## Weekly Swing of Southwest Farm Markets

Some southwest farm products brought higher prices during the past week, while many others declined to lower values, the U. S. Department of Agriculture's Production and Marketing Administration reports.

More eggs came on the market this week, as cooler weather stimulated flocks and as more pullets started laying. Prices eased in spots. Most markets quoted young chickens a cent or two lower. Hens also weakened slightly. A few turkeys went to market at 30 to 35 cents a pound for turkey hens and 24 to 30 for toms.

More cattle and calves went to market in the Corn Belt last week than the week before, but less calves arrived in the Southwest. Beef and veal sold steady to higher for the week, but calf meat weakened. Slaughter calves and some stocker cattle sold lower Monday than a week earlier, but other cattle ruled steady to higher. Good and choice killing calves sold from \$18 to \$22 in Texas.

Increased hog marketings and lower dressed meat prices resulted in weaker hog markets. Butchers lost \$1 to \$1.50 in Texas and Oklahoma, and sows around \$1. Denver's prices fell about 75 cents. Top butcher hogs brought \$18.75 Monday at San Antonio, \$18.50 at Fort Worth and Oklahoma City, and \$19.25 at Denver.

Cotton showed little net change for the week. Spot middling 15-16 inch Monday: Dallas 28.80; Houston 29.10; Galveston 29.20; New Orleans 29.30; Little Rock 29.40.

## Uncle Sam Says

Next to a stack of golden grain in the fields or a tree loaded with fruit, a farmer's proudest possession is his stack of U. S. Savings Bonds. These Bonds enable him to oil up his financial machinery and maintain a reserve which insures his home, land, livestock and equipment. His future is secure. The wise farmer builds his financial reserve in Savings Bonds from profits when his crops are good. That reserve is the windbreak against a stormy period. And it grows, \$4 for every \$3 invested in ten years.

## Methodists to Meet

Methodists representing nearly every community in the North-west Texas conference will attend an Advance mass meeting at the First Methodist church in Lubbock, Texas, on Oct. 20-21. Bishop William C. Martin, resident bishop of the Dallas Area and national chairman of Methodism's four-year program, Advance for Christ and His Church, will direct the meeting.

"Our Faith" will be the central theme of the meeting which features addresses by Ralph S. Cushman, resident bishop of the St. Paul Area, Bishop Hazen G. Werner, Columbus, Ohio, resident bishop of the Ohio Area and Bishop Martin. Bishop Cushman will speak on "Our Faith in Christ" and Bishop Werner on "Our Christian Conception of the Worth of Man."

Other speakers include Dr. Eveyne M. Duvall, secretary of the National Conference on Family Relations, and Dr. Warren Johnston, pastor, First Methodist church, Fort Worth, Texas. A series of eight and a half million members, will be officially introduced at the meeting, which will also include opportunity for group discussions and a youth meeting in the evening.

The Advance program represents Methodism's positive thrust at secularism and indifference and has the purpose of a deeper understanding of the basic elements of the Christian faith.

## Treat Peach Trees

Now is the time to treat those peach trees or borers and county agent H. M. Breedlove recommends Ethylene dichloride emulsion. This is a quick and effective way to control peach tree borers at this season of the year. Clear away a shallow trench in the soil about two inches away from the trunk and apply the following doses:

Trees one year old, use 1 pint; trees 2 years old, use 1 1/2 pint; trees 3 years and over, use 2 pint. After the emulsion is poured in the trench around the tree then cover it up and forget about it and the fumes will do the job. Remember that now is the time to do the job, so if your trees have borers around the base of the tree just under the ground now is the time to get rid of them.

Mr. and Mrs. D. E. Boliver and sons visited over the week end in Crystal City with Mrs. Myrtle Tinsley and Mrs. N. L. Norman.

Mr. and Mrs. J. O. Sessions of Kerens visited over the week end in the E. M. Glass home.

**U.S. Revamps Planning, Policy For Defense on Red A-Bomb Tip; Truman Says Critics Antedated**

(EDITOR'S NOTE: When opinions are expressed in these columns, they are those of Western Newspaper Union's news analysts and not necessarily of this newspaper.)

**THESE ADD UP TO HOUSING HEADACHE . . .** Across the nation, if there was any relief from housing shortage, it was spotty, inadequate. The twins (above) born to her in Brooklyn's women's hospital made the shortage doubly acute for Mrs. William Buckley. She and her husband, together with another child, add up to five people who must share one-room apartment. Mrs. Buckley wondered where she'd park the twins when she left the hospital.

**THE BOMB:**  
Do Reds Have It?

Does Russia really have the atomic bomb?  
President Harry Truman said "yes" did; and for once, there was presidential contradiction when Columnist Drew Pearson said they did.  
But whether they have it or not, the Truman announcement stirred up a nest of jitters everywhere.  
DEFENSE CHIEFS backed up for a new look at the world situation. Congress reacted as might have been expected. The arms-to-Europe program hailed the announcement as added proof of the correctness of their stand. Other congressmen blamed laxity over the past few years in our state department and defense setup for Russia's having the bomb now—if she does have it.  
A noted atomic scientist declared that for Russia to contend it had the bomb in 1947 was fantastic, that the date was "one pulled out of a hat." But he said the Soviets might well have the weapon.  
Most tangible result in congress of the President's statement that there had been an "atomic explosion" inside Soviet Russia was agreement by house and senate conferees on the 1.33 billion-dollar appropriation for arms to Europe. The legislators got together very quickly on the view that to cut the appropriations, as had been first planned, would be an unwise move.  
IN THE UNITED NATIONS, Britain's foreign secretary, Ernest Bevin, lashed out with a furious tirade against the Russians, charging them with stalling efforts to control atomic energy. Like Russia, Bevin said, England wants the atomic bomb banned, but the British want effective control first. Skeptics of the idea that the Reds have the bomb were asking why Russia wanted to outlaw such a potent weapon, if she really had it—or did she think the western world suckers enough to outlaw and forewear use of the bomb and thus give the edge to any ethics-lacking nation who might have the bomb and would drop it without warning?

**Gripps Gets Tough**

Sir Stafford Cripps, British finance boss, lost no time in bringing home to the people the import of devaluation of the pound sterling as an effort toward the country's financial problems.  
His labor government raised the tax on business profits and threatened to restrict dividends by law in defending the devaluation move at an emergency session of parliament.  
At the same time, the government rejected any pay raise proposals declaring this must be done to prevent an inflationary spiral.  
Cripps made these moves as he opened the cabinet's appeal for a vote of confidence from the parliament.

**TRUMAN:**  
Way Ahead

President Harry Truman was still battling vigorously for his domestic program in congress. With his usual expansive attack on critics, he charged present detractors with being "160 years behind the times."  
NEVERTHELESS, the President was making a strategic approach to the congressional races next year in a drive for women recruits to the Democratic party.  
In a White House radio address, beamed at the women of the nation, Mr. Truman pointed to "certain people" who denounce his "fair deal" policies as alien or dangerous.  
THEY'RE NOTHING of the kind, declared the President. In fact, he asserted, "Our program consists of measures which have come up from the grassroots. Our program is as American as the soil we walk on. It is a program unshakably founded on the principle that the power of the government should be used to promote the general welfare."  
Dissidents might go along with such items of the program as public housing and expanded social security benefits—but on the subjects of farm price supports, as advocated by the administration, and socialized medicine, there would be some arguments about these being of "grassroots" origin.  
TOSING A BOUQUET to woman's intelligence, the President declared that women are not misled by political slogans, added: "They look beneath the labels to see the facts."

**TITO:**  
Get Out!

Yugoslavia's Marshal Tito ordered nine Hungarian diplomats expelled and accused Russia and her Cominform satellites of "ratting their arms" along the Yugoslav border.  
HE STATED that his Cominform enemies were "digging trenches in Hungary and Romania."  
Apparently, the fiery dictator of Yugoslavia was not frightened, still ready to wage war with Moscow, verbally or otherwise. "We will permit no one to impose their will upon us," he thundered.  
Despite the dramatic atmosphere surrounding expulsion of the Hungarians, Tito's action was a retaliatory one, since it followed within 24 hours a similar action against 10 members of the Yugoslav legation in Budapest.  
TITO CLAIMED the Russians were plotting to stage a revolution in Yugoslavia in order to supplant his government with a regime servile to Moscow.  
Whether or not the Russians had the atomic bomb, as has been reported, Tito didn't seem to be any less disposed to quarrel with the Kremlin.

**ROCKETS:**  
Far Targets

Just before the end of World War II, the Germans reported experimenting with rockets that could span oceans. Now, according to information emanating from the Soviet zone of Berlin, German scientists are producing such rockets for the Russians.  
The informants, who were said to have access to the offices of the Soviet-puppet east German police, said the mammoth under-ground munitions plant at Peenemuende on the Baltic coast was turning out rockets at full speed.  
Allied intelligence officers conceded they knew of "certain activity" at Peenemuende, but declined to elaborate. One of them explained:  
"If Russia is making munitions in Germany, it's a high level matter and not for discussion here."

**Navy Discovers Potent Remedy for Colds**

The United States navy was manifesting its efficiency again—but in an entirely different field. Veering away from its military side for the moment, the navy found a "cold-killer" pill that was reported 90 per cent effective.  
The fight to control the common cold has been one of the longest in all medical history. It has defied the majority of scientists have expressed a conviction that the common cold, like the poor, will always be with us.  
The navy's cold-killer has been named "Corcidin," derived from "coryza," meaning the common cold, and "cide," to kill. The pill must be taken at the first sign of a cold to insure its maximum effectiveness.

## When Your Back Hurts

And Your Strength and Energy Is Below Par

It may be caused by disorder of kidney function that permits poisonous waste to accumulate. For truly many people feel tired, weak and miserable when the kidneys fail to remove excess acids and other waste matter from the blood.

You may suffer nagging backache, rheumatic pains, headaches, dizziness, getting up nights, leg pains, swelling. Sometimes frequent and scanty urination with smarting and burning is another sign that something is wrong with the kidneys or bladder.

There should be no doubt that prompt treatment is wiser than neglect. Use Doan's Pills. It is better to rely on a medicine that has won countrywide approval than on something less favorably known. Doan's have been tried and tested many years. Are at all drug stores. Get Doan's today.

## ... by BUILDING LEADERSHIP among farm youth

All over the Gulf South, industries are recognizing the need for training boys and girls in the principles and practices of good citizenship, and are doing their part to develop leadership among our citizens of the future.

United Gas, for example, encourages the development of leadership among farm youth, and participates in a number of agricultural activities to build better citizenship among the boys and girls of the farm.

This is another example of the way the American Business System works to bring better living to your community.

The Advertising Council, Inc., has just issued its revised booklet, "The Miracle of America," which tells why Americans live better, how machines make jobs and why freedom and security go together.

THE BOOKLET should be prescribed reading for that fast-growing element among the people's officials which seems to think every one should apologize for America rather than be proud of it.

Approved by representatives of both labor and management, "The Miracle of America" tells in interesting, readable prose why America is great and why every American should be proud of his country. In the booklet the mythical Uncle Sam asks questions about America which might be posed by any typical American family.

EXCERPT: "Freedom and security go together." Uncle Sam asserted. "Men follow two great impulses—to be politically free and to be economically secure. In America we have won freedom and we are winning economic security. Dictators promise security if the people will give up their freedom. But experience shows that freedom and economic security must grow together. The history of the United States proves it."

Americans may have a copy of "The Miracle of America" free of charge. Just write to: Dept. N The Advertising Council, Inc., 25 45th St., New York 19, N.Y.

**Bible Perennial**

The Bible has always had a significant place in the lives of Americans. Acknowledgement of and homage to a Supreme Being is inherent in the American government setup, with American trust in God declared on the nation's coins. Therefore, National Bible Week, October 17-23, will be observed throughout the nation, with mayors and governors in the 48 states joining in proclamation urging the people to support the observance.

OUTLINING the purpose of National Bible Week, Rear Admiral Reginald R. Belknap (USN, Retired), who is chairman, declared: "National Bible Week is used to stimulate people in all walks of life to be Bible conscious and to turn to the Bible in these times of national and personal moral confusion." "WE NOW SEE a proud, powerful nation, whose people the world over were looked up to and respected for their sense of righteousness, fair play, charity and resourcefulness, decayed to the point where they are not shocked at... glaring examples of moral decay."

While Chairman Belknap didn't say it in words, his examples of "moral decay" pointed at none other than Soviet Russia.

**INCOME TAX:**

**Up & Up & Up**

Total income taxes collected in the United States show an increase of over 1,100 per cent in 10 years, from two and one-quarter billion dollars in 1939 to just under 31 billion dollars in the fiscal year of 1949, with individuals paying 60 per cent of this total, says an analysis by the family economics bureau of Northwestern National Life Insurance company.

NUMBER of persons hit by income taxes has increased proportionately, the bureau finds. There were 3.9 million individual income taxpayers in 1939; in 1948 there were 41.8 million. Although that number will be reduced for 1949 by the elimination of several million small taxpayers from the rolls due to increased exemptions and other changes made by congress in 1948, the list should still run somewhere around 36 million individual income taxpayers in 1949, the bureau estimates.

**'Sweet Sorrow'**

Parting was such sweet sorrow for John M. Crawford and his five monkey charges, one of whom he is shown caressing. He kept the five monkeys in his New York home. Neighbors objected. The court ordered Crawford to get rid of the monkeys, declaring he was violating the city's sanitary code.

**PAYOFF:**

**'Unto Caesar'**

"Render unto Caesar the things that are Caesar's" was a Biblical line that stuck in the mind of Pastor Eugene M. Austin of the Baptist Temple in Charleston, W. Va. Confronted that "Caesar" meant the government, the pastor set an amazing precedent: He voluntarily went to the courthouse and had his personal property... assessed six... tion to
