A PLEA FOR PROGRESS.

An Interesting Letter From a Nacogdoches Boy.

The following letter will be read with interest by The Sentinel readers:

Austin, Tex., Feb. 26.—Mr. Giles M. Haltom: Dear Giles—I have read with much interest the efforts being made by the people of Nacogdoches to secure the Baptist College, and I wish to contribute my mite to this most worthy cause, so you can put me down on your list for \$10. I think it would be a great calamity for the town to lose this College, and will give you a set-back that you will not recover from for years to come. It will not only pay from a financial standpoint, but its refining influence and moral atmosphere will be of greater value than all the gold and silver, and I sincerely hope that your efforts may be crowned with success.

I certainly wish I could be there and put in a vote for

the water works, but I hope my vote will not be needed and that the old town will take one more step up the ladder of progress.

We always look forward with the greatest of pleasure to the coming of The Sentinel. It is like getting a new letter from home every day.

With best regards, beg to remain, Your friend,
W. O. Crain.

Protecting His Pie.

County Treasurer Edgar Thomason was in Garrison Wednesday circulating a petition among the tax payers asking that the treasurer's commission be retained at the present price. It seems that the commissioner's court have become very economical and are making an effort to cut down the treasurer's salary. Charity should begin at home. Let the commissioners slice off a piece of their own pie, before taking Edgar's dinner away from him. Only one man in Garrison failed to sign the petition.—Garrison Gleaner.

EXONERATED BY SENATE.

The House to Vote on Bailey, Matter Today.

Houston Chronicle.

Austin, Texas, Feb. 25.—The senate of Texas today placed a crown of honor and glory on the head of Senator Bailey, and climaxed the farce with applause.

A majority of the senate investigating committee offered a resolution asking the senate for authority to send a subcommittee to examine the books of the Waters Pierce Oil Company and secure the testimony of H. C. Pierce before closing the so-called investigation of Bailey.

This was met with a substitute signed by fifteen senators declaring the investigation at an end, as all the testimony introduced had completely and overwhelmingly vindicated and exonerated Bailey of every charge made against him affecting his personal or official integrity and that Bailey at all times had been an able, honest and courageous representative of the people, and loyal and faithful to their interests, etc.

This substitute was adopted in lieu of the original resolution by a vote of 15 to 11.

Texas Five Million Club.

The Sentinel is in receipt of a complimentary certificate of membership in the Texas Five Million Club, sent through the kindness of G. L. Rockwell, the general manager. This club, it will be remembered, was incorporated some time ago under the laws of Texas, and it is doing a great work in placing before the citizens of other states the wonderful resources of Texas. To do this, however, requires funds, and every patriotic and enterprising Texan ought to contribute his mite to the success of the enterprise. The only source from which these funds are obtained is through voluntary subscriptions to membership, the fee being only \$10 per year. There are no dues. Nacogdoches should furnish at least 100 members to this club, and thus help swell the population of Texas to 5,000,000 by 1910.

Estimating that there are as many men eligible to road duty as there were poll taxes paid, and assessing them at \$9.00 each, as the new law provides, over thirty thousand dollars will be raised from this source alone for road repair in Shelby county. Add to this the services of the convicts and vehicle tax and the sum will aggregate something in the neighborhood of \$50,000. With a source of revenue, properly directed, Shelby county should soon have macadamized roads and graded branches—but will

AFTER DELINQUENTS.

Tax Collector Martin Received Letter From Comptroller.

County Collector Martin announces that unless those persons who are on the delinquent tax roll for personal property make prompt settlement with the tax collector's office that their property will be seized and sold for taxes.

The tax collector is in receipt of a communication from Comptroller J. W. Stephens, which has been addressed to all tax collectors in the State, advising them as to the law in the case and instructing them to proceed against delinquents. The communication says in part:

"You will observe that the law requires you to seize, levy upon and sell personal property of any person who fails or refuses to pay his taxes on real or personal property or both, by January 31, and this circular is sent you at this time in order that you may be prepared to comply with the law before March 31, at which time the law requires you to make up your report of delinquent taxes of annual settlement."

The tax collector also stated that many lawyers and insurance agents are delinquent in payment of their occupation taxes, and that unless a settlement is made within a reasonable time the matter will be referred to the county attorney and prosecutions instituted.

Announcement.

Having associated ourselves together for the purpose of engaging in the mercantile business, we deem it our duty to return to our late employers a word of thanks and hearty good wishes.

Our Mr. Thomas has been in the employ of A. Lambert the past 14 years, and in all that time there has been nothing but the best of feeling and perfect harmony between them. And in severing his connection with Mr. Zeve he can but say that he is indebted to that splendid merchant for whatever knowledge he has acquired of the mercantile business, and is extremely thankful to him for the many kindnesses done and cheering and encouraging words spoken.

And our Mr. Richardson, who is equally well known to the people of Nacogdoches and this trade territory, has also a very kind and tender feeling toward those with whom he has been associated in the mercantile business during the past seven years in Nacogdoches. Especially does this feeling exist toward his last employer, Mr. Julius Eichel, with whom he has been associated during the past year, and who has reposed in him the most implicit confidence. If it's a Buggy you want, see us. We sell more buggies than any firm in East Texas. We buy for spot cash in full car load lots. In so doing we save at least \$6.00 on the buggy freight, and buying direct from the factory in the quantity we do, there is no one that buys cheaper than we. For the same grade buggy we can sell it to you for at least \$5.00 cheaper than almost any one else.

Died in Chicago.

City Marshal Spradley received a telegram from an undertaker in Chicago this morning, stating that the remains of Dr. Johnson would leave Chicago Monday night for Nacogdoches via Wells Fargo express.

Dr. Johnson was a young colored man, the son of Ras Johnson, a well known negro farmer, living near Appleby. He was attending a medical college in Chicago when he died.

This is the second son that Ras has had to die while attending that medical college.

Joe Reindl came up from Lufkin yesterday afternoon to look after his interests here. Mr. Reindl stated that he has not let the contract for his new building, and that he had not yet decided whether he would make it two or three stories in height.

THE prospects of securing the Baptist college for Nacogdoches are exceeding fine.

THE town that plants schools and colleges in its midst plants a pillar of progress that time cannot efface.

THERE are two reasons why you should be proud that you are a citizen of Nacogdoches. One is because it is the best town in East Texas, and the other is it is going to be a whole lot better. Get busy and keep up with the procession.

NACOGDOCHES is growing some. A \$30,000 hotel just completed, a \$15,000 Methodist church to be built, a \$50,000 system of water works and a \$50,000 college in favorable prospect, and a solid block of brick buildings to be rebuilt, to say nothing of smaller enterprises, is a pretty good starter for the second month of the year 1907. Yes, Nacogdoches is doing pretty well, thank you.

THE editor of the Center Advocate relives the curious bump of some of his friends in this way: "The Advocate editor is afflicted with a very large black eye, and his friends have asked a great many questions about it. In order to save time we have decided to publish the facts about that eye, which briefly stated are as follows: We undertook to lick a large, well-made gentleman from Dreka, Texas. We did not lick him. That's all."

ANDERSON county bids fair to rival Nacogdoches in the culture of tobacco. One thing can be said in all truth, Nacogdoches sends out a fine cigar.—Rusk County News.

Several counties in East Texas are threatening to rival Nacogdoches in the culture of tobacco, but they all fall down when it comes to showing the goods. Nacogdoches is far in the lead in the production of high class shade tobacco, and in the manufacture of cigars this city has no competitor. Still The Sentinel says, plant more tobacco.

THE text book bill pending before the Texas Legislature should be amended so as to require that all text books used in the Texas public schools should be printed in the state. This work can be done in Texas as well and more cheaply than elsewhere, and it should be. There is absolutely no good reason why the people of Texas should submit, year after year, to sending hundreds of thousands of dollars out of the state to enrich and build up outside printing houses when Texas has printing establishments fully equipped to do the work. "Keep Texas money in Texas" is not only a patriotic motto, but a just and sensible custom that ought to be more extensively fostered and encouraged. Texas school books should be printed in Texas.

CULBERSON FOR PRESIDENT.

The following from the Washington Herald will be read with interest by all Texans:

"A quiet, but earnest and determined movement is about to be started to present Senator Charles A. Culberson to the country as available presidential material for 1908. As yet the movement is nascent, but there is excellent reason to believe that it will be given lively impulse within the next few weeks. It may be that the suggestion will take definite form and direction before this session of congress expires. It has been already discussed somewhat broadly by the democrats in congress, and it is not unlikely that before they depart from Washington for their homes a tentative program will have been decided upon."

"It can be stated as a fact and not as a mere surmise that the proposal to sound the country thoroughly on the two chief questions involved will be weighed carefully this week by democrats of National influence, and upon the result of these informal conferences will largely depend the future action to be taken."

"These two questions are: 1. Is the time propitious for the nomination of a Southern democrat? 2. Can William Jennings Bryan be brought to a stern realization of the political conditions that are apparently still unpropitious to his success as the democratic standard-bearer?"

Whether or not the people are convinced that Mr. Bryan is an unpropitious candidate, the fact still remains that the time has come when the south can safely furnish the standard bearer of the Democratic party for president. So far as The Sentinel is concerned, it is convinced that W. J. Bryan is the greatest man in the nation today, and we further believe that he can be elected in 1908.

WHAT do you think of state senators who declare that the safety of the government is in jeopardy when newspapers are allowed to make a contract with a railroad for \$100 worth of mileage books and pay for same in advertising? And yet some of those very fellows want a law providing free passes for themselves during their term of office.—Pittsburg Gazette.

We think, or at least we fear, that unless the newspaper men of Texas get together and as one man put their foot down hard on some of these peanut politicians, they will eventually attempt to prevent farmers from riding their plow horses to and from the field.

NEITHER dead nor sleeping is Nacogdoches, says The Sentinel. Well, does it ever Cat-Nap?—Austin Statesman.

No, the old town does not even Cat-Nap. But some of her citizens have Rip Van winkle skinned by several decades.

EVERY citizen of Nacogdoches county should contribute what he can to the Baptist college fund. Remember, this school is not a local affair.

The Legislature vs. The State Press.

Del Rio, Texas.—I found the following paragraph in the Pearsall Leader, and as it touches upon a topic that is somewhat vital to the press generally, and the country press in particular, I am sending it in for reproduction, with a few remarks upon the history and the origin of the anti-newspaper policy of the Texas legislature. The Leader says:

"There are a few misrepresentatives both in Congress and at Austin who, in the vernacular of the streets, have it in for the country newspapers, and never miss an opportunity of handing them the smutty end of the poker. These same gentlemen, if they had the power, would throttle free speech and abolish the free press. And, before God, I don't blame them. The less that's said about them, the easier it will be to hold on to their jobs. I never knew a rascal in my life that didn't have it in for the newspaper. They don't like to have lime light flashed on their dirty lives. There are several measures pending in Congress and the State Legislature that can be construed only as a slap at the country press. Newspaper people are asking no special favors of anybody, but we do insist that, as business men, we ought to be allowed to run our own affairs like other people, without the nonsensical intervention of a lot of muton headed pot house politicians. If some of the provisions now pending become laws, I predict there will be more new faces in the next assembly than has been in many years past."

I was especially impressed with the comment of the Leader because I know the editor, who is a thorough newspaper man and an able writer, a profound thinker and a striving advocate of right. He is Dr. H. S. Robertson, formerly editor and proprietor of the Grapeland (Houston county) Herald, and is well known among the East Texas press gang.

This antipathy on the part of the legislature toward the press of Texas is no new thing. It dates away back to the Roberts Administration, along about the 18th legislature. It was about that time that the first, and in my opinion the severest, blow ever aimed at the country press was given it. Up to that time newspapers were allowed \$2.50 per tract for publishing the advertisement of delinquent tax sales, but the 18th legislature, if we mistake not, reduced this fee to 25 cents a tract. Why this was done has never been explained satisfactorily to the newspapers, because the fee in the first instance was not too much, as every newspaper man would affirm who is competent to make figures on newspaper work. Fees for all other advertisements required by law to be published in the newspapers were reduced in like proportion. This fee has never been increased, although the publisher is now required to give twice as much space to the description of each tract. Formerly the lines did not extend across more than two columns; now they extend across four columns, and sometimes five. Under the present law the printer gets

nothing for about half the work he does with reference to tax suits, unless the commissioners court sees fit to pay him out of the County's funds.

This knocking against the press has gone on incessantly and relentlessly since the 18th legislature until it seemingly has about reached the limit and has resulted in a serious breach between the legislature and the State press. It is not likely that the chasm will ever be bridged; certainly not as long as the legislature displays such pronounced aversion to the press as has been manifested during the sessions of the 29th and 30th legislatures. Haltom.

STRAWBERRIES, green lettuce, carrots and green onions are being sold by the grocers in Nacogdoches now, while the people of the frozen North are living on dried peas. Such is life.—Nacogdoches Sentinel.

There is not much for The Sentinel to boast of in the above. Nature has given these things to the people of Nacogdoches, and they are to be congratulated. Now, if the article had read that, on account of the adaptability of the soil and the climate of the Nacogdoches locality, the people were shipping to the frozen zone of the North green lettuce, carrots, strawberries and green onions, one would not only have had information as to the soil and climate, but as to the energetic and progressive citizens of that who had agreed to marry that Lucindy's name be strick-

den for the North in the winter time. What we need in this State is money at all seasons of the year, and when we get it from the garden in the winter it is our fault if we do not have it all the time.—Dal-Gal-News.

The Sentinel was not boasting of the fact that we of Nacogdoches are more fortunately situated than our northern friend and brother, but merely calling attention to our superior natural advantages. It is true that we in Texas need money at all seasons of the year, but it is also true that the gardens in the winter, the truck and tobacco and fruit in the spring and summer, the corn and cotton and other crops in the fall, and the lumber industry the whole year round keep money plentiful in the Nacogdoches country the whole year round. As evidence of this statement, is cited the fact that there is over \$700,000 on deposit in the two Nacogdoches banks now, and most of this belongs to farmers and truckers.

Wanted License Changed.

Jim Woodson, a young colored man, secured a marriage license from County Clerk Spears several days ago to marry Mary Lucindy Garner. Saturday Jim returned with the license, stating that Lucindy had gone square back on him, but since coming to town he had found another girl—Cora Garrett—progressive citizens of that who had agreed to marry him. He therefore asked that Lucindy's name be strick-

en out of the license and that of Cora's inserted. County Clerk Spears informed him that he could not do that, but that upon payment of the regular legal fee he would issue another license. This the young negro agreed to, and he paid the entire \$1.50 in nickels. He then escorted his bride into the county judges' office, and Judge Rateliff tied the knot.

Liberal Way in Which Mi-o-na Stomach Tablets are Sold by Stripling, Haselwood & Co.

If a friend should tell you that he would pay the doctor's bill if he did not cure you, would not it impress you with the skill of that physician? It is really in this way that Stripling, Haselwood & Co. sell Mi-o-na stomach tablets, guaranteeing to refund the money if Mi-o-na does not cure.

If you have any of the usual symptoms of indigestion and weak stomach, such as

- | | |
|-----------------------------|---|
| Offensive Breath | Discharge from the nose |
| Dryness of the nose | Stoppage of the nose at night |
| Pain across the eyes | Aching of the body |
| Pain in back of head | Dropings in throat |
| Pain in front of head | Mouth open while sleeping |
| Tendency to take cold | Tickling back of the palate |
| Burning pains in the throat | Formation of crusts in nose |
| Hawking to clear the throat | Dryness of the throat in the morning |
| Pain in the chest | Loss of strength |
| Stitch in side | Spasms of coughing |
| Loss of Flesh | Cough short and hacking |
| Variable appetite | Cough worse nights and mornings |
| Low spirited at times | Loss in vital force |
| Raising of frothy mucus | A feeling of tightness across upper part of the chest |
| Expectorating yellow matter | |
| Difficulty in breathing | |
| Frequent sneezing | |
| Huskiness of the voice | |

If you have any of these symptoms use Mi-o-na stomach tablets.

They cost but 50c a box; nothing if they do not cure Stripling, Haselwood & Co. are the local distributors.

Don't Let Talk Take the Place of Test

Don't let anyone's prejudice or selfish opposition convince you that any of the "Triangle A" brands are not better than any other cigars sold at the same price.

That's no way to judge.

You can test it for yourself, and you are the only one who knows when the cigar suits you.

Smoke any "Triangle A" brand and compare it fairly with any other cigar sold at the same price.

We are willing to stake the success of our whole business on public opinion founded on this test.

The experience which has been combined in producing the American Cigar Company's cigars was acquired from the operation of nearly 100 of the most famous and successful factories in Cuba and the United States. And processes of proper refining and scientific blending mean much to every smoker.

You can bank on the "Triangle A" sign every time. No more raw, green, bitter tobacco in your cigars!

Is that worth the trouble?

The "Triangle A" is the mark that protects you.

MAMMOTH ESTABLISHMENT.

The Mayer & Schmidt Dry Goods Business is Immense.
The Mayer & Schmidt dry goods establishment in Nacogdoches has long been admittedly the largest enterprise of the kind in East Texas, but recent improvements and additions now place this concern among the largest dry goods establishments in the State.
The immense business of this firm now occupies two large two story buildings, a wholesale department having recently been added.

The building occupied by the retail department, on the corner of Main and Fredonia streets, is 65x100 feet, two stories high, and both floors are crowded with goods. In this branch of the business are about 25 employees, salesmen, salesladies, porters and delivery men. The entire first and second floors are divided into departments, as follows: A dry goods department, with seven clerks; notions department, two salesladies; shoe department, with two salesmen; clothing department, with five salesmen. In the office are three office men, one cashier, besides Mr. John Schmidt who has supervision of the entire business.

On the second floor are the carpet and rug department, millinery, dressmaking and ladies' ready to wear departments. Miss Nora Evans has charge of the millinery department, assisted by Misses Laura Munsell and Rosa Craven. Miss Bertha Carnahan is in charge of the ladies ready to wear department, while Miss Parker has control of the dress making department.

The wholesale department occupies the two floors of the building 65x80 feet, fronting on North Fredonia street, and a full and complete line of dry goods is carried in stock. Any one passing through this department would be convinced that it is no longer necessary for country merchants to go to Dallas, Houston, St. Louis or Chicago for their stocks of dry goods, as they can be supplied with complete stocks by Mayer & Schmidt at Nacogdoches. Messrs. B. M. Isaacs and Henry Schmidt have charge of the entire sales business of both the wholesale and retail departments, with Mr. W. L. Greer, traveling representative, sending in the orders from merchants in this trade territory.

OLD WELL NO MORE.

The Ancient Land Mark Has Been Filled Up.
The big well in the center of the public square has gone the way many other old land marks that once existed in the city of Nacogdoches and is no more. Street Commissioner Peterson completed the task of filling it up today, and the ground is now ready for the land scape gardner to lay out the plans for the little park.

This well was dug by Mr. Frances Rusche in the summer of 1860, and it was 47 feet deep and 7 feet in diameter. Mr. Voigt was mayor at the time the well was dug. Soon after it was finished the civil war came on and so disturbed the citizens of the town, many of whom left home and family to fight for their property and rights, that Mr. Rusche never presented his bill to the council for his work. After the war the city corporation was abolished for several years, and Mr. Rusche never received his pay until a short time before his death about ten years ago.

The well was curbed with curved brick, which were burned by S. M. Orton, grandfather of the proprietors of The Sentinel, and in filling the well up, Street Commissioner Peterson saved about 1500 of these brick. The cost of filling the well up will not exceed \$20, though it was estimated that the cost would amount to at least \$50.

"I am not feeling very well." "I am so nervous it seems as though I should fly." "My back aches as though it would break."
How often do you hear these significant expressions from women friends. More than likely you speak the same words yourself, and there is a cause.
More than thirty years ago Lydia E. Pinkham of Lynn, Mass. discovered the source of nearly all the suffering endured by her sex. "Woman's Ills," these two words are full of misery to women than any other two words that can be found in the English language. Sudden fainting, depression of spirits, reluctance to go anywhere, backaches, headaches, nervousness, sleeplessness, bearing-down sensations, displacements and irregularities are the bane of woman's existence.
The same woman who discovered the cause of all this misery also discovered a remedy, Lydia E. Pinkham's Vegetable Compound made from native roots and herbs holds the record for a greater number of absolute cures of female ills than any other one remedy the world has ever known and it is the greatest blessing which ever came into the lives of suffering women.
Don't try to endure, but cure the cause of all your suffering. Lydia E. Pinkham's Vegetable Compound at once removes such troubles. The following letters prove this:

Prospective Candidates.

The campaign for city officers is beginning to warm-up, and the prospects are that before the election in April it will be much warmer.

There are to be elected a city marshal and three aldermen, but so far only candidates for city marshal have begun to get into the limelight.

Mr. J. M. Spradley states that at the proper time he will announce for re-election, and Mr. H. L. Turner has about consented to yield to the solicitation of friends and also make the race for marshal. It is also said that there will probably be one or more candidates for this position.

The terms of Aldermen Beeson, Floyd and Rull's expire at this time, but it is conceded that neither of these gentlemen will have opposition if they will consent to re-election.

Rising from the Grave.

A prominent manufacturer, Wm. A. Fertwell, of Lucama, N. C. relates a most remarkable experience. He says: "After taking less than three bottles of Electric Bitters, I feel like one rising from the grave. My trouble is Bright's disease, in the Diabetes stage. I fully believe Electric Bitters will cure me permanently, for it has already stopped the liver and bladder complications which have troubled me for years." Married.

Miss Jessie McQueen, a Lutkin young lady well known here, was married last week in Abilene to Mr. Howard Humphrey. Miss Jessie was visiting her sister, Mrs. Edgar Wade in Abilene and the wedding took place there.

Many congratulations are extended to Mr. and Mrs. Humphrey from Mrs. Humphrey's numerous Nacogdoches friends who knew and admired her as a beautiful girl with a sweet, lovable disposition.

Mrs. W. S. Ford of 1918 Lansdowne St., Baltimore, Md. writes: Dear Mrs. Pinkham— "For four years my life was a misery to me. I suffered from irregularities, suppression, terrible dragging sensations and extreme nervousness. I had given up all hope of ever being well again when Lydia E. Pinkham's Vegetable Compound was recommended. It cured my weakness and made me well and strong."

Miss Grace E. Miller, of 1211 Michigan St., Buffalo, N. Y. writes: Dear Mrs. Pinkham— "I was in a very bad condition of health generally, terrible, cramp backache and suffered from a feminine weakness. Lydia E. Pinkham's Vegetable Compound, cured me after all other medicines had failed."

What Lydia E. Pinkham's Vegetable Compound did for Mrs. Ford and Miss Miller it will do for other women in like condition. Every suffering woman in the United States is asked to accept the following invitation. It is free, will bring you health and may save your life.
Mrs. Pinkham's Invitation to Women.
Women suffering from any form of female weakness are invited to promptly communicate with Mrs. Pinkham, at Lynn, Mass. From the symptoms given, the trouble may be located and the quickest and surest way of recovery advised. Out of her vast volume of experience in treating female ills Mrs. Pinkham probably has the very knowledge that will help your case. Her advice is free and always helpful.

Released on Bond.

Laura Deckard, the colored woman who had been in jail the past week on the charge of murdering her husband, Kit Deckard, was given an examining trial before Justice F. D. Huston, who fixed her bond at \$300, which she gave and was released.

The examining trial developed the fact that the deceased was in the act of assaulting his wife with an ax when she fired at him with the shot gun. It was further shown that she did not take aim, but merely pointed the gun towards her husband and fired, and was astonished when she discovered that she had killed him.

man who votes for the works bonds will cast a for the interest of the ble citizenship of Nacogdoches.

THE Lufkin News has let out another button hole, and is now a six column folio. The News seems to be filling the town's "long felt want" most admirably.

AUSTIN is reported to have four schemes pending for the rebuilding of the big dam, either one of which, as the dutchman would say, is a good dam scheme.

It is announced that the new United States senator from Michigan began life by selling pop corn. So the pop corn politicians at last have representation in the senate.

WE could clip numerous items from our exchanges that show instances of satisfaction with municipal ownership of water works by bond issues in towns and cities, but none showing the benefits of private ownership.

THE Sentinel is in receipt of the Freshmen edition of the Texan, "a weekly newspaper published every Friday by the students of the State University." Lee G. Carter of Cushing is editor in chief and Miss Ethel Barron of Nacogdoches is one of the associate editors.

THE Arkansas legislature has passed a 2 cent passenger fare bill, and it has been approved by Governor Little. However, the signing of the bill was no little matter.—Nacogdoches Sentinel.

That's where you are dead wrong. It was a little matter. Little signed the bill and it was a little matter for Little to sign it.—Austin Statesman.

Which would indicate that the Statesman regards Governor Campbell's contention for a 2 cent passenger fare as a little matter.

THE legislature may find that it needs the newspapers before the pass fight passes.—San Antonio Light.

Even so; already a bill has been introduced to amend the constitution so as to increase the legislative salary.—Timpson Times.

Yes, and next year when at least four-fifths of the members of the present legislature announce for re-election, the newspapers in their respective counties will say not a word against their return to the legislature. Of all men on earth, the newspaper men are the most forgiving.

THE streets of the cities and towns of Texas are running over with prospectors. Many of them have taken to the woods.—Austin Statesman.

The bright young man who penned that paragraph may not have had Nacogdoches especially in mind, but his description fits the case here exactly. Prospectors are flocking to Nacogdoches from every direction and from several states, but on reaching the city they find that property has no fire protection and in many instances they flee to the woods and invest in the fertile lands of Nacogdoches county.

TO INCREASE SALARIES.
Representative Witherspoon wants to increase the salaries of members of the legislature. He has introduced in the house a joint resolution authorizing the submission to a vote of the people a proposed amendment to the constitution fixing the salaries at \$10 per day for the first 100 days of each session and after that not to exceed \$5 per day for the remainder of the session. While he proposes to increase the pay of the legislators he also proposes to greatly reduce the mileage. The mileage now is 20 cents, and according to his proposition as contained in his amendment, it is cut down to 3 cents by rail and 5 cents where there are no railroads.

NACOGDOCHES REBUILDING.
It is reported that the recent destructive fire, which was undergone by Nacogdoches may result in better things for the Stone Fort city. As soon as material can be laid upon the ground the construction of a new modern three-story office building will be commenced by Perkins Bros.

A contract has already been let by Joe Riendl for a two-story building on his lot, the second floor of which will be used as a modern lodge room. We are reliably informed that, in the event the water works bond issue carries at the election on March 15th, the entire block will be rebuilt during the coming spring and summer.—Lufkin News.

The News' informant, in order to have been regarded as still more reliable, should have stated that the entire block will be rebuilt this spring and summer whether the water works proposition carries or is defeated. That question is in no wise connected with that of rebuilding the burned block, nor is any other obstacle in the way so far. The Perkins building will only be two stories, however.

WHY THEY KICK.
Some of our farmers roar when anything is said in favor of a tax for working the public roads, but they are farmers as a rule, who buy both corn and bacon grown in distant states.—Tyler Courier.

That is putting the case in plain language, but it fits nine times in ten. It is also a noticeable fact that the greatest objection to increased taxation often comes from those who pay the least taxes.—Nacogdoches Sentinel.

As Senator Bailey would say, no, we will not be so rude, but really, it isn't so. The farmers of this state give in their property for taxation at about 75 per cent of its true valuation, while (in this county, at least) corporate property is assessed at a great deal less. It is the man with little or no property that gets the hot end of it every time and he has a right to kick. As a general thing the poor man pays his tax much more willingly than the rich. Let the rich people and the corporations pay all the taxes—for, after all, there can be no wealth, except that created by labor, and no matter who pays the money, the tangible value is created by the poor man who works.—Center Advocate.

ation comes from those who pay the least taxes. No patriotic citizen will refuse to bear his just portion of the burden of sustaining his government, and the contention that only the wealthy should pay taxes is dangerous argument. Let every tub stand on its own bottom.

Local Option in Shelby.
In conversation with the writer a few nights ago, Judge Perkins suggested that Shelby county should vote the new local option law and get the benefit of the late regulations to go with the C. O. D. legislation, and the genial judge is correct. The law to which we look for protection is the one that was in force when local option was voted in this county many years ago and the penalty only provides a fine, while the new law carries with it an imperative jail penalty.

When asked if we would have to dissolve our present local option to apply for the new the judge said not, that we would petition the commissioners court for an election and vote on the proposition as though we had never had such a measure in existence.

There is no doubt but that the measure would carry by an overwhelming majority, and the improvement in the system is worth the effort.

An occasional fine has no terror for the professional "bootlegger," but the majority of them would think seriously before taking any risk on the jail penalty. This clearly demonstrated in the decrease in the practice of "pistol toting" since a jail penalty was added to that law, and Judge Perkins says that "bootlegging" has almost ceased in the other counties of the district which are operating under the new law.—Center News.

As to Cotton Mills.
When a \$75 bale of cotton is made into spool thread it brings the manufacturers \$2,400, and it would be a \$50 bale at the factory close to the cotton fields.—Dallas News.

Allyet there are people who contend that cotton mills will not pay in the South, notwithstanding the fact that cotton can be shipped thousands of miles, paying the freight both ways, and the factory owners soon become millionaires.—Nacogdoches Sentinel.

If any one says that cotton mills will not pay in the South, he certainly has not heard of the mills of Georgia and the Carolinas. For within the last fifteen years the cotton manufacturing business of those States has grown so enormously that more than half of the exports of the manufactured goods to the Orient has come from there. If the business did not pay there would not have been such great increase in the number of mills and number of spindles. It should be said in this connection that Georgia and the Carolinas present the very best opportunities for the business, since the population of those states is thick and of the kind that can be adapted to cotton manufac-

CULBERSON'S BOOM.
A Mobile Man Pays the Texas Senator a Tribute.

The Houston Post's Washington correspondent wires that paper the following interview:

"I believe that if the democrats would nominate a man like Senator Charles A. Culberson of Texas to head their ticket next year they would have a first-class chance of electing him," said J. C. Rich of Mobile, Ala., to a Post reporter. "Senator Culberson represents the conservative element of the democratic party," he continued, "and although it is generally believed that no Southern man can be elected president, I am of the opinion that with a man like Culberson to head the ticket we would have an excellent chance of winning."

"Bryan is impossible. He would get fewer votes in the South than any other man the democrats could nominate. I have been a democrat all my life, but I have refrained steadily from voting for Bryan. He is altogether too radical. I believe that the city of Mobile, Ala., is more representative of true democracy than any other city in the country, and I know of hundreds of democrats there that refused to vote for Bryan who would gladly cast their votes for Mr. Culberson."

"His father, who was in the house of representatives years ago, was the best lawyer, perhaps, that ever sat in the body. I know this is a strong statement, but I believe a better lawyer never lived than Senator Culberson's father. He was a native of Alabama, and no man in that state was more highly regarded. His son, Senator Culberson, I do not know personally, but he is very much of the same sort that his father was, I believe—safe, conservative and sound—the one man in the democratic party that, in my opinion, would have a good chance of being elected president."

"I am not alone in this opinion. I have heard his name mentioned in many different cities and on railroad trains, and I really believe that a sentiment is crystallizing in his favor among the conservative democrats. Stranger things have happened than would be the nomination of Mr. Culberson." Mr. Rich is one of the most prominent attorneys in the South. When he was 27 years old he was elected mayor of Mobile, but he did not aspire to higher political honors. For twenty years he has been practicing law, and is now counsel for two large Southern railroads.

A district meeting of the Knights of Pythias lodge in this district will be held at Nacogdoches on the 15th of March and an effort will be made to have some of the grand lodge officers present to confer the past chancellor's rank on all eligibles. The Nacogdoches lodge is making arrangements to show the visiting brethren the time or C. H. Martin Sec.

A CASE IN POINT.
Some Strong Argument From One Who Knows.

Mr. T. L. Cornelius of Jacksonville, a well known traveling man representing the American Snuff Company, was in the city a few days ago.

Mr. Cornelius is a native of Georgia, and for many years was a citizen of Rome, that state. In fact, he served two terms as a member of the city council of that city, and was for four years chief of the fire department.

In speaking of the contest now on in this city for a bond issue for water works, Mr. Cornelius said that he could not understand why any patriotic citizen—any citizen who has the best interests of the city and its people at heart—could oppose the proposition.

"Our city of Rome" said Mr. Cornelius, several years ago voted a bond issue of \$100,000 for a system of water works, despite the fact that some of the most prominent citizens opposed it. After the system had been in operation about ten years, it became necessary to enlarge the plant. I was then a member of the city council, and we decided to issue \$150,000 in bonds to make the needed improvements. Strange as it may seem, there was not a citizen who opposed the new issue of bonds, notwithstanding the fact that ten years before that some of the most influential citizens fought the original issue to the bitter end. Now the city of Rome has one of the best water systems in the south, and the city derives a handsome revenue from its proceeds. And what is more to the point, the citizens of Rome would not tolerate a proposition to sell their water works system to a company of individuals, even though they were home people."

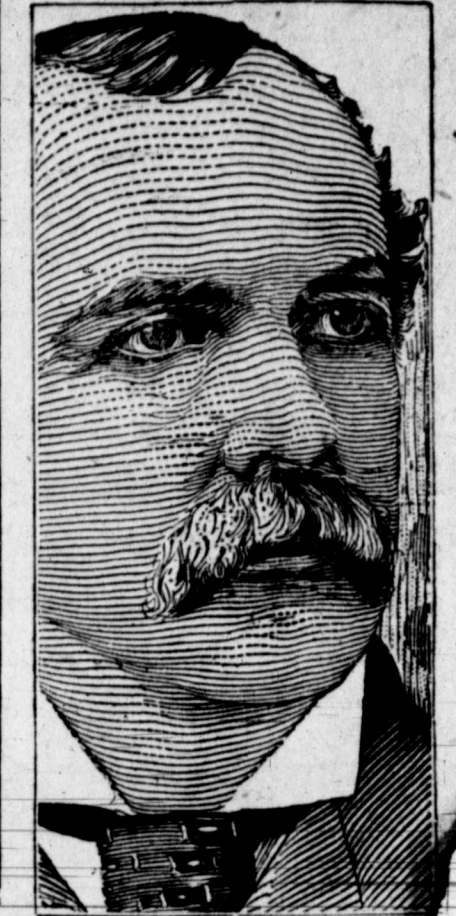

Speaking of his present home town of Jacksonville, Mr. Cornelius stated that though the water system there had been in operation only about seven months, it was already more than paying expenses, and the citizens would not listen to a proposition for the city to sell out to a corporation or to a change to private ownership.

IN A CRITICAL CONDITION.

County Judge Patchiff Has a Stroke of Apoplexy.

From Tuesday's Daily:

Judge W. G. Rateliff was suddenly afflicted with a stroke of apoplexy last night about 8:30 o'clock, while seated in a chair at his home.

The judge had presided over the commissioners court during the day Monday, and went to his home about 6 o'clock in the afternoon. He appeared to be in his usual good health, and no one anticipated his sudden affliction. He ate a hearty supper and was sitting before the fire, when he motioned to his wife to come to him, pointing to the side of his face.

When Mrs. Rateliff reached his side she discovered that the judge was unable to move or speak. He was lifted tenderly to his bed and physicians were summoned. The usual restoratives were administered, and at 2 o'clock this afternoon he was reported to be resting easy, though his condition is pronounced critical.

His son, Edgar Rateliff, at Vinita, I. T., was wired as to his father's condition, and requested to come at once.

The commissioners court, which had met in called session, had not completed the business for which it had been called together to transact, owing to the sudden illness of Judge Rateliff. Commissioners Muckleroy, Sittin

What Next?

Spring is here; school is almost out, and you are asking, what next? Get your pencil and let us figure over the matter:—Rain or shine, idle or busy, the cost of living remains the same throughout the year. Bills must be paid the same when you are idle as when you are employed. The money with which they are paid is the price of what you have to sell. You are in the market with brains; will you sell to the highest bidder?

What has your time been worth during the last six months? What will it be worth during the next six months? A year is the standard measure of time; your salary per month is the earnings of a year divided by twelve months—no more, no less.

Six months teaching in the public schools at a salary of \$60 per month is \$360 per year. \$360 divided by twelve months gives a salary of \$30 per month. Ten dollars off for board leaves a net salary of \$20 a month—less than the wages of a common laborer, who has not spent a cent in preparation for his job.

\$60 for twelve months is offered. Who makes this bid for your time? We answer, The Commercial world. You are needed in business; will you accept the highest salary?

A salary of \$60 per month is \$720 a year. \$720 divided by twelve months is \$60 a

you have a net salary of from \$45 to \$50 clear, as compared with \$20 net salary at teaching. How can this difference in salary be secured? The answer to this question has been found by thousands who have completed a course in Bookkeeping and shorthand or bookkeeping and Telegraphy in Tyler Commercial College of Tyler, Texas, and are now enjoying salaries far in excess of the figures named above. The business world makes the highest bid for your brains. It's up to you. Time and board bills wait for no man. Vacation is here, and you can spend your time in acquiring a commercial education on the same number of dollars that would be required to support you at home.

Write for catalogue and ask about special inducements for teachers. The Tyler Commercial College, as you are perhaps aware, is one of the largest and most favorable known commercial schools of the U. S. Its 303 new enrollments during the month of January surpassed the enrollment of any other American business college during the same period of time. It is the merits of the famous Byrne systems which the school controls that has placed it in the lead. It is now securing positions for every graduate.

DIED FROM BURNS.

Sad Fate of a Young Lady Near Appleby.

Miss Emma Scroggins, daughter Mr. J. G. Scroggins, a well known citizen living four miles north of Appleby, was burned to death Tuesday evening.

The young lady was working in the field with her sister burning grass, when about 3 o'clock her clothing caught fire and were burned entirely from her body, there being no one near to help her but her sister. Her hair was burned from her head and the flesh was literally cooked.

The unfortunate young lady was carried to the house and a physician was summoned, but her condition was past all human aid and death came to her relief about 5 o'clock Wednesday morning.

Miss Emma was about 25 years of age, and was the idol of her family and counted her friends by the score.

Her remains were interred in Appleby cemetery this morning, a large concourse of sorrowing friends and relatives attending the funeral.

Mr. Mims states that Land Commissioner J. J. Terrell has prepared an amendment to Hon. S. M. He sank out of sight, and as he failed to come up again, it is supposed that he passed under the boat. His body had not been recovered late yesterday afternoon. The father of the boy had gone for help to bury an infant child that had died, and left him to run the ferry until he returned.

Mr. Spradley states that Hall and his boys are the best hands he has ever had on his farm, and he regrets the accident very much.

Citation.

The State of Texas. To the Sheriff or any Constable of Nacogdoches County, Greeting: Oath having been made as required by law, you are hereby commanded to summon H. A. Gray and J. W. Chambers by making publication of this Citation once in each week for four successive weeks previous to the return day hereof, in some newspaper published in your county, in the 2nd Judicial district, to appear at the next regular term of the District Court of Nacogdoches County, to be holden at the Court House thereof, in Nacogdoches, on the 3rd Monday in March, A. D. 1907, the same being the 18th day of March, A. D. 1907, then and there to answer a petition filed in said Court on the 19th day of July, A. D. 1906, in a suit, numbered on the docket of said Court No. 2287, wherein E. F. Box is plaintiff, and H. A. Gray, J. W. Chambers, D. H. Russell and J. D. Fussell are defendants, and said petition alleging that on June the 9, 1904, Defendant H. A. Gray executed and delivered to M. D. Stephenson his certain promissory note for the sum of \$100.00, with 10 per cent interest from date of note, payable annually. That on or about the 3rd day of Sept. 1904, the said J. W. Chambers made, executed and delivered to H. A. Gray his two certain promissory notes for the sum of \$102.00 each, with 10 per cent interest from date, payable annually, stipulating that if any of the deferred payments or interest thereon was not paid promptly when due then in that event all notes shall become due and payable at the option of the owner. That by the execution and delivery of notes the makers thereof promised and became liable to pay the said H. A. Gray the said sum of \$100.00 with interest thereon at 10 per cent per annum from date of said note, and if failure was made to make payment on the 9th day of June, 1905, then the note and interest became due, with an additional 10 per cent as attorney's fees, and the said J. W. Chambers notes for the sum of \$102.00 each, mentioned in each of his two said notes together with 10 per cent interest thereon from date due, the one on the first day of January, 1906, and the other on the first day of January, 1907, and in case the year's interest on both or either of said notes was not paid on the 3rd day of September, 1905, then both said notes and all interest thereon became due any day the same were demanded by the holder thereof, and 10 per cent additional as attorney's fees. That on the 3rd day of September, 1904, the said Stephenson and the said Gray, both for a valuable consideration, before said notes were due, transferred and delivered each of them to plaintiff, E. F. Box, and that he had no notice of any offsets, payments or discounts against said notes. That the interest on the said Gray note has not been paid, and that the principal of the Chambers notes have not been paid, and so he says that all said notes are long since due. That the said Chambers, in a trade with said Gray, assumed and promised to pay as a part of the consideration of property he was at that time buying from the said Gray, to pay off and discharge the said \$100 note. This promise of the said Chambers was among other things the consideration, causing the said Gray to execute and deliver a deed to the said Chambers, which deed is dated September 3, 1904, and said deed is in the possession of the said defendants and they are hereby notified to produce said deed for the purpose of showing said promise, etc.

Petition further shows that all said notes were given for part of the purchase money, at the date of the two different dates of said notes, and are a lien on the following described lots or parcels of land, to-wit: Lots Nos. 18, 19, 20 and 21 in block No. 74 in the town of Cushing, Nacogdoches county, and that Defendants Russell and Fussell are in possession of said property, holding same, under claim of right, the nature of which the plaintiff is not advised.

Plaintiff further says that though often requested, the defendants have failed to pay any part of said notes or any part thereof except the sum of \$49 paid on the note of the said Chambers due January 1, 1906.

Wherefore plaintiff prays that defendants be cited in terms of law, to answer herein, for judgment for the amount of said notes, interest, attorney's fees and all costs of this suit; for foreclosure of vendor's lien upon said property, and for all such other further and general relief as he may be entitled to receive. All of which facts more fully appear in plaintiff's petition now on file in this office.

Herein fall not, but have before said Court, at its aforesaid next regular term, this writ, with your return thereon, showing how you have executed the same.

Witness, R. W. Murphey, Clerk of the District Court of Nacogdoches County.

Given under my hand and seal, at office of said Court, at office in Nacogdoches County, this 19th day of July, 1906.

CATARRH BLOOD DISEASED AND SYSTEM DISORDERED

Catarrh is not merely an inflammation of the tissues of the head and throat, as the symptoms of ringing noises in the ears, mucous dropping back into the throat, continual hawking and spitting, etc., would seem to indicate; it is a blood disease in which the entire circulation and the greater part of the system are involved. Catarrh is due to the presence of an excess of uric acid in the blood. The Liver, Kidneys and Bowels frequently become torpid and dull in their action and instead of carrying off the refuse and waste of the body, leave it to sour and form uric acid in the system. This is taken up by the blood and through its circulation distributed to all parts of the system. These impurities in the blood irritate and inflame the different membranes and tissues of the body, and the contracting symptoms of Catarrh. As the blood goes to all parts of the body the catarrhal poison affects all parts of the system. The head has a tight, full feeling, nose continually stopped up, pains above the eyes, slight fever comes and goes, the stomach is upset and the entire system disordered and affected by this disease. It is a waste of time to try to cure Catarrh with sprays, washes, inhalations, etc. Such treatment does not reach the blood, and can, therefore, do nothing more than temporarily relieve the discomfort of the trouble. To cure Catarrh permanently the blood must be thoroughly purified and the system cleansed of all poisons, and at the same time strengthened and built up. Nothing equals S. S. S. for this purpose. It attacks the disease at its head, goes down to the very bottom of the trouble and makes a complete and lasting cure. S. S. S. removes every particle of the catarrhal poison from the blood, making this vital stream pure, fresh and healthy. Then the inflamed membranes begin to heal, the head is loosened and cleared, the hawking and spitting ceases, and the constitution is built up and vigorous health restored. S. S. S. also tones up the stomach and digestion and acts as a fine tonic to the entire system. If you are suffering with Catarrh begin the use of S. S. S. and write us a statement of your case and our physicians will send you literature about Catarrh, and give you special medical advice without charge. S. S. S. is for sale at all first class drug stores.

RELIEF REFUSED.

What was intended to be an Interesting Case Ended.

The mandamus sought by Guy Graham, an attorney of Houston, against Lamar Lodge No. 189, Knights of Pphias, of that city, to compel them to receive him as a member of that organization, was upon a hearing before Judge W. P. Hamblen of the fifty-fifth district court refused.

The denial of the application for a mandatory writ brings to an end what was thought to be one of the most unique cases ever filed in the State of Texas. Judge Hamblen after hearing the argument of plaintiff himself, rendered his decision without giving counsel for the defendant an opportunity to present their side of the controversy.

The suit was filed on February 12, and in the petition the plaintiff alleged that the officers of the lodge had refused to admit as a member in an illegal way, and upon this allegation he based his application for a mandamus.

Don't Be Fooled.

"I was literally coughing myself to death, and had become too weak to leave my bed; and neighbors predicted that I would never leave it alive; but they got fooled, for thanks to God, I was induced to try Dr. King's New Discovery. It took just four one dollar bottles to completely cure the cough and restored me to good sound health," writes Mrs. Uncapher, of Grovertown, Stark Co., Ind. This King of cough and cold cures, and healer of throat and lungs, is guaranteed by Stripling, Haselwood & Co. druggist, 50c and \$1.00. Trial bottle free!

Shipped to His People.

E. E. Ling, an old man and a stranger, was found a few days ago in an old shack near the old Buchanan & Bailey mill, in the southern portion of the city in an almost dying condition with consumption. His case was reported to Rev. J. M. Robinson, president of the charity association, and he made application to County Judge Ratcliff for funds to ship the unfortunate man to his people at Alvin. Judge Ratcliff granted the request and Mr. Robinson bought a ticket and put the old man on the train yesterday.

This is one of the many commendable acts of charity that can be placed to the credit of the authorities of Nacogdoches and Nacogdoches county.

NEGLECTING THE LAW.

County Attorney Russell Calls Attention of Physicians to it.

The Commissioners Court has directed the attention of County Attorney Russell to the fact, as shown by the records of the county clerk, that the law pertaining to vital statistics is not complied with. In order that there may be no more violation of this law on the part of physicians, the county attorney requests that the law be published and thus put the doctors throughout the county on notice that they must comply with its requirements or be subjected to the penalty prescribed therein.

Section 2, of the act of 1903, creating a bureau of vital statistics, reads as follows:

"All physicians, surgeons or accoucheurs who may attend at the birth of a child, or in the absence of such attendance, either parent of the child, shall report the fact to the clerk of the county court, together with the name of the parent or parents, the sex of the child and the race to which the child belongs, and whether of foreign or native parents, whether still born or alive, within thirty days after said birth occurs, under a penalty of five dollars for each failure to do so; to be collected as other fines for misdemeanors are. All physicians, surgeons, accoucheurs and coroners cognizant of a death shall report the same together with the race, nativity, sex, age, residence, whether alien or citizen, and the cause of death, to the clerk of the county court within thirty days after the occurrence, under a penalty of not less than five dollars nor more than fifty dollars for each failure to do so; these data to be recorded as a part of the vital statistics of the county and State, and the clerk of the county court shall be paid by the county ten cents for each birth or death so recorded, and he shall report monthly all these data to the department of public health and vital statistics. In default of so reporting he shall be fined not less than fifty dollars for each offense."

Woman's Perfect Health.

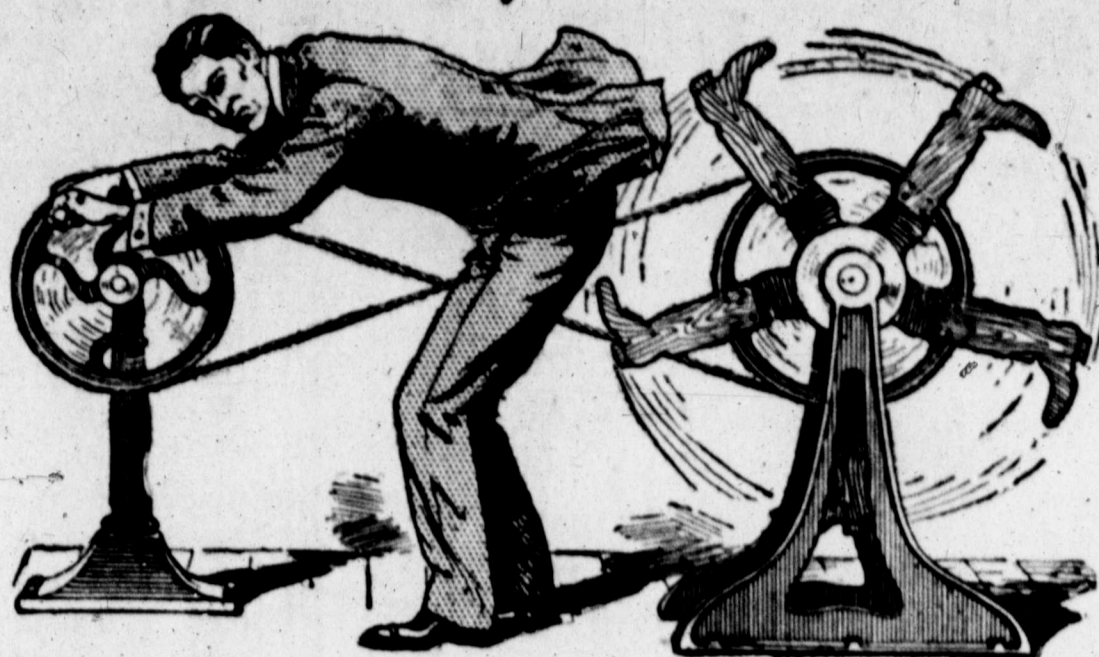

Cannot be maintained without the greatest care. From childhood to old age it should be guarded jealously by parents, husbands, loving friends.

New Firm.

J. E. Bonneville & Co. have opened up a new plumbing and tin shop in the Blount & Schmidt building, on Fredonia street. This firm will do all kinds of tin and sheet iron work, and cut, fit and furnish all kinds of piping for water or steam. In fact they will do anything in the line of plumbing and tin and sheet iron work.

The business is under the management of Mr. J. E. Bonneville, late of Dallas, who is a thoroughly competent and experienced workman.

This man bought a supply of tobacco without acquainting himself with the distinctive taste of SCHNAPPS Tobacco, which has the cheering qualities that gratify his desire to chew, and at less expense than cheap tobacco.

SCHNAPPS has been advertised in this paper so that every chewer has had an opportunity to get acquainted with the facts and know that drugs are not used to produce the cheering quality found in the famous Piedmont country flue-cured tobaccos, and that SCHNAPPS is what he ought to chew. Still there are chewers who accept other and cheaper tobaccos that do not give the same pleasure.

Some day they'll get a taste of the real Schnapps—they'll realize what enjoyment they've missed by not getting SCHNAPPS long ago—then they'll feel like kicking themselves.

SCHNAPPS is sold everywhere in 5 cent cuts, and 10 and 15 cent plugs. Be sure you get the genuine.

WHAT THE KIDNEYS DO.

Their Unceasing Work Keeps Us Strong and Healthy.

All the blood in the body passes through the kidneys once every three minutes. The kidneys filter the blood. They work night and day. When healthy they remove about 500 grains of impure matter daily, when unhealthy some part of this impure matter is left in the blood. This brings on many diseases and symptoms—pain in the back, headache, nervousness, hot, dry skin, rheumatism, gout, gravel, disorders of the eyesight and hearing, dizziness, irregular heart, debility, drowsiness, dropsy, deposits in the urine, etc. But if you keep the filters right you will have no trouble with your kidneys.

D. H. Goldberg, of Lufkin, Texas, says: "For several years I suffered off and on with dull aching pains across my back and I had much trouble with the too frequent action of my kidneys.

nearly every kidney cure on the market with no results, until an old travelling man recommended Doan's Kidney Pills to me. I bought a box and was helped considerably by its use. I continued taking the pills and since using them I have had only one slight pain. I take pleasure in stating that Doan's Kidney Pills is the best remedy of the kind I have ever used."

A Youthful Couple.

A young man 18 years of age applied to County Clerk Spears yesterday morning for a license to marry a girl of 14 years, but he not having an order from the parents authorizing the issuance of the license, Mr. Spears refused to issue the document. A brother of the girl accompanied the prospective groom, and the two assured the clerk that there was no objection to the marriage on the part of any one. Mr. Spears was obstinate, however, and insisted on having an order.

Though the parents live in the northwestern portion of the county, the young man rode post haste to them and securing their written consent, returned with it late in the afternoon and the license was issued.

The Sentinel records this incident more for the opportunity given to commend County Clerk Spears for his action than as an item of news.

Maud in Town.

A mule, tied behind a wagon and clad in a neat pair of harness, attracted much attention and amusement on the square this afternoon by her violent kicking. Improved Phone Service.

Many people were made glad yesterday by the familiar ring of the telephone, and hundreds of messages of congratulation passed over the wires to the hello girls. The company has 340 phones in operation today, and the electricians and linemen are hard at work making additional connections. It is expected to have the service restored to all patrons this week, and all new subscribers will be accommodated as fast as the men can do the work.

One noticeable fact is the service is greatly improved with the new plant, and Nacogdoches now has as good telephone service as any city in Texas.

Blue Eyes.

Lame Back.

This ailment is usually caused by rheumatism of the muscles and may be cured by applying Chamberlain's Plain Balm two or three times a day and rubbing the parts vigorously at each application. If this does not afford relief, a piece of flannel slightly dampened with Pain Balm, and quick relief is almost sure to follow. For sale by Kleas & Mast.
