Farm Bureau Joins Agricultural Effort

Mills County Farm Bureau has joined an all-out, statewide effort to increase consumption of meat, poultry and dairy products during the holiday season, according to Bill Bishop of Goldthwaite, president.

The organization will promote the giving of certificates for these products as holiday gifts, he said. "We think this is a positive approach in assisting those commodities which are in serious trouble," he explained.

The local FB leader said there are two ways this can be done conveniently:

(1) Through buying gift certificates (redeemable in those commodities) at grocery stores. "We are providing gift certificates to stores which do not have their own, along with colorful gift envelopes," he said.

(2) Through giving a check or money order. Farm Bureau will provide an attractive message card (explaining the gift idea) along with a nice gift envelope. The County Farm Bureau office at Goldthwaite in Mills County has a supply of both items, free of charge.

Three Accidents Reported In County

Wednesday, November 20, U.S. 183 and Business 84 was the scene of a two-vehicle accident. The accident, which occurred around 10:25 a.m., involved a 1971 Chevrolet station wagon driven by Jack Lynn of Southville, Michigan, and a 1969 Ford pickup driven by Clyde Kerby of Goldthwaite.

The station wagon, traveling south on 183, apparently failed to yield right of way at the red light, thereby colliding with the Kerby vehicle which was headed east on Business 84. No injuries were received in the accident.

Damage sustained by the station wagon was estimated as minor, while heavy damage was estimated on the right front fender of the Kerby vehicle.

Sunday, November 24, at 5:40 p.m. on U.S. 183 south of Goldthwaite, a 1974 Ford struck a deer in the roadway. The driver of the car, Patricia Farmer of Baytown, was uninjured. Minor damage was sustained by the car.

Around 8:15 p.m. Sunday, 6.9 miles north of Goldthwaite on Texas 16, a 1966 White tractor-trailer struck a black calf in the roadway, knocking the calf over into the northbound lane of the road. A 1974 Ford driven by Henry Rinn of Dallas, traveling north on 16, also hit the calf, causing the vehicle to run off the road into the bar-ditch. The truck, which was loaded with \$18,000 worth of peanuts, skidded across the road and overturned. The driver of the truck, Daniel Bennett of Comanche, suffered a severe laceration on the back of his hand. No other injuries were received.

The car was estimated to have moderate damage and the truck was severely damaged.

Livestock, Agricultural Problems Discussed With Governor

On Wednesday, Nov. 20, T. A. Cunningham, President of the Independent Cattlemen's Association of Texas, met with Governor Dolph Briscoe to discuss the many problems facing the livestock producer and the agricultural industry at this time in Texas and throughout the United States.

Cunningham said "I was very pleased to have the opportunity to visit with Gov. Briscoe and give him detailed information on the purposes of our association and to seek the Governor's assistance for the livestock producers in solving the many complex problems which we face. The Governor has a thorough understanding of these problems and expressed his desires generally to do what he could to be of assistance. The Independent Cattlemen's Assn. is hopeful that Texas, through the initiative of the Governor's office, can take the lead nationally to save the livestock producer from financial disaster and in fact the entire agricultural industry which is the backbone of this country."

Cunningham said that several years ago Governor Briscoe was responsible for initiating the screwworm eradication program in Texas and the I. C. A. has used a similar method to establish its organization. With the Governor's support and other Texas and national leaders, we will be able to stop the excessive importation of foreign red meats, reduce the difference between the cost per pound on the hoof and the cost over the counter still allowing reasonable profit for the livestock producer, and be

CTCOG Passes Resolutions Relating To Gatesville School

The uncertain future of the Gatesville School for Boys and the Mountain View Unit dominated action taken by the executive committee of the Central Texas Council of Governments Thursday.

The CTCOG committee passed three resolutions relating to Gatesville state facilities; two of which focus on the school's future use in the event it is closed by court order.

One resolution calls for the Gatesville School to be used either by the Texas Department of Corrections or for a \$11 million federal youth rehabilitation center which the Federal Bureau of Prisons has proposed be located in Texas.

Another resolution authorizes a feasibility study on facilities at Gatesville to determine their "best use" if the reformatory is closed. The resolution also states the study should determine if the facilities could be used for a regional jail, a facility for adult offenders or the location for a juvenile offenders program.

The CTCOG committee passed a third resolution requested by Mills County officials and Del Barnett, director of New Horizons Ranch Inc. at Goldthwaite, requesting that the Legislature better utilize existing facilities which care for the emotionally deprived delinquent and neglected youths.

Barnett told the committee that Texas does not provide funds for such care and warned that if the Gatesville facilities are closed, there will be a greater need for juvenile residential treatment programs in all sections of the state.

Star Boys Defeated; Girls Win Over Zephyr

Friday night the Star A Team basketball boys were defeated by a strong Zephyr team 110-48. High point scorers for Star were Tommy Hartley, 16; Jimmy Witty, 14; and Bill Brown, 12. High pointers for Zephyr were Terry Miller, 30, and Tommy Howard, 27.

Star girls took the game against Zephyr girls 49-22. High pointers for Star were Pam Hamilton, 20; and Dorothy Jurek, 16. Kim Locks was the high point girl for Zephyr with 16 points.

This Friday night Star has an open date, but will play Jonesboro Tuesday, December 3rd. Game time is 7 p. m.

"HAPPENINGS"

Our regular monthly birthday last week, co-hosted by the Self Culture Club, was thoroughly enjoyed and to further enhance the program, a musical duo, consisting of Mrs. Syble Head at the piano and Mr. Julian Evans on drums, provided great toe-tapping entertainment. Our residents are inquiring about a repeat performance real soon, which we hope they will comply. Mr. Morgan McNeil is always faithful in entertaining us with religious group-singing on tape. Games played last Thursday afternoon with the RSVP group were well-attended. Several tables were enjoyed. Mr. Bryan Oglesby always has a good audience showing his films, as the reports made by the residents about last Friday's films attest to the fact that they were, as always, a special treat. The Goldthwaite F.H.A. girls entertained us with a sing-song on Monday afternoon. As Mr. Jose Duncan said, the singing was superb and the basket of fruit, presented by the group for the Thanksgiving season, was sincerely appreciated and certainly enjoyed.

Our Monday night movie, a double feature, complete with bags of popcorn, was reminiscent of a bygone era, as we were shown movies depicting early American days.

We want to welcome Mr. E. L. Pass as a new resident to our home.

We are very happy to have most of our residents back from

the hospital and we do hope Mr. J. G. Boatwright is able to be brought home soon.

We had a nice little rain Saturday and a nice, cold north wind Sunday.

Mr. and Mrs. Royston House of Goldthwaite spent Sunday with her sister and husband, Mr. and Mrs. Paul Kincheloe.

Mr. and Mrs. Lloyd Laughlin called in the home of his parents Sunday afternoon.

Mr. and Mrs. Paul Lee went to Marble Falls Friday and returned Saturday to see Mrs. Lee's sister, Mrs. Leo Barker.

Mrs. Dade Wilkey, Mr. and Mrs. Fred Laughlin and Mrs. Lina McLean were callers in the Webb Laughlin home Saturday afternoon.

Mr. and Mrs. El Duncan spent several days at Dallas; their son-in-law had an operation Thursday.

Mr. and Mrs. Jack Waldrup were in the Paul Lee home Monday morning.

Mrs. Paul Lee visited with Mrs. Orb Duncan Sunday evening. Mr. and Mrs. El Duncan also visited Mrs. Duncan.

Mr. and Mrs. Haskell Alexander spent Wednesday with his parents, Mr. and Mrs. Alexander, at Lampasas.

Little Miss Micheal Robins of Long Cove visited with Mrs. Haskell Alexander Friday afternoon.

Extension Highlights

By Judy Beavers
Mills Co. Extension Agent

This just may be the year of the turkey. Although the turkey roamed over Texas and Mexico long before Columbus came to our shores, the All-American bird is looking its best this year. Turkeys are plentiful, and to top it off, the price is right. Of course, at any price turkey is an excellent buy nutritionwise. But now turkeys are a double value.

Nutrition is presently the name of the game and turkey wins this game hands down. Turkey is highest in protein and lowest in fats of all our common meats. It is also a meat that is high in riboflavin and niacin - two of the more important B vitamins. Turkey is common fare for holiday meals but really deserves more use by most families on a year-round basis. Size should not be a deterrent, as the raw frozen turkey may be divided, wrapped and refrozen for delicious meals. A publication, "Freezing Poultry for Home Use," provides helpful hints and is available from the Mills County Extension Office.

Turkey also works well when the cooked meat is refrozen for later use. Some families serve turkey for an evening or Sunday dinner and then debone and freeze the remaining turkey for later use - saving just enough for cold turkey a day or so later. No matter how you cut it, turkey is usually one of the better protein values. Have you ever compared the foods you buy on the cost of the protein they are supplying to your menu? Just use the protein content and price per pound for any food. Turkey meat is naturally low in fat. One would expect to find 125-150 calories in a serving. Of course, if the serving were

just white meat, it would be less. Self-basting turkeys are a little higher in calories due to the added basting sauce. But the calorie count is still low when compared with chestnut and sausage stuffing or gravy made from pan drippings.

One of the biggest secrets in roasting turkey is keeping the meat moist. Since the birds are so young when processed for market, the naturally low-calorie meat has little fat. Keeping this meat moist requires more care than for meats having more fat. You can conserve moisture by covering the bird in a roasting pan, placing it in a special plastic bag, or 'tenting' it with foil and cooking at 352F. The turkey is cooked when a meat thermometer placed in the center of the thickest portion of the meat registers 180 degrees F.

Recommendations for after Thanksgiving Dinner:

1. If turkey is stuffed, remove dressing immediately. Bacteria grow quickly in the warm cavity. It is even better if you don't stuff the turkey at all or don't eat the stuffing.
2. Debone the turkey within 24 hours.
3. Refrigerate turkey and dressing immediately after the meal.

Friends Lou Thomas of Imperial, Texas, and Troy Hood Proctor were united in marriage last Saturday afternoon at the home of the late Mrs. W. H. Jones. The Rev. Joe Riggsby, pastor of the Baptist Church in Abilene, performed the wedding ceremony.

Friends Lou is the daughter of Mr. and Mrs. Gene Thomas Imperial. Troy is the son of Mr. and Mrs. A. T. Hood of Abilene.

All of her family were present at the wedding except one brother who is in the Navy and was unable to attend.

The wedding was a bit unique that all those in the wedding party were dressed in blue jeans.

Mrs. Effie Blassegame of Abilene is here visiting for time with her daughter, Mrs. T. Hart and family. She plans to spend the winter months in Florida with one of her sons, Mrs. Bertha Weathers and Mrs. Effie Wigley of Goldthwaite visited for a while an afternoon last week in my home.

Goldthwaite Eagle - Editor
Dear Sir:

Enclosed please find check for \$6.30. Please renew subscription to the Eagle for Mrs. Clara McGirk . . .

P.S. You people have a lovely city park and you seem to be interested in promoting Mills County. You have something within 2 1/2 miles of Goldthwaite that might add to visitors and tourism to your city if it were opened up. The name of it is Snow Cave. It is not far from the old dump ground. It was a popular place for young folks to visit 65 to 70 years ago and longer than that. It dates back to the days of the Spaniards in that section of the world. There must be a few persons there that could locate it for you - J. D. Berry, Ben McKinsey, Glen Nichols or Prentice Iah, some of them could, most likely, locate it. I know quite a bit of the history about it as told by an old Mexican miner who lived on the Colorado River in the 1840's and 1850's - he lived to be about 100 years old. I knew him in about 1910, 1911 and 1912.

If you can stir up any interest in the old diggings you may have quite an attraction, and it is a phenomenon.

Sincerely,
Nat McGirk

STATE CAPITAL Highlights AND Sidelights by Lyndell Williams

AUSTIN—Legislative Budget Board heard warnings that spending demands and cost of school finance formula revision are fast eating up an anticipated \$1.4 billion surplus.

L.A. Gov. Bill Hobby said talk of tax cuts is "premature" until the board completes its spending recommendations next month.

LBB aides echoed earlier words of caution that spending all the fat surplus in sight would mean a record tax bill of \$1.5 billion in 1977. They also calculated that state government agencies already have requested more than \$1.7 billion in increased general revenue appropriations for the coming fiscal period. That is 80.3 per cent over the current level—and \$800 million more than the anticipated surplus at the end of the next biennium.

Cost of overhauling the school finance formula—priority goal of the 1975 Legislature—was estimated at from \$570 million to \$873 million during 1976-77.

LBB figured it has recommended \$362 million in general revenue increases for the agencies. More agencies will have their appropriations requests reviewed and acted on December 9.

The Mental Health and Mental Retardation Department would receive under board recommendations \$68.4 million in general revenue—an increase of \$227.3 million, but far short of the \$913.6 million requested.

Recommendations of the budget board will go to the legislature when it convenes next January to write the 1976-77 appropriations act and perform other biennial lawmaking assignments.

WIDE OPEN ALLOWABLE—For the 35 consecutive month, the Railroad Commission ordered a 100 per cent statewide oil allowable in December.

Major purchasers of crude oil wanted slightly more than four million barrels a day produced. This is a slight decrease, of 33,912 barrels, from November.

Most purchasers asked for the same amount. One asked

a substantial increase, and another decreased its nomination to buy slightly.

LIQUOR BOARD HEAD QUILTS—O. N. "Newt" Humphreys resigned under fire as administrator of the Alcoholic Beverage Commission.

Hired in 1968 in a general cleanup move, Humphrey said he was quitting because a second member of the three-man ABC had asked him to step aside.

R. L. Thornton Jr. of Dallas had been after Humphrey's scalp since last May. Joe Burkett of Kerrville last week came over to Thornton's point of view, at least in part.

Humphrey shocked a House Liquor Regulation Sub-Com-

mittee by announcing his move at a meeting of the group immediately after a brief closed-door ABC meeting. He indicated he was caught in a cross-fire between Thornton and Burkett over whether or not to fire some of his employees.

COURTS SPEAK—The Supreme Court took under advisement lengthy arguments over whether the Railroad Commission has power to apportion natural gas among areas in accord with supplies and needs.

A Lower Colorado River Authority \$11 million contract suit against Coastal States Gas Producing Company has been transferred from Brenham to Bryan.

The Court of Criminal Appeals reversed a life sentence ordered for a Harris County man convicted of slaying three, and ordered a new trial.

Another sentence—35 years for sale of heroin—was reversed by the same court on grounds of hearsay notations on the evidence submission envelope.

AG OPINIONS—A county mental health and mental retardation authority must post

notice of meetings on a public bulletin board in the courthouse under the open meetings law.

In other recent opinions, Hill concluded:

• When no fees are set by the legislature, district clerks can charge a reasonable fee for their services.

• There is no necessary legal incompatibility between the dual employment of independent school district tax assessor-collector and city commissioner, although such a conflict is conceivable depending on facts in each case. (Hill declined to pass definite judgment).

• A prison inmate on emergency reprieve is subject to

Department of Correction rules and regulations and custody precautions.

• The Texas Air Control Board, while it has power to establish standards of performance for new stationary sources which have a practical possibility of emitting air contaminants, does not have

authority to require permits for construction and operation of indirect sources of contaminants. Neither does it have authority to enforce federal regulations, although it can adopt and enforce its own, and monitor political activities.
