

LESLIE L. LADD, Ed. and Pub.

MIAMI TEXAS

Avoid These, Says a Leading Physician, and You May Live Out Your Allotted Days and Do Your Life's Work Well.

Dr. Thomas C. Ely, of Philadelphia, in an article on neurasthenia in the Journal of the American Medical Association, lays much stress on hurry and worry as leading causes of nervous exhaustion. He has this to say:

"Learn to hurry little and worry not at all. An illustration consists in the fatigue in the hurry to catch a train, which is out of proportion to the physical effort expended. Individuals are too much like the modern telephone sign, 'always on duty.' For hurried and worried business or hurried and worried pleasure, hurry alone or worry alone are poisonous to the normal functions of the nerve system. But the American combination of worried hurry is deadly. Each brings into action the worst features of the other."

"Of course every one who stops to think will agree with the author, but how few are able to follow his good advice? Worry is only the extra work, the increased wear and tear for which we are never paid. It always hinders but never wins. It means incapacity for anticipated efforts, and yet we constantly blame circumstances rather than our individual selves. The man who is always ready and takes time to be sure before he starts never need hurry or worry. How few can do this consistently! Then comes the breakdown which is so often charged to mere overwork. In 89 cases in a hundred it is the worry, always useless, that eventually weakens and kills."

The gloomy foreboding not only saps the energy of all valiant endeavor to conquer difficulties, but cheats us in the end by proving the old adage, that "the expected never happens." If we compare notes we can easily prove the comforting truth of the saying. If the disconsolate man who for years feared the death of his invalid wife could have known she would survive him for more than a quarter of a century how much unnecessary mental suffering would have been spared him!

The absolute utility of worry is the lesson of it all. The future, as a rule, is more often a surprise and delight than a disappointment and discipline. We grieve when we look ahead and smile when we look back. But with most people experience counts for nothing in new obstacles appear. It is the old story that the last difficulty will be insurmountable. But each in his turn soon learns that he cannot control events, disturb the relations of cause and effect or alter the immutable laws of destiny, no matter how strongly he may yearn to do so. The only reasonable way to adjust matters is to wait until the time comes for the solution of the dreaded problem."

Mostly, also, we lack the courage, patience, good judgment and preparedness to meet the issues as they arise. We waste thought, strain nerve and banish sleep in anticipation of that which never transpires. "Don't shoot until they come out" combines lots of sound wisdom with no end of good philosophy. We not only worry in advance of the thing, but after it is done. We calmly planned our escape and our best what more could have been done?"

A main difficulty is in striving to do too much and in overtaxing our capacities. The strong, steady, self-reliant man has no misgivings, but the weak one mistrusts every thing, himself included. He contrives against odds and worries and hurries, while others eat, sleep and are merry. But this is going to be the way with the average nervous American. It was he, in fact, who invented neurasthenia. The disease is a habit, a habit of him, and worry, hurry, restlessness and irritability are its leading features. He takes his business home with him, eats with it, sleeps with it, dreams with it. It is his shadow, it blurs all his pleasures, stands between him and his family, all because he must borrow trouble and mortgage happiness, health and life in the balance."

The Best Nervine. To sleep out of doors for a month is better than a trip to Europe. In this climate one must have a roof, of course, but any piazza that is open to serve as a bedroom; and the gain in happiness is unbelievable. With an abundant supply of good air the sleep soon grows normal, deep and undisturbed and refreshing, so that you open your eyes upon the world as glad as a hunter or any panther shepherd in the morning of the world. We grow anxious and flustered and hurried with distractions; the goblins of worry become an inseparable companion, and we groan in spirit that the universe is all awry, when in truth half a dozen deep breaths of clean air would lead a different complexion to life. Our anxieties are nearly all artificial, and are bred indoors, under the stifling oppression of walls and roofs and the maddening clangor of pavements, and a day in the open will often dispel them like a mist.—Bliss Carman, in American Craftsman.

Malapropos. "I understand that the Rev. Mr. Goodings is considered to have very little tact."

"He hasn't any. Once he lost a call to a large church in Philadelphia. He was invited over there to preach, and roared out his text twice in a loud voice: 'Awake, thou that sleepest!'"

Not Such a Fool After All. A theological student supposed to be deficient in judgment was asked by a professor in the course of a class examination:

"Pray, Mr. E., how would you discover a fool?"

"By the questions he would ask," was the rather stunning reply.

Slightly Sardonic. "How did that university you founded come out?"

"It is doing great work," answered Mr. Dustin Stax. "It is devoting special attention toward economic development in the hope of finding a way to prevent all the wealth and power from drifting into the hands of grasping persons like myself."

THE VENTRILOQUIST.

PASSENGER STEAMER SANK

With Nearly 200 Persons on Board Only 19 Are Saved.

The Larchmont Collided With a Schooner Off Block Island—Survivors Badly Frozen.

Block Island, R. I. — About 150 persons went to their death in Block Island Sound Monday night as a result of a collision of the three-masted schooner Harry Knowlton and the Joy line steamer Larchmont, bound from Providence to New York. It is estimated that including the crew there were nearly 200 persons on board the steamer when she sailed from Providence. Of these only 19 appear to have survived the disaster, ten members of the crew and nine passengers. Forty-eight bodies have been recovered.

Awakened from their slumbers in their staterooms, the unfortunate passengers were at the mercy of the waves. Many, it is believed went down with the ship. Others, temporarily thankful that they escaped drowning, prayed that they might be relieved of the terrible pain caused by their frozen bodies, and one unknown passenger plunged a knife into his throat and ended his sufferings.

The few who survived were in a pitiful condition. In almost every case their arms and legs hung helplessly as they were lifted out of the boats in which they reached shore. During the day 48 bodies came ashore, either in boats or thrown up by the sea.

The steamer with a huge hole torn in her side was so seriously damaged that no attempt was made to run for shore, and she sank to the bottom in less than half an hour. The Knowlton, after she had backed away from the wreck, began to fill rapidly, but her crew manned the pumps and kept her afloat until she reached a point off Quonehontas, where they put out in the lifeboat and rowed ashore.

A Difficult Problem. Washington, Postmaster General Covelien Tuesday made a statement about the president's inquiry as to whether it was feasible to bar from the mails newspapers printing "discussing particulars" of the Thaw trial. He said he had turned the matter over to the attorney general and will discuss the matter later with him. It is practically admitted that it is too late to do anything that can have a bearing on the publication of the Thaw trial.

Colorado River Turned Back. Imperial, Cal. — The last water coming through the break in the Colorado river was shut off Monday morning after a long and hard struggle by the Southern Pacific railroad company. The New and the Alamo rivers, carrying water from the Colorado to the Salton sea, are rapidly going dry in the valley. It is expected that Salton sea will now fall steadily and will fully disappear through evaporation in about ten years. The floods have caused but little actual damage to the cultivated lands of the valley.

Russian Mine Horror. Belknap, Russia. — The coal mines here caught fire Monday while the miners were at work. As this disaster is fled 49 bodies have been taken from the shaft.

McBride With Kansas City. Milwaukee. — George McBride of Milwaukee Tuesday sent a signed contract to George Tebeau of the Kansas City American Association team for this season. McBride will play second base.

Reached Agreement With Men. Philadelphia. — The Pennsylvania railroad management Tuesday reached an agreement regarding wages with its engineers, firemen and trainmen on the line east of Pittsburgh and Ohio.

Drove the Japanese Away. Portland, Ore. — A special to the Oregonian from Woodburn says: Considerable feeling was engendered here by the Southern Pacific laying off white men employed on the railroad section at this point and replacing them with eight or ten Japanese. The feeling ran so high that 50 Americans called at the section house Saturday night and warned the Japanese to leave town. There was no violence and the Japanese promised to leave and Sunday morning they left Portland.

WE ALL EAT SUGAR.

Per Capita Consumption in the United States During 1906 Was 76 Pounds.

Washington. — "The average citizen of the United States seems to have consumed one-half his own weight in sugar in the year just ended," says a statement issued Friday by the bureau of statistics of the department of commerce and labor. The average per capita consumption was 76 pounds. The amount of sugar consumed was six and one-half billion pounds at a cost of over \$300,000,000.

Of this enormous consumption one fifth was produced in this country, more than half or 67,200,000 pounds being produced from beets. This was an increase of 26 per cent in the production of beet sugar from 1906 to 1907.

Rapid as the increase in sugar production in the United States has been in recent years, it has not by any means kept pace with the increased consumption. In the last ten years there has been an increase in the consumption of this article of 2,024,813,489 pounds, it being more than three times as great as the increased home production.

Getting Even With Railroads. Omaha, Neb. — The war department has found a way to get even with the Union Pacific and Northwestern railroads for refusing to haul the Tenth cavalry from Nebraska forts to San Francisco at lower than tariff rates. Although the soldiers were scheduled to start on the journey on February 25, Friday orders were issued to hold the men until March 1, on which date the colonist rates are put in effect on all western railroads and the soldiers will be hauled at one-half the regular rate, plus two dollars. This is a lower rate than the quartermaster's department expected to secure from the railroads on a regular bid.

Says Japanese are Friendly. San Francisco. — State Senator C. R. Lukins, who returned Sunday on the steamer Siberia from Japan, where he has been sojourning for his health, says that he witnessed in Japan no evidence of ill-feeling toward the United States but that on the contrary he was led by prominent Japanese to believe that that country entertains a warmer sentiment of friendship toward this nation than toward any other, and that any thought of war between the two countries would be extremely repugnant to the Japanese.

Price of Crude Oil Advanced. Independence, Kan. — The price of mid-continent crude oil was advanced one cent Monday for all grades by the Prairie Oil & Gas company, making the highest price now 40 cents and the lowest 27. This is one of the most important news developments in this field in a long time, as it shows that the bottom has been reached and the reaction started. With the exception of the big Glenn pool nearly all of the production in this district is now being taken.

Two Cent Fares for Iowa. Des Moines, Iowa. — Iowa's two cent fare measure passed the house Tuesday by a vote of 106 to 0. The publication clause was stricken out so that if it passes the senate it will become a law July 1. Cheers greeted the passage of the measure in the house.

Volvic's Dream Abandoned. Seattle, Washington. — Overseer Volvic's dream of establishing a new Zion City in the northwest has been abandoned with the announcement Monday that he has given up a trip here and along the Pacific coast planned for next month.

Kingston's Mayor Dead. Kingston, Jamaica. — Charles Tait, mayor of this city, died Sunday afternoon at the public hospital as a result of injuries sustained at the time of the earthquake.

Press Club Contest Winners. Denver. — The contest for the best descriptive article on Colorado inaugurated by the Denver Press Club last summer for the benefit of the delegates to the convention of the International League of Press Clubs, held in Denver in August, is closed and the prizes were awarded Sunday. From all points of view, the contest was entirely satisfactory. The prize winners are: Guy L. Ingalls, Free Press, Detroit, Mich., \$250; Opie Reed, Inter-Ocean, Chicago, \$250; Merton J.

TERSELY TOLD OF TEXAS

TWO MEN ARE KILLED AND THREE ARE INJURED.

Stockmen Accompanying Cattle Caught in Ruin That Follows When Struck by Locomotive.

Denison, Tex. Feb. 7.—Two persons were killed and three were injured in a rear-end collision of Missouri, Kansas and Texas stock trains at Alvarado, Tex., early yesterday morning.

The dead are John Wright, E. A. Talk, stockman, Serbin, Texas. The injured are W. T. Coon, stockman, J. P. Simmons, stockman, D. Browning, stockman.

The killed and injured were all in the caboose of the train, which was standing at Alvarado. No members of either train crew were injured.

The collision occurred at 1:45 o'clock yesterday morning. A stock train in charge of Conductor George Wright and Engineer Muncie was taking water at Alvarado. The caboose was south of the station. Conductor Wright was at the station getting orders and the brakemen were also off the train. The second train, in charge of Conductor Joe Cain and Engineer J. N. Cowen, came into Alvarado while the first stock train was standing still, and struck the caboose. The caboose was demolished and one car proceeding it was derailed, but not badly damaged. Engine No. 510, which was pulling the second train, was derailed and damaged by the collision.

E. A. Talk, the stockman who was killed, was in charge of a shipment of cattle from Giddings, Texas. John Wright was a young man, and was a nephew of Conductor Wright, on whose train he was riding. Both were instantly killed.

The body of John Wright was brought to Denison yesterday afternoon for burial. Wright was traveling on the freight train for the purpose of learning the road in order that he might take a position as brakeman. He was about 18 years of age.

Tragedy at Marshall. Marshall, Tuesday night, W. S. McLaughlin was shot and instantly killed in a saloon near the Texas and Pacific passenger station. The deceased was a machinist in the Texas and Pacific Railway shops here, and leaves a widow and two children. The remains were conveyed to an undertaker's and prepared for burial and were then taken to the residence of his father, John L. Hugard, another machinist of the Texas and Pacific shops, surrendered to Deputy Sheriff Clyde Menden, and was lodged in jail.

New Railway Company Chartered. Austin. The articles of incorporation of the Stephenville, North and South Texas Railway Company, were approved Wednesday afternoon in the state department and filed for record in the secretary of state's department. The capital stock of the company is fixed at \$250,000, and the principal office will be located at Stephenville, Erath County. The purpose of this corporation is to construct, operate and maintain a line of railroads from the city of Stephenville and run in a southerly direction therefrom through Erath County into and a part of Hamilton County, to the town of Hamilton, a distance of about 35 miles.

Former Governor P. H. Leslie died at his home Friday, aged eighty-eight years. Mr. Leslie had been Governor of Kentucky and of the Territory of Montana.

Another Investigation On. Austin. The senate is to investigate the efficiency of employees of that body. The question came up over a resolution which had been referred to the committee on contingent expenses for the employment of an additional stenographer, and when this report came up, there was opposition to it. A resolution was offered and adopted providing for investigating the thoroughness and industry of the present force.

New Variety of Belief Growing. San Antonio. County Judge Shook continues his war on pistol totes. It is a sorrowful day when a man who has a shooting iron is jerked up before the County Judge of Bexar County. Not since he has been in office has he administered a fine of less than \$100 for this offense, and always attaches fifteen days in the county jail for good measure. This is done, regardless of the political influence of the man.

Good Roads Meeting. Waco. The good roads convention held two meetings here Saturday, Col. W. H. Moore, president of the National Good Roads Association; Col. T. P. Rixey, counselor of the association; Prof. K. Stricker of Waco, and others representing the organization, besides one hundred citizens of the county were present. A number of speeches were made, resolutions adopted and committees appointed.

Anti-Pistol Toting Judge. San Antonio. County Judge Shook continues his war on pistol totes. It is a sorrowful day when a man who has a shooting iron is jerked up before the County Judge of Bexar County. Not since he has been in office has he administered a fine of less than \$100 for this offense, and always attaches fifteen days in the county jail for good measure. This is done, regardless of the political influence of the man.

Great Causeway Ordered. Austin. At 4:50 o'clock Saturday afternoon the Texas Railroad Commission unanimously issued an order containing a sweeping condemnation of the facilities now provided for connecting the port of Galveston with the mainland for railroad transportation, and ordering the several roads entering that city to construct a causeway at least 110 feet wide within a reasonable time. The Commissioners seem to be very determined in the matter.

Expensive City to Live In. High prices continue to rule in Dawson City, which is probably the most expensive town in the world. It is a thriving place with a population of over 8,000, with warehouses, churches, banks, electric lights, wholesale and retail stores and two up-to-date newspapers. The newspapers themselves are worthy of consideration in the light of expense, for they cost 25 cents a copy. At this time of the year three eggs ordered in a restaurant cost \$1.50, while a carbon steak costs one dollar. Beer is worth one dollar a bottle and champagne \$10.50 a quart.

Let each endeavor to be of use to himself and others. This is not a precept or a counsel, but the utterance of life itself.—Goethe.

RICE MURDER CASE.

Hillsboro: In the trial of the Rice wife-murder case, pending in the District Court here on charge of venue from Johnson County, eight witnesses had been examined when court took a recess from 6 until 8 o'clock at night.

Among the witnesses who testified this afternoon were Dr. Pickett and Towne of Joshua, who attended Mrs. Rice on the day of her death. The jury finally chosen in the case is composed of the following named citizens: A. R. Patterson, Will Edmondson, John P. Lewis, F. O. Pope, K. N. Mason, R. W. Ferguson, G. M. Spears, J. W. Anderson, J. J. Cox, Dave Redmon, H. S. Gablari and J. D. Beckham.

Baptist Industrial School. Rusk. The East Texas Baptist College is to be turned into a young girls' training school. Dr. J. M. Right of Lufkin, Dr. R. B. Longmire and Rev. E. S. Pool of Jacksonville, L. W. Tittle and G. S. Houston of Rusk, constituting the board of directors of the college, met and went over the matter together, deciding finally upon that course. Dr. Right was elected president.

First Bill to Repeal Governor. Austin. The first bill passed by both branches of the legislature, and the first to reach the executive department for approval, was presented to Private Secretary Barton a few days since. It is a railroad bill—not a consolidation bill, however—but the bill originating in the house which grants to railroads of the State an extension of two years time in which to complete certain branches and extensions.

To Rush Interurban. McKinney, Tex.: Two carloads of mules and one car of graders have arrived here from east of Houston and have just been unloaded for work in grading for the Sherman-Dallas Interurban. The outfit will establish camp just north of town, at the location for the big power house, and will at once begin the work of grading between there and East Fork Creek, on the north.

Galveston Didn't Shake. Galveston. The Galveston press severely arraigns the author of an absurd earthquake card sent out from Galveston. The statement was made that Galveston felt shocks Sunday, the rumblings being sufficiently distinct to be heard quite a distance. Vases are alleged to have been broken on mantels, etc., and the commercial bodies are talking of denouncing the publications of such an article.

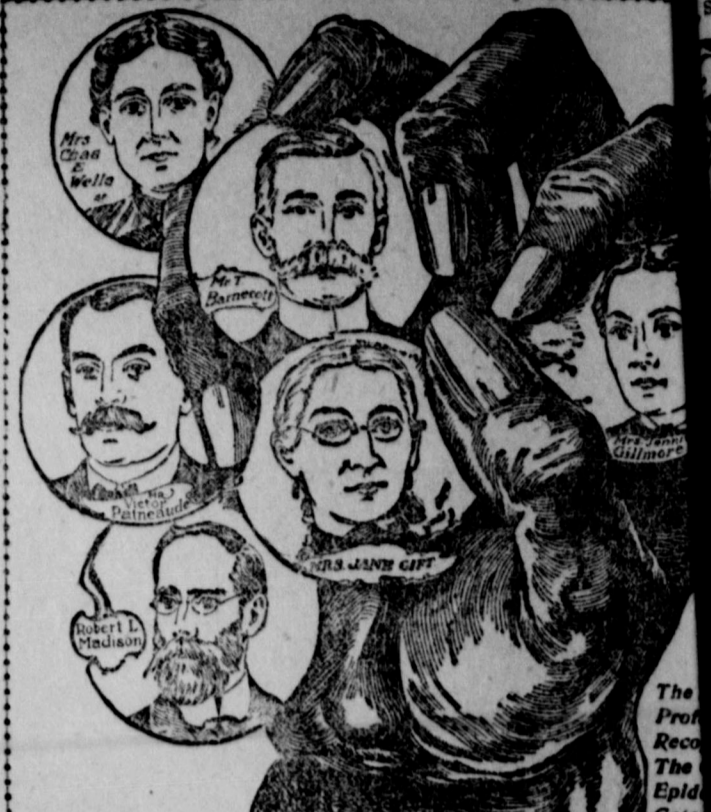

Much Pleased With Work. Dallas: Captain Wooten, chief engineer of the construction work now in progress on the Trinity river, is much pleased with the showing made thus far. With the appropriation recently made by congress the work will be advanced more rapidly. Engineer Ralph C. Smead is now on an inspection trip down the river in the neighborhood of Liberty, where he is on the large snagboat Mansfield.

Several earthquakes occurred Tuesday in Las Mantas, Australia. The disturbance greatly alarmed the inhabitants.

Waco: The apostolic band, which has been creating a great deal of interest among religionists, the members claiming that often they have the "gift of tongues," and are able to speak in many languages, as the "spirit" gives them utterance, is growing here, and the band has now moved into a new and larger hall. The Apostolic movement is led here by J. D. Schumack, and a Bible School is to be opened at once.

Waco: This city is to have a great cotton palace or fair for 1907, and the years thereafter, as it is to be a permanent thing. This was decided Thursday afternoon at a largely attended meeting of the business men of the city, a kind of mass meeting. Sam Sanger presided over the meeting and he was also made chairman of the committee to secure the \$100,000 needed for the exposition.

CAUGHT BY THE GRIP RELEASED BY PERU

EFFECTIVE MEDICINE FOR LA GRIPPE.

Robt. L. Madison, A. M., Principal of Cullowhee High School, Painter, N. C., writes: "Peruna is the most effective medicine that I have ever tried for la grippe. It also cured my wife of nasal catarrh. Her condition at one time was such that she could not at night breathe through her nostrils."

LA GRIPPE AND SYSTEMIC CATARRH. Mrs. Jennie W. Gilmore, Box 44, White Oak, Ind. Ter., writes:

"Six years ago I had la grippe, followed by systemic catarrh. The only thing I used was Peruna and Maudsloni, and I have been in better health the last three years than for years before."

Mrs. Jane Gift, Athens, Ohio, writes: "Six years ago I had la grippe very bad. My husband bought me a bottle of Peruna. I was soon able to do my work."

SUFFERED TWELVE YEARS FROM EFFECTS OF LA GRIPPE

Mr. Victor Patenaude, 328 St. Topeka, Kan., writes: "Twelve years ago I had an attack of la grippe and I never recovered my health until now. I began using Peruna and built up my strength so that in a few months I was able to go again."

PNEUMONIA FOLLOWED LA GRIPPE. Mr. T. Harnett, West Ayr, N. J., writes:

"Last winter I was ill with pneumonia after having la grippe. Peruna for two months, when I came quite well."

PERUNA—A TONIC AFTER LA GRIPPE. Mrs. Chas. E. Walls, Sr., Dr. Chlo. writes: "After a severe attack of la grippe, I took Peruna and it was a very good tonic."

PILES—NO MONEY TILL CURED.

Used Him as Eraser. The late Dr. Henry Martyn Field some years ago related at a Williams alumni dinner a rather amusing incident of his freshman days at college. Being only 12 years old when he entered he had not reached the point where the natural friction between the big boy and the small boy ceases and he was at particular feud with one of his fellows, a stalwart country youth fresh from the farm. One day young Field went early to the classroom and upon the big blackboard a very expusating caricature of his enemy, with his name beneath. When the aggrieved party saw what had been done he said not a word, but catching up his youthful tormentor, he used him as an eraser and after rubbing out the offensive picture quietly took his seat.

NO RELIEF FROM ECZEMA. For Over Two Years—Patent Medicine, Quack Cures, and Doctors Fail—Cuticura Succeeds.

"I was very badly afflicted with eczema for more than two years. The parts affected were my limbs below the knees. I tried all the physicians in the town and some in the surrounding towns, and I also tried all the patent remedies that I heard of, besides all the cures advised by old women and quacks, and found no relief whatever until I commenced using the Cuticura Soap, Cuticura Ointment, and Cuticura Resolvent. In the Cuticura Remedies I found immediate relief, and was soon sound and well. C. Y. Beltz, Tippecanoe, Ind., Nov. 15, '05."

Henry Clay and Lew Wallace. Mr. Clay was of a personality once seen never to be forgotten. Tall, slender, graceful, he had besides the air majestic which kings affect, inspiring it exclusive property.

"Throughout Mr. Clay's performance my eyes scarcely left his countenance, which, as he proceeded, sank from sight until, by the familiar optical illusions, nothing of it remained but the mouth, and that kept enlarging and widening until it seemed an elastic link holding the cars together. Indeed, at this late writing, my one distinct recollection of the man and his speech is the mouth and its capacity for infinite distension"—Autobiography of Lew Wallace.

Red, Rough, Itchy Skin is usually the result of using a cheap, impure soap made from stale fat and alkali cheaply perfumed to disguise the real odor. A good soap costs so little that there is no excuse for buying the other kind. Buchan's Antiseptic soap is not only pure, but it is the only soap that is guaranteed under the new law. Moreover, it contains an antiseptic which protects the skin against disease. Ask your dealer for it. If he does not keep it send his name and address with 18 cents to Buchan's Soap Corporation, New York, who will send you a full size cake.

Expensive City to Live In. High prices continue to rule in Dawson City, which is probably the most expensive town in the world. It is a thriving place with a population of over 8,000, with warehouses, churches, banks, electric lights, wholesale and retail stores and two up-to-date newspapers. The newspapers themselves are worthy of consideration in the light of expense, for they cost 25 cents a copy. At this time of the year three eggs ordered in a restaurant cost \$1.50, while a carbon steak costs one dollar. Beer is worth one dollar a bottle and champagne \$10.50 a quart.

Let each endeavor to be of use to himself and others. This is not a precept or a counsel, but the utterance of life itself.—Goethe.

STILL MORE PROOF

That Dr. Williams' Pink Pills Have Cured Even the Most Stubborn Cases of Rheumatism.

"When I was a boy of sixteen," says Mr. Otto H. Rose, a retired grocer, 1226 Lexington Avenue, Indianapolis, Ind., "I met with a serious accident which injured the bone of my hip over the right eye. I recovered from the accident to all appearances, but not many years after I began to have intense pains in the injured foot which came on every year and would last from a few days to several weeks."

"I consulted the doctors who told me that I was suffering from neuralgia. The sight of my right eye was affected, so that at times I could scarcely see out of it, while both eyes were constantly watering. During these attacks I was often dizzy from the terrible pains. The pains came on every morning and passed away in the afternoon. I never suffered from the pain again."

"I tried without success to get relief until a friend told me to try Dr. Williams' Pink Pills. When I had taken a few boxes I felt the pain growing less intense and in a much shorter time than I had hoped for was entirely cured. I had recovered from the pain in a few days and was taken a few boxes of the pills with good results."

"My wife uses Dr. Williams' Pink Pills for nervous headaches and finds them the best medicine she has ever used as they give relief where all other fail."

Dr. Williams' Pink Pills are sold by all druggists or sent, postpaid on receipt of price, 50 cents per box, six boxes \$2.50, by the Dr. Williams' Medical Company, Schenectady, N. Y.

An instructive booklet, entitled "Nervous Disorders," will be sent free on request to anyone interested.

### GRIPPE

Old, But Has a Sound Back.

William, 87 years old, of 55 Seneca Falls, N. Y., a fine, sturdy old gentleman, who works in his own garden, gives thanks to Doan's Kidney Pills for his sound back and kidneys.

Mrs. Gostelinos, his daughter, says: "Father had a severe attack of lumbago, and he was suffering. He took Doan's Kidney Pills and was cured. My husband was cured in the back by taking a box."

Merchants Born on Farm.

Another monarch of trade, Whiteley, the London merchant who was murdered recently on a farm. It was his boast to be ready to fill any order, no how unprecedented. A field of two army officers who were in the London store and were asked for six elephants, but they wouldn't be there until it turned out that the merchant had arranged with Whiteley.

### THE GARDEN.

Washington. — The petition to the interstate commerce commission containing the complaint of a large number of shippers of Kansas City, St. Joseph, and Omaha against the Chicago, Rock Island & Pacific and four other railroads in the matter of through rates from the Atlantic coast was received by the commission Monday. It is alleged that the rates are unjust and unreasonable and that they are the result of an unlawful combination between the Chicago, Rock Island & Pacific, the Chicago Burlington & Quincy, and the Chicago & Northwestern roads in the spring of 1906 to maintain certain through rates and that these roads threatened the other shippers, the Chicago, Milwaukee & St. Paul, and the Chicago Great Western, and refused to treat the latter as friendly competitors or to route goods over their lines and in all ways that they could strove to injure and destroy their business; that the result was that the Chicago Great Western and Chicago Milwaukee & St. Paul entered into the agreement to maintain the rates complained of.

### SHIPPERS COMPLAIN.

Kansas City, St. Joseph and Omaha Men Petition Commerce Commission Regarding Through Rates.

Washington. — The petition to the interstate commerce commission containing the complaint of a large number of shippers of Kansas City, St. Joseph, and Omaha against the Chicago, Rock Island & Pacific, the Chicago Burlington & Quincy, and the Chicago & Northwestern roads in the matter of through rates from the Atlantic coast was received by the commission Monday. It is alleged that the rates are unjust and unreasonable and that they are the result of an unlawful combination between the Chicago, Rock Island & Pacific, the Chicago Burlington & Quincy, and the Chicago & Northwestern roads in the spring of 1906 to maintain certain through rates and that these roads threatened the other shippers, the Chicago, Milwaukee & St. Paul, and the Chicago Great Western, and refused to treat the latter as friendly competitors or to route goods over their lines and in all ways that they could strove to injure and destroy their business; that the result was that the Chicago Great Western and Chicago Milwaukee & St. Paul entered into the agreement to maintain the rates complained of.

### ONE DAY BEHIND SCHEDULE.

Boston Business Man Wanted to Take Time to Catch Up.

Several years ago, when the University of Chicago held its decennial celebration, John D. Rockefeller was its guest for several days. A bewildering succession of functions followed one another in such quick succession that each affair was from one to four hours late.

At the great banquet on the closing day, Mr. Rockefeller, in his after-dinner speech, told the following story:

"I have felt for the past 24 hours like the Boston business man who lived in the suburbs and came in to his office every day. One winter afternoon he took the train for his home, but a terrific snowstorm was raging, and about half way to his suburb the train was snowed in. All night the passengers were imprisoned, but early in the morning they managed to reach a near-by telegraph station, and the Boston man sent the following dispatch to his office:

"Will not be in the office today. Have not got home yesterday yet."—Montreal Herald.

### CANADA'S GOOD TIMES.

The Immigration During 1906 Was 216,000.

While it is well to heed every word of caution from the leaders in commerce and finance and to avoid speculative ventures that lack a solid business foundation, it is clearly evident that there is no conspicuous weak spot in Canada's present era of prosperity. The Toronto Globe says: "The Dominion has in a commercial sense plenty of money, and our leading financial institutions are in a position to lend freely in the United States. The chief productive enterprises of Canada are not buoyed up by an era of dangerous speculation, but are following substantial business methods and finding safe and continuous markets for their goods. We are not bolstering up any industries by extensive export bonuses that must imperish the people as a whole, and ultimately lead to collapse through the failure of the artificial aid. There is no extreme protection in Canada such as would create great fortunes for a few at the expense of the general public and lead to disruption and catastrophe. The prosperity of Canada has an artificial foundation being based on a healthy and substantial expansion of trade and industry, with a proportionate extension of productive settlement to new areas.

### GRAZING LANDS.

Stockmen Have a Hearing Before Senate Committee on Agriculture Regarding Leasing Public Ranges.

Washington. — Government policy in regard to the control of grazing land in the public domain and the interests of large and small cattle men and the sheep men and the effect of protection of stockmen upon the homesteaders were considered Monday at a public hearing before the senate committee on agriculture. The hearing was held on an amendment by Senator Burkett of Nebraska to the agricultural appropriation, authorizing the secretary of agriculture to district the unreserved lands and charge and collect reasonable fees for grazing. The cattlemen were represented by members of the American National Livestock association, who favored the measure, while the sheepmen, represented by members of the National Wool Growers' association, opposed it. During the proceedings a letter from President Roosevelt addressed to Senator Warren was read. It endorsed general control by the government of grazing lands, but insisted upon the protection of the homesteaders, and arranged the sheepmen severely.

### MIX THIS AT HOME.

Valuable Prescription Which Anyone Can Easily Prepare.

The following simple home-made mixture is said to readily relieve and overcome any form of rheumatism by forcing the kidneys to filter from the blood and system all the uric acid and poisonous waste matter, relieving at once such symptoms as backache, weak kidneys and bladder and blood diseases.

Try it, as it doesn't cost much to make, and is said to be absolutely harmless to the stomach.

Get the following harmless ingredients from any good pharmacy: Fluid Extract Dandelion, one-half ounce; Compound Kargon, one ounce; Compound Syrup of Sarsaparilla, three ounces. Mix by shaking well in a bottle, and take a teaspoonful after each meal and again at bedtime.

This simple mixture is said to give prompt relief, and there are very few cases of Rheumatism and Kidney troubles it will fail to cure permanently.

These are all harmless, every-day drugs, and your druggist should keep them in the prescription department; if not, have him order them from the wholesale drug houses for you, rather than fail to use this, if you are afflicted.

## THREE EPOCHS IN A WOMAN'S LIFE

MRS. ELVA BARBER EDWARDS

MRS. GEORGE WALTERS

There are three critical stages in a woman's life which leave their mark in her career. The first of these stages is womanhood, or the change from a care-free girl to budding womanhood. The second is motherhood, and the third is change of life.

Perils surround each of these stages, and most of the misery that comes to women through ill health dates from one or another of these important crises.

Women should remember that Lydia E. Pinkham's Vegetable Compound made from native roots and herbs has carried thousands of young girls over the critical period of puberty, has prepared mothers for childbirth, and in later years carried them safely through the change of life more successfully than any other remedy in the world. Thousands of testimonials from grateful persons, two of which are here published, substantiate this fact beyond contradiction.

Mrs. George Walters of Woodlawn, Ill. writes:

"I feel it my duty to tell you of the good Lydia E. Pinkham's Vegetable Compound has done for me in preparing for childbirth. After suffering and losing my children a friend advised me to try your valuable medicine, and the result was that I had very little inconvenience, a quick recovery and..."

During its long record of more than thirty years its long list of actual cures, entitles Lydia E. Pinkham's Vegetable Compound to the respect and confidence of every fair minded person.

Lydia E. Pinkham's Vegetable Compound Makes Sick Women Well.

**Ten Good Reasons Why Miami is the Best Town**

IN THE TEXAS PANHANDLE

BECAUSE—It has the best stock country surrounding it. It has the best climate, best water and plenty of it. It is the best shipping point on the Santa Fe road. It's population are not mere "nesters" but STAYERS. It has the sharpest competition and gives lowest prices. It is surrounded with the best Cattle and finest ranches. It's the commercial and legal center of three counties. It has the best schools, best churches and best society. It is the prettiest town-site and sells good lots VERY LOW. It gives a perfect title to perfect lots in a reliable town. For full particulars Address the—

**The Miami Chief.**

LESLIE L. LADD, EDITOR AND PUBLISHER.

PUBLISHED EVERY SATURDAY.

Entered at the postoffice at Miami, Texas, as second-class matter.

ONE DOLLAR PER YEAR IN ADVANCE

FEB. 16, 1907.

If you want a good meal go to the Miami restaurant.

The weather every day this week has been just like spring.

Mrs. L. Lard returned Tuesday from a visit to Dalhart.

Mrs. Will Carter of Amarillo is visiting relatives in Miami.

District Attorney Kelly was a visitor to Amarillo Wednesday.

For pure flavoring extracts, the very best in the city, go to the Central Drug Store.

Mrs. Hazleton of Fort Worth is here visiting her sister, Mrs. Milo O'Loughlin.

J. J. Long of Mobeetie came over Wednesday and made a trip to Amarillo Thursday.

There were three hundred and eighty-six poll tax receipts issued in Wheeler county.

One's countenance beams with satisfaction after eating a meal at the Miami restaurant.

Wheeler County placed the loan of her funds with the bank at Mobeetie at 3 per cent interest.

**Don't Delay**

The season of coughs and colds not yet past—they will be prevalent for some months to come. Do not neglect overexperiment with them. Use the safe and sure remedy—Simmons' Cough Syrup. It heals the soreness and stops the cough.

Mr. and Mrs. Thos O'Loughlin left yesterday for a visit of several weeks at Hot Springs, Ark.

S. M. Pipkins took the remnant of his bunch of mules to Mobeetie last Saturday, where sold them.

A couple of Holiness people arrived this morning and have announced services on the street tonight.

Christi Weckesser has erected a carpenter shop on Commerce street just above N. F. Locke & Sons' warehouse.

Judge Carter came down from Amarillo Wednesday, and has been confined to his home by an attack of the grip.

Walter Scoggin returned yesterday from Hot Springs, and says he thinks he has fully recovered from his recent spell of sickness.

Lost a fountain pen with two gold bands around it. Finder is promised \$1 reward by returning it in good condition to this office.

Mansel Coffee returned Wednesday from a trip to Globe, Arizona. He has accepted a position as clerk for N. F. Locke & Sons.

Mrs. Browning, wife of Judge J. N. Browning, died at her home in Amarillo last Saturday after an illness extending over a year.

The new town of Glazier thinks she is sufficiently advanced to have a commercial club, and the organization was started this week.

The season in the ground and the weather nearly all winter has been fine for tree planting. How many have procrastinated and let these opportunities pass?

Mr. Matthews who purchased the Bob McCauley place last spring at \$5 per acre recently sold the land to a Mr. Evans for \$10 per acre, and the latter the following day sold it for \$12 per acre.

E. C. DeWitt & Co. of Chicago, at whose laboratory Kodol is prepared, assures us that this remarkable digestant and corrective for the stomach conforms fully to all provisions of the National Pure Food and Drug Law. The Kodol laboratory is a very large one, but if all the sufferers from indigestion and stomach troubles could know the virtues of Kodol it would be impossible for the manufacturers to keep up with the demand. Kodol is sold by Central Drug Store.

We are informed that the deposits of the Bank of Miami at the present time are the heaviest in the history of the institution at this season, which indeed is a hopeful sign. According to this, and to the fact of a mild winter and the excellent season in the ground for the coming crops, our people should be in especially good spirits.

Spring-like weather has continued with us so long that vegetation is giving evidence of springing forth—in fact, Judge Coffee informs us that in his orchard there are plum and peach trees now in blossom. This is to be deplored, and it is hoped the weather will be cold enough to retard further growth until the likelihood of the fruit being killed by freeze or frost is past.

**A Profitable Industry.**

I have often said there is absolutely no business that gives greater returns for the amount of capital invested, not to speak of the amount of genuine pleasure there is in it, than the poultry industry. To prove this statement to be true, I only need to give the readers of THE CHIEF a bit of my personal experience, which has necessarily been in a small way.

About three years ago I decided to invest in a setting of fine eggs, and try as an experiment the business I had read so much about. Just at this time there appeared in the poultry journals a great deal of favorable comment on a new breed of chickens known as the "Rhode Island Reds." So I decided on this new breed. Out of that hatch I raised four pullets and one rooster. The next year I saved all of their eggs and set them under the scrub hens. That spring and fall I sold from these four hens \$35 worth of eggs and stock and had fourteen left to begin on the next year. So last year I sold from these 14 hens \$135 worth of stock and eggs, and saved 16 of the best for this year. This was something like eight dollars to the hen, not including the 16 I now have on hand. I raised all of these on less than half acre of ground.

In the poultry show at Gainesville last November my fowls won prizes on the 1st cock, 1st cockerel, 2nd pullet and 1st pen. What I have done others can do, but it can not be done with a common ordinary chicken.

Respectfully,  
MRS. P. G. HUFFMAN.  
Miami, Feb. 14, 1907.

**Corn Wanted.**—The Miami Milling Company wants to buy your corn.

**Syrup Factory for McLean.**

At a meeting held in McLean last Friday night and Saturday afternoon arrangements were completed where by the syrup factory is an assured fact. The company asked a bonus of one thousand dollars and the assurance that at least 2,000 acres would be planted in ribbon cane. A committee was appointed to raise the bonus and it was found that \$150.00 was subscribed above the amount asked for.

Our progressive farmers are always to the front in every enterprise. They made up the 2,000 acres and some of them helped to raise the bonus.

Work is to begin on the factory not later than April 1st, and is to be completed in time to take care of this year's cane crop. The capacity of the factory is 2,000 gallons of syrup a day.—McLean News.

**Single Comb Rhode Island Reds.**

This famous chicken combines all of the good qualities, such as fine winter layers, good size, good rustlers, heal by, and a beautiful plumage. This together with their other good qualities makes them an ideal chicken for the farm as well as the fancier. Eggs, \$2 for 15. You should book your orders now.

Mrs. T. L. Coffee.

**Turkeys for Sale.**

I have about 100 head of turkeys of the Bronze strain for sale. Those wanting to buy, or for further particulars, address me at Peacevale, Hutchinson county, Texe.

**Car Load of Farming Implements.**

A car load of the renowned Canton Clipper farm implements, such as riding and walking plows, barrows, planters, etc., just received by D. K. Hickman. Better make your contemplated purchases now.

**Railway Surveyors in the Field.**

Having received word from the civil engineer that promised to do the work of surveying on the proposed new road here that owing to other work he would not be able to come, Mr. R. E. Davis, the promoter, arrived Monday and took charge of the work himself, until such time as he can secure other help. He says he has the promise of two civil engineers, but each are on other work that it will take several days to finish up. The force this week have been working on a line that crosses on the south edge of town. When this is finished Mr. Davis says he will survey a line to the north and east of town to see which is the most practical route.

Dealers say that those who have used Chamberlain's Stomach and Liver Tablets are quite loyal to them and can not be persuaded to take any substitute. Get a free sample at Central Drug Store, give them a trial and you, too, will want them in preference to any. They cure stomach troubles, biliousness and constipation.

**A Busy Meeting of Commissioners Court.**

Commissioners Court was in session the three former days of this week. The principle business was making the tax levy. This totals 10c on the \$100 valuation less than the rate the past year.

Valuations on Cattle, lands, etc. were fixed at the same rate as last year.

The court also placed the loan of the county funds with the Bank of Miami on a bid of 4 1/2 per cent, which is 1/2 per cent above the rate last year. The bid from Amarillo we understand was 5 per cent, but the court used its discretion and accepted that of the Bank of Miami as being the best bid.

A number of bills were allowed.

**Mark Twain and the Spider.**

"It pays to advertise," said Mark Twain, at an advertisement writers' banquet. "When I was editing the Virginia City Enterprise, writing copy one day and minding the next, I tried to force this truth home in many ways. A superstitious subscriber once wrote and said he had found a spider in his paper. Was this good or bad luck? I replied to him in our answers to Correspondents column as follows:—

"The finding of a spider in your copy of the Enterprise was neither good luck nor bad. The spider was merely looking over our pages to find out what merchant was not advertising, so that it could spin its web across his door and lead a free and undisturbed existence forever after."

**"It Knocks the Itch"**

It may not cure all your ills, but it does cure one of the worst. It cures any form of itch ever known—no matter what it is called, where the sensation is "itch" it knocks it. Eczema, Ringworm and all the rest are relieved at once and cured by one box. Its guaranteed, and its name is Hunt's Cure.

**Corn Wanted.**—The Miami Milling Company wants to buy your corn.

**Syrup Factory for McLean.**

At a meeting held in McLean last Friday night and Saturday afternoon arrangements were completed where by the syrup factory is an assured fact. The company asked a bonus of one thousand dollars and the assurance that at least 2,000 acres would be planted in ribbon cane. A committee was appointed to raise the bonus and it was found that \$150.00 was subscribed above the amount asked for.

Our progressive farmers are always to the front in every enterprise. They made up the 2,000 acres and some of them helped to raise the bonus.

Work is to begin on the factory not later than April 1st, and is to be completed in time to take care of this year's cane crop. The capacity of the factory is 2,000 gallons of syrup a day.—McLean News.

**Just a Lie—and a Big One.**

A Kansas genius seems to have solved the milking machine problem. Apparently he has gone beyond what was asked by the most exacting dairyman. This second edition of Watt, Stevenson, Aupere and Howe all rolled into one, has just patented a device run by an electric motor fastened to the cow's back, the electricity being generated by a dynamo attached to her tail. It strains the milk and hangs up the pail and strainer. A small phonograph accompanies the outfit and yells "So!" when the cow moves. If she kicks a binged arm catches the milk stool and lams her over the back.

**Card of Thanks**

We take this method of expressing our thanks and appreciation to our many friends for their kind assistance and sympathy during the sickness of our little daughter, Cassie, who is now well on her way to recovery. Respectfully,  
Ms. and Mrs. LEE LEDBETTER.

**Hereford Bulls for Sale!**

A number of fine, young registered Hereford bulls for sale at the Clark ranch 9 miles east of Miami. For further particulars call and see, or address  
T. J. McENTIRE, Manager,  
Miami, Texas.

The commissioners in session this week counted out and issued warrants for 87 coyote scalps. At that rate his wolfships hideous howls will soon cease to pierce the night air or disturb the peaceful slumbers of the Panhandle settlers.—Canadian Record.

J. P. Harrington has lost twelve head of horses and mules this winter with the disease that was prevalent among work stock this season.—Canadian Record.

The bill permitting the Southern Kansas to tear up its line between Panhandle City and Washburn and building straight from Panhandle to Amarillo has been reported favorably by the committees in both the house and senate, and the indications are it will pass.

**Long Tennessee Fight**

For 20 years W. L. Rawls of Belts, Tenn., fought nasal catarrh. He writes "the swelling and soreness inside my nose was fearful till I began applying Bucklen's Arnica Salve to the sore surface; this caused the soreness and swelling to disappear, never to return." Best salve in existence. 25c at Central Drug Store.

**Praise Chamberlain's Cough Remedy**

There is no other medicine manufactured that has received so much praise and so many expressions of gratitude as Chamberlain's Cough Remedy. It is effective and prompt relief follows its use. Grateful parents everywhere do not hesitate to testify to its merits for the benefit of others. It is a certain cure for croup and will prevent the attack if given at the first appearance of the disease. It is especially adapted to children as it is pleasant to take and contains nothing injurious. E. A. Humphreys, a well known resident and clerk in the store of E. Lock, of Alice, Cape Colony, South Africa, says: "I have used Chamberlain's Cough Remedy to ward off croup and colds in my family. I found it to be very satisfactory and it gives me pleasure to recommend it." For sale at Central Drug Store.

**YOU ARE FRETFUL? YOUR HEAD ACHES? IT'S YOUR LIVER, USE HERBINE**

**No Better Advice**

could be offered you. It is an impossibility for one to enjoy good health if the liver is out of order. It is not necessary to load your system with drugs. HERBINE is a strictly vegetable compound. Cures Constipation, Chills and Fever, Dyspepsia, malaria and all complaints due to a Torped Liver.
