, parades, speeches, athletic events and other holiday activities. We take this opportunity to wish everyone a very happy and safe Labor Day Holiday!

TEXAS A. & M. COLLEGE EXTENSION SERVICE

BY GEORGE G. REESE

**DO NOT USE LP GAS
IN TRACTOR TIRES**

For Safety's sake, don't use liquefied petroleum gases in tractor tires or for paint guns. Butane and other LP gases are highly explosive, and under certain conditions, extremely dangerous.

W. L. Ulich, Extension Agricultural Engineer, says that one gallon of butane can be as powerful as one hundred sticks of dynamite. Ulich warns especially about using LP gas to inflate tractor tires or in paint guns. It is sometimes done, he says, because it is the only gas under pressure on the farm.

Ulich told of a mechanic losing his life while trying to change a tractor tire which, unknown to him, had been filled with butane. If there are tractor tires filled with one of these gases on your place, be careful with them and get rid of the gases as soon as possible. Don't be guilty of negligent homicide, or of even taking a chance. Take the proper precautions when handling these fuels and use them only for what they were intended.

**FARM EMPLOYERS MUST
PAY SOCIAL SECURITY**

Any farm and ranch employer who pays \$150 or more to a laborer or who hires a farm hand

20 days or more during a year must pay social security taxes on the wages involved, according to Cliff Bates, extension farm management specialist.

For the \$150-a-year test, Bates says the cash wages does not matter so long as the employee works for one employer 20 days for cash wages based on some unit of time, such as an hour, a day, or a week.

Bates points out that it is not necessary that cash wages paid the worker be earned during one continuous period. Wages paid to children or to parents of the employer are not subject to the tax.

Records of each worker's earnings along with his social security number should be kept. The farmer must withhold \$2.25 from each \$100 of wages paid and then must match this amount. This tax must be paid by the employer during January of the following year. However, if as much as \$100 in taxes, including the employer's portion, becomes due the Government, the employer must send in a report earlier. Remittance must be made within 15 days of the end of the month in which this amount of tax was accumulated.

Farmers who employ laborers should have an employer's identification number. This can be obtained by filing application

For the trust and confidence the people of the 16th Senatorial District have placed in me by their vote last Saturday, Mrs. Crump, our daughter, Elaine and I want to humbly express our gratitude and appreciation. The people of this Southwest Texas District and the Hill Country were extremely cordial and hospitable to all of us during the entire campaign. They were kind in giving encouragement when we needed it most.

Reports indicate that the people of the district have nominated me by more than a 2,000 vote majority and gave me a majority in 14 of the 18 counties.

I assure you that I shall strive to represent you in the Texas Senate with dignity and honor and to the utmost of my ability — remembering at all times that the office belongs to you. I want all of you, including those who supported others in this race, to join me in making our area a better place to live. We have the resources and the right kind of people to accomplish our goals.

To every person who helped me in this race we express our gratitude because without the support of so many fine people we would never have been successful.

After taking a few days of needed rest I shall visit with the people of the district again to secure your counsel and advice.

Louis Crump.
