

The Miami Chief.

VOLUME 23.

MIAMI, ROBERTS COUNTY, TEXAS, THURSDAY, MARCH 9, 1922

NUMBER 32

HENRY HALE

Of One of Miami's Known Residents

Monday night, James H. Hale, the best known of the older residents of Miami, died at his home of an illness extending considerable time.

Funeral services were held Monday afternoon, being conducted by Rev. E. F. Jackson. Interment was made in Miami cemetery.

Of the eight children of Mr. Hale were here for the funeral, except J. Clifford Hale, of City, Mo., who was unable to attend. A host of friends attended the funeral, and the floral tributes were very extraordinary and came from friends in Amarillo, and some from Kansas, where Mr. Hale had before coming to Miami.

OBITUARY

Henry Hale was born on August 18, 1854, near Milton, Iowa. His parents made their home in Iowa until he was five years of age, when they removed to Bates County, Mo.

At manhood there near where he made many friends which have been maintained to his lifetime. Mr. Hale was engaged in various business enterprises and his first home in that place.

He moved to Greenwood, Kansas to engage in ranching on a larger scale. Here he handled many cattle principally until about 1893, when he moved to Eureka, where he conducted the handling of cattle.

When Mr. Hale moved to Miami, he with his sons engaged in raising and feeding cattle. In the latter part of his life he retired from active business and his home in Miami.

He was united in marriage December 18, 1873 in Bates County, Missouri, to Mary Ellen. She came to that community from Illinois to live near relative and there met her husband and later became his bride and long companion.

Their union was most perfect and was blessed with eight children.

Mr. Hale, Miami, J. Clifford Hale, Kansas City, Mo., J. Delbert Hale, Miami, Mrs. W. F. Turney, Kansas, Claude E. Hale, Miami, Alice Hale, Miami, Fred R. Hale, Oklahoma, Okla., Mrs. E. H. Hale, Eureka, Kansas.

He and all of these children were united in marriage to him, except Jessie-Mrs. W. F. Turney, who was passed beyond at her home in Eureka, Kansas on February 15, 1922. He also is survived by two brothers and one sister, W. A. Hale, Junta, Colo., Geo. Hale, of Texas and Mrs. Anna Cook Hale, Texas.

He had seventeen grandchildren of whom four survive him.

He became affiliated with the Woodmen of America of Miami, Kansas. He became identified with the Christian Church when he came to Miami and was always active in its work.

Mr. Hale led a very active and useful life. He was always in favor wherever known, but devoted his political offices, yet lent his aid to help all activities which were for the benefit of the community.

His church life he was possessed of deep spiritual ideas, held a high, was consistent and sincere.

BURIED AT MOBEETTIE TODAY

In the death of J. F. Hanning, at Portales, N. M., there passed on of the old residents of the Mobeettie neighborhood, and one who was well known to nearly every one in the Miami community.

About four years ago, Mr. Hanning moved to Portales, from Miami, where he had resided for some time, coming here from Mobeettie which had been the home of the family for quite a number of years. He had been troubled with rheumatism for several years, before leaving here.

He was taken ill only a few days before his death, but his illness was not considered serious, until only a few hours before he died, last Friday. Leakage of the heart set in and death followed very soon.

The body was brought here Wednesday, and taken to Mobeettie, where burial will be made today in the Mobeettie Cemetery.

WESTHALL QUARTETTE THOROLY ENJOYED

A very good audience heard the Westhall Quartette, at the school auditorium Monday night, and everyone who was there was enthusiastic over the excellent program they gave. The program ranged from the classic to the latest popular selections, and some fine numbers were rendered, on the xylophone, and the Saxophone with a banjo and piano accompaniment.

and always expressed realization of and gratitude for the blessings which came to himself and family and was possessed of cheerfulness and fortitude in time of trial, being able to "Lean Upon The Everlasting Arms" when he needed strength.

In his business career he gained the respect of his fellowman both for his extraordinary judgment in his line and for his never challenged honor and fair dealing his word being truly his bond wherever he was known.

In his home life he was an ideal lover and husband, a loving and considerate parent. He never hesitated to make sacrifices for his children, either for their protection, advancement or happiness. He taught his children and put the cardinal virtues above profit and pleasure. He labored to the end that all of his children should be able and desirable members of any community in which the later activities of life might place them.

As a friend he was ever true and his advice sought and valued. He had no single enemy, but he leaves a host of friends to mourn, both in Miami and throughout the Panhandle and in and around Eureka and Wichita, Kansas and Butler Mo.

At rest but not forgotten, his life will live on always in the hearts and lives of his children and friends in an ever widening circle until all shall have been gathered together in that land where there are no partings but where we may all dwell together in love and peace forevermore.

MIAMI COMMUNITY ORGANIZATION CERTAIN

Last Night's Dinner Marks the Beginning of a New Spirit of Co-operation in Miami.

TO COMPLETE ORGANIZATION WEDNESDAY

Everyone Urged To Be at Meeting at Pastime Theater Wednesday Evening at 7:30.

To the men who were the hosts and the guests at the dinner given to the business men, at the Garden Cafe, last night, by the local post of the American Legion, the event marked the beginning of a brand new spirit of co-operation for community improvement in Miami.

The Miami Legion boys are a bunch of live wires, and feeling the need of an organization that would work for the making of Miami a better town to live in, and to give it the name that it really deserves among the towns of the Panhandle, conceived the plan of giving a dinner to the business men, with the hope that through the spirit of good fellowship this would create, such an organization could be brought about. Accordingly last night was set as the date of the affair, and their invitations met with a hearty response.

There were 28 plates spread, and the first part of the evening was devoted to the complete enjoyment of a tip-top three course dinner, that was one of the best of that kind for which the Garden is famous.

After the dinner, the purpose for which the dinner was given, was stated by Post Commander Fred Cook, and further explained by M. M. Craig, Jr., and Mr. Willis. Mr. Craig made it plain that the Legion did not have the idea of a club, affiliated with the Legion in any way, but that seeing the necessity of such an organization, were going to do all in their power to help bring it about. Mr. Willis went more into the details of what such an organization could do, and would do for the town and community surrounding it.

After these explanations of the Legion's part in the enterprise the discussion was put up to the business men, who, unanimously endorsed the Legion in their efforts and all present pledged themselves to the full and unqualified support of any plan that might be suggested and worked out for the perfecting of an organization.

The unanimous opinion of all present was that the new organization be not simply a Commercial League, but that it be organized as a Community Association, with every farmer and stockman in the community, eligible as a member, and to be urged to join, put his shoulder to the wheel, and help to make Miami, HIS TOWN, take its place as one of the best in the Panhandle.

J. W. Voyles, president, and J. R. Durrett, secretary of the old Miami Commercial League were both present, and both gave very interesting talks, along the line of the purposes for which the new organization should stand. Judge McKenzie told of the great possibilities that the forming of a solid body had before it, in the way of encouraging the younger boys and girls of the community, in their efforts to complete their education. Also he suggested that one line of work the club could take up that would be of great benefit to the community, would be the formation of pig clubs, practically every farmer being interested in the furthering of the establishing of thoroughbred herds in the community. Another suggestion of Judge McKenzie was the forming of a "Big Brother" Committee, as a part of the organization, the work of such a committee being to look after the boys of the community, and encourage them in all those things that will work toward making of them good loyal American citizens, and help them out in their problems, such as all boys have, and the solution of which may have a lasting influence on their lives. The Judge's talk was one of the best of the evening, and gave those present a lot of food for thought, as to the possibilities that a good strong community club has before it.

It was then brought out that the old, practically defunct Commercial League, had a fair sum of money yet in its treasury, and it was suggested

INCOME TAX FACTS

To avoid penalty, income-tax returns must be in the hands of collectors of internal revenue on or before midnight March 15, 1922.

Every taxable return must be accompanied by a payment of at least one-fourth of the total tax due. Extensions of time for filing returns are allowed only in exceptional cases, illness, absence, etc. Applications for extensions under these circumstances should be addressed to the collector of internal revenue for the district in which the taxpayer lives. No extension beyond thirty days can be granted by a collector. Requests for further extensions must be addressed to the Commissioner of Internal Revenue Washington, D.C.

For failure to make a return on time the penalty is a fine of not more than \$1,000 plus 25 per cent of the tax due.

For failure to pay tax when due or for understatement of the tax through negligence there is a penalty of 5 per cent of the tax, plus interest at 1 per cent a month until paid. For making a false or fraudulent return the penalty is a fine of not more than \$10,000, or not exceeding one year's imprisonment, or both, together with the cost of prosecution and an additional assessment of 50 per cent of the amount of tax paid.

MRS. R. H. CRUMP

Mrs. R. H. Crump, wife of R. H. Crump, rural mail carrier on the Mobeettie route, died at their home in South Pampa at 12:30 Wednesday night. She had just recovered from an attack of the flu, and had been up for a day or so, when she suffered a relapse, and death soon followed.

The Crump family lived at Mobeettie for a number of years before moving to Pampa about six months ago.

Deceased is survived by her husband and three children, besides her mother at Mobeettie, and other relatives.

The remains will probably be taken to Mobeettie today (Friday), where funeral services will be conducted and interment made.

The many friends of the bereaved family extend sympathy in the loss of the wife and mother.—Pampa News.

D. L. KUTCH & SON DUROCS GO STRONG

The sale of Durocs, put on at Wheeler, Friday, Feb. 24th, was one of the best in the Panhandle this season. 44 head were sold, at an average price of \$108.54 per head, and the top price brought at the sale was \$325.00.

MRS. DAVIS OF PAMPA DIES FRIDAY

Amarillo Tribune.—Mrs. O. A. Davis, 34 wife of O. A. Davis of the W. P. Davis Mercantile Company of Pampa, died at the family home there Friday morning at 12:30 o'clock.

Besides her husband, she leaves three girls, Alma 6; Winnona, 4, and Bessie, 2, and two boys, Roy 11, and Roland, 9; also her father and mother, Mr. and Mrs. J. W. Vandevanter, and a sister, Mrs. J. H. Flemming.

Funeral services were conducted at the Christian Church at Pampa Saturday afternoon at 2:30 o'clock, the Rev. Paul J. Merrill officiating. Burial was at the Pampa Cemetery.

T. R. SAXON FOR TAX ASSESSOR

The Chief is authorized by T. R. Saxon, this week, to announce his candidacy for the office of Tax Assessor of Roberts County, subject to the will of the voters at the Democratic Primary in July.

Mr. Saxon is well-known to every man and woman in the county, and has resided here about ten years, and in the Panhandle for over fourteen years. He has never before asked for any public office and never has held one. But he feels that he is fully capable of attending to the office he asks for, and pledges himself that if elected, the voters will have no reason to be sorry they cast their vote for him. Consider well his claims, and if you feel that he will serve Roberts County well, we sure that you can cast your vote for him, and be glad you did.

WHITE DEER AND GROOM TO HAVE WEEKLY PAPERS

Two new weekly newspapers have been started in the Panhandle. E. E. Manney, is the proprietor of these two new journalistic enterprises, and both are printed at his plant in Panhandle.

The Groom Gazette has been established and Mrs. A. E. Angel is the local editor. The second paper is the White Deer News and N. E. Raymond is its editor. These papers are published Thursday of each week and have become very popular in their respective communities.

The publications are the same size as the Panhandle Herald. The papers contain four pages of six columns each.—Amarillo News.

Dr. and Mrs. Kelley and Mrs. W. L. Mathers went to Amarillo Tuesday evening, taking Miss Bess Mathers to the hospital there, where she underwent an operation, Wednesday morning. She is reported to day as getting along very well.

GREAT FOR WHEAT

Big Snow Will Practically Assure a Good Crop

This morning there is a great big, swelled up feelin' among those who attended the banquet last night, for they say that if just talking of the things that were discussed there, will bring us a snow like the one that is falling this morning, they will just call one every once in a while.

Last evening it began raining about 7:30 and continued till about 10:30, when sleet began falling, and by 11, the ground was covered. During the night the sleet turned to snow and this morning there is about five inches of snow on the level, and still snowing. Up to yesterday, this section of the Panhandle had had an aggregate precipitation of right at three inches since the first of the year, and this snow, falling as it is, without enough wind to cause it to drift badly, is going to assure us that wheat crop that the pessimists a few weeks ago told us, was a plum'gonner." Don't look much like it now, does it?

INTERSCHOLASTIC LEAGUE MEETS

Canyon, Texas, April 21-22.

Judging from the number of inquiries being made at the office of the District Director General for the Interscholastic League, it appears that an unusually large number of schools are grooming their students for the County Contests which are to be held prior to the District Meet April 21-22.

For the most part there has been an improvement made in the preparation of pupils for the various county contests. When the League was first organized the teachers never began their work with the children until a few weeks before the contests were called; but now it seems that the preparation for these contests is becoming a regular part of the school work, and well worked out plans are made months in advance. This is a commendable feature and should be universally adopted among the schools.

DAN KIVLEHEN FOR TAX ASSESSOR

Dan Kivlehen asks the Chief this week, to announce that he is a candidate for the office of Tax Assessor of Roberts County, subject to the Democratic Primary in July.

We don't think that we can say much for Mr. Kivlehen, that will have a bigger influence on the voters, than his reputation for unimpeachable honesty and sincerity by which he is known all over the county. Mr. Kivlehen is thoroughly capable and competent for the duties of the office he asks for, and we are sure that you cannot go wrong if you see fit to cast your vote for him at the Primary.

Mr. Kivlehen asks your fairest consideration before you cast your vote, and we know that he will receive it.

WINS TYPEWRITER

Miss Marguerite Hickman, who has been putting some mighty hard licks in the Amarillo News subscription contest, was the winner of the sixth prize, a Corona Typewriter. She had a total of 2,690,030 votes to her credit.

The Problems of Young Men

No financial problem that concerns the young man is too trivial or too important for our officers to consider and give advice upon—and diffidence in presenting it should never hold the young man back.

Co-operation with deserving young men is an essential function of this Bank.

Galvanizing Brass and Copper.

Copper and brass may be coated with metallic zinc in the following manner: Place finely divided zinc in a galvanized vessel, and cover it with a concentrated solution of sal ammoniac. This is heated to the boiling point, and the copper or brass articles are introduced. A few minutes in the boiling bath will suffice to produce a firm and brilliant covering over the surface of the work. The zinc can be reduced to the requisite fineness by pouring the melted metal into an iron mortar and pounding it with an iron pestle until the solid mass has been granulated to the desired fineness.

Popular Mechanics Magazine.

Helping Him Along.

Wife—"John, the bill collector is at the door." Hub—"Tell him to take that pile on my desk."

Red Cross Ball Blue should be used in every home. It makes clothes white as snow and never injures the fabric. All good grocers.—Advertisement.

Kidney & Bladder Victims Freed

KIDNEY-BLADDER TORTURE

Thousands of men and women have been freed from kidney and bladder trouble. When once their life was a burden, they are now healthy, happy people. The terrible, torturing pains in their back and groin have entirely disappeared. They sleep all night without a break. They wake up like a new man, a new woman.

If you feel the first symptoms of kidney and bladder disease, heed Nature's Warning. Delay may mean long, needless suffering. Take

THE AMERICAN LEGION

(Copy for This Department Supplied by the American Legion News Service.)

HELPS MEN FIND POSITIONS

Francis Lawson, Director of Employment Bureau, New York University, is Busy Man.

Helping thousands of college graduates and students to find suitable positions is the huge task of Francis C. Lawson, director of employment of the bureau of New York university and commander of the Three Hundred and Fifth Machine Gun Battalion post of the American Legion.

When the war broke out Lawson was associate pastor of the famous Judson Memorial church in Washington square, New York. He entered the service as a chaplain with the Seventy-seventh division, being wounded on the Vesle river and again in the Argonne, after which he recuperated in a hospital for a year.

Since taking over the work of placing graduates and students in jobs, Lawson has found positions for more than 400 of them. They include accountants, clerks, salesmen, foreign trade specialists, journalists and a variety of others.

SHE LOOKS AFTER THE WOMEN

Mrs. Carrol Marks, Los Angeles, is Supervisor of Legion Auxiliary in Coast States.

Mrs. Carrol Marks of Los Angeles, Cal., has undertaken to handle thousands of women in her capacity as supervisor in the American Legion Auxiliary in the Pacific Coast states. Eight years' experience on the stage stands her in good stead.

Mrs. Marks, who is prominent in patriotic and social circles in her state, was the first commander of the Legion Auxiliary in California. She has two sons, both of whom were disabled in the war and are now receiving vocational training from the government.

For Reserve Corps Duty.

Thirteen new brigadier generals have been appointed in the reserve corps. Five are retired regular army officers, one is from the National Guard, and seven are members of the officers' reserve corps. They are: Colonels Palmer E. Pierce, James R. Lindsey, Milton F. Davis, Walter C. Babcock, and Harold P. Howard, regular army, retired; former Brig. Gen. Henry J. Reilly of the Guard, and Reserve Corps Colonels Carey F. Spence, Thornwell Mullally, George W. Hall, John J. Cartly, William H. Welsh, Dr. William J. Mayo, and Frank Billings.

Little to Ask.

She was the sweetest, most innocent little girl he had ever seen, and he watched her sympathetically as she stood knee-deep in the snow, fumbling in her handbag, with tears of vexation in her eyes.

"May I help you?" he asked gently, not wishing to frighten her.

She smiled shyly.

"Yes," she answered. "Will you please roll this cigarette for me?"—American Legion Weekly.

To Meet in New Orleans.

New Orleans will be the common meeting ground for ex-service men from many countries this year when the Inter-allied Veterans' Federation holds its third annual conference at the same time the American Legion is holding its national convention. The Legion is a member of the federation, and Cabot Ward, vice-commander of the Paris post, is vice-president of the federation.

The Cat.

Two women were meeting for the first time in several months.

"Why," gushed the first, who had not in the past been on too cordial terms with the other, "I never thought you would recognize me—it's been so long since we met."

"My dear," replied the other, "I had no difficulty whatever. I remembered the hat distinctly."—American Legion Weekly.

Feminine Finance.

"Dear," said Mrs. Newlived, "I needed a new hat, so I just wrote a check for fifty dollars on the First National to save you expense."

"Great gosh!" gasped her husband. "I haven't a nickel in that bank!"

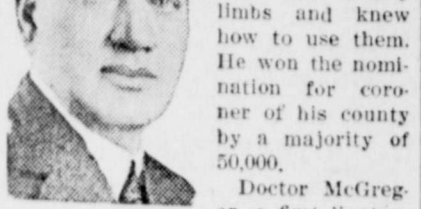

"I know it, dear; but that will be all right. They won't mind. Their advertisement says: 'Our Resources Are One Million Dollars.'"—American Legion Weekly.

EASILY WON THE NOMINATION

Dr. W. J. McGregor of Wilkensburg, Pa., Has No Legs, but Made Fast Run for Office.

The loss of both his legs in the service of his country did not deter Dr. W. J. McGregor, Wilkensburg, Pa., from entering a hot political fight against opponents who had sturdy limbs and knew how to use them. He won the nomination for coroner of his county by a majority of 50,000.

Doctor McGregor, a first lieutenant in the medical corps, went overseas for duty in July, 1917, serving with the British in a general hospital at Manchester, England. Later he went to France with a machine-gun battalion of the British Second division and in the action before Albert in March, 1918, lost both his legs when a big German shell exploded near him. Doctor McGregor is a member of Wilkensburg-Edgewood post of the Legion.

MANY WOUNDS, HAS NERVE

Frank Schrepfer Wins First Prize in School of Landscape Architecture at Harvard.

Wounds received under heavy fire in the Argonne forest shattered everything but the nerve of Frank H. Schrepfer, Chicago. In spite of the fact that he is partially blind and that he has the use of only one arm, he has established an excellent record in the graduate school of landscape architecture at Harvard, and has outstripped his associates by winning first prize in the general class competition. Schrepfer was admitted to the school only after repeated efforts on the part of the Veterans' bureau, as it was believed his disabilities would prove too great a handicap. But the spirit of come-back which he displayed in aspiring to a profession in spite of apparently insurmountable obstacles, coupled with his talent, soon made his place secure.

VETERANS SUFFER FROM COLD

Measure Offered to Provide Shivering Men With Clothing Now Being Eaten by Moths.

War veterans are suffering from the cold in the very shadow of warehouses where vast quantities of surplus army clothing lie idle. This anomalous condition will be righted if a bill favorably reported in the house by the military affairs committee is passed.

The bill authorizes the secretary of war to co-operate with the surgeon general in providing all disabled veterans under care in government hospitals and institutions with adequate clothing and equipment. Thousands of dollars' worth of this material is now stored away, inviting moths, while thousands of former soldiers are shivering from exposure.

House leaders have demanded a special rule for consideration of the measure. Statements were made on the floor that if congress could rush through an appropriation of \$20,000,000 for starving Russians, it ought to be able to put through a simple bill to help cold service men.

Carrying On With the American Legion

American army officers are now holding rank one to two notches higher than they did under the army organization before the World war.

Chauncey M. Depew has asked for his war medal. The American Legion found, however, that he is only named for the after dinner speaker of fame.

When Pvt. Edward U. Canoose of the American forces stationed in Coblenz received 633 love letters, post-cards, etc. in a batch, he took a week's leave.

The French admired the box-like motor trucks introduced by the A. E. F. and ordered 20,000 more. The ones they are now using are a part of the huge mass of war material bought from the army by the French government.

When the American Legion representatives met the army transport Cantigny, at the dock in New York, they encountered the following: 502 men from the army of occupation, 63 German wives, 12 French wives, 36 babies of the German wives, and 806 American bodies from the battlefields.

Harvard university sent 11,398 men into the World war. Of the number 1,014 received decorations, and 317 were cited in orders. Two graduates, the late Lieutenant Colonel Whittlesey, and Maj. George G. McMurty, Jr., received the Congressional Medal of Honor. Eighty-two won the American Distinguished Service Cross.

WHY DRUGGISTS RECOMMEND SWAMP-ROOT

For many years druggists have watched with much interest the remarkable record maintained by Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder medicine.

It is a physician's prescription. Swamp-Root is a strengthening medicine. It helps the kidneys, liver and bladder do the work nature intended they should do.

Swamp-Root has stood the test of years. It is sold by all druggists on its merit and it should help you. No other kidney medicine has so many friends.

Be sure to get Swamp-Root and start treatment at once.

However, if you wish first to test this great preparation send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle. When writing be sure and mention this paper.—Advertisement.

Could Afford the Best.

Salesman—"I suppose it's a grand piano you require, madam." Mrs. Newrich—"Grand! I want a magnificent one."

TO KILL RATS and MICE

Always use the genuine STEARNS' ELECTRIC RAT & ROACH PASTE

It forces these pests to run from the building for water and fresh air.

Ready for Use—Better Than Traps

Directions in 15 languages in every box. See and Buy. "Money back if it fails." U. S. Government buys it.

Plain Diction.

"Your constituents say you don't use classical English."

"That's the way I want them to feel about it," answered Senator Sorglum. "When we eat together I want them to realize that the object of the meeting is to talk business and not to organize a literary society."

Cuticura for Sore Hands.

Soak hands on retiring in the hot suds of Cuticura Soap, dry and rub in Cuticura Ointment. Remove surplus Ointment with tissue paper. This is only one of the things Cuticura will do. If Soap, Ointment and Talcum are used for all toilet purposes.—Advertisement.

CONCERN WAS FOR MOTHER

Of Course Little Frank Was Not the Least Bit Afraid of the Darkness.

The family has moved from a gas-lighted house to one where there is electricity, and baby Frank, standing on tip toe, can just reach the two push buttons inside the rooms. They are a source of great amusement and he never fails to press them whenever he passes.

A few nights ago his mother came from the little rooms and announced bedtime. Little Florence ran upstairs immediately. Frank, up to his usual tricks, pushed the button, and off went the light. The overwhelming darkness frightened the little fellow. After a minute he asked: "Mother, are you there?" "Yes, dear," said his amused mother. Another pause. "Mother, are you afraid?"

"No, dear, are you?"

"No, I ain't 'fraid, but you better put the light on. I'm 'fraid you will be 'fraid."

Michigan Game Refuges.

Game refuges and breeding grounds established in 1921 by the Michigan state conservation department total 25,000 acres. They are located in Midland, Gladwin, Emmet and Osego counties. Particular attention has been given in these areas to the distribution and establishment of the Chinese ring-necked pheasant.

Since Women Smoke.

Pandora opened her box. "Christmas cigars," she explained briefly.

For your daughter's sake, use Red Cross Ball Blue in the laundry. She will then have that dainty, well-groomed appearance that girls admire.—Advertisement.

And Each a Day's Work.

Young Housekeeper—"And those eggs, are they real country eggs?" Grocer—"Yes'm; genuine hen-made."

DYED HER DRAPERIES, SKIRT AND A SWEATER WITH "DIAMOND DYES"

Each package of "Diamond Dyes" contains directions so simple that any woman can dye or tint faded, shabby skirts, dresses, waists, coats, sweaters, stockings, hangings, draperies, everything like new. Buy "Diamond Dyes"—no other kind—then perfect home dyeing is guaranteed, even if you have never dyed before. Tell your druggist whether the material you wish to dye is wool or silk, or whether it is linen, cotton, or mixed goods. Diamond Dyes never streak, spot, fade, or run. So easy to use.—Advertisement.

Feminine Finance.

"Dear," said Mrs. Newlived, "I needed a new hat, so I just wrote a check for \$50 on the First National to save you expense."

"Great gosh!" gasped her husband. "I haven't a nickel in that bank!"

"I know it, dear; but that will be all right. They won't mind. Their advertisement says: 'Our Resources Are One Million Dollars.'"

If a woman didn't have a better opinion of a man than he deserves she would never fall in love with him.

When you hear one woman speak of another as being just her age, the chances are she isn't.

A SWEET LITTLE BABY BOY

Makes a Bright Spot in Every Home. A Comfort in Years to Come

Park Rapids, Minnesota.—"I have taken your medicine—Lydia E. Pinkham's Vegetable Compound—when I was a girl for pains and before and after my marriage. I now have a sweet little baby boy and will send you his picture if you wish to publish it. My sisters also take your medicine and find it a great help, and I recommend it to those who suffer before their babies are born."—Mrs. Wm. JOHNSON, Box 155, Park Rapids, Minn.

To marry and arrive at middle age without children is a great disappointment to many women. Think of the joy and comfort other women have in their children as they grow older.

Lydia E. Pinkham's Vegetable Compound has helped to bring great happiness to many families by restoring women to health. Often the childless home is due to a run down condition of the wife, which may be helped by Lydia E. Pinkham's Vegetable Compound. It brought health and happiness into the home of Mrs. Johnson. Why not to yours?

When you hear one woman speak of another as being just her age, the chances are she isn't.

USE THE BEST FAULTLESS STARCH FOR LAUNDRY WORK

FOR SHIRTS COLLARS CUFFS AND FINE LINEN

UNUSED TO EVENING DINNER

Grownup Recalls Embarrassing Incident Which Occurred in Her Childhood Days.

As a child in our family I was accustomed to having dinner at noon and a light supper in the evening, because there were several of us, and my mother considered it too harmful to have a heavy meal at night.

We had as a friend a woman who lived several blocks away. One day she called to me as I was returning from school and asked my two brothers and me to come to dinner the next day.

The following day the three of us went to her house at noon. She looked a little surprised as we came, but said nothing. After about a half an hour we wondered when we were to have dinner. She asked me why we were back from school so early that noon.

"We came to dinner," I said.

She smiled and said, "My dear, we have dinner this evening."

I called to my two brothers, and fled in embarrassment.—Exchange.

She Knew.

A capable housewife was trying to impress upon her maid the need of system in her work.

After carefully explaining her own methods in her work, she asked: "Now, Olga, just what do I mean by system? Do you understand what system means?"

"Ja, ja," giggled Olga; "seeestem means doin' theharest way."—Pittsburgh Chronicle-Telegraph.

TURKEYS ALWAYS TOO FAT

New York Butcher Declared His Customers Were "Stagonized" by the Size of Birds.

The fat butcher was busy arranging Christmas decorations at the back of his counter when a woman asked him what he thought would be the price of Christmas turkeys this year.

"Well, now, you know," he said "that is something I can't tell. It's just according to the demand."

"But say, you should see the people who come in here, strangers, you know, not regular customers, and they say they want a turkey, and I pick one out. They say it is too big, and I say to them: 'Now how heavy a turkey would you like?' They say: 'I don't know, but I'll take that one.'"

"I take that one and it weighs within a few ounces of what the first one weighed, and then they just mutter something and go out again."

"I tell you what it is, madam, they are fair stagonized—stagonized they be."

True, the word is a new one, but it seemed to be adequately expressive of agony and amazement over the staggering price of the festive bird.—New York Sun.

Easily Figured.

Nip—What's the difference between a dance and a dawnce?

Tuck—About four bucks.

Any man who is constantly in the public eye is apt to get an occasional rub from the public knuckle.

To win a race a Jockey doesn't put extra weight on the horse that helps him succeed

No man or woman who wants to succeed in the race of life can afford the handicap of headaches, insomnia, indigestion and debility. Nor can they afford to take anything that may keep up a continual irritation of the nervous system.

Yet this is what many people do who drink excessive amounts of tea or coffee. For tea and coffee contain caffeine, a substance that is sometimes very injurious. Many doctors say that caffeine raises the blood pressure, irritates the kidneys, and over-stimulates the entire nervous system. Also that it is especially bad for growing children, or for any one who has any tendency to nervousness or insomnia.

If you want to avoid a possible cause of headache, insomnia, or nervousness, it might be well to stop taking tea and coffee for awhile, and drink rich, satisfying Postum, instead.

Postum is a delicately-roasted, pure cereal beverage—delicious and wholesome.

Order Postum from your grocer today. Drink this fragrant, healthful beverage for awhile, and see if you will not feel brighter, more active, and more resistant to fatigue—as so many thousands of others have felt.

Postum comes in two forms: Instant Postum (in tins) made instantly in the cup by the addition of boiling water. Postum Cereal (in packages of larger bulk, for those who prefer to make the drink while the meal is being prepared) made by boiling for 20 minutes.

Postum for Health—"There's a Reason"

Made by Postum Cereal Co., Inc., Battle Creek, Mich.

WHY WE CELEBRATE MARCH 2. TEXAS INDEPENDENCE DAY

(Synopsis of an after dinner speech delivered by Old Man Hearse.)

Ladies and Gentlemen: This subject and the good feed we have just had makes me feel "just natchery swelled up," as the darky said after eating four large watermelons. But coming down to brass tacks, as the monkey said when he sat down on one, I have had to search the Scriptures from Dan to Bersheeba, and all kinds of Almanacs to gather the data that this subject calls for. Being deficient in Texas History, such a thing being unheard of when I was a boy, and Texas was considered as an annex to the Bad Place, where only outlaws, cut throats, pirates and savages resorted to escape the blue laws of a half-civilized people, that in that early day inhabited the little bit of territory outside of Texas. Scholars—even of my caliber—only whispered the name of Texas. It was fearful! Very few of us came here, except those who had to come. Many more started to Texas, but were marooned in Arkansas. But getting back to my subject, I am reminded of the unsolved question: "Who struck Billy Patterson?"

This question, so far as I know, has never been answered. Who struck him? What with? When? Where? How? It is as deep as mystery as "How Old Is Ann?" Nobody knows. The nearest solution I can give you as to why we celebrate March 2nd, you will find in our old Gazetteer, published in 1855.

This valuable publication tells us all about Texas. It tells us that "The few inhabitants of the west and North West parts of the state are subject to inroads by Comanche and Apache Indians and other warlike tribes, who destroy property, murder, or carry into captivity, their defenseless victims, and drive off their horses, cattle and sheep." This is our condition at Miami, today, as you will find by consulting any old mountaineer of Arkansas, Kentucky or Virginia, where I was born.

Now why should March 2nd, spoil a happy delusion? Why tax my memory with unknown problems? We of Texas were formerly all Mexicans. We were a part of the peaceable people who live south of the Rio Grande. Immigration in from 1821 to 1832 spilled the beans. We revolted and gained Texas' Independence. We captured Santa Anna at San Jacinto in 1836.

Up until 1845 Texas remained an independent republic, modeled after the government of the United States.

In 1846 Texas became a State, reserving the right to divide into five states and to keep negroes to chop kindling and to make fires.

In the Compromise Act of 1850, we sold off to New Mexico, for \$10,000,000, a strip of scenery and blue sky. I think this sale was made on March 2nd. Hence we celebrate. Anyway March 2nd is somehow interwoven into Texas History. Just as Mary got married on February 28th and all England celebrated.

Don't buy off brands of paints from just anyone that comes along. For we can sell you paint—with our guarantee behind it—for the same money. Panhandle Lumber Co.

Chamberlain's Cough Remedy Nothing So Good for a Cough or Cold

"Everyone who has used Chamberlain's Cough Remedy speaks well of it," writes Edward P. Miller, Abbottstown, Pa. People who once use this preparation are seldom satisfied with any other. It is excellent to allay a cough or break up a cold.

NOTICE OF SALE

State of Texas, County of Roberts Whereas by virtue of an order of sale, issued out of the District Court of Roberts County, Texas, in favor of Thos. J. Boney, N. S. Locke, T. M. Bradley and Reece S. Allen and against Homer Kitchens and J. A. Covey, defendants, and directed and delivered to me, I did on the 4th day of March 1922 levy upon the East one-half of Section No. 33, Block No. 2, I. & G. N. R. R. Co. containing 320 acres of land, more or less, in Roberts County, Texas, and located 11 miles West from the town of Miami the county seat of said county, levied upon as the property of J. A. Covey, and I will on the first Tuesday in April 1922, the same being the fourth day of said month, and between the hours of ten o'clock a. m. and four o'clock p. m. proceed to sell said property before the Court House door in the town of Miami, Texas, to the highest and best bidder at public auction for cash all the right, title and interest of the said J. A. Covey in and to the said property.

Witness my hand this the 4th. day of March 1922.

THE AMERICAN PRESS ASSOCIATION

The following article was handed to us this week:

"Are we, as American Citizens doing our duty to our ex-soldier boys? Or has that feeling of gratitude we once had, died out? Can we meet an ex-service man on the street, look him in the face and say, 'I'm for you, old boy. You offered your life for your country—for me.' Or do we feel, because we are making our ends meet in the financial world and are forging ahead, a contempt for him because he is without work, has no money, his clothes are shabby and he is down and out?"

Are we doing for them what we should? Do we give them a job when we can? They are capable. They are willing.

Let us organize a business men's club and put our shoulder to the wheel with the American Legion and make Miami a better and more attractive place to live in, because we co-operated with our boys."

There is a lot of truth in the article as regards our duty to the ex-service men, and a lot of us do forget the big debt we owe those fellows who offered all they had for us, and our homes. But there is not much in so far as the giving of an ex-soldier a job, that we think can apply to Miami, tho it does to a lot of the bigger towns, where is seems sometimes that a man that has been in the service is discriminated against.

But we must hand it to the Local Legion Post for they are doing all in their power to make Miami a better town. The present move for the organization of a Business Men's Club, is one thing that the live fellows of Pulaski Post are wholly responsible for, and we as citizens of Miami, who have our homes here, owe it to them, in return, to help them in that work, with all the resources we have.

Every thinking person of today is looking with alarm on the lowered state of moral standards, declared to be prevalent throughout the world. In connection with this deplorable state of affairs, however, must be remembered that the pendulum swings from one extreme to the other, and before the passing of the present generation, it is safe to predict, there will be a return to dependable and safe standards. In view of this fact, it will not be sane for reformers to work themselves to death, or to run their tear-ducts to the point of "hot-boxing" through over drouthing them. Humanity will ultimately right its own wrongs through the medium of its good common sense dependability in the test of years.—Amarillo News.

Many years of service can be added to your wagons and implements if kept properly painted. The Panhandle Lumber Co sells only guaranteed paints and oils.

THE CALCASIEUU

Two young frogs, from inland bogs, Had spent the night in drinking. As morning broke and they awoke, While yet their eyes were blinking, A farmer's pail came to the swale, And caught them quick as winking, Ere they could gather scattered senses Or breathe a prayer for past offenses, The granger grave—that guiltless Man— Had dumped them in the milkman's can; The can filled up, the cover down, They soon are started off to town, The luckless frogs began to quake, And sober up on cold milkshake, They quickly find their breath will stopp, Unless they swim upon the top, They swim to rife and kick and swim Until their weary eyes grow dim; Their muscles ache, their breathe grows short, And grasping, speaks one weary sport— "Say, dear old boy, it's pretty tough To die so young. But I've enough of kicks for life. No more I'll try it, I was not raised on a milks diet," "Tut, tut, my lad," the other cries, "A frog's not dead until he dies; Let's keep on kicking, that's my plan, We may yet see outside this can." "No use, no use," faint heart replied, Turned up his toes and gently died. The braver frog, undaunted still, Kept kicking with a right good will, Until with joy too great to utter, He found he'd churned a lump of butter, And climbing on that chunk of grease, He floated round with greatest ease.

MORAL

When times are hard—no trade in town— Don't get discouraged and go down, But struggle still—no murmur utter, A few more kicks may bring the butter.

GET THOSE FLIES EARLY

Austin, Texas.—The common house-fly is the chief cause of typhoid fever and it also transmits such diseases as tuberculosis, dysentery, anthrax, cholera and diarrhea, states D. E. Breed, Executive Secretary, Texas Public Health Association.

Flies thrive in such places as cess pools, manure, decomposing vegetable matter, etc. It takes the eggs a week to hatch so their breeding places should be removed or disinfected at least every five or six days.

To secure comfort as well as protection against infection by flies and other insects every one should see that his house is properly screened so that they cannot gain admittance to the home. It is much better to screen the house and prevent their entrance than it is to try to kill them with swatters after they have gained an entrance. If the breeding places of flies are destroyed and houses properly screened the spread of many diseases will be materially lessened.

Now is the time to start the campaign against the fly as his army at this time is very small. However the fly increases so rapidly that unless we wage an unremitting campaign against his from this time until every house, town and county is free from this pest, our earlier efforts will have been in vain.

We still have a few pieces of that fine "Paramount" Aluminum Ware left. Certain & Philpott.

HEALTH WEEK NUGGETS
(By Dr. H. E. Downs.)

1. Ventilate well the room you occupy, as pure oxygen is necessary to carry on processes of nutrition.
2. Wear loose, porous clothing, suited to the season, insuring free movement, free ventilation and absorption of body exhalations.
3. If you are an indoor worker, get outside several hours of the twenty-four; for fresh air, sunlight and exercise are enemies to disease.
4. Sneeze or cough into your handkerchief, and insist on others doing likewise; thus preventing the germs to which you may be host, being conveyed to others or theirs to you.
5. Do not over-eat, especially of meat and eggs; for an overladen stomach retards digestion, and an excess throws unnecessary work on emunctories.
6. Wash your hands before eating; unclean hands may convey disease germs to the food or mouth.
7. Eat some bulky foods and some fruits; residue of the bulky foods stimulates the bowels reflexively and fruits are laxative.
8. Eat slowly, chew thoroly; as your teeth were not given you for ornament, and unless they thoroly grind food, stomach juices cannot convert it readily.
9. Drink at least six large glasses of water daily, as it is a necessary solvent and serves to flush the body sewer.
10. Stand, sit and walk erect; it is the natural posture and gives more space to the vital organs.
11. Keep the teeth, tongue and

gums clean; decomposing of food in the mouth, soften mucous membranes and give a point of entrance for the germs.

12. Balance your day by eight hours, playing eight hours, sleeping eight hours.

13. Avoid mental worry, as turbs bodily equilibrium needs health.

14. Be sociable; contact your fellows prevents one from going morbid.

15. Take no drugs unless scriberd by a reputable physician, wrongly administered, they are poisons.

16. Have your doctor and give you a thorough examination annually, and act on their advice.

SOO SOO CLUB NOTES

The Soo Soo Club met with Mrs. S. W. Danley Tuesday, March the seventh. The afternoon was spent in sewing.

The hostess served to eight members and four visitors, a delicious luncheon consisting of bread and butter sandwiches, Pimiento-cheese salad, cookies, Apricot salad and coffee.

The visitors were: Mrs. N. S. Locke, Mrs. Ed Wisley, Mrs. John Webster, and Mrs. J. W. Voyles

Our next meeting will be social day with Mr. Ray Fulton March 21. Press Reporter.

W. A.

Six ladies met at the church Wednesday afternoon for our regular Missionary study which was taken from the life of William Carey, pioneer Missionary to India. Come next week with your Bible prepared to study with us the 17th chapter of The Acts. The pastor will conduct the study. P. R.

MISSIONARY NOTES

The Bible study was conducted at the church Wednesday afternoon by Mrs. Bowen who is teaching this class in the absence of Mrs. Durrett. Only a few were present but the lesson was one that can be practically applied and if it should be personally applied every body would be happy and the world would be a brighter place to live in.

Business followed and a general discussion on all the work in hand took the place of formal reports.

It is found that most all the subscription to the Voice have expired and all those wishing to renew will please send Mrs. Newman their money right away.

Miss Lucille Ewing is working up a play for the benefit of the local work of the Missionary Society and we hope to be able to give it on March 23rd. Its quite an interesting play full of fun all the way through. We are asking the support of all the Society and church and also, invite the public to come and enjoy this evening with us. A four piece Orchestra will furnish music, also readings and vocal solos will be given that along will be worth the price of admission.

The next meeting will be at Mrs. Halls Wednesday 15th and Mrs. Ewing will give her program on Social Society.

J. E. Hill, of Amarillo, Manager of the Panhandle Lumber Co., was here over Sunday and Monday, to attend the funeral of Mr. J. H. Hale.

C. S. Craig, of Dallas was here a couple of days last week, visiting with his brothers, M. M. and W. H. Craig.

Mrs. E. H. Layman, of Eureka, Kansas, came Sunday to attend the funeral of her father, J. H. Hale, and will remain for a week's stay with her mother, before returning home. Mrs. Lehmann will be remembered as Miss Gladys Hale.

Hammonds Bros, of Colorado Springs, and Chicago are here this week, receiving cattle for their ranch here, and looking after their ranch interests.

Mrs. George Lard returned from Oklahoma City, Friday evening, after spending some time visiting relatives there.

Don't buy Paint or Varnishes, without first getting our prices. Panhandle Lumber Co.

Excellent Remedy for Constipation
It would be hard to find a better remedy for constipation than Chamberlain's Tablets. They are easy to take and mild and gentle in effect. Give them a trial when you have need.

THE PIXY GIRL

By MOLLIE MATHER.

(Copyright, 1921, Western Newspaper Union.)

Paul's heart was heavy, as he climbed the hill. Moonlight shimmered everywhere, transforming bush and shrub into fairyland tapestry.

Moonlight softened too the familiar outline of the big house on the hill, and its sweeping garden with the stone wall about it. Paul had loved that garden, just as he loved every nook and cranny of the great old house.

It was here that his boyhood had been spent; here, that his happiest recollections lingered. In fact, Paul was not quite sure that he had ever known happiness from the moment its white-front door had closed upon him, when desolated, he went forth into the busy world to make his way.

Gloomy city boarding houses gave way, as years passed, to more cheerful and luxurious apartments, but life had been for the most part a mechanical routine, with amusements and entertainments only to lighten.

Always he was possessed by an inexplicable longing to go back, to view again the quiet paths, and to feel the hearty clasp of old-time welcoming hands. And now at last when he had gained his desire, the result was bitterly disappointing.

Grandfather's old friends were mostly resting in the village cemetery, while his father's friends, and those of his own boyhood had scattered various ways.

The one or two whom he recognized and approached in eager hopefulness, appeared either to have difficulty recalling his name, or were indifferent about it. Paul was homesick, homesick for the reality of dreams long indulged. Often had he pictured this return as a triumphant homecoming with joyous repetition of evenings spent in those long-remembered hospitable homes. Now, the homes were deserted, or their doors closed in forgetfulness against him. Purposefully, he waited until evening to climb the hill. Perhaps he hoped that shadows might veil a new and offending shabbiness. The home of his people had passed through many hands, the name of its latest inmate was unknown to him.

So Paul went slowly up the hill, then stood lost in sad retrospection. And just at this moment, there in her balcony room where a clambering rose tapped a summons against her window, Linda sat gazing out at the moon, and her young heart matched Paul's for heaviness. Also, her fairyland dreams were ending in disillusion. She had thought when Old Aunt Hilliard sent for her to share the big home she had bought in the country, that life henceforth would be a delight of fresh air and freedom. Instead, Aunt Hilliard became her jailer, an exacting irascible jailer, demanding querulously her toll of undivided service.

So on this particular night of Paul Weston's return, the girl revolted, and wrapping herself in a brown cloak that matched her brown hair, she stepped ladderwise down the balcony trellis and seated herself on the old stone wall. So it was that Paul, watching, saw her descend, and the first smile that had touched his lips since his arrival, curved them now.

She was like a Pixy, this small girl, or some woodland sprite, perched there high in the moonlight.

"Who are you," Paul found himself asking whimsically. "A woodland person who lives in a tree, and is released only at midnight to dream in the light of the moon?"

The girl looked down upon him. "I am never released," she answered him calmly. "I escape---by way of the trellis."

Paul grinned. "I saw you coming," he told her. "It made me curious. I am going to climb upon the wall beside you and learn all about it."

"Oh! Please---" objected the girl, but his smiling presence at her side seemed not alarming.

"The best way to gain confidence," he said, "is to give it. I am overburdened with sorrows and you shall be the sympathizing victim."

"Will you pretend," he asked her half seriously, "to remember that you once knew a certain Paul Weston who lived in this very house, and has been disgracefully forgotten by the oldest inhabitant. My return visit to the town is most disheartening."

The Pixy girl laughed. It was a delightful understanding little laugh, and Paul took courage.

"I will do better than that," she said. "I will take you in tomorrow, if you will be here, and present you to my aunt who remembers punishing you when you were a small boy, and visited here at your very home. I have heard many times of that bad little Paul and his long-suffering parents, who were aunt's friends."

"It will be great to see someone who remembers," Paul said solemnly, "even if your aunt still practices discipline."

"She does," Linda answered ruefully.

Like two gleeful children, later, the two stealthily made their way to the trellis. From its top presently the girl waved adieu to the man whose homesick longings in some unattractive manner, had departed.

"Tomorrow, Pixy girl," he reminded her, "I shall call."

Linda, stooping tossed him the summing rose of her balcony.

"Tomorrow," she softly agreed.

O. M. H. AT A "HIGH BROW" BANQUET-DINNER AT NIGHT

On Thursday, March 22, 1922, The Ex-University Students of Texas U., now in Miami, gave a dinner at the Garden Cafe, at which Old Man Heare was an invited guest. Of course, you all know that O. M. H. had once been in Austin and had mailed a letter in the Main University building. He had sat in the Legislative Hall of the Capital and heard Joseph Weldon Bailey deliver an oration, entitled: "Oh! My Countrymen!" Hence, he is intimately connected with University Students and Ex's. But, when Prof. Gilley, who was Toast Master of Ceremonies, called on the Old Man to tell why we celebrate March the second, in an after dinner speech, before that March the Second assembly, they had the Old Man guessing. Honest to goodness he didn't know. Do some, more than others. Mrs. Gilley sat at the left of the Toast Master of Ceremonies, at the head of the table. The embodiment of beauty, propriety and matronly dignity.

Her little daughter Floyd, 10, sat next. I was told that this child had actually gone through the State University bare footed.

Precociousness is incident to climatic influences in the Panhandle. We are all that way.

Miss Mary Roach sat next and to the right of Old Man Heare, and her bright leasing smile and intellectual face revealed the fact that a Boy or Girl under her tutelage, that won't learn ought to be bored for the simple.

Next sat Old Man Heare as a clam, on his left sat sweet little Miss Keevil sparkling with intellectual endowments. Mr. Willis sat at the foot of the table, but, headed the outfit with Wit and Wisdom.

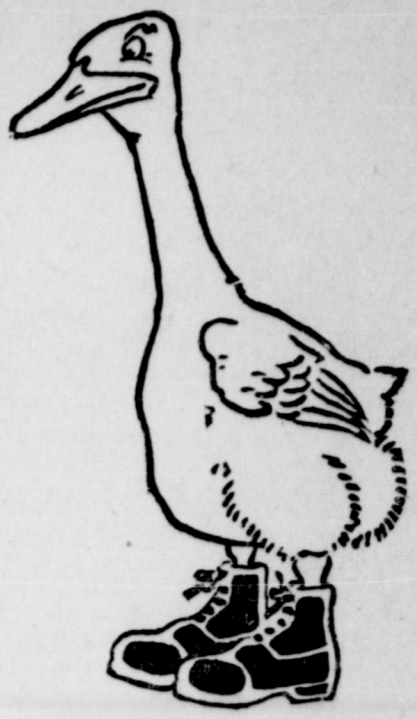

Young Mr. Gilley sat around the corner handsome and manly, 'jolly Miss Taylor sat next and her sweet thrilling voice, when she sang: "The Eyes of Texas are Upon You" would cause a Mocking bird to hide his head under his wing and kick himself.

Then came Mr. Crane, who is not a bird only in name. His experiences of college life and those of Judge McKenzie who sat next, would make a dog laugh, at least they did O. M. H.

An organization was effected to eat again March 2, 1923.

Old Man Heare freely offers his services to this or any other eating contest.

Doc and Rachel know how to get up excellent dinners. They sure do! Thanks to all! One who ate--- O. M. H.

"RED GOOSE" SHOES
None Better Made

J. L. SEIBER & Co.

J. A. Holmes was home from Wednesday evening till Sunday, from Panhandle, where he has an office. He is planning on taking in the Auto Style Show at Amarillo the last of this week.

Mr. and Mrs. Ray Morrison of Canadian, were visiting friends here Monday.

Miss Marguerite Hickman and her brother Earl, made a business trip to Amarillo Monday.

Alton B. Casey and wife have been making their home at Fort Worth since last summer, and we are advised that there is a fine boy at their home, arrived there February 10th. His name is Alton B. Casey, Jr., and "Happy" thinks they have the only boy there is on earth.

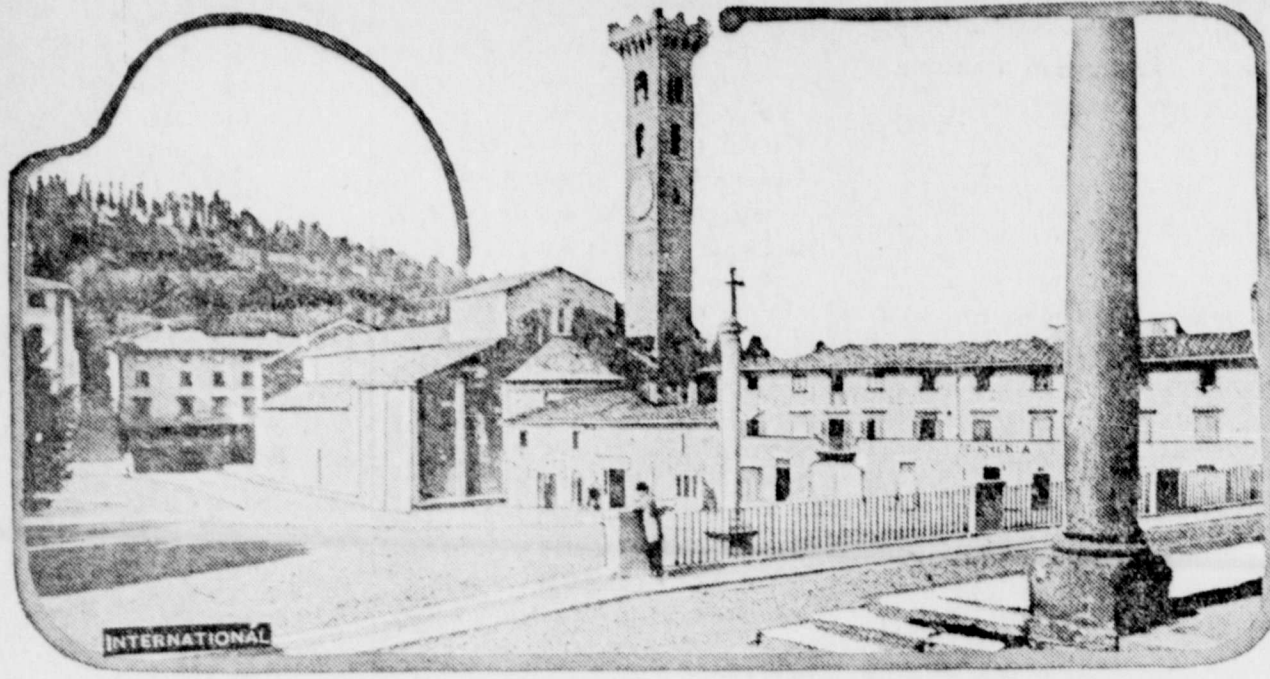

C. L. Lowry of the Mobeetie neighborhood is building a new home.

C. M. Scott, Manager of the Panhandle Lumber Co at Mobeetie was transacting business in Miami Monday.

No. 9461
Has been duly registered by the standard Jack and Jennet Register of America.
LOGAN is a Mammoth Jack; white points; Foaled February 1st, 1911; Height, 15 hands; Girth 65 inches; Bone 9 inches.
JAKE WALTERS
(INITIATORY)
JAKE WALTERS was foaled July 12, 1916, and is a fine jack, black with clear white points.
This is the first season for this jack in this territory but we mighty well pleased with him and know you will be to when you see him.
TERMS FOR EITHER JACK
To insure living colt, \$15.00. Money due when colt is born, or mare it traded or moved from the country.
THESE TWO JACKS WILL MAKE THE SEASON OF 1922 AT WHAT IS KNOWN AS THE SAMUEL EDGE PLACE, 7 MILES WEST OF MIAMI.
MADDOX BROTHERS, Owners
NOAH HARWELL, Mgr.

Princess Mary Selects Her Honeymoon Home

The Princess Mary, daughter of the king and queen of England, who is soon to marry the Viscount Lascelles has already selected her honeymoon home. It is the beautiful Villa Medici, at Fiesole, near Florence, Italy. The villa is the property of Lady Sybil Scott, cousin of Viscount Lascelles. A general view of the piazza and cathedral at Fiesole is shown here.

Oil Evaporation Causes Big Loss

Represents About 3 Per Cent of Total Gasoline Production of Country.

IS VALUED AT \$26,840,000

Report of the United States Bureau of Mines Tells of Many Other Investigations Made During Last Year.

Washington.—Investigations conducted by the United States bureau of mines, in the course of a special effort to aid the mineral industries to re-establish themselves on a safe basis to meet the renewed foreign competition and the changed conditions of supply and demand of the post-war period, point the way to the possible saving of vast sums through the application of improved methods in the production of various mineral materials, according to H. Foster Bain, director, in his annual report, just made to the secretary of the interior.

An investigation of losses of crude oil through evaporation in storage and in transportation, conducted during the year by the bureau, disclosed losses of startling magnitude. It was found that in the few days in which crude oil is stored on the lease before being taken by the pipe line, the aggregate loss per year from evaporation amounts to about 122,000,000 gallons of gasoline in the mid-continent field alone. This has a value, at 22 cents a gallon, of \$25,840,000, and represents about 3 per cent of the total gasoline produced in the United States from all fields and all sources. The bureau found that a large percentage of this loss could be prevented by the use of efficient equipment.

The bureau of mines has pointed out the considerable losses which have resulted from the failure of many refineries to recover gasoline from condensed still vapors. The significance of this investigation is shown by the fact that one refinery in the mid-continent field is now recovering from still vapors approximately 400 barrels of gasoline daily which, before the installation of this equipment, was either lost or burned as fuel under the boilers and stills. The value of fractionating towers at petroleum refineries, by means of which some companies have increased the yield of gasoline from crude oil by as much as 5 per cent, or 10 1/2 per cent of the total, is now generally recognized.

Low-Pressure Waste.
Large quantities of gas are now being wasted in the Osage Nation in Oklahoma because of low-pressure conditions, and the bureau of mines is investigating the feasibility of utilizing this waste gas by the use of low-pressure burners for oil-field boilers. The demand of the export market for "sweet" gasoline led to the development of a process for treating gasoline to remove the objectionable sulphur compounds, by which treatment some grades of American gasoline heretofore objectionable were made suitable for export.

Under the arrangement by which supervision of the drilling and production of oil and gas on the public lands is vested in the bureau of mines, the bureau has supervision of about 100 producing oil properties, which are producing at the rate of about 12,000,000 barrels of oil per annum. Even at the present reduced price of oil, the government royalty from this should total perhaps \$2,000,000 per annum. A special process, devised at the San Francisco station of the bureau, for cracking heavy oils and tars promises the recovery of large yields of gasoline and other lighter products, hitherto regarded as unrecoverable. Investigations made by the bureau in Colorado and Utah indicate that the oil-shale deposits of the Rocky mountain states contain a potential fuel supply of almost unequalled importance.

The experimental helium plant at Petrolia, Texas, conducted under the authority of the army and navy helium

board, was in operation during the year at various times, and helium was produced for short periods. A study of the practicability of storing this rare and noninflammable gas in mine workings was made at the bureau's experimental coal mine at Brunston, Pa. At the cryogenic or low-temperature laboratory in Washington, D. C., liquid air in quantity is now being produced. The primary object of this laboratory is to investigate gases and liquids at low temperatures, with special reference to the separation of helium from natural gas. Field investigations of possible supplies of helium in natural gas were completed during the year, every known gas field in the United States having been tested. Results were markedly successful, as they have shown that this country contains the largest supply of helium-bearing natural gas in the world.

Scrap Losses Investigated.
An investigation of scrap losses in aluminum alloy foundry practice showed that the annual losses in the United States amount to \$1,200,000, and that universal adoption of methods recommended by the bureau of mines would probably result in a saving of about \$600,000 per annum. Melting losses in this industry, which are largely preventable, aggregate about \$3,000,000 yearly. A new method was devised to simplify the collection of radium emanation from radium salts. Experiments are now in progress to perfect the process and to develop apparatus that can be recommended for public use in laboratories and hospitals.

The bureau investigated the properties and possibilities of molybdenum, of which the United States possesses the largest known deposits, although the country is relatively poor in high-grade deposits of some other important alloying elements used in alloy structural steels, such as automobile steels. The bureau conducted studies directed toward devising means for utilizing extensive deposits of low-grade iron ores that cannot be smelted profitably by present methods. These studies included investigations of the low-grade iron ores of the Birmingham (Ala.) district, the manganese-bearing iron ores of the Lake Superior district, and the iron and steel situation in the Pacific Coast states.

The cost of production of zinc, with the standard retort process, is now so high that it endangers the position of zinc as a cheap metal. Plans have been formulated for an investigation of proposed methods for the electrothermic metallurgy of zinc, with a view to increasing the recovery of metal and lowering production costs. The results of an investigation regarding the losses of zinc in the tailings of zinc metals in the Wisconsin district indicate that the use of concentrating tables of a certain type will greatly increase recovery. It is estimated that this practice would have added about \$1,000,000 annually to the value of zinc output in this district, had it been in operation in 1917. Important results in the utilization of the low-grade and complex ores of copper, lead, silver and zinc, which constitute a great problem in the mineral development of Utah, Colorado and other Rocky mountain states, are promised by the utilization of the chloride volatilization process. The sulphur dioxide leaching of porphyry copper ores of Arizona holds the promise of important developments for the mineral industry of the Southwest.

Recovery of Coal From Refuse.
As about one-quarter of the bituminous coal produced in the United States is used in industrial power plants, the waste of unburned coal and coke in the ashes from boiler plants has been investigated by the bureau. It has been possible to recover the greater part of the unburned fuel by washing the ashes on a concentrating table. As the result of a study of coal washing problems in the state of Washington, one mine has built a table washing plant to treat a pile of refuse amounting to more than one million tons, estimated to contain 200,000 tons of recoverable coal of coking quality.

The bureau conducted studies regarding the use of liquid oxygen as

an explosive. In co-operation with the Department of Agriculture an investigation was made of the use of cellulose from corn cobs in the manufacture of dynamite. Investigations were conducted to determine the best and safest conditions for the industrial use of 13,000,000 pounds of picric acid, held as a surplus by the War department. During the year the bureau called attention to the danger in using certain low-grade foreign detonators, which had been coming into the country in large numbers.

A universal gas mask has been developed by the bureau for protecting the wearer against all poisonous gas not exceeding 2 or 3 per cent concentration in air where a safety lamp will burn. A fireman's gas mask for the use of train crews in railroad tunnels was devised. Investigations made in connection with the problem of ventilation of vehicular tunnels showed that from 20 to 30 per cent of the heat of the gasoline used as a fuel for automobile engines is lost in the form of unburned gases in the exhaust, due to improper carburetor setting.

Investigations at the ceramic experiment station at Columbus, Ohio, indicate that some American clays will yield products closely approaching the English china clay. At the same station it has been demonstrated that better graphite crucibles can be made with the use of domestic bonding clay than have hitherto been made with imported clays.

Classifying Export Coals.
During the year the bureau, in co-operation with three of the largest seaboard coal exchanges, developed scientific systems of classifying export coals into pools by systematic sampling and analysis to supersede the arbitrary classifications used in war time. Further progress was made in the investigation for preparing and utilizing lignite, which constitutes the greater part of the nation's fuel resources.

The bureau completed work on preparation and analysis of special alloy steels for the navy. A comprehensive report on recent developments in electric brass melting was finished.

Methods for preparing caustic magnesia were investigated, which determined that high-grade magnesia can be made from some varieties of magnesia hitherto believed to be unsuitable for this purpose. The bureau investigated dolomite as a substitute for the more costly magnesite in preparing refractories, and demonstrated that there can be obtained from Ohio dolomite a product superior in magnesia content to imported Canadian magnesite.

More experimental work on mining explosives, with reference to increased safety and efficiency, was performed. Plans were initiated for an international conference on the standardization of mine rescue apparatus. Methods for reducing losses of anthracite in mining operations were studied. Timbering methods for metal mines were investigated.

In the course of the year the bureau trained 12,525 miners in rescue and first-aid methods, the largest number so trained in any fiscal year since the beginning of the training work.

Left a Large Family.
Birch Run, Mich.—Mrs. Anna Letman, eighty-six years of age, who died here the other day, is survived by 113 direct descendants—8 children, 42 grandchildren, 61 great-grandchildren and 2 great-great-grandchildren. She had lived in Birch Run township more than fifty years.

Geese Are Attracted by City and Captured

Lemoore, Cal.—Attracted by the street lights shining through the dense fog, thousands of wild geese took refuge on the city streets, their cries keeping residents awake the greater part of the night. Street cleaners ran home for guns and killed a number of the birds. People living in the downtown district said hundreds of the birds were sitting on the pavements while the air was alive with them. Late merrymakers added hunting to their sport.

BETTER ROADS

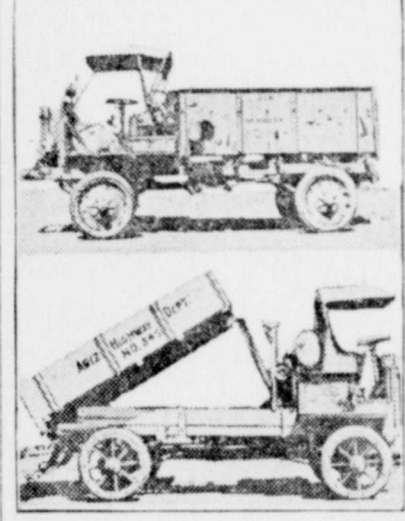

WAR MOTORS FOR ROAD WORK

Vehicles Comprise Virtually All of Surplus Cars Turned Over by War Department.

(Prepared by the United States Department of Agriculture.)
More than 27,000 motor vehicles have been distributed by the bureau of public roads of the United States Department of Agriculture among the various states for road-building purposes. Up to October 31 a total of 27,198 had been so distributed, including 1,800 retained by the department of agriculture for use on roads in the national forests and in connection with the administration of the federal aid act. These comprise virtually all the surplus motor vehicles turned over to the Department of Agriculture by the War department to be distributed under the Wadsworth-Kalm act among the states for road-building purposes. These vehicles, consisting mostly of motortrucks, are a part of the war materials originally intended for use in France.

The number of motor vehicles distributed to the states up to October 31 was as follows:

State	Trucks	Autos	Total
Alabama	480	106	586
Arizona	302	26	328
Arkansas	414	68	482

CONCRETE ROAD MATERIALS

Engineers Making Experiments to Determine Just What Are Best and Right Proportions.

Experiments to determine just what kinds of materials are best for concrete, and in what proportions to mix them so that they will wear well in a road, are being made by engineers of the bureau of public roads, United States Department of Agriculture. An apparatus will be used that consists of heavy steel wheels which, guided by a mechanical arrangement, roll continuously back and forth over the pavement.

More than forty different sections of concrete pavement, each ten feet long, will be laid. Materials from many different parts of the country are being shipped to the government experiment farm at Arlington, Va., near Washington. They will be mixed with varying quantities of cement and water to determine which is best. Experience has shown that there is a measurable amount of wear of the surface of a concrete road each year.

Good Roads in California.
California, already a joy for motor tourists, is to spend \$5,000,000 more on its good roads system. Its enthusiasm for model highways would extend its roads over the borders of many states.

Lead in Farm Products.
Iowa, Texas, Illinois, Missouri, Kansas and Ohio are among the first ten states leading in value of farm products, and are also among the first ten leaders in farm motor vehicle registration.

FOR REMODELED DRESSES; SEAMSTRESSES ARE BUSY

THERE is often more joy, in the heart of its owner, over a remodeled dress, than over a splendorous new one. The exercise of ingenuity in planning the makeover dress, the sense of economy and the addition of one more satisfactory frock to the wardrobe—all work together to inspire the thrifty woman with a comfortable feeling of having accomplished something creditable, especially when she does the planning and sewing herself.

Coat dresses and the popular redingote styles suggest the easiest ways

sewing in anticipation of spring. It is well worth while to get the children sewing and that for the house out of the way, for the allotments of spring time reach everyone and nothing more worth while than leisure economy to enjoy them. The little folks are provided with sturdy, washable clothes for school and play and with some for great occasions, as birthday or dancing parties and visits to one's relatives and friends.

Very early in the year the new goods are brought out in the shops. They follow the holiday business

Examples of Styles for Remodeling.

for converting street suits into frocks. A redingote model, shown at the left of the two pictured, requires a plain satin or crepe underskirt with a vestee and girdle of the same material as the skirt. The waist redingote is pointed at the bottom and slashed to the waistline at each side. It is decorated with narrow folds of the satin or crepe and has flaring sleeves, split at the back and faced with the silk material. Sleeves in suits are often plain and close fitting, and those in frocks are neither, so that they are likely to pre-

pare the mind of the merchant. Everything that is needed for making clothes for the younger generation is provided, together with ready-made garments that set the pace in style. In this year's showings much has been made of familiar materials and combinations of these materials.

The whisper, that attention was centered on fabrics rather than on colorations in spring styles for grown-ups is more than a whisper in the air of children: it is an edict that app-

Pretty Frock for a Girl.

sent a problem in remodeling. But there are many ways of solving it. The sleeves may be cut off above the elbow and a full lower sleeve set on—or they may be split along the outer seam and have a flaring gore inserted, or an entire sleeve may be made of the silk used in combination. The long girdle finished with handsome tassels is an elegant affair that is an important detail in this model.

In the cold heart of winter, when the enchantments of out-of-doors appeal to the youngsters, but call in vain to their elders, mothers and many others, they themselves with

to be emphasized in the new styles. For a girl of nine to thirteen a pretty frock of printed cotton, shown in the picture above, is a long bodice and full skirt with ruffles about it. Plain ornaments used for folds that finish the sleeves and round neck, and the sash.

CHAPTER XV.

—13—

... along by a passionate excitement that seemed actually to consume her. Cherry lived through the next few days. Alix noticed her mood, and asked her more than once what she was doing that she was smiling so much. Cherry would press a hot kiss to her, smile with eyes full of light, and flutter away. She was well, she was quite all right, only she—she would not summon her brother, and she didn't want to go to—

... something gravely amiss, she tried to win her confidence regarding Martin. But briefly, quickly, and with a sort of affectionate and impatience, Cherry refused to discuss him.

... something gravely amiss, she tried to win her confidence regarding Martin. But briefly, quickly, and with a sort of affectionate and impatience, Cherry refused to discuss him.

... something gravely amiss, she tried to win her confidence regarding Martin. But briefly, quickly, and with a sort of affectionate and impatience, Cherry refused to discuss him.

... sister. Alix received the kiss, smiled, and stretched in the sun. "Heavenly day to waste in the city!" said Alix.

"I know!" Cherry said nervously. She had been so strangely nervous and distracted in manner all morning that Alix had more than once asked her if there was anything wrong. Now she questioned her again.

"You mustn't mind me!" Cherry said with a laugh. "I'm desperately unhappy," she said, her eyes watering. "I'd do anything in the world to help you, Cerise!" Alix said sympathetically.

"I know you would, Sis! I believe," Cherry said, trembling, "that there's nothing you wouldn't give me!"

"That's easily said," Alix answered carelessly, "for I don't get fond of things, as you do! My dear, I'd go off with Martin to Mexico in a minute, I mean it! I don't care a whoop where I live, if only people are happy."

"How about Buck?" Cherry said, as the dog leaped to his place on the front seat and licked his mistress' ear.

Alix embraced him lovingly. "Well—if he wanted to go with you!" she conceded unwillingly. "But he wouldn't!" she added quickly.

Cherry, going to the train, gave her an April smile, and as she took her seat and the train drew on its way, it seemed to her suddenly that she might indeed meet Peter, but that it would only be to tell him that what they had planned was impossible.

But on the deck of the Sausalito steamer, dreaming in the sunshine of the soft, lazy autumn day, her heart turned sick with longing once more. Alix was forgotten, everything was forgotten except Peter. His voice, his tall figure, erect, yet moving with the little limp she knew so well, came to her thoughts. She thought of herself on the other steamer, only an hour from now, safe in his care, Martin for-

MORGAN IS DESIRABLE HORSE

Steady Increase in Weight and Height of Animals Maintained at Government Stud.

(Prepared by the United States Department of Agriculture.)

There has been a steady increase in the weights and heights of the horses maintained in the stud at the United States Morgan horse farm at Middlebury, Vt., says a recent department circular No. 199, "Breeding Morgan Horses at the United States Morgan Horse Farm." In 1911 the average height of mature stallions was 14.3 hands and of mature mares 14.2½ hands. By 1916 these figures had been raised to 15 and 14.3, respectively, and by this year to 15½ and 14.3½.

The average weight of mature stallions in 1911 was 1,025 pounds; in 1916, 1,040 pounds; and in 1921 it had been increased to 1,200. During the same period the weights of mares went from 1,025 to 1,049 to 1,063 pounds.

At the same time, however, the other qualities received just as much consideration as size. A frequent objection raised against the Morgan has been that it is too small, but the steady improvement in scale and weight is making the modern Morgan a handy and desirable horse for use on farms, as pleasure saddle horses, for police mounts, and for cavalry purposes. It has good speed and exceptional endurance.

The government farm at Middlebury was established to insure preservation of the famous American breed, and the stock at the farm is a fountainhead where good blood will always be available. The circular just mentioned contains information concerning foundation animals, the story of the movement to conserve the breed, methods of breeding and management, show-ring records and the records made by Morgans in endurance contests held in recent years.

Since the early days of the breed up to the present time the Morgan has repeatedly demonstrated his endurance, one of the most desirable qualities in any horse, particularly a light horse. In this publication attention is called to the great reputation made by

The Morgan Stallion Scotland, Weight 1,150 Pounds; Height 15 Hands 2 Inches, Is a Good Specimen of the Modern, Larger Morgan.

the First Vermont cavalry in the Civil war. This regiment was mounted on Morgan horses, and official reports made to the War department stated that the horses stood the hardships of the campaigns better than any others. Also, their short, strong legs, round, full-muscled bodies, and beautiful heads called forth universal admiration.

The Morgan still has the endurance. Castor, a Morgan gelding bred by the United States Morgan horse farm, made the second best time in the 300-mile endurance contest in 1919. He carried 200 pounds and made the trip in 51 hours and 18 minutes. The next year he carried 245 pounds and finished in 58 hours and 40 minutes, taking seventh place. In the contest for 1921 he was fourth out of 17 entries, carrying 245 pounds and making the 300 miles in 51 hours and 38 minutes.

This circular, which is well illustrated with half-tone reproductions of beautiful Morgans, may be obtained free by addressing the Department of Agriculture, Washington.

DRAFT CAUSE OF PNEUMONIA

Just as Essential to Have Hog Houses Well Ventilated as to Avoid Closing Tight.

Drafty hog houses are frequently the cause of pneumonia but it is just as essential to keep hog houses well ventilated as it is to avoid closing the house up tight. If the hogs are shut up in a warm building where they become too warm and then subjected to cold drafts, they are very likely to contract pneumonia.

Silage-Fed Cattle.

Silage-fed cattle do not finish quite as well as those strictly dry-fed. Adding corn to the silage produces a better finished animal, that usually brings a better price, and it also results in better gains on hogs that follow the cattle.

Ox Warble Loss Big.

The ox warble causes a loss of \$50,000,000 in this country, due to spoilage of hides, lessened flow of milk and slow gains in beef cattle. It is always time to swat the ox warble.

Back Bad Since the Grip?

Has a cold or grip sapped your strength? Do you suffer constant backache, feel nervous and depressed? Then look to your kidneys! Many cases of kidney trouble are the result of infectious disease. The kidneys have broken down under the strain of filtering disease-created poisons from the blood. That's why a cold or grip often leaves backache, headaches, dizzy spells and irregular kidney action. Help your weakened kidneys with Doan's Kidney Pills. Doan's have helped thousands and should help you. Ask your neighbor!

A Kansas Case

N. T. Pennock, 313 Mill St., Osawatomie, Kans., says: "There was a lameness and soreness over my kidneys. I couldn't straighten up, as sharp pains darted through the small of my back. My kidneys acted too often and sometimes not at all. I used Doan's Kidney Pills and they relieved the soreness in my back and put my kidneys in good condition."

Frenzied Finances.

Roberts—What's the matter? Finances bothering you?
Richard—Yes; I owe Rogers \$5, and today I've got it, and he knows I've got it, and he knows I know he knows I've got it.—American Legion Weekly.

MOTHER! MOVE

CHILD'S BOWELS WITH CALIFORNIA FIG SYRUP

Hurry, mother! Even a sick child loves the "fruity" taste of "California Fig Syrup" and it never fails to open the bowels. A teaspoonful today may prevent a sick child tomorrow. If constipated, bilious, feverish, fretful, has cold, colic, or if stomach is sour, tongue coated, breath bad, remember a good cleansing of the little bowels is often all that is necessary.

Ask your druggist for genuine "California Fig Syrup" which has directions for babies and children of all ages printed on bottle. Mother! You must say "California" or you may get an imitation fig syrup.—Advertisement.

Uncle Eben.

For Your Back and Kidneys

You Will Have Vigorous Vitality if You Follow This Advice.

Higginsville, Mo.—"For seven years I suffered severe pain in my back and the back part of my head. My kidneys were very inactive from time to time and sluggish. I was extremely nervous, had poor appetite, was melancholy, restless and completely worn out. I used every available remedy recommended for the kidneys but obtained temporary relief only, but I can truthfully say that after using one box of Dr. Pierce's Anuric Tablets all of the former symptoms are now removed and I feel like a new man. Rev. G. W. Watts.

Help your weakened kidneys by obtaining this "An-uric" of Dr. Pierce's at your nearest drug store, or send 10c for trial pkg. of tablets to Dr. Pierce's Invalids' Hotel in Buffalo, N. Y., or write for free medical advice.

ITCH!

Money back without question if HUNT'S GUARANTEED SKIN DISEASE REMEDY (Hunt's Salve and Soap), fail in the treatment of Itch, Eczema, Ringworm, Tetter or other itching skin diseases. Try this treatment at our risk. Sold by all reliable druggists. A. B. Richards Medicine Co., Sherman, Texas.

MELON SEEDS—THE BEST THE WORLD PRODUCES, raised on our own ranches. Large and small buyers should ask for estimates and prices. H. VAN BUSKIRK SEED COMPANY, ROCKY FORD, COLORADO.

ECHOES from M. I. S.
By Students of
MIAMI INDEPENDENT SCHOOL

THE WESTHALL QUARTETTE
On Monday evening the Westhall Quartette gave the best number of the Lyceum season at the Auditorium. The program was full of wit and humor, and yet, gave much food for good, substantial thought. The audience was the largest and the most appreciative one that has yet attended a number, and the program ended all too soon for all present.

On April 8th, the Southland Duo will give the last number of this year's season. Don't fail to hear them.

THE DECLAMATION CONTESTS
The Junior and Senior Declamation Contests were held at the High School Auditorium, Saturday evening. The contests were held in the following order: Junior Girls; Junior boys, Senior girls, and Senior boys. In the Junior girls, Lora Seiber won first place, Floyd Gilley, second, and Dona Locke, third. Polk Wells won first in the Junior boys' contest, Bill Coffee won second, and B. F. Jackson, won third. Gladys Lowry took first place in the Senior girls' contest. Lois Rogers, second, and Ada Coffee, third. In the Senior boys' contest, Fern Preesang won first place, Acie Estes and Harry Kelley tied for second place, and Robert Robbins, won third. M. H. S. hopes that these four winners will bring back four cups when they return from Canyon, where the District Contests will be held, April 21-22.

SEVENTH GRADE HONOR ROLL
The Seventh Grade Honor Roll was not ready last week and the following students are on it this month:
Elizabeth Dial.
Marie Buren.

Much interest is being taken in Tennis this week.

Most of the pupils who have been ill are in school again.

On the invitation of Prof. Gilley the Westhall Quartette favored the student body with a short program at one o'clock Tuesday.

A High School Teacher—"No Profero El Cafe."

Why did Miss Keevil go so near the front in the auditorium Tuesday?

Our Junior girls are wearing curls and braids this week. Hurrah for them!

ANNUAL NOTICE
The Seniors will start selling Annuals the later part of this week or the first of next. You want to buy an Annual, we know. So put your subscription in now, and help us to diminish the number one hundred. We will try to see everyone, but if we miss you, and you want one, please let us know, so that you will be sure to get this year's Annual, as we know that everyone wants it to be a success. Buy an Annual and see what your school and our school is doing. You'll enjoy every page of it.

SENIOR NOTES
When you hear "Outlook" mentioned, take the Seniors' advice and look out.
Evelyn Roach is back in school after a week's absence.
Mary Blair, one of the class of twelve, is on the sick list. We are glad to hear that she is improving.
Elvira—"Do you have a good memory, Willie Fae?"
Willie Fae—"Well, of course, but I have a better forgetter."
Clara Mae, Cecil, Maurita, Elvira, Henry Lee, and Willie Fae were caught napping in the English class Monday. Wonder why?

JUNIORS SUPREME
Miss Keevil—"Harry, can you decline 'to eat'?"
Harry—"Yes'm, I can, but I don't like to."
Why does Miss Carter like a name beginning with "C"?"
George—"The conversation of girls usually consists of nothing."
Charley—"Yes, they're always thinking of boys."
Why do the Seniors like to sit in the back of the study hall?
Mary had a little lamb,
You've heard that fact before;
But had you heard she passed her plate
And had a little more?

We still have a few sacks of Hard Wheat Flour that we are selling for \$2.00 per sack. Certain & Philpott.

Tanlac is purely vegetable is made from the most beneficial roots, herbs and barks known to science.

THE CHIEF CAN SELL IT FOR YOU.

You never knew that Corn Flakes could be so wonderful as Kellogg's

"Say, Captain, let the enemy come on! We can hold out a long, long time with this big box of Kellogg's Corn Flakes! Wish it was time to eat now!"

Kellogg's are a revelation, not only in Corn Flakes, but in cereals! Such delicious flavor, such crispy crunchiness never before was believed possible in corn flakes! You have a great treat awaiting you the very first time you sit down before a generous bowlful of Kellogg's Corn Flakes and a pitcher of milk or cream—and fresh fruit, if it's handy!

It isn't fair to yourself and your family not to share in the pleasures that Kellogg's Corn Flakes so generously spread over the nation—and the world. You are missing a taste-thrill! So, tomorrow morning, serve Kellogg's Corn Flakes for breakfast, or for lunch—or for between-meals nibbles! They're wonderful—and never tough or leathery or hard to eat!

Insist upon your grocer supplying KELLOGG'S Corn Flakes—the delicious kind in the RED and GREEN package that bears the signature of W. K. Kellogg, originator of Corn Flakes. NONE ARE GENUINE WITHOUT IT!

Don't forget, KELLOGG'S Corn Flakes are made by the folks who gave you the JUNGLELAND Moving Pictures. Coupon inside every package of KELLOGG'S Corn Flakes explains how you can obtain another copy of JUNGLELAND.

Kellogg's CORN FLAKES

Also makers of KELLOGG'S KRUMBLEES and KELLOGG'S BRAN, cooked and krumbled
