Trip to Conference.
 Editor Sentinel.
 Timpson, Tex., Nov. 18.—Monday morning, the 14th, we boarded the train at Timpson and arrived at dear old Nacogdoches 12:22 p. m. At 2:55 we took our seats on the T. & N. O. in the new chair car making good time and our car ran into Kaufman at 10:30. Going only a short distance we found a hotel lady who took our crowd in for the remainder of the night.

Thirty-six years ago, in a small hut on the prairie near that town, was our home, where happiness and contentment ruled supreme, and today we are blessed with the same minds.

Next morning we were off for Ennis, where the Free Methodist conference was in session. At the depot Bro. Fenner met us and assigned us one of the best homes in that town. On the way we passed fields of cotton and corn yet to be gathered.

Everything seems to be plentiful, and today that country is ahead of ours because the happy farmer has found plenty of labor in his own field. Ennis can boast of some of the loveliest flower yards in Texas.

Our Bishop gave two fine lectures on his trip around the world, and our hearts ached to hear him tell of the poor heathen Chinese girl who has her toe nails pulled out and turns her toe under, pressing it until it reaches the heel. All her life long she hobbles about, doing all the work, while the men sit and smoke their pipes. Oh, for the sake of poor humanity, give us more missionaries and more money for that dark land.

Bro. Flower, a traveling evangelist from St. Louis, gave heart rending accounts of his work in the Rescue home for poor fallen girls. Hear, oh, hear him preach, and help him with your money and God will bless you and him wherever you go. L. W.

How to Prepare Simple Mixture to Overcome Disease.

To relieve the worst form of Rheumatism, take a teaspoonful of the following mixture after each meal and at bedtime:

Fluid Extract Dandelion, one-half ounce; Compound Kargon, one ounce; Compound Syrup Sarsaparilla, three ounces.

These harmless ingredients can be obtained from our home druggists and are easily mixed by shaking them well in a bottle. Relief is generally felt from the first few doses.

This prescription, states a well known authority in a Cleveland morning paper, forces the clogged up, inactive kidneys to filter, and strain from the blood the poisonous waste matter and uric acid, which causes Rheumatism.

As Rheumatism is not only the most painful and torturous disease, but dangerous to life, this simple recipe will no doubt be greatly valued by many sufferers here at home, who should at once prepare the mixture to get this relief.

It is said, that a person who would take this prescription regularly, a dose or two daily, or even a few times a week, would never have serious Kidney or Urinary disorders or Rheumatism.

Cut this out and preserve it. Good Rheumatism prescriptions which really relieve are scarce, indeed, and when you need it, you want it badly. Our druggists here say they will either supply these ingredients or make the mixture ready to take, if any of our readers so prefer.

We Thank the Few

Of our friends who have paid their accounts and now respectfully and urgently request those who have not yet paid to do so at once.

The "hard times" affect us all alike. We are not broke or even shaky, we have more than enough to pay all we owe but we can not use it or pay our bills till you pay us.

We are in business to stay and in future when called upon to extend favors, those who pay us at once will be given decided preference.

If not convenient to call send us postoffice order or bank check. Yours truly,

MONEY WILL SOON FLOW.

More Currency Available Than Ever Before in History.

St. Louis Globe Democrat.

"I regard the financial situation as improving day by day," said Thomas J. Adkins, assistant treasurer, in charge of the United States Subtreasury at St. Louis, yesterday. "Already the New York banks are beginning to ship currency quite freely to the West.

The large influx of gold to that city will permanently relieve the money stringency in New York. The \$50,000,000 already received and contracted for from Europe will be

only a small part of the amount that will follow within the next three months. The United States will receive not less than \$500,000,000 within the next few months for food and factory products alone. We will raise this year approximately 12,000,000 bales of cotton,

which will bring approximately from \$90,000,000 to \$600,000,000. Europe will buy one-third of this cotton crop. Europe pays us annually for tobacco nearly \$100,000,000, and these payments are made largely in the months of November, December and January. Our food products alone, which will be exported within the next ninety days, will easily amount to \$200,000,000 more.

"The trouble with the present situation is this: Europe unloaded her American securities and received payment for the same before this country had marketed her food and factory products for the coming year. This unloading process was precipitated by the flurry in New York of a few weeks ago. The people need feel no alarm. The trade balances in favor of the United States have averaged \$500,000,000 per annum for the last ten years, and it will not be less for the present year.

"The St. Louis banks have the situation well in hand, and there will be a gradual improvement from this time on; and within three months money will be as plentiful as ever and go begging for want of borrowers. The United States has a larger volume of currency than at any time in her previous history. It has increased since July, 1896, from \$21.48 per capita to nearly \$34 per capita. This amounts to more than \$125,000,000 annually for the past ten years, an average of more than \$10,000,000 a month, and nearly one-half of this vast amount of money is gold. The national banks are now preparing to increase, and many of them already have increased, their circulation, which will add many million to our already large stock of money. With these conditions, the present financial

A FARM journal tells how to make salsify fritters. After all they are not as good as peanut pancakes.

THE Nacogdoches Sentinel says every leaf of Nacogdoches tobacco is a leaf of gold. All that remains is to cash it.—Greenville Herald.

Every leaf is sold before it is grown, and the cash is ready as soon as it matures.

A MAN who claimsto have been the first white child born in the state of Texas has just died in California, aged 81 years. He was born in 1826, and Texas was not admitted into the Union as a state until 1846.

THE death of D. M. Ferry, the world-famous seed man, is reported. The fact that he is said to have conducted his vast business on absolutely honest methods, justifies the prediction that his seeds will live after him.

AFTER all there may come some good from the present financial panic. Who knows but that it is the hand of the nature faker endeavoring to reduce the number of millionaires, of which Secretary Taft declared there are too many?

OUR old friend Thos. P. Maddox has sold his interest in the Willis Progress to his partner, P. H. LeSueur. Tom Maddox is too good a newspaper man to be out of harness long, and we expect to see his handiwork on some good newspaper before many days.

THE thirty-fourth annual edition of Latham, Alexander & Co's. history of "Cotton Movement and Fluctuation" has been received. It is a tastily printed and handsomely bound book, and contains a complete epitome of all important statistics pertaining to cotton, covering a period from 1902 to 1907, and is filled with valuable information that every person at all interested in cotton ought to have. The American crop of 1907 is estimated at less than 13,000,000 bales, and the prospects for the cotton trade of the world during the coming year are designated as favorable.

A STATEMENT is going the rounds of the press that runs like this: "A Texas man who chews 20 cents worth of tobacco a week, concluded to try a tobacco cure. In two weeks he ate \$1.50 worth of the cure and for the next two weeks he used 5 cents worth of candy, 5 cents worth of peanuts and 5 cents worth of gumdrops a day. During the two weeks he also consumed two large rubber erasers, ate the rubber tips from fourteen lead pencils, chewed up a dozen penholders and browsed off his mustache as high as he could reach. He is now chewing tobacco in the interest of economy."

THE LONG SUFFERING EDITOR.

Some one has truthfully said that the editor of today has got to get his nose down to the grindstone and keep it there sixteen hours per day and 365 days in the year, or he falls by the wayside. Here are men who quit work Saturday night and rest until Monday morning. They lay aside business cares at 5 or 6 o'clock every evening and do not resume them until seven or eight the next morning. Not so your editor. He has no elegant leisure. He knows no hours, no Sunday, no night. When he goes to a party, or to church, or on an alleged pleasure trip, it is all in the line of duty. Withal, your editor man is a cheerful, longsuffering soul, going about doing good in his humble way. He returns good for evil. He writes long puffs of church sociables, and in return therefor, accepts a chunk of cake that would sink an ironclad. He notes the arrival of all the babies in the neighborhood and eternally perjures himself by telling how pretty they are. He rejoices with the gay and mourns with those who are sad. He booms every enterprise which makes his community rich and goes about himself clothed in gunny sack coats and one suspender. He glories over the fortune of his neighbor, and meekly eats his own repast of boiled corn cobs and colored labels on tomato cans. He can write a sermon, an account of a prize fight, a political speech, an obituary notice, poetry, split wood, pitch hay, wash dishes, preside at a camp meeting, curry horses, quote law or gospel, or anything else at a moment's notice.

MR. COOPER'S VIEWS.

During a recent visit to Houston, Hon. S. B. Cooper, congressman from the Second district, had this to say about the present financial stringency:

"If the government has any money, it has been acquired by taxes taken from the earnings of the people. It would be unfair to take money from all the people and lend it to only a part of the people to bridge over financial distress. The government ought not to collect any more money from the people than is necessary to defray the expenses of government economically administered, and the government ought never be a lender of money to any one."

"It looks like the tendency of the times is running toward the populistic doctrine designated as a 'subtreasury.' There is no better security in the world than the bale of cotton, and if the government is going to lend money upon bank and corporate securities, it ought also to advance sums upon cotton warehouse receipts. But the fact is, it is not and ought never to be either the power or the function of government to take money from the people and lend that money to a class of people."

WOULD it not be best to withhold our criticism of the city's waterworks system until the plant has been completed and a test made?

TOO MUCH TALK.

Gary Thinks Financial Situation is Hurt by Discussion.

Elbert H. Gary, chairman of the board of directors of the United States Steel corporation, thinks there is too much discussion of the financial condition of the country. "All this talk about the tightness of the market makes people lean involuntarily to the idea that there really is something the matter with the nation, when, as a matter of fact, everything is in first-class shape," says Mr. Gary. "If I thought there was anything the matter with the country's finances I would not hesitate to give my views at length. But what is the sense in making a great fuss over the so-called financial turmoil? In a little while all the disturbances will be over and then the persons who have been doing a lot of talking will feel silly. I think it is not a time for talking. It is a time for strengthening the general confidence in the financial soundness and abounding material prosperity of the nation."

Letter to H. R. Doolittle, Nacogdoches, Texas.

Dear Sir: One of the ways to get rich is to make a quarter look like thirty cents.

There's a better; make it thirty cents. It has this advantage; one keeps out of jail.

There are 200 paint-manufacturers making quarters look like 30, 40, 50 and 60 cents and all the odd cents between. That is, their "paint" professes to be paints; and they are, in about the proportions named; they get 30 to 60 cents for a quarter's worth; some get 75.

There's a better way to paint; Devoe. There are eight honest paints. By "honest," we mean not adulterated and full-measure. These honest ones differ; no two are alike. In one, the quarter is worth 27 or 28 cents; in another, 30 cents; there must be a best one in eight; it is the one that takes least gallons to cover a job—Devoe.

To cover; that seems a light way to speak of a paint. No, it isn't. That is what paint is for; to cover. It means to hide and protect. The paint that goes further is best, wear longest. Go far is all; and Devoe is the go-far paint.

Yours truly,
F. W. Devoe & Co.

Mayor Missing.

The city council was in session Monday morning and declared the office of mayor vacant. Mayor Newton asked for a leave of absence some time ago, which was granted and since then nothing has been heard from him. He had previously sold his property in Crockett, but before leaving announced his intention of returning. His wife is spending the winter in New York, but his own whereabouts are unknown to the members of the city council. The council has ordered an election to elect his successor.—Crockett Courier.

RESOLUTIONS OF RESPECT.

Tribute to the Memory of the Late R. W. Haltom.

The following resolutions were adopted by LaNana Lodge No. 106, Knights of Pythias, at a regular meeting last night:

Whereas, on the 4th day of November, 1907, the messenger of death invaded our ranks and removed from us our esteemed brother, Richard William Haltom, be it

Resolved, That while we mourn the absence of one we loved, honored and prized, we know that he has passed from labor to eternal rest, and we acknowledge the wisdom and goodness of the Supreme Grand Chancellor of the universe and bow in humble submission to His inevitable edict. Yet we deplore his loss to the fraternity, to his family and friends, and to the community in which he lived. He was a just and upright Pythian, a kind husband and father, an honorable and useful citizen, a sincere friend, a courteous and obliging neighbor, a man who endeavored always to perform every duty—to his God, his country, his family, his lodge, his neighbor and himself—honestly, faithfully and well.

Resolved, That in token of our sincere friendship and sympathy in the dark hour of this great affliction, and as a pledge of our fidelity to the memory of our deceased brother, we extend to the bereaved widow and family the hand of Friendship, Charity and Benevolence, and with it the assurance that though his visor has been lowered to never be raised again, the Great Light given of God to man, will guide them and us safely to that spiritual Castle Hall eternal in the Heavens.

Resolved, That these resolutions be spread upon the Record Book of this lodge, and that copies be sent to the family of our departed brother and to the local papers for publication.

Respectfully,
M. L. Stroud,
Will T. Hawkins,
C. D. Mims.

Said About Juries.

Is it possible for any state of facts to be proved that will make any man guilty of murder in Harris county? The state has tried men for shooting a man in the back from upstairs, for shooting a man in the back of the head, shooting him as he crowded in a corner, shooting him with a shotgun in the back when he was totally unarmed, to see if any of these facts constitute guilt, but juries have said all these deeds were angel like innocence. Won't some obliging citizen murder somebody and plead guilty, and can't there be one honest, intelligent jury in a murder case just to break the monotony of innocent murderers?—Houston Chronicle.

It is the men who, as jurors, take the law into their own hands and liberate criminals, as well as the men who take the law into their own hands and lynch criminals, who are to blame for the failures and disorders.—Dallas News.

Rapid changes of temperature are hard on the toughest constitution.

Lurkin Daily News.
The candidacy of Judge W. J. Townsend, Jr., for the district attorneyship to succeed the Hon. Beeman Strong, who has today mailed his resignation to the governor, has received the endorsement of the majority of the members of the bar of Cherokee and Shelby counties and a goodly number of the attorneys of Angelina. The bar association of Nacogdoches county has withheld its endorsement for his candidacy pending the decision of Attorney King of Nacogdoches as to whether he will or not be a candidate for this office. A petition is also being circulated among the business men of Lurkin asking the appointment of Mr. Townsend at the hands of the Governor. Following are the petitions of Cherokee and Shelby counties as forwarded to Governor Campbell:

The goober grabber ought to be kept busy next year.—Tyler Courier and Times.

More important still, the Texas goober eater ought to be kept busy chewing on Texas raised goobers.—Nacogdoches Sentinel.

He might stop his chewing long enough to carry his surplus crop to market, and it goes without saying that the thoughtful goober grower will plant his crop so that he will raise a surplus. It has been sufficiently demonstrated that money is to be made growing peanuts and we confidently predict that it will become one of the standard crops of Texas. Peanuts by the pound will have a quoted value just as cotton now has. It is destined to be one of the big crops.—Austin Statesman.

The Sentinel does not anticipate in the remotest degree that every peanut consumer will be a peanut grower, no more than is every one who wears cotton clothes a producer of cotton. When every peanut consumer in Texas eats only Texas raised peanuts, there will be such a demand for the goober that the raiser will have no trouble in disposing of his surplus, and the crop will be as staple as cotton.

NATURE PROVIDES FOR SICK WOMEN

A more potent remedy in the roots and herbs of the field than was ever produced from drugs.

In the good old-fashioned days of our grandmothers few drugs were used in medicines and Lydia E. Pinkham, of Lynn, Mass., in her study of roots and herbs and their power over disease discovered and gave to the women of the world a remedy for their peculiar ills more potent and efficacious than any combination of drugs.

LYDIA E. PINKHAM

Lydia E. Pinkham's Vegetable Compound

is an honest, tried and true remedy of unquestionable therapeutic value. During its record of more than thirty years, its long list of actual cures of those serious ills peculiar to women, entitles Lydia E. Pinkham's Vegetable Compound to the respect and confidence of every fair minded person and every thinking woman.

When women are troubled with irregular or painful functions, weakness, displacements, ulceration or inflammation, backache, flatulency, general debility, indigestion or nervous prostration, they should remember there is one tried and true remedy, Lydia E. Pinkham's Vegetable Compound.

No other remedy in the country has such a record of cures of female ills, and thousands of women residing in every part of the United States bear willing testimony to the wonderful virtue of Lydia E. Pinkham's Vegetable Compound and what it has done for them.

Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health. For twenty-five years she has been advising sick women free of charge. She is the daughter-in-law of Lydia E. Pinkham and as her assistant for years before her decease advised under her immediate direction. Address, Lynn, Mass.

STRONG TO RESIGN.

District Attorney Will Hand in Resignation Today.

Lufkin Tribune.

It is understood that District Attorney Beeman Strong who was elected to his present position one year ago, will today hand his resignation to Governor Campbell, the same to take effect on December 1st.

It is also understood that Governor Campbell would be presented with the application of Hon. W. J. Townsend, Jr., for appointment to the position to fill out the unexpired term of Mr. Strong. The application of Mr. Townsend will be backed up by a petition from a majority of the bar of the district asking that he be appointed to the position and there is little if any doubt of his success.

Mr. Townsend is young, vigorous and ambitious, a fine lawyer, a good pleader and will make a district attorney second to none in the state. His experience of four years as county attorney, during which time he was eminently successful, admirably equips him for district attorney. If there is any opposition to his appointment, or any other applicant for the place it is so far unknown.

During the year Mr. Strong has occupied the office of district attorney he has made a splendid record as a prosecutor. He has not only been successful, but he has conducted the state's side of every case in such a way as to win the respect and esteem of opposing counsel. He has held his own with the best lawyers of the district and proven himself a lawyer of unquestionable ability. He has always been broad in his views and liberal in his conclusions, yielding to defendants the benefit of every doubt.

It is understood that when his resignation takes effect he will retire to private practice at his home town, Nacogdoches, where he has formed a partnership with Hon. Geo. King, and the best wishes of his many Lufkin friends will ever be with him.

Statement From Mr. Townsend.

To the citizens of Nacogdoches County—

Whereas, it has been circulated at Nacogdoches on the streets today that my application for district attorney was endorsed by only two attorneys of my bar and another had been endorsed by nine members of said bar, doubtless which rumor was circulated here by some one to discredit me before the local people.

I desire to state that said report is not true.

We have as I now recall only 12 members of the bar, attorneys in the active practice, not including applicants, and I have written endorsements of six members of said bar. W. J. Townsend, Jr. Nacogdoches, Nov. 18 1907.

DANGER OF CATARRH.

Unless Properly Treated With Hyomei, Becomes Serious.

Catarrhal troubles are far more dangerous than they seem at first thought.

If you have catarrh, there is an irritated state of the mucous membrane and weakened tissues which afford an ideal lodgment and culture medium for disease germs, especially those of consumption.

You should get cured as quickly as possible before any dangerous germs that you may breathe lodge on the diseased tissue and work destruction in the throat and lungs.

The easiest, simplest, quickest, surest and cheapest way to cure catarrh is by the direct method, breathing Hyomei. This wonderful medicated air treatment does not drug and derange the stomach, but is breathed in, directly following and destroying all disease germs that may have been inhaled.

The unusual way in which Hyomei is sold by Stripling, Haselwood & Co. is the best evidence of their confidence in the treatment and should dispel all doubt as to its curative properties. They agree to refund the purchase price to anyone whom Hyomei fails to benefit, and you do not risk a cent in testing its healing virtues. A complete outfit costs but \$1.00 if it helps you, not a cent if it does not do all that is claimed for it.

Land For Rent.

A good farm for rent or sale 5 1-2 miles East of Nacogdoches, 80 acres in cultivation, plenty of water, 3 good tenant houses, good pasture both upland and bottom, terms reasonable. Apply to John Windsor, Nacogdoches, Texas.

There is no Reason

why your babies should be thin and fretful during the night. Worms are the cause of thin, sickly babies. It is natural that a healthy baby should be fat and sleep well. If your baby does not retain its food, don't experiment with colic cures and other medicine, but try a bottle of White's Cream Vermifuge, and you will soon see your baby have color and laugh as it should. COUNTY COURT CHANGE.

Commissioners Pass Order Increasing Number of Terms.

The following important order, changing the terms of the county court, has been made by the commissioners court:

It is ordered by the court that the terms of the County Court in and for Nacogdoches county be and the same, are fixed so as to be held hereafter as follows:

There shall be begun and holden at the court house in the city of Nacogdoches one term of said court beginning on the third Monday in the months of November, January, April and July of each year, and said court may continue in session each of said terms for the period of three weeks. And there shall also be begun and holden on Monday of each week of the year, as may not be included in three weeks terms above provided for, a term of said court for criminal business only, and which said session may continue for one day only.

PLAN TO FIGHT DISEASE.

Druggists Will Battle Stomach Troubles in Nacogdoches.

The increase of stomach troubles in Nacogdoches has led Stripling, Haselwood & Co. to take effective measures to combat the disease. They have the local agency for Mi-o-na stomach tablets and in order to induce people suffering with weak stomach or indigestion to use the remedy, offer to supply it with the distinct understanding that money will be refunded in every case where it does not cure.

Mi-o-na is not a mere digestive, but an absolute strengthener and builder-up of the whole digestive tract. If you suffer with headaches, giddiness, palpitation, bad taste in the mouth, nervousness, coated tongue, distress after eating, use Mi-o-na and see how quickly these symptoms of weak stomach will disappear.

The remedy strengthens the muscular walls of the stomach and increases the flow of gastric juices so that nourishment is extracted from the food and the refuse is expelled without the aid of purgative or laxative medicines.

Remember that Stripling, Haselwood & Co. give a guarantee to refund the money unless it cures they take all the risk, and there is no danger of your losing anything except indigestion when you buy a 50-cent box of Mi-o-na.

Is Dangerous.

To neglect a cold the results are too often very serious. Bronchitis, pleuracy, pneumonia and consumption are frequently the consequences. Upon the appearance of a cold, sore throat or chest, use Simmons' Cough Syrup. It soothes the irritation, loosens the phlegm and promptly cures you.

Heartburn Comes From the Stomach

The heart is an organ that people are not inclined to trifle with, but a person may have fluttering of the heart, heartburn and similar troubles and yet have a perfectly sound heart. Nine times out of ten the disorder comes from the stomach through dyspepsia, constipation or some other digestive ailment.

So instead of taking "heart cures" or other such things that contain stimulants and narcotics, take a harmless but effective remedy like Dr. Caldwell's Syrup Pepsin which will correct the digestive disorder and in that way cure the supposed heart trouble. The remedy is guaranteed to do this, and you can obtain it of any druggist in 50 cent and \$1 bottles. As there are about 150 doses to the latter the cure will cost you but a few cents.

The experience of Mrs. Knight, of Bellview, Tenn., in this regard should be of interest to all who suffer from heartburn, etc. She writes that for five years she suffered from indigestion and constipation, from fainting spells, fluttering of the heart and heartburn. She couldn't eat meat or anything seasoned with meat. Dr. Caldwell's Syrup Pepsin was recommended to her and after a few doses the indigestion and constipation was relieved and the fainting spells and heart trouble soon disappeared. She takes a dose of the remedy after eating and never feels any ill effects no matter what she eats. It would be well for those who suffer in this way to do as she did and be cured.

There is no question that Dr. Caldwell's Syrup Pepsin is the best tonic laxative and digestive remedy known to the American people. It is gentle in action and pleasant in taste. It never grips. It is the ideal remedy for stomach, liver and bowel complaints, and owing to its gentle action is especially to be recommended to children, women and old people who cannot stand the violence and griping of saline purgatives and cathartic tablets.

FREE TEST Those wishing to try Dr. Caldwell's Syrup Pepsin before buying can have a free sample bottle sent to their home by addressing the company. This offer is to prove that the remedy will do as we claim, and is only open to those who have never taken it. Send for it if you have any symptoms of stomach, liver, bowel disease, distress after eating, indigestion, constipation, flatulence, etc. A guarantee, permanent home cure. THE "PINKET" PLANET. DR. FORCED TO RAISE MONEY SALE

Beginning Saturday, Nov. 23

FORCED to raise money to meet the demands of our creditors, we find ourselves overstocked with a very backward season. We must sacrifice our stock to raise money. The creditors must and will have their money, and this appeal is made to you. No sale of such gigantic proportions has ever been held in this vicinity, and continues, commencing Nov. 23, and will be sold during this sale to raise the necessary amount to reimburse the creditors. Our stock consists of the finest make of Suits and best selection of Furnishings Goods, Hats, Shoes, etc., to be found in the country. This stock of merchandise will actually be unmercifully slaughtered at our store, beginning Saturday, November, 23. Values at the mercy of the public; nothing reserved; everything must be sold to pay all claims.

Positively the greatest sale we have ever announced. Coming at a time when the people need the goods, this great sale is a boon to the man whose dollars must go further than ever before. Everything in our stock goes in this sale. Dry Goods, Clothing, Shoes, Hats, Notions, etc. Prepared to do the greatest business of our career, with a store brimming over with fall and winter merchandise, we find that we are overloaded. Too much goods for the prevailing conditions. Resolved to convert this great stock into cash, we recognize the fact that we must offer greater inducements than has ever been offered before. Knowing this, we have decided to sell the goods regardless of all cost or former selling prices strictly for cash, for cash is what we want, cash is what we must have. Don't miss this great sale. It is positively the greatest price reducing sale this country has ever known. Rain or shine, the sale begins Saturday, November 23, and continues until Tuesday, December 24.

DUTY OF THE PEOPLE

An Interesting Article on Men, Money and Panics.

Houston Chronicle.

Man as an animal is full of doubts and fears. Dangers lurk in the shadows, and his superstitious eyes see evil in some things and good in others. His days are full of panic. He can be herded like sheep and lured to destruction by some bait that tickles one or all of his senses. He is the most reasonable and at the same time the most unreasonable of all the animals. He has arisen out of darkness and in his struggle to the light he is in constant conflict with the bugaboos of superstition, panic and imaginary evils. You can convince him that it is neither reasonable nor right to do certain things, and yet he will forthwith do them. You can convince him that certain things should be done today, on the instant, and yet he will linger in the doing and jeopardize both life and fortune.

Take the present panic for instance. You may convince depositors that if they make runs on their banks and demand their money that it can not be had, and also that no bank in the world keeps its depositors' money locked up in its vaults. You can hardly convince him that there is no such thing as money, and that it is all a "promise to pay," whether issued by the government or national bank. The government could put its stamp of \$20 just as easily on a cow as on a piece of paper, or on a piece of gold.

The only trouble would be that a number of cows would be hard to handle in trade. Now, if these credits are withdrawn from the banks and buried, all banking must cease, all state, interstate and international commerce be interrupted, and every railroad and factory come to a stop. What makes the world go round is credit. The actual amount of gold and silver in circulation is very small. What we handle every day is the government's or the national bank's promise to pay. Read one or two of the currency bills and see what it is we call money. By hiding and hoarding these, the national clock will be turned back several centuries, barter and wampum will again come into vogue, and the ox-cart will out the engine, the automobile and flying machine.

As soon as credit goes the whole financial fabric falls. There was plenty of so-called Confederate money during the war, but there was no credit back of it to give it value. The actual money in circulation only represents a fractional part of the country's credit. Our Bell county farm was worth \$20 an acre some 20 years ago, now it is worth \$75. Same land, same houses, same crops.

Credits have increased 200 and 300 per cent all over the United States but the circulating medium, or "promise to pay," have not kept up in proportion. Credit is what makes the financial world go round. Rockefeller's great wealth is not in cash, but in the great industries of our country, and when you knock out the props from under these, you do as Sampson did, when he pulled down the pillars that upheld the temple.

The man who withdraws

his money and hoards it, during a panic, is like the man who yells "fire" in a crowded school, church or theatre. People are by nature irrational and panicky and a town or nation can be led to self-destruction by foolish leaders.

This great American nation that is our national boast, is now threatened to its very heart by one of the most unreasonable panics that ever started in that storm center—Wall street. Every industry, every mill and factory, and every laboring man is threatened with ruin if the rush of the panic-stricken is not stopped.

Many people have only a vague idea of what a bank is, and say that if they left their money here yesterday, or last year, it should be there today.

The money was left at the bank because it was unsafe to leave it at home, and was more convenient to pay in checks than to carry \$500 around in one's pocket. The bank took care of the money, replaced it if stolen, and paid it back when actually needed. The bank acted as a clearing house for the town. The bank owes the depositor a debt, and the depositor also owes a debt to the bank. The depositor has trusted the bank, and in leaving his money has consented, according to universal custom and usage, to let the bank lend out a part of it. This is to remunerate the bank for its expense as guardian of the money. No sensible depositor will deny this. All states recognize the depositor's liability to the bank, and they require him to give saving banks 60 days' notice when they desire to withdraw. Recognizing now that the bank has loaned out a part of the depositors' money, let us assume its capital to be \$100,000 and its deposits to be \$200,000; total cash \$300,000. The bank's expenses are heavy, and it will probably take all the interest that the capital earns, or say \$9000 to pay the running expenses, such as taxes, salaries, donations, etc. It now remains for our bank to make its money out of the exchange business, collections and interest derived from the loan of the depositors' money.

Our bank can safely lend out, say, 50 per cent of its deposits, or \$100,000. The other \$100,000 can be disposed of as follows: \$50,000 can be left in the vault as cash, and \$50,000 can be sent to New York and other cities, where the large banks pay 2 per cent interest on daily balances. The cash in vault is more than ample for the general trade.

Now, if a run starts on our bank, it first gathers in all the money which it has outstanding with other banks. If the run increases, it may have to borrow from New York or elsewhere. If the bank did not borrow it would have to call in the \$100,000 of depositors' money which had been loaned out. This can not be done in a day or even in a few months. To force a merchant, mill, factory or other prosperous industry to pay up in a hurry is impossible. Northern banks lend much money on "call."

We in Texas can not do this as we have few cashable securities, such as stocks and bonds. Our loans are made to those who are close to the soil. To the farmer for raising a crop, the mill that grinds his wheat or corn, that spins his cotton and that makes oil out of the cotton seed, and to the man who buys his cotton and his cattle for export. It would take all the way from one to 12

months to call in these loans. These are the safest loans in the world and for that reason the slowest.

Now, here is the trouble with this panic. Everybody wants his money, and New York has shut itself up like a turtle in its shell. The panic started in New York where hundreds of thousands of frightened people, like lost sheep, got to running. They rushed openly and on the quiet to every bank, private, national, savings, and trust company, in a senseless stampede. One gambler in copper started the agitation and in failing pulled down a bank after him. Distrust had been settling over Wall street for several months. Its ways are devious, with its booms to valueless things, and "knock-out drops" given to things of value. Distrust, which hovered over Wall street, spread to the banks who had pets and favorites there. As quickly as the storm clouds gathered, just so quick did the newspapers herald it from one end of the country to the other. The banks were unprepared against these visible and silent runs. Word went forth: "Seuve, Qui Peut." The banks finally all joined issues, and fought shoulder to shoulder for their lives. What the people demanded was money and only money. They had no faith in stocks, nor bonds, skyscrapers; corner lots or farms, mills, factories, ships, railroads, automobiles or trolleys. All they wanted was money, thinking that the government's promise to pay was the real thing. They wanted it by the hundreds of millions, and they wanted it fast, and they wanted more than all the banks in the East collectively had or could get. The New York bank finally came to the place where patience ceased to be a virtue. They stopped paying. There was no sense in failing or closing up. No one would be benefited by this, and the depositor would be twice as long in getting his money. They kept all the money that they had left, and issued a clearing house certificate for what people wanted. This certificate is a "jolly," yet while it is not cash, it is a promise to pay and just as safe as the government's promise. All the New York banks are back of the clearing house and its promise to pay \$10,000,000 is as good as the government's or Rockefeller's, and should circulate temporarily as currency. The only danger will be in counterfeits. The New York millionaire bankers are trying another expedient and are shipping in the thousands of tons of gold from Europe, and the big national banks are busy issuing millions of national bank notes. Currency will soon be a drug on the market and when once the people can get what they are calling for then they will not want it and the panic will be over.

If the people would not hoard their money, but would lend it out at the prevailing high rates of interest, this would also stop the panic. If the robbers would get busy, they might also teach a salutary lesson. While the panic is not over yet, it is quickly becoming history, and probably by Christmas business will be running in its former channels. The results of the whole trouble is now easily understood. New York forced the issue and was quickly followed by Philadelphia, Chicago, St. Louis, and all the other great cities. The tremor spread rapidly, until now the smallest village that boats of being in line with New York, and of only paying

out a certain per cent daily of the deposits. It is well that all the banks are taking this united stand, as it puts it up to New York to get busy and to clean out that Augean stable—Wall street. The rest of the United States could have cut out New York altogether, and gone on doing business as of old, but when they found this out it was too late, as everybody in the United States was talking about panic and bank runs and wondering whether his own bank was safe.

Formerly during panics the banks paid out all their cash and then quietly put up the shutters and laid down their lives. Now they are wiser and better business men, and they take the only reasonable course, which is to pay a little every day until conditions get right. This they owe to themselves, to their stockholders, to their depositors and to the welfare of their town. A senseless run in time of national rigor and yet universal prosperity should be tided over with patience, to the detriment of none and for the good of all alike. The depositors must wait, and everybody must wait. Time brings back the people's reason, gives opportunities for publicity, and gives the debtor a chance to get from under. The depositor's money was loaned to the banks in times of prosperity and the banks can rightfully demand that the depositors wait for the return of quiet, and until their tied-up funds can be released. This panic will no doubt be the beginning of legislation, unbroken for the benefit of the banks. Just remember that neither Bell county nor Texas could pay its debts when credit was once destroyed, notwithstanding the same values might be

here. The cash does not exist. Their old debts would have to be paid by a renewal of promises.

The watchword is, Do not hoard, and have patience. If you withdraw your money from the bank turn around and lend it to some good man who is owing a debt which he wishes to pay. Keep the "long green" moving, and make interest on it for yourself. Prosperity can not now be restored quickly, as the panic territory covered is enormous, and it has spread out in widening circles, until Europe is now being disturbed.

Don't be foolish, don't be unreasonable, don't be selfish, don't be un-American. The nation is all right, and Texas is all right, and your town is all right and your banks are all right. Don't go every day to the bank and draw out the limit they allow. Don't be a "knocker." You don't need the money. Don't distress your community by forcing people to sell their farms and farm products, their stores, and other good assets, just to pay up the bank in a hurry. You can ruin a man today by crowding him, but if you will give a little time he will soon be in the wind again with three sheets spread. Your selfishness and fright will make the entire community suffer and you will not be benefited, neither will any one else, and only the money sharks will make a scoop.

All clouds have their silver lining, and this panic will eventually do the country great good. It will stop the headlong race to the expansion precipice which the nation has been making. It will help to dissolve the

lesson in free trade, and will reduce the price of all commodities, so that next year living expenses will be much reduced.

The writer is not a banker nor a borrower, but is a depositor with several banks, and they are at liberty to use his funds until the financial skies have cleared.

REFUSED BAIL.

Result of Investigation of San Augustine, Late Tragedy.

It is learned that Lucius Jenkins of Shelby county, and Henry Head and Charlie Alvis of San Augustine, who had an examining trial at San Augustine Monday, charged with killing the two negroes and burning the negro church, were refused bail and carried to jail at Beaumont for safe keeping.

It is also learned that Robert Kennedy, Mr. Fussell and son, Dan, who had also been implicated with the crime, were used as state's witnesses and there is said to be no complaint pending against them.

Don't worry about your kidneys when you can obtain 30 days' treatment of Pineules for \$1.00. These little globules bring relief in the first dose. Backache, Lumbago and rheumatism yield quickly. "Nails."

"Nails are a mighty good thing—particularly finger nails—but I don't believe they were intended solely for scratching, though I used mine largely for that purpose for several years. I was sorely afflicted and had it to do. One application of Hunt's Cure, however, relieved my itch, and less than one box cured me entirely." J. M. Ward, Index, Texas.

A MOOTED QUESTION.

Who Indeed Was the First Native White Texan.

An Associated Press dispatch from Fresno, California, under date of Nov. 13, says:

"C. B. Watts, a wealthy farmer of Watts Valley, died yesterday in this city at the age of 81 years. He came to this state in 1841 from Texas and claimed the distinction of being the first white child born in the Lone Star state."

In speaking of the above, Dr. Mayfield said:

"The statement is incorrect as to Mr. Watts being the first white child born in Texas. His statement, as reported dates his birth in 1826. There are probably several white people yet living who were born in Texas before that date. Mrs. Abney and Mrs. Hamilton, both living now in this city, being sisters, the former now seventy-nine and born in Sabine county, had a sister—Mrs. Scurlock—who was born in Texas in 1824. They say they have known several older white people born here. But who, indeed, is the oldest native Texan living, and who, indeed, was the first white child?"

It is a well known fact that persons living in the pine forests do not suffer from kidney diseases. One dose of Pineules at night usually relieves backache. 30 days' treatment \$1.00. Your money refunded if not satisfied. Sold by Stripling, Haselwood & Co.

How It Happened.

The particulars of the accidental shooting of Mr. Charley Cole, near Douglass Sunday, was learned today. It is said that Mr. Cole and his brother-in-law, Robert Hearn, had been out hunting horses. They carried their guns along, and as they were returning home, a covey of birds flew up by the road side. Mr. Cole, who was riding along in front of Hearn, fired at the birds, and as Hearn raised his gun to fire the hammer of his gun caught in his jumper and the weapon fired, the entire load and the wadding from the shell striking Cole in the back.

The accident is very much deplored by the citizens of the community, and young Hearn is said to be almost crazed with grief.

The Timpson Times says: "Congressman S. B. Cooper was in the city for an hour this morning, between trains. He came in from Center on the eleven o'clock train and left on the noon train for Dallas. Mr. Cooper had anticipated spending a whole day with Timpson friends, but the train schedules were such that he could not do it and meet previous engagements at Dallas and Austin."

Mr. Cooper has visited pretty much every town of importance in the district since his election a year ago, with the exception of a Nacogdoches. Mr. Cooper has many friends in Nacogdoches who would be glad to meet him before his departure for Washington.

Indigestion Causes Catarrh of the Stomach.

For many years it has been supposed that Catarrh of the Stomach caused indigestion and dyspepsia, but the truth is exactly the opposite. Indigestion causes catarrh. Repeated attacks of indigestion inflame the mucous membranes lining the stomach and exposes the nerves of the stomach, thus causing the glands to secrete mucus instead of the juices of natural digestion. This is called Catarrh of the Stomach.

Kodol Dyspepsia Cure

relieves all inflammation of the mucous membranes lining the stomach, protects the nerves, and cures bad breath, sour risings, a sense of fullness after eating, indigestion, dyspepsia and all stomach troubles.

Doan's Kidney Pills relieve backache.

Cure every kidney ill. Nacogdoches citizens endorse them.

W. H. Wood, farmer, living in Northern part of Nacogdoches, Tex., says: "I first began to be troubled by a constant dull aching across the small of my back. I never thought for a moment that my kidneys were out of order until a short time ago when I noticed the kidney secretions were rather scant at times and were accompanied by a burning pain. I tried several remedies without finding any relief. Hearing about Doan's Kidney Pills and the benefits many of our citizens had derived from their use, I went to Mast Bros. & Smith's drug store and got a box. They certainly did me a lot of good. My wife has also used them with excellent results. I therefore take pleasure in recommending this really valuable kidney medicine."

COMMON SENSE

Leads most intelligent people to use only medicines of known composition. Therefore it is that Dr. Pierce's medicines, the makers of which insist every ingredient entering into them upon the bottle wrappers and attests its correctness under oath, are daily proving in favor. The composition of Dr. Pierce's medicines is open to everybody, Dr. Pierce being desirous of having the search light of investigation turned fully upon his formulae, being confident that the better the composition the more medicine it takes, the more will their great curative merits be recognized. Being wholly made of the active medicinal principles extracted from native forest roots, by exact processes original with Dr. Pierce, and without the use of a drop of alcohol, triple-refined and chemically pure glycerine being used instead in extracting and preserving the curative virtues residing in the roots employed, these medicines are entirely free from the objection of doing harm by creating an appetite for either alcoholic beverages or habit-forming drugs. Examine the formula on their bottle wrappers—the same as sworn to by Dr. Pierce, and you will find that his "Golden Medical Discovery," the great blood-purifier, stomach tonic and bowel regulator—the medicine which, while not recommended to cure consumption in its advanced stages (no medicine will do that) yet does cure all those catarrhal conditions of head and throat, weak stomach, torpid liver and bronchial troubles, greasiness and hang-on-coughs, which, if neglected or badly treated lead up to and finally terminate in consumption.

Take the "Golden Medical Discovery" in time and it is not likely to disappoint you if only you give it a thorough and fair trial. Don't expect miracles. It won't do supernatural things. You must exercise your patience and persevere in its use for a reasonable length of time to get its full benefits. The ingredients of which Dr. Pierce's medicines are composed have the unqualified endorsement of scores of medical leaders—better than any amount of lay, or non-professional, testimonials. They are not given away to be experimented with but are sold by all dealers in medicines at reasonable prices.

Two Crops of Peanuts.

A recent bulletin, issued from the Agricultural and Mechanical college of Texas, says:

On what is ordinarily known as poor sandy post oak soil, and in spite of an unfavorable growing season, Prof. E. J. Kyle of the Agricultural and Mechanical College, succeeded this year in growing two good crops of peanuts. The first of this was planted the 28th of March and matured a full crop by August 1st, when hogs were turned on it. The second crop was planted on July 20 and was matured enough for the hogs to be turned on it November 1st. Despite the fact that there was practically no rainfall, during the growing season of the second crop, the peanuts made a good yield. It is pretty hard to overestimate the possibilities of the peanut on the thin lands of Texas. The farmer who has such lands and wishes to utilize them to the best advantage, should by all means plant a part of them to peanuts and raise hogs.

MYSTIFIOUS BURGLARY.

Store of Burk-Crain Furniture Co. Entered Last Night.

From Saturday's Daily: Some time during last night the salesroom of Burk-Crain Furniture Co. was entered, the safe opened and \$120 in cash taken.

The house was entered by forcing open one of the rear doors. The safe was closed, but only the day combination was left on, and it was an easy matter for the burglar to open the door.

The door to the cash chest in the safe was locked, but was pried open. There were two cash drawers in the chest, and each contained money—a package of \$500 in bills in one and about \$20 in change in the other. From the \$500 package six \$20 bills were taken; the thief leaving about \$400 in the safe.

The robbery was not discovered until the clerks came down to open up the store this morning. The case was reported to the officers, but so far there is no clew.

Shepherd-Anderson.

Dr. W. F. Shepherd, who is now located at Flanagan, and Miss Birdie Dolores Anderson, daughter of Hon. W. R. Anderson, of Carthage, were married at Longview last Friday, the 8th instant.

The marriage was a surprise to Dr. Shepherd's many Garrison friends, and we are informed that the bride's Carthage friends knew nothing of the event until the hymeneal knot had been safely tied. While it was not exactly a case of "love laughs at lock-smith's," it bordered along this line closely.

The bride is said to be an accomplished young lady, possessing all the charming traits of character essential in forming a lovely woman.

Everybody who reads the Gleaner knows the sterling qualities which constitute the make-up of the groom, and nothing we could say would add to the laurels he has won by his manly deportment in his daily walks among men and close attention to his profession—that of medicine. For Malarial Poison

Everybody knows that malaria, chills and fever, ague and such disorders, are caused by poison. Do you know how to prevent the poison from getting into your blood; how to drive it away, when there? Take Thedford's Black-Draught, the great vegetable liver regulator, so successful for over 70 years, throughout the Southern States.

No other like it, except its imitation, and those only in outward appearance. Appearances, and imitations, are deceitful. Be sure you insist on the genuine.

Thedford's BLACK-DRAUGHT

Edna Rutherford, of Atlanta, Tex., writes: "Thedford's Black-Draught has done me so much good that I wish to publicly acknowledge it. I suffered for five years with dumb chills and fever, more than I can tell. I tried all the medicines I could think of, but they did me no good. At last I took Thedford's Black-Draught and am wonderfully improved. I am better now than I have been for many months, thanks to your wonderful medicine." Tobacco Beats Cotton.

A Nacogdoches tobacco planter declares that a poor crop of tobacco pays better profits than a good cotton crop. This may be said of various other crops in this section, and yet it is hard to induce the average farmer to place his faith in anything but cotton. We do not believe that cotton should be abandoned as a crop, but think that its cultivation should be limited to that extent which will enable the farmer to grow such products as are needed at home and that other money crops should be added to cotton. The peanut industry has taken hold of farmers in the sandy land districts and this will prove to be a great blessing, but in other sections other crops may be substituted, in part, for cotton, and we hope at an early date.—Abilene Reporter.

NACOGDOCHES is bewailing the fact that it had no tobacco on display at the Dallas fair, and by the way, there was none at our own Truckers' fair, which however, had a good showing of tobacco from other counties.—Beaumont Enterprise.

Don't mention it. This lack of enterprise will not be permitted to occur again.

Pay Taxes in Cash.

The Austin Statesman offers this information for the benefit of tax payers and tax collectors:

"Under the law the state treasurer shall accept nothing but cash in the way of all remittances that come to the treasury department. This being the law it looks as if the tax collectors in remitting tax collections to the various state depositories, could be required to also deposit the actual cash. Now the tax collectors in order to comply with the provisions governing the state treasury department, as to accepting nothing but cash, should take nothing but the actual cash from the tax payers. Should such a rule be put in force, it is believed that it will soon result in much cash which is now buried in old drawers and other places, being brought to light and placed in circulation."

Drawing on Depositories.

State Treasurer Sparks stated yesterday afternoon that his plan to get cash from the thirty-one state depositories was proving quite a success. He received assurances yesterday from the various depositories that they would remit \$1000 requested by the treasurer. This will give the treasurer \$31,000, and the treasurer announced that he would continue to draw on the depositories at the rate of \$1000 a week until he had a maximum of \$100,000 in the treasury. When he had this sum available he would again resume the payment of warrants. He expected to get that much cash by the first of December or thereabout.—Austin Statesman.

How to Cure a Cold.

Be as careful as you can you will occasionally take cold, and when you do, get a medicine of known reliability, one that has an established reputation and that is certain to effect a quick cure. Such a medicine is Chamberlain's Cough Remedy. It has gained a world wide reputation by its remarkable cures of this most common ailment, and can always be depended upon. Its acts on nature's plan relieves the lungs, aids expectorations, opens the secretions and aids nature in restoring the system to a healthy condition. During the many years in which it had been in general use we have yet to learn of a single case of cold or attack of the grip having resulted in pneumonia when this remedy was used, which shows conclusively that it is a certain preventive of that dangerous disease. Chamberlain's Cough Remedy contains no opium or other narcotic and may be given as confidently to a baby as to an adult. For sale by Mast Bros. & Smith. dw

The Hall Remedy Co., Dallas, Texas. Iowa, Ia., July 3, 1904.

Dear Sirs—I have tried a great many Chill remedies, but have found none equal to Hall's Chill Cure for Malaria. A few years ago I had a severe attack of Chills and Fever and took many a dose of Chill cures. But they did no good and I had to wear them out. They commenced on the last year the same way, but in a worse form. A friend recommended Hall's Chill Cure and I took it. It is the best Chill and Fever and stopped them entirely. Whenever I have an attack of Chills or Malaria, I find them Hall's Chill Cure will make them well if they will take it. I never can get enough for Hall's Chill Cure. RHEUMATISM CAN NOT BE RUBBED AWAY

It is perfectly natural to rub the spot that hurts, and when the muscles, nerves, joints and bones are throbbing and twitching with the pains of Rheumatism the sufferer is apt to turn to the liniment bottle, or some other external application, in an effort to get relief from the disease, by producing counter-irritation on the skin. Such treatment will quiet the pain temporarily, but can have no direct curative effect on the real disease because it does not reach the blood, where the cause is located. Rheumatism is more than skin deep—it is rooted and grounded in the blood and can only be reached by constitutional treatment—IT CANNOT BE RUBBED AWAY. Rheumatism is due to an excess of uric acid in the blood, brought about by the accumulation in the system of refuse matter which the natural avenues of bodily waste, the bowels and kidneys, have failed to carry off. This refuse matter, coming in contact with the different acids of the body, forms uric acid which is absorbed into the blood and distributed to all parts of the body, and Rheumatism gets possession of the system. The aches and pains are only symptoms, and though they may be scattered or relieved for a time by surface treatment, they will reappear at the first exposure to cold or dampness, or after an attack of indigestion or other irregularity. Rheumatism can never be permanently cured while the circulation remains saturated with irritating, pain-producing uric acid poison. The disease will shift from muscle to muscle or joint to joint, settling on the nerves, causing inflammation and swelling and such terrible pains that the nervous system is often shattered, the health undermined, and perhaps the patient becomes deformed and crippled for life. S. S. S. thoroughly cleanses the blood and renovates the circulation by neutralizing the acids and expelling all foreign matter from the system. It warms and invigorates the blood so that instead of a weak, sour stream, constantly depositing acid and corrosive matter in the muscles, nerves, joints and bones, the body is fed and nourished by rich, health-sustaining blood which completely and permanently cures Rheumatism. S. S. S. is composed of both purifying and tonic properties—just what is needed in every case of Rheumatism. It contains no potash, alkali or other mineral ingredient, but is made entirely of purifying, healing extracts and juices of roots, herbs and barks. If you are suffering from Rheumatism do not waste valuable time trying to rub a blood disease away, but begin the use of S. S. S. and write us about your case and our physicians will give you any information or advice desired, free of charge and will send our special treatise on Rheumatism.

Our Darling is Gone.

The Death Angel crept into the home of Mr. and Mrs. J. B. Tutt and took one of the sweetest flowers of earth. Little Gladys Tutt was four years, four months and 17 days old, when God in His wisdom saw fit to take her from this world of sorrow to a brighter world above. Dear father and mother, weep not for that sweet morning star of love, for sweet little Gladys was too much of an angel for earth. She has gone to that land so bright where pain nor death comes no more, where her Savior has gone. She is one of heaven's bright angels.

Dear father and mother, try to meet that sweet little darling of yours. She is not dead; she is only asleep in Jesus. Blessed love where none ever awakes to weep. Our blessed Savior has promised never to leave us alone. Look to Him through faith. He can heal your broken hearts and wipe all tears away. Dear father and mother, turn and give your hearts to Jesus and live the sweet life that your little darling has lived, and when the death angel comes for you he will take you to glory where your little Gladys is. Then there will be no more sad parting, no tears, no pain shall ever come. O what a blessed thought to know that she is one of heaven's sweetest stars. O how her crown does shine in her savior's love. Her Aunt, Jennie Parmley.
