MRS. SARAH HUNT DEAD.

Aged Lady Passes Away Last Night—Resident of Texas 95 Years—148 Descendants.

From Tuesday's Daily:

Mrs. Sarah Hunt, mother of Mrs. George W. Cavin, died last night at a few minutes past ten o'clock at the home of her daughter on North street. Mrs. Hunt has been here on a visit from her home at Garrison for two or three weeks and has been sick almost all of the time. Mrs. Hunt was born Oct. 26, 1823 in Talladega county, Alabama. In 1840 she married Benjamin Griffin, the family moving to Texas in 1849. In 1855 she married John Hunt. She has been a resident of Nacogdoches county 53 years, a member of the Baptist church 65 years. Surviving her are 148 children, grand children and great grand children. The remains were shipped to Garrison on the noon train for interment this afternoon at 4 o'clock in the Cole Springs cemetery, four miles from that place.

Mr. Procter Coming

An agricultural meeting to be held in connection with the teachers institute is being planned and an effort will be made to have a large attendance of farmers as well as teachers and business men. State agricultural agent, W. F. Procter has been invited and it is believed he will be here. G. W. Orms of Simpson will also be here. The agricultural meeting will be held Wednesday, December 23.

Will Arrive This Week.

Cullen Doughtie, who is quite ill at Hattiesburg, Miss. on account of an accident some week or so ago, is expected to arrive in Nacogdoches some time this week. His condition is thought to be no better. Mrs. Doughtie will accompany her husband and they will remain here until he gets well.

SMASHUP AT HAYWARD

Carriage Goes Wild, Breaking Cae Man's Leg—Two Other Men Injured.

From Tuesday's Daily:

An accident occurred yesterday afternoon at Hayward mill, and in which one man suffered a broken leg, two other men were injured and the big plant is closed today for repair. A plank that should have been carried off by the rollers, after it had fallen from the saw, in some way caught, throwing the guide lever free and allowing the carriage to go free. The carriage was running with such speed that when it was stopped suddenly, Ivey Slocum, the rider, was thrown off against some stock breaking his left leg just below the thigh. Two other men standing near were also injured, but slightly. Slocum was carried to the home of his parents, who live near, and the fractured limb set and bandaged. He is reported as getting along well today. Quite a damage was done the carriage in the smashup, necessitating the closing down of that department until repairs can be made.

Allan Seale has returned from St. Louis where he spent a week in market. Mr. Seale stated today that lots of merchants were in St. Louis and were buying heavy, believing in a good future trade and also reported splendid fall business. Mr. Seale purchased quite a large stock, from staples, to fancies and is today busying himself opening up and putting on display the new stuff.

Negro Child Burned.

A negro child about five years old was severely burned Sunday night in the quarters between town and Hayward mill, from the effects of which it is expected to die. It is said the child was at home alone, its dress catching at the fire place. The clothes were burned off of it and the body is badly burned.

CASON MONK & CO.

614 HARDWARE FOLKS

In the County Court.

County court is grinding away this week, disposing of the accumulated business as rapidly as possible. A number of cases were continued Monday, for trial next term, and yesterday the first case went to trial. Toss McKnight was found guilty of the theft of a pistol, was fined \$50 and given six months in jail. Today the trial of W. T. Skeeters of Appleby is in progress and will probably be finished during the afternoon. He is charged with aggravated assault.

Excellence.

I have just received a car load of the Excellence flour and can supply all patrons using this flour. Excellence flour is by reputation the best guaranteed flour in the city. Phone me now and use Excellence for Thanksgiving. d3t-wit G. H. King.

Special bargains in mens hats, shirts, underwear, clothing and shoes at Zeno Cox's, Jr.

From Lutkin News.

R. H. Powell arrived on the afternoon train from Nacogdoches where he has been for several days on business.

John Motyl, wife and baby, of Nacogdoches came in on the afternoon train.

Wattie Anderson, a former Lutkinite who is now located at Nacogdoches, came in today accompanied by his wife and baby.

Mrs. Jones is in the city from Nacogdoches to visit her son, after which she will visit relatives in Tyler.

Hexamethylenetetramine

The above is the name of a German chemical, which is one of the many valuable ingredients of Foley's Kidney Remedy. Hexamethylenetetramine is recognized by medical text books and authorities as a uric acid solvent and antiseptic for the urine. Take Foley's Kidney Remedy as soon as you notice any irregularities, and avoid a serious malady. Mast Bros. Smith.

ENORMOUS COTTON RECEIPTS

Galveston Proves Herself The Greatest Cotton Port in the World.

Receipts of cotton at the port of Galveston yesterday were 51,592 bales. Receipts at all ports were 90,205 bales, indicating that this port yesterday received over 57 per cent of all cotton received at United States ports. To date Galveston has received 1,487,845 bales, while the total received at all United States ports is 3,762,039 bales. This means that the port of Galveston has received practically 40 per cent of all cotton received at United States ports. The combined receipts of New Orleans and Savannah for the season up to and including yesterday's receipts are 1,384,990 bales. This means that the port of Galveston has received 102,852 bales more to date than have both the other large cotton ports of the country. These figures prove that Galveston is the greatest cotton port in the world.

I have just received another car load of Pond Lilly flour. See or phone me at once. d3t-wit G. H. King.

Some Good Yields.

James F. Greer, agricultural agent for this county, was in the city yesterday on business connected with farming. He stated that an excellent agricultural meeting was held at Appleby Saturday and with a fairly good attendance. He stated too, that a number of good reports had been made from in and around Appleby, among them: T. E. Bass off one acre of cane has made 465 gallons of syrup, besides saving 3,500 stalks for seed. Stock injured the crop too and lots of cane was given away. No fertilizer was used, nor was the crop irrigated. Another gentleman living a few miles north of Appleby gathered 2000 pounds of cotton from one acre, which ginned 38 1-2 per cent; still another gathered 1935 from an acre which ginned 40 per cent. The latter did not have a very good stand. It is possible that there are others in the county that did as well as these men, but they have not yet made reports.

Clothing at actual cost as long as it lasts at Zeno Cox's, Jr.

The Opportunity of the Season Is Now Before You

I have just returned from St. Louis where I attended the BIG PRE-INVENTORY SALES of the Dry Goods houses of St. Louis and the sales of the Louisville Dry Goods Co's bankrupt stock. I got some great bargains in these sales and am going to make some RED HOT PRICES. They are arriving. Every day new things are coming. Bought some good values for you in Hamilton-Brown Shoes. You simply cannot afford to miss this opportunity of buying goods for much less money than others can afford to sell them.

REMEMBER, I GUARANTEE MY PRICES. I mean by my guarantee that if you can find the same goods anywhere else for less money than you paid me, I will cheerfully refund your money and take the goods back.

THE PRICE MAKER **ALLAN SEALE** THE PRICE MAKER

ALLAN SEALE, THE PRICE MAKER

ALLAN SEALE, THE PRICE MAKER

Weekly Sentinel.

HALTOM & HALTOM, Proprietors.
GILES M. HALTOM, Manager.

AN exchange is using the expression, "go to war," quite frequently. Most every one knows what General Sherman said war is.

THERE are thousands and thousands of acres of the very finest kind of land in Nacogdoches county that has never come in contact with a plow point, but that ought to be in cultivation. Nacogdoches county needs 1,000 new farmers for 1909.

The Arlington Journal is one of the brightest papers in the state and is certainly doing a great part by that busy little city. At present the Journal is endeavoring to wake up the mossbacks and it looks as if it is going to be successful. Here's to the Journal!

ORANGE county is preparing to send an exhibit to the Southeast Texas Fair, including tobacco, corn, produce, etc. And Nacogdoches failure to send a nice display, especially of tobacco, means that Orange county will walk off with first prize.

It has taken a long time to get the one-crop idea out of the farmers heads but it's about gone. Nacogdoches county farmers have been diversifying for some time and of late years they have paid special attention to such. 1909 will see more diversification than ever before.

THE rain and cold spell may work a hardship on the man who has not yet finished gathering his cotton and corn but it is fine on lands. As soon as it is possible, plowing should begin and by January 1st halt the farming land in the county should be turned. Break early and break deep.

WE learn from the Orange Leader that Jawn W. Gates has come back to Port Arthur. Now we may expect to learn through the News that some more "owl meetings" relative to hotels, railroads, golf links etc. are being held in that village. Port Arthur is on the coast—a few miles from Beaumont.

WHILE the great West Texas is shivering with cold from the rain and sleet and snow, the great East Texas is enjoying sunshine. It's nice to live in East Texas and if those western folks just knew, lots of them would come right to this section to live. Nacogdoches county needs more folks and Nacogdoches county ought to invite them to come.

EVERY citizen of Nacogdoches county should visit the two and half miles of good road that has been built under the supervision of the government. Not only visit it but inspect it. It is just an example of what needs be done in every section of the county and what will be done if the farmers and merchants and other citizens of the county will investigate the worth of this piece of good work.

RAILROAD BUILDING.

In keeping pace with all other improvements and developments in Texas, the railroad business seems to be getting a big hump on itself. Every paper, almost, that one picks up, chronicles some railroad improvement or construction. Road beds are being put in better condition, rolling stock being purchased, shops, round houses, depots and other properties added to and contracts for new lines being let. In West Texas the Orient, a trans-continental line is pushing work rapidly; a line is projected from Abilene to Ballinger; from San Antonio north another road will no doubt be built in the near future; interurbans will likely be built from Cleburne to Forth Worth, from McKinney to Sherman and from Marlin to Waco. Here in East Texas railroad building has been taken up again. Lutkin has a new road and may get another in 1909; Marshall is to be connected by steel with Port Arthur and the Sante Fe is to be extended. Dozens of propositions are finding favor in the various politions of the Texas and others are embryo. There is no surer sign of progress or prosperity than railroad building. There can be no better aid to development than railroad building. The cry that some of the strong partisan papers are sending forth—"a manufactured prosperity"—doesn't find lodgement with us for the very reason that we don't care whether the prosperity is manufactured or not—so long as it is here and gives signs of staying. Prosperity is smiling on Texas and her people now, and railroad building is an excellent index to the future.

THE killing of Ex-Senator Carmack on the streets of Nashville a few days ago, but emphasizes the fact that pistol toting can result in no good whatever. Texas has put the ban on pistol toting to some extent, yet it hasn't stopped it entirely. When the maximum fine and a jail sentence both are levied against the man who carries such weapons, then and then only can we hope to see the pistol toter go the same route that the long horn cattle have gone.

If half the money on deposit in Nacogdoches banks was invested in industries here, such as a creamery, a cannery, a handle, a furniture and a cotton factory, everyone of these would be running full time, making dividends for the investors, employing hundreds of men and old prosperity would have on her best clothes. The greatest development of any city is made with home capital and there is no occasion for money to be idle when it could be put out at such good advantages. Every one of these industries would make money here.

A WRITER in an exchange gives the following definition of nasal organ: "The nose is the culminating point of the face—the canopy of the kisser. It is the drunkard's signboard and a nocturnal trumpet. It

is a drop valve for sweat, a roost for flies and a punching bag in a prize fight. It is the toll gate of your smelling apparatus, and a despoiler of handkerchiefs. The nose is your sneezing instrument. It is the bay window of your face and sometimes gets the light knocked out of it. It can be used as an automatic skunk detector, and it is the royal bumper when you come in contact with the earth.

EDWARD WARD CARMACK, late senator from Tennessee, was shot down in the street; a victim offered at the shrine of politics. A learned scholar, a brilliant statesman, a brainy man, and one who will be mourned for over the entire South. It is regrettable when politics become so filthy that men are branded for slaughter and then slaughtered for fun. Then is when politics are sinful and sins run to crime.

A NEW concrete sidewalk will attract the attention of your neighbors and a dozen concrete sidewalks will attract the attention of the outside world—and will help toward getting free city mail delivery. No one will deny the advantages of sidewalks and surely no one will deny that they will enhance the value of property. Then why not have them? Get Nacogdoches out of the mud!

THE editor of the Terrell Transcript is worrying very much on account of the "raffle nuisance" as he terms it, and which is now in his city so strong. He can't go to the post office, doesn't call on a merchant, dodges around corners and hides to eat a meal for fear of some fellow with the "take a chance mister?" It use to be thusly, they say, in the city of Nacogdoches, but once upon a time the city council passed an ordinance—and now there is no raffling in the redlands town.

"Build permanently when you build" was the advice given a body of men by a city official a few days ago, and it's worthy of attention. Permanency begets permanency, creates confidence, means progress and sets an example that will cause more of such. Temporary building—arrangements for the present—and similar doings are calculated to do no good whatever—in fact do harm. When you do a thing do it right and put it there to stay. "Temporary" carries the idea of being unsettled, and not altogether satisfied. Build lasting.

THE streets in Nacogdoches that haven't had any work done on them for years. There are mud holes and jump offs and little washes that ought to be looked after. There are street crossings in the business part of the city that should be built. This may sound rather harsh in a sense, but its facts. It only one or two—or a few—noticed and commented on such, we would pass it and designate the tribe as "grouch" and "kickers," but when such subjects become absorbing topics of every day conversations, it

COUNTING CONTEST

Given Away \$5,000.00 In Valuable Prizes to Counters

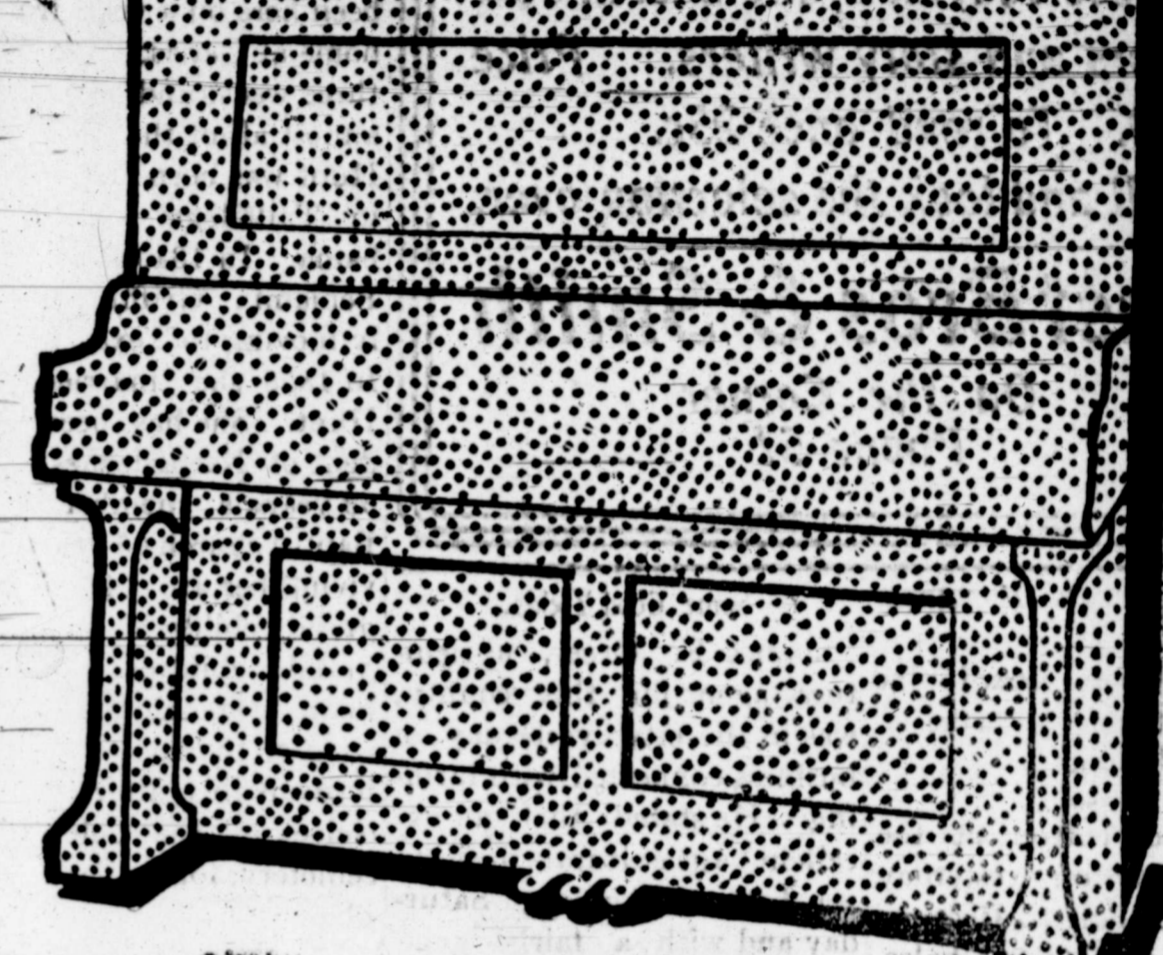

Do You Want to Win a Valuable Prize? If So, Enter the Great Counting Contest of the W. A. LEYHE PIANO CO.

Prizes Will Be Awarded as Follows:

ONE CELEBRATED KIMBALL PIANO, VALUED AT \$450 AS FIRST PRIZE. A HANDSOME \$150 SIX OCTAVE KIMBALL ORGAN, SECOND PRIZE AND A FINE \$100 KIMBALL ORGAN AS THIRD PRIZE AND OTHER PRIZES AMOUNTING IN VALUE TO \$4,300.00 IN ORDER OF MERIT MAKING A GRAND TOTAL OF \$5,000.00.

Remember it costs nothing to try except use of your brains. Our reason for distributing these valuable prizes is

WE ARE HEADQUARTERS FOR HIGH GRADE PIANOS

KIMBALL PIANO

and we want to be thoroughly and favorably known throughout the state as dealers in but one quality, and that the best that money will buy, and we want everybody who is interested in the purchase of a Piano, Organ, Upright or Player Piano, Upright or Grand, to investigate. Call at our warerooms, West Ferguson Street, and examine our stock, and give us a chance to prove all we claim.

IT IS EASY—Just Count the Dots That Appear on the Outlined Kimball Piano

The correct number of dots will be made known to the judges, who are well-known business men of Tyler, December 1st, and will be wired to the business office of the Courier and Times by the manufacturer. No one else knows it. Each answer will be numbered consecutively as soon as received and will be opened by the following committee: Messrs. J. L. Jester, of the Jester National Bank; J. L. Adams, of the Courier and Times; and T. L. Webb, president Tyler Box factory.

Anyone residing in the United States is entitled to one answer. When more than one answer is received from the same party, all but the first will be discarded. This contest positively closes Tuesday, Dec. 1, at 6 o'clock p. m. All answers must be written plainly and the coupon filled in, giving name and address. Also state whether you have an Organ, Square or Upright Piano, giving name. No one engaged in the music business nor any one employed by this firm or any other music firm will be allowed to participate in this contest. More than 1,000 people throughout the state of Texas ATTEST TO OUR FAIR AND HONEST DEALING who have purchased Pianos from us. We carry in stock over 100 Pianos and have the best lines in the state, and the prices on the famous lines of Pianos handled by us are well established and are marked in plain figures, and have been sold here for many years. Our factory distributors for Chickering Bros., Kimball, Davis & Sons, M. Schulz Company, Crown, Eckard, Mathushek, Ludwig, Walworth, Irving, Whitney, Hinze and others of established reputation; also Kimball Piano Players, Player Pianos and Crown Combination Pianos. Address all guesses to Contest Department.

TYLER, TEXAS

seems that something should be done. One sure the good work that has been done is appreciated, but Nacogdoches needs more.

Somebody advised us today to let street crossings alone. "Pears like we are going to have to, for if there is now, or ever has been, a street crossing in the town, somebody has carried it into the town—what it needs street crossings.

THE Civic League of Calvert is getting busy in the city. They have designated Nov. 21 as "burning day." The alleys, streets, vacant lots etc. of that city have been undergoing a renovation as a result of the ladies efforts and Calvert promises to be "handsome" looking when they get through. Reminds us that the Nacogdoches Civic League could do some good work especially on our college campus.

If you have any Pictures you want enlarged, let

West Side Public Square NACOGDOCHES, TEXAS

Just One-Half

The money you "blow in" foolishly, if invested in a bank account, would soon put you on "easy street." If you are spending all you earn, it is unfair to yourself and those who may be dependent on you. You have noticed the manner in which small amounts expended count up in a month. A part of such expenditures saved will allow you to have an account at this bank. Start with One Dollar. Have a bank account with

The Stone Fort National Bank

A SURGICAL OPERATION

If there is any one thing that a woman dreads more than another it is a surgical operation.

We can state without fear of a contradiction that there are hundreds, yes, thousands, of operations performed upon women in our hospitals which are entirely unnecessary and many have been avoided by

LYDIA E. PINKHAM'S VEGETABLE COMPOUND

For proof of this statement read the following letters.

Mrs. Barbara Base, of Kingman, Kansas, writes to Mrs. Pinkham:

"For eight years I suffered from the most severe form of female troubles and was told that an operation was my only hope of recovery. I wrote Mrs. Pinkham for advice, and took Lydia E. Pinkham's Vegetable Compound, and it has saved my life and made me a well woman."

Mrs. Arthur R. House, of Church Road, Moorestown, N. J., writes:

"I feel it is my duty to let people know what Lydia E. Pinkham's Vegetable Compound has done for me. I suffered from female troubles, and last March my physician decided that an operation was necessary. My husband objected, and urged me to try Lydia E. Pinkham's Vegetable Compound, and to-day I am well and strong."

FACTS FOR SICK WOMEN.

For thirty years Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has been the standard remedy for female ills, and has positively cured thousands of women who have been troubled with displacements, inflammation, ulceration, fibroid tumors, irregularities, periodic pains, and backache.

Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health. Address, Lynn, Mass.

GROWERS SUE TAUSIG.

Allege Failure to Carry Out Contract for Purchase of the Crop.

Galveston News.

Palestine, Tex., Nov. 15.—Suit has been instituted against A. Tausig of Chicago by the Anderson County Tobacco Growers company, alleging failure on the part of the defendant to comply with a contract for the purchase of the tobacco crop. This suit is the culmination of considerable friction that has been evident for some time between the growers and Tausig and the progress and outcome of this litigation will be observed with particular interest in this section, in view of the increase of interest in the cultivation of tobacco.

Mr. and Mrs. George Shaw left Saturday, presumably for Whitenight. Mr. Shaw has been conducting the Redlands Hotel here for some time. It is not yet known who will take charge of that hostelry.

J. C. Fall returned last week from Ada, O. K., with a spell of grippe and has been quite sick for several days. He is reported convalescent however, at present.

ELECTION RETURNS CANVASSED

Only 1728 Votes Cast In The County—Two Ballots Elect a Surveyor.

The commissioners court yesterday at noon finished canvassing the returns of the general election, Nov. 3, and have filed their report with the county clerk. Out of a total of nearly 5,000 votes in the county, only 1728 were cast, less than 30 per cent. J. H. Brantley and A. T. Russell led the ticket in the county with 1578 votes while A. J. Spradley brought up the rear of the county ticket with 1537. The populists of the county showed their strength with the Presidential Electors, as did the Socialist Labor party, but must have scratched the remainder of the ticket. The Prohibition folks, a total of two, scratched the Presidential Electors but voted for the candidate for lieutenant governor—the only other name on that ticket. An amusing feature of the election was the county surveyor, who was named for that office by a sum total of two votes. There was no avowed candidate for the place but two cast ballots for Jess Pye of Sacul. Whether or not he will qualify is not known, some think he will—others believe differently. Anyway, he was elected and with only two ballots. In the following returns, the first names under each sub-head is Democratic; second Republican; third Socialist; fourth Socialist Labor; fifth, Peoples and sixth, Prohibition.

COMMON SENSE

Leads most intelligent people to use only medicines of known composition. Therefore it is that Dr. Pierce's medicines, the makers of which print every ingredient entering into them upon the bottle wrapper and attach its correctness under oath, are daily growing in favor. The composition of Dr. Pierce's medicines is open to everybody. Dr. Pierce's medicine is the only one having the guarantee of having the same ingredients in every bottle.

Murph-Smith.

A wedding around which has centered the loving interest of many friends was quietly solemnized last Tuesday afternoon at 5 p. m. at the home of Mrs. J. E. Murph when her daughter, Miss Tommie, became the bride of Mr. A. H. Smith. The plan of ornamentation in honor of the event was simple but effective a profusion of palms, ferns and vines without flowers making a fitting for the pretty but unostentatious wedding the soft light of candles throwing a soft radiance over the scene. Beneath the vine wreathed archway separating the parlors the young couple stood plighting their troth, Rev. J. W. Mills being the officiant and the couple enjoining the strains of Mendelssohn's Wedding March played by Mrs. W. H. Johnson. During the ceremony "The Flower Song" was rendered. The bride was attired in an exquisite gown of white messaline made empire and wore a plume laden white hat, carrying a shower bouquet of white carnations. The guests were drawn from the immediate relatives of the contracting parties and a few of the very closest friends, nevertheless many beautiful gifts testified to the affection and esteem in which they are held. Immediately after the ceremony the young couple accompanied by the best man, Mr. Blum Mast and Miss Jennie Hoya repaired to the Watson hotel where they partook of a dainty supper, such as the cuisine of the Watson hotel is noted for. Mr. and Mrs. Smith will be at home at the Watson hotel during the winter.

Near Deaths Door.

"I was near death's door. The doctor said he had done all he could; that my stomach was old and worn out. I was so weak I could not walk. I took Mi-o-na tablets, and have been eating hearty ever since, and I am able to work like a tiger. I wish I could go and thank you myself. I send you my picture, and you can use my word and my picture, and I thank you again."—Mrs. Nelson Lucier, 112 Fisk St., Athol, Mass.

Mi-o-na cures dyspepsia. If any of the readers of this paper are suffering from stomach trouble of any kind, Stripling, Hazelwood & Co. will sell you a box of Mi-o-na for 50 cents with an absolute guarantee of relief, or money back. In many cases one box will effect a permanent cure; in chronic conditions more is necessary. But one thing is certain, one box of Mi-o-na will make you feel so much better and brighter, so much more energetic, that you will not give it up till cured.

S. M. Adams has returned from a visit to Houston.

TALKING BACK.

ABOUT SIDEWALKS.

The mad with a pretty home, a beautiful lawn and flower garden, but with no sidewalk around the place, is not doing what should be done. Nice sidewalks are worth more than any improvement that can be made. —Nacogdoches Sentinel.

A pretty home, with the outward and visible effects of refined taste which a green lawn and fragrant flowers symbolize, but without sidewalks, is like a man dressed in faultless evening clothes minus a shirt. There is no excuse for any homesteader's failure to supply a sidewalk for his premises except absolute poverty. —Galveston News.

THE FARMERS MISTAKE.

The demonstration farm work to be done in this county next year will no doubt open the eyes of some of the people at least. The idea that Nacogdoches county is not fit to raise anything but cotton, corn, long horn cattle, scrub horses and razorback hogs has become imbedded in the minds of a few to the extent that we fear it can never be dislodged. Watch the demonstration work of 1909 and you'll see. Watch Nacogdoches come to the front. —Nacogdoches Sentinel.

There are none so blind as those who will not take even one peep. In reality, there are none in Nacogdoches but know that the soil of that county will produce just about anything in the way of vegetables. The reason that so many stick to one crop and adhere to outworn methods and fallacies is that it is easier to do that than to do something they don't want to do. —Dallas News.

A REPUBLICAN'S VIEW.

When that old "dominick" rooster gets up on the top rail next Wednesday morning about the break o' day and gives forth that vigorous Democratic cry, you just ought to slide off to a back alley and wish for a patent kicking machine, because you didn't contribute to the campaign fund. Give a dollar today and save yourself such humiliation. —Nacogdoches Sentinel.

And yet, despite the crow of the Democratic chanticleers, not an owner of them will be accorded the blessed privilege of kicking a postage stamp as a fourth-class postmaster. A notary's commission from Governor Tom, or the crumbs that fall from the table of the Text Book Board, is the best any one of them can hope for or expect. —Texas Republic.

GAME OF LIFE.

If a man is successful and everything goes along smoothly, this is a fine old world; if a man has ill luck and some worry, this is a hard old world; and yet this is the same old world whether one is successful or not. —Nacogdoches Sentinel.

Too often the man who fails to accomplish anything in this old world attempts to

A Constipation Remedy Free

There is no action of your daily life of greater importance than to see that your bowels move. They should move at least once a day naturally, and by that is meant without any help. If they do not move at least once a day you can consider yourself constipated and it is time you did something about it.

You will be glad to know there is a way out of the difficulty. Lemuel Landerdale, an old soldier at Quincy, Ill. Elmer McMillan, of Spook, Mo., Mrs. Monahan, of Stoneville, Miss., and many others were as you are now. But one day they awoke to the fact that Dr. Caldwell's Syrup Pepsin was curing their friends, so they bought it too and it cured them. Today they are loud in praise of it.

What Dr. Caldwell's Syrup Pepsin did for them it should do for you. Surely your constipation is no worse than theirs, one of whom had it since '61. It only remains for you to realize that salts are of but temporary good, and what you want is a permanent cure, that purgative, cathartic pills and such violent things but do nothing that is lasting. Dr. Caldwell's Syrup Pepsin is a scientific preparation, a laxative, a mild syrupy liquid that contains ingredients that not only cure the constipation, but tone the intestinal muscles so that they learn to work without help. A bottle can be bought of any druggist for the small price of 50 cents, and there is a dollar size for families who have already found out its wonderful value in stomach, liver and bowel troubles, in old or young.

Send your name and address to the doctor and a free trial bottle will be sent you so that you can test it before buying. If there is anything about your ailment that you don't understand, or if you want any medical advice, write to the doctor, and he will answer you fully. There is no charge for this service. The address is Dr. W. B. Caldwell, 515 Caldwell Bldg., Monticello, Ill.

place the blame on his ill luck or lack of opportunity. The world is wide and full of chances for the man who has grit, energy and perseverance. More often than otherwise the one credited with gaining success in his chosen field of endeavor through the good graces of the god of chance could tell a marvelous story of long hours of toil and study, while the unsuccessful one was enjoying the pleasure of society or his home life. In the game of life you are dealt a similar hand that of your neighbor and should you overlook a good bet or fail to play the pasteboard properly, you are to blame and should not complain of the deal. The world, except in rare instances, is very much as we make it. —Wills Point Chronicle.

The Teachers Institute.

Programs for the Nacogdoches county's teachers institute have just been printed and Superintendent R. W. Tillery is busying himself mailing them out. The institute convenes December 18th and will continue until the 24th, the sessions to be held at the College auditorium, the colored teacher's however will meet at their school building. The program just issued is an excellent one, and includes many subjects of great importance, not only to teachers, but parents and trustees.

T. J. Kounce, merchant, of Emmons, Shelby county, was in the city yesterday on business.

Syrup of Figs and Elixir of Senna

acts gently yet promptly on the bowels, cleanses the system effectually, assists one in overcoming habitual constipation permanently. To get its beneficial effects buy the genuine.

**MY OWN FAMILY USE
PE-RU-NA.**

HON. GEORGE W. HONEY.
Hon. George W. Honey, National Chaplain U. V. U., ex-Chaplain Fourth Wisconsin Cavalry, ex-Chaplain State of Wisconsin, and ex-Chaplain General State of Texas G. A. R., writes from 1700 First St., N. E., Washington, D. C. as follows:

"I cannot too highly recommend your preparation for the relief of *catarrhal troubles in their various forms*. Some members of my own family have used it with most gratifying results. When other remedies failed, *Peruna* proved most efficacious and I cheerfully certify to its curative excellence."

Mr. Fred L. Helard, for some years a leading photographer of Kansas City, Mo., located at the northeast corner of 12th and Grand Aves., cheerfully gives the following testimony: "It is a proven fact that *Peruna* will cure *catarrh and its grippe*, and as a *tonic it has no equal*. Druggists have tried to make me take something else 'just as good,' but *Peruna* is good enough for me."

Pe-ru-na in Tablet Form.
For two years Dr. Hartman and his assistants have incessantly labored to create *Peruna* in tablet form, and their strenuous labors have just been crowned with success. People who object to liquid medicines can now secure *Peruna* tablets, which present the solid medicinal ingredients of *Peruna*.

Yes, sir, we are tee-totally ashamed of the way Missouri did on Nov. 3 and from now on are going to be from Arkansas.

A NEGRO by the name of Deckard made a whole sale killing in Okmulgee Monday. Another case of pistol toting vs. peace.

SAN ANTONIO is to have a snake farm and Editor Ford of Orange thinks it will be located in the neighborhood of the breweries.

PISTOL toting in Texas has not been lessened though the penalty was made more severe two years ago. The 31st Legislature ought to take steps toward having the law more rigidly enforced or repeal the whole ka-boshed thing. But pistol toting ought to go, and the only way to put a stop to this menace to peace and civilization, is just to stop it. It can be done.

CLEBURNE, Texas, is one of the hustling, busy, growing cities that is now attracting much attention by its great strides of progress. One of the biggest and best propositions undertaken is the building of sidewalks and that the movement was hard to start, once started it continued rapidly, and has not checked the least. Sidewalks are essential to the welfare of a city and those husky, energetic central and western Texas towns know it and refuse to sleep on their rights. Cleburne hasn't always been a city of 10 or 12 thousand people and it's most telling

progress was made while growing from a population of 6,000 to 10,000. And there are lots of other places that are doing just as much. What has been done by others, can be done by Nacogdoches.

300,000 ACRES of fertile, tillable lands means a 50 acre farm for 6,000 men—a population of 30,000 in addition to our present. It is a golden opportunity for those several thousand people and one which would be taken advantage of, if they were but apprised. 300,000 more acres under plow in Nacogdoches county would mean four times the wealth we have; four times the taxes we collect; four times the agricultural output and several times the amount of business that is now transacted.

THE suggestion that has been made a number of times of late that Nacogdoches county people should begin now to plan something for exhibit at next year's Dallas Fair, is one worthy of much consideration. If this county puts forth the efforts she should; plants carefully, cultivates thoroughly and selects the choicest products, there is no question but what the famous redlands county can go to Dallas and capture prizes that she heretofore has been letting go to other sections. And the time to begin in this matter is right now.

THE sturdy farmer, the man of the soil, nature's own handiwork and the back bone of this big world, pauses not to throw a stone but plods along, light hearted, merry, and enjoys the beauties of a land. He lives the life that is allotted him, free from the cares of crowded thoroughfares, free from the vicissitudes of vanity's cravings, and in a little world almost his own. His existence is not the dreary one that oftentimes is portrayed, and every day begins a new chapter. To the honest son of toil and the soil, we doff our hats.

THE Supreme court has denied the appeal of Patrick, murderer of the Texas millionaire, Rice. This is the last resort of the attorney and that he is doomed to spend the remainder of his life in Sing Sing seems to be positive. Patrick has maintained throughout that he is innocent of the crime, but whether or not that is true, is of no consequence, in as much as it was proven that he committed murder. This fact is clear however, Patrick's life around Rice was of a nature to create suspicion. Had he been above such, he would have had a comparatively easy time proving himself innocent of the crime charged against him.

THE Rusk Press-Journal and the Palestine Herald are advocating that a number of East Texas counties join hands and advertise this section. This proposed movement is along the line of a suggestion made by the Sentinel some three or four months ago, and we now express a hearty approval of such a plan. Hardly think it advisable at this time for

the Commercial clubs of the entire state to organize for an advertising purpose, and for a number of reasons. We do think however that a dozen—or two dozen—cities on counties of East Texas could band together and do a great good, bring lots of people here and aid in developing the rich lands, hidden resources, and possibly too, do much toward resurrecting the latent energies of the people who are already here. The plan suggested by these papers is no doubt a good one and it is moved that one of these towns get into it a little further and make definite steps toward such an organization.

IT is quite possible that the year 1909 will see a Federal building erected in Nacogdoches. At the last session of congress, Hon. S. B. Cooper secured an appropriation of \$5,000 for the purchase of a site and our new member of that body, Hon. Martin Dies, has assured the people of this city that he will do all possible to get an appropriation for the building itself. Nacogdoches has attained that position which carries with it the need of a Federal building; she has arrived at that stage where another convenience is her's for the asking—free city mail delivery. These two things ought to be among the steps of progress for Nacogdoches during the year 1909. But there is another step—a most important one and one that deserves the undivided attention of every citizen of the commonwealth. Nacogdoches county needs a court house. That she hasn't any is plainly evident. The old structure that now stands, built 20 years ago at a cost of \$12,000 or \$15,000, is a blot on the county—the people. Every farmer, merchant and every other citizen of this county should, and we presume do, feel a genuine pride in their homes, places and properties of a community, and yet there is not one, we suspect, that would dare risk staying in the alleged Nacogdoches county court house, for fear it would tumble in on them. Cobwebs, dirt and filth, from beginning to end, ventilated by cracks, uncomfortable to say at all and illy arranged, it presents a scene of most anything but a court house. A good deed for 1909 would be build a real nice court house.

WILLIAM JENNINGS BRYAN was again the guest of Texas people Monday and Tuesday, enroute to Mexico to spend a few weeks recuperating. It is needless to add that the great commoner, the thrice defeated candidate for the highest office in the land and the idol of Democracy, was given a most cordial reception at every stopping point. Mr. Bryan's great battle and the defeat, according to dispatches, has lessened his physis and furrowed his brow, but he is bearing such philosophicality. He is still that great man, counselor for the common herd and the check-mate of, and enemy to trusts, combines and undemocratic government. The people of Texas and the solid south are,

and will ever be, loyal to the brilliant statesman of the Platte and within the confines of the biggest and brightest commonwealth of the entire union, he will always be a welcome and an honored guest. He is today the cleanest politician in the land and no taint of Standard oil or any other rotten system can be laid at his feet. As again the editor of a world real paper, his friends and supporters will rally round him, and wish for him too a speedy return to health.

NACOGDOCHES is going to overlook one of the best opportunities that has ever been her good fortune to have if she fails to secure a tobacco packing house. The time has come in the life of that industry when a movement is to be made that will result either in a wonderful good for our city or a great harm to it. The industry cannot proceed much farther without a packing plant and Nacogdoches is the logical point for its location. Enough tobacco was grown this year, in this county alone, to have kept a plant busy for many months and would have caused it to pay handsome dividends to stockholders. It is a settled fact that a plant will be erected and already there are three cities bidding for it. We believe that the tobacco section of East Texas, as a whole, would be favorable to the fourth bidder, Nacogdoches, and further believe the people of this city should become active in this matter. This is not only a proposition for the merchant, business man, banker and capitalist, but for the farmer as well, and especially the man who expects to grow tobacco. Every one of them could well afford to make a small investment and every business man should take a hand. In a few days a gentleman, a tobacco grower, will be here to talk with the people about such. Don't pass it by but lend all the moral and financial support possible. Nacogdoches needs the packing house.

It is told of Henry Grady, says the Baird Star, that he was once stopping in New York with a view of locating in that city. One day a tiny coffin was taken from a house adjoining his boarding house. He asked the landlady the child's name and how long it had been sick, and where the funeral would be, to all of which she answered: "I am sure I don't know, it's no funeral of mine." Grady turned to his wife and said: "Let us go back to Georgia; I don't want to live in any place where your nearest neighbor's heart can break because of the death of a little child and you are too engrossed in your own affairs to go and tenderly make them feel the sweetness and helpfulness of human sympathy. Down South a funeral in a neighbor's family is our own common sorrow, and no business prevents our rendering such loving service as makes us feel that we are neighbors in deed and in truth. Let us go back home where human sympathy helps

us bear trouble and where sorrow and joy are felt as if they belonged to us as well as them."

WHAT'S the use of pulling a thorn when you could pluck a flower? What's the advantage of climbing rocky paths when you could travel smooth roads? What's the excuse for stumbling along, hesitating on account of trivial troubles, when a little energy would put you beyond such? What's the logic for being a knocker when you could be a booster? Pessimism never made a man, won a battle nor built a town. Pessimism is an unnatural state, the malady of a diseased mind. There is beauty in the world and happiness for those who seek it. Trials, real or imaginary, should find no lodgment with the true man or woman. The sun is shining brightly today; the air is laden with the perfume of a world of living, breathing, pretty flowers; there is love and hope and ambition all around us and there should be contentment within us.

MORE good roads, more factories, more corn, more hogs, more potatoes, cane, peanuts, a greater diversification; a bigger and better mule crop, more good cows and poultry, more big tobacco barns, more individual bank accounts; more work and less worry, more energy and less easy-go, more brain and brawn and less little foolish fallacies that some folks seem heir to, will cause old Nacogdoches county to rise as if by magic and leap to the position that is rightly hers and has been lost these many years. Let Nacogdoches grow and help her grow. She can and will if every citizen will do his lightly part.

AN exchange offers the following good advice which should be heeded by every man who by kind providence is permitted to remain upon earth: "Young man, go to work! There is no time to be idle now. You must carve out your own way through energy, perseverance and pluck. Labor is honorable and ignoble are those who will not work. Get you a home. Fence a field and plow it and plant it, and gather around you the comforts of home. And when you have made a character for energy and thrift, ask some young lady to share your home with you. We would say to every young lady, mark these men who are lounging around attempting to live by their wits, or on the interest of their debts; and when they ask you to share the lot of an aimless life, pass them on, for you cannot afford to marry a man without prosperity or business habits, unless you wish to sell yourself for a mess of pottage. Again we would reiterate, young man, go to work. While ten men watch for chances, one man makes a chance. While ten men wait for something to turn up, one turns something up; so while ten fail one succeeds and is called a man of luck, the favorite of fortune. Luck and fortune is the result of honest endeavor, work and toil, and if you would succeed, go to work."

We are strictly in favor of all the progress possible and in every way possible, but believe the very first step, and a most important one, that should be made is the building of street crossings. There are at least seven that should be put in without delay and before another rainy spell visits us. Get Nacogdoches out of the mud!

S. MINTZ

P. S.—There has been a big reduction of prices made in our Ready-to-Wear and Dry Goods Departments for the remainder of this month.

Often Lost Sight Of

We call attention to a few of the points that are often overlooked when selecting a school to attend.

Typewriting is one of the most important parts of a business education. Most schools have different makes of typewriters in their school rooms, but the Tyler Commercial College of Tyler, Texas, is the only school in this part of the country that has the different makes of machines and each teach and every student to operate accurately, by the touch method, the different standard makes of typewriters. No difference upon what machine the student may learn, when he goes into an office he may find an entirely different make of machine; therefore, it is very necessary that he learn to operate with speed and accuracy all the standard makes of machines.

System of Shorthand: Most schools teach the old Pitmanic systems which were put out in 1832. The Tyler Com'l. College teaches the famous Byrne Simplified, which is a modern system that produced greater speed than any other systems, and in less than half the time required by any Pitmanic system, or any other system of shorthand now in use.

System of Bookkeeping: Most schools teach a theory course; the student reads about what some one else has done, and posts up his work theoretically. The students of the Tyler Com'l College have to transact every system of business for which they make an entry; they learn to do by doing; they buy and sell goods, write up deeds, mortgages, drafts and all kinds of commercial papers, ship goods just as they would in actual business life. They not only learn a thorough course of Bookkeeping, but they obtain a practical business training as well; this business training is worth as much to them as a course of bookkeeping. Bookkeeping through practical business transactions is much easier learned, and the student gets both the bookkeeping and the business training in much less time than he could get the bookkeeping along by the theory

method used in other schools.

Positions: Some schools print in their advertising matter that they guarantee positions to everyone, but it does not draw patronage than anything else.—The Tyler Com'l. College does not guarantee positions to everyone, but it secures positions for every worthy graduate; it fully realizes that practical trained students placed in good paying positions are the strongest advertisement a school can put out, and that this kind of advertising brings in over 75 per cent of their new enrollment.

Write the Tyler Commercial College, Tyler, Texas, for large 168 page catalogue, giving facts and figures that will convince you of the wonderful superiority of this institution, with its two large buildings, 20 teachers, over \$12,000 in furniture and equipment, and 1500 enrollments annually.

During the national campaign the papers of Texas played a most valiant part. They talked politics, boosted politics, and with few exceptions, from the small country weekly to the city daily, they lined up for one side of the big fight. Some papers, however, are just like individuals, don a coat of many colors and crawl astride the political fence, planning to tumble on the grassy side.—"I told you so" is as old as the beginning of man but it is flaunted today with the pride of a new creation.—"I told you so" is stale—rank—smells bad. San Antonio Express please copy.

THE report is current that some street crossings are to be put in right away. This is a most commendable move and will meet the approval, we believe, of most every citizen. The fact that people have always waded the mud from one street to another is the stimmest kind of argument against improvements. \$1,000 spent on street crossings would be a wise venture and an appreciated one

SAVE THIS ANYWAY.

Put it in Some Safe Place, For it May Come in Handy Some Day.

Here is a simple home made mixture as given by an eminent authority on kidney disease, who makes the statement that it will relieve almost any case of kidney trouble if taken before the stage of Bright's disease. He states that such symptoms as lame back, pain in the side, frequent desire to urinate, especially at night; painful and discolored urination, are readily overcome. Here is the recipe. Try it:

Fluid Extract Dandelion, one-half ounce; Compound Kargon, one ounce; Compound Syrup Sarsaparilla, three ounces. Take a teaspoonful after each meal and at bedtime.

A well known druggist here in town is authority that these ingredients are all harmless and easily mixed at home by shaking in a bottle. This mixture has a peculiar healing and soothing effect upon the entire kidney and urinary structure and often overcomes the worst forms of rheumatism in just a little while. This mixture is said to remove all blood disorders and cure the rheumatism by forcing the kidneys to filter and strain from the blood and system all uric acid and foil, decomposed waste matter, which causes these afflictions. Try it if you aren't well. Save the prescription.

"In union there is strength" will hold good in most any kind of proposition and especially regards civic improvement. Co-operation means success where failure hounds an individual, oftentimes; and where one or a few are successful, several times the number would have enjoyed it in a greater degree. Take the sidewalk matter. Approach a man on the subject and he invariably tells you that he'll do so and so if his neighbors will;—thus you see it is co-operation he needs, he seeks and ought to have. Get together about sidewalks.

IN SERIOUS CONDITION.

Letter to J. S. Doughtie States His Son is Badly Hurt—Operation Necessary.

Captain J. S. Doughtie received a letter this morning from Hattiesburg, Miss., which states that his son, Cullen, is in a rather serious condition, and it is possible that an operation will have to be performed. It will be remembered that a few days ago mention was made of him being hurt but at that time no particulars were known and the injury was said to be only slight. The letter received this morning, from J. E. Doughtie, another son, gives details of the accident about as follows: Cullen was near Magnolia, Ark., collecting through the country, when his team became frightened at a stick that caught in a buggy wheel, and attempted to runaway. The horses were stopped however, and Cullen got out of the buggy to see about the harness. As he attempted to get in again the team started suddenly and when spoken to, stopped just as suddenly throwing the young man out of the buggy under the heels of the horses, one of them kicking him on the back of the head. He was carried to town for treatment and Mr. and Mrs. Doughtie were notified of the accident but their seriousness was not told, and thinking perhaps that he would be all right in a short time. He was carried to Memphis and later to Hattiesburg, both the other sons, R. T. Doughtie of Helena

and J. E. Doughtie of Meridian, being with him. Since the accident occurred, Cullen's condition has not improved, at times he is not in his right mind. The back of the skull, the letter states, is broken and something seems to be pressing on the base of the brain and to remove the cause it is quite possible that an operation will be performed. If such is the case, he will be taken to New Orleans. Mr. Doughtie expects a message this afternoon which will advise him about the operation, and if it is decided to have one, he and Mrs. Doughtie will go to New Orleans at once.

Estrayed or Stolen.

One deep bay horse, weighing about nine hundred lbs. shod in in front and has had fisteles. Also one small black pony horse, sway back and shod all around and had on bell when last seen. These horses left Shady Grove, eight miles east of Nacogdoches, about November 15th. Any information leading to their recovery will be liberally rewarded. William Meeks, Nacogdoches, Texas. R. F. D. No. 2.

The white crowned frost has now fallen on the big yellow pumpkin, and that delicious fruit has been added to our bill of fare, and now we not only have crisp waffles and ribbon cane syrup, and yam potatoes and young pork or 'possum, but we are able to ease off with pumpkin pie of the kind that mother used to make. Come to East Texas. Palestine Herald.

MUST BELIEVE IT

When Well-Known Nacogdoches People Tell it so Plainly

When public endorsement is made by a representative citizen of Nacogdoches the proof is positive. You must believe it. Read this testimony. Every backache sufferer, every man, woman or child with any kidney trouble will find profit in the reading.

B. L. Heflin, living on R. E. D. No. 3, Nacogdoches, Texas, says: "I can recommend Doan's Kidney Pills as being an excellent remedy. I was a constant sufferer from kidney trouble for over six years. During that time I tried many different remedies and doctored until I was tired but seemed to become constantly worse. I attempted to stoop or do any lifting, it really seemed as if my back would break. The secretions were at times red and during passage really seemed as if molten lead were passing through me. Doan's Kidney Pills, which I procured at Mast Bros. & Smith's drug store proved of more benefit to me in a short time than any preparation I had ever tried. After taking one-half the contents of the box I felt without any difficulty whatever."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

J. L. Lloyd, the boiler maker of Lufkin, was in the city today.

Market Changes Hands.

W. M. Wisner yesterday purchased the market, fixtures etc of Allen Birdwell, taking charge of the business at once. The market will continue at the same stand, Mr. Wisner doing the outside work and Bern Rusche as cutter. Mr. Wisner will handle all home raised stuff, doing his own slaughtering.

A Hair's Breadth Escape

Do you know that every time you have a cough or cold and let it run on thinking it will just cure itself you are inviting pneumonia, consumption or some other pulmonary trouble? Don't risk it. Put your lungs back in perfect health and stop that cough with Ballard's Horehound Syrup. Sold by Mast Bros. & Smith.

Price 25c, 50c and \$1.00 per bottle.

D. R. Carlidge has completed painting the Baptist church on North street. The gigantic structure looks elaborate with its new coats of paint.

Cold Weather Advice

To all is to beware of coughs and colds on the chest; as neglected they readily lead to pneumonia, consumption or other pulmonary troubles. Just as soon as the cough appears treat it with Ballard's Horehound Syrup the standard cure of America. Use as directed—perfectly harmless. A cure as preventive for all diseases of the lungs. Price 25c, 50c and \$1.00 per bottle. Sold by Mast Bros. & Smith.

For Sale.

Four, eight wheel log wagons, Linsey, six inch tires, for oxen, or will trade for four wheel mule wagons. d3w3 G. C. Williams.

Mrs. Peavy who chaperoned a number of the girls to Houston last week brought them safely back home.

REPORT ON EXPERIMENTS.

Government Expert, Otto Olson, Tells About Work of Tobacco Growing in 1908.

During the field season of 1908 some experiments were carried on at Mr. J. Thos. Hall's tobacco plantation near Nacogdoches, by the Bureau of Plant Industry, U. S. Department of Agriculture, in order to test the effect of different combinations of fertilizer upon the yield and quality of filler and wrapper cigar leaf tobacco.

For the filler experiment one half acre of Orangeburg clay loam was selected and divided into ten plots of one-twentieth of an acre each. The plots were planted in seed of the best strain of Cuban filler type, acclimated to Texas conditions.

The fertilizer used per plot and yield per acre, were as follows:

Plot A. One ton stable manure, 10 lbs acid phosphate, cost per acre \$33.00, yield per acre 510 lbs.

Plot B. 100 lbs cotton seed meal, 10 lbs acid phosphate, cost per acre \$28.00, yield per acre 560 lbs.

Plot C. 50 lbs cotton seed meal, 10 lbs carbonate of potash, cost per acre \$19.20, yield per acre 520 lbs.

Plot D. No fertilizer used on this plot, yield per acre 540 lbs.

Plot E. 100 lbs cotton seed meal, 7 1-2 lbs nitrate of soda, cost per acre \$31.00, yield per acre 690 lbs.

Plot F. 75 lbs cotton seed meal, 10 lbs carbonate of soda, 25 lbs bone meal, 10 lbs acid phosphate, cost per acre \$34.00, Yield per acre 900 lbs.

Plot G. 75 lbs cotton seed meal, 10 lbs nitrate of soda, 25 lbs bone meal, cost per acre \$33.40, yield per acre 940 lbs.

Plot H. No fertilizer used on this plot, yield per acre 480 lbs.

Plot I. 25 lbs nitrate of soda, 10 lbs carbonate of potash, 10 lbs acid phosphate, cost per acre \$29.00, yield per acre 840 lbs.

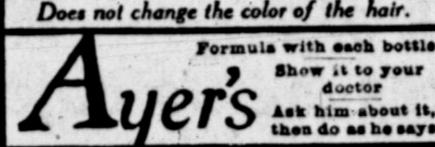

Plot J. 100 lbs cotton seed meal, 15 lbs lime, cost per acre \$28.00, yield per acre 760 lbs.

Total cost of fertilizer per acre \$23.68, total average yield per acre 664 lbs.

For the Sumatra wrapper experiment five-fourteenths of an acre of Orangeburg clay loam was selected under shade and divided into five plots, each plot being one-fourteenth of an acre. These plots were planted in Sumatra seed, a strain of cigar leaf wrapper tobacco, acclimated to Texas conditions.

Destroys Hair Germs

Recent discoveries have shown that falling hair is caused by germs at the roots of the hair. Therefore, to stop falling hair, you must first completely destroy these germs. Ayer's Hair Vigor, new improved formula, will certainly do this. Then leave the rest to nature. Does not change the color of the hair.

Recent discoveries have also proved that dandruff is caused by germs on the scalp. Therefore, to cure dandruff, the first thing to do is to completely destroy these dandruff germs. Here, the same Ayer's Hair Vigor will give the same splendid results.

Made by J. C. Ayer Co., Lowell, Mass.

Formulate with each bottle Show it to your doctor Ask him about it, then do as he says.

The fertilizers used, and yield per acre, were as follows:

Plot K. 3-4 ton stable manure, 100 lbs cotton seed meal, 20 lbs nitrate of soda, cost per acre \$44.38, yield per acre 826 lbs.

Plot L. Three fourth ton stable manure, 100 lbs. cotton seed meal, 10 lbs. nitrate of soda, 20 lbs., sulphate of potash. Cost per acre \$47.88. Yield per acre 1,002 lbs.

Plot M. Three fourth ton stable manure, 100 lbs. cotton seed meal, 50 lbs. bone meal. Cost per acre 42.00. Yield per acre 938 lbs.

Plot N. Three fourth ton stable manure, 100 lbs. cotton seed meal, 50 lbs. bone meal, 20 lbs. carbonate of potash, 30 lbs. lime. Cost per acre \$55.16. Yield per acre 896 pounds.

Plot O. Three fourth ton stable manure, 100 lbs. cotton seed meal, 10 lbs. nitrate of soda, 50 lbs. bone meal, 30 lbs. lime, 20 lbs carbonate of potash. Cost per acre \$60.76. Yield per acre 966 lbs.

Total cost of fertilizer per acre \$50.00. Total average yield per acre 929 1-2 pounds.

Owing to the dry weather prevailing during the growing season, the yields are smaller than they ordinarily would have been in a normal season. The weather condition, however, were uniform on all the plots, and did not affect the relative yields from the different fertilizers.

The tobacco obtained from these plots is at present undergoing the usual process of fermentation in Washington, and will not be ready for tests as to quality until December.

Respectfully submitted, Otto Olson, Tobacco Expert.

Consumption Statistic

Prove that a neglected cold or cough puts the lungs in so bad a condition that consumption germs find a fertile field for fastening on one. Stop the cough just as soon as it appears with Ballard's Horehound Syrup. Soothes the torn and inflamed tissues and makes you well again. Sold by Mast Bros. & Smith.

Negro Boy Shot.

Dock Edmonds, a negro boy between four and five years, was accidentally shot yesterday afternoon near Mitchell's lake about two miles south. He was brought down late in the afternoon for treatment and is not thought to be dangerously hurt. He had no idea who aid the shooting.

Fifth Sunday Program.

Program for Fifth Sunday Meeting of the Worker's Conference to be held at Appleby, beginning Friday evening Nov. 27, 1908.

Friday, 7 p. m., Introductory sermon—H. M. Hutson.

Saturday, 9 a. m., Devotional exercises—Noil Riffe.

9:30, Our situation—W. L. Heflin and A. L. Charlton.

10:30, How can we meet the demands that are upon us?—A. T. Gerrard, J. W. Caldwell and W. A. Spivey.

1 p. m., Devotional exercises—M. Peterson.

1:15, The preacher—J. H. Thorn and R. T. Holleman.

2 p. m., The layman—John Weatherly and L. A. Bagley.

3 p. m., Co-operation—L. R. Heflin and D. R. Carlidge.

7 p. m., Devotional exercises—W. L. Ellington.

7:15 p. m. Sermon—To be supplied.

Sunday morning, 10 a. m., Sunday school mass meeting, 11, Sermon—To be supplied. Committee.

Never Disappoints.

"Many extensively advertised remedies are failures when put to the test. Hunt's lightning Oil is an exception. Confidence in it is never misplaced, disappointment never follows its use. It is surely the greatest emergency remedy now obtainable. For cuts, burns, sprains, aches and pains, I know no equal."—Geo. E. Padlock, Doniphan, Mo.

Cecil Hardeman, who has been teaching in the Beaumont High School has returned and has accepted a position with the Nacogdoches school. He takes Mrs. Bridwell's place who has just resigned.

Saved Him.

"It did not kill me but I think it would if it had not been for Hunt's Cure. I was tired, miserable and well nigh used up when I commenced using it for an old and severe case of eczema. One application relieved and one box cured me. Believe Hunt's Cure will cure any form of itching known to mankind."—Clifton Lawrence, Helena, O. T.

To Change Game Law.

A petition has been in circulation the past week, in this city and which proposes to change the present game law of the state. The alteration asked is that the open season for doves be from September 1st instead of November 1st. The petition, which was sent out by the San Antonio Hunting Association, also state an objection to game being sold. Similar petitions have been sent to every portion of the state and will be presented to the Legislature in January.

A Broken Back

The pain in your back caused by lumbago, stiff muscles or a strain is an easy thing to get rid of. Ballard's Snow Liniment cures rheumatism, lumbago, sore and stiff muscles, strains and sprains, cuts, burns, bruises, scalds and all aches and pains. You need a bottle in your house. Sold by Mast Bros. & Smith.

S.S.S. HEALS OLD SORES

No old sore exists merely because the flesh is diseased at that particular spot; if this were true simple cleanliness and local applications would heal them. Whenever a sore or ulcer refuses to heal readily, the blood is at fault; this vital fluid is filled with impurities and poisons which are being constantly discharged into the place, feeding it with noxious matter and irritating and inflaming the nerves and tissues so the sore cannot heal. These impurities in the blood may be the remains of some constitutional trouble, the effect of a debilitating spell of sickness, leaving disease germs in the system, or the absorption by the blood of the fermented refuse matter which the bodily channels of waste have failed to remove. Again the cause may be hereditary, the diseased blood of ancestry being handed down to posterity; but whatever the cause, the fact that the sore will not heal shows the necessity for the very best constitutional treatment. There is nothing that causes more worry and anxiety than an old sore which resists treatment.

Every symptom suggests pollution and disease—the discharge, the red, angry looking flesh, the pain and inflammation, and the discoloration of surrounding parts, all show that deep down in the blood there are morbid and dangerous forces at work, constantly creating poisons which may in the end lead to Cancer. Local applications are valuable only for their cleansing and antiseptic effects; they do not reach the blood, where the real cause is located, and can therefore have no real curative worth. S. S. S. heals old sores by going down to the fountain-head of the trouble and driving out the poison-producing germs and morbid matters which are keeping the ulcer open. It removes every particle of impurity from the circulation and makes this life-stream pure, fresh and health-sustaining. This as new, rich blood is carried to the place the healing begins, all discharge ceases, the inflammation leaves, new tissue and healthy flesh are formed, and soon the sore or ulcer is well. S. S. S. is the greatest of all blood purifiers and finest of tonics, just what is needed in the treatment, and in addition to curing the sore will build up and strengthen every part of the system. Special book on Sores and Ulcers and any medical advice desired furnished free to all who write. THE SWIFT SPECIFIC CO., ATLANTA, GA.

I want to recommend S. S. S. to any who are in need of a blood purifier, and especially as a remedy for sores and obstinate ulcers. In 1897 I had my leg badly cut on the sharp edge of a barrel, and having on a blue woollen stocking the place was badly poisoned from the dye. A great sore formed and for years no one knew what I suffered with the place. I tried, it seemed to me, everything I had ever heard of, but I got no relief and I thought I would have to go through life with an angry, discharging sore on my leg. At last I began the use of S. S. S., and it was but a short time until I saw that the place was improving. I continued it until it removed all the poison from my blood, and made a complete and permanent cure of the sore. J. B. ELLIS, 356 Baby Street, Brooklyn, N. Y.

For Thirty Years.

"Inclosed find money order for one dollar for which please send me its worth in Simmons Liver Purifier, put up in tin boxes. I have been using the medicine for thirty years."—Thos. H. Reilly, Jonesville, La. No comment necessary. Price 25c per box.

L. D. Barnett has returned from Houston where he went Monday to pack his household goods for shipment to Nacogdoches. Mrs. Barnett and little son returned with him and they will occupy the house on North Fredonia street, next to Edgar Thomason.

Her Heart Was broken

Because her complexion was bad and she could find nothing to clear it up. Ladies: a bad complexion is caused by an inactive liver. An inactive liver will be put in perfect condition by taking Ballard's Herbire. The unequalled liver regulator. Sold by Mast Bros. & Smith.

R. B. Kountz, a prosperous farmer from Shelby county was selling cotton here today.

Trials of Winter.

Do not permit yourself to be a victim to a cold or cough. They lead to pneumonia, consumption and elsewhere. Be wise; use Simmons Cough Syrup. It cures coughs, heals lungs and will keep you right here to enjoy the beauties of spring.

"ON THE COUNTY ROAD."

Commissioners Make a Trip Over The Good Roads—Impressions of a Tenderfoot

Regardless of after effects—stiff joints and "tender feet"—the trip was a very pleasant one and a very profitable one too. The sun was dropping its rays preety near direct at 8:30 o'clock yesterday afternoon when Judge C. D. Mims, County Commissioner W. S. Satterwhite, H. V. Sitton, Matt Muckleroy, County Judge-elect F. P. Marshall and a Sentinel man left the city for a foot trip over the good road, a portion of which is already completed and the remainder of which will be finished in a few days more. At the top of Orton Hill was a splendid place to catch breath and also take in the situation, and the opportunity was taken advantage of, despite the fact that some of the bunch contended that climbing the hill was just the finest kind of exercise and they weren't the least fatigued.

THE CITY'S WORK.

The county's work ends at the topmost part of Orton Hill. From there to the bridge across the LaNana on East Main street, a distance of probably 500 or 600 yards, is to be the scene of the city's work in bringing the good road into town. Of course, just what is to be done to benefit it, is not known in detail, but it is presumed that the grade will be reduced several feet by taking off the rise and bringing to the lower places. The road is also to be widened about three feet underneath the foot bridge and the sand bed just beyond Mr. Herring's home is to be clayed. On each side of the road bed will be two large ditches sufficient to carry off any volume of water that may fall and the road itself will be shaped to drain to each side as well as toward the creek. It is understood that a deal is already made between the city and county in which the latter is to do the work and render an account to the former. This arrangement is the most satisfactory of any that could have been made and will cause the prosecution of the work to be more rapid and with less chances for hindrances.

ORTON HILL ROAD

Already a great change has been made in the sand road on Orton Hill from G. M. Haltom's and C. W. Butt's, though progress is very slow on account of the hardness of the earth. Five or six hands are at work though doing their very best. A good rain would help matters considerably just now. The layers of clay and sand are being put on however and will in time mix some, but a heavy rain would give the workman an opportunity to shape the road as it needs be and to do the other things necessary to making it really good. Leaving the hands at the old sand bed we trudged along for a quarter of a mile, or more, before we were in sight of the teams and other workmen. All of this is the new road—that is the second installment of road building under the guidance of government men. The highway is a most excellent one, though there has not been a drop of rain on it. A comparison of its present condition with what it has been in former years is superfluous, inasmuch as the change is so great, people who are not actually acquainted with it and travel it, would doubt the difference. The hills have not been cut down possibly as much as some expected they would be, but the grades have been reduced considerably and as much as present available funds would justify. Moving dirt is a very expensive feature and the object of economy in building the demonstration road has been adhered to closely.

MIXING THE MATERIAL.

Several object lessons might have been gathered from the work in progress just this side of the branch and which is almost the beginning of the second work. In reducing the grade of the hill it is probably the hardest part, on account, chiefly of the hardness of the earth. With six mules, two drivers and three men at the plow, the labor of turning over the dirt ready for the scraper is beyond any idea of a person who has not witnessed it. It's hard on teams and it's not easy on the hands. Nor is this all. The scraper work is an important factor and to be lasting, ought to be, of course, done right—that is in spreading and mixing properly the sand and clay. This, it must be said, is well nigh impossible for the lack of moisture. The hard clay clods and loose sand, become packed to some extent even as dry as it has been, but the "good road" cannot be really termed such until rain softens it, travel packs it and it is properly shaped for side and length drainage. The work done on that hill, however, is pretty good, considering all, and promises to be the foundation of a most excellent road.

EGG NOG BRANCH.

The men who immortalized this seemingly insignificant stream and who caused the name to be changed from the novel "Castillian" to the more prosaic "Egg Nog," probably never dreamed that it was to be the cause of troubles

and tribulations of a Nacogdoches county commissioner court—but it is. Everybody knows Egg Nog and yet nobody knows it. With a channel varying from a few feet in dry weather, as we have been experiencing for several months, to several hundred feet, when the rain god gets busy, is the proposition, the solution of which, is making the county "dads" ponder some. For fifty feet on each side of this stream no work has been attempted, nor will any be done until a decision, as to how to remedy it, is arrived at. It seems to be the opinion of some that it should be bridged, but about the only sure way to do that would be to build a bridge from hill to hill. It is the opinion of all that the sand beds on each side are bad—should be fixed—and that the grades of the rises on each side should be reduced. Just how or when, is at present speculation and just to be plain, it is very likely the commissioners are postponing the matter in the hopes that a rain will come and throw some light—or water, in that vicinity.

SOME REALLY GOOD ROAD.

Notwithstanding the fact that old Sol's rays continued to point right at us, the hills got steeper and the mile posts farther apart, we took another hitch in our suspenders and "peartened" a bit just as if we were as fresh as ever. Some of the others seemed to have trouble in making their pedestals work as fast as they once did, but we wouldn't tell their names for anything. County Road Superintendent W. E. McMillan and government expert Dowdell, had joined us at the camp and proved valuable accessions in many respects, especially in enlightening the party as to the different parts of the road. Reaching the second incline from the branch, the view was indeed a pretty one, the best road in Nacogdoches county and no doubt in East Texas. This work was among the last of the first instalment, was well mixed, had a good rain to help it and is admirably shaped. It is as hard almost as pavement and the many travelers pronounce it "ideal." This is the part of the road too, that became so awfully muddy some months ago—and at that time brought forth a howl that was heard without the aid of an ear trumpet. But now it's all right and will continue to be so until it rains hard and travel ruts it.

SOME BENEFICIAL CHANGES.

A secret of any and every good road is proper drainage and more especially is this true with a sand-clay road. All of the remainder is good road—some parts better than others—but evidently the farthest out was the meanest to begin with. And in this the drainage feature played a most prominent part. The "corduroy" section is no more; drainage ditches have been cut on both sides, the clay and sand piled on and the road shaped for side drainage. Culverts have been put in and side sewers sufficient to carry off most any volume of water that may need be. In

fact that part of the road that heretofore has been at times, almost impassable, is now transformed into one of the very best pieces of road way in the county. The road bed is pretty well hardened, though it has never gone through that muddy stage, and which it must go through, since its building. It seems that some have been traveling the ditches instead of the road, along there, a practice that would, in a short time ruin the entire business. The whole two and a half miles of good road is plenty wide to admit of vehicles passing without going in a ditch and if people traveling would drive to the right in turning, the road would be better for it.

HOPES AND RULES.

Theory is right, laboratory work is nice, but oft times practice knocks both sky-high—and it does so in road building. Telling one how to mix sand and clay so as to get the hardest and most lasting substance and mixing these two materials for those results are two entirely different propositions. In plainer words, sands and no clays are usually of the same quality, same fineness, coarseness, stickyness etc. And that's why there are some holes and ruts—and for that same reason too, holes and ruts will exist in that road until the two materials are mixed properly—maybe six months, and maybe a year. Wherever a hole or rut is found its for the reason of too much or too little sand or clay—as the case may be. This is to no ones discredit and the wonder is that there are so few of such, taking unto consideration that this road is the first demonstration of a sand-clay road in the entire south. These will all be remedied in the course of events and of course too, the road will have to be gone over carefully, shaped as so needed, ditches cleaned and repairs made until it all becomes settled and solid. The farmer or any other man, who expects the good road to remain as it is, will find himself woefully mistaken when the winter rains set in. But that will only be about three months of mud against 12 months of either mud or sand, the way it use to be.

COST VS VALUE.

Is it worth while?—Will the value, the benefits justify the expense? Are good roads paying propositions? Without a doubt, yes! When Dallas county spent \$1,000,000 on her high ways a few years ago, did she consider the expenditure as doubtful of good? Did Parker county, the home of the best roads in the state, fear the immense amount put out, as being speculative? Falls county began 12 or 15 years ago to gravel her main roads—the material alone costing from 50 cents to one dollar per cubic yard. Today there are miles and miles of the best gravel pike roads in Texas. True, when the work commenced people kicked and objected to bonds and the expense—claiming it exorbitant and altogether useless. Now they are proud of these

roads. Harris county has spent thousands and thousands of dollars; Grayson county is now doing likewise; Williamson county wants a bond issue of \$500,000 to build roads; Bell county spent \$50,000 in making an air line road between that place and Temple—though the old road was only two miles longer; Brown county has a quickened pulse on road matters; Comanche, McLennan, Navarro, Hill, Johnson and dozens of others in that section are urging better high ways and are getting in shape to build them. East Texas is strangely bashful in taking up this good work, though it needs it worse than other sections. Nacogdoches county people have become wedded to the motto held out by Governor Roberts—stay on a cash-basis. In some respects it is a good trait—but not to the extent that such is detrimental to progress. There is lots more reason for staying out of debt for bacon and lard, feed and other living necessities and going in debt for good roads and county improvements. The latter is worth while—the first, unbusinesslike. Yes, we again assert that good roads are worth something to every man that owns land in the county; to every business man and to every person in anywise interested in the county. The farmers especially should figure cost and value and when they do we believe their verdict will be for better thorough fares.

ALL WELL PLEASED.

The Commissioners are well pleased; Judge Mims is tickled; Mr. Dowdell thinks it fine; Judge Marshall believes it worth while and money and the farmers are as proud of that good road as they can be. The merchants appreciate it and why shouldn't they? Forty per cent, almost, of the travel to Nacogdoches comes over that road. Yes, all have a right to feel gratified—if they just don't forget the "eternal fitness of things" and go off at a tangent when it rains—that is give it a year or so to become a good road—and that's what it will take. Mr. McMillan has been closely connected with the work from the very beginning and is now in a position to carry on road building with a great degree of success.

The county is fortunate in it being thus and will profit much by it. The county judge and board of commissioners have done a good work; have planted the seed for a big harvest of good roads in Nacogdoches county—have set the pace for East Texas. The people ought to, and we believe do, appreciate the officials; Judge Marshall and the newly elected gentlemen who are to guide the old ship for the next two years, we are sure, will just as heartily prosecute the good work and with as much dispatch as good judgement will allow. The work has begun well—it pleases—and the one thing necessary to the progress and development of our county has been launched. Let the slogan continue to be "good roads."

THE INSPECTION ENDS.

The sun had dropped far

down, ere we turned faces homeward, and though "foot back" traveling was more pleasant, the trip interesting, etc., it was with some persuasion that all were induced to "come on" without going to a neighbor's and ordering supper—like wise a way to ride to town. The hills were "powerfully steep" and the three miles seemed to grow longer rather than shorter. Arriving at the camp we took on refreshments, cold spring water, (though had a change at pepper sauce) and at the sand bed, where the hands were still laboring, we annexed instalment No. 2, of the same type of refreshments. Going out we met between 15 and 100 wagons coming this way; coming home we met fully that many going the other way. Strange arrangement. Long before we had reached this sand bed the crowd had become separated and were filing along in twos, from one to three hundred yards apart. Of course no one was tired, just some in a bigger hurry than others. A little dirt and dust lay cut no figure with that bunch though, and when the three hours jaunt was at an end—no regrets were expressed. We managed to keep up the spryness and after liberal applications, internally and externally, of Terpenylics, Te-trobes and Narcotics, proceeded to put in 14 hours of the allotted eight in sleep. Yesterday we were as supple as a giraffe and are ready and willing for another exploration—but prefer postponing it 12 or 18 months.

COUGH QUICKLY CURED.

Don't Let the Child Choke to Death While Waiting for a Doctor.

Hyomei, the miraculous, antiseptic, dry air treatment, will cure croup in either the first or second stages. Easily inhaled, even when the breathing is irregular, it reaches more promptly than any other remedy the terribly inflamed membrane of the windpipe. Its soothing balsams act immediately, the inflammation is allayed, and the swelling reduced.

Not long ago our little boy Walter, awoke in the night with a bad attack of croup. We allowed him to inhale Hyomei; he began to breathe easier, and in half an hour was fast asleep. I am glad to speak a good word for a remedy that will rob croup of its terrors.—Rev. Geo. Sisson, pastor of M. E. Church, South, Londonderry, Vt.

Hyomei (pronounced High-o-mei) is guaranteed by Stripling, Haselwood & Co. to cure catarrh, coughs, colds, asthma, bronchitis and croup, or money back. A complete outfit, including a neat hard rubber pocket inhaler, cost only \$1.00. An extra bottle of Hyomei, if afterwards needed, costs but 50 cents. 5

When you are wading to town and then go wading from one street to another and in turn wade across the court house square, don't you feel like wading into somebody, shirt collar deep and advising them to wake up and build side walks and street crossings?

LET US SELL YOU A GOOD WATCH

What will add more distinctive charm to our every day existence than a positively reliable time-piece? Can you think of a more pleasing possession?

At a price anywhere from \$10 to \$40 you may secure from us the kind we have in mind with the added pleasure of selecting from a stock that is artistic and expressive of the newest ideas.

Stripling, Haselwood & Co
JEWELERS AND OPTICIANS

Notice to All.

I have purchased the meat market business of A. Birdwell and will continue to handle only the very choicest meats, beef, pork, etc. An experienced cutter will look after your wants carefully. Hoping to merit a portion of your custom, I am yours for good meats, d6t-w2 W. M. Wisner.

How is your Digestion?

Mrs. Mary Dowling of No. 228 8th Ave., San Francisco, recommended a remedy for stomach trouble. She says: "Gratitude for the wonderful effect of Electric Bitters in a case of acute indigestion, prompts this testimonial. I am fully convinced that for stomach and troubles Electric Bitters is the best remedy on the market today." This great tonic and alterative medicine invigorates the system, purifies the blood and is especially helpful in all forms of female weakness. 50c at our drug store.

Don't Leave Off Your Card

when you send a box of our candy to somebody's sister. She certainly will want to know who sent her such a DELICIOUS BOX OF CANDY.

If she has a sweet tooth in her head, and what nice girl hasn't, she will appreciate your gift better than almost anything else you could offer.

Do we send boxes home to any address? Why, of course. Step in and tell us what kind of a box to send and where.

PERKINS & COX

Raw Lungs.

When the lungs are sore and inflamed, the germs of pneumonia and consumption find lodgement and multiply. Foley's Honey and Tar kills the cough germs, cures the most obstinate reeking cough, heals the lungs, and prevents serious results. The genuine is in the yellow package.

Mast Bros. & Smith. eod

Telephone Cable Work.

Improvements of the telephone system continues and by December first it is expected that all of the big cables will have been laid. Some four or five hundred feet have already been put under ground and the Main street box is in place. After the cable laying is completed, a number of other improvements will be begun and which will likely take all winter to complete.

If You Are Over Fifty Read This

Most people past middle-age suffer from kidney and bladder disorders which Foley's Kidney Remedy would cure. Stop the drain on the vitality and restores needed strength and vigor. Commence taking Foley's Kidney Remedy today. Mast Bros. & Smith. eod

Miss Edna Baxter has returned from a ten days stay in Houston, where she visited her sister, Miss Dora, and friend Miss Scott and attended the carnival.

Winter blasts, causing pneumonia, pleurisy and consumption will soon be here. Cure your cough now, and strengthen your lungs with Foley's Honey Tar. Do not risk starting the winter with weak lungs, when Foley's Honey and Tar will cure the most obstinate coughs and colds, and prevent serious results. Mast Bros. & Smith. eod

Foley's Honey and Tar clears the air passages, stops the irritation in the throat, soothes the inflamed membranes, and the most obstinate cough disappears. Sore and inflamed lungs are healed and strengthened, and the cold is expelled from the system. Refuse any but the genuine in the yellow package. Mast Bros. & Smith. eod
