

Clyde Girls Win Consolation In Own Tourney Last Weekend

CLYDE — Competition was strong in the girls division as the 3rd Annual Clyde Invitational Tournament was unrelentingly last weekend at the local gym. The Clyde girls won the Consolation crown, and Wylie won the Championship trophy over Baird in the finals.

Clyde girls drew Wylie for a first round opponent Thursday night and were able to score two quick field goals for an encouraging early lead. Wylie managed a 19-11 first quarter, however, and moved out for the win. The second 8-minutes of play saw Clyde manage only two points on the scoreboard, but were able to contain Wylie's overdrive offense to only eight points. During the final two quarters the Wylie forwards kept the ball on their half of the court for minutes at a time and cashed in for easy points on repeated turnovers. Final score was 79-23. Karen Long was high scorer for Clyde with 19 points, a good performance against Wylie's defense.

Cochow Howell analyzed, "We didn't play all that bad against Wylie. They are deceptively tough. They are the kind of team that can make you look bad. We know Wylie's other opponents in the tournament, both Eastland and Baird have stronger than average ball teams. A two or three point quarter can ruin you against a good team and this happened in each instance." Wylie beat Eastland 61-29 and Baird 64-

Dyess Announces Low Level Flying Training Routes

The world wide commitments of the 463rd Tactical Airlift Wing (TAW) at Dyess AFB require continuous low level flying training. The highest possible degree of proficiency must be maintained and the 463rd-TAW aircrews must be current in all modes of aerial delivery. As a result the Wing's C-130 Hercules aircraft are flown at low level altitudes over the "big country" on a daily basis.

These low level flights must be scheduled between 8 a. m. and midnight, Monday thru Friday, and less frequently on weekends. Daylight missions are flown at an altitude of 500 feet above the terrain while night low level activities are conducted at least 1,000 feet above any obstacle, man made or geographic, within three miles of the prescribed route. Airspeeds will vary from 150 to 290 miles per hour.

All flights are made along specific routes which are approved by Tactical Air Command. Minimum disturbances of farms, ranches and communities is the primary consideration in selecting low level routes. Towns, local airports, resorts,

hatcheries and stocker pens are avoided when planning the routes and will not be overflown under any normal circumstance. 463rd officials would like to emphasize that, even though training must be conducted at low level and high airspeed in order to be realistic, all possible precautions are taken to prevent disruption of local agriculture and community activities.

These training flights occur over the following counties: Knox, Haskell, Stone wall, Throckmorton, Shackelford, Baylor, Garza, Scurry, Fisher, Jones, Stephens, Mitchell, Nolan, Taylor, Callahan, Eastland, Coke, Runnels, Coleman Brown and Tom Green.

Although the primary mission of the 463rd TAW is a military one, its aircraft and crews are ready, able and willing to assist in a non-military role. In the past the wing has provided help in flood relief, hurricane assistance, air-evacuating burn patients to the burn treatment center in San Antonio, air dropping hay to stranded cattle and pursuing aircraft hijackers.

Stereo Needed For Nursing Home

CLYDE — Several interested individuals are interested in buying a stereo tape and record player for the Clyde Nursing Home. These Nursing Home residents love music, and have very few people who can play the piano for them or who have time to come and play. With a tape player they could have music any time they wanted it.

Donations are being taken for the stereo. We know there are a number in the community who would like to help purchase this for the Home. If you would like to contribute, contact Mrs. Charles Walsh Sr., Mrs. Robert Harber, or take it to the Peoples State Bank, stating it is to be used for the stereo at the Nursing Home.

We know you would like to have a part, and it would be nice to get it to the Home for Christmas.

Two Shining Trophies Ease Pain Of Regional Loss to Plains

BAIRD — The football uniforms and equipment have been put aside for another team and another year, but in the trophy case stand two brand new shining trophies, won by the most outstanding team Baird has had in many years. The trophies are gold footballs, atop a polished wood base, on which you will find inscribed on a gold plaque, 1972 Baird Bears, District Cham-

pions, and 1972 Baird Bears, Bi-District Champions.

The football careers ended Friday night in Tiger Stadium in Snyder for a number of the Bears who are seniors this year, as the defeat by the Plains Cowboys was handed the Bears. It was a sad occasion for those of us who had watched this team go undefeated for ten games, but the success of the team throughout the year seem to heal the deflated ego and the taste of the bitter pill of defeat soon faded into the past. We began to remember the thrills we had enjoyed during the football season, and this great football team that had represented our school and town so well this year. We will always remember the team of '72 and how far it really did go. A great team and coaching staff, we congratulate you all.

Cold Winter Weather Slips Up On Rowden; Weatherman Goofed

We are having winter weather again. This norther slipped up on us - at least the weatherman was wrong as he said we were due one on Tuesday. Outside water faucets were frozen

Monday morning and that's telling us to get busy to protect them from future northers. A lot of us enjoyed the warm Sunday morning and went to church without coats. Saturday also was a beautiful day for outside work of any kind. Winter, like summer, shares its good and bad wherever we are. Mr. and Mrs. Bob Price of Springfield, Ore. visited Tuesday and again on Sunday with the James Reynolds family. Mrs. Sterling Odom visited

her aunt, Mrs. Faye White in Abilene last Wednesday. Mr. and Mrs. Bill Lawrence visited Mr. and Mrs. Audy Moore in Cross Plains Sunday. Ellen Reynolds spent Friday and Saturday nights with Brenda Waggoner at Cottonwood. Mrs. Ruth Boen attended

open house at the Baird Museum last week. She reports that the museum is a very interesting place to visit. Guests of Mr. and Mrs. Tony Steele Friday night were Mr. and Mrs. Wayne Towery and son of Abilene, and on Saturday their guests were his uncle and family, Mr. and Mrs. Lee Jernigan, Donna and Kay of Desdemona. Reddy Bargain Time

Every minute of every day, your electric clock indicates with visible proof, the precision and dependability of electric service.

It's dependable, because electricity operates the clock faithfully — 24 hours a day. It's precise, because our electric system operates in time with a master clock at the U.S. Naval Observatory, keeping your clock in step, down to the second.

Your clock operates a whole year on about 43 cents worth of electricity...one of the bargains you get with your electric service.

Today, the average residential customer uses nearly twice as much electricity as he did in 1962. But the average cost of a kilowatt hour is 15% less now than it was ten years ago.

Bridge over troubled waters.

It's easy to forget that emergencies do happen. And when there is a crisis, you'll need a nest egg to fall back on.

The Payroll Savings Plan is one of the easiest ways to make sure you've something saved for when you need money fast. When you participate in the Payroll Savings Plan where you work, an amount you designate will be set aside from each paycheck and invested in U.S. Savings Bonds. It's an effortless way to build up a reserve.

And now there's a bonus interest rate on all U.S. Savings Bonds—for E Bonds, 5 1/2% when held to maturity of 5 years, 10 months (4% the first year). That extra 1/2%, payable as a bonus at maturity, applies to all

Bonds issued since June 1, 1970... with a comparable improvement for all older Bonds.

Let's hope there are no troubled waters in your future. But remember, emergencies don't always happen to the other guys.

Bonds are safe. If lost, stolen, or destroyed, we replace them. When needed, they can be cashed at your bank. Tax may be deferred until redemption. And always remember, Bonds are a good way to save.

AUSTIN — Most homeowners are expected to get a big break on insurance rates next year. Exceptions will be those who live in the 27-county Gulf Coast area.

The industry-oriented Texas Insurance Advisory Association recommended the State Board of Insurance reduce by 17.7 per cent extended coverage (hail, windstorm, vandalism, etc.) rates and by 16.2 per cent homeowners' rates in the North-Northwest area. That includes most of the Panhandle and South Plains.

Association recommendations for the big Central Inland territory (Dallas, Ft. Worth, San Antonio, El Paso, Austin areas) included a 12.1 per cent decrease in extended coverage and 10.9 per cent reduction in homeowners' premiums.

The Seacoast territory (Beaumont-Port Arthur, Houston, Galveston, Corpus Christi and Brownsville areas) would get a 17.5 per cent hike in extended coverage premiums and an 8.3 per cent increase in homeowners' policy rates.

All territories would benefit from an Association proposal to reduce fire insurance rates statewide by 7.7 per cent.

An Association spokesman estimated total savings of \$6 million for extended coverage and \$9.8 million for homeowners insurance in the Central Inland territory. He calculated increases of \$8 for extended coverage and 5.9 million for homeowners rates in the Seacoast territory.

About 500 insurance agents who attended the Board hearing on the proposals expressed approval but loudly protested another recommendation by the Association to standardize their commissions.

The Board staff is awaiting directions as to whether to calculate new rates on its own formula or the new recommendations.

COURTS SPEAK — Texas Supreme Court agreed a re-trial is in order for a lawsuit against Union Carbide Company as a result of an explosion which killed two and injured two.

The Court of Criminal Appeals held a San Antonio man cannot complain about exclusion of blacks from his murder trial jury since he agreed to the exclusion himself.

The Third Court of Civil Appeals held property owners in Wylie County School District should have the right to join the Abilene School District.

The Supreme Court threw out a district court injunction pre-

venting a State Bar grievance committee investigation of complaints against a former Hill County district attorney.

A Houston Court of Civil Appeals decision that heirs of a man who died in a Waller County Hospital after an auto accident should get a full trial of a malpractice suit against a doctor who treated the wreck victim was upheld by the State Supreme Court.

AG OPINIONS — Deputy constables are authorized to carry guns only after they have completed a minimum amount of training, Atty. Gen Crawford C. Martin held.

Matrin's opinion, requested by Brazos County Attorney W. T. McDonald Jr., also stated that their reserve deputy constables serve without pay at pleasure of the constable within the period of time authorized by the county commissioner's court.

Martin reached these conclusions in other new opinions:

Harris County can operate a mental health center for the state but cannot change it into a county department by commissioner's court resolution.

Parks and Wildlife Department can spend other money for park expansion than that set out in Item 10B of the appropriations bill.

A Beauty operator may offer cosmetology services in a barber shop and may operate a barber shop under general supervision of a Class A barber, but barber may not operate a beauty shop without a cosmetology license.

A district attorney who applies for retirement on a certain date fixes the date his office is vacated.

GAS PROBLEMS TOLD — Natural gas supplies are dwindling and producers are not meeting agreements, the Railroad Commission was told in a hearing last week.

The Commission is studying the possibility of setting priorities for gas distribution when there is short supply.

One pipeline company claimed a chief supplier delivered little more than half the gas it agreed to provide. A company spokesman suggested homes and schools get first priority on the gas supply available, with second priority allocated to generation of electricity for domestic consumers.

HORSE RACING REVIVAL? — A Senate committee is conducting a survey, results of which admittedly may be used to bolster a new drive for pari-mutual horse race betting.

The Senate Horse Racing Study Committee sent out 5,000 questionnaires to assess the horse industry and its economic impact on Texas.

Among questions asked of the horse owners and riding equipment suppliers is whether pari-mutuel wagering would expand their operations and how local lawmakers would vote on the issue.

The Committee vice-chairman said results of the survey "could be used to build an economic case" for the wagering on horse races. A meeting of the panel is slated here December 14 to hear opponents of racing and pari-mutuel gambling and to receive a report on potential state revenue from legalized wagering. Committee heads said a constitutional amendment would be necessary to revive pari-mutuel betting on the races.

HOW TO PICK UP \$5 MILLION — Texas could gain \$5 million a year in delinquent sales taxes by changing collection procedures in the comptroller's office, a Senate interim study committee has been told.

Actually, an Illinois tax expert estimated, the state could collect \$8 million more each year, but hiring of an additional 200 state sales tax auditors would take about \$3 million of the gain.

An attorney general's representative said Attorney General Martin wants to require Texas

businesses to post bond to insure payment of the sales taxes they collect.

POLLUTION MONEY MAY BE LOST — Texas may get only half the federal funds it counted on to help build new sewage treatment plants, State Water Quality Board Chairman Gordon Fulcher stated.

A new Federal act, said Fulcher, would cut Texas' allocation to \$55.4 million for fiscal 1973 for treatment plant aid, as compared with \$106.3 million for fiscal 1972.

Fulcher said the loss would "hurt a whole lot of cities and towns in the state" particularly smaller communities which depended on federal help (up to 75 per cent) to finance the plants.

SHORT SNORTS
Atty. Gen.-elect John Hill has pledged to head up a "strike force" of lawyers to fight organized crime in Texas.

The State Bar came up with a plan of prepaid legal services. A seven-months' survey has been initiated by the U. S. Department of Agriculture to detect citrus blackfly infestations in the Lower Rio Grande Valley.

Musicals At Clyde Not to Re-Open

CLYDE — Walter Waggoner, manager of the Clyde Country-Western Musical, has announced that the musical is now closed after a run of two years. The musical has been postponed since July due to the fact that building repairs were not completed, however, it is now learned that a building is not available and the musical is without a place to meet.

Mr. Waggoner stated that he regrets to make the announcement and extends his thanks to the fans for their loyalty and encouragement in promoting the country-western musical that was enjoyed by so many people.

The show was open to the public, with no admission, like so many held in our county. Large crowds are reported to attend the musicals and are very much enjoyed by country-western music fans.
