Sloan's Liniment for Neuralgia Aches.

The dull throb of neuralgia is quickly relieved by Sloan's Liniment, the universal remedy for pain. Easy to apply; it quickly penetrates without rubbing and soothes the sore muscles. Clearer and more promptly effective than musky plasters or ointment; does not stain the skin or clog the pores. For stiff muscles, chronic rheumatism, gout, lumbago, sprains and strains it gives relief quickly. Sloan's Liniment reduces the pain and inflammation in insect bites, bruises, bumps and other minor injuries to children. Get a bottle today at your Druggist, 25c. dwl

Stop the First Cold.

A cold does not get well of itself. The process of wearing out a cold wears you out, and your cough becomes serious if neglected. Hacking coughs drain the energy and sap the vitality. For 47 years the happy combination of soothing antiseptic balsams in Dr. King's New Discovery has healed coughs and relieved congestion. Young and old can testify to the effectiveness of Dr. King's New Discovery for coughs and colds. Buy a bottle today at your Druggist, 50c. dw

Do You Feel 100 Per cent Today?

A torpid liver reduces your efficiency; a slow working liver makes a slow working mind. Coated tongue, mucky complexion, biliousness and constipation all point to an inactive liver. Po-Do-Lax is Nature's remedy for quickening the flow of bile and stimulating the action of the liver. That chronic draggy, grouchy feeling will give place to the lively step, cheery smile and bright eye of your healthful neighbor. Don't put off getting a bottle at your nearest Druggist 50c. dw

DANGEROUS CALOMEL IS SELDOM SOLD NOW

Calomel Salivates! It Makes You Sick and You Lose a Day's Work—Dodson's Liver Tone Acts Better Than Calomel and Is Harmless for Men, Women, Children—Read Guarantee!

Every druggist here, yes! your druggist and everybody's druggist has a great falling-off in the sale of calomel. They all give the same reason: Dodson's Liver Tone is taking its place.

"Calomel is dangerous and people know it while Dodson's Liver Tone is safe and gives better results," said a prominent local druggist. Dodson's Liver Tone is personally guaranteed by every druggist. A large family-sized bottle costs only 50 cents and if you find it doesn't take the place of dangerous, salivating calomel you have only to ask for your money back.

Dodson's Liver Tone is a pleasant-tasting, purely vegetable remedy, harmless to both children and adults. Take a spoonful at night and wake up feeling fine, no sick headache, biliousness, ague,

sour stomach or clogged bowels. Dodson's Liver Tone doesn't gripe or cause inconvenience all next day like calomel.

Take a dose of calomel tonight and tomorrow you will feel sick, weak and nauseated. Don't lose a day's work!

Dodson's Liver Tone is real liver medicine. You'll know it next morning because you will wake up with your head clear, your liver active, bowels clean, breath sweet and stomach regulated. You will feel cheerful and full of vigor and ready for a hard day's work.

You can eat anything afterwards without risk of salivating yourself or your children.

Get a bottle of Dodson's Liver Tone and try it on your guarantee. You'll never again put a dose of nasty, dangerous calomel into your stomach.

HAD "HARD LUCK."

There can be no doubt about it that a rabbit crossed the path in front of Prof. R. F. Davis yesterday.

The professor wouldn't tell a hard luck story if he knew one, and is still wearing the same broad smile that won't come off, but he had an experience that would make one of less optimism from.

Yesterday afternoon Prof. Davis decided to attend a funeral out several miles in the country. Being the owner of a brand new car of his own, the "children" were loaded on and a start made for the place. When out about ten miles from town the professor's son, who was driving the car, noticed a stump in the road some distance ahead and inquired of his elder if the car would pass over it, and in return was assured that it would pass over a much larger stump than that. But it didn't. The stump was the right height to resist automobile trespass, and proved to also possess sufficient strength and durability to ward off attack in this line. In the crash the axle of the car was so badly bent that Prof. Davis didn't think it safe to attempt to motor further with it, and phoned the garage of this city for a relief car. With its usual promptness, the garage started out the "Titanic," a car that is well named, being large enough to handle almost any kind of load, or "snake in" as many cars as could fasten on to it. But the same "hodoo" got in its work, and the Titanic failed to reach the scene of the trouble, caused by a "blow-out" when a few miles out.

As a last resort, Prof. Davis engaged passage for his little daughters on another passing

automobile, and brought his own car in, a journey that is reported to have been rather "wobbly," but made just the same.

The Sentinel is in receipt of a letter from Mr. L. Leach of Snyder, Texas, who advises that he served the Confederacy in the Civil War, and belonged to Co. C, 8th Texas regiment, which was organized at this place, and he would be glad to hear from any of his old comrades. He subscribes for the paper hoping to get some news in this line, and would enjoy a letter from any who may survive.

Hon. W. E. Thomason arrived home yesterday afternoon from Waco where he went to attend the state meeting of the Knights of Maccabees, and where he was honored with election to the second highest office. While at the meeting Mr. Thomason was also honored by being made chairman of the committee on by-laws, the most important committee of the meeting, which was another signal honor conferred upon him. In speaking of the matter, Mr. Thomason says that his election to the office given him came as a very pleasant surprise as he was not a candidate for any position, and did not dream that his name would be put before the meeting. To make it more pleasant, he was nominated in an eloquent speech by a man with whom he was not acquainted personally. The Knights of Maccabees is one of the leading and most prominent fraternal insurance societies in America, and the prominent relation our townsman now enjoys with the organization will doubtless lead to something especially good for him, in any of which capacities he can be depended upon to make good.

CLEVELAND SALOONS CLOSED.

Cleveland, Texas, October 28.—The saloons of Cleveland closed their doors Friday night. The decision to remain closed was reached after closing time Friday night, and it came as a surprise to a great many who expected a contest.

GIVE "SYRUP OF FIGS" TO CONSTIPATED CHILD

Delicious "Fruit Laxative" can't harm tender little stomach, liver and bowels.

Look at the tongue, mother! If coated, your little one's stomach, liver and bowels need cleansing at once. When peevish, cross, listless, doesn't sleep, eat or act naturally, or is feverish, stomach sour, breath bad; has sore throat, diarrhea, full of cold, give a teaspoonful of "California Syrup of Figs," and in a few hours all the foul, constipated waste, undigested food and sour bile gently moves out of its little bowels without griping, and you have a well, playful child again. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which contains full directions for babies, children of all ages and for grown-ups.

Mrs. Mary Hazen, residing several miles in the country, sent a pumpkin yam sweet potato which weighs five and one-half pounds to this office this afternoon. The vine from which it grew was set out about the first day of August. The pumpkin yam potato, which is a very choice variety, does not usually grow very large, making this potato record-breaker.

Mrs. R. E. King and children returned this morning from a visit to Mr. King's father, W. G. King, at Garrison, and will leave tonight for San Antonio where she goes to join Mr. King in making their future home. Mr. King has accepted a position as stenographer in the Alamo City which he entered upon several days ago.

MR. R. W. SULLIVAN FURNISHES A PRIZE

Mr. R. W. Sullivan, a well known farmer and stock raiser of this county, offered a registered Jersey bull to the State Fair, with the understanding that it be awarded to the boy winning first prize in cattle judging, and is in receipt of a letter from the management of the Fair thanking him for his generosity. They also advise him that his prize will be given a suitable write-up in the Farm and Ranch and other agricultural papers of the state.

Mr. Sullivan makes a specialty of raising high-grade Jersey cattle, and is making a fine reputation for himself in this line, which will become state-wide with the publicity that will follow his generosity in this instance.

MR. JAS. C. JACOBS IS WITH THE DEAD

Mr. Jas. C. Jacobs, a substantial merchant and planter of Etoile, died Saturday morning, following a few days illness with pneumonia, and his remains were laid to rest in the family burying grounds in McClure's Cemetery yesterday, with the Odd Fellows Lodge of this city, of which deceased was an honored member, in charge.

The Odd Fellows went out in automobiles from this city, and were joined by a great host of friends.

Mr. Jacobs was about sixty-one years of age, and is survived by his second wife and several children by his first wife. He was a native of the county, and has spent his whole life here, where the people have learned to esteem him for his sterling integrity and moral worth.

In the death of this good man, the family has lost one of its dearest members, and the county one of its best citizens.

FARM FOR SALE.

One hundred and thirty acres, eighty acres in cultivation, ten or twelve acres in pasture supplied with living water, seven-room residence, one tenant house, two barns and other improvements. The place is located six and one-half miles from Nacogdoches, on a good road and in a good community. Price, \$2250, one-half or one-third in cash, balance in terms to suit. Or would trade for a building suitable for a boarding house in Nacogdoches. Apply at The Sentinel Office, dw-tf.

A SHOOTING SCAPE AT CHIRENO YESTERDAY

News has been received in the city to the effect that Chester Smith shot at Eugent Buckner 5 times at Chireno yesterday, all the shots going wild and no one being hurt.

Buckner killed Smith's brother in San Augustine several years ago, and it is supposed that the trouble grew out of feeling over that affair.

Smith was placed under arrest by the deputy sheriff at that place.

Rev. C. B. Fuller of LaRue, Texas, and Rev. W. R. Crawford of Appleby, were in the city this morning returning from Shady Grove where they closed out an interesting protracted meeting last night. Mr. Crawford is pastor of the circuit of which Shady Grove is a part, and Mr. Fuller came to assist him in the meeting. Mr. Crawford says they enjoyed a good meeting, which the community needed, and he seemed very happy over the results.

HON. W. E. THOMASON WINS GOOD HONORS

At the meeting of the Knights of Maccabees, held in Waco this week, Hon. W. E. Thomason of this city was elected great lieutenant of the new Texas camp, which is a distinct honor for our worthy townsman which he will fill with credit to himself and the fraternity.

The report of the meeting, from which this information is gleaned, will be found elsewhere in today's paper.

JOE LAKE DIES AT MARSHALL

Marshall, Texas, Oct. 25.—Hon. Joe Lake, one of the most prominent business men and politicians of Harrison County, died here this morning. He was ex-mayor of Marshall, ex-representative in the legislature, prominent Mason and father of Captain W. E. Lake of Company D, Texas National Guard.

DEATH AT SWIFT.

Mrs. M. L. Barron, wife of Lafayette Barron of Swift, died this morning at 4:00 o'clock, and her remains will be laid to rest in the cemetery at Swift tomorrow afternoon.

Mrs. Barron was about fifty-eight years of age, and is survived by her husband, two daughters, Mrs. Bertha Samlin and Mrs. Charles Reeves, two sons, Travis and Ben. She is a sister of Ben Brantley who resides at Chireno.

The deceased is reputed to have been an noble christian lady who was loved and admired by a large circle of friends.

HELP FOR WORKING WOMEN

Some Have to Keep on Until They Almost Drop. How Mrs. Conley Got Help.

Here is a letter from a woman who had to work, but was too weak and suffered too much to continue. How she regained health:

Frankfort, Ky.—"I suffered so much with female weakness that I could not do my own work, had to hire it done. I heard so much about Lydia E. Pinkham's Vegetable Compound that I tried it. I took three bottles and I found it to be all you claim. Now I feel as well as ever I did and am able to do all my own work again. I recommend it to any woman suffering from female weakness. You may publish my letter if you wish."—Mrs. JAMES CONLEY, 516 St. Clair St., Frankfort, Ky.

No woman suffering from any form of female troubles should lose hope until she has given Lydia E. Pinkham's Vegetable Compound a fair trial.

This famous remedy, the medicinal ingredients of which are derived from native roots and herbs, has for forty years proved to be a most valuable tonic and invigorator of the female organism.

All women are invited to write to the Lydia E. Pinkham Medicine Co., Lynn, Mass., for special advice. It will be confidential.

TEUTONIC DIVERS BEGIN BLOCKADE

London, Oct. 25.—The sinking by German submarines of five more Norwegian steamships, valued at about five million kroner, is reported in an Exchange Telegraph dispatch from Christiania.

Shipping shares dropped considerably on the Christiania exchange today.

The steamers Alox and Rising and the schooner Theodore, together with the Swedish schooners Antonette and Henryette, are among the latest submarine victims, adds the dispatch.

The Tivens Tegn of Christiania states that one boat with six men from the Norwegian steamer Ravn, reported sunk by a German submarine at Artic on October 2, has been lost, while another boat with 11 men on board reached a lonely part of the Russian Murman coast after drifting 13 hours.

News agency reports from Copenhagen through London last night reported that sensational rumors were current regarding the relations between Norway and Germany. German submarines were declared to be waging a persistent warfare on Norwegian shipping and one account stated that five German submarines had established a regular blockade of the Norwegian coast sinking ships faster than Norway can build others. The reply to Germany's protest against Norway's stand with regard to submarines on Norwegian waters was still under discussion, the advices added, but it was said that the Norwegian government organ, in referring to the relations between Norway and Germany, declared it might be assumed that the German protest was so couched as not to bear the character of an ultimatum.

Norway in a recent memorandum announced that belligerent submarines would be permitted to visit Norwegian territorial waters only when steaming on the surface and flying their national colors.

R. L. Commander, a carpenter of Garrison, is in the city this afternoon.

Editor Watford and family are reported to have been among the automobile excursionists from Lufkin to this city yesterday afternoon. We want this prominent editor-in-chief to come back on some day during the week and bring with him that "Lively" person he has associated with him. Many of our people would be pleased to meet with the gentleman as well as help entertain Mr. Watford and we could quickly gather a sufficient force of entertainers to make them remember they had been to Nacogdoches.

A Nacogdoches farmer sold three bales of long staple cotton Tuesday for 24 cents a pound. South Texas farmers are learning that long staple will get them a better price for the same work. More will be planted next year. Houston Post.

ONE DOSE RELIEVES A COLD—NO QUININE

Take "Papa's Cold Compound" every two hours until you have taken three doses, then all grippe misery goes and your cold will be broken. It promptly opens your congested nostrils and the air passages of the head; stops nasal discharge or nose running; relieves the headache, dizziness, feverishness, sore throat, sneezing, soreness and stiffness. Don't stay stuffed-up! Quit blowing and sneezing. Ease your aching head—nothing else in the world gives such prompt relief as "Papa's Cold Compound," which costs only 25 cents at any drug store.

CHAUTAUQUA TAKES ON WIDER SCOPE.

A Series of Great Community Rallies Planned as Part of Assembly Week.

The White and Myers Chautauqua Bureau has consented to turn over its tent to the citizens of Nacogdoches for a number of extra programs to be arranged by the local committee.

Mr. Nelson Trimble, who is representing the Bureau here, eagerly entered into the suggestion of Judge S. W. Blount that the programs for the day be not limited to the professional numbers as printed in yesterday's Sentinel, but that other speakers and gatherings of interest to the community be included. The plans so far are tentative, but among other additions to be announced attractions for next summer the local committee are considering: A re-union of Confederate Veterans.

A Farmers' Get-Together with addresses from experts of the State Agricultural Colleges and also from successful planters.

A gathering of all the Fraternal orders of the vicinity with a big dinner on the ground.

Boys' and Girls' Corn and Cotton Clubs.

A Retail Merchants' session with lectures on credits and advertising.

An old Settlers' Picnic.

Address by Governor or other State Officials.

These features are common parts of many Chautauquas in other places and the fact that they are planned for Nacogdoches is another splendid proof of the big spirit and the ready mindedness of the people here.

The manager of the local Chautauqua whom White and Myers will send will act as platform manager for extra sessions, and will lend himself in every way to make the whole assembly a success.

ORANGE WHARF CONTRACT GIVEN

Orange, Texas, Oct. 25.—William Moore of Texas City has been awarded the contract by the Orange city commission to build the first unit of the municipal wharf bulkheads, for approximately \$40,000. The contractor will furnish material and labor for construction of the crescent wharf and bulk-head alongside the municipal slip, now being dredged.

The wharf will be 12 feet above the mean low tide of the gulf, will have a 35-foot apron and be served by two railroad tracks. Work will begin in 40 days and be completed in four months from that time.

Work will also begin shortly on the municipal railroad connecting the trunk lines with the wharf. Bids will be asked for soon for the construction of warehouses.

Editor Watford and family are reported to have been among the automobile excursionists from Lufkin to this city yesterday afternoon. We want this prominent editor-in-chief to come back on some day during the week and bring with him that "Lively" person he has associated with him. Many of our people would be pleased to meet with the gentleman as well as help entertain Mr. Watford and we could quickly gather a sufficient force of entertainers to make them remember they had been to Nacogdoches.

A Nacogdoches farmer sold three bales of long staple cotton Tuesday for 24 cents a pound. South Texas farmers are learning that long staple will get them a better price for the same work. More will be planted next year. Houston Post.

NOTES NACOGDOCHES MARRIAGE.

The Center Semi-Weekly Optimist makes the following report of a marriage that occurred near this city a few days ago:

"On Sunday, Oct. 19th, at 3 o'clock, p. m., at the home of the bride's parents, two miles north of Nacogdoches, Miss Esther Tinsley and Rev. Elmer L. Smith were united in marriage by Rev. M. L. Lancaster.

"The bride is a daughter of S. H. Tinsley, who resided in Shelby county nearly twenty-three years, but moved to Nacogdoches two years ago.

"Rev. Mr. Smith is a student of Campbell Seminary and Hamlin University and is a young man of sterling ability.

"Mr. and Mrs. Smith left the 23rd for Dallas, where they will spend a few days with Mrs. Smith's aunt, Mrs. G. F. Finger, before going on to Hamlin, Jones county, where they will make their future home."

10 CENT "CASCARETS" IF BILIOUS OR COSTIVE

For Sick Headache, Sour Stomach, Sluggish Liver and Bowels—They work while you sleep.

Furred Tongue, Bad Taste, Indigestion, Sallow Skin and Miserable Headaches come from a torpid liver and clogged bowels, which cause your stomach to become filled with undigested food, which sours and ferments like garbage in a swill barrel. That's the first step to untold misery—indigestion, foul gases, bad breath, yellow skin, mental fears, everything that is horrible and nauseating. A Cascaret tonight will give your constipated bowels a thorough cleansing and straighten you out by morning. They work while you sleep—a 10-cent box from your druggist will keep you feeling good for months.

THE NEW WATER TANK HAS BEN FINISHED

When the Machinery is Installed, Nacogdoches Will Be Supplied With Artesian Water.

Work on the new re-inforced concrete water tank, which will hold 130,000 gallons of water, was finished yesterday afternoon, and as soon as the machinery can be installed with which to pump and handle the water, Nacogdoches will be supplied with pure artesian water from the city well at the light plant.

Plans for the tank, pumps, etc., were drawn by Carroll Holt, superintendent of the light and water department, and work on the tank was superintended by Pat Murphey. The tank was built with the latest improved methods of concrete work by which seams are eliminated and the work made air and water tight.

Through an interview with Mr. Holt, The Sentinel learns that the old tank will be held in reserve for fire protection, and that a direct pressure will be had with the new tank, which will give to the city a double supply of water, and inexhaustible through the direct pressure, for fire fighting purposes.

The new machinery, which will be shipped out Nov. 1st, is of the latest improved in its line, and added to the good machinery we have, will give to the city equipment that would do credit to the large cities, and meet the demands of Nacogdoches for many years to come. Greatest of all, will be the supply of good artesian water, and another attractive feature is that if the present well should not prove sufficient, the supply of other artesian wells can be added to the supply.

Thus the city is to be commended for making every effort possible to supply the people with good water, and is fortunate in having a man of Mr. Holt's ingenuity in arranging matters in the most economical manner. Much of the credit for getting the artesian water is also due Alderman Will G. Reid who has insisted on developing the artesian well and conserving its flow.

NIGHT TRAIN TO DALLAS IS BEING DISCUSSED

Some days ago The Sentinel editorially urged the importance of establishing a double-daily service over the T. & N. O., with a night train from Beaumont to Dallas. The paragraph was clipped by a number of the papers in the territory, as well as being reproduced by the Shreveport Times and seems to have set both the people and the railroad officials to thinking of the matter. But regardless of whether or not this was the source of inspiration, it seems that the matter is now being seriously entertained as will be gathered from the following report, taken from yesterday's issue of the Beaumont Enterprise:

"Faster train service and better trains are predicted between Beaumont and Dallas with completion of improvements on the roadbed of the Dallas-Beaumont division of the Southern Pacific lines, now in progress. Heavy steel has been laid between the two cities within the past six months, with the exception of a few miles near Village Mills. Tracklayers are now laying heavy steel along this part of the road and will complete the work shortly. The road has been heavily oiled, eliminating dust, and is in better condition than ever in its history.

"These improvements lead to the belief that the Southern Pacific is contemplating either restoring the motor car which formerly operated between Beaumont and Dallas or putting on a

Saved Girl's Life

"I want to tell you what wonderful benefit I have received from the use of Thedford's Black-Draught," writes Mrs. Sylvania Woods, of Clifton Mills, Ky.

"It certainly has no equal for la grippe, bad colds, liver and stomach troubles. I firmly believe Black-Draught saved my little girl's life. When she had the measles, they went in on her, but one good dose of Thedford's Black-Draught made them break out, and she has had no more trouble. I shall never be without

THEDFORD'S BLACK-DRAUGHT

If you suffer from any of these complaints, try Black-Draught. It is a medicine of known merit. Seventy-five years of splendid success proves its value. Good for young and old. For sale everywhere. Price 25 cents.

night train. This latter service is greatly desired by Beaumont as well as Dallas, the desire of Beaumont being that the train be arranged to leave early at night and reach Dallas the next morning. The New Orleans sleeper would be attached to this train, it is predicted.

"The recent visit over the line by S. P. officials adds to the belief that better equipment and faster schedules are to be the rule soon over that part of the line. W. B. Scott, president; H. M. Mayo, manager of the industrial Board, general freight agent and R. H. Carmichael and W. E. Briggs, the latter two recently appointed assistant general freight agents, are making a trip over the line now. It was announced the trip was to give Mr. Carmichael and Mr. Briggs a personal knowledge of the territory, but it is also believed the trip might have a further purpose, which it is believed in Beaumont is looking to establishment of better train service between this city and Dallas."

The dispatches in the state papers announce that the flourishing little city of Palestine has received twenty car loads of soap. With this generous supply of a utility that is designed primarily for cleaning purposes, it is logical to presume that a "clean-up" campaign will now be inaugurated.

In commenting upon the agitation for road improvement in Nacogdoches county, the Jacksonville Progress says: "We hope the Nacogdoches people will get their roads in shape to the Cherokee county line, as we would like to visit that section some of these days, and don't know that we could make it with the roads in the condition they now are, either in this county or that."

Next Tuesday, Nov. 7, will be the day for the general election, at which time we elect officers from constable to president, and it is the duty of every patriotic citizen to turn out to the polls and cast his vote. Those of you who believe the present administration has made good owe it to your country and yourself to come forward with your endorsement at the ballot box, while those of you who do not have an equal obligation resting upon your shoulders, and if you do not perform your duty in the premises you are lacking in that patriotism which goes to make up good citizenship. In these days of primaries, in this section, many feel that it is no use for the reason that the nominee will

be elected anyway. This is a grievous error. When you fail to vote in the general election you cut down your representation in the conventions, and you violate the pledge you take in the primaries to support the nominees. Let's all do our duty this time.

In a local option election held in Wharton county Monday, the "wets" are reported to have scored a victory in a majority of three to one. This is quite an exception to the rule that has characterized local option elections in recent years, the majority of them voting prohibition with good majority, while the others have saved their "personal liberty" privilege with a very small margin.

COPELAND JURY FAILED TO AGREE

Galveston, Texas, Oct. 29.—After 20 hours deliberation, the jury in the Copeland case has failed to reach a verdict, but has given no indication of how it stands.

The case is that of John Copeland, charged with killing William Black, an anti-Catholic lecturer, at Marshall in 1915. It was brought here on change of venue.

The defendant Copeland and his attorneys were plainly disappointed when they left the court house. Copeland had expressed the belief, it was said, that he would be acquitted on the first ballot. That his confidence was shared by his counsel was shown when they proposed to give the case to the jury without argument, to which the state objected.

Keeping Yourself Well

HOW YOU GET SICK

Sometimes you overload your stomach with rich foods. Your life may be an active one, and thus you may care for all you eat. But a few days of inactivity show your system does not call for so much. You awake in the morning tired, your body feels heavy, you know you are not up to the mark. Your digestion has not cared for the overload. Part of it remains. It generates gas that inflames the delicate linings. They fail to pass out the impurities. You neglect to absorb the life-giving elements. You know something is wrong. Your body gets weak, and soon opportunity is offered for some severe illness. Taken in time, the indigestion would not become serious. First remove the overload; then soothe the sore membranes; then build up the weakened body. It's simple to say, but not too easy to do. You need help. A tonic that will quicken digestion, help remove waste, soothe the soreness and arouse the system—that's just what you need. Peruna has an enviable record in this respect. It has aided many thousands in the last century to overcome just these conditions, and thereby prevent serious sickness. The tablet form is convenient for regular administration.

The art of conversation consists in the exercise of two fine qualities: You must originate and you must sympathize. You must possess, at the same time, the habit of communicating and the habit of listening.—Disraeli.

Land in East Texas is cheap. It will never be cheaper, and some of these days it will be in greater demand than the black land of West Texas. Get you a "slice" of the stuff while you can. It is an investment worth while.—Timpson Times.

The Shreveport Times is out in a magnificent special edition, advertising the forthcoming fair to be held in that city, and featuring the many good resources of Shreveport. The paper is a credit to both the publishers and the city in which it is published.

It is hard to get that Lufkin editor in the straight and narrow path, even after giving him the benefit of personal experience in the effort, his latest inquiry being: "But, Brother Gibbs, suppose this 'human' man up at Washington is a one-legged man? Then what?" The only answer we can make is to "pull" the good leg.

Yesterday's issue of the Houston Post carried forty-two pages, two sections of the paper being taken up in an exhaustive and comprehensive review of the wonderful growth of the Bayou City the past year. Both Houston and the Post are great, growing with each other, and the people of East and South-east Texas have just cause to be proud of each.

The esteemed Houston Post has been giving Nacogdoches some mighty valuable free advertising lately with numerous favorable editorial comments about things and condition in this good old town and county, which our people greatly appreciate. The Post is the leading morning paper of this section of the state, and one of the leaders in the South, giving freely of its space and means for the development of Texas, and a favorable comment in its editorial columns is of inestimable value to the enterprise of section enjoying the good favor.

The county demonstration agent in Nacogdoches county announces to the farmers of that section that he has interested five demonstrators in the task of finding a market in West Texas for the ribbon cane syrup of East Texas. To be accepted for shipment to the Western market, the syrup must be of the very best quality. Once those West Texans try that good cane syrup they will be through with all these canned substitutes. It is the real thing in the way of "long sweet'ning."—Houston Post.

Ex-Governor Jared Y. Sanders of Louisiana, who is a nominee for congress, has been asked for his resignation as naval officer of the port of New Orleans by Secretary of the Treasury McAdoo, based on the ground that he is now engaged in a political campaign. Contending that his nomination is equivalent to election, by which the political aspect has been removed, it is understood that Gov. Sanders will refuse, and it now remains to be seen what pressure will be brought to bear upon the gentleman to bring him to terms.

Late news from the Mexican situation is rather disconcerting, and is giving the department at Washington serious concern just at present. Many prominent Mexican women, including General Carranza's wife, are fleeing to San Antonio, and in the meantime Villa bandits in rapidly increasing number are gathering near the American expedition's outpost, indicating that an attack was being planned. Still other rumors are afloat that Carranza is getting ready to evacuate the stricken republic, but these reports lack official confirmation, but it is not denied that conditions are growing worse, and some kind of crisis is impending.

A crowd of railroad officials of the Sunset lines passed through Lufkin and Nacogdoches Wednesday coming on to Timpson. After looking the place over they liked it so well they decided to spend the night here. One of the officials delayed the special train next morning several minutes while he went to one of the drug stores and purchased a cigar. These facts are given simply to keep the record straight, and will no doubt be of great help to the Lufkin News and Nacogdoches Sentinel in keeping up with the officials after they passed through the two towns above mentioned.—Timpson Times.

We can't explain it unless it be that railroad officials are like some other people who enjoy camping out in some quiet, secluded spot when out on a junketing trip.

Secretary Baker of the war department of the United States has given out a statement in which he announces that his department has received definite information that enemies of the government's policy toward Mexico, in connection with Villa and other bandits, had arranged for spectacular attack on American troops on the border on the eve of the election for the purpose of creating sentiment against the administration. With this advance information the attack may develop more "spectacular" than the enemies had planned, in both as to physical results in the assault and the votes that would be swayed thereby. Three fourths of the people of the United States do not want war with any nation, and there is already a well-grounded suspicion that big business and political intrigue have had much to do with the disturbed condition of affairs in Mexico.

On November 1st Virginia will join the sisterhood of prohibition states in the union, when the Mapp act prohibiting the sale of ardent spirits, except by bonded drug stores, and throwing stringent restrictions around its shipment, will become operative. A dispatch from Richmond says that about six hundred and fifty liquor dealers will have to close up their places of business in consequence.

With all the blessings we are enjoying with the democratic administration, and the hope we cherish of a continuation of the same, the people of Nacogdoches and vicinity ought to wake up to the importance of contributing something to the campaign fund. It is a condition in all affairs of life that we receive and enjoy blessings from anything in proportion to what we put into it. If we fail to do our duty in the present instance, how can we enjoy with a good conscience future blessings from an administration that has sustained us in prosperity at a time when the reverse would have been true were the affairs of government managed differently. Loosen up, gentlemen, and let's sustain our patriotism.

EX-EDITOR EAST TEXAS INTERVIEWED IN HOUSTON

Hon. A. L. Pinkston, who was for a number of years connected with the publication of the Jacksonville Banner, later moving back to Center where he was connected with the publication of the Center Champion, from which place he moved to Timpson and published a paper several years, finally quitting the newspaper game to serve his county as county clerk a couple of terms and now being engaged in the peaceful pursuits of farming, has been visiting Houston this week, and the Chronicle of yesterday carries the following interview with him, which will be of interest to East Texas people:

"A. L. Pinkston of Tenaha is visiting Houston, stopping at the Rice. Mr. Pinkston has been a newspaper editor and for four years was county clerk of Shelby County; for the past year or so has been a farmer and cattle raiser. He states that conditions in Shelby County are especially good this year on account of the good corn and cotton crops raised.

"This is one year that I am glad to be a farmer," said Mr. Pinkston. "While I do not consider myself any expert on agricultural matters, a man who managed to raise fairly good crops during 1916 is being well repaid for his efforts. All grain crops are in demand at the best prices for years, and cotton is reaching a point that is beyond all our expectations.

"Cotton seed is now selling at above \$50 a ton, and if the price continues to soar, we will be selling that former waste product of the cotton crop on the same basis as eggs—that is, by the dozen seeds. In fact, the price of cotton seed is now so high that I am afraid many farmers may be tempted to turn loose too much of the product and not keep enough for next year's planting. "There will no doubt be an immense acreage in cotton the coming season, but according to all statistics the world will need every bale that can be raised, and I do not fear any marked decline in price."

ANOTHER HELPFUL ADVERTISEMENT.

Houston Post. There is room for advertising that will pay the advertiser and help the man who reads the ad in every branch of commerce and trade.

The Post quoted recently from an advertisement published in the Nacogdoches Sentinel by an insurance agency of that city to show that "helpful advertising" is useful to the public as well as the particular business which pays for the publicity.

But the banker is the man who can do a great deal of helpful advertising. He is the one man in the community who can speak to the people with a degree of authority that no other man can employ. And he can inform them on many things that will be of lasting benefit.

Bell county is just now fearful that an invasion of the boll weevil is going to ruin their 1917 cotton crop. Every farmer in the county states there are more of the pests in the fields than have been seen since 1901. Strenuous measures will be adopted to curtail their numbers, but it is felt the 1917 crop will have to fight odds too great.

In this emergency a Temple bank begins a campaign of "helpful advertising" in this way:

"There seems to be a general scare about the cotton boll weevil. From reports from various sections of the county and the run of comment by farmers, it is safe to predict that unless a rigid campaign for destroying the

Buy Prince Albert every-where tobacco is sold in tippy red bags, 5c; tidy red tins, 10c; handsome pound and half-pound tin humidor—and that corking fine pound crystal-glass humidor with sponge-moistener top that keeps the tobacco in such clever trim—always!

Men who think they can't smoke a pipe or roll a cigarette can smoke and will smoke if they use Prince Albert. And smokers who have not yet given P. A. a try, out certainly have a big surprise and a lot of enjoyment coming their way as soon as they invest in a supply. Prince Albert tobacco will tell its own story!

R. J. REYNOLDS TOBACCO CO., Winston-Salem, N. C.

pests is carried out there won't be much cotton to market at any price next year. We would regret to see any of our customers lose their time, money and labor next year as a result of the weevil invasions. If the weevils, however, should unhappily devastate next year's crop, remember we're always ready to advance money for the purchase of hogs, milch cows, chickens, or anything that will help you to make your living on the farm—that will help you to be independent."

The bank that is "always ready to advance money for the purchase of hogs, milch cows, chickens, or anything" that will help its customers to make a living on the farm is the bank that is a help to the community and the State. And the kind of advertising that tells of its willingness to loan money for such purposes is publicity that aids the bank and the people.

PLAN FOR LEGISLATORS.

James T. Denton, legislative nominee, was in Beaumont yesterday for the purpose of meeting with Lieutenant Governor W. P. Hobby, State Senator Steve M. King, and C. O'Brien, Jefferson county's other representative-to-be, for the purpose of arranging for the entertainment of about fifty members of the next legislature who will attend the fair next month, and who will incidentally inspect the waterways of this section while they are here. The legislators will spend three days in this section, and the three cities of Southeast Texas propose to "show them," while the unusual opportunity offers to get so large a body of the state lawmakers together in one place outside the capital.—Port Arthur Record.

The editor of the Lufkin Daily News is a bully fellow, always ready to meet a fellow on "half-way ground" as is proven in his acceptance of our invitation to meet us at the train when we pass through Lufkin, which he does so gracefully in the following lines: "The editor of this paper will meet you at the train, all right, never fear; but it will be at the time of your return

from the city of Houston, and not upon the occasion of your going down!" We do not know why he chooses the occasion of our return for the meeting—but too many questions might be "odious" and we will let it go at that.

WOODMEN DAY.

To all members of the Woodmen of the World of Nacogdoches County—Esteemed Sovereigns In August, 1912, more than 8000 people gathered at Nacogdoches to observe Woodmen Day, when a barbecue was given by the city of Nacogdoches to the Woodmen and their friends. All who attended remember the fraternal spirit that prevailed that day, not only among the membership of the order, but all the people in general.

Tuesday, November 14th, next, has been designated as Woodmen Day at Nacogdoches, when Liberty Elm Camp of Nacogdoches proposes to furnish entertainment for the 2000 members of this county who are expected to attend. The merchants of the city have offered prizes aggregating some \$500, and each member should become interested to such an extent as to make the day a great success.

There will be no picnic or barbecue, but a fraternal meeting where all will be entertained, and which will be enjoyed by every man, woman and child present.

On the night of the 14th many candidates will be introduced into perfected Woodcraft, and all members will be given the opportunity of seeing two well drilled degree teams put on the work—and the "goat" will also be in trim.

It will be well for all members and camps to closely read the list of prizes, as they are valuable and worth competing for.

I appeal to each camp in the county, also each member, to make arrangements to be at Nacogdoches on the 14th, and assure each one that your visit will be made pleasant, and that you will never regret having been our guest on this occasion.

Fraternally,
ARTHUR A. SEALE,

ANTIS CALLED ELECTION

WHILE THE PROS TALKED Beaumont, Texas, October 28.—Local prohibition forces were greatly surprised Saturday evening to learn that upon petition of the required number of antis, the county commissioners court late Saturday called a prohibition election in Jefferson county to be held November 21. The county prohibition executive committee was in session at V. A. Collins' office when the antis were meeting with the commissioners court at the court house. The pros knew nothing of the election being called until late in the evening. Local option leaders declare this was done by the "saloon men" to defeat the election by not giving the pros sufficient time to campaign the county. The local fair will hold the attention of the people from November 10 to 18 and the campaign may have but little effect.

Nacogdoches farmers are planning a county fair for next year. The county demonstration agent has already a club of 140 members who will grow crops to exhibit. With that many good farmers in competition in the county fair Nacogdoches will be able to select an exhibit that will be a close competitor for prizes every big fair in the State. Every Harris county may be pressed close to get first prize with such competition and first prize for the State is what Harris demands for next year's exhibit.—Houston Post.

THICK, GLOSSY HAIR FREE FROM DANDRUFF

Girl! Try KI Hair gets soft, fluffy and beautiful—Get a 25 cent bottle of Danderine.

If you care for heavy hair, that glitters with beauty and is radiant with life; has an incomparable softness and is fluffy and lustrous, try Danderine. Just one application doubles the beauty of your hair, besides it immediately dissolves every particle of dandruff. You can not have nice heavy, healthy hair if you have dandruff. This destructive agent robs the hair of its lustre, its strength and its very life, and if not overcome it produces a feverishness and itching of the scalp; the hair roots furnish, loosen and die; then the hair falls out fast. Surely get a 25-cent bottle of Knott's Danderine from any drug store and fast try it.

FOR KIDNEY AILMENTS
Pains in the Back or disturbances in the Urinary Organs, there is no remedy more powerful and effective than

PRICKLY ASH BITTERS

It is an exceptionally fine restorative for ailing kidneys. Inflammation of the kidneys, Bright's Disease in the early stage, Diabetes, and all irregularities in the urinary organs yield to its great tonic and renovating influence. Weak, nervous people who suffer from pains in the back, too frequent casts to pass urine, torpid liver or constipated bowels, need this admirable cleansing stimulant because it contains the necessary medicinal properties for correcting these debilitating diseases.

GINNER'S REPORT.
According to the report, approved by the Department of Commerce at Washington, there were 9,619 bales of cotton ginned in Nacogdoches county from the year prior to October 18, 1920, compared with 9,075 bales ginned up to the same date last year, making an increase of 544 bales for the county this year.

HUSBAND SUFFERED.
Dear Editor:
"I sent for a box of Dr. Pierce's 'Anurie' Tablets for my husband, and he has been greatly benefited by them. He suffered from lame back and weak kidneys; kidney excretions being too frequent. After giving 'Anurie' a trial we are convinced that it is the best kidney medicine made. Will be glad to recommend it."
(Signed) Mrs. E. D. MILES.
NOTE.—Dr. Pierce, who is director and chief physician at the Invalide Hotel, and Surgical Institute, Buffalo, N. Y., has been testing this wonderful medicine for the relief of over-worked and weakened kidneys. The relief obtained by sufferers from rheumatism, lumbago, etc., has been so satisfactory that he determined to place "Anurie" with the principal druggists. "Anurie" is not harmful or poisonous, it aids Nature in throwing off those poisons which cause so much suffering, pain and misery. Scientists assert this remedy is 37 times more potent than lithia, and 10 cents for large trial packages.

KILLED ALLIGATOR
The Sentinel is informed that Mr. G. A. Matthews, a well known citizen of the Melrose country, killed an alligator nine feet long in the Angelina river one day last week.

Mr. Matthews with a party of friends was at the river fishing. When he first noticed the alligator it was lying on the bank motionless, and his first impression was that it was dead, but he took the precaution to get his gun before raising any disturbance. After getting the gun and everything in readiness, the animal moved, whereupon Mr. Matthews fired and killed the intruder instantly.

Esq. J. F. Cash, chief justice of Cushing, and Mr. R. H. Baxter, known as the "water melon kind" of the same place, were visitors to the city this morning. It is reported that Mr. Baxter shipped six cars of watermelons from Cushing last summer.

PEANUTS WORTH A DOLLAR
I am reliably informed that peanuts have been selling in some sections of Texas at 65 to 80 cents a bushel. Oil mills and other purchasers of peanuts are paying in the principal peanut sections from \$1.00 to \$1.10. Sales have been made at as high as even \$1.20.

Several weeks ago, I suggested that peanuts be marketed slowly, because the oil mills would not care to handle peanuts until the cotton seed crush was fairly well over and then expressed the opinion that peanuts would be worth 90 cents a bushel, or more. My expectations have been more than fulfilled. Farmers who are not near to mills that crush peanuts should correspond with mills in the peanut sections.

CLARENCE ONSLEY THAT BAD BACK

Do you have a dull, steady ache in the small of the back—sharp, stabbing twinges when stooping or lifting—distressing urinary disorders? For bad back and weakened kidneys Nacogdoches residents recommend Doan's Kidney Pills. Read this Nacogdoches woman's statement. Mrs. J. J. Coker, S. North st., Nacogdoches, says: "I felt miserable all the time, had no life and lacked energy. My back was weak and seldom let up paining. Dizzy spells and headaches constantly annoyed me and kept me feeling all out of sorts. Doan's Kidney Pills eased the pain across my back and strengthened my kidneys. My health also improved."

HAPPY HUNTING GROUND FOR THIS NEGRO

Some years ago Mr. R. C. Shindler, at that time a prominent citizen of this city who is now making his home in Dalhart, cut up a tract of land he had in Trinity county and sold it to some negroes. Receiving no payments, he called on his agent at that place for a report, which his son, Charley Shindler of this city now has in his possession, and which carries with it an interesting and somewhat ludicrous story.

In the collection of returns some are reported to have moved off and left the property and various other reasons are assigned, but the ludicrous report reads as follows: "This negro had cleared about fifteen acres. Went 'possum hunting one night, and went to sleep after setting fire to a dead tree, and the tree fell on him."

It would be interesting to know whether or not the poor negro caught any o'possums before the sad tragedy which ushered him into the happy hunting ground occurred, and of the "possums and taters" he dreamed of in the fatal slumber, but we suppose the world will be deprived of this interesting bit of history.

PREPAREDNESS
How It Helps Coughs and Colds

Buy your bottle of Foley's Honey and Tar now, and quickly stop the coughs and colds of early fall.

Early fall brings croup, bronchitis, asthmatic breathing, treacherous whooping coughs, whooping cough, and tickling, irritable throat.

It aggravates the distressing cough of weak lungs, and the chronic coughs of elderly people.

It gives "sniffles" to infants and children and provokes sneezes and sore inflamed throats.

Give Foley's Honey and Tar freely. It is so soothing and curative, relieves hoarseness and puts a healing coating on the inflamed mucous lining of the throat. It stops coughing easily and quickly and relieves croup before this dreaded thing has a chance to really harm the children or scare the parents. The last dose is just as good as the first, and a less amount is needed than of any other cough syrup.

So get it when you get only the original FOLEY'S HONEY AND TAR, for it is the only genuine, and contains no opiates.

AN INTERESTING LETTER FAVORING GOOD ROADS

Who knows the possibilities of East Texas?
Possibly few stop to think.

What has happened in other places can be made to "happen" here. When about twenty-three years of age I lived below Austin. Land could be bought there at that time—bottom land as fine as it to be found anywhere—from thirty to forty dollars per acre, and people said it was too high. Few bought homes on that account. Seventeen years has lapsed and now people buy and pay from \$150 to \$200 per acre for this same land. There was an awakening among farmers. We will take Nacogdoches county land being offered from ten to forty dollars per acre, and few are buying homes. We hear it said every day that land is too high. Possibly so, but wait only ten years and then take an invoice and tell me what Nacogdoches land is selling for. You will find land throughout the county selling for from seventy-five to two hundred dollars per acre, and people paying for it.

Ten years ago there was not a road in Nacogdoches county over which a decent load could be hauled. Now we have a fairly good system of public roads in the county. It was an awakening that brought these results. Today prospects point to a greater Nacogdoches, especially the little capital city of our county. She has stood almost lifeless the past ten years, yet not dead. Her work in these years has been a foundation work, the work a city must undergo that attains greatness and permanency. You may ask yourself what points to these things. I'll tell you: The same thing that has made other cities and towns. The black land has been the mainspring to Dallas, the stock business has made Fort Worth, the sand and red lands will be the foundation of the city of Nacogdoches. Men of means of this county need not worry or "gouge" their heels in the sands, for it will not check this progress. If you don't push and bear hard, some one else will. Nacogdoches has the proper geographic location, she has the land, she will soon have at least two more railroads, and this coming may be the means of at least two more that will bring the shops of at least two of them, followed with a peanut factory, a cotton factory or two, a shoe factory. Now, business men, are you going to start, or will you wait and let it be ruinous to you?

There was once millions of dollars worth of fine pine timber in this county; and the business men as a whole stood by and let the value of it get away from them. The farm industry of this county is today your reserve fund. Your repelling attitude has held back progress, but remember this same price (progress) overcame all resistance, when let loose goes by bounds. We have noted in passing that substantial progress follows good roads, and road improvement is only in its infancy in this county. Twenty years ago Travis county built her first good roads, leading to a little town named Deatville. Two years afterward I drove a dairy team into Austin over this road, a distance of twelve miles, and would make the trip in one and one-half hours. What would a dairy do here twelve miles out if you had to depend upon a team for power? Good roads have always been the connecting link between country and town. If the county site of a county takes no interest in bringing about a closer co-operation between themselves and other sections, how can you expect co-operation? Let the people of this commissioners' precinct start and see how quickly the

THE AMENDMENT.

To the Voters of Texas:

The constitutional amendment to be voted upon by the people on the seventh of November is distinctly an education amendment, and is the only amendment to be considered at that time. One leading feature of the amendment is that it does not impose a tax of itself but it does impose a tax of itself if adopted will give the various districts and counties of the State an opportunity to secure additional support for their schools if they need it and want it.

The amendment was submitted to the people of Texas in response to a widespread demand throughout the State for an opportunity to secure greater support for the schools than is now permitted by the Constitution of the State. Many districts in Texas have already reached the constitutional limit in taxation and are yet short of funds with which to provide an adequate system of public free schools. Inasmuch as the amendment does not levy a tax on any district or county, the voters of such counties and districts as may not need additional support should in good neighborly spirit vote for the amendment, for by so doing they will give the needy districts of Texas an opportunity to establish good schools for their children.

Four hundred sixty-seven independent school districts, and approximately two thousand common school districts in the State have already voted upon themselves the limit in taxation permitted by the present consti-

tution. Many of these districts need additional support and cannot secure another dollar for their schools unless this amendment is adopted. On account of the compulsory school attendance law many schools in these districts are now filled to overflowing with pupils for whom there is no provision for housing, seating or teaching. The only relief for such districts is the adoption of the amendment to Section 8, Article 7, of the State Constitution, known as House Joint Resolution 30, to be voted on the seventh of next month.

Yours for the schools,
W. F. DOUGHTY,
State Superintendent.

At the good roads meeting at Center Saturday one or two made a speech against good roads, saying that it would impose a tax upon their children and their children's children for years to come. We believe that if these "children" had a say they would be more progressive than their parents and say "build the roads; we must have them." These old fogies think they would be committing a sin if they should vote a good roads tax. But the fact of the business is they are sinning if they do not. Good roads are the first step towards civilization and civilization brings on christianity of a community that does not favor the building of good roads.—Timpson Times.
