

The Miami Chief.

Vol. 18

MIAMI, Roberts County, TEXAS, Thursday, January, 18 1917.

No. 25

United States Department of Agriculture.

Prairie Dogs are a great nuisance in the Panhandle of Texas and if it was possible to estimate the loss of grass alone from them it would run into many sections of good grass. Prairie Dogs can easily be destroyed by poisoning but unless an entire community band together and all of them thru-out the whole section it will be of little use for an individual farmer or ranchman to attempt eradication, for tho he may kill all the dogs on his land, in a year or two he will have as many as before on account of their coming in from adjoining lands.

In Texas there is a state law which enables citizens of a county to call an election and if the majority of the voters in the county desire every one in the county can be compelled to clean out the dogs and in this way the dogs completely eradicated from the county.

Poisoning can be most successfully done during the winter or early spring or during a severe drouth and there is no better time than now to begin some of this work of eradicating our section of the country of this pest.

A poison that the U. S. Department of Agriculture has used successfully and recommends is as follows:

Mix 1 ounce of powdered strychnine in three-fourths of a pint of water and heat to boiling point. Mix a tablespoonful of gloss starch in one-eighth of a pint of cold water, add to the strychnine solution, and boil until a clear paste is formed. Remove from fire; add 1 ounce of powdered bicarbonate of soda, previously mixed with one-eighth of a pint of cold water, and stir to a smooth, creamy mass. Add 1 tablespoonful of heavy corn sirup and one-eighth of an ounce of saccharine, and stir. Pour over 13 quarts of oats, wheat or kaffir and mix thoroughly until the grain is evenly coated. Allow to stand several hours before distributing.

For mixing small quantities an ordinary galvanized-iron washtub is convenient. For larger quantities a tight, smooth box may be used, and the mixing may be done with a spade.

Each quart of the prepared grain is sufficient for treating about 40 holes. This quantity should be scattered lightly on clean, hard ground near each prairie-dog hole. Do not place the poison on loose earth or in the hole. With reasonable care in scattering the baits cattle and sheep on the open range will not be endangered.

T. Pryse Metcalfe, Agent, Amarillo, Texas.

Getting in Jail.

If things keep on as they have been going for the past few years, it will be much easier for an American citizen to go to jail and stay there than it will be to keep out of jail. Every now and then some individual or some clique bobs up with a brand new plan for turning some of us into criminals. The number of new ways for getting a man into jail is surprizing. Wisconsin has its "eugenics law," which makes it a felony for a couple to marry without undergoing a physical examination. The Illinois legislature, at its present session, will gravely consider the passage of a similar criminal statute. Other states are being asked to pass laws making it a felony for a citizen to have any liquor in his home, even for medicinal purposes. One state has a law against dancing the tango. The Indiana anti-cigarette law never has been repealed, and the state has, as a result, several hundred thousand perfectly good citizens who could be arrested and sent to jail any day. Perhaps the most striking development of our government is that the laws are not made by all people nor by representatives of the people, but by small cliques, highly organized and tremendously energized over particular questions. These cliques are determined to force their views upon the whole people, while at the same time other cliques are forcing views on other questions upon them. The question is never asked whether the supposed offenses against the community are as bad as the penalties inflicted. There seems to be in the air a mania to find new ways of imprisoning American citizens, and yet, is there anything that can be as bad for the individual or the nation as a man in jail who can possibly be kept out?

City Saves \$5790.00

We are indebted to city engineer, Breedlove for the following information. By placing the water reservoir on the mountain instead of putting a stand pipe nearer town, the city saved \$5790.00. The cost of the tank and tower would have been, \$7500, foundation, \$800, total \$8,300. The cost of the reservoir is \$1510.00, six inch pipe to same extra, \$1000.00, a saving mentioned above. This also gives a much better job with no maintenance cost, such as painting, etc. Also the reservoir can be doubled in capacity at any time with a cost of \$1510, whereas the stand pipe would cost \$8300.

Dental Notice

My office will be open all next week, beginning Jan. 22, at 8:00 o'clock.

Dr. Reynolds.

Big Snow visits

Panhandle.

The biggest snow we have received this season fell Sunday, Monday and Tuesday, totaling between five and six inches. It fell very mildly, with scarcely no wind, thus getting a very even coat all over the surface. This will make a splendid wheat season and each day it looks like our prospects for a big yield grows brighter.

Yesterday and today the snow has been melting, and we have had pretty weather.

Laying Water Mains.

A force of twenty men are at work digging the trenches for the water mains, and they are progressing very rapidly. The work of finishing the engines and the reservoir was stopped for a few days on account of bad weather, but it will be resumed soon.

Manager Halsey for the City made a trip to Wichita, Kansas first of the week to ascertain when we might expect the generators, but no definite information was given.

Electric Lighting Cost.

Many people seem to be anxious to know just exactly the cost of lights per month will be when installed. We answer this by saying that it depends on the number of consumers: The more consumers, the less the cost of light. This being municipal plant, it will be just as cheap as possible, and the City is asking that every body contract their house wiring at once, so that it will be done, and further to give them a definite idea as to cost of operating.

Meeting Starts To-night

A revival meeting will begin to-night at the Christian church. It will be conducted by Elder J. B. Nelson. Everybody is cordially invited to come and attend. Services every night.

School Notes.

Mr. Lucy, the impersonator who gave an interesting program Monday night, was presented to the school children Monday afternoon by his friend Rev. Pitts. The entire student body keenly enjoyed the short talk Mr. Lucy gave.

Because of the snow several children have been absent this week. Recesses have been short and early dismissal the rule.

Miss Aurelia Robertson substituted for Miss Hudspeth on Wednesday.

New Court Stenographer

The Hon. W. R. Ewing, district judge recently appointed a new court stenographer for this district, Mr. Dennis G. Reynolds of Wheeler county, who by the way is a very efficient court reporter, and besides is a home man. Judge Ewing always looks around home for service needed.

Court is still in session at Canadian this week.

Having the Grippe

An epidemic of La Grippe is taking the country almost solid. There are any number of cases around Miami, and we acknowledge receipt of our full dose. Putting out a weekly newspaper and the "Grippe" together is about the final limit. If you do not find what you want this week, just take a case of La Grippe, then you will not care whether you read anything or not.

MUSIC LESSONS

I will accept a few music students on piano and in voice. Four or eight lessons monthly. Mrs. Jno. Webster.

Mrs. Katie Joiner has moved to her store building for the winter, and a telegraph operator has rented her house.

MONEY TO LOAN

On farm and ranch land, vendors notes. Quick service. L. B. Robertson.

The Old Year

MRS. G. L. WREN.

Last night as the old year lay dying,
With none to shed o'er it a tear,
So joyously glad were they crying
A welcome to the bright New Year.
The joy bells with music were ringing
As the clocks told the hour for them,
But in my heart I kept singing
To the old year a sad requiem.
Gone are the days it hath brought us
Of sorrow and pleasure and pain;
Fresh still the lessons it taught us,
Or has the old year lived in vain?

'Tis gives the tone of sorrow
To the passing of the old year,
How like the friends we borrow,
To have and to hold briefly here.
Forgotten soon the loved faces,
By the world's busy jostling throng,
Who as new ones take their places,
Hail the event with shout and song.
Oh a life touched ours and departed,
But the influence lives on still.
Which widens and grows once started
Like the river fed by the rill.
'Tis right, greet each new friend gladly,
Fill his cup with joy to the brim;
But he went from you sadly,
Keep a tender thought still for him.

Ham and Bacon

have a value as food and when used in connection with vegetables, assist in yielding muscular power and maintaining the temperature of the body.

Our Sugar Cured Ham and Bacon

are the finest and most deliciously flavored to be had; of uniform quality and tenderness. At our special prices it is economy to buy a whole ham or strip of bacon.

THE BANK OF MIAMI

(Incorporated)
Roberts County Depository

To the People of Texas and their Legislators Elect:

This is a paid advertisement intended to give reasons why the present law of Texas relating to the incorporation of oil companies should be amended so as to allow Texas corporations like those of other states to pursue all of the several branches of this single business.

The Texas Company is engaged in purchasing, refining and marketing petroleum, and as a part of its business owns and operates a system of pipe lines. It is incorporated under the laws of Texas and is handicapped seriously by the inadequacy of its charter powers. It has no direct power to prospect for and produce crude oil. And as the law now stands it can obtain this power only by reorganizing and taking out a charter in some other state, thus becoming a corporation of that state and ceasing to be a corporation of Texas.

Henceforth the stockholders, by a separate producing organization, have borne the burden of obtaining the necessary crude supplies; and but for this arrangement the company could not have succeeded. This was workable when the organization was small and operations were on a narrow scale. But with the growth of the business and with varying and shifting stock ownership it has become subject to too many complications. The company is now manufacturing in Texas and marketing in nearly every country in the world the various finished products of Texas crude oil. It now has more than 10,000 employees, and its stockholders number about 4,000, including approximately 2,000 employees.

The competitors of this company are engaged in all branches of the business. Two of its principal competitors in Texas operate as limited partnerships or joint stock associations and therefore may pursue any business that an individual might pursue, the only restriction being such stipulations as the shareholders see fit to make among themselves. Another principal competitor is organized as a holding company, incorporated under the laws of another state, and owns the stock of three Texas corporations, one engaged in producing oil, another in refining and marketing, and a third in operating pipe lines, so that on the whole the stockholders have the benefit of an organization which covers all branches of the business.

The statement just made is not in criticism. The plan of including all branches of a single business is logical. Moreover, as applied to the oil business it is universal in all of the oil producing states and in foreign countries. In practically every state of the Union, except Texas, a corporation of this kind has the charter power to produce oil.

And it may not be inappropriate to say further in this connection that the limitations which the laws of Texas place on the charter powers of The Texas Company do not stop at the boundaries of the state; they follow the company wherever it goes; they follow it into other states and foreign countries where its competitors carry on all branches of the business and where the state of Texas can not prevent them from doing so. If anywhere on the Globe this company should do an act in excess of its powers as defined by the laws of Texas its charter would be subject to forfeiture.

No one would think of precluding a company engaged in the lumber business from going directly to the natural source of supply, taking timber leases or buying standing timber, and in that way acquiring its raw material. There as in the oil business the manufacturing merchant takes the raw or crude material and turns it into finished products. In each case the supply is limited as regards both locality and extent and the matter of obtaining supplies of the particular kinds needed and obtaining them at the times when needed and in the places where needed is of supreme importance. The same thought may be applied to mining or any industry where the operator must lay out large sums in plant and marketing facilities and is not warranted in doing so unless he is to have a free hand in obtaining the raw material. He must be allowed to protect his investment, otherwise he is at the mercy of hostile forces and can be destroyed at their will or upon an event of chance. To exclude an oil company from taking leases and producing oil, and thereby require it to buy from those who may happen to have wells and produce some oil, would mean to any concern operating on a large scale precisely the same that it would mean to the owner of a sawmill if he should be prohibited from acquiring standing timber and required to buy his logs at retail. And furthermore, as previously indicated, it is not a question of what might be ideal if we were at the inception of this industry; the business has pitched itself along certain lines; and these lines are universal and world-wide.

The position of The Texas Company was fully explained to the last legislature, but there was opposition to the bill introduced for its relief, and the matter was delayed and finally crowded out near adjournment. The company did not then, and it does not now, ask any special favors, or for the enactment of a law which would not apply to all similarly situated, or for any change in the settled policies of the state; but it did desire and it still desires some fair and suitable relief; such legislation as will remove the handicap and accord it those lawful corporate rights that are enjoyed by companies organized in such states as California, Oklahoma or Louisiana. It will present the matter to the Thirty-fifth Legislature.

FOUND A SURE THING.
I. B. Wixon, Farmers Mill, N. Y., has used Chamberlain's Tablets for years for disorders of the stomach and liver, says, "Chamberlain's tablets are the best I have ever used." Obtainable everywhere.

Mrs. Homer Tolbert and two children are visiting this week with Mrs. Joe Cobb, Shawnee, Okla. Dr. Kelley reports the arrival of a new boy at the Leslie Dial home on the 12th.

Mr. and Mrs. John Consineau of Bassett, Neb., are here this week visiting his sister, Mrs. Jim Johnston.

Mr. and Mrs. John Short returned Monday from a weeks visit with relatives at Mobeetie.

Walter Cook and family motored to Higgins Sunday morning, and have been snow bound there since.

Mr. and Mrs. S. E. Gates and Pat Cox of Mobeetie passed through Miami Tuesday en route home from a trip to New Mexico.

Mr. and Mrs. Dan Kivlehen and two small sons came in Tuesday from San Antonio where they have been visiting for three weeks. They report a splendid time on their visit.

Mrs. A. W. Baker of Tampa, Florida a sister of Mrs. L. B. Robertson, will be in Miami by Feb 1st and comes recommended as one of the leading music teachers of the South. Has received instruction in some of the leading music institutions, taught a number of years, now an active member of "Ladies Friday Musical" (quite exclusive) also Vice President of Tampa Music Club (this club composed of both men and ladies) and pipe organist in one of the City Churches and makes a specialty of orchestra and accompaniment work. Mrs. Baker comes to locate permanently as a teacher of piano, in Miami.

Homer Tolbert has recently resigned his position at Codman with the Cozart Grain Company and will move March the 1st to Littlefield where he is organizing the H. G. Tolbert Grain Co., and will enter the grain business for himself. Mr. Tolbert is a good grain man, and we predict success for the new company at Littlefield. The place is located on the Santa Fe between Lubbock and Farwell, in Lamb county, west of Plainview.

Mrs. Jno. Webster has begun teaching a class in Music and voice this week. Mrs. Webster is a graduate of the McPherson College, and holds a diploma in the Music department for both voice and piano, and will no doubt make a splendid teacher for part of the many music students of Miami.
