OKLAHOMA DEMOCRATIC.

The Constitution is Adopted With Prohibition Clause.

Houston Post Special.

Muskogee, I. T., Sept. 17.

It appears that in the first election in its history, Oklahoma was lined up with the solid South, declared emphatically for prohibition and placed the stamp of approval upon the constitution and from all places available at this hour it appears that C. N. Haskell has been elected governor of the state by 25,000 to 30,000 over Governor Frantz. State-wide prohibition has undoubtedly carried by nearly 50,000. This places the state under constitutional prohibition and the constitution must be amended before a saloon can operate in the state. This will be a severe blow to the cities of old Oklahoma.

The constitution will be adopted by a tremendous majority. The legislature on the face of meager returns

available tonight will be democratic by two-thirds majority.

This means the election of Colonel Robert D. Owens and Senator T. P. Gore to the United States senate.

Union Meeting.

The regular quarterly meeting of the Nacogdoches county Farmers Union will convene in Nacogdoches Thursday, September 26. All locals are urged to be present as there is some important business to attend to. A. B. Meador, Co. Pres.

Rain.

The long looked for rain is falling and we must begin a fall crop. In a few days I will have a car of rust proof oats, barley, rye and wheat for winter pasturage. Call at G. H. King's, that is the place to get what you want and in any quantity. wd1

DOCK BAILEY INDICTED.

Grand Jury Returns Bill for Murder in First Degree.

The first bill of indictment found by the grand jury was returned into court today.

It was against Dock Bailey, the colored assassin of D. D. Owens, and charges him with first degree murder.

Bailey is still confined in the East Texas penitentiary at Rusk, where he will remain until brought here for trial. Though the date of his trial has not been fixed by the court, it will likely not be before the fourth week of the term, and not later than the fifth week, as the fourth and fifth weeks have been set apart for trial of capital cases.

District Court.

Owing to the fact that Judge Perkins was quite unwell yesterday afternoon, court was in session only part of the day, yet considerable business was transacted.

The Judge was able to be on the bench this morning. The following cases have been disposed of for the term:

J. E. Mayfield vs. Keith Lumber Co.; continued.

June C. Harris vs. Keith Lumber Co.; continued.

In the case of Mart Mason vs. Sarah Nichols and others, the commissioners appointed at a former term of the court to partition the property, were ordered to make reports to the court by October 15, or show cause why they should not be adjudged in contempt.

J. W. Payne, attorney in fact, vs. B. F. Durrett; continued.

John T. Lucas vs. R. M. Champion; continued.

Geo. F. Ingraham, administrator of the estate of Benet Blake, vs. Joe P. Clevenger; continued.

Mary Swift vs. Nacogdoches and Southeastern Railway company; dismissed on motion of plaintiff.

Mayer & Schmidt vs. W. W. Frazier; judgment by default for \$698.58, amount sued for, with 10 per cent interest.

Willie May McKnight vs. Thos S. McKnight; divorce granted and maiden name restored.

W. D. Morrison vs. Mary Morrison; divorce granted.

Married Sunday.

Rev. J. M. Robinson performed the wedding ceremony of J. W. McKnight of this city and Miss Kate Clifton of Alto on last Sunday. Mr. McKnight and his bride have gone to Mississippi, where they will reside for some time. Their many friends extend congratulation.

While attending court if in need of spectacles, properly fitted, see W. N. Burris, the optician, at the Stone Fort bank.

DISTRICT COURT.

September Term Opened Monday and Duly Organized.

The September term of the district court convened Monday, September 16, with Judge Jas. I. Perkins on the bench. Hon. Beeman Strong, district attorney; R. W. Murphey, district clerk, and Sheriff George W. Blackburn, were each at their post of duty. George W. Gibson, the official court stenographer, was also present and ready to perform his duty.

Judge Perkins and District Attorney Strong both seem to be in fine health and spirits, notwithstanding the fact that they just closed last week a most strenuous and arduous term of court at Center. At that term there were tried eleven felony cases, which resulted in eight convictions; two acquittals and one hung jury. Out of the eight convictions only one one new trial was granted, and that was granted upon presentation of facts not introduced at the trial, and upon that the case was dismissed.

Of the convictions secured by District Attorney Strong were three for murder in one of which a life sentence was given, 15 years in another, and 14 years in the other. This is a splendid record, and one that Mr. Strong is justly proud of.

Another fact that may be mentioned, and one that added greatly to the arduousness of the Center term of court, is that two very important habeas corpus trials were held, which lasted for several days.

On convening court Monday, Judge Perkins delivered a brief but pointed charge to the grand jury, which is composed of the following well known citizens of Nacogdoches county:

W. J. Campbell, foreman; R. H. Irion, Jno. G. Orton, L. W. Lyles, B. Y. Lloyd, J. P. Sharp, J. W. Lambert, W. G. King, W. A. Barry, J. C. Martin, Jas. A. Sowell, W. B. Pearson.

C. L. Button, who had been drawn as one of the grand jurors, was fined \$25 for failing to appear.

The grand jury selected the following bailiffs: J. G. Cooper, door bailiff.

Riding bailiffs—Dave Burrows, of Nacogdoches; A. A. Biggs, of Caro; J. D. Blakey, of Melrose; D. W. Bruce, of Garrison; L. F. Alvis, of Woden.

The first three days of this week will be devoted to the non-jury civil docket, and Thursday, September 19, the jury civil docket will be taken up and continued through next week.

On Monday, September 30, the regular criminal docket will be taken up and the fourth and fifth weeks

It's Here

The Hunting Season

will be devoted to the trial of capital cases. The following capital cases, in which indictments have heretofore been returned, have been set for trial.

Joe and Will Beeman, murder; October 7.

Allen Poulan, murder; October 11.

J. L. Garrett, murder; October 9.

Laura Deckard, murder; October 10.

Sam Burney, murder; October 10.

A venire was waived in the Rob. Thorn murder case, which removes it from the list of capital cases.

The following civil cases have been acted on by the court:

A. McDonald vs. Joe P. Clevenger; continued by consent.

E. A. Blount vs. Fitz Hill and Orchard Co.; dismissed at request of plaintiff.

New Firm.

Messrs. J. M. and P. H. Spradley have opened a new grocery and feed store in the Mims building on West Main street, and they have already put in a full and complete stock.

Everybody in Nacogdoches county knows Matt Spradley, he having served the county as sheriff and the city of Nacogdoches as marshal, respectively for a number of years, and Henry Spradley is also well and favorably known. They start in with ample capital to put in a large stock, and they are sufficiently endowed with business tact to make their undertaking a success.

The style of the new firm will be Spradley Brothers, and they will appreciate the patronage of the public.

Nothing is being heard these days from the top crop prophet.

The citizens of Crockett will vote on a proposed bond issue of \$25,000 for municipal water works October 15.

The backbone of summer is cracked, but what most people want to see is a compound fracture of the heated season.

The completed rolls of Tax Assessor Donegan show that there are 25 asses in Nacogdoches county. It is hoped none of them will run for the legislature.

The Rusk Press-Journal advises everybody to talk Cherokee. So far as The Sentinel is concerned they can talk Sanscrit if they will only come to Nacogdoches county and grow peanuts.

"Kill the rats" is the order from Washington in the campaign to be waged by the federal authorities against the bubonic plague and other contagious diseases, now scourging San Francisco. Whether by putting salt on their tails or coaxing them into cunning little cages is not stated, but the advice is sound.

The Sentinel is in receipt of a complimentary season ticket to the State fair of Louisiana, to be held at Shreveport from October 5 to 12. Saturday, October 12, is designated as Fraternal day, and Congressman Morris Sheppard, Sovereign Banker of the Woodmen of the World, is scheduled for a speech on that day.

The Sentinel's Mount Moriah correspondent writes that corn in that community is very sorry, and as a rule very few farmers will have corn to sell, "but" he says, "as a rule we are out of debt, and we are expecting a good price for cotton." That sounds very much like prosperity, and is a noise that can be heard from every section of Nacogdoches county.

PALESTINE is having trouble with the water problem. The Herald says: "The city council, in adopting that resolution appointing a special committee to employ counsel to compel the water company to fulfill its contract or surrender its franchise, was a proper step, and was fully justified." The citizens of Nacogdoches have cause to be thankful for a bountiful water supply.

The taxpayers of Nacogdoches county are now confronted with the lowest tax rate in the history of the county so far as the records show. The lowest rate heretofore levied by the county was 40 cents on the \$100 valuation. The county rate this year is 35 cents, and the state rate is only 12 1/2 cents. The rate for state school purposes is 20 cents on the \$100, which makes the entire state and county tax only 65 cents on the \$100 assessed.

PEANUT CULTURE.

The Rusk County News calls attention to the fact that some weeks ago State Press in the Dallas News made the statement, that not a single peanut thrasher was to be found in the state last year so far as he knew. This caused a citizen of Marshall to write State Press that Harrison had one such thrasher last year and that five would be doing business this year to do the thrashing of peanuts raised on about 4,000 acres in that county. Then more recently The Sentinel stated that if 5000 acres were planted to peanuts in Nacogdoches county a peanut factory would be established in Nacogdoches. This caused State Press to ask if that many acres of land planted to peanuts would not overstock the market. Attention is here called to these incidents merely to show State Press's ignorance of the peanut industry in Texas. The Paris Advocate in calling attention to the peanut industry in Lamar county, makes this statement: "Our neighbor, Bonham, to be in the swim wants a peanut factory. For the benefit of Bonham we will vouchsafe the information that Paris has one that is a big money maker, besides paying thousands of dollars to the farmers annually for a crop that is easily grown and produces a large yield. It is a small business in sound peanuts—but it is a hummer as a money maker."

The East Texas Register, Miss Margie Neal's paper, recently printed the following: "Panola county farmers have an opportunity to accept or reject a very good proposition next Saturday—that of the pledging of a large acreage in peanuts another year, looking toward the establishment of a peanut factory by the time the crop is harvested. A letter from Cicero Smith of Mineral Wells is to the effect that a peanut manufacturing company will establish a factory in any county, provided the farmers will put in as much as 5000 acres. There are already, from 2000 to 2500 acres planted in Panola county, and it is thought that the required acreage can be pledged for another year. The price will range from 80 cents to \$1 per bushel, and the factory can use 2000 bushels per day. These figures, together with the fact that from sixty to eighty bushels per acre can be grown from poor land, should convince the farmer that peanuts are a more profitable crop than cotton and a far more certain one."

Peanuts are being grown in Gonzales county in large quantities, which leads the Inquirer to remark:

"Mr. E. A. Miner of Neville was a caller at the Inquirer office this morning. He states that to his knowledge there are 600 acres planted in peanuts in Gonzales county this year. Of this number at least 250 acres lie between Slayden and Gonzales on the south and the Galveston, Harrisburg and San Antonio main line on the north. The early crop, he says, has matured, but the late crop has

suffered much by reason of the drouth. However, it is thought that the recent showers will cause the plants to revive and that a fairly good crop will be the result. Mr. Miner is just completing a machine for the thrashing of peanuts, peas and other stuff, and contemplates giving an exhibition of its work during the coming county fair."

There is no danger of the farmers growing too much peanuts, and State Press does the cause a great injustice to intimate that 5000 acres would overstock the market, even for a day.

Among certain features of the anti-pass laws that general passenger agents of Texas will tussle with will be the question of whether or not baggage men carry can dogs for a "tip," as heretofore practiced. In effect, the railroads have handled dogs free, but it is claimed that under the new anti-pass laws the dogs can not be handled free. In this case owners of canines will have to look to the express companies for dog transportation in the future, and will have to put up fees.

The Center News says: "Jas. Denton, who has been publishing the People's Advocate for the past several months, has turned the paper back to John McLendon, and Mr. McLendon will resume publication with the next issue." The Sentinel is pleased to welcome Editor McLendon back into editorial harness, though we regret to lose Editor Denton. We had hoped that John would get rich in the oil business, but we knew all the time that the newspaper business would fit him better.

A DISPATCH from New York to the Houston Post of Sunday contained this bit of news in regard to the telegraphers' strike: "Despite the belief that the telegraphers' strike was near its end, not an operator belonging to the union went back to work yesterday, says the Press. This was admitted by officials of, both telegraph companies. Though leading a somewhat forlorn hope, the strikers yesterday showed dogged determination to force every demand from the companies and were staunch as on the first day of the big fight." The same condition exists in Nacogdoches.

LUFKIN is very much elated over the fact that a good flow of artesian water has been secured by the Gulf Pipe Line company within six miles of that town. The well was drilled by the pipe line people at their pumping station, and it is said the water is of the finest quality. It is reported that water is quite a scarce article in Lufkin, and her people have cause for elation when it is ascertained that a bountiful supply of good artesian water can be secured even within six miles of that place, and at a depth of only 540 feet. The citizens have under consideration a proposition to drill a well inside the city limits, and should waste no time in putting the proposition into execution.

THE PEANUT INDUSTRY.

The attention of State Press, as well as that of every other reader of The Sentinel, is called to the following from the Austin Statesman:

"Commissioner of Agriculture Milner said yesterday afternoon that inquiries are being received by the department from many states in the east and north regarding the growth of peanuts. Some of them want to buy peanuts, and others want to buy land that will produce them. The commercial value of this crop is little known to the farmers. The demand is growing rapidly. Everybody is getting to be a 'goober eater,' and nothing is more nutritious or wholesome. Their value as a ration for animal and fowl is acknowledged by every one who has had experience along that line. If the farmers who have land adapted to peanuts could read the earnest letters received by the agricultural commissioner, praying for information as to where peanuts can be had, they would be inspired to give this industry special attention. Nearly all of the timbered, sandy land in Texas will produce peanuts to perfection, the cultivation required being light compared to the cultivation of other crops."

It has been contended by some that there is little money in peanut culture, and State Press has intimated that 5000 acres planted to peanuts would overstock the market. Both of these contentions indicate a deplorable lack of knowledge of the peanut industry. That all may become informed on the subject, The Sentinel is conducting a campaign of education. It is hoped that all who read may heed, and above all that enough land may be planted to peanuts in Nacogdoches county next year to justify the establishment of a peanut factory in Nacogdoches.

The leaders in the democratic party are endeavoring to get together on a man to run for president. The latest news is that Bryan has been requested by members of the national executive committee not to stand for the nomination this time. These leaders, it appears, have not thought it worth while to consult the democratic voters throughout the country, and doubtless it is because it was not done 4 years ago.—Tyler Courier.

The alleged leaders of the party succeeded in defeating Bryan in 1896, and they did it again in 1900. The leaders tried to elect Parker in 1904 and the people bucked.

That hacking cough continues Because your system is exhausted and your powers of resistance weakened. Take Scott's Emulsion. It builds up and strengthens your entire system. It contains Cod Liver Oil and Hypophosphites so prepared that it is easy to take and easy to digest. ALL DRUGGISTS: 50c. AND \$1.00

The leaders and the people must get together to elect a democratic president.

The Kansas City Packer says that Texas last season had 31,000 acres of Irish potatoes, valued at \$60.00 per acre. This is a higher value than cotton, and the potatoes are made and harvested in less than four months.

Should Nacogdoches establish a peanut factory will they manufacture peanut politicians there?—Lufkin News.

The woods are full of peanut politicians already. Should a peanut factory be established in Nacogdoches it would turn out nuts for the peanut politicians and amateur newspaper men to crack.

The Beaumont Enterprise is responsible for these truths, which should be pasted in the hat of every citizen of Nacogdoches, as well as every other town in East Texas: "A town should be run like a business in that it should be pushed with vim and vigor. A town either goes ahead or goes back, as does a business, according to its citizens. If it wants trade it must bid for it. If it wants business to come it must encourage that which it has. If it would be prosperous it should never permit jealousies to rule it."

That East Texas is coming along is self-evident, but once in a while a new chapter is added to its story of progress, that attracts attention. Harrison county is one of these that does not say much, but keeps sawing wood, and recent reports coming from that county state that where it had an experimental peanut thresher last year, it will have five big machines in operation this year to thresh 3,500 acres of peants, and it is expected that next year the acreage in that county will be 10,000 acres.—Beaumont Enterprise.

And the farmers of Nacogdoches county have caught the peanut fever to such an extent that they are going to have at least one factory in operation next year.

Mr. C. H. Strong of Lawsonville is visiting his son, District Attorney Beeman Strong, in this city.

What one Cannery Has Done.

A cannery located at Sulphur Springs, Hopkins county has canned during the season:

- Cans. Blackberries 215,000 Peaches..... 225,000 Beans..... 15,000 Tomatoes 5,000 Pint bottles. Tomato catsup..... 1,000 Bushels.

Peach pits..... 500 Besides marketing this output the management reports that it has orders that it could not fill amounting to 150 carloads of these summer goods.

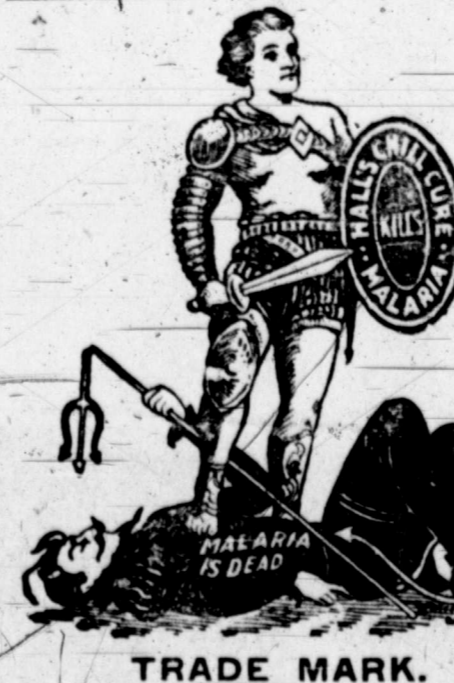

Nor is the end yet, for the cannery is still at work and will be until far into winter, as it is putting up sweet potatoes, kraut, pork and beans and onions.

There is no sense in going to the Maryland market for canned goods when this work can be done at home, and throughout this section of East Texas and Western Louisiana the development of truck and fruit farms should march on hand in hand with the development of canneries.

This is Strong Talk.

Editor Imboden, of the Austin Statesman, says that Congressman Cooper may hold his job until our district attorney, Beeman Strong, takes a notion to go to Congress. In that event Mr. Cooper will retain his Congressional position for a long time, because the people of this district realize that Beeman Strong is the best district attorney we have had since the days of Jim Polley, and they are not going to allow him to succeed Cooper, or anybody else. The people want him right where he is for many years to come.—Center Advocate.

Mr. W. R. Howard, late with the Carter-Allen Jewelry company of Shreveport, and a watch maker of experience and skill, has accepted a position with Stripling, Haselwood & Co. Mr. Howard is also a graduate optician, and thoroughly understands testing eyes and fitting glasses. Mr. Howard was for five years with Sweeney & Frederick's of Houston, from whom he has a splendid testimonial as to his skill and efficiency.

THE Sentinel can almost hear the swish of that broom factory.

AND the rain descended upon the earth, and lo, the earth is wet. However, it might be wetter.

IF the Republicans should nominate Taft, the G. O. P. would indeed have a swell dandiate.

IF State Press of the Dallas and Galveston Newses will take a day off from "rastling" with the madam editors, The Sentinel will endeavor to give him a few lessons in peanut culture.

By actual count seventy-three and a half of The Sentinel's exchanges have announced editorially that the corset trust has come to stay, which would indicate that the same may be said of the joke.

THE Houston Post announces a fall crop of 42,000 brides in Texas. As usual, the bridegroom is ignored.—Galveston Tribune.

The bridegroom will come in for his share of attention at harvest time.

THE city council of Beaumont is talking about cancelling the franchise of the Southwestern Telephone company in that city on account of poor service. Perhaps a threat will be sufficient to secure relief.

IN a recent interview Max Stiefel, a San Antonio business man, who is touring Europe, told the people of Paris, France, that Texas could support a population of a hundred million people. One thing sure Mr. Stiefel is no pessimist.

THE Galveston Tribune calls attention to a very stern fact in the following: "A man gets more for his money when he subscribes for a newspaper than he gets for any like sum of money spent elsewhere. What goes to cultivate a man and his wife and children is a permanent investment."

THE San Antonio Express asks this question, and it is very timely: "North Carolina has 260 cotton mills in operation. South Carolina 140. Georgia 126 and Texas 16; and Texas raises more raw cotton than Georgia and the Carolinas combined. Why shouldn't Texas have more cotton mills than these other states combined?"

THERE is going to be a lively scrap for the comptroller's office next year. Several candidates have already announced, and among the list is Judge J. R. Blades of Athens. This writer can assure his opponents and the Democratic voters of Texas of the fact that whoever comes in contact with the Henderson county gentleman in a political way, will find a blade worthy of their steel.

Why Texans are Poor.

The following is on one of its periodic tours of the state, via the columns of the country press. The picture is considerably overdrawn, but all the same as a whole it teaches a good lesson, and we commend it to our readers:

"The average Texas citizen imagines that he lives at home, but he doesn't. He gets up in the morning and puts on a pair of socks made in New York, shoes made in Boston, pants made in Ohio, then slips on a pair of Connecticut suspenders over his shoulders. He dips some water from a Missouri bucket with a Chicago dipper and puts it in an Illinois pan and washes his Texas face with a cake of St. Louis soap. He dries his face with a Rhode Island towel and reaches his hair with a Vermont comb. He then drinks Cuban coffee from an Indiana cup and saucer, sweetened with sugar from Louisiana and stirred with a New York spoon. His knife, fork and plate were made in the North, and his table cloth ditto. He eats a piece of Chicago ham fried in Kansas lard, sops his St. Louis biscuit, seasoned with Boston soda and Michigan salt into Louisiana molasses. He wipes his whiskers on a Vermont napkin and seats his family in a Michigan chair around a table from the same state. His meal was cooked on a St. Louis stove, wood cut with a St. Louis axe and hauled in an Indiana wagon.

The citizen then puts a Boston bridle and harness on a Missouri mule, gets out his Georgia plow and works in a field encumbered in all probabilities with a New York mortgage. He returns at night and satisfies his appetite with another imported meal, fills his Indiana lamp with Pennsylvania oil and lights it with a New York match. He then fills his Illinois pipe with North Carolina tobacco and settles down for a comfortable smoke.

"When bedtime comes he takes down his family Bible, which was printed in Massachusetts, reads a chapter, says a prayer composed in Jerusalem, then retires to his bed, slips under his imported covers and is kept awake for two long hours by the howls of his Texas dog, which is the only home product he has on the farm."

A SCIENTIST has discovered a bug that will kill the boll weevil, but the bug will not climb the stalk. It is now in order to find a bug to make the other bug climb the stalk.—McGregor Mirror.

The more modern plan would be to furnish the other bug with a gun so he could compel Mr. Boll Weevil to climb down and be "et."

This little couplet credited to Profitable Advertising, is making its steenth annual tour of the newspapers; and in order to assist in wearing off its hirsuit appendage, The Sentinel will keep it going. Read it:

"The man who has a thing to sell,
 And goes and whispers in a well,
 Is not so apt to collar the dollars
 As he who climbs a tree and hollers."

What One Woman is Doing.

The Texas Coaster gives the profits from nineteen cows, made by a lady and her son in that vicinity, and adds some appropriate remarks. The money that can be made from cows has been the text of many sermons, but like many other sermons they have not had the effect desired. The Coaster uses some "inelegant" language, but it gets the point clear, which is the main thing after all. It says:

Mrs. Lou Cochran, a widow living two miles south of Richmond, with no help save a small boy, has been milking and caring for nineteen cows. In May she drew something over \$108 for a month's cream carried to the Richmond creamery. July being a hot and dry month, we didn't expect a very good showing, but accidentally investigated and find a check for \$109.15 issued to Mrs. Cochran for the month of July for cream from nineteen cows. Besides she has nineteen fat calves and twenty fat hogs. Now figure, you old behind billy goat cotton raiser, and see if you ain't bustin' your old hard head against a thing about the size of a boll weevil. Mrs. Cochran always draws over \$100 per month, and she and the boy do all the work without the help of even a lazy nigger. If you can change this result let us know. Cream to the Richmond creamery one year, \$1,200; nineteen calves, one year, \$190; twenty hogs one year, \$240; total \$1,630; or which is the total gross amount made by Mrs. Cochran and the boy, yet there are great big 45-year-old bulks, with five boys and girls livin' in Fort Bend county, or "just arrived" and cussin' the boll weevil and puttin' up a poor mouth to the grocery man and dry goods man. Gosh ding a mighty, I'd raise cream if I had to eat it on grapevines before I'd grow cotton bugs.

Forest Tract Pays all Texas.

Kansas City Star: There is a town in Norway, Faliiede by name, that is without taxes. This municipality possesses a large tract. Each year it sells timber enough to pay all the public expenses. This is done without depleting the forest, for not only are the young tress preserved and cultivated, but there is replanting so far as is necessary. For thirty years the town has had this revenue, and it still has its forest, which will continue the revenue indefinitely. Now, it would be impossible to pay the expenses of the United States government out of the timbers sold from the forest reservations, but those forests must be maintained—first, because of their general utility; second, because of the need of timber; but there is also an important factor in making the timber sales go far enough to pay for the forest service—and as much farther as possible. The policy of Mr. Pinchot, chief forester, is to "use the wood, but save the forest."

The Texas Iron Supply.

Attention has been time and time again called to the almost inexhaustible supply of rich iron ores in Texas, but the fact remains that but little thought has been apparently given the subject by monied men of the country.

Next possibly to her broad and fertile cotton fields the iron ores that are now of little value will some day before the passage of many generations prove of greater worth to Texas than any other one asset the state possesses, for it certainly is true that there are hundreds of miles and millions of acres of the finest of such ores to be found the world over.

Out of the Texas iron ores anything in the iron and steel lines can be made. Car wheels of the very finest quality have been manufactured out of pig iron made out of these ores. Cotton ties have likewise been made out of the same iron, and no better water pipe is to be found in the world than is being now manufactured out of iron that comes of the Texas ores.

Referring to what the Statesman had to say on this subject a few days since, the State-Press man of the Dallas News about exhausts this subject in this wise:

"And in some localities, like that of Llano county, it would require a heaving earthquake to throw dirt on the iron mountains existing there. The Statesman is alluding in the above to the iron ore deposits in Cherokee and other counties in that locality. The deposits ought to be most interesting to the geologists. They are even wonderful to the laymen. For, from all appearances, at one time an iron crust of two or three feet covered the whole of that part of the country. It must have laid exactly as "ice on a pond. Then there came a seismic disturbance of some kind. The surface of the earth was rended. Fissures were made which afterward became gulches and valleys. But on the high or table land the iron roof was not disturbed. The dust of countless ages accumulated on it. In some places this dust or dirt is ten to fifteen feet thick. In other places it is not more than two feet thick. This iron roof shows from the side of every hill. If it is 200 feet from the level of the sea to this roof on one hill, it is 200 feet from the level of the sea to the roof of another hill, though it may be miles away. The ore is brown hematite of the best quality. To mine it, all that is required is that the sand or loose dirt on the top of it be removed. For many years the penitentiary, which engaged in reducing ore, removed this dirt or sand by wheelbarrows. These gave way to scrapers and now a steam shovel is employed."

Present indications point to a lively contest in this congressional district next year. Congressman Cooper will be in the fight, John Brooks says that if M. L. does not make the race, he will; the friends of Judge James I. Perkins say that he will be in it, some say that Steve Blount must make the race, friends of Beeman Strong say he must be awarded higher honors, and several others are prominently mentioned. A. J. Houston says he will seek the republican nomination, while friends of United States Marshal Owenby (who recently moved from Paris to Beaumont) say that he must make the fight for the republican party.—Hemphill Leader.

Brownwood Bulletin. The Bulletin has never gone into raptures about the work of the Texas Five Million Club, for the reason that the Bulletin has thought all along that the price paid for the fiddling would be extremely high, but it has never said so, because it does not believe in knocking anything that has a good purpose in view. No doubt many Texas papers have felt about it just as the Bulletin has felt. But the report of General Manager Rockwell has been made public and the figures show that the fears were well founded. There have been raised since December first \$8595.92 by private donations. Of this \$5835.83 has been spent for salaries, \$420.21 for office expenses, \$650.93 for printing and postage, and \$585.13 for "advertising." Presumably, from the report, the largest part of the item of printing and postage was for lithographed certificates of membership and for booklets and circulars sent out for the purpose of securing members; so that approximately \$7000 has been spent to place \$585 worth of advertising, a ratio that would bankrupt any business institution in the world. It is right to push along a good thing, but there are some good things that are so dear that they are luxuries, and this appears to be one of them.

LAND IS EXHAUSTED.

Unorganized Counties Will Not Share in Apportionment.

It was disclosed, yesterday, that the unorganized counties in the state will not be able to get any of the land which was set apart for each county in Texas for county school funds for the very good reason that the 225 leagues of land set apart for that purpose has been exhausted.

In 1882 the legislature passed an act setting apart 325 leagues of land for county school purposes. Each county that had not already received its quantity was granted four leagues, or 17,712 acres. This was to be used as a permanent school fund for each county in addition to the state's appropriation for school purposes. These 325 leagues, according to Acting Land Commissioner Robison, have just been exhausted. Garza, the land county organized, will not get the full four leagues, and those counties, as stated above, which have not yet organized, will get no land at all for school purposes, as the law provides that the counties shall get the land only after organization.—Austin Statesman.

An old negro who lives in the country came into town and saw an electric fan for the first time in his life. The whirling object at once attracted his attention, and, after intently gazing at it for several minutes, showing all the while the greatest astonishment and curiosity, he turned to the proprietor of the shop and said: "Say, boss, dat suttently is a lively squirrel you got in dis cage. But he's shorely goin' to bus' his heart if he keeps on making dem resolutions so fast." —Harper's.

Rubbing the back won't cure backache.

A liniment may relieve, but can't cure.

Backache comes from the inside—from the kidneys.

Doan's Kidney Pills get inside—

They cure sick kidneys.

Here is Nacogdoches proof that this is so:

J. G. Cooper, retired, corner of Pillar and Church streets, Nacogdoches, Tex., says: "I suffered for ten or twelve years with most annoying and severe pain in my back right across the kidneys, and when I stopped to lift anything I had great difficulty in straightening up, and the same sore in bending over. I knew it was kidney trouble and knew its end would be complete disablement unless it was speedily cured. I tried all kinds of medicine and prescriptions but to no avail. Finally reading of Doan's Kidney Pills I procured a box at Mast Bros. & Smith's drug store. I gladly say that they cured me, not helped, but actually cured an ailment that had bothered me for ten or twelve years. I am glad to recommend such a reliable kidney medicine to others."

A Surprise Wedding.

Lonnie E. Williams and Miss Anna Belle Harrell were married Monday afternoon at 1:30 o'clock, at the home of the bride's father, Mr. J. E. Harrell, on Fredonia Hill. Rev. J. M. Robinson officiating. Only the family of the bride were present, as the young people had given no notice of their intention until a few hours before the ceremony was performed.

The happy couple left over the H. E. & W. T. train this morning for Lelavale, their future home, where Mr. Williams has a lucrative position.

The groom is the eldest son of Mr. and Mrs. J. L. Williams, formerly of this city but now of Lelavale, and is a most worthy and exemplary young man. Miss Anna Belle was one of Nacogdoches most charming and lovable young ladies, and Lonnie is to be congratulated upon having won her for his bride.

Appleby School Opened.

Editor Sentinel.

Appleby is justly proud of what her school has done in the past few years and determined to make it do still more in the next few. She parted reluctantly with Prof. Hale this year, because the value of his work is shown in the development of the school, but she welcomes his successor, Prof. Tindall, as a man of resource, force and resolution. School opens this year with a first day enrollment of even one hundred—an excellent showing for a town of the size—and two hundred and fifty pupils are expected during the year. School was opened on Monday morning with short talks from the teachers, Revs. W. C. Hughes and W. W. Armstrong, and the work of classifying and grading was at once begun. This will be the first year of work as a graded school, but with this the live superintendent and teachers, Prof. Lester Wratten and Miss Daisy Wratten, it is certain to be a successful year. These teachers aim at character more

than book knowledge and bend their school work to the true purpose of education. Later in the year a fourth teacher will be added to the faculty and the work will be carefully and properly done. Appleby has good cause to boast of her school.

In New Quarters.

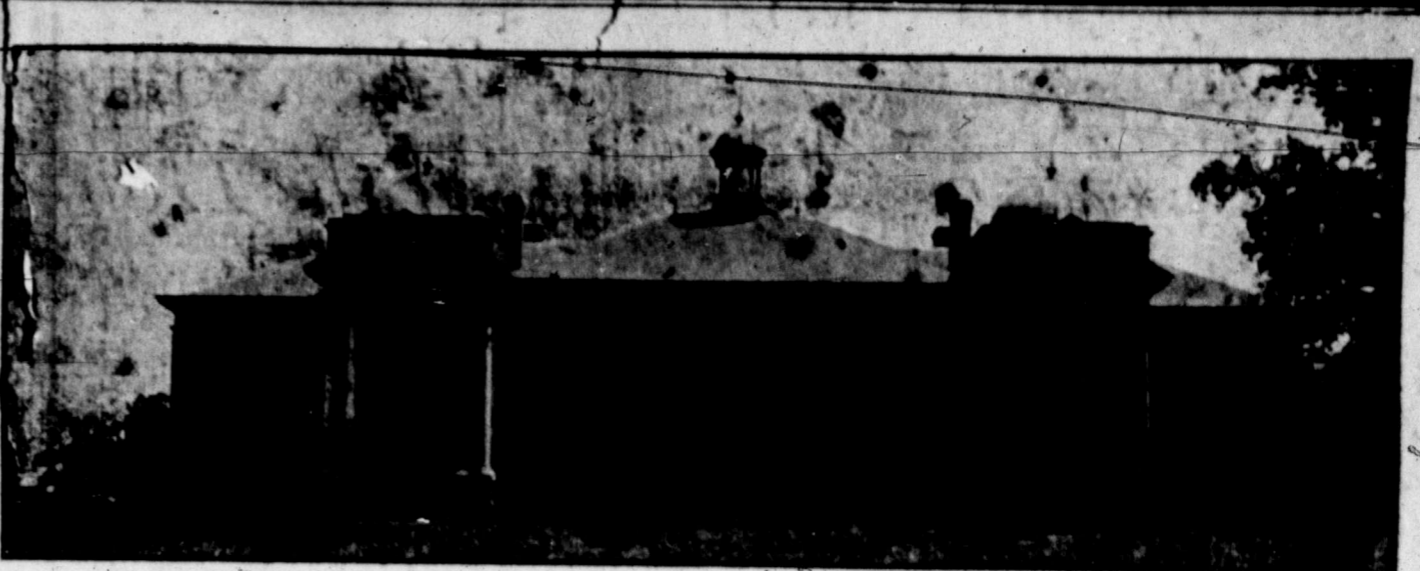

The Commercial National Bank on yesterday moved to its handsome new building in the Blount block, where it was burned out on the morning of December 23, 1906. The Commercial National bank was comfortably and pleasantly situated before the big fire destroyed their furnishings, but there is no doubt but that in its new quarters it is one of most elegantly equipped banks in the state. Every article of the fixtures and furniture, including desks and chairs, is of antique oak, and was made and put up by the Nacogdoches Show Case and Manufacturing company. The front partition and railing work cannot be excelled in any factory, and the finish and mechanism of the entire job is superb.

AUSPICIOUS OPENING.

Nacogdoches Schools Begin the Term With Heavy Enrollment.

From Monday's Daily:

The Nacogdoches schools opened for the term of 1907-1908 this morning with the largest attendance of any former opening day in the history of the schools.

The large auditorium was literally packed with students and it is fortunate that there were only a few of the parents of the children present, for there was no room for more.

After all the children and teachers had been seated in the spacious hall, the exercises were opened with the High School Glee Club singing "Rock of Ages," and "America."

This was followed with short but appropriate talks by Rev. A. J. Miller, Rev. J. M. Robinson, Rev. J. W. Mills, Prof. J. E. Rosser, and others.

Prof. F. M. Burnett, a new

teacher in the High school, made a happy talk, but the address of Superintendent R. F. Davis was full of good advice and encouragement to the students. He appealed to each one to strive to make good use of every moment of the session, and above all else to let their moral conduct be perfect.

At the close of the auspicious exercises the students were marched to their rooms in order, where the work of enrollment was begun.

The faculty this session is the strongest in the history of Nacogdoches schools, and has been assigned as follows:

CENTRAL SCHOOL.

High School—John E. Rosser, principal, advanced mathematics and English.

Fred M. Burnett, science and modern languages.

Miss Arpatia Wilson, Latin.

Miss Lena B. Henderson,

science and English.

R. F. Davis, superintendent, advanced history.

Mrs. W. J. Bridwell, seventh grade.

Miss Mae Weaver, high sixth grade.

Miss Christine Hammock, high fifth and low sixth grades.

Mrs. F. P. Marshall, low fifth grade.

Miss Hattie Loden, high fourth grade.

Miss Luella Loden, high third and low fourth.

Miss Lois Cook, low third.

Miss Brice Vinson, high second.

Miss Lucile Davis, high first and low second.

Miss May Clark, first grade, or primary department.

WEST END SCHOOL.

Miss Zillah Langley, principal, fifth and sixth grades.

Miss Mattie Roberts, third and fourth grades.

Miss Mary Elkins, first and second grades.

Mr. Business Man.

Believing that you are or soon will be in need of the services of a stenographer or both, we ask to furnish you with first-class help, for which we make no charge. Do not

pass our graduates with those of the ordinary business college, for if they belonged to that class, we could not have built up our school in seven years to an annual enrollment of 1000 to 1500 students from more than half the states in the union. We have on our Employment Bureau list some of the very best business firms, lawyers, railroad managers, many of which will employ none but our graduates.

The final examinations given our students of book-keeping and shorthand are the same as given by the U. S. Civil Service Commission or by the best Employment Bureaus of this country. Our graduates are so thoroughly trained in practical work that we have never had a single failure by those taking the U. S. Civil Service examination, or the hardest examinations given by an Employment Bureau, or statutory court reporters examination.

We have a large crowd of students, both men and women from the age of 18 to 45 years from which to select. We have those who are experienced in various lines of business. Write or phone us the kind of help you need, and if we have it we will furnish it free of charge. If we haven't it, we will, tell you frankly.

A Traveling Man's Experience.

"I must tell you my experience on an East-bound O. R. & N. R. R. train from Pendleton to Le Grande, Ore.," writes Sam A. Garber, a well known traveling man. "I was in the smoking department with some other traveling men when one of them went out into the coach and came back and said, 'There is a woman sick unto death in the car.' I at once got up and went out, found her very ill with cramp colic, her hands and arms were drawn up so you could not straighten them, and with a death like look on her face. Two or three ladies were working with her and giving her whiskey. I went to my suit case and got my bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy (I never travel without it), ran to the water tank, put a double dose of the medicine in the glass, poured some water into it and stirred it with a pencil; then I had quite a time to get the ladies to let me give it to her, but I succeeded. I could at once see the effect and I worked with her, rubbing her hands and in twenty minutes I gave her another dose. By this time we were almost into Le Grande, where I was to leave the train. I gave the bottle to the husband to be used in case another dose should be needed, but by the time the train ran into Le Grande she was all right, and I received the thanks of every passenger in the car." SHORT TALKS, by Boothe.

Some of the old things we did in our younger days, we still do. Some of us cling to the same old style in hats, clothes and shoes. Years ago we kept our bed-room windows closed; but now we keep them up. Some people who have suffered for a life time from different maladies, are still taking drugs that they took in their childhood. Mrs. Sarah Reitz, of Juniper, Ga. has the right idea. She writes:

"BROMONIA Co. Gentlemen: I have not been able to eat any solids with comfort for twenty years. I saw your ad. offering free Bromonia to any sufferer. In pure desperation, I applied to our local druggist and received a free bottle. I feel that I should write to you and tell you that its effect was magical. I ate, for the first time in twenty years, a meal without pain. I have recommended it to many other sufferers who think I am their best friend on earth."

New things are sometimes the best. Try Bromonia. Your local druggist will guarantee, if you follow our directions to cure you or refund money. For sale by Mast Bros. & Smith, Nacogdoches, Texas

New Railroad.

The old saying that one must go from home to learn the news often proves true. A verification of this fact is found in the following from the Rusk Press Journal:

"A new railroad has been incorporated, with a capital of \$225,000, to run from Dallas through the counties of Kaufman, Henderson, Cherokee, Nacogdoches, Anderson, San Augustine and Sabine to the edge of Louisiana. Now, if the people of Rusk will make a fight for this railroad we will in all probability get it, for the future of Rusk and the surrounding country is great and the railroads realize it. The road will be styled the Union Central, and the company is formed entirely of Texas capitalists."

A road from Dallas to Terrell or Kaufman, thence to Athens, Palestine, Rusk, Nacogdoches, San Augustine, and then into Louisiana, would pass through a fertile and prosperous section of the state of Texas, and would no doubt be a paying proposition.

OUR NATIONAL DANGER.

Time to Cry a Halt Before a Panic Comes:

The business spirit is crushing out the sweeter element of home life. We are in danger of a great commercial decline, because men as a whole, think only of getting wealth.

There are thousands, both men and women, who do not take time to eat properly. They rush through life, and as a result we have an age of indigestion, nervousness, irritability, sleepless nights, and morose disposition.

With the discovery of Mi-o-na tablets, there is no longer any excuse for one to have ill health from stomach weakness.

Mi-o-na strengthens the walls of the stomach; stimulates secretion of the digestive juices, regulates the liver and restores muscular contraction to the intestines and bowels, so no laxative is needed.

Sick headaches, palpitation, bad taste in the mouth, yellow skin, irritability, coated tongue and melancholy are a few of the many distressing results of indigestion. Mi-o-na never fails to dispel all these troubles.

Stripling, Haselwood & Co. sell Mi-o-na in 50-cent boxes, and guarantee to refund the money if the remedy does not give complete satisfaction.

Do You Think For Yourself?
Or do you open your mouth like a young bird and gulp down whatever food or medicine may be offered you?

...an intelligent thinking woman in need of relief from weakness, nervousness, pain and aching, then it means much to her that there is one tried and true home medicine of known composition, sold by druggists for the cure of woman's ills.

The makers of Dr. Pierce's Favorite Prescription, for the cure of weak, nervous, run-down, over-worked, debilitated, pain-racked women, knowing this medicine to be made up of ingredients, every one of which has the strongest possible endorsement of the leading and standard authorities of the several schools of practice, are perfectly willing, and in fact, are only too glad to print, as they do, the formula, or list of ingredients, of which it is composed, in plain English, on every bottle-wrapper.

The formula of Dr. Pierce's Favorite Prescription will bear the most critical examination of medical experts, for it contains no alcohol, narcotics, harmful, or habit-forming drugs, and no agent enters into it that is not highly recommended by the most advanced and leading medical teachers and authorities of their several schools of practice. These authorities recommend the ingredients of Dr. Pierce's Favorite Prescription for the cure of exactly the same ailments for which this world-famed medicine is advised.

No other medicine for woman's ills has any such professional endorsement as Dr. Pierce's Favorite Prescription has received. In the unqualified recommendation of each of its several ingredients by scores of leading medical men of all the schools of practice, is such an endorsement not worthy of your consideration?

A booklet of ingredients, with numerous authoritative professional endorsements by the leading medical authorities of this country, will be mailed free to any one sending name and address with request for same. Address Dr. R. V. Pierce, Buffalo, N. Y.

National Corn Exposition.

The prize list offered at the National Corn Exposition, in Chicago, October 5 to 19, is the largest in the history of agricultural expositions. Over \$16,000 in cash prizes alone will be given on 10 and 30 ear exhibits. Over \$50,000 in farms, pianos, buggies, dinner sets, watches, etc., will be given to exhibitors in the state classes, which are not open to professionals. This makes it possible for actual amateur corn growers to win large and valuable premiums. Full and complete information concerning these prizes may be secured by writing to the secretary, Curt M. Treat, 902 Great Northern Building, Chicago.

Harris Zeve has gone out of the employ of Stripling, Haselwood & Co., and will devote his time to the study of pharmacy and branches of science. Willie Bowden will succeed him at the soda fountain and Leon Brantley will relieve Willie of the distribution of the Post. Willie's friends congratulate him on getting the promotion and the firm will not miss his former services while Leon has them in charge.

BAILEY WILL BE ISSUE.

Representative Beatty of Lockhart Discusses the Subject.

The Austin Statesman says:

Representative Lea Beatty of Caldwell county was here yesterday from his home at Lockhart. He had business with the executive department. Mr. Beatty, who is a Confederate veteran, speaking of the action of some of the Confederate camps in the state in criticising Governor Campbell, declared that he was not in sympathy with any such movement. He characterized the attack being made on the governor by the veterans, as being ridiculous. He asserted that the old soldiers as a general proposition had received much consideration at the hands of the governor.

Mr. Beatty gives it as his opinion that Senator J. W. Bailey will be an issue in political campaigns two years hence and the issue will be for and against Bailey. He said that this condition of affairs had already manifested itself in his county. He predicted that the Bailey issue will even reach county politics. He believes that the matter might as well be settled then as any other time. Mr. Beatty was against Bailey in the last legislature.

When asked if he would again be a candidate for representative to the Thirty-first legislature from his county, Mr. Beatty declared that the matter was entirely in the hands of the people of his county. If they wanted him to come back and serve them, it was up to them, but that he was not going to get out and make a race for the position. He has resigned his position with the federal government, he having for years been connected with the agricultural department at Washington.

Why Remain Blind Or Partially Blind Why Suffer From Any Eye Disease or Deformity

If you will call on Dr. Adams he will tell you plain facts about your case and will guarantee to cure if your case is at all curable. If not curable he will tell you so and you are out nothing. He has a proven record of success in Texas covering 12 years' active practice. Has cured hundreds in Texas who were led to his office and now they see to read. Thirty people in East Texas led to him in past few weeks, some of them led for years (30 led to office, 28 of them now enjoy good sight). Doubters can investigate. Ninety out of every hundred can be cured, hence there is little or no excuse for you to be led about.

Dr. Adams has 15 years' experience in this work and is of a traveling oculist. His home and sanitarium for care and cure of difficult cases in Houston, Texas. Branch offices at Lufkin and Nacogdoches.

He will guarantee you sight. Write for symptom blanks. He may cure you at home. He cures many at their own home. Address: GORDON ADAMS, M. D. Eye Specialist, 468 and 419 Mason block, Houston, Texas. Or meet him at Nacogdoches.

Wire Western Union.

Directors of the Western Union Telegraph company recently met and congratulated the officials of the company for the admirable manner in which they had protected company dividends by refusing to grant living wages to employees. The officials doubtless get credit for about \$20 which the Western Union has been stealing weekly from the Journal ever since the strike was inaugurated, and the other papers in the state which take the afternoon Associated Press have been equal sufferers. The Journal expects to make an effort to recover the money as soon as the strike is ended and it can estimate the aggregate amount of which it has been robbed.—Beaumont Journal.

Reminiscences of a Pioneer.

Editor Sentinel. Eleventh of September! Seventy years ago today, four families loaded up in Bedford county, Tennessee, and started to try their fortunes in Texas, then a young republic.

This day never comes around that I do not recall the events of that time, which are still fresh on my mind, as though it happened yesterday.

I was then a lad in my fifteenth year. My father's family consisted of a wife and seven children—the youngest one year old. There were also six negroes belonging to us.

On our way through Arkansas sickness attacked us, and prostrated our family so that I was the only one that remained well enough to wait on the others and do the errands. My oldest brother died there, and it was a year before we could resume our journey Texasward. After one year's residence in San Augustine, my father moved to Nacogdoches county where he lived and was buried near Melrose. My older brother having married, I was again left in charge of the family. After many changes I again settled and have lived nearly forty years in the vicinity where my father died.

Only three of our family are now living, myself and two younger brothers.

The families who came out with us were the Stones, the Greens and McClures. Only one of the McClure family is living, and that is Carr McClure, who was an infant at that time, and who now resides near Swift.

The Greens, a well known family of Augustine, have all passed away; I mean of that generation. Some of their descendants are living and are scattered in various places.

The Stones settled a place now known as "Stone's Mill," in this county. One of Wiley Stone's grandsons has been serving as deputy sheriff in this county.

As I recall the many sad changes that have taken place in the last 70 years, I grow reminiscent, as I grow feebler, and the memories of "Old Times" throng around me, and I feel that I, too, shall soon join those gone before.

Citation.

The State of Texas To the Sheriff or any Constable of Nacogdoches Co., Greeting:

Affidavit having been made as by law required, you are hereby commanded to summon the unknown heirs of Joseph F. Lewis, deceased, and the unknown heirs of John D. Sennett, deceased, and of his wife, Ellen Sennett, deceased, by making publication of this Citation once in each week for eight successive weeks, previous to the return day hereof, in some newspaper published in your County, if there be a paper published therein, but if not, then in any newspaper published in the Second Judicial District, but if there be no newspaper published in said Judicial District, then in a newspaper published in the nearest District to said Second Judicial District, to appear at the next regular term of District Court of Nacogdoches County, to be holden at the Court House thereof, in Nacogdoches, on the 3rd Monday in September, 1907, the same being the 16th day of September, 1907, then and there to answer a petition filed in said Court, on the 7th day of August, 1907, in a suit, numbered on the Docket of said Court No. 2431 wherein Ben T. Wilson and W. T. Wilson, are plaintiffs, and the unknown heirs of Joseph F. Lewis, deceased, and the unknown heirs of John D. Sennett, deceased, and the unknown heirs of Ellen Sennett, deceased, are Defendants, and said petition alleging that heretofore on August 1st, 1907, the plaintiffs were lawfully seized and possessed of the following described land and premises situated in Nacogdoches County, Texas, holding and claiming the same in fee simple, to-wit: All that certain tract of land about 14 miles Southwest from the town of Nacogdoches, a part of the T. J. Lambert league grant of land, beginning at the southwest corner of said league on north bank of the Angelina river, from which a S. E. 20 m. brs. N. 53 E. 13 vrs. and a water oak 14 in. brs. N. 48 W. 10 vrs.; thence north with the west boundary line of said league grant 1924 vrs. to a corner, from which a sweet gum 14 in. brs. S. 75 E. 6 3-10 vrs., and a water oak 14 in. brs. N. 11 W. 56-10 vrs.; thence east 1000 vrs. to corner on west bank of the Loco bayou, from which a white oak 24 in. brs. N. 28 E. 2 W., and another white oak 8 in. brs. N. 63 E. 2 W., and a hickory 14 in. brs. S. 84 W., thence southwardly down said Loco bayou to where it crosses the east line of said league; thence south with the east line of the original Thos. J. Lambert grant 540 vrs. to its S. E. corner on the north bank of the Angelina river; thence westwardly up said river to the place of beginning, containing 826 1-2 acres of land more or less, excepting 126 acres of the northern portion of said tract heretofore sold by A. I. Ramsey to A. B. Buchanan.

That the title of the plaintiffs to 700 acres of land above described is as follows: 1st, bond for title executed by Thos. J. Lambert and Jno. Durst, to J. F. Lewis and T. H. Luckett on December 10th, 1838; 2nd, Patent from the State of Texas to Thos. J. Lambert, on November 11th, 1837; 3rd, Deed from Thos. J. Lambert to Thos. J. Lambert and Joseph F. Lewis, December 9th, 1854; 4th, Judgment of Probate Court, Nacogdoches County, partitioning said land between T. H. Luckett and Joseph F. Lewis, on June 2, 1855; 5th, Deed from Jno. D. Sennett and wife, Ellen Sennett, by H. R. Hyde, Constable, to Amory R. Starr, dated January 2nd, 1877; 6th, Deed from Amory R. Starr to L. Aubrey, dated February 24, 1892; 7th, Deed from L. Aubrey to C. A. Marquette on May 22, 1896; 8th, Redemption certificate of R. W. Finley to L. Aubrey on May 19, 1896; 9th, Will and probate thereof of Caroline A. Marquette, 10th, Deed from Zelle F. Marquette to A. L. Ramsey on May 2, 1900; 11th, Deed from A. L. Ramsey to Ben T. and W. T. Wilson, Ju-

ly 9, 1907. 12th, The statute of three years possession and limitation alleging that the plaintiffs and those under whom they claim have had and held under a color of title from and under the State of Texas peaceable, continuous and adverse possession of said land 13th, The statute of five years possession and limitation, alleging that the plaintiffs and those under whom they claim and whose estate they have, had peaceable continuous and adverse possession of said lands, cultivating, using and enjoying the same paying all taxes due thereon for a period of more than five years, claiming same under deeds duly registered.

That upon the said 1st day of August, 1907, and now, the defendants were and are asserting some character of ownership and title to said land, asserting the same as accrued to them by virtue of their relation to and heirship of the said Jos. F. Lewis, deceased, and the said Jno. D. Sennett, deceased, and the said Ellen Sennett, deceased; the said claim so asserted cast a cloud upon the title of these plaintiffs to said land and interferes with their making a sale of same; that if the defendants have any other claim to said land, the same is unknown to the plaintiffs.

Plaintiffs pray that defendants be cited in terms of law to answer this petition and for judgment quieting their possession, removing all cloud cast upon their title by virtue of said claims, and that the title to said land be vested out of the defendants and into the plaintiffs, for costs and for general relief.

Herein fail not, but have before said Court, at its aforesaid next regular term, this writ with your return thereon, showing how you have executed the same.

Witness, R. W. Murphey, Clerk of the District Court of Nacogdoches County.

Given under my hand and the seal of said Court, at office in Nacogdoches this 7th day of August, A. D. 1907.

BAD BLOOD THE SOURCE OF ALL DISEASE

Every part of the body is dependent on the blood for nourishment and strength. When this life stream is flowing through the system in a state of purity and richness we are assured of perfect and uninterrupted health; because pure blood is nature's safe-guard against disease. When, however, the body is fed on weak, impure or polluted blood, the system is deprived of its strength, disease germs collect, and the trouble is manifested in various ways. Pustular eruptions, pimples, rashes and the different skin affections show that the blood is in a feverish and diseased condition as a result of too much acid or the presence of some irritating humors. Sores and Ulcers are the result of morbid, unhealthy matter in the blood, and Rheumatism, Catarrh, Scrofula, Contagious Blood Poison, etc., are all deep seated blood disorders that will continue to grow worse as long as the poison remains. These impurities and poisons find their way into the blood in various ways. Often a sluggish, inactive condition of the system, and torpid state of the avenues of bodily waste, leaves the refuse and waste matters to sour and form uric and other acids, which are taken up by the blood and distributed throughout the circulation. Coming in contact with contagious diseases is another cause for the poisoning of the blood; we also breathe the germs and microbes of Malaria into our lungs; and when these get into the blood in sufficient quantity it becomes a carrier of disease instead of health. Some are so unfortunate as to inherit bad blood, perhaps the dregs of some old constitutional disease of ancestors is handed down to them and they are constantly annoyed and troubled with it.—Bad blood is the source of all disease, and until this vital fluid is cleansed and purified the body is sure to suffer in some way. For blood troubles of any character S. S. S. is the best remedy ever discovered. It goes down into the circulation and removes any and all poisons, supplies the healthful properties it needs, and completely and permanently cures blood diseases of every kind. The action of S. S. S. is so thorough that hereditary taints are removed and weak, diseased blood made strong and healthy so that disease cannot remain. It cures Rheumatism, Catarrh, Scrofula, Sores and Ulcers, Skin Diseases, Contagious Blood Poison, etc., and does not leave the slightest trace of the trouble for future outbreaks. The whole volume of blood is renewed and cleansed after a course of S. S. S. It is also nature's greatest tonic, made entirely of roots, herbs and barks, and is absolutely harmless to any part of the system. S. S. S. is for sale at all first class drug stores. Book on the blood, and any medical advice free to all who write.

Occasional headache, belching, bad taste in the mouth, lack of appetite and slight nervousness are symptoms of indigestion which, when allowed to go uncared for, will develop into a case of dyspepsia that will take a long time to get rid of. Don't neglect your stomach. At the first indication of trouble take something that will help it along in its work of digesting the food you eat. Kodol For Indigestion and Dyspepsia will do this. Kodol will make your food do you good and will enable you to enjoy what you eat. Sold by Stripling, Haselwood & Co. dw

Rev. Jeff Smith, colored, one of the local preachers of this city, has just closed a meeting at Retrieve, as the result of which, he reports, there were ten accessions to the church.

There are a great many people who have slight attacks of indigestion and dyspepsia nearly all the time. Their food may satisfy the appetite but it fails to nourish the body simply because the stomach is not in fit condition to do the work it is supposed to do. It can't digest the food you eat. The stomach should be given help. You ought to take something that will do the work your stomach can't do. Kodol For Indigestion and Dyspepsia, a combination of natural digestants and vegetable acids, digests the food itself and gives strength and health to the stomach. Pleasant to take. Sold by Stripling, Haselwood & Co. dw
