## No. 2 Briggs-Owen Well Shows Production

### New Field Near Eastland Spread By Find In Offset

### Strong Winds Whip In Early Wednesday

Some of the strongest winds of recent years whipped through portions of Eastland County early Wednesday, but apparently did little damage.

The howling wind was accompanied by spotty rains that left only .25 inch of moisture at Eastland, but .90 inch at Ranger. Many tree limbs were broken off by the wind, and there were scattered reports of other damage in the county.

In Eastland a small chunk of cement reportedly blew off the upper part of the Connellee Hotel Building and crashed through the roof of a one-story part of the structure.

The storm was followed Thursday by spotted showers over the county, mostly very light.

Good production in the Lake Sand was indicated for the Bankline Oil Company's No. 2 Briggs-Owen well northwest of Eastland on a drillstem test run this week.

Crews set the "oil string" casing to the pay depth Wednesday, and preparations were being made Thursday to test production in the well.

The new well is an offset to Bankline's No. 1 Briggs Owens, which was tested for a 400-barrel well and is producing from a depth of 3265-77 feet. The new well is located 414 feet from the north line and 3260 feet from the east line of Section 48, Block 4, H&T&C Survey in Eastland County.

### Drilling Is Resumed At Deep Rock Well

Drilling was resumed Monday on the Deep Rock Oil Corporation Eva Davis No. 1 well, four and a half miles southeast of Ranger, after the test blew in for 10,000,000 cubic feet of gas Saturday night.

The gas was encountered at 3322 feet in a zone believed to be a section of the Ranger. A four-inch pipe was installed for the gas flow, but because of increased pressure, an eight-inch pipe was put in Monday.

Earlier, gas estimated at 2,500,000 feet per day had been encountered at 3292 feet in the upper part of the Ranger.

The well will be drilled to the Ellenburger, expected at about 3800 feet, unless production is found in the Mississippi.

The area near the well has no current production, although a number of tests have been drilled in the vicinity. It was expected that the well would be plugged back to the gas zone if oil is not found in paying quantities deeper. H. H. Cummings of Graham, a tool dresser on the well, was burned slightly on the face Saturday night when an oil saver on the control head blew out, pelting him with sand and cuttings.

### Day Given Signal Honor In Lionism

A signal honor for Eastland Lions Club member Neil Day was announced Tuesday night at an installation banquet when incoming District Governor Elmer Atkin announced that Day would be his deputy district governor.

For the past year, Day had served as zone chairman.

As deputy district governor, he will serve as understudy to Atkin, will visit clubs in the district, have a part in decisions on district affairs, and will serve for Atkin when the latter is out of the district.

Judge Milburn S. Long of the Eleventh Court of Civil Appeals was installed as new club president by Atkin. Other officers installed were G. W. Fields, first vice-president, C. A. Ranney, second vice-president, B. C. Frost third vice-president, Joe Collins secretary-treasurer, T. M. Fullen Tail Twister, Neil Day assistant Tail Twister, Bruce Pipkin Lion Tamer, and Theo Lamb and Paul Chaney, directors.

Judge Long succeeded W. B. Harris as president.

The dinner was a ladies night affair with corsages for all the ladies. Master of ceremonies was J. Ross Rucker.

### Two Men's Classes To Meet Jointly

A joint class meeting of the Men's Fellowship Class of the First Christian Church and of the 9-49 Bible Class of the First Methodist Church will be held at 10 a. m. Sunday in the Christian Church classroom, it was announced this week.

Coffee will be served before the class meeting begins at 10 a. m. There will be special musical numbers and a special speaker, it was said.

### Frost & Frost, Oldest Law Firm In County, Moves To New Offices After Many Years

A move of historical as well as professional interest in Eastland has been completed with the removal of the offices of the law firm of Frost & Frost, oldest in Eastland County, from its quarters of many years in the Frost Building on the south side of the square in Eastland to new offices on the third floor of the Exchange Building in Eastland.

The Frost law office was opened in 1890 when James R. Frost moved to Eastland from Bowie, where he had been practicing law. James R. Frost continued the practice of law in Eastland from 1890 until 1922, the year of his death. From time to time during the 32-year period, James R. Frost was associated with such other lawyers as D. G. Hunt, R. B. Truly, Claud Chastain and J. T. Hammond. Around the turn of the century he represented this district in the Texas Legislature. On many occasions he served as special judge in the various courts. During the latter years of his practice in Eastland, he was joined in the practice by his son, Cyrus B. Frost.

Cyrus B. Frost has devoted the entire period of his active legal career to the practice of law in Eastland. During the early years of his practice he served as county attorney and county judge of Eastland County. During the First and Second World Wars he served gratuitously as the fiscal agent for the county in the various war loan drives conducted by the federal government. He is admitted to practice before the Supreme Court of the United States and lower courts.

Jack W. Frost, eldest son of Cyrus B. Frost, became associated with his father in the practice of law in Eastland in 1936. Prior to that time he had received his academic and law degrees from the University of Texas. He has continuously practiced at Eastland since 1936. He is a member of the State Bar of Texas, the American Bar Association, and is a former vice-president of the Texas Junior Bar Association. He is admitted to practice before the Treasury Department of the United States and the Tax Court of the United States. He is married to the former Mary Lou Dawson of Texarkana.

Billy C. Frost, son of Cyrus B. Frost, joined them in 1948. He graduated from Abilene High School and received his higher education at the University of Texas and at Harvard University. At the University of Texas he received his Bachelor and Master's degrees in business administration and his degree as Bachelor of Law. He is a member of the State Bar of Texas, and a vice-president of the Eastland Lions Club. His wife is the former Alice Estel Spencer of Cisco. They have a daughter, Julie, age 5.

Cyrus B. Frost, Jr., youngest son of Cyrus B. Frost, joined the office in February, 1950. He graduated from Eastland High School in 1933 as valedictorian, and received academic and law degrees at the University of Texas, where he was elected to honorary scholastic organizations including Phi Beta Kappa, Phi Eta Sigma, and the international honorary legal fraternity, Phi Delta Phi. He entered the Army as a private through selective service in 1942, was later commissioned as an officer, served as aide-de-camp to Major General Wallace, and retired from the Army in 1946 as a captain. In 1943 he married Nancy Seaberry of Eastland. They have two sons, Cyrus Seaberry, age 3, and James, age 1.

### Biggest And Best July Fourth Fete Being Promised

Eastland's 1950 Fourth of July celebration a week from Tuesday will be the biggest, best, and most colorful yet, it was pledged Wednesday night at a meeting of Committee chairmen at the City Hall.

From the 6:30 a. m. breakfast that will set the show to rolling to the late evening fireworks and square dance that will end it, the celebration will be bigger and better in every way than anything that has preceded it, it was pledged.

Top features will include a two-day Sunday-Tuesday golf tournament that will be the first ever held at the new Eastland Lakeview Country Club; an appearance over the City Park during the celebration of six or more Air Force jet planes; morning swimming contests in the park pool; afternoon games, contests, and band concerts; the bathing beauty revue at the park pool in the early evening, and the square dance and fireworks later on.

It will be a mammoth Fourth of July celebration in the old style, with modern touches.

Judge Milburn Long, who is in charge of the breakfast, said that everything was in readiness except that he had not heard yet if eggs were to be donated for the affair. Donors had come through with coffee, bacon and bread, he said. The judge and his committee were planning to prepare breakfasts for 400—all free.

C. W. Hoffmann said the fireworks were all bought and will be set off below the southern edge of the park hill, so spectators can look down on them.

Mrs. Marene Johnson was attending to details of the bathing beauty revue.

Bob Gilchrist is general chairman for the celebration.

### Pearson To Make Race For Position In Legislature

L. R. PEARSON

L. R. Pearson of Ranger, who is a candidate for state representative, 107th District, has authorized this newspaper to issue the following statement relative to his candidacy:

"My name has been filed by petition with the County Chairman of Eastland and Callahan Counties for a place on the official ballot in the approaching Democratic primary as a candidate for Representative of the 107th Legislative District. This was done without my knowledge or consent.

"For this expression of confidence, I am truly grateful. I have concluded to let my name remain on the ballot, and will appreciate any consideration my candidacy may be given. I have no easy political promises to make. They are usually of little or no value. I represented the 107th District in the 49th and 50th sessions, and my record in the Legislature reflects my philosophy of State of

### Side Issues

By HENRY G. VERMILLION

The 155 entries in the Eastland Horned Toad Derby that had been received by Thursday morning in the Eastland Chamber of Commerce office were worth \$775 to the derby, if my mathematics is not too rusty, and practically assures the derby committee of losing no money, with the prize list set at about \$800 (depending to some extent on the number of heats run) and with over a month and a half left in which to receive entries.

Of the 155 entries to date, the great majority came from letters written by Eastland businessmen to friends, business associates of various kinds, and others they know or know of.

Some of the letters written, both asking for the entries and in reply, have been remarkable. Since the actual details of the correspondence have been handled by Manager H. J. Tanner in the chamber of commerce office, he has had a good deal of fun.

L. E. McGraw, daddy of the letter-writing scheme and chairman of the derby for its full term of existence—two years—wrote in his letters to the suckers—er, investors—that he will enter for them a toad from his private stables, and that his frogs "are worked out every day just enough to keep them in shape and fed a diet of bolts, nuts, screws and lockwashers, washed down with Mapar brake fluid until a few days before the race, then we clean 'em out with a good dose of Casite."

This information startled quite a lot of automobile dealers over the state of Texas, and McGraw and Tanner got some rather incredulous replies.

One car dealer, Bill Morrow of Stamford, had some correspondence with the Eastland men, and finally wrote, "Dear Mr. Tanner: After all the build up I have had about my horned frog, Mac Jr., from you and Mr. McGraw, I am going to raise h— and start an

where rains interfered with the planting of 90 to 95 percent of the County peanut crop will be completed by the end of the week, County Agent J. M. Cooper said.

The planting was delayed by the wet weather, Cooper said. However, Baldy Harris, who is successful peanut grower, never plants until mid-July, and his friends this week that he should be through planting on schedule, and the ground conditions were just perfect as far as he was concerned.

W. E. Powell, Eastland County administrator, said as the planting neared its end and his crews will start next week on checking the planted peanuts, to determine how close farmers have to planting the allotted number of acres.

He said there will be 25 of men sent out over the county to check acreage, and to check farmers are not over-planting, thus hardening the government support prices for their

He said that checking of the peanuts may be done after the peanuts are planted, but that check must be completed before or before harvesting time. Approximately 36,000 acres of the farmlands were allotted for the 1950 crop under the program.

**MOSTLY** in dealing with the subject of handling people, this  
 column relates how achievement was accomplished from  
 using the proper technique. But today Robert Anderson, New  
 York City, wants to tell you how he failed because he did not  
 use the right technique.

Robert was in India where they were train-  
 ing Chinese troops for war service. Among other  
 things, they inspected the rifles of the Chinese  
 soldiers and made necessary repairs. Since all the  
 weapons had serial numbers, it was Robert's job  
 to record these numbers and make notations.

He got fed up with all this paper  
 work; was much more interested in  
 working on the guns themselves. There  
 were others who preferred the paper  
 work. How silly not to give a man the  
 work he liked, and in which, naturally,  
 he would be more efficient. So he criticized, condemned,  
 complained. He condemned his lieutenant who was so  
 short-sighted, and he did it in person. But the army  
 was a busy place; shortcomings of the men often had  
 necessity to be overlooked. So things went on as they  
 were.

One morning, a company formation was called. The captain,  
 a good sort of guy, stood out in front with the first sergeant who  
 read off a few new company orders, then proceeded to call forth  
 several enlisted men. That commanding officer really enjoyed  
 handing out promotions and the men felt good all over as they  
 heard their own or their comrades' names called for promotion.

Then suddenly: "T/5 Robert J. Anderson." Robert  
 stepped forward; that T/5 was now going to be written  
 T/4. He marched forward, gave the captain a snappy  
 and respectful salute, and was given "at ease." The  
 sergeant went on: "T/5 Robert J. Anderson is reduced to  
 the grade of private—reason, inefficiency."

Well, maybe that wasn't hard to take. He knew his work; he  
 wasn't inefficient in performing it. But he had proved himself  
 to be "inefficient" in the matter of discipline. And he knows now  
 that he would have been given another stripe instead of having  
 what he had taken from him, if he had only observed a rule  
 which reads "Don't criticize, condemn, complain; instead, show  
 appreciation."

And this rule is easily followed, if it is preceded by under-  
 standing.

# News From . . . CHEANEY

—By Special Correspondent—

Sometimes the news, via grapevine and otherwise, is sadly lacking. But then this is a busy time of year for most people, and there's not so much visiting around.

Farmers are busy harvesting their grain, but yields have not been as good in this vicinity as might have been expected.

Some people still take time out to go fishing, for we see the cars go by with all kinds of equipment—boats, tackle, boxes and occasionally just lines and poles.

The Bill Logans and Roy Watsons, Mr. Sparger and a pickup load of boys and girls spent one afternoon last week on a fishing trip to the Eastland lake.

Mr. and Mrs. Elwood Minchew of Breckenridge visited Mr. and Mrs. J. W. Blackwell and Mrs. Bishop Saturday night and Sunday. Mr. Minchew spent his time fishing on the Leon River.

Mr. and Mrs. Seth Boles spent the day here Wednesday with Mr. and Mrs. Sanford Lemley and the men went fishing.

T. A. Grice of Abilene preached Sunday morning and evening at Alameda. This concluded his third Sunday engagements, until further notice. He will go to Comanche each Sunday in the absence of

J. Frank Lilly, during July and August. His family came with him and were dinner guests in the Sanford Lemley home. Mr. and Mrs. Jim Grice also were their guests Sunday.

Mrs. Fred Rodgers visited Mrs. Iley, who is ill, Sunday afternoon.

Mr. J. W. Case was returned home from the Ranger hospital Saturday, feeling much improved for his week's stay. His daughter, Mrs. Edna Alvis of Fort Worth, and her family visited him Sunday.

Mrs. Electra Hattox and Mrs. Bill Tucker attended the County Home Demonstration Council in Eastland Wednesday, representing the Salem club. Delegates elected to attend the State T.H.D.A. meeting in Big Spring in August were Mrs. Ola Wilson of Flatwoods,

Mrs. A. H. Gage of Sabanno and Mrs. Bill Tucker of Salem. Each county will have three voting delegates. Mrs. Cora Plumlee of the Word club was named alternate. (This will correct the error in the story in last week's issue of The Record.)

Mrs. Arthur Love spent Tuesday of last week in the John Tucker home. Aunt Ellen Tucker, 78, is somewhat improved, although still unable to be up. She has regained the use of her left arm and hand and partially regained the use of her left foot and leg. Her physician visited her Thursday for a check-up.

Charlie Miller, who is working at Crescent, was here over the week end.

Parliament Party members in the English Civil War of the 17th century were called "roundheads" because they wore their hair clipped close.

Mr. and Mrs. E. C. Fowler of Phoenix, Ariz., and Mrs. J. A. Rankin of Bell, Calif., all former Eastland residents, were week end guests in the home of Miss Vera Parsons.

Mr. and Mrs. Ben Rollins and son Benny, of Bisbee, Ariz., are guests of his parents, Mr. and Mrs. G. W. Rollins of 1110 South Seaman Street.

From Mrs. Grace Burkhart of Berryville, Ark.: "I remember when you could buy big, heart-shaped squares of 'Lady Gum' with a little picture pasted on it. I guess it was just sweetened paraffin and it wasn't very good, but there was surely a lot of it for a penny."

Mrs. Vena Norton of Mesa, Ariz.: "I can remember going to the mill several miles from our home with a load of wheat, and bringing back large, heavy sacks of flour."

From Clara Weppler of Coshocton, O.: "I remember when my mother cooked soap from meat rinds, grease and lye from wood ashes mixed with some bought lye. She not only made soft soap but all the hard soap we used for household purposes. We never bought a bar of laundry or toilet soap until 1907."

From L. Hornecker of LaCrescenta, Calif.: "I remember the deep snow Illinois used to have, 60 years ago. Around the warm wood stove on those cold nights we ate apples and popcorn, popped in a wire popper over the red coals in the stove."

From Mrs. Mary Stewart of Chicago: "I remember when grocery stores had several large, black, japanned tin boxes with various teas — oolong, gunpowder, green Japan, English breakfast and mixed. Ten or 15 cents worth lasted a long time."

### Eastland Library Air Conditioned

New books received include "The Pink House" by Nella Gardner White; "Pemberley Shades" by D. A. Bonavia Hunt; "The Town" by Conrad Richter; "The Circle of the Day" by Helen Howe and "World Enough and Time" by Warren Robert Penn.

Recently placed on the memorial shelf is a new book entitled "All of This is Louisiana" by Frances Parkinson Keyes, which was donated to the library by Mrs. Virgil Seaberry.

New children's books include "Friendly Fairies" and "Golden Book" by Gruelle, and "The Ghost Mare" by David Greig.

The public was invited to visit the library during open hours, from 2 to 5:30 p. m. on Monday, Wednesday, Friday and Saturday.

Members of the Men's Fellowship Class of the First Christian Church will have a basket picnic at the City Park at 7 p. m. Friday, it was announced this week.

One feature of the picnic will be a rule against wearing ties, to insure comfort of the male picnickers, it was disclosed. A committee will be on hand to cut off the ties of any non-conforming members.

A large attendance is expected for the affair, class officers said.

He pointed out that he is now filling the unexpired term to which he was appointed following the death of the late Constable Dug Barton.

"I am seeking my first elective term," he said. "I would appreciate the consideration of the voters."

## Successful Parenthood

BY MRS. CATHERINE CONRAD EDWARDS Associate Editor, Parents' Magazine

DO YOU EVER FIND yourself giving a child his own way as a sort of revenge? You probably tell yourself it is for his own good—but is it?

Remember when Julie stormed and stormed about having to practice her piano lesson—and so you said, "All right, if you hate so to practice we'll stop music lessons." Now Julie is 17 and has no interest in music, a sort of arid place in her life that may never be filled.

Wouldn't it have been better back when she was 12, to find out why she hated to practice? Maybe she had the wrong teacher; maybe the piano was the wrong instrument for her.

Perhaps if you had tried giving Julie violin lessons or a choice among the wind instruments you might have had better results. Musical instruments can be rented so you don't have to invest in various ones to find where your child's interest lies. Or, if you had interested her in singing in a choral group, music would at least have remained a part of her life. But no, you let her have her own way, immature as her judgment was, and perhaps without realizing it you got a kind of "she'll be sorry" satisfaction out of your act.

This is the sort of childish quirk most of us carry well into maturity—and parents, being young themselves, must be on guard against them when dealing with their children. Choosing the proper punishment for a child's misdeeds presents many such pitfalls. For example, you've been told that a child must learn from his own experience, so when Jimmy is ha-

bitually late you make up your mind that you'll let him suffer from his tardiness. But some latenesses are too high a price for a child to pay for a fault it sometimes takes years to correct.

So if it's a matter of being late to the movies, let Jimmy suffer the consequences, which in this case means missing the beginning of the picture. But if he sings in the junior choir at church and the price of being tardy is being put out of the choir, it would be pretty drastic to leave his arriving on time entirely up to the boy.

Sometimes a parent simply doesn't know which course to pursue. Take the painful experience of trying to get a boy to dress up during those years when his untidiness seems beyond your worst imaginings. You've been warned against letting your own pride in a neat looking family make undue demands on your children in the scrubbing up department. Why not use this gauge? If Jimmy doesn't look any more unkempt than the boys he plays with, let cleanliness remain a matter of hygiene—clean hands before meals and a bath at bedtime—with no fussing about flying shirt tails and unruly hair. But if Jimmy looks like a neglected orphan among his friends, you may be sure he is aware of that difference.

And the chances are he is uncomfortable over his rag-tag looks and merely pretends he doesn't want to conform. Then is the time to offer a gaudy new shirt or a pair of slick flannel pants—something he can accept as not being too much mother's taste, yet becoming enough to make him feel at home with his friends.

### Eastland Asked To Exhibit Peanuts

Eastland County, which had in its peanut exhibit one of the outstanding displays in the agricultural section of last fall's State Fair of Texas, again has been asked to present a peanut exhibit, County Agent J. M. Cooper said this week.

Cooper said he is contacting chambers of commerce in Eastland, Ranger and Cisco to see if financial support for setting up the exhibit will be forthcoming. "We can't do it without money," he pointed out.

Cooper was told that a display space of 10 by 20 feet will be provided for the exhibit, without rental cost.

"In view of the fact that Eastland County is second in Texas and tenth in the nation in peanut acreage, I feel that such an exhibit is very fitting," Cooper said.

Cooper said that the matter is to be considered by the board of directors of the Eastland Chamber of Commerce. R. V. Galloway, manager of the Ranger chamber, told Cooper he felt sure his organization will cooperate.

Mr. and Mrs. F. L. Drago were guests over the week end of their niece, Mrs. W. F. Knode of Fort Worth. Mrs. H. W. Drago of West Virginia, a sister-in-law of Mr. Drago's, and a nephew, Bernard Drago, and wife of Galveston, also were guests in the Knode home. Mrs. H. W. Drago plans to visit in Eastland before going home.

### Rich's Name Stricken From Candidate List

Lloyd Rich of Cross Plains withdrew his name as a candidate for state representative from the 107th District after it was found he had not paid a poll tax in Callahan County, Eastland County Democratic Chairman Oscar Lyerla said this week.

Lyerla said he notified Rich that it was necessary for the poll tax to have been paid before his name could go on the ballot, and that Rich told him that would keep him out of the race.

Places on the ballot were allocated by lot at a meeting of the county Democratic committee in Eastland Monday, and assessment fees against candidates, to meet costs of the primaries, were set up.

Rich's withdrawal from the 107th race left in the field L. R. Pearson of Ranger, Charles H. Dawson of Cross Plains and O. O. Odom, Jr., of Ranger.

### CARLOCK TO PREACH AT CHRISTIAN CHURCH

Rev. Fred C. Carlock of Fort Worth will be guest minister at the First Christian Church in Eastland Sunday and throughout July in the absence of Rev. J. B. Blunk, the pastor, who is on reserve duty at Carlyle Barracks, Pa.

### ELDER TO PREACH FOR PRESBYTERIANS

The public was invited to attend.

### VAUGHNS ARE PARENTS OF BABY GIRL

Mr. and Mrs. J. E. Vaughn of Eastland are parents of a daughter, Rita Kay, born last Sunday in the Gorman hospital. The child weighed six and a half pounds at birth.

Mother and daughter were reported doing well. Mrs. Vaughn is the daughter of Mr. and Mrs. A. W. Wright of Long Branch, formerly of Eastland.

### Lon Palmer Rites Held Here Friday

Funeral services for Lon Palmer, 83, of Flatwoods, were held Friday in the Hamner Funeral Chapel, with burial in the Bear Springs Cemetery near Carbon.

Mr. Palmer, who would have been 84 Saturday, died Thursday of last week in his home at Flatwoods.

Survivors include his widow and two daughters, Mrs. Lela Penny of Eastland and Mrs. Travis Bond of Carbon, also seven grandchildren and four great-grandchildren.

### Four From Eastland In Choral Clinic

Janelle Patterson, Laquita Joy Fields, Mary Ann Henderson and J. E. French are Eastland students enrolled in the choral clinic this week at Cisco Junior College. Robert Clinton, music director of the college and sponsor of the affair, said.

Mrs. French is one of the instructors in the clinic. Friday afternoon, pupils in the clinic will give a choral program over KSTB in Breckenridge, and at 8:15 p. m. Friday a closing concert will be given in the Cisco Junior College auditorium. The concert will wind up the clinic activities.

Clinton said the clinic has been outstandingly successful. He invited the public to tune in for the radio broadcast, and to attend the concert.

### Three Are Taken To State Prison

Sheriff J. B. Williams, accompanied by a Texas Ranger, left Wednesday afternoon for Huntsville with three prisoners who were being transferred to the penitentiary.

Two of the prisoners were sentenced in Eastland County and the third in Young County.

### Two Cases Of Polio Reported At Gorman

Polio already has struck twice this summer in Eastland County, according to Joe Collins, chairman of the Eastland County Chapter of the National Foundation for Infantile Paralysis.

Collins said that both of the known cases of the disease are at Gorman.

He urged that every precaution be taken to prevent the spread of the disease, and said that the national foundation is "standing by" to assist in every way possible.

Collins emphasized that if polio is suspected in any family, the first thing to do is call the family doctor, and then do as he says.

Mrs. Ray Fowler of Fort Worth visited the past week with her son, Leon Fowler, and family of 506 South Oaklawn Avenue. Mrs. Fowler returned home Tuesday.

### Ranger Child Dies After Snake Bite

Eastland County's first rattlesnake bite death in time came Monday afternoon when Joann Bolling, 4, died in a hospital seven hours after being bitten.

Funeral services were held Wednesday afternoon in the Bullock Cemetery.

Joann, daughter of Mr. and Mrs. Floyd C. Bolling of Route 1, was on a fishing trip with members of her family, walking with her grandfather, S. Sacks of Ranger, it was reported, when the snake struck her right leg three times. The bite occurred on the Grover farm six miles north of Eastland.

Other survivors include her father, Douglas, two sisters, Debra and Wanda Sue, and grandmothers, Mr. and Mrs. C. L. Bolling and Mrs. Gregor.

GRAND OLE OPRY AT DE LEON JULY 4

Mayor W. B. Nowlin of De Leon has arranged for the staging of the Third Annual De Leon Homecoming Jamboree at Hodges Park, 3 miles east of De Leon, on Tuesday, July 4—and has lined up some of the best known and most popular radio artists in America for his big jamboree.

Heading the program will be Hank Williams, recognized as perhaps the No. 1 recording artist in the nation, and his Drifting Cowboys, stars from NBC's Grand Ole Opry.

Nowlin will promote shows in five Texas cities, including Fort Worth and Dallas.

Wally Fowler and his Oak Ridge Quartet, also NBC stars from radio station WSM in Nashville, Tenn., will be on hand for the De Leon show; the Rangers Quartet from Raleigh, N. C.; the Blackwood Brothers of Shenandoah, Iowa; the Happy Goodwin family of Mayfield, Ky., are other out of state performers who will be in De Leon to offer continuous musical entertainment from 10 a. m. to 5 p. m.

Texas also will offer its share of stars, including the Stamps Ozark Quartet from radio station KWFT, Wichita Falls; Marion Snider and his Imperial Quartet, Dallas; Frank Stamps and the Original Stamps Quartet, of Dallas and the Friendly Four Quartet of Fort Worth.

Admission Prices Set

Mr. Nowlin estimates that with favorable weather the crowd will match the 7,000 who came two years ago when he promoted an all-star show headed by Eddie Arnold. Admission prices have been set at \$1 for adults, children 25c, with children under 6 free.

"There will be plenty of free ice water, free parking too," said Mr. Nowlin, who invites folks to come and spend Independence Day at De Leon. Concessions will be operated by De Leon organizations. (Adv.)

### "EASY DOES IT"

IF YOU FIND that kitchen cabinets and furniture have pieces of food dried on them that are difficult to wash off, place a damp cloth over these spots and let stand for 20 minutes or so. This loosens food so that it can be washed off without scratching the furniture.

If you're painting doors and want to prevent getting paint on handles and knobs, coat these first with vaseline. Wipe it off after painting and you won't have paint marks to clean.

#### RECIPE OF THE WEEK

Dutch Lunch (Serves 6)

- 1 head lettuce
- 1/2 pound liverwurst, cubed
- 1/2 cup chopped celery
- 1/4 cup chopped onion
- 1/4 cup chopped green pepper
- 1/4 cup sliced radishes
- 1/4 cup chopped dill pickle
- 2 tomatoes, diced

Break lettuce into bite-sized pieces and toss into salad bowl. Add remaining ingredients, then season to taste. Blend together the following ingredients for a dressing: 1/4 cup mayonnaise, 2 tablespoons catsup and 2 teaspoons prepared mustard. Serve well chilled.

several times or for several different purposes, make easily removable slip covers for it, so these can be changed with each use, then washed before using again.

Plaster of paris wall brackets and other objects can be cleaned by spreading them with a thick starch solution. When dry, break this off and the dust and dirt will come off with it.

Use a small paint brush with a long handle to get at the dust in hard-to-reach corners. It's fine, too, for cleaning pipes on ceilings or walls.

If house plants look weary after Spring cleaning, re-pot them in this way to prevent injuring roots: remove only one-third of the top soil and place in an empty pot. Add new soil to fill up the pot.

When drapes and curtains do not fall in attractive folds after cleaning or laundering, mold them as you wish, using small straight pins to help get the proper drape, pleat or fold. Leave the pins in overnight, then remove them.

## Cox Says Beware Of Cleaning Solvent

AUSTIN — There's a lot of punch corked up in that little bottle of cleaning solvent out on the back porch. State Health Officer George W. Cox called it "hazardous, when special precautions are not used."

It seems that solvent vapors are heavier than air, which means, according to Dr. Cox, that they will collect at floor levels. The danger of using solvent for such household chores as taking spots off the linoleum, or cleaning dirt or grease off the back steps, is that you have to get on your knees to do the job.

And when you're on your knees you're closer to the accumulated solvent vapor.

The state health officer proved his point with this story:

A man attempted to remove grease from the underside of his car by spraying it with a gun he had brought home from his construction job. He found dead under the car, caused by the vapor of the cleaning agent.

Proper use of cleaning solvent, says the doctor, call for all the doors and windows, cleaning floors, the under household furniture, or on the working area is as high as possible. A fan on the working area is better for a short time — inhaling the vapors as possible — and then get fresh air for a minute or two.

The first symptoms of poisoning are nausea, headache and fatigue. When you notice them, get outside as possible, the health officer says.

Sardines are young herrings.

## SLICED BALES- COMPACT BALES- WIRE-TIED BALES- EASY-TO-FEED BALES-

..Yours Automatically with a JOHN DEERE BALER

Put a John Deere Automatic Baler on the job and you'll turn out well-packed, wire-tied, sliced bales... easier and at lower cost than ever before.

It's a compact, automatic baler that hustles right along, baling from the windrow at the rate of 3 to 4 tons per hour. The windrow enters the baling case right from the power-driven pickup; there's no cross conveyor to take it "around the corner."

Tying is done neatly, speedily, and precisely with a minimum of wire and no ends clipped to fall on the ground or find their way into the stomachs of your livestock.

Big capacity and sturdy construction make this an outstanding automatic baler. Let us point out to you the many plus values of the John Deere Baler. Come in the next time you're in town.

useless and excessive appropriations or by levying new and additional taxes. I favor the former. I have yet to vote for a tax bill of any kind. I will strive to preserve this record.

"The present level of State spending, according to the Comptroller, will create an annual deficit of 76 million dollars in the State General Fund. I will strive to balance the budget and prevent this deficit, by rigid economy, instead of by new additional taxes. However, if it develops that taxes are 'must' legislation and additional revenue is absolutely necessary to operate the State government efficiently, I will not sidestep the responsibility, however painful. If new taxes must come, I would favor placing the new levies on present sources which are now escaping taxes. However, I will not support a general sales tax or State income tax.

"Also, redistricting, following the new census, is a constitutional mandate. If elected, I will support it.

"On other issues coming before the 52nd Legislature I will vote for what I consider the best interest of my State and District."

investigation if I don't win something and it better be good."

To which Tanner replied, "In looking over the eligibles for this year's Derby at the McGraw stables Saturday afternoon, I commented to Mr. Ocie Hunt, who has been McGraw's trainer for the past eight years, that the sleek toad with an outstanding spine on his right shoulder was a likely looking rafer. He immediately informed me that that was out of Plymouth Gal. The dam was a descendant of "Old Rip III." We do not have a record of the sire of Mac Jr. It is presumed that Plymouth Gal one day just sort of wandered off the reservation, but from his dam's bloodlines, alone, I can assure you that you have a very formidable entry in this year's Derby."

T. L. Rau, of the Pacific Finance Company of California, sent in his \$5 and with it the comment that "Your letter is very interesting and so full of good Texas humor that we are taking the liberty of reprinting it in our PF SEER, which is our house magazine, and will go to about 1200 employees."

R. G. Clark, assistant to the president of Piggly-Wiggly, in Jacksonville, Fla., sent in the 100th entry in the Derby, and asked that results of the race be sent to him so the story can be published in TURNSTILE, the company magazine.

Alvin Childs, president of the Childs Food Stores in Jacksonville, Texas, was denied the privilege of entering one of his jumping Texas bullfrogs in the race, but went on and entered a horned toad anyway. When informed his bullfrog would not be eligible, Childs wrote Tanner:

"I will accept the decision of the board of governors as final. For the past few days I have had the manager of my frog farm on the lookout for the longest hopping, keenest and most alert bullfrog on the farms. We have some fast frog dogs on the farm, but have several bullfrogs that can out hop and out run these fast dogs. I was hoping that I could enter one of our East Texas bullfrogs. One of these frogs sent to West Texas would have to be protected from buckshot and so forth several days before the race, but I was coming along myself with several of my frog dogs to protect my entry."

Childs asked that Tanner and Bruce Pipkin select his entry, and suggested that Tanner might get Pipkin to invite him (Childs) to Eastland for a fishing trip about Aug. 12.

That, oddly enough, is the day the Derby will be held.

If you note an improvement in the quality of this week's Record, it may be because Mrs. Ruth Duker of Ranger, a lady of experience in the newspaper business, has been helping us this week, and plans to continue to for a while.

Miss Bobbie Shero, daughter of Mr. and Mrs. O. B. Shero, plans to enter Draughon's Business College at Abilene in July.

Mr. and Mrs. Hargus Hardeman of Dallas spent the week end with his parents, Mr. and Mrs. H. H. Hardeman.

Mr. and Mrs. Garland Harlow of Glasgow, Ky., were guests Wednesday of his uncle, L. C. Harlow, and family. Mr. and Mrs. Harlow had been visiting relatives in San Angelo.

Mr. and Mrs. F. L. Draogo will have as their guests over the week end Mrs. C. B. Beall and daughter Billye of San Angelo. Billye has just completed four years of study at the Juilliard School of Music in New York. Mrs. Beall is a daughter of the Draogos.

Mrs. Lynn McMichael and her daughter Sherry of Borger are guests of her sister, Mrs. Arthur Murrell, and Mr. Murrell of South Oaklawn Avenue.

Mr. and Mrs. E. C. Kilbourn have returned from a vacation trip to Del Rio and Port O'Conner. They were accompanied by Mrs. Kilbourn's mother, Mrs. Betty Samford, and a brother, J. N. Samford and family of Killen.

Miss Joyce Tucker, daughter of Mr. and Mrs. Tom Tucker, is spending her summer vacation at Robust Beach, Del. Before returning home she will visit in New York and Boston.

Mr. and Mrs. S. E. Price spent the week end with their son, Lyle Price, and family at Kaufman.

Mr. and Mrs. J. W. Taylor and children of Lamesa were Saturday night guests of her parents, Mr. and Mrs. A. D. Dunlap. Mrs. Dunlap accompanied them to Longview Sunday to visit another daughter, Mrs. Billy C. Johnson, and family.

Mr. and Mrs. M. L. Poole and son Max of Washington, Ind., are guests of her mother, Mrs. J. R. Gilkey, and a brother, James Gilkey, Jr., and wife.

Week end guests in the home of Mr. and Mrs. Otis Knox were Otis Knox, Jr., Hugh Miller and his sister, Olga, of Houston, and Mr. and Mrs. E. R. Morton of Minneapolis, Minn.

Mr. and Mrs. Claud Boles and Mrs. H. H. Hardeman were called to Graford Tuesday night because of the death of A. F. Jones, uncle of Mrs. Boles and Mrs. Hardeman.
