One of Many.  
H. A. Tisdale, of Summerton, S. C., suffered for twenty years with the Piles. Specialists were employed and many remedies used but relief and permanent cure was found only in the use of DeWitt's Witch Hazel Salve. This is only one of the many, many cures that have been effected by this wonderful remedy. In buying Witch Hazel Salve it is only necessary to see that you get the genuine DeWitt's, made by E. C. DeWitt & Co., Chicago, and a cure is certain. DeWitt's Witch Hazel Salve cures all kinds of piles, cuts, burns, bruises, eczema, scalds, ring-worm, skin diseases, etc. Sold by Central Drug Store.

A man who had fooled around for 45 years in a state of singleness doing his own cooking and sewing on his own buttons joined the Mormons and proceeded to marry two wives. One of them was a fat young thing of about 25, but the other had gray hair and store teeth and was so close to fifty that she could step on the date. When he tied up with this double team this man had nearly enough hair to stuff a pillow, but some of it was gray and some was a muckle-dun color. Within a week after marrying the young wife, who

wanted her half of the husband to look young and gay, began to yack but the gray hairs, but the old wife who didn't want a husband who looked so much younger than she began to pull out the muckle-dun hair and within two years the poor man had no more hair than a Mexican dog.

Moral: The individual who undertakes to trifle with people, of widely different opinions is liable to get it in the neck.

### HUTCHINSON COUNTY LAND CASE

Austin, Tex., Nov. 4.—The supreme court yesterday refused to grant an application for a writ of error in the case of State of Texas against Jot Gunter and others. This case involved the title to land which had been located in what was erroneously spelled "Hutchins" county instead of Hutchinson county. The case was decided in favor of the defendants, Jot Gunter and others.

The leading department stores of New York and Brooklyn spend \$3,500,000 a year in advertising. It would be joking to ask: "Does it pay?"

### CLOTHIER ON TREES

Amabillo Herald.  
Since my visit to your beautiful little city two years ago, I notice that great improvements in the matter of the erection of new buildings have been taking place. I am a little disappointed, however, to see that tree planting along the streets and on the lawns has not kept pace with the growth of the city. I hope you will urge this matter upon the attention of your people through the columns of your valuable paper.

The amount that property value may be enhanced through the beautifying of streets and lawns with shade trees is difficult to overestimate. Your wide avenues makes it possible to plant a row of trees on each side of the street between the sidewalk and the driveway. If property owners would then plant trees in alignment immediately inside of their lawn fences, the sidewalks would be laid between rows of trees. Such a plan for a city makes it beautiful beyond description and greatly increases the comfort of its inhabitants. The trees should be planted about 20 feet apart in both directions, and in the future, when they mature, each alternate tree in the rows may be cut out leaving them 20 by 40 feet.

Some of your people may object saying that trees will not grow on the plains, and that money and labor spent in tree planting will be lost. Such objections are not valid since there are many examples where trees are growing west of the 100th meridian where the annual rainfall is less than 20 inches. At Cheyenne Wells, Colorado, both forest and fruit trees have been growing for several years without irrigation. Many of the towns in western Kansas located on a bald prairie 20 years ago, are now almost buried in a forest. In a city like Amarillo it will pay property owners to irrigate shade trees from wells, at least until they get so well established that they need no artificial water supply.

Your people may inquire what specie to plant. The best rapid-growing forest tree for this region is the black locust. Other species that can be depended upon are the white elm, green ash, hackberry, red cedar, Chinese aborvitae and honey locust. The cottonwood and Carolina poplar will thrive if given sufficient moisture. They are thirsty trees and for this reason should not be planted where irrigation is not available. The western yellow pine from the Rocky Mountains also deserve trial here.

It may interest the people of Am-

arillo to know that forest trees may be purchased at amazingly low prices. Black locust, white elm, green ash, cottonwood and honey locust seedlings may be obtained from reliable dealers at \$1.50 to \$3.50 per thousand. The seedling trees should be secured and planted in a garden nursery for one season so as to give them opportunity to become somewhat acclimated. They will be on hand to plant the second year at the right time and can be taken up with balls of earth around their roots thus insuring the growth of a large percentage. The young seedlings can be irrigated and cultivated better in the nursery than in the lawn and the repeated transplanting, if carefully done, serves to increase the fibres of the roots thus making the trees more valuable.

Not only should city people plant more trees in this part of Texas, but farmers should plant blocks of 5 to 10 acres on every homestead. Fence posts and fuel for the farm may be grown artificially on the plains in 12 to 15 years. The windbreak afforded by a grove of trees placed near an orchard and residence will more than pay for all that the trees will cost. The writer believes that by the proper arrangement of windbreaks, the moisture of the soil may be conserved in sufficient quantity to make this country one of the best farming countries in the United States.—Geo. L. Clothier, Assistant Forest Inspector, Bureau of Forestry.

### HIGH PRICED PROSPERITY.

On July 1, 1897, not quite four months after the republican party began the lease of power it has held ever since, the average cost of food, clothing and other necessary articles of consumption was \$72.45 per head of our population. On Sept. 1, 1904, after a little over seven years of the blessings of republican rule, it was \$97.84, an increase of \$25.39 per head, or \$126.95 per family of five.

These are the official figures published by the Department of Commerce and Labor, lately under the control of Mr. Cortelyou. They show an increase in the necessary cost of living of over 35 per cent. That means that it takes \$1.35 now to buy the things a dollar would have bought in 1897. It means that in order to be even just a man who was earning a dollar a day in 1897 ought to be getting \$1.35 now, that one who was earning \$2 ought now to be getting \$2.70, and that one who was earning \$3 ought to draw \$4.05.

How many people know that a first-class quality of saur kraut can be made from turnips? A gentleman living in Dalhart who has tried it says that it is a fact and he is not only making up a quantity for himself but also for others. He says that it is fully as good and healthful as kraut made from cabbage. A carpenter's plane or other sharp instrument should be used in slicing the turnips as thin as possible, after which they should be placed in a barrel and salted just the same as if using cabbage.—Ex

J. B. Taylor, a prominent merchant of Christman, Texas, says: "I could not eat because of a weak stomach. I lost all strength and ran down in weight. All that money could do was done, but all hope of recovery vanished. Hearing of some wonderful cures effected by use of Kodol Dyspepsia Cure, I concluded to try it. The first bottle benefited me, and after taking four bottles, I am fully restored to my usual strength, weight and health." Kodol Dyspepsia Cure digests what you eat and cures.

Texas Topics

Ablene After New Railroad. Ablene: At a meeting of citizens of Ablene a definite proposition was made looking to the securing of the Colorado, Texas and Mexico Railroad. The company proposes to put the road in running order before a cash payment is required, but must be secured. In return, the railroad company proposes to give a bond for the performance of its part of the contract. The proposed line is from Haskell to Coleman or Ballinger. Ablene is asked to give a bonus of \$60,000 and right of way through that county. Half of this amount is payable when the line is completed to Haskell and the remainder when the south line is completed. A committee has been appointed to secure the required bonus.

New National Banks in Texas. Washington: The application of F. A. Tucker, H. C. Glenn, W. L. Williamson, H. F. Williamson and C. J. McCarty to organize the First National Bank of Katy, Tex., with \$25,000 capital, was approved by the Controller of the Currency. The Merkel National Bank of Merkel, Tex., has been authorized to begin business with a capital stock of \$25,000. Joseph H. Warnack, president; J. O. Hamilton, vice president; W. H. Dunning, cashier.

Two Are Hurt in Santa Fe Wreck. Cleburne: Another wreck occurred at Turkey Creek, a few miles east of this city Thursday night, on the Dallas branch of the Santa Fe Railroad. Those who were in the wreck say that it was miraculous that no one was killed. Conductor W. J. Buis was writing in the caboose, Brakeman Norwood was in the cupola, when the wreck occurred, and both of these employees were badly hurt.

Centenarian Dies at Houston. Houston: W. F. Faulkner, 100 years of age, died Thursday morning at St. Anthony's home in this city. The exact age of the deceased at the time of his death was 100 years 11 months and 3 days. He was born in South Carolina and served in the Confederate army during the civil war. He has been an invalid for the past few years. His death came from old age and feebleness.

Austin: Fire of incendiary origin Thursday morning almost completely destroyed the Austin Canning factory, conducted and owned by W. B. Walker & Sons, involving a loss of \$20,000, with \$14,000 insurance. The burning of this factory has thrown 100 people out of employment, it being one of the leading industries in Austin. It will be rebuilt.

Brownwood's Flower Show. Brownwood: Brownwood is to have a flower show and agricultural exhibit Nov. 16 and 17. The ladies, assisted by the men, promise to make it a grand success. Last year the flower show was held with the carnival, but the carnival was held so early this year it was impossible to have the flower show then, so an agricultural exhibit will be added. A baby show will also be held one day.

Bolt Weevil Congress Called. Shreveport, La.: A congress of the cotton-growing States and Territories of the United States has been called to meet in this city Dec. 12, 13, 14 and 15, to take the necessary steps to control the bolt weevil plague and prevent its spread. The official call for the congress was issued Friday by resolution of the Louisiana Bolt Weevil Association in convention assembled in this city on suggestion of Capt. E. Johnson of Memphis, Tenn.

A Two Hundred Dollar Rooster. Waco: George M. Kneebie, owner of the single comb White Leghorn cockerel which won the first prize at the World's Fair in the universal poultry show, sold the bird for \$200 to H. M. Kaufman of South Bend, Ind. The high-grade poultry men here say it is the highest price ever paid for a Texas chicken. It has greatly encouraged the Waco fanciers and will draw several new people into the business.

The permanent survey of the McKinney-Bonham electric railway is about completed.

"Free Grass" Quits Texas. Paris: A farmer and his family passed through from Hunt County a day or two ago en route to Arkansas. The head of the family said that he had moved from Arkansas to Texas and back seven times and that when he got back this time he expected to remain. He said that he was leaving Texas on account of the stock law, which rendered it impossible for a poor man to own horses and cows unless he owned land for them to run on.

For Increased Business. Fort Worth: The Northern Texas Traction Company has let the contract for an addition to the power house at Handley, which will increase the size of that building one-third. The contract was let to a Fort Worth man, but the figures were not given out. Additional machinery, sufficient to meet the demands for recent extensions in the city, will be installed. Other improvements will be made later on at Handley.

Was Mexican War Veteran. Terrell: Capt. J. W. Todd, an old citizen of this city, died suddenly at his home in South Terrell Wednesday morning of heart failure, aged 76 years. He got up as usual and started a fire in the family room, then sat down. Mrs. Todd went into the kitchen to start a fire. In a few minutes she returned to the room and found her husband dead in his chair, with his head hanging over the back of the chair.

Deceased was a Mexican War veteran and bore wounds on his limbs at the time of his death that were received at the battle of Monterey. He had been a resident of Terrell twenty years. He served as City Secretary and filled many other responsible positions during his residence here. He leaves an aged widow and four children surviving.

Quail Eats Weevil. Laredo: On examination of some quail killed in a cotton field in the southeastern portion of the county which was badly injured by boll weevils, the craws of these quail were found stuffed with boll weevils. Cotton planters in the county making this discovery will ask the next Legislature to pass a law prohibiting the killing of these birds for a period of five years. In this connection it is also stated that the common dove feeds on this insect.

World's Fair Prize Chickens. Waco: The Poultry Club gave George M. Kneebie a banquet in recognition of his newly attained supremacy in Single Comb White Leghorns, having won at the chicken show of the Exposition at St. Louis first and fifth on cockerels of the breed named above. Mr. Kneebie is a merchant by profession and puts in his spare time in his White Leghorn yards of several acres in one of the outer divisions of Waco.

Productiveness of Grayson. Sherman: Ed. Thomas of this city has proven the great productiveness of Grayson County soil this year by raising three crops on the same patch of ground. He first planted English peas and after gathering a bountiful harvest of this crop, planted bunch beans, which also produced well and after ceasing to bear, the vines were turned under to give place to sweet potatoes, which have yielded abundantly.

Temple-Belton Interurban. Temple: A large gang of men has been put to work in the last few days by the interurban traction line. Grading has been completed in the city up to Avenue A, in the business section, and the steel layers are only a few blocks behind the graders. It has been decided to operate the line in the city and as far as Midway, and every effort will be made to have communication opened with Belton by Thanksgiving Day.

Polytechnic College Bars Football. Fort Worth: At a meeting of the faculty of the Polytechnic College the following resolutions, signed by the President, Rev. H. A. Boaz, were adopted: "Whereas, The students of Polytechnic College have sustained surgical injuries playing football; and "Whereas, It is deemed best to prevent further injuries; therefore be it further resolved; therefore be it further resolved that the Polytechnic College no further permit intercollegiate football games."

E. J. Martin Dead at San Antonio. San Antonio: Edward J. Martin, for eleven years general freight and passenger agent of the San Antonio and Aransas Pass Railway, with headquarters and residence in this city, died at the Santa Rosa Infirmary Wednesday afternoon of a complication of stomach diseases. Mr. Martin had been ill for more than a year, but it was only ten days ago that his trouble took an acute turn. He was taken to the hospital one week ago.

At Milwaukee Elmer Erickson, captain of Stoughton High School football team died Monday. He was injured in a game Saturday.

Big Field of Potatoes. Hillsboro: A Peryman, living seven miles from here raised 155 bushels of sweet potatoes this year on one sixth of an acre of land. He sold them for considerably over \$100. His farm is in the sandy land. He had five rows of Melton yams that made fifty-five bushels. The rows were 125 yards long. Nine rows of the vineless yams made 160 bushels. One of his potatoes weighed 11 3/4 pounds and two of them weighed 22 pounds.

First Train on Belton-Temple Line. Temple: The first car on the interurban Trolley Line was started today and made the run from Main street and Avenue G to the power house at Midway. Two cars were in the train and they contained a number of specially invited guests. Messrs. Kren and Ahrens, who are in charge of the construction work, arranged the train which was in the nature of a trial run.

LATE ELECTION NEWS

A Brief Report From Each State in the Union.

AND FROM OKLAHOMA TERRITORY

In the State of New York President Roosevelt's Plurality was Greater Than McKinley's in 1900 by About 41,000.

New York, Nov. 9.—If Maryland has gone republican the republican vote in the electoral college will be the unprecedented one of 235 for Roosevelt and Fairbanks to 131 for Parker and Davis. Not only is this far in excess of McKinley's vote, 292, in 1900, but Judge Parker's vote is four less than that given Mr. Bryan four years ago. It is practically certain that the republican national ticket has carried every state in the union outside the so-called "Solid South." It may take the official count to decide Maryland. The republican majority in the next House of Representatives will be not less than 50.

Topeka, Kansas, Nov. 9.—At 12:30 Chairman Stubbs, of the republican state committee, claimed the election of Hoch for governor by a plurality of 50,000; Kelly for state treasurer, by 15,000 to 29,000. Roosevelt's plurality will be close to 100,000.

The indications are that Roosevelt will carry the state by a heavy majority. The returns already received are from points scattered over the state and nearly all show an increase over the majority given McKinley four years ago. The ticket is badly scratched and the complete returns are not expected for several hours. T. T. Kelly, candidate for state treasurer on the republican ticket is running behind his ticket. All the republican congressmen are elected.

Utah. Salt Lake City, Nov. 9.—The state is conceded to Roosevelt by 8,000 plurality. Returns are slow in getting in. Many precincts and inland towns are yet to hear from.

California. San Francisco, Nov. 9.—Republicans are claiming the state by a larger majority than McKinley received in 1900. Seven out of eight republican congressmen are elected.

Massachusetts. Boston, Nov. 9.—In the city Roosevelt received 49,423 and Parker 38,553. For governor Bates (Rep.) 28,576; and Douglas (Dem.) 62,619. This count is up to 11 o'clock last night and only includes the city.

Ohio. Canton, Nov. 9.—It is estimated that Roosevelt carried the state by 113,000 plurality.

Nevada. Reno, Nov. 8.—The count is proceeding very slowly. So far as heard from the republican state ticket is in the lead, and Yeerington, republican, for congress is probably elected over Van Duser, democrat. The state is conceded to Roosevelt.

South Dakota. Sioux Falls, Nov. 9.—Roosevelt has carried nearly every county in the state by pluralities of from 100 to 2,000, indicating that his plurality will be not far from 50,000. Information received here indicates a light vote polled in the southwestern counties. Comparisons will be made with the vote of two years ago, in which B. S. McGuire, republican, was elected to congress over W. McCross, democrat, by a plurality of 394. Two precincts in Stillwater gave McGuire 23 majority, as against 73. City of Perry gave McGuire 135 majority, a gain of 37. Edmund; Matthews, 21 majority, a gain of 82.

McGuire's majority in Guthrie, 807, a gain of 84. Pottawatomie county gives Matthews 985 majority, gain of 340 for McGuire. Chairman Filson claims McGuire's majority in territory will be over 3,000.

North Dakota. Grand Forks, N. D., Nov. 9.—Roosevelt carried North Dakota by from 20,000 to 25,000. There is an increase of over 60 per cent from McKinley's majority. The state ticket is probably elected by 40,000. Of the 140 members in the House of the legislature about 131 will be republicans. This will insure the election of a United States Senator to succeed McCumber.

Vermont. White River Junction, Nov. 9.—Roosevelt carried Vermont by about 31,500. He ran ahead of McKinley's vote in 1900, while Parker ran behind that of Bryan. The only question at issue was the choice of presidential electors.

The figures of the democratic and republican managers show little variance from this result. Kentucky in 1900 gave Bryan 8,098 plurality. The returns from 683 precincts show a plurality of 16,026 for Parker.

Pennsylvania. Philadelphia, Nov. 9.—United States Senator Penrose, republican, state chairman, said tonight: "My advices from all parts of the state indicate that the majority of 325,000 which we claimed, will be equalled, if not exceeded."

New Jersey. Newark, N. J., Nov. 10.—Early returns from all parts of New Jersey indicate that Roosevelt has carried the state by a much larger majority than McKinley in 1900, which was 56,899 over Bryan. Eight republican congressmen appear to be elected. The democrats carry two congressional districts. The state senate and state assembly will remain republican by big majorities, securing the return to the United States Senate of John Kean, the present senior senator.

The republican state committee claims that Roosevelt has carried the state by 60,000 or over. Newark is republican by 10,000 or more. The election of Stokes for governor is likely by at least 20,000.

Illinois. Chicago, Nov. 10.—Dispatches to the Associated Press up to 2:15 a. m. show that the republicans have elected 208 congressmen and the democrats 135. Forty-three districts are still missing, and the majority of them are now represented by republicans.

BUTTERFLIES BRED TO ORDER.

In Demand by Rich Men to Beautify Their Lawns.

"Butterflies make an admirable garden decoration, and, therefore," said a landscape gardener, "they are being bred for lawns the same as peacocks are bred."

"You have heard, of course, of 'peacock farms.' Their crops are peacocks, and the birds are sold to rich men to decorate their lawns with. Well, a butterfly farm is one where the crops are butterflies. Such a farm has been set up in California and it is doing well."

"The farm was started on a capital of \$500. A glass house was put up and 5,000 caterpillars were bought. The caterpillars in due time became butterflies. The butterflies were sold at a fair profit to a number of millionaires."

"In certain millionaires' gardens it was possible to see during the summer big flocks of butterflies—some white, some blue and some iridescent. These were a part of the crop of the butterfly farm."

"The California breeder got his idea from London. There for some years they have bred all the butterflies that decorate Battersea park beautifully."

### In Electoral College.

New York, Nov. 10.—The republican national ticket has been elected by a vote in the electoral college that will exceed that of 292 given for McKinley a 1900. The result of the balloting was astounding even to the most sanguine of the republican managers. Confident as they were of success, they were not prepared for the astonishing figures which followed the closing of the polls, bringing into the republican column not only all of those states they had claimed as safe for their candidates, but, with the possible exception of Maryland, every state classed as doubtful. Democratic successes were confined to solid south, in which Kentucky is not included, and Mr. Parker has not carried a single state which did not give its vote to Mr. Bryan four years ago. Unofficial returns indicate that he has lost more of those which the Nebraska candidate held for his party. Official figures from some of the northwestern states may slightly change the totals, but at least on the returns available at a late hour last night, the electoral vote stands as follows:

### For Roosevelt.

This shows a total electoral vote of 151 for Parker.

As a dramatic climax to the sensational majorities came President Roosevelt's announcement that he would not be a candidate for re-election, lending the only exciting aspect to an election night otherwise so one-sided that it was impossible for even the victors to attain that degree of enthusiasm that usually marks the occasion.

Late in the night came an announcement from Melville G. Palliser, manager of the campaign for Thomas E. Watson, the candidate of the people's party that as a result of the overwhelming democratic defeat steps would be taken to form a new party. To this end, according to the announcement given out, Mr. Bryan, Mr. Watson and William Randolph Hearst would hold a conference in New York in about a week's time.

### Latest News From Kansas.

Topeka, Kan., Nov. 10.—Returns at hand show that Roosevelt has carried Kansas by a majority closely approaching 100,000. E. W. Hoch is elected governor by the republicans by a plurality of 55,000 or more. T. T. Kelly, republican candidate for state treasurer, will receive a plurality of 12,000. Many scratched tickets, together with an intricate ballot system makes the returns so late that a correct count of the vote cannot be obtained for several hours.

Kelly, the state treasurer, had a hard fight. His election was practically the only thing on the ticket over which there was a contest.

The legislature, which may have to elect a United States senator, will be overwhelmingly republican. The congressmen received majorities lightly less than Governor Hoch. There was a fight on in the First, Second and Sixth districts and the election of the republican members was thought to be in doubt.

### Mills to Start.

Washington, N. J., Nov. 7.—Kenson Brothers today announced that they would start rolling with 200 men November 14. The mill has been closed two years and the people are starving. The mill is located at Oxford.

### Prince of Wales III.

London, Nov. 7.—It is reported on good authority that the Prince of Wales is not strong and that he has consumption. The Prince is to visit Portugal and Egypt and possibly the United States.

### Business Still Uneasy.

London, Nov. 5.—It is learned that Lord Lansdowne has reported to the cabinet on the peace negotiations. A complete agreement has not been reached. Business is still uneasy.

### Went on Full Time.

Providence, R. I., Nov. 2.—The mills of the Hope company went on a full time basis today. The 500 employees have been working on half time because of a dull cotton goods market. The Oriental mills which have been closed for a year will resume.

### Latest Returns From Missouri.

St. Louis, Mo., Nov. 10.—The republican ticket, says that the state by 25,000 majority, but that the Roosevelt landslide in the country at large has affected Missouri and the national ticket has run behind the state ticket to an extent estimated variously from 8,000 to 15,000.

At republican state headquarters at 4:30 it was asserted that Walbridge, republican, had been elected governor by from 2,000 to 4,000, and that Roosevelt had carried the state by 20,000.

At 2:15 a. m. only scattering returns had been received from all portions of the state and the result in Missouri, both in the state and national tickets was still in doubt.

At that time the democratic state committee claimed a state majority of 25,000, while the republican state committee persisted in a republican state majority of 20,000. The actual results will not be known for several hours at least.

Kansas City, Nov. 10.—The Journal's returns up to 2:45 indicate that Roosevelt carried the state, and that part of the republican state ticket is elected, though Polk, democrat, for governor, is probably safe.

### Massachusetts.

Boston, Nov. 10.—Sufficient returns from the election in Massachusetts have been received to indicate a victory for Roosevelt and Fairbanks electors, but at the same time a defeat of Governor Bates for election by William L. Douglas, the democratic candidate. The republicans, however, elected the rest of the state ticket, and at least 10 of the 14 congressmen and a large majority of the legislature, which will select two United States senators.

The democrats elected besides their candidate for governor, at least three congressmen. Roosevelt's majority is estimated at \$2,000.

### Idaho.

Boise, Nov. 10.—33 precincts out of 482 in the state give Roosevelt 8,005; Parker 3,191. Gooding for governor, 7,915; Heilfeld, 4,611. Only 12 of 23 counties represented in the returns so far. A plurality of 25,000 for Roosevelt seems to be indicated by returns at hand and 10,000 for Gooding.

### New York.

New York, Nov. 10.—At 3 a. m., 1,507 of the 1,550 precincts in New York City reported a plurality of 35,168 for Parker, whose total vote, with 43 precincts missing in the greater city was 314,881, while that for Roosevelt was 279,263. The remaining precincts were the outlying and densely populated sections, and these figures of practically complete.

At 4:30 a. m. the latest figures on governor of Greater New York give Higgins 257,651 and Herriek 321,131, or a plurality for Herriek of 74,982, with 57 precincts still to be heard from.

### Maryland.

Baltimore, Nov. 10.—(Maryland estimate). Returns from the city and state are not complete, but it is apparent from the official reports so far received that the vote in Maryland is very close, and that the result will not be decided until the night, owing to the slowness of the returns from the remote districts in eastern shore and southern counties. In Baltimore the indications are there may not be a difference of a hundred votes.

### Maine.

Portland, Nov. 10.—Returns received at 12:30 a. m. from all but 154 out of 519 cities, towns and plantations gave Roosevelt a plurality of 31,785. This is a republican gain of 8,349 over that given in the same election four years ago. The missing towns gave McKinley 4,731, Bryan 2,567.

### Pennsylvania.

Philadelphia, Nov. 10.—Estimates from the entire state give Roosevelt a plurality in Pennsylvania of between 300,000 and 400,000. In Philadelphia Roosevelt's majority radiated Philadelphia Roosevelt's plurality will exceed 178,000.

### Connecticut.

New Haven, Nov. 10.—It is estimated that Roosevelt's plurality will reach almost 25,000, which is several thousand ahead of McKinley's figures in 1900. On the state ticket from governor down, as well as the congressional, there was a clean sweep.

### His Health Failing.

St. Petersburg, Nov. 5.—It is announced that the health of Prince Sviatopolk-Mirsky, the minister of the interior, which in recent years has not been robust, has been seriously impaired by overwork in connection with his new office. His official receptions have been discontinued, and possibly he will be obliged to take a rest at some European resort.

### Riotous Soldiers.

St. Petersburg, Nov. 5.—While en route for the front at Bicheroff, a small town in Mohiloff province, 200 reservists became riotous and got beyond control of their officers. They broke into the wine houses, then attacked 175 shops, looting them. The Jews were the greatest sufferers. Similar scenes occurred at other points along the railroad.

### THE POWER OF ITERATION.

Anything Will be Believed if Repeated Often Enough.

There is nothing more extraordinary than the effect produced by reiteration upon the public mind. Almost any nonsense makes an impression if only it is repeated often enough in print. The fortunes made by soaps, hair washes, patent medicines, patent aids to cookery, etc., are witnesses to this curious fact.

There is a form of self-advertisement which proves even more pointedly than commercial advertisement the wonderful potency of assertion. It is something far subtler than what we have been discussing, and appeals to a smaller and more select public. In this case the deception goes further, but it is necessary to obtain the full effect that a person who makes the assertion should himself believe in its truth. The power to deceive with which the self-deceived are often endowed is remarkable.

By countless assertions a stupid man can convince himself. This is why unrepentive people become so pig-headed and prejudiced as they get older.—The Speculator.

Difficult Work.

"It always seemed strange to me," remarked the observer of events and things, "that a surgeon should have as much difficulty carving a duck as any other man."—Yonkers Statesman.

### DEALER IN GOLD BRICKS.

Instead of Being a Sutor Visitor is Usually a Swindler.

"When I'm standin' at my gate and lookin' up the road," said the old farmer, as he drew a long whiff of his pipe, "and a feller heaves into view with a hay horse and a buggy with rubber-tire wheels it don't take me over five minutes to make up my mind that he's comin' to ask for the hand of one of my seven girls."

"And does it turn out that way," was asked.

"Never. He drives up and gets down and comes in and jest about the time I git my smile on and ready to ask him whether he wants Mary or Hannah, he heads me off with:

"Say, Uncle Reub, I've got a gold brick here in my coat-tail pocket and as I'm a little hard up today I'll sell the blamed thing for about half its worth!"

### Salaries of Russian Statesmen.

Every Russian minister receives a salary of about \$12,000 a year, and the Ministers of the Interior and Finance receive large additional sums. The salary is for life, even if the Minister is only in office a few months.

### Fashions in Paraguay.

Nearly all the younger women in Paraguay wear white or light pink frockes; dark and black gowns are worn only by the older ones. Face powdering is still in vogue, and many of the women look as if they were white masks.

Women are imposed on, in most respects, but when it comes to kin, they have their way.

### A GREAT INSTITUTION.

It is unusual that a single institution in a city of 100,000 people should be of importance over other interests, but such is the case with the American School of Osteopathy and A. T. Still Infirmary at Kirksville, Mo.

A stranger in Kirksville is immediately impressed with the idea that the town is sustained by this institution. In fact, Kirksville has been made what it is today by Dr. Still and his famous school and infirmary. It is the largest patronized and endowed institution of its kind in the United States.

Dr. Still's school enrolls over 700 students yearly and each student is required to attend four terms of five months each before completing the course of study. There are over 2,000 graduates and they are practicing in every state and territory of the Union. About two-thirds of the states have passed special laws legalizing the science.

This school teaches every branch taught in medical colleges except "drugs" and osteopathy is substituted for that. So thorough is the teaching in anatomy that over one hundred human bodies are dissected yearly by the students.

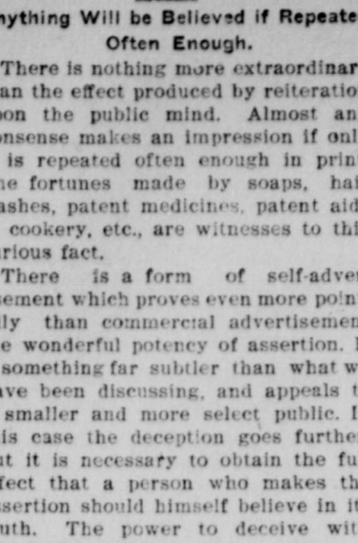

At the infirmary, patients from every part of the country, with almost every form of disease are constantly under treatment. For the past fifteen years almost every train coming to Kirksville has brought some new sufferer hoping to find relief by the science of Osteopathy. By the thousands who have left the institution benefited by the treatment, the science has been heralded to the world as a safe and rational method of cure. Several years ago a free clinic was established in connection with the practice department of the school and this is still in operation. Hundreds of the worthy poor, who are unable to pay for treatment, are treated every afternoon by two senior students free of charge.

It may be but a small matter even if a man doesn't know his own mind.

When You Buy Starch buy Defiance and get the best, 16 oz. for 10 cents. Once used, always used.

The reason W. L. Douglas shoes are the greatest sellers in the world is because of their excellent style, easy fitting and superior wearing qualities. If I could show you the difference between the shoes made in my factory and those of other makers, you would understand why W. L. Douglas shoes cost more to make, why they hold their shape, fit better, wear longer, and are of greater value than any other \$3.50 shoe on the market today, and why the sales for the year ending July 1, 1904, were \$1,000,000.00.

## LOCAL NOTES.

Call on Stone & Houston for barbed wire.

Dr. Beebe returned Tuesday from a visit to the World's fair.

Get a nice, fat, rib roast at the Gist Meat Market at 5c per pound.

L. O. Honey of Gray county was trading with Miami merchants yesterday.

Hams, Breakfast Bacon, Lard, etc., at the Gist Meat Market.

A fight has been on between our coal dealers and a good grade of natural coal has been selling at \$6.75 per ton.

New York City's great merchants spend more for advertising than for rent.

We are selling everything in the building line at cost—that is what it cost you; but have some very attractive prices.—Stone & Houston.

The oyster supper given Monday and Tuesday by the Ladies' Aid Society netted about \$20.

The election is past and the agitation in this matter is over. Now let all get together, for the upbuilding of Miami. More trade can be brought to city by a united action on the part of our merchants and the citizens generally.

The editor of THE CRIER moved to his new home this week, hence the paper is a little late, and probably short on news.

If you do not want good coal and cheap coal don't call on Stone & Houston.

Newt Locke has been going around this week with his head all bandaged as a result of being struck between the eyes with a base ball bat flying from the hands of a boy who was batting.

Prof. Redus, assisted by Mrs. L. C. Heare, is getting up a play, "Ten Nights in a Bar Room," to be given to the public about Christmas.

You will notice elsewhere the add of Christopher Bros., who are now in the drayage and transfer business.

Ochiltree County is not heard from yet and only two boxes are in from Harford County. These two boxes give Kelly 21 and Fisher 12 votes, making Kelly's majority so far as heard from 427. It will probably be 450 when the full returns of these two counties are in. There are nine counties in the district.

### Trials of Winter.

Do not permit yourself to be a victim to a cold or cough. They lead to pneumonia, consumption and elsewhere. Be wise; use Simmons Cough Syrup. It cures coughs, heal lungs and will keep you right here to enjoy the beauties of spring.

### Bridge Over the Zambesi.

It is reported from Rhodesia that work on the bridge which is to span the Zambesi river near the famous Victoria falls, will be begun soon. The bridge will be of one span, 600 feet in length, and will cross the Zambesi some 400 feet above the water over a narrow gorge through which the river flows at that point.

### Value Literary Degrees.

In a forenoon office report on the trials of Nanking, it is stated that such is the value placed on literary degrees by the Chinese that during a period when hundreds of the inhabitants were dying daily from cholera no fewer than 17,000 students visited the city to compete for two hundred

### Whole-Headed Storks.

Capt. Stanley Flower writes from the Zoological gardens at Giza, Egypt, that the three specimens of the curious "whole-headed" or "whole-necked" stork received from the White Nile in 1902 are still in good health and condition in the Giza gardens. No living example of this rare bird has reached England since the arrival of Mr. Petherick's original specimens in 1860.

The first snow of the season fell here Thursday night. But it was light, barely covering the ground.

The pleasant to take and harmless One Minute Cough Cure gives instant relief in all cases of Cough, Croup and LaGrippe because it does not pass immediately into the stomach, but takes effect right at the seat of the trouble. It draws out the inflammation, heals and soothes and cures permanently by enabling the lungs to contribute pure life giving and life-sustaining oxygen to the blood and tissues. Sold by Central Drug Store.

Miss Carrington of Pampa and Miss Mary Lewis are in the city today.

A son was born to Mr. and Mrs. R. G. McCauley at Nobeletic on Wednesday of last week, but only lived three days.

Stone & Houston have good coal. Also Missouri coal at \$6 per ton and Trinidad coal at \$7 per ton.

Senator Henshaw and wife and Mrs. Hoax, all of California, are visiting at the Fitch Hotel, the two ladies being sisters of Mrs. R. C. Fitch.

Four-fifths of all the woe in the world is imaginary, or brought on by imps of the mind. Don't go out looking for disasters; let the disasters do the running after you. It will save a heap of brain fat.

Mrs. Ross Ewing entertained Friday afternoon from 3 to 5 o'clock in honor of Mesdames Henshaw and Haax of California. Dainty refreshments were served. Out of town guests were Mrs. Stockman of California, Mrs. White of Canadian and Mrs. Chives and Haax of California. Dainty refreshments were served. Mesdames Henshaw, O'Loughlin, Baird, Hendricks, Rainey, Mead, Johnson, Frank Heare, Patton, Winsett, Gist and Baker.

Dr. Dodson & Lewis, dentists, front rooms, Smith building, Amarillo.

Dr. F. M. Johnson, of Granite, Okla., is now at the Fitch Hotel, as per his card. Dr. Johnson says it is his desire to locate in Miami permanently if the patronage will justify it. His wife is now visiting in Kansas City. She is a graduate of the Kansas City Conservatory of Music and Dr. Johnson says when she comes to Miami she will want to go up a class in music.

The Christmas number of the New Idea Woman's Magazine has a table of contents both practical and festive. The magazine grows superior with each issue and the Christmas number is the grandest yet. It deserves its ever increasing popularity. This number has many suggestions for the holiday season, "Seasonable Sweets for Christmas day," for instance, is a title that will appeal to the many good housewives whose custom is to always prepare a grand Christmas dinner.

We have on hand a small lot of well casing and piping and ten Eclipse wind mills—12, 14, and 16 feet wheels—which we will sell at wholesale prices for quick sales. These mills are at our Miami, Canadian and Pampa stores and can be delivered at Canadian or elsewhere.—Johnson Mercantile Co.

After paying for the side-walks the committee has \$18 left. It is proposed by some that this be used to provide a public water trough. We think the idea a good one, but the hardest proposition is to find a place to locate the same. None of the business men want it close to their stores because of the cattle that are always swarming around it, particularly when the heat flies are bad in the spring. For the same reason no one would want it close to their residence. To get it away from the business streets, too, would put it where it could not be furnished with water without going to the expense of putting down a well and erecting a wind mill. We need a public watering place to accommodate the people who come to town to trade, in watering their teams, also for the milk cows belonging to the people of our town. These are questions to think about. Let the matter be freely discussed by our citizens and may be that some definite action can be taken in the matter.

A good second-hand sewing machine for sale cheap. Apply at this office.

### ELECTION NEWS.

On our front page we give the election returns for Roberts and Gray Counties. These figures are not official but will be published again next week and corrected to correspond with the count made by the Commissioners Court which will meet next Monday to canvass the returns. The election passed off smoothly and the defeated candidates took their defeat manfully.

### Saved Him.

"It did not kill me but I think it would if it had not been for Hunt's Cure. I was tired, miserable and well nigh used up when I commenced using it for an old and severe case of eczema. One application relieved and one box cured me. I believe Hunt's Cure will cure any form of itching known to mankind." CLIFTON LAWRENCE, Helena, O. T.

### RELIGION IN BUSINESS.

The business men of Atlanta, Georgia, have gone into religion as a matter of business. They have organized a religious league, with Ex-Governor W. J. Northen as a prominent figure, and will institute revival services for the aid of religious progress. The leading business men of Atlanta have concluded that material and commercial advancement is best when furthered with spiritual momentum. The Atlanta people are on the right track.

## REPORT OF SIDE-WALK COMMITTEE.

Of the amount contributed to the 4th of July celebration the finance committee had \$61.35 left. After getting expressions from a number of our citizens the committee constituted themselves a side-walk committee, for the purpose of having side-walks put across the main business streets. The committee believing the public has a right to know the amount of money received and how expended hand in the figures below for publication. ### Chamberlain's Cough Remedy.

No one who is acquainted with its good qualities can be surprised at the great popularity of Chamberlain's Cough Remedy. It not only cures colds and grip effectively and permanently, but prevents these diseases from resulting in pneumonia. It is also a certain cure for croup. Whooping cough is not dangerous when this remedy is given. It contains no opium or other harmful substance and may be given as confidently to a baby as to an adult. It is also pleasant to take. When all of these facts are taken into consideration it is not surprising that people in foreign lands, as well as at home, esteem this remedy very highly and very few are willing to take any other after having once used it. For sale by Central Drug Store.

### REDUCED RAILWAY RATES.

To National Irrigation Congress at El Paso, Texas, Nov. 15 to 18, 1904, rate \$15. Date of sale of tickets Nov. 10th, 11th and 12th. Final return limit Nov. 22. By depositing tickets with joint agent at El Paso on or before Nov. 19 and payment of deposit fee of 50c return limit will be extended to 30 days from date of sale.

Northwest Texas Conference M. E. Church, at Mineral Wells, Texas, from Nov. 15 to 22. Rate via Washburn \$14.95. Selling dates Nov. 14, 19 and 16. Final limit Nov. 23, 1904.

### Cause of Lockjaw.

Lockjaw, or tetanus, is caused by a bacillus or germ which exists plentifully in street dirt. It is inactive so long as exposed to the air, but when carried beneath the skin, as in the wounds caused by puncture caps or by rusty nails, and when the air is excluded the germ is roused to activity and produces the most virulent poison known. These germs may be destroyed and all danger of lockjaw avoided by applying Chamberlain's Pain Balm freely as soon as the injury is received. Pain Balm is an antiseptic and causes cuts, bruises and like injuries to heal without maturation and in one-third the time required by the usual treatment. Sold by the Central Drug Store.

### LAND!

Power of Attorney has been conferred upon the undersigned to sell direct to purchasers, and to execute deeds for lands in Block Number Three of the I. & G. N. R. Co. surveys, Gray County, Texas; also for lots in the new and promising town of Pampa.

I have also very excellent pastures to rent.

I have a bath room the second door west of the Post Office and am prepared to serve the public in this line.
