## To Fight Coyotes

Farmers and ranchers in Donley county have decided to stage a war against coyotes this winter. H. M. Breedlove, county agent, says that farmers have been coming to his office requesting that he organize communities to fight coyotes. Breedlove has secured the service of R. E. Callender, Extension Service wild life specialist, to have demonstrations on the use of traps and cynide guns to kill coyotes, this of course will need all the necessary precautions of warning signs where the guns are used. A conservative estimate of the amount of damage done by coyotes in Donley county each year is around thirty five thousand dollars, this is loss of poultry, swine and damage to livestock. It is planned to give prizes for the person or persons catching the most coyotes in the county. The Clarendon Lions club and the Hedley Lions club have their committees working on the prizes to be given. Breedlove will hold four meetings in the county to explain the program and for Mr. Callendar to demonstrate the use of different methods of coyote eradication. The meetings are as follows:

Clarendon-Fair Grounds on Brice Highway, Wednesday, Oct. 26 at 9:30 a. m.

School bells are again ringing and thousands of children are back in classrooms all over the country. And many of these little boys and girls are crossing the thresholds of learning for the first time, starting the great adventure of beginning an education in a free land. They can go all the way, and that means college, if they learn to save. The School Savings Program teaches them to be thrifty and children who learn to save will certainly be better citizens tomorrow. You parents—be sure there is a School Savings Program at your school and be sure too, that your children are investing in U. S. School Savings Stamps. U. S. Treasury Department

WEEKLY NEWS ANALYSIS

# Control Atom, Keep Alert: Baruch; Senate Clashes on Price Supports; U. S. Seeks Method to End Strikes

EDITOR'S NOTE: When opinions are expressed in these columns, they are those of Western Newspaper Union's news analysts and not necessarily of this newspaper.

## A-CONTROL: 'Truly Effective'

After President Truman's announcement on September 23 of an atomic explosion in Russia, U.S. citizens worked up a kind of peculiar, detached tension that seemed to have been born out of the expectation that somebody—maybe Bernard Baruch—ought to say something significant, pretty soon about the world and the atom bomb.

And Mr. Baruch, who is the author of the plan for international atomic control that was rejected by the Soviets in 1946, measured up to the demand for an opinion by coming out with what looked to be some practical suggestions.

PRIMARILY, he urged that "nothing less than a truly effective" system of international control be put into effect.

He supplemented this major point with three other recommendations as to how to face up to the Russian atom:

1. Pending such "safe and sure" control, make every effort "to maintain our overwhelming advantage" in the development of atomic weapons.
2. Re-examine our strategy for peacemaking.
3. Enact a standby mobilization plan, including civilian defense, immediately.

BASIC IDEA, of course, is for the U.S. to do its moral best with the olive branch, but in the meantime keeping a gun handy, just in case.

Baruch's conception of a mobilization plan would include price, wage and rent controls, rationing priorities and anti-profiteering measures.

Russia's counter-proposal to international control—the outlawing of the bomb and international agreements to destroy all existing stocks of the atom bomb—oversimplifies the problem, Baruch said.

HE WARNED that a would-be aggressor easily could divert "peaceful" atomic material to "international blackmail and destruction."

## STRIKES:

### Economy Throttled

The history making double basic-industry strikes—coal and steel—were rapidly throttling the nation's economy as the first week of the twin work stoppage drew to a close, using:

1. The layoff of about 100,000 white collar workers whose clerical services no longer were needed.
2. Furlough of 49,000 railroad men.
3. Curtailment of Peabody motor company operations.
4. Reduction of steel output to an anemic 8.2 per cent of normal capacity.
5. Daily loss of 30 million dollars worth of business in the steel and coal industries alone.
6. Daily loss of 11 million dollars in wages to nearly 90,000 striking steel and soft coal workers.

President Truman had indicated that he planned no direct government intervention in the strikes, but Federal Mediator Cyrus Ching was trying to figure out a new attempt to settle the disputes.

With the steel mill and coal mines idle, Ching's massive problem was to find a workable solution first of all to the pension demands of Murray's United Steelworkers and Lewis' United Mine Workers. Making it more difficult was the fact that neither the industry leaders nor the unions were in mood to make any concessions.

An added grim note was sounded by Philip Murray, CIO leader, when he warned that still another 500,000 of his steelworkers would be going on strike by the end of October unless the company-financed six-cent pension and four-cent insurance program was accepted by the steel industry.

## PERCENTERS:

### 5, That Is

What happened to the 5 per cent inquiry that was hotter than a two-dollar deep freeze box a month or two ago?

According to Senator Hoey (D., N.C.), who heads the special senate subcommittee which studied whether federal buying was improperly influenced, the probe probably won't be resumed this year; although the senator indicated that he might release a report on it soon.

"FOR ALL practical purposes the investigations already is completed," said Hoey.

However, the subcommittee was still waiting to get the testimony of James V. Hunt and David Bennett, both of whom were described as being too ill to take the stand.

Hunt is the Washington management counselor who allegedly collected fat fees for his help in seeking government contracts for others. He was the one who said, "All I have to sell is influence."

Bennett is head of the Chicago furniture house which footed the bill for several home freezers prepared in 1945 to Maj. Gen. Harry

## HIGH SUPPORTS:

### Good or Bad?

Despite worried administration warnings against setting farm price supports so high as to "price the farmer out of the market," the senate went ahead to hit a new parity ceiling for six basic groups.

Senators Young (R., N.D.) and Russell (D., Ga.) spearheaded the successful drive for an amendment to peg support prices on wheat, cotton, rice, corn, tobacco and peanuts at 90 per cent of parity. Previous support prices on those crops had been 75 per cent of parity.

SEN. SCOTT LUCAS of Illinois, senate Democratic leader and voice of the administration in this case, had opposed the Young-Russell amendment to Sen. Clinton Anderson's bill and had fully expected that it would be defeated in the senate.

But after a lusty battle, the measure was sent back to the agriculture committee where attempts were made to work out a compromise.

Senators Anderson, Aiken and Lucas had argued that a high-support measure, keeping food prices high, might one day cause consumers to rebel and possibly throw out the entire price support program.

Backers of the 90 per cent parity legislation contended that any serious lag in farm prices could set off a depression affecting the whole national economy.

THERE MATTERS stood for the time being. Prior to the senate fight on the support bill, however, Sen. Scott Lucas had delivered himself of an opinion that could, under the right circumstances, turn out to be prophetic:

"When the government continues to subsidize a little more and a little more all the time—without sticking to a farm program dealing with the basic commodities that can be controlled—you are taking a chance that the whole thing may be struck down."

## BIRTHDAY:

### U. N.'s Fourth

October 24 is United Nations Day. The organization, wherein repose the hopes for peace of all free and thinking men, is just four years old—four years old as the passage of time goes, but already ageless in its experience and the good it has accomplished.

WHAT HAS THE United Nations done since it first convened during the immediate aftermath of World War II in 1945?

First of all, it has constantly kept the hope and prospect of peace alive in the minds of the world's people. It has come to mean, to the common man, a functioning object lesson that "working it out is better than shooting it out."

The U.N. already has definitely stopped three wars—in India, in Palestine and Indonesia.

IT IS LEADING millions of non-self-governing territories toward the realization of self-government. On the basis of the best evidence, the U.N. has contributed enormously toward the job of keeping the peace won through the bloodshed of World War II.

The birthday of the United Nations—October 24—is a day to fix in memory. Odds are that in terms of human achievement and benefit and the dignity of man, history will write that date as being one of unparalleled significance and importance.

## Border Backfire

When the Russians eased their border travel restrictions at Frankfurt, Germany, to draw west Germans into the Soviet zone for Communist "Peace Day" demonstrations, the results were reminiscent of the fabled halfback with the pointed head who ran 90 yards for a touchdown—the wrong way.

Thousands of eastern Germans poured into the western zone, while only about 500 went the other

## ? Current Events ?

Here are five questions, based on recent happenings in the news, which are practically impossible to answer—unless your children give you enough time to read your newspaper before they start playing tag-of-war with it. Anyway, try them on your I. Q. for size.

1. Yugoslavia, aided by the U.S., recently bid election to a seat on the U.N. security council. How many elective members are there on the security council?

2. News from London following the devaluation of the pound made frequent mention of the "shadow cabinet." What is it?

3. U.S. aid to foreign countries in fiscal 1949 totaled 5 billion dollars. Would you say Britain, Germany or France received the most?

4. Oklahoma voted recently to keep its 42-year-old statewide prohibition law. How many other all-dry states are there?

5. Guam, a U.S. possession formerly run by the navy, recently inaugurated its first civilian governor. When did the U.S. get Guam?

## ANSWERS

1. Of the 11 seats, five are held permanently, six are elective. Elective members now are Argentina, Canada, Cuba, Egypt, Norway and the Ukraine.
2. The phrase describes a group of leaders of the Conservative opposition, headed by Churchill.
3. Germany, \$83 million dollars; Britain, \$99 million; France, 750 million.
4. Mississippi is the only state with a statewide prohibition law.
5. In 1898, by the Treaty of Paris, after the Spanish-American war.

## SECURITY:

### the Way

Judging from all the activity that has been generated around the idea recently, apparently the thing Americans are most concerned about is how they can keep a few dollars rolling into the family till each month after father reaches the ripe old age of 65.

Pension plans have been an issue in major strikes confronting the nation, and congress was coming up fast on the outside of a greatly expanded social security measure.

Even as the administration-sponsored bill was reported out onto the floor by the house rules committee, it had been fairly obvious that the house would approve this portion of President Truman's program.

Briefly, the current measure provides for:

1. An increase of \$1 million in the number of workers covered by old-age and survivors insurance for a new total of 46 million.
2. An average 70 to 80 per cent increase in old-age benefits.
3. Creation of a new insurance system for persons who became totally and permanently disabled.
4. An increase in the payroll taxes by more than 300 per cent during the next 20 years.

At any rate, the prospects were bright for those legislators who were plumping for passage of the expanded social security law. Senator George (D., Ga.) chairman of the finance committee, freely predicted that the senate would pass the hopped-up social security program in 1950.

## REVOLUTION:

### With Trailers

Tomorrow's butcher, baker and candlestick maker may desert main street to come rolling right up to Mrs. America's doorstep to sell their wares.

This minor revolution in retail salesmanship was forecast this week by America's trailer coach manufacturers as they prepared to

display commercial and industrial trailer models at their first national exhibit in Washington, D.C. November 18-20.

In addition to a complete line of house trailers, the show will feature, among other specially-designed coaches, a well-stocked traveling grocery store, mobile beauty parlor, library, dental unit, field office and medical unit.

Hailed as a progressive step in relieving congested shopping centers and simplifying the housewife's marketing problems, the new trailer stores already are winning favor in both metropolitan and rural areas, say sponsors of the idea.

Tell that grocery store to wait, Mother—I'll be right out!

## DEFENSE:

**Watch Your Kidneys!**  
Help Them Cleanse the Blood of Harmful Body Waste  
Your kidneys are constantly filtering waste matter from the blood stream. But kidneys sometimes lag in their work — do not act as Nature intended — fail to remove impurities that, if retained, may poison the system and upset the whole body machinery.  
Symptoms may be nagging backache, persistent headache, attacks of dizziness, getting up nights, swelling, puffiness under the eyes — a feeling of nervous anxiety and loss of pep and strength. Other signs of kidney or bladder disorder are sometimes burning, scanty or too frequent urination.  
There should be no doubt that prompt treatment is wiser than neglect. Use **Doan's Pills**. Doan's have been winning new friends for more than forty years. They have a nation-wide reputation. Are recommended by grateful people the country over. Ask your neighbor!

**Win Family Favor with Hearty Soups**  
(See Recipes Below)

**Substantial Soups**  
COLD, BLUSTERY DAYS call for changes in the family meal plans. Something hot, something tempting with which to start off the meal is warming and it takes the edge off those appetites which have been sharpened by the elements. That something can and should be soup, be it luncheon, dinner or supper.

You could serve a different kind of soup practically every day when its cold enough and never repeat the same kind because the variety may be infinite. Give your menu a lift in nourishment and interest by trying out kinds which you've never had before and see how your rating goes up with the family.

**\*Crabmeat Bisque (Serves 6)**  
1 1-pound bunch broccoli  
3 tablespoons butter  
2 tablespoons finely minced onion  
3 tablespoons flour  
4 cups milk  
2 teaspoons salt  
1/2 teaspoon pepper  
1/2 teaspoon paprika  
1 teaspoon worcestershire sauce  
1 cup grated American cheese

Prepare broccoli: cook washed vegetable in an inch of boiling, salted (1/2 teaspoon salt to 1 cup water) water for 15 to 20 minutes, or until tender. Sieve or chop fine and measure. There should be about 1 1/2 cups of the vegetable pulp. Melt butter in saucepan, add onion and cook until tender. Blend in flour. Gradually add milk, stirring constantly, and cook until thick and smooth. Stir in broccoli, seasonings and sauce. Add grated cheese and stir until melted. Serve in warm soup bowls with a sprinkling of more grated cheese on top.

A delicious and different variation of cream soup is bisque which is somewhat thicker, but there's no trick to its preparation.

**Crabmeat Bisque (Serves 6)**  
1 1/4 cups shredded crabmeat (6 1/2 ounce can)  
1 1/2 tablespoons butter  
2 tablespoons flour  
1/2 teaspoon salt  
Dash of pepper  
1 cup boiling water  
1 1/2 cup evaporated milk (1 tall can)  
1 egg  
1-2 tablespoons lemon juice

Remove any shell from crab meat, then shred. Melt butter; add flour, salt and pepper and blend until smooth. Add boiling water and cook until mixture begins to thicken. Add milk and continue cooking until slightly thickened. Beat egg; add lemon juice and stir into white sauce along with crab meat. Heat to serving temperature and serve immediately.

**HERE ARE TWO hearty soups, both of them regional favorites:**  
**Dutch Vegetable Soup (Serves 10)**  
2 cups dried lima beans  
1 large soup bone

**LYNN SAYS:**  
Soup variety Tempts Cold-Sharp Appetites  
Frankfurter or salami sliced 1/4-inch thick adds flavor and richness to pea, bean, corn and tomato soups.  
When you want to get fancy with soup garnishes, serve with a float of salted whipped cream, sprinkled with slivered toasted almonds.  
If soup seems thin and unappetizing, drop a few pieces of macaroni into it for thickening and texture interest.

**LYNN CHAMBERS' MENU**  
\*Crabmeat Bisque  
Tossed Green Salad  
Melba Tr. Bever.  
Fudge Cake  
\*Recipe Given

- 2 cups tomatoes, fresh or canned
- 2 cups corn kernels, fresh or canned
- 2 cups chopped cabbage
- 1 large turnip, diced
- 1 carrot, diced
- 1 onion, sliced
- Salt and pepper to taste
- 1/2 cup flour
- 1/2 cup milk

Soak lima beans in enough cold water to cover, for several hours or overnight. Wash soup bone thoroughly and cover with cold water. Bring to boil and simmer for three to four hours. Skim off fat and add drained lima beans and prepared vegetables. Season to taste and cook until vegetables are tender, about one hour. Mix flour with milk and stir into soup. Cook for 15 minutes and serve hot.

**Jack Bay Fish Chowder (Serves 6)**  
1/2 pound salt pork, sliced  
2 cups diced fish  
6 small potatoes, sliced  
2 onions, chopped fine  
2 cups boiling water  
2 cups milk  
1/2 teaspoon salt  
Dash of pepper

Put salt pork in deep kettle. When crisp, remove pork and add fish, potatoes and onions. Add boiling water and simmer one-half hour, or until potatoes are tender. Add milk and cook for five minutes longer. Season with salt and pepper and serve with pilot biscuits.

**CABBAGE SOUP** is an old-fashioned favorite, and you've probably made it often. Here, however, is a tasty recipe for it, seasoned to perfection with salt pork and a few wisely selected herbs.

**French Cabbage Soup (Makes 2 1/2 quarts)**  
1/2 pound salt pork, cut in cubes  
2 quarts cold water  
2 spray parsley  
Pinch of thyme  
1 bay leaf, crushed  
1 cup diced raw carrots  
1 cup diced raw turnips  
1 cup diced raw potatoes  
1 quart finely shredded cabbage  
1 large onion, chopped  
1 teaspoon salt

Place pork in soup kettle with water, parsley, thyme and bay leaf. Bring to a boil and simmer gently for one hour. Strain out pork and herbs. Add vegetables to the broth with salt; bring to a boil and simmer for one hour. Add pork to the soup, and season to taste with more salt and pepper, if desired. Serve with grated cheese, if desired.

Cam chowder and consomme can stand a bit of tartness so it's a smart idea to float thin lemon slices on top of the soup when serving.  
Grate cheese or puree some red potatoes and fold them into whipped cream for a colorful soup garnish especially attractive for the cream type soups.  
Soup will tempt youngsters and others alike if it's sprinkled with bacon, popcorn just before serving. This is an excellent idea.

**Fewer Pedestrians Figure In 1948 Traffic Deaths**

CHICAGO.—Fewer pedestrians walked themselves to death during 1948 than the year before. There were 9,850 pedestrian traffic deaths last year, according to the 1949 edition of "Accident Facts," statistical yearbook of the National Safety Council. This was 6 per cent below the 1947 total of 10,450.  
The yearbook points out that last year was the first since motor vehicle deaths have been tabulated by type of accident that pedestrian deaths were fewer than deaths from two-vehicle collisions.

A TRUE EXPERIENCE OF JAMES F. DASHNER IN AN ARKANSAS TORNADO  
1 "Near midnight, we heard it! A sighing whisper... a lull... a whining gust of wind... a deathly silence... a shrieking blast! And the full fury of the tornado struck! My wife screamed! My child whimpered! I grabbed my flashlight. Suddenly... the whole house churned... lifted... spun in air. Everything crashed into blackness."

2 "I came to. I had been flung from the house into a ditch. My flashlight still burned. Frantically, I followed its steady beam along the ditch until I saw the white faces of my injured wife and child!"

3 "With the help of our flashlight, we reached shelter. I thank those flashlight batteries for saving three lives that night. Now I know why Eveready batteries are The Batteries With 'Nine Lives'!"
