cats took over, but after a couple of penalties that backed them up toward their own end zone, had to turn the ball over.

As the Mules moved close to the Wildcat's end zone, a pass was intercepted and the Wildcats again had possession, but gained only five yards, then lost a yard, so punted again.

With :49 left in the half, the Mules again had possession, but couldn't make it into the end zone.

At halftime, a couple of big goose eggs were showing on the scoreboard.

Coming out for the third quarter, the Wildcats appeared to be fairly well settled down and moved the ball 29 yards in nine carries, but ran into a fourth and five yard situation. They appeared to be going for the first down, when they were called for delay of game, so attempted to punt. Ramiro Alarcon blocked the punt, so the Mules had good field position. Again the Mules couldn't move against the 'Cats, so gave the ball back.

MOVE in the RIGHT DIRECTION

To attend Church is the first step in finding God. To attend regularly is to continue in the right direction, and gives one an opportunity to understand God's will in his life. Now is the time to make your move. Choose the way that will lead you to God. Attend Church

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphol and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

The longest words Perhaps you thought that antidisestablishmentarianism was the longest English word, but it only has 28 let-

ters. Or perhaps you guessed supercalifragilisticexpialidocious. That, however, is only a made-up word from the film, Mary Poppins.
Now get ready to twist

your tongue if you want to pronounce some of the real longies. The Oxford English Dictionary lists a 29 letter word as its longest: flocci-paucinihilipilification, which means "the action of estimating as worthless.'

Webster's Third International Dictionary tops that one with a 45 letter word. pneumonoultramicroscopicsilicovolcanoconiosis, which is a disease of the lungs found in miners.

But the longest word ever is a 182 letter word translated from a 170 letter Greek

Lopadotemachoselachogaleokranioleipsanodrimhypotrimmatosilphioparaomelitokatakechymewnokichlepikossyphophattoperisteralektryonoptekephalliokigklopeleiolagoiosiraiobaphetraganopterygon.

This word is the name for a food which is made of 17 sweet and sour ingredients including brains, honey, mullet, vinegar, pickles and the Greek liqueur, Ouzo.

The history of stamps

A classified advertisement in The Times of London in 1841 led to the popular hobby of philately, popularly known as stamp collecting.

The advertisement was placed by a young woman interested in wallpapering her bedroom with postage stamps! It inspired other people to start collecting stamps.

Only a year earlier, in 1840, at the suggestion of Sir Rowland Hill, Great Britain had issued the world's first postage stamps. They were called "Penny Blacks" and had the head of Queen Victoria on them. Before these stamps were

issued, people took their letters to the Post Office and paid the postmaster a fee for sending them. The postmaster then wrote

the word "paid" on the enve-

lope and sent it off. With the issue of stamps, people could buy their postage in advance, and simply mail letters in public

letter boxes that were set up

throughout the country. Today stamps are available with dozens of different pictures. The next time you go to the post office, ask to see some of the different kinds of stamps. This could be the start of an exciting hobby!

Dear Louisa, My wife has a quick

temper and I think the things she says are probably harmful to the chil-When she becomes

provoked, her favorite word is stupid. She will say, "Stupid, don't you know better than that?" or "What makes you so stupid?"

I think a child should have his opinion of himself built up and not torn down.

What do you think

about this? The Father-- N.C.

Answer:

I once knew a mother whose small girl was an ordinary looking child but her mother had convinced her that she was beautiful and talented and she really gave off that illusion of herself because she thought it was true.

One of the most important things in our lives is to respect ourselves and to believe that we are worthy people and that we are doing the best we can for ourselves and for others.

Never call a child stupid unless you wish him to become stupid. Louisa
