Highlights and Sidelights FROM your State CAPITOL

By VERN SANFORD
Texas Press Association

Eyes of all the nation were focused on Texas during President Eisenhower's visit.

President Eisenhower, incidentally, is the second Chief Executive of the United States who has ever visited the Lower Rio Grande Valley. Warren G. Harding spent two weeks fishing in the Gulf of Mexico off Port Isabel in November, 1920, while he was president-elect.

Eisenhower's visit with President Cortines of Mexico marks the fifth meeting between presidents of the United States and Mexico since 1912. Previously President Taft met Diaz at Juarez, in 1912; Roosevelt met Avila Camacho at Monterrey in 1942; Truman met Miguel Aleman in Mexico City in 1947 and Aleman and Truman met in Washington in 1945.

Texas Congressman Lloyd B. Bentsen Jr., who had frequently been listed as a possible candidate for governor next year, added some warmth to the political situation.

He has been making talks all over the state, but when asked about his plans, he answered, "I have nothing to say at this time about my political future."

More money for teachers is an essential and urgent proposition says James A. Redmond of Beaumont president of the Texas Association of School Boards.

Speaking at a meeting of the association, Mr. Redmond stated that unless something is done soon about the shortage of teachers things will "certainly become crit-

Governor Shivers told the school board members that there is no disagreement about the need of teachers for a pay boost, but there is disagreement about how to bring it about.

Colorful Story Of South Pacific At Queen Theatre

One of Pulitzer-prize winner Parnes A. Michener's most colorful stories of the South Pacific reaches the screen of the Queen Theatre Sunday and Monday with "Return to Paradise" starring Gary Cooper. The picture, filmed in resplendent Technicolor on location in Samoa, captures all the legendary magic and beauty of the South Seas. The role given Cooper, that of Mr. Morgan, a quiet, resourceful tender American come to live on the tropical isle of Matareva, is a worthy successor to his Academy Award winning portrayal in "High Noon."

In this part, Cooper gives a superb characterization of a man who just can't stifle his better qualities. He fights dictatorial suppression when he finds it and his love for a devoted Samoan girl, comes through despite his efforts to suppress it.

"Bigger pies, not smaller slices"

We ran across a new word the other day... "demographer." That's a research man who studies statistics on births, deaths, populations.

Well, it seems the United States will have 20 million more people aboard by 1960, or thereabouts. Logical enough. We gained 20 million people in the forties.

Bigger pies are the order of the day. In the electrical industry, for instance, men with sharp pencils have figured that demand for electric power will have doubled during the decade ending in 1960. More power equipment is therefore needed. More electrical machinery for industry.

And better pies. Americans insist on better products, year by year. Somebody has to pioneer things. Looking ahead for five, ten, fifteen years—creating new and better products and improving old ones—that is the business of General Electric. For seventy-five years progress has been our most important product.

The babies who come into the world today won't want smaller slices of the world's goods and opportunities. Or even the same slice. They'll want more. Wait and see. Nothing less is worth planning for by the people who must organize for the future. It's no job for pessimists.

NEWS' ODDITIES

A young East Dallas woman preparing for bed recently heard a noise at her window and quietly called police.

A nearby squad car answered her call, arrested a man peeping through her window, and brought him to the front door to see if she could identify him.

The man had been her escort for the evening. He had bade her good night only a few minutes earlier. He was jailed for window peeping.

Mrs. W. C. Beiser, Jr., of Alton, Ill., wasn't concerned about two young neighbor children playing in the basement of her home. Then she heard a suspicious "swish, swish."

The children were gone when she reached the basement but the automatic washing machine was running. Mrs. Beiser turned it off and was ready to return upstairs when, from inside the machine, came a "snorting and burping" sound.

There was Randy, a five-week-old puppy, in four inches of water and clean as a whistle. "Thank goodness," she said, "I got him before he had to spin dry."

When Phillip C. Widdowson of nearby Princess Anne, Md., opened his refrigerator door, his cat fixed him with an icy stare and leaped stiffly from the box.

Widdowson said the cat apparently had remained in the refrigerator all night. He thawed out after a few hours in the sun.

Theodore Theban of N. Y., was making final plans for opening a branch office of his banking firm when there came an insistent rapping at the door.

Mr. Theban opened the door to find a woman carrying a shopping bag topped by a head of lettuce. But the bag wasn't all lettuce.

Insisting that she wanted to be the first to open an account, the woman dug under the lettuce and produced \$11,500 in cash. She got her wish.

Early Mitchell of Paris, Texas had to move this week — family, furniture, house and all.

Five years ago he bought a lot. He built a house right on the spot the salesman pointed out.

He learned the awful truth last week. His house was on the wrong lot.

The lot Early's deed described was five blocks down the street.

Mrs. Roy Lambrecht of Fremont, Neb., has a parrot she thinks is at least 117 years old. "My grandmother got him in Omaha and had him 55 years," she explains. "Then her daughter had him for 45 years before giving him to me. I've had

him for 17 years, and now he's beginning to show his age. But I think he'll probably outlive me."

Mrs. Marie R. Keeler, superintendent of a children clinic and hospital in Dallas was a happy woman after she got back a \$1500 diamond ring she had dropped down a drain and thought was lost forever in the sewer.

But she had reckoned without D. H. McDowell, emergency foreman of the city sanitary sewer department, who has recovered many such valuables from sewers.

He dug down in two places to open the sewer lines in the clinic yard. Then, using a flashlight and a mirror, located the diamond by its reflection.

Texas Farm Income Drops 19 Per Cent In Eight Months

Texas farm income for the first eight months of 1953 fell 19 per cent below the comparable 1952 figure. University of Texas Bureau of Business Research estimates indicate.

Income from grain sorghum was down 44 per cent; cotton, 25 per cent; and cottonseed, 31 per cent. However, revenue from oats increased 47 per cent and from flaxseed, 24 per cent.

Paralleling the crop trend, cattle revenue decreased 31 per cent. Income from calves was down 18 per cent; from hogs, 8 per cent. Sheep-and-Lamb income was up 24 per cent.

In a July-August comparison, total carload shipments of livestock fell 40 per cent.

ARE WOMEN SAFER DRIVERS?

Are women safer drivers than men?

Well, you can't prove it by the National Safety Council. In the 1953 edition of "Accident Facts," its statistical yearbook, the Council is forced to beg the issue because no one knows how many miles each sex drives.

The Council knows that eight out of 100 drivers involved in fatal accident in 1952 were women. Drivers of the fairer sex figured in 12 out of 100 motor vehicle accidents of all types.

But there are not as many women drivers as men, and they drive a lot less. And since no one knows how much less, the argument must go on.

Warmly Human Is "Big Leaguer" At Pioneer Theatre

The Florida training farm of the New York Giants forms the colorful background of the warmly human drama and love story unfolded on the Pioneer screen on Sunday and Monday in "Big Leaguer," new M-G-M offering starring Edward G. Robinson and Vera-Ellen.

This is the story of the hundreds of eager youngsters who dream of someday playing baseball with a big league team, and, particularly, the story of young Adam Polachuk (Jeff Richards), who has a two-fold problem on his hands when he arrives at the training quarters for the two-week tryout which will

determine whether he is of big league calibre.

First he must prove his mettle as a third baseman to the farm's manager, Lobert (Edward G. Robinson) and to the great Carl Hubbell (playing him self). Then he must convince his Pennsylvania coal miner father, who believes him to be at college studying law, that baseball is the only thing in life that matters to him.

How he does both, with the help of the girl who loves him, makes for a story replete with dramatic tension, human appeal and the unflagging color and excitement of baseball thrills.

Announcement

BILLY JOE TOOMBS

Billy Joe Toombs of Merkel, Texas, has been named local agent for the State Farm Insurance Companies, it was announced here today by Mr. H. P. Childress, of San Angelo, District Manager.

Mr. Toombs will represent the State Farm Mutual Automobile Insurance Company, largest writer of broad coverage auto insurance. State Farm Life and State Farm Fire are companion companies of State Farm Mutual, the State Farm Life being one of the fastest growing companies of its kind in the world.

The first of the State Farm Insurance Companies was organized in 1922. Since that time the Companies have expanded to where they operate now in 39 states, the District of Columbia and Canada. State Farm Mutual has more than 2,000,000 policyholders and more than 6500 representatives throughout its area of operation.

In announcing that his business would be carried on at 101 Kent Street, Mr. Toombs said that he was prepared to offer complete insurance service to the residents of this community in an organization that has long been known, not only for its service but for its economical cost to its policyholders.

INSURANCE WARNING

For the second time in a very short period of time State Fire Insurance Commissioner Paul H. Brown has written a letter of warning to the Merkel Volunteer Fire Department.

The need of the local fire department has been explained. It needs 20 members in good standing in the department who attend 70 to 80 per cent of the time. We do not have this attendance at this time.

Last year our penalty went up 15 per cent on account of not having enough members.

How can we stop the fire insurance rate from going up again? The local fire boys give the answer. Here it is:

"If you don't want the insurance rate to go up, you had better ask some of your fire boys to explain how you can join the local fire department and help us out in keeping the rate down."

The local fire department is not an exclusive society. It is not a special fraternity. It is an organization that is open to those men who can help in any way in putting out fires in our town.

The work these men do is not matter of saving property, property, it is also a work of your lives and those

is no reason why only a men should think enough of duty to volunteer for fire work. It should be the duty of every man possible to do his part in protecting the property and the lives of the folks in Merkel.

Investigate! Find out how you can become a part of the volunteer fire department.

24 HOURS A DAY

There was a writer a few years ago who wrote a book entitled "How to Live on 24 Hours a Day." We don't remember whether we read it or not. But the title comes to mind now when we are thinking on this weighty problem.

Some folks find that time is heavy on their hands. They do not have enough to do to keep them busy or their minds occupied. They wonder what to do with themselves. The modern age has given us so many time savers that time is left on our hands. Then the

question arises what to do with that time?

But our own problem is just the opposite. With all the gadgets to save time we find that we do not have enough time on our hands to do the ordinary things let alone the luxurious things.

We have had a number of folks, including our good friend Paul West, tell us that we are exceeding the speed limit when we go down the street (hurry, would be the correct word). They say, "Take it slower, take it easier. There are 24 hours in a day." Yes, there are 24 hours in a day. But a man can do just so much in 24 hours. If he has

to do more he just has to speed up to get them all in.

We took this matter up with our helpful friend, Joe Cypert. "Joe," we asked, "how can one get more than 24 hours in a day?" "Easy," replied Joe with a whimsical smile. We were interested and Joe went on to explain.

"The thing to do is to make the day longer, make it 36 hours, tak-

ing in part of the next day," he continued. "Of course that will give you less days a week, less weeks per month and less months per year. But it will positively give you more hours per day."

Well, maybe that is the solution. Anyway, if we ever get the chance we will work 12 hours of this longer day and sleep 24 hours!
