### YOU NAME IT

By Everett Taylor

Believe it or not, but the tough schedule Football Coaches Wendell Siebert's football players face this fall is secondary in his worry department at this time.

Number one in that line is the Maverick football field, on which the grass is very spotty at this time, despite frequent watering. Coach Siebert is hunting for a place to work out beginning August 27, fearing that the football field will not be suitable for any games this fall if the team has to work out there.

So plans have been made to try to get the field at West Ward into shape for workouts, and hope that the grass on the playing field will spread very very rapidly.

Eastland's third annual Horned Toad Derby was the biggest ever held and there are those, and many, who think it was the best.

It is generally agreed that holding all the events downtown lends much to the affair, and that plan probably will be followed throughout the coming years.

This year's entry total surpassed the previous high of last August by 19 toads. And the crowd present both nights was better than has been on hand heretofore when the events were held at the Fireman's Field.

Saturday's rainfall total of .10 of an inch was very disappointing, especially with all the clouds which were hanging around.

Other points over the state received much more moisture, but we doubt if any of them needed it any worse than does Eastland. And then again perhaps Eastland did not need it worse than they did.

With the Horned Toad Derby over, the beginning of school seems to be the next big event in Eastland.

School this year will start on September 4, the day after Labor Day. That Friday night the first big event of the school year, the initial football game of the season, will be held.

The game, with Coleman, is presently scheduled to be played in Eastland, and is one of six non conference teams the Mavericks play before plowing into their district opponents. Three of those games are at home, with two district opponents, Cisco and Ranger, scheduled to play here.

### King Farouk Loses Heavily At Cannes

CANNES, France, Aug. 14 (UP)—King Farouk of Egypt unexpectedly cancelled his scheduled departure today for Deauville—apparently determined to recoup gambling losses at the Palm Beach Casino.

The portly monarch was said to have lost some \$110,000 on the casino tables since his arrival here with Queen Narriman last Thursday.

His schedule calls for a visit to the casino about 2:30 a.m. every day. Farouk usually sits alone at a baccarat table and plays steadily for seven hours.

### Telephone Company Asks For Hikes In Local Service Rates

Citing a loss of almost \$16,000 last year on its local operations in Eastland, Southwestern Bell Telephone Company has asked city authorities for an increase in rates of local telephone service.

"Approval of new rates is needed to help offset these losses of more than \$1,300 a month and to improve the financial conditions of the Eastland telephone exchange," W. H. McAnally, manager of Southwestern Bell in Eastland, said.

"Since 1946, there has been a tremendous demand for telephone service here," he added. "And the telephone company has spent \$208,000 to meet this demand."

"Actually, the telephone system is almost twice as large as in January, 1946," he explained. "There now are 1,630 telephones in service here, while in 1946 the total was 850."

"All of this big expansion program has had to be undertaken in the face of the high levels of costs—for materials, equipment,

and labor," the manager said. "The telephone company was granted an increase in rates, the only one in 27 years," in March, 1949. This increase, together with the addition of more telephones to the system here, brought in more revenues, McAnally said.

"But costs of furnishing service here have been climbing much faster than revenues," he continued. "And we are still losing money."

New rates requested by the company for main service are \$8 per month for business telephones; \$4.25 monthly for individual line residence telephones; \$3.50 for two-party lines; and \$3 for four-party lines.

**TOO HOT TO WORK**—Supervisory personnel of the Southwestern Bell Telephone Co. sit in as operators on the long distance board after more than 500 operators walked off their jobs in Dallas in protest against lack of cool working quarters. The fan at left blows air across a large piece of ice in an effort to further cool, what officials said, was a well ventilated room. (NEA Telephoto).

## Starting Date On Hospital Delayed

Delay in obtaining materials has caused a slight change of plans in the tentative starting date for work on Eastland's Memorial Hospital, Robert Vaughn told a group meeting in the Texas Electric Building, Monday night.

Vaughn, presiding in the absence of Theo Lamb, chairman, said that materials for the construction of the foundation are in the process of being obtained and probably will be on hand by August 27, and the groundbreaking for the hospital will take place then, or around that date.

It was reported at the meeting that at present there is approximately \$40,000 in the hospital fund, including some \$11,000 in pledges, the remainder cash.

Donations which are expected soon are counted on to raise the total to about \$47,500.

Plans for the building have been completed, Vaughn reported, and are presently being checked over for any corrections.

Temporary location for the hospital building has been staked on the hospital hill and gravel for the foundation work is expected to be hauled this week.

Tom Lovelace reported that he and a group of men are of transport the equipment purchased recently at Kilgore to Eastland this weekend.

Plans were discussed for preparing a large program for the groundbreaking ceremony.

### Postmaster Quits Ft. Worth Job

FORT WORTH, Aug. 14 (UP)—J. Edwin McKee said today he will resign as postmaster here, effective Aug. 31, to enter private business.

McKee, 35, will be succeeded by Dudley C. Jernigan as acting postmaster. Jernigan currently is assistant inspector in charge of the Fort Worth Postal Inspection Division.

President Truman nominated McKee to the postmastership in April 1948, upon recommendation of Former Sen. W. Lee O'Daniel.

### OPS Makes New Policies For Small Businesses

FORT WORTH, Aug. 14—Fort Worth District OPS Director Ellis H. Boyd said Saturday that the price stabilization agency had established new policies and standards to safeguard the interests of small businesses in the price regulation program, and that a National Small Business Affairs Advisory Committee had been formed within the agency.

"OPS is keenly aware of the many problems confronting the operators of small businesses. The special problems of that group will continue to be reflected to the fullest possible extent in the basic pricing policies and techniques used in the price regulations," Boyd said.

He stated that if simpler pricing methods can be devised for small businesses with limited clerical facilities, this will be done whenever practical.

The OPS official said that special concern for the smaller merchant would take the form of writing price regulations in easily understood language, and through requiring "card keeping" that is no more difficult than usual for the small firm.

Boyd stated that an official in the district office would be assigned the specific task of handling the small businessman's problems, and also that special guides, trade bulletins, charts, and graphs would be prepared to assist him.

### Beaumont Breaks Water Record

BEAUMONT, Aug. 14 (UP)—Dry July had Beaumonters using water at a record rate. The water department yesterday said the city consumed 277,000,000 gallons of water during the month. The previous high was 268,488,000 gallons consumed in June.

### ALVIN AINSWORTH KILLED IN WRECK EARLY THIS MORNING

Albert Alvin Ainsworth, 20, was killed early this morning in a wreck that happened about forty miles north-west of Houston.

Ainsworth was driving a Phillips Transport Company truck. Alvin was born in Comanche County September 26, 1930. He has been living in Eastland for a short time.

He is survived by his wife the former Ruby Lee Van of Eastland and a five month old daughter,

### Watermelon Feast Friday

The 9:49 Bible Class of the Methodist Church will hold their annual watermelon feast at the city park at 7 p.m. Friday.

All men of the community are invited to attend the feast which is free.

Plenty of ice cold watermelon will be served to those who attend.

### Six Regulations Delayed By OPS

FORT WORTH, Aug. 14—Indefinite postponement of the effective date of six basic manufacturing regulations has been announced by the Fort Worth District OPS.

"Purpose of the action," said Ellis H. Boyd, district OPS director, "is to preserve the 'status quo' until regulations can be issued to carry out the so-called Capehart amendment to the Defense Production Act of 1950."

Affected are the General Manufacturer's Regulation—CPR 22, Machinery—CPR 30, Cotton Textile Manufacturers—CPR 37, Shoe Manufacturers—CPR 41, Apparel Manufacturers—CPR 45, and Wool yarns and fabrics—CPR 18 (revised).

The Capehart amendment provides that "upon application and a proper showing of—prices and costs" the OPS shall adjust ceilings to reflect cost changes, including overhead, up to July 26, 1951, Boyd stated.

He said the problems encountered in trying to work out procedures under the amendment made it impossible to meet the August 13 deadline for the regulations which had previously been set.

### Mineral Wells Approves Bonds

MINERAL WELLS, Aug. 14 (UP)—Mineral Wells voters yesterday approved a \$400,000 municipal bond election. The money will be used for a \$200,000 water system extension program, a \$100,000 sewer extension program, and \$100,000 for a new swimming pool.

### Youth Drowns In Brewer Lake Near Tyler

TYLER, Aug. 14 (UP)—Clarence B. Brewer, 20, 280 Lb. Tyler youth, drowned accidentally yesterday while swimming with two companions at Gans and Brewer Lake six miles northwest of here.

His two companions said Brewer apparently was stricken with cramps. They were unable to get him out of the eight-foot-deep water.

Funeral arrangements are pending. Killingsworth Funeral Home will return the body to Ranger from the scene of the accident and be in charge of the services.

# Top UN Commanders Say Agree Or Fight

## Reds Hit Un Line All Along Front

8TH ARMY HEADQUARTERS, Korea, Wednesday, Aug. 15 (UP)—Communist troops launched aggressive probing attacks all along the Korean front Tuesday while their truck convoys rolled steadily up to the lines with supplies which might be used in a surprise offensive.

All the enemy attackers were thrown back with losses by United Nations troops backed by artillery which drenched the Red positions with shells.

United Nations planes attacked truck convoys, railroad yards, anti-aircraft installations, supply and ammunition dumps, troop billeting areas, fuel storage centers and front area defense positions.

Far East Air Force planes brought back word of Communist convoys pouring south with reinforcements and supplies, particularly along the highway from Wonsan to the central front bastion of Kumsong.

Many enemy vehicles travelled at night with their headlights on in defiance of UN night bombers and fighters. Red convoys normally are blacked out unless a big push is being prepared.

Preliminary reports indicated Allied night raiders destroyed or damaged at least 100 enemy vehicles last night. Another 280 were wrecked Sunday night.

At the same time, Communist ground troops stepped up their probing attacks South of Kumsong. At least three such attacks broke Monday night and early Tuesday. A fourth Red attack touched off a battle that still was under way at last reports, however. The Communists attacked an Allied hill in platoon strength at first and were beaten off. Then the Reds brought in two more companies and renewed the assault.

The Communists also made probing attacks north of Inje and west of Kamsong on the east-central and eastern fronts. The Reds again thwarted efforts of UN troops in the Kamsong sector to take a hill that has defied them for three weeks.

Across the rest of the front, as for the past 10 days, swollen rivers and muddy ground prevented more than limited patrol activity.

## India's Grain Shortage Laid To Monkeys

WASHINGTON, Aug. 14 (UP)—One reason for the great shortage of grain in India, according to U. S. Agricultural experts, is that monkeys destroy a lot of it. They eat some, too.

Since some Indians consider monkeys sacred, American technicians have found this a tough problem in their efforts to help India increase its food supply.

Horace Holmes, agricultural expert for the State and Agriculture Departments, told the House Foreign Affairs Committee about the monkey problem in testimony made public today.

"It has been estimated that the monkeys destroy—and they destroy far more than they eat—about 10 cents per day per monkey," he said. "Nobody knows how many monkeys there are. The only thing we do know is there are far too many."

## OPS Put Ceiling On Crude Oil In Six Counties

WASHINGTON, Aug. 14 (UP)—Office of Price Stabilization officials said today that newly-imposed ceiling prices on East Texas oil field production would halt a price battle in the area.

The OPS set a ceiling price of \$2.65 a barrel yesterday for 95 per cent of the production in Upshur, Gregg, Rusk, Smith and Cherokee Counties.

The new ceiling level had been the prevailing price, OPS officials said, but several refineries have been trying to "raid" producers supplying other refineries by offering to pay an additional 10 cents a barrel. As a result, the other refineries have flooded the OPS with requests to meet the higher price.

The agency said it decided to set the ceiling at the \$2.65 level because it feared that a higher price would set off a spiral and a further price war.

## UN REFUSES TO BACK DOWN ON BATTLE LINE AS BUFFER

By Earnest Hoberecht  
United Press Staff Correspondent  
UN ADVANCE BASE BELOW KAESONG, Korea, Aug. 14 (UP)—The two top United Nations commanders said today that the Communists either can accept a cease-fire line based on the present front or fight it out on the battlefield.

Gen. Matthew B. Ridgway, Supreme UN Commander, said in Tokyo the 38th Parallel cease-fire line which the Reds demand is indefensible and his soldiers had learned that fact in meeting two enemy offensives.

"How could anyone expect us to go back to the same damn line again?" Ridgway said. "We do not intend to attempt it."

Lt. Gen. James A. Van Fleet, commanding the 8th Army which will engage the Communists if the war starts again in full fury, said in a brief dramatic interview at this advance base that his men are "fine and fit" and ready for any eventualities.

"The enemy is in bad shape," Van Fleet said. "He is suffering, he is hurt and he needs peace."

Maybe, he commented, the 8th Army and the UN Air Force would have to break the present deadlock in cease-fire negotiations.

As the two UN commanders made their statements, the armistice negotiations at Kaesong went through their 14th day of deadlock over a cease-fire line.

The Communists spurned a new UN attempt to find a compromise. Instead, chief Communist delegate Gen. Nam Il scathingly attacked the Allied argument that UN air and naval superiority should be considered in fixing the line.

Nam II demanded flatly, still, that the armistice line and buffer zone be fixed along the 38th Parallel border between South and North Korea.

The Allied and Red negotiators will hold their 25th meeting at 11 a.m. Wednesday (9 p.m. Tuesday EDT).

There is still hope here that there will be an armistice. It is felt that the Communists would never have asked for a cease-fire unless they knew they were beaten.

The Allied argument for an armistice line based on the present front left room for compromise and it was hoped the Communists would talk business.

J. J. Lynn has completed the No. 1 J. Arnold as an offset five miles west of Eastland in the Bankline-Owens Field.

The well was gauged at 15 barrels of 41 gravity oil in 24 hours, flowing through 3-4 choke with 200 pounds on casing and 50 pounds on tubing.

Location is in Section 44, block 4, H&TC Survey.

E. J. Watler has made application for a wildcard, the No. 1 O. B. Jones, 12 miles southeast of Eastland, 150 feet from the south and 3,357 feet from the east lines of the E. N. Mat is Survey.

Projected depth is 1400 feet with cable tools.

West & Parker have spotted the No. 1 Marcus Gieger as an outpost four miles south of Eastland in the Pumpkin Center Field. Slated depth is 1,300 feet with cable tools.

Location is 450 feet from the north and 150 feet from the east lines of Section 12, block 2, H&TC Survey.

## Softball Tilts Set This Week

The King Motor Company All Stars play the Cisco Junior College softball team at Fireman's Field at 8 p.m. today.

Tomorrow night the King Motor team will clash with a squad from Lingleville at 8 p.m.

## Two Texans On Casualty List

WASHINGTON, Aug. 14 (UP)—The 376th casualty list of the Korean war made public today contained the names of only two Texans. Boh had been wounded in action. They were:

Army Pfc. Bob M. Quick, husband of Mrs. Shirley C. Quick, care of the El Paso Natural Gas Co., El Paso, and Marine Corps Pfc. Robert J. Hill, son of Mrs. Irene E. Hill, 3415 Beverly Dr., Dallas.

## Charles Young Wins Baseball Essay Contest

Charles Young, fourteen, son of Mr. and Mrs. Charles F. Young of Baird, Texas, wrote the winning essay in the Premier-Dixey Dean Contest and won an all-expenses paid trip to New York.

Premier officials will witness his departure from Love Field via American Airlines on August 16th. Subject of the essay was "The Value of Baseball in the Development of American Youth."

Charles, a freshman in Baird High School, works as a printer's devil at the Baird Star during summer vacations.

Second prize, a Schwinn bicycle was won by Leland Phillips, Jr., 2200 Stanley, Fort Worth, and third prize, a baseball glove, baseball and bat was won by Ann King, 2500 Campbell Street, Commerce.

All entries were reviewed by the faculty and staff of Kilgore Junior College and final judges were Matty Bell, athletic director, Southern Methodist University, Dutch Meyer, athletic director and head football coach, Texas Christian University, and Flem Hall, sports editor, Fort Worth Star-Telegram.

Russia announced yesterday that it would accept an invitation to send a delegation to the treaty conference scheduled to open in San Francisco on Sept. 4.

Diplomatic sources said the Kremlin was sure to try to split the United States and Asiatic nations on the peace pact, and probably would convince some Asiatics that the United States is trying to impose a "white man's" peace.

Officials were certain, however, that the treaty itself would not be changed much in spite of the Soviet maneuvering.

Russia announced yesterday that it would accept an invitation to send a delegation to the treaty conference scheduled to open in San Francisco on Sept. 4.

MEMORIAL PROGRAM FOR BABE RUTH WILL BE STARTED SOON

NEW YORK, Aug. 14 (UP)—The Babe makes another big pitch for the kids on Thursday and, three years after his death, it may be his best and biggest.

Actually it follows the design of his being, a pattern which perpetuates the memory of baseball's most immortal hero.

George Herman Ruth was a sucker for kids. He knew about them from a background earned at St. Mary's Orphanage in Baltimore when he was a youngster.

There could have been times in a hollicking career when the belting blustering, raucous Babe might have forgotten them. But he didn't.

Never was the Babe too busy to visit a sick youngster. Rashly he'd promise them a home run. Like the time he called his shot in the world series with the Cubs, the Babe simply delivered.

There weren't names, or even

favorites. They were just kids. The next day the Babe probably couldn't have told you their names.

There was the time, at the height of his career, when he visited a sick boy and—it isn't fantasy—gave the kid the will to fight through. Some time later the father visited the Babe and told him that "Johnny sends his best." The Babe beamed, shook hands and, as he walked away with a friend, muttered:

"I wonder who Johnny is?" Babe was roaring through life with the throttle wide open. The joy and the will to live which he gave to the youngsters was just a recess from the roar of the crowd. But when the roars subsided, the kids took over. Increasingly they became the thing which kept the Babe in there swinging.

He was a sick man in the spring of 1947, a man with a little more than a year to live. He spoke in a hoarse whisper. His clothes hung on him like the rags wrapped around a scarecrow in a cornfield. But the Babe dragged himself back into the public eye as director of the American Legion Junior Baseball program. He flew 50,000 miles talking to kids in 17 cities.

"I'm getting pretty old," he said, "and I want to do what I can for the kids."

He didn't add "before I die," but that's what he meant.

Sixteen months later, three years ago Thursday, the Babe died. But he's still in there swinging in spirit through the Babe Ruth Foundation, which last spring gave sportsmanship awards to 4,000 high school seniors, supports such institutions as children's villages in work for underprivileged children and provides funds to the American Cancer Society to fight the disease which killed the Babe.

A giant memorial program will be started Thursday and contributions may be sent to Babe Ruth, Box 7, Madison Square Station, New York 10, N. Y. It's one way you can help the Babe, to help the kids.

Calves Cause Street Rodeo

EL PASO, Aug. 13 (UP)—An impromptu rodeo in the streets of El Paso boded ill but a handful of bellowing Brahma calves which bolted from a railroad boxcar yesterday.

Police and volunteer "cowboys" rounded up more than half of the calves within a few minutes. A few of the bawling animals, no respecters of international boundaries, were last seen high-tailing it across the International Bridge to Mexico.

Even if you never go into the water, your bathing suit still needs sudsing each day to wash away damaging sand, sultan lotion, and perspiration.

TICKLISH JOB—A technician at Brookhaven National Laboratory, Upton, N. Y., stands behind a wall as he removes the plug from a one-and-a-half-ton lead shield containing a thousand-curie source of gamma radiation. Made of cobalt-60 and tantalum-182, the radioactive material is being made available to aid in studies of application of radiation processes to industry. Each of the lead shields can release as much gamma radiation as 2.2 pounds of radium (an amount equal to the total world supply prior to World War II).

The producers of the rodeo at Dublin, Texas brag about the meanest rodeo stock in the world. The Brahma in picture is proof backing up another "Texas Brag." Before leaving on a special train for New York and Boston, Everett Colborn, producer, will present the Pre-Madison Square Garden Dublin Rodeo, August 29, 30, 31, and September 1, 1951 at Dublin, Texas.

45 Bed Hospital Dedicated To Yettie Kersting

LIBERTY, Aug. 13 (UP)—A new, modern \$400,000 hospital for Liberty County opened its doors today.

The new Yettie Kersting Memorial Hospital was dedicated yesterday by Atty. Gen. Price Daniel to the memory of its builder and namesake. And charity patients will always have first call on its

45 beds, Daniel said, because "that's how Miss Yettie would want it."

Miss Kersting died in 1941 at the age of 78 after building in 1940 a small hospital wing at the cost of \$18,000 and deeding it to Liberty County.

Since her death, citizens of the county have been accumulating money, supplemented by Miss Kersting's estate, and the federal government to complete the hospital.

The common skunk usually has five in a litter.

Since 1945

\$208,000 SPENT FOR BETTER TELEPHONE SERVICE

The telephone company has spent more than \$208,000 since 1945, to improve and expand telephone service in Eastland.

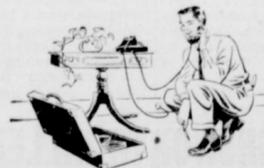

MORE WIRE AND CABLE . . .

have been added to Eastland's telephone system to help carry the ever-increasing number of calls.

MORE NEW POLES . . .

have been erected to support the cable and wire necessary to meet the needs of Eastland's telephone growth.

MORE TELEPHONES . . .

Almost twice as many as in 1946 . . . are serving the people of Eastland.

This money bought cable, wire, telephone poles, telephone instruments, and all the other things which make more and better telephone service.

More Eastland people have been asking for—and getting—telephone service than ever before. In recent years, we have received requests at a rate 10 times faster than before Pearl Harbor. The Eastland telephone system has been almost doubled in size in five years. The number of telephones here is more than 1,630 now, compared with only 850 at the beginning of 1946.

All of this growth has been accomplished in the face of higher costs of labor and materials.

The only adjustment in telephone rates here in almost 27 years was granted in March, 1949. Revenues have been increased by the rate adjustment and through the addition of more telephones. But—expenses have gone up farther and faster. And the company is furnishing service here at a loss of more than \$1,300 a month. Here's what happened during 1950:

We paid out	\$75,965
We took in	59,983
We lost	\$15,982

It is important to the people of Eastland that a business like ours, which furnishes a vital public service, be financially healthy. The first step is to wipe out losses. The only answer is a reasonable increase in rates.

## BARBARA HUTTON SAYS SHE WILL NOT MARRY IGOR AGAIN

PARIS, Aug. 14 (UP)—Woolworth Heiress Barbara Hutton and Prince Igor Troubetzkoy are friends, but if he thinks she is going to marry him again he's all wrong, she said today.  
"I can assure you I will never marry Igor again," Miss Hutton said. "I am glad to be reconciled to Igor as a friend. Actually, we already are friends again. I see him often and we talk to each other on the phone almost every day."  
"But I have my divorce and I have no intention of giving it up," Igor said last week that he had instructed his lawyer to drop his appeal against his wife's divorce, but said that he would welcome a reconciliation "with open arms" and added:  
"If I have another month I think I can win her back."  
In a 90-minute interview in her Ritz hotel suite Miss Hutton said Igor is all wrong.  
"I am more than ready to forgive Igor and let the past be forgotten," she said. "Who am I to refuse? He needs friends and he needs help and I will help him. But there can be no question of our remarrying."  
Miss Hutton plans to leave today for Venice to attend the canal city's famous festival. She is talking with her, she said, "the most unbelievably wonderful dress in the world," made for her as a special favor by Balenciaga, famed Spanish dressmaker.  
"It looks like something out of this world, black with embroidered gold all over it," she said. She will wear it, she said, at a private masquerade party in Venice at which guests must wear 18th century costumes.  
Miss Hutton said that, even aside from Igor, she has no plans for remarrying. But she commented that she had a new love, Mexico.  
"It's a wonderful, almost undiscovered, virile country," she said. She added that she had bought some property near Cuernavaca and hopes to build a home there some day.  
Blonde, clear-eyed, pretty and vivacious, Miss Hutton looked only slightly thinner despite her continued illness than when this correspondent talked to her in Madrid last October.  
A tax on windows which was in force in England from 1695 until the middle of the last century and in America in colonial times, made them a costly refinement.  
Twenty-one states now use electric roll call voting machines in their state legislatures, according to the Council of State Governments.

## Antique Auto Show At Fair Oct. 6 to 21

An antique automobile show will be a feature of the 35th annual Southwestern Automotive Exposition at the 1951 State Fair of Texas, Oct. 6-21, James H. Stewart, executive vice president and general manager of the fair, has announced.  
A loving cup will be awarded to the exhibitor of the oldest, best-running and best-looking car in each of two categories, J. N. Whitehurst, manager of the Authorized New Car Dealers of Dallas, Inc., said.  
Antique car owners who are connected with auto business, such as car manufacturers, distributors, dealers, garagemen and professional racing car drivers, may compete in the trade group. There will be a non-trade group for cars whose owners are in no way connected with making, selling or repairing automobiles.  
To qualify for entry in either division, the ancient cars must be in running order and able to make it to the fairgrounds under their own power.  
Application for entry should be mailed to J. N. Whitehurst, Authorized New Car Dealers of Dallas, Inc., 2217 Mercantile Bank Bldg., Dallas, Texas.  
A snapshot of each car must accompany applications. The showing will be limited to 25 cars.  
An example of the type of car eligible for entry is the 1912 Buick owned by Byron W. Albright of Dallas. The old touring car is bright and shiny with red paint and purrs along the highway almost as smoothly as the day it left the factory.  
Albright's car cost \$3,725 in 1912 and is worth at least that much today to antique car fanciers. It has right-hand steering, ignition switch on the floorboard, two-wheel mechanical brakes and a crank for starting.  
Fairgoers will have an opportunity to compare the old cars with the latest models of more than 200 cars and trucks in the fair's mammoth Automobile Building. The auto show—largest in the South—will cover approximately two acres of space.  
The magazine RN chronicles that certain types of flariasis resulting in blindness or elephantiasis are estimated to affect 190 million people in Asia, Africa, South and Central America and Oceania.  
Battery failures now account for 24 per cent of all automobile breakdowns topping tire troubles for the first time.

## BRITISH NOT FAVORED TO BREAK OFF TRADE WITH REDS

LONDON, Aug. 14 (UP)—The labor government will tell the United States within a few days that it cannot abandon all its trade with iron curtain countries, authoritative sources said today.  
Supplies which Britain now receives from Russia and her satellites are vital, and stoppage of trade would be impracticable, the government will hold.  
It is expected that the government decision will be announced by a cabinet minister Wednesday.  
The situation arises from the so-called battle bill passed by the United States congress which provides that countries trading with the Soviet bloc shall be deprived of American military, financial and economic aid.  
The government will reaffirm its intention to abide by its agreement not to export strategic materials to iron curtain countries, it is understood.  
But it feels that in its present economic and financial straits, its export policy can not be brought completely into line with that of the United States, which is less dependent on overseas trade. Also, it is said, the government feels that the battle bill would put Europe's export trade at the mercy of "an official in Washington."  
At present Britain gets about one-seventh of its timber, more than one-fourth of its corn and more than one-seventh of its bacon and ham from Russia and Poland.  
The government says it needs the timber for its already restricted housing program, the corn as feed for livestock and the bacon and ham for rationed British consumers. There are no supply centers in the British pound sterling area from which these supplies can be obtained, the government says, and there are no spare dollars to buy them in dollar-trade countries.

## More Than \$100 Made At WSCS Rummage Sale, Committee Reports

Report was made that the WSCS rummage sale netted \$101.50 was made at the meeting of the members of the Women's Society of Christian Service of the First Methodist Church, Monday in the home of Mrs. W. P. Leslie, 507 Hillcrest Street.

Mrs. H. L. Hassell, president, presided over the business meeting, heard other reports and Mrs. J. A. Doyle was elected as a delegate to a missionary institute to be held at Georgetown, August 21 through the 24th. Mrs. W. P. Leslie was elected as alternate.

Mrs. E. J. Turner was elected as delegate to the Youth Institute to be held at Glenrose, August 28, 29 and 30th.

Announcement was made of a family night picnic to be held at 7 p.m. Aug. 27th at the City Park, sponsored by the WSCS for all members of the church and their families.

The group will meet next Monday morning in the home of Mrs. Frank Crowell, 119 North Ammerman Street.

Mrs. A. E. Cushman gave the devotional, using as her subject, "Forgiveness" which ended in a round table discussion with all of the members taking part and giving personal experiences.

The meeting was opened with the singing of the hymn, "Bless Be the Tie that Binds," with Mrs. B. O. Harrell at the piano. Mrs. Ida B. Foster gave the prayer. Prayer in unison closed the meeting.

Present were Meses. Milburn S. Long, Crowell, W. P. Mullings, J. L. Cottingham, Foster, Dry, Spencer, Frank Castleberry, Clyde Young, J. Morris Bailey, Trotmann, Hassell, Ina Bean, Cushman, Turner, McCorney, Harrell and the hostess Mrs. Leslie, who served a refreshment plate to her guests.

### NOTICE

The Crest View Swimming Pool will be closed on and after August 21, 1951.

This is necessary because the water in the Lake is 67 inches below the spillway. We regret the necessity of doing this, but it is necessary for us to protect our Lake water for drinking and domestic purposes. If we do not get some good rains soon, it will be necessary to set up further restrictions on the use of water.

Please enjoy the swimming pool through next Sunday, August 19.

Eastland City Commission

## Bride's Maids Luncheon Held In Cornelius Home

Mrs. Victor Cornelius and her daughter, Miss Laverne Cornelius hosted the bride's maids luncheon, Saturday for the attendants of Shirley Frazer, whose marriage to Dale Thompson was Saturday night.

Dainty bridal place cards marked the places and guests were served seated at one large table, which was laid with white linen and decorated with an arrangement of white Chrysanthemums. The honoree's place was marked with a pink carnation corsage, and she was presented a gift from the hostesses.

A wedding ring arrangement of white Chrysanthemums decorated the coffee table in the living room.

Present were Mrs. Lonnie Parks of Houston, Mrs. Jack Messer of Fort Worth, Miss Ellen Flewellen of Canadian, Miss Linda Hassell, of San Antonio, Ann Simmons, Alice Frazer, Mrs. D. E. Frazer, Mrs. R. N. Thompson of Fort Worth, the honoree and the hostesses and Mrs. Jack Germany, who assisted her mother and sister in entertaining.

## Fifth Annual Family Reunion Held Here Sun.

Eighty-one persons attended the 5th annual family reunion of the Sadberry and Mahan families, their children, and grandchildren held here Sunday at the City Park.

People were present from DeLeon, home town of the original family, New Castle, Olney, Graham and Fort Worth.

From Eastland were Mr. and Mrs. Fred Adeock, Mr. and Mrs. W. H. Mullings, and Mr. and Mrs. Robert Barber.

Luncheon was served at noon, picnic style.

### LOOK WHO'S NEW

Mr. and Mrs. Loy Knust of Snyder, are the parents of a daughter, who weighed six pounds and two ounces and has been named Janice Fayo. Mrs. Knust is the former Lois Harpool. She formerly lived here.

Mr. and Mrs. W. T. Self of Kingsville are the parents of a daughter, born August 11 in a Kingsville hospital. She weighed seven pounds and 14 ounces and is as yet not named.

Mr. and Mrs. Self have one other child two and one half years old, Suzanne.

Mr. Self is the son of the late Mr. and Mrs. W. T. Self and the maternal grandparents are Mr. and Mrs. Oliver of Beaumont.

The farm home is no safer than the folks who live therein. Studies show that more farm accidents occur in the home than in any other single place on the farm.

State law forbids strikes by hospital workers in Minnesota.

### Personals

Mr. and Mrs. Marco Vasequez and children, Johnnie, Georgia and Gloria and daughter-in-law Josephine Vasequez of California, are visiting in the home of Isbell Soto.

Mr. and Mrs. Dale Knust and daughter, Deborah Mae, are making their home in Sterling, Colo., where Mr. Knust has been transferred with the George and Wrether Drilling Co.

C. A. Jones of Abilene is the guest in the home of his son, Roy Jones and Mrs. Jones.

Mrs. E. E. Wood entered an Abilene hospital this morning where she will undergo surgery. She was accompanied by her son Harry and Mrs. Will Woods of Abilene. Mrs. Harry Wood remained here with Mr. Woods, who was unable to make the trip at this time.

**SPREADING THE NEWS**—Shapely Vera Marks, 17, a student from Frankfurt, telephones the news that she has just been named "Miss Germany, 1951" at Baden-Baden. She plans a career in journalism. (NEA-Acme photo by Staff Photographer Hanns Jaeger.)

### Basement Shower Simplifies Clean-Up

An extra shower rigged up in the basement next to the washing machine keeps the whole house cleaner. When youngsters come in from play, bringing mud and dirt, let them head first for the basement. As they strip off shirts and overalls, these go into the washer and the children go under the shower.

Dressed in clean clothes again, youngsters are no hazard to upstairs rugs and furnishings! And their clothes last longer if washed promptly when washing is needed.

## Midway Church Will Host Meeting Tuesday

The Worker's Conference of the Cisco Baptist Association will meet with the Midway Baptist Church Tuesday, August 14 at 10 a.m., with the program on "Stewardship and Missions."

The song service will be led by Bill Bullock, and Ralph Perkins, of Ranger, will discuss "Texas Baptist Working Together Through the Cooperative Program."

Paul Stephens of Cisco will discuss the "Church Budget—Four Powerful Allies," and H. H. McBride of Breckenridge will bring the message on "The Calendar Year as Church Budget Year."

H. D. Blair, associational missionary will bring a report on missions and Mrs. R. R. Jones of Cisco will report on the Training Union work. Mrs. Van Martin, of Rising Star, associational WMU president, will report on her work. Jasper Masseege of Ranger will bring the sermon on "Sharing Equitably."

Lunch will be served by the church at the noon hour and afterwards the board meeting will convene and the Women's meeting will be composed of reports from local presidents and standing chairman of the association.

Charlie Meeks of San Angelo visited here Sunday and Monday with Miss LaVerne Cornelius in the home of her parents, Mr. and Mrs. Victor Cornelius.

China kept the secret of making silk from the rest of the world for 3,000 years.

## Get your Free TRUCK SAVER Inspection Here

## International Truck owners—

1. Get your trucks ready for uncertain days ahead
2. Get a 99-point checkup at no cost, no obligation

If you want to save time, trouble and trucks in the uncertain days ahead, come in and get your free Truck Saver Inspection now!

The sooner you do, the sooner you'll see why it is to your advantage to...

Put the complete International Truck Saver Plan to work for you now

You get these benefits:

1. Better performance over a longer truck life: trucks are kept in shape to do the most efficient job possible until they can be replaced by new units.
2. Delays in getting new parts are minimized: by anticipating future requirements, the demand for needed parts

can be accurately estimated.

3. Maintenance costs cut, down time reduced: by preventing major breakdowns, a big saving is effected in both time and money.

4. Truck value is maintained: trucks kept in the best possible condition are worth more when it's time to make a replacement.

Remember — our free inspection offer has a time limit

September 30 is the deadline for our free Truck Saver Inspection. So make arrangements to get yours now, and see how our complete Truck Saver Plan can be put to work to keep your trucks rolling at peak efficiency during the months ahead. Call or come in — soon.

**INTERNATIONAL TRUCKS**

**FATHER WATCHES SEARCH FOR SON**—Robert Davis, an East Lansing, Mich., factory worker, watches as rescue workers dig to uncover the body of his nine-year-old son, David, believed buried in the gravel. The boy's shoe is in the father's hip pocket. Police speculated, after the entire cavern area had been covered twice, that the boy might either have escaped or be trapped alive in a hollow formed by the big cave-in. (NEA Telephoto).

**Texas Boy Designers Win**

**WINNERS** in the annual model car competition of the Fisher Body Craftsman's Guild are James Hendricks (left), of Fort Worth, who took first state honors in the Junior Division (ages 12 through 15), and Jimmy Powers of Lubbock, whose beautiful model car won first in the Senior Division (ages 16 through 19). Each received a cash award of \$150, and both models went on to take regional honors and chances to win university scholarships in the national competition.

**Ranchers Warned To Kill Skunks**

AUSTIN, Aug. 14—Texas farmers and ranchers in the Red River Valley region and in South and Central Texas have been warned to begin killing skunks—lots of them—before cold weather brings an increase in rabies cases.

The grim warning is contained in an animal morbidity report compiled by the State Department of Health. The idea is to pin point rabies infested areas as warning to people in adjacent areas.

State Health Officer George W. Cox said Texas had areas "bigger than most states" which are completely free of rabies.

"From now on we're going to call our shots by county of occurrence. It isn't going to be 'Texas rabies' any more," the health official declared.

"Livestock owners—should have active skunk killing programs, especially in the Red River Valley area, when winter approaches and skunks hole up with livestock in dilapidated barns," the report cautioned.

Current focal points of skunk rabies are, the report indicated, in Harris, Matagorda, Fort Bend, and Lavaca Counties. Another focus exists in the region of Comal and

Hays Counties, and in Central Texas in Travis, Bell, Coryell, Lampassas, and McLennon Counties.

"The trend is eastward in Central Texas," the report said.

Titus and Hopkins, an area hit hard last year, continues to have a serious problem, causing health officials to caution livestockmen in the eastern part of the Red River Valley to be especially vigilant against skunk invasions of barns and outhouses.

The rabies morbidity report is something new in disease control. Modeled after the method used to keep tabs on cases of human communicable diseases, it is part of the general protection the state health agency is providing.

For July the report shows: 77 dogs, 6 foxes, 6 cats, 4 skunks, 4 calves, 3 pigs, 2 civit cats, and 1 cow were diagnosed as rabid at the state Bureau of Laboratories.

Bexar and Harris Counties were hardest hit during July. Each reported on case of dog rabies each day of the month.

**HOME HINTS**

To remove mineral deposits from the bottom of water pitchers and vases, sprinkle tea leaves inside and cover liberally with vinegar. Let stand. Then shake well and rinse in hot water.

READ THE CLASSIFIEDS

Just because you've rinsed off the picnic dishes in the brook or under a park tap, don't neglect to put them through hot soapsuds followed by a hot rinse when you get home. They may look clean after a casual wash up "on location" but do need a thorough washing for the sake of safety. The same holds true for any knives, forks, spoons, or thermos jugs that went along on the picnic.

**"Why Our Family owns 13 Dodge cars!"**

"I was first in our large family to own a Dodge," says Frank Perrotti, Woodbridge, Conn. "But once the rest of the Perrotti family saw my Dodge, rode in it, compared it with the cars they were driving, they all began to swing over to Dodge. Today my family owns 13 Dodge cars and 11 Dodge trucks . . . and that's saying plenty for Dodge value and dependability."

You could pay up to \$1,000 more and not get all the extra room, riding comfort and famous dependability of Dodge

ONCE you get a taste of Dodge roominess and comfort . . . once you see Dodge bigger dollar-for-dollar VALUE . . . your good judgment tells you that here is the car for you and your family!

**New Riding Comfort**  
Today you want a car that's built to last . . . one that saves you money mile after mile. And you want comfort, too. You want a car that protects you from bumps and jolts—even over back roads or detours. With the new Dodge Offroad Ride, bumpy roads, ruts and chuck holes magically melt away.

Come in and judge for yourself. See if you don't agree that you could pay up to \$1,000 more for a car and still not get all the extra room, riding comfort, safety and famous dependability of Dodge.

Specifications and equipment subject to change without notice

A "MAGIC-MILE" DEMONSTRATION RIDE WILL PROVE DODGE EXTRA VALUE AND DEPENDABILITY!

**Feeling Is Believing!** You sit and feel the comfort in a Dodge. There's loads of elbow room, leg room, head room.

**Spend Five Minutes!** Let us prove you could pay up to \$1,000 more and still not get everything Dodge gives you!

"This summer, I have put in a great many extra hours of work for my customers every day.

"Air conditioners, attic fans, evaporative coolers, and portable fans have been going full blast around the clock—24 hours a day practically every day. High temperatures, lack of rainfall and many nights without our usual cooling breeze have combined to make it an exceptionally hot summer. Electric refrigerators have had to call on their reserve power to keep food fresh and wholesome at constant temperatures under 40 degrees and to maintain ready supplies of ice cubes and cooling beverages.

"Some electric bills may be higher during such extreme hot weather because of this extra work but now—when you're able to stay cool and comfortable in spite of the heat—is when your electric service really proves to be the biggest bargain in your home."

**Farmer Faces Assault Charge**

BROWNSVILLE, Aug. 14 (UP)—A Santa Maria farmer faced

charges today of attacking a caretaker who ejected Mexican cotton pickers from a church where they had bedded down. Caretaker Ventura Longoria, 37, complained to authorities that Carl

Tanner tried to gouge his eyes because the pickers were ordered to leave the River Road Mission church at Santa Maria. Longoria said Tanner had his crew of contract laborers occupy the church last Friday. The men were later in the day ejected upon orders of church authorities. The caretaker, his face scratched and bruised, said he was attacked Saturday. Tanner was charged with assault with intent to maim.

**Grass Fire Burns Greenwood Ball Park Bleachers**

BROWNWOOD, Aug. 14 (UP)—A wooden section of bleachers at the Brownwood High School Stadium was destroyed yesterday when a grass fire, thought to be out, flared up after a janitor had left the scene. The section had a seating capacity of about 500. Main section of the stadium is built of concrete and was undamaged.

**State Health Is Against Tests**

AUSTIN, Aug. 14 (UP)—State Health Officer George W. Cox said today he refused to authorize experiments to test whether anti-rabies shots can ward off polio but the sponsors were "hell bent on doing it, anyway." Cox issued his blast as 469 volunteers lined up at the small community of Frost, Tex., for their second inoculation in the mass experiment conceived by Dr. Herbert F. Hipps of Waco and Dr. Will Miller, acting director of the Corsicana - Navarro County Health Unit.

"I talked to Miller the other day," the state health officer said. "I told him I wouldn't authorize the experiments but he was hell bent on doing it, anyway." "I don't recommend the procedure, I haven't authorized the experiments and I'd say the potential danger is too great."

Cox said he agreed with three Chicago doctors who cautioned that the "human guinea pigs" might be in danger of paralysis or even death. "They're absolutely right," the health officer remarked. "Monkeys," he added, "are too damn cheap . . . why do it on children. If you don't kill the monkeys you might go ahead with humans." Anti-rabies shots, he said, are used "only in dire emergency . . . when a fellow gets bit by a mad dog."

**Catholics To Celebrate New Feast Day**

VATICAN CITY, Aug. 14 (UP)—Roman Catholic Churches throughout the world will celebrate for the first time tomorrow a new mass to commemorate the Aug. 15 Feast Day of the Assumption of the Virgin Mary.

It will be the first celebration of the Feast Day since last November, when Pope Pius XII proclaimed as a dogma—or truth—of the Catholic Church the bodily Assumption of the Virgin Mary into heaven after her death.

Alternating current electricity was discovered by Michael Faraday in England in 1831, when he announced the principle of electromagnetic induction.

**Use Plenty Of Spray**

COLLEGE STATION, August 14—Thorough coverage of cotton plants with chemical defoliant is essential for good defoliation, cautions F. C. Elliott, cotton work specialist for the Texas Extension Service.

"This means going to the field with plenty of water," Elliott said. "Under most conditions 25 gallons of water per acre will be necessary. In West Texas 30 gallons per acre are needed. Six to eight spray nozzles are required per row, depending on the size of the plants."

Elliott recommends using dust defoliants only when plants are wet with dew or when adequate dew is forecast. He cautions that the dust must remain in moisture on the leaf for at least two hours; four hours is preferred.

The cotton specialist suggests that farmers contact their county agents or local defoliant dealers about the amounts of defoliant to use and the proper procedure for applying.

Leaflet 145, "Cotton Defoliation Guide," may be obtained at county Extension offices.

**Three New Dams On Brazos Are Under Study**

MINERAL WELLS, Aug. 14 (UP)—Agreement appeared near today for a power contract which would lead to construction of three Brazos River dams. The Brazos River Conservation and Reclamation District would build the dams and sell the power to the Texas Power and Light Co. and the Texas Electric Service Co., operating as a combine.

Sale of power to the electrical firms would finance the dams, R. D. Collins, general manager of the conservation district, told conservation board members.

The district will be ready to advertise for construction bids as soon as the power contract is drawn, Collins said. Plans and specifications have been prepared. The dams would be built at Cordova Ben, near Grandbury; and at Inspiration Point and Turkey Creek, both below Mineral Wells.

The board met here yesterday to discuss the projects. It also approved its executive committees recent filing of an application with the General Services Administration for funds to plan four more dams.

Scientists of the General Electric Co. estimate that 2,000 persons are killed or hurt in the nation each year by lightning.
