BOARD ARRANGING FOR WORK FOR THOUSANDS

MRS. HEALER IS THE WINNER OF **CHICAGO TRIP**

After a committee of seven had tabulated all votes cast in the World's Fair trip contest, it was announced that Mrs. Mae Healer had led all contestants, having almost twice as many votes as Miss Doris Williams, who finished

in second place.

Mrs. Healer 'announced today that she would take Leo Healer with her on the trip to Chicago to visit the Century of Progress, though no announcement was made as to when the trip would be started. The winner in the contest was awarded a free trip to the

fair, with all expenses paid.

The standing of the leading five contestants in the race, as announced by the judges at the completion of the count, was as fol-

DUTY FALLS ON THOSE WHOM FATE FAVORS

When Franklin D. Roosevelt ascended to the presidency last March 4, then for the first time in an age-long memory the question of doll'ars and cents began to fade out as the prime understanding of the American mind.

Instead, the matter of social justice became upper-

Arrival of this higher understanding was almost fatally late to the United States, but, late as it was, it came welcome to a rapidly crumbling order.

This paper merely for purposes of enlightenment to the individual who can calculate life only on the basis of money, it again is mentioned in passing that the legislature would be emplowered to vote up to \$20,000,000 as it saw fit so that federal aid may be matched for relief of the needy in this state and, under no circumstances can the tax levy be imposed upon real or personal property.

The preferred list of citizens of this nation, the wellto-do or the reasonably secured men and women, recognize that they are duty bound to see to it that every man, woman and child who has not fared so well must be taken care of. There are a vast variety of reasons why some of us are STANDING on one side of this life's economic line, and the rest are PRONE on the other. Lack of foresight, a failure of education in youth, wastage, wanton recklessness, forces beyond human control-countless other causes can be supplied for the plight of the latter.

BUT THAT THERE IS A LONG LINE MASSED ON Foster Wheel 171/4 THE DARK SIDE IS A FACT INTO WHICH THE MAT-TER OF THEORY DOES NOT ENTER NOW.

ready arrived, a recognition of every human's right to Goodyear work, right to eat, right to play-IN SHORT, THE RIGHT TO LIVE. The consideration of dollars and cents does not enter into this recognition except as the prevalent means by which that right is assured.

So, we come down to the situation which confronts us: Liq Carb the federal government will not continue its relief aid to Marshall Field this state unless Texas citizens in some way share the cost of that imbursement.

Twenty million dollars raised in Texas through this 50 cents apiece per year for 10 years. Not one bridge party nor theatre should any of us attend; not one mile should we drive in motor; not one world's fair should we see; not Phillips Pett...... one vacation should any of us take until we have approved Pure Oil of this issue and resolved to support it next Saturday.

He who sit downs to a pacifying meal Sunday, and thereafter eases himself to an arm chair in a vast comfort of personal feeling, can have had no conscience to the duty | Stan Oil N J encumbent upon him by reason of his security had he voted "No" the day before on this issue of hunger and want. His was hypocrisy personified if the meal was pre- Tex Pac C & O ceded by a prayerful church hour over which hung the Union Carb atmosphere of "Thy kingdom come, Thy will be done."

Talk it, then, good people, to your neighbor. Impress US Steel to the utmost on all, particularly those who mental atti- Vanadium tude has not yet adequately dovetailed itself into this new American demand for justice, that there is something they Worthington must do on Saturday if the privilege of security accorded them shall not turn out to be an embezzlement of faith | Cities Service . Elec Bond & Sh which has reposed in them.

selves to be wandering around in the dark about what to Stan Oil Ind . do to bring better times and are perfectly willing to give the President power to do anything he pleases in the fond hope that his eye-sight is better than their own.

ley, 209 Main street, Ranger: There is no better advertisement for a city than prosperous nwspapers. The more advertising they carry, the better impression they make on the outside world. Seen anywhere, they show that the community they represent |Oct. . is alive and is good place in which to live and invest.

Contrary to the opinion so often expressed ,there are few people in the world who cannot think or do not think. The measure of mind, however, is whether or not it can carry a thought through to a real conclusion-not just to a half-way point.

Some cities are always going to do something, but never get a start. Now is the time to act—get something done.

BICYCLE. VERMONT was the

first state admitted to the Union

(Continued from page 1) friends throughout the great state of Texas. Since I was a boy, when saw Texas sprawled nearly across the map, I always had admiration for the state and I now have met and been friends with many citizens of the state and my admiration for the state and her people have increased.

Texas is the banner democratic state of the union. It gave Presi dent Roosevelt and Vice President Garner the largest majority of any state in the union. I feel at liberty, therefore, to speak directly to the democrats of the state about repeal and legalization of beer because the plans pledging the democratic party to these two things were more important parts of the immoral democratic platform at Chicago.

I am told by my friends in Texas that there is no doubt about your state voting for repeal and legalized beer on next Saturday, but because it is the banner democratic state, I hope to see it roll up and crocheted jumpers of string the biggest majority for repeal and Garner last November. Texas will then become the 23rd state to ratify repeal and the 38th state to legalize beer.

The repeal of the 18th amend ment will return to Texas and high pointed Schiaparelli Pixie cap every other state the right to deal with liquor as it sees fit. The good a bit on the outskirts of the mode. old democratic doctrine of states Dress necklines show no signs of rights, so dear to the people of Texas, is being put into effect in dealing with the liquor question. Your vote to repeal national proof liquor in your state.

tendant upon them, have thrived loved state. fathers and mothers of the country whelming vote next Saturday will to the polls next Saturday.

Most States Have Provided Funds For Relief Work

AUSTIN. - Virtually all the states in the union with available credit or taxation sources of revenue have taken steps to match the federal government's relief work, according to a report prepared by the American Legislators' association and received here today by William Strauss of Houston, chairman of the committee campaigning for the proposed relief bond amendment.

California voters have authorized a bond issue of \$20,000,000, Maine is to vote on \$2,000,000 and Pennsylvania has submitted a bond issue of \$25,000,000 in addition to a like amount appropriated for relief work. New York voters last November approved a bond issue of \$30,000,000 and next November votes on an issue twice that size. Rhode Island is to vote on a \$3,-000,000 issue.

Maryland has issued \$12,000,-000 of state bonds to be used in relief work in the city of Baltimore. Nevada has issued \$100,000, New Hampshire has issued \$1,-800,000 and Washington has voted \$10,000,000, the latter to be financed by diversion of .4 of one cent per galon gasoline tax.

Indiana has appropriated 000,000 for relief work and Oklahoma \$600,000 for "widows and disabled people unable to work." Ohio has diverted \$2,000,000 gasoline tax money and Michigan from the same source authorized the use of between \$2,000,000 and \$4,

Kansas and Nebraska have levied mill taxes for relief work.

Illinois adopted a 3 per cent sales tax, which was held unconstitutional and a 2 per cent sales tax was then submitted.

General sales or gross income taxes have recently been levied in Indiana, Nevada, New Mexico, North Carolina, North Dakota, New York, Oregon, Oklahoma, Utah, Vermont, Washington and South Dakota.

Personal income tax measures have been enacted in Alabama, Arizona, Kansas, Minnesota, Montana and New Mexico, with corporate incomes taxes also provided in Minnesota.

Twenty-one states have levied a barrel tax on beer, apart from the license tax, and most of this will be used for unemployment relief. These taxes ranges from 1 cent in Missouri to 15 cents a gallon in South Carolina.

'The only states that have done nothing to match federal aid," said Mr. Strauss, "are those whose states. We should be ashamed to

Horse and Plow Lure Members of FFA Survey Says

FORT WORTH .- Old Dobbin and the plow have a greater lure for them than the bright city lights, a cross-section survey of 200 young Future Farmers of America from North Texas re-

So far as they are involved there will be no social or economic problem in their herding into the city. The last census figures for Tex-

as showed the farm population has decreased from a total of 48 per cent of the entire state's popula-tion in 1920 to 40 per cent in 1930. At the same time the urban population has climbed from 32 per cent of the total in 1920 to 41 per cent in 1930.

The remainder of the population, about 18 per cent, is in the smaller twons, neither counted in the urban or the farm population. This class of population has changed less than one per cent in the 10 years following 1920, leaving the shift almost entirely between the farm and the larger towns and

The farm was their choice, they said without exception.

Most of the boys showed surprising knowledge of present economic problems, especially those pertaining to the farm. They were unanimously of accord that President Roosevelt has brought a "new deal" to farming that will make farm life more attractive.

"Roosevelt has put the 'future' in farming," one boy said. "Farm- long hours anytime in the dairy ing will be better from here on

Horses and Mules **Are Coming Back** In a Big Way

By United Press

FORT WORTH .- Horses and mules are coming back in a re-markable manner in Texas, Fort Worth dealers report, not only in competition with the tractor but in price as well.

Inquiries by the hundreds, compared to mild interest last year, are flooding dealers here, one of the principal mule and horse markets of the South. The first sale of the year here, scheduled for Aug. 28 and 30 is due to result in nearly double last year's prices, said John Hicks, secretary of the Ross Brothers Horse and Mule

A span of mules which last year would have sold at \$150 today will sell at \$250, he said.

Most of the inquiries about horses come from those interest ing in breeding stock, Hicks said, but many seek animals to replace the tractor as well. The demand for horses comes primarily from the East, while the South is running true to custom for mules.

Several factors contribute to the revival of the animal-power market, Hicks said.

During the days and years of from higher commodity prices, hecame forgetful of the horse and mule. Instead he stocked his farm with tractors and went in for a single crop.

"Now the situation is reversed," Hicks aid. "Hard times forced the farmer to plaster his farm with a mortgage. He is now trying to plow his way out by diversifying his crops and raising his own food. There's where the horse and mule re-enter.

"The farmer has found that he can replace his horses and mules by breeding, while the bright tractors of a few years ago rust in the field, useless to the farmer in his attempt to get back on his feet.

"The mortgage holder is agreeable to breeding while the matter of buying a new tractor is frown-

According to estimates there i need for replacing 200,000 to 400, 000 mules and between 150,000 and 250,000 horses in Texas alone in the next three years, Hicks said.

Aside from the Texas demand, Hicks exhibited a stack of inquiries from the south-North and South Carolina, Tennessee, Alabama and Mississippi-for mules.

"Last year we didn't get more than a handful of inquiries from these states and unless we could quote prices far below the actual value the sale was not made," he

Texan Will Be on **Byrd Expedition**

DALLAS-Charles Gill Morgan, eismologist for the Geographical Research corporation and graduate and former instructor in geology at Southern Methodist university here, will accompany the second Byrd expedition as chief geologist and geophysicist, it has been announced here.

The expedition will sail from Boston Sept. 15 to Dunedin, N. Z., and will reach Little America, Admiral Byrd's base headquarters on the Antarctic continent, around Dec. 25.

Morgan's chief interest in making the trip will be to determine the thickness of the polar ice cap. Instruments similar to the type used in geophysical prospecting for petroleum formations will be employed.

The committee on geophysical research of Harvard university, where Morgan was a graduate student, and the National Research council of Washington, have awarded the Dallas man special grants with which to finance his investigations. He is to receive a fellowship award from Harvard if the expedition succeeds in obtaining the sought for geological and geophysical data.

Travelers Get Wine Education

By United Press

ROME.—If a traveler doesn't know his wines, he will be taught them before any blushing scene occurs. The Italian steamship companies are installing tasting booths aboard, where sipping of all wines will be free. A "biccierino," or thimbleful, of any wine will be erved to all comers.

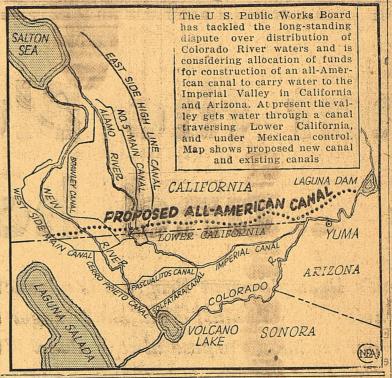

The national institute for exports and the major steamship companies have decided that henceforth ocean passengers must not the world's largest tea consuming experience one single embarrassing moment during the crossing.

What the Blue Eagle means to you and how you can get it

The President's Reemployment Program is advancing to complete success. No such sweeping demonstration of the unity of a whole people against a national danger has ever been made. • In this vast surge of patriotism it is necessary to keep our common purpose always clear. When 125,000,000 people attempt to act as one man there are sure to be some misunderstandings. It is time to restate as clearly as possible the aim of the whole endeavor and the duty of each individual. • That is the purpose of this message—to state officially, briefly and clearly the simple rules for common guidance. • It is an evidence of the self-sacrificing service of the whole country that this newspaper has donated this space. In that spirit the whole country is acting. • This plan depends wholly on united action. That unity is almost complete. In the next few days let us close up every gap in the ranks and nail the flag of the Blue Eagle on the door of every man who works another man.

OFFICIAL EXPLANATION OF THE PRESIDENT'S REEMPLOYMENT AGREEMENT

(Sometimes miscalled "The Blanket Code")

This Agreement binds you to put its terms into effect from the time you sign the Certificate of Compliance until December 31, 1933; but when the President has approved a Code for your trade or industry, that Code takes the place of this Agreement.

Child Labor

(1) After August 31, 1933, not to employ any person under 16 years of age, except that persons between 14 and 16 may be employed (but not in manufacturing or mechanical industries) for not to exceed 3 hours per day and those hours between 7 A. M. and 7 P. M. in such work as will not interfere with hours of day school.

This means that after August 31, 1933, you agree not to employ any children under 14 years old in any kind of business. You may employ children between 14 and 16 years old, but only for three hours a day and those hours must be between 7 in the morning and 7 at night, and arranged so as not to interfere with school. You agree not to employ any children under 16 years old in a manufacturing or mechanical industry, at any time.

Maximum Hours

(2) Not to work any accounting, clerical, banking, office, service, or sales employees (except outside salesmen) in any store, office, department, establishment, or public utility, or on any automotive or horse-drawn passenger, express, delivery, or freight service, or in any other place or manner, for more than 40 hours in any 1 week and not to reduce the hours of any store or service operation to below 52 hours in any 1 week, unless such hours were less than 52 hours per week before July 1, 1933, and in the latter case not to reduce such hours at all.

This means that you agree not to work any of the kinds of employees listed in this paragraph (except outside salesmen) for more than 40 hours a week. This paragraph covers all employees except factory workers, mechanical workers and artisans. However, no limit on ours and no minimum wage applies to purely agricultural labor, domestic servants, or persons working for you solely on a commission basis; but, if you have persons working for you who are guaranteed a base pay in addition to their commission, then their base pay plus commissions must equal the minimum wage.

This Agreement sets no maximum on the number of hours you may keep your business open. You agree not to keep your wholesale, retail, or service establishment open less than 52 hours a week unless it was open less than 52 hours a week before July 1, 1933. Even then you agree to keep it open as long as you used to keep it open before July 1. Of course, if you have always kept your store open shorter hours in the Summer months you can continue to do so this Summer, but you should pay your employees the same amount each week that they will get when you keep your store open full time.

The stores with more than two employees which remain open the longest are contributing the most to carrying out the purpose of the Agreement. The stores with two or less employees which can be open only the minimum number of hours required, are doing the most to fulfill

(3) Not to employ any factory or mechanical worker or artisan more than a maximum week of 35 hours until December 31, 1933, but with the right to work a maximum week of 40 hours for any 6 weeks within this period; and not to employ any worker more than 8 hours in any one day.

This means that if you are employing factory or mechanical workers or artisans, you agree not to work them more than 35 hours a week and not more than 8 hours in any one day.

When you have more than the usual amount of work to do and can't get additional workers, you may employ this class of employee up to 40 hours a week in any 6 weeks, but even in this case you must not work them more than

(4) The maximum hours fixed in the foregoing paragraphs (2) and (3) shall not apply to employees in establishments employing not more than two persons in towns of less than 2,500 population which towns are not part of a larger trade area; nor to registered pharmacists or other professional persons employed in their profession nor to employees in a managerial or executive capacity, who now receive more than \$35 per week; nor to employees on emergency maintenance and repair work; nor to very special cases where restrictions of hours of highly skilled workers on continuous processes would unavoidably reduce production but, in any such special case, at least time and one-third shall be paid for hours worked in excess of the maximum. Population for the purposes of this agreement shall be determined by reference to the 1930 Federal census.

This means that there are certain employees whom you may work longer hours than are allowed by paragraphs (2) and (3) P. R. A.

If your business is in a small town (population less than 2,500 by the 1930 census) and you do not employ more than two persons, the limit on hours does not apply to these employees. If your town is really a part of a larger business community, the limit on hours does apply to these employees.

The limit on hours does not apply to your employees who are wholly or primarily managers or executives, as long as they receive \$35 a week. Professional persons, like doctors, lawyers, registered pharmacists and nurses, may be employed without any limit on hours.

Where employees are doing emergency jobs of maintenance or repair work, they may be kept on the job for

longer hours, but you agree to pay them at least time and one-third for hours worked over the limits set in paragraphs (2) and (3) P. R. A.

There are a few very special cases where highly skilled workers must be allowed to work more than the limit of hours in order to keep up output on continuous processes, but, here again, you agree to pay them at least time and one-third for the hours they work over the limits set in paragraphs (2) and (3) P. R. A.

Minimum Wages

(5) Not to pay any of the classes of employees mentioned in paragraph (2) less than \$15 per week in any city of over 500,000 population, or in the immediate trade area of such city; nor less than \$14.50 per week in any city of between 250,000 and 500,000 population, or in the immediate trade area of such city; nor less than \$14 per week in any city of between 2,500 and 250,000 population, or in the immediate trade area of such city and in towns of less than 2,500 population to increase all wages by not less than 20 per cent, provided that this shall not require wages in excess of \$12 per week.

This sets out the schedule of minimum wages which you agree to pay all employees, except factory or mechanical workers or artisans. The wages are set out in terms of dollars per week, but if your employees are paid by the hour, you may use the following schedule:

Place of Business: Minimum Wage:

In cities of between 250,000 and

In cities of between 2,500 and

If your business is in a town of less than 2,500 population, you agree to raise all wages at least 20%. If raising all wages 20% causes you to pay over \$12 per week, then you need only pay the \$12 per week.

If there is any doubt in your mind as to whether your business is in the "immediate trade area" of a city, you should ask your local Chamber of Commerce or other similar organization for a decision on the matter. The general rule is that the "immediate trade area" is the area in which there is direct retail competition.

(6) Not to pay any employee of the classes mentioned in paragraph (3) less than 40 cents per hour unless the hourly rate for the same class of work on July 15, 1929, was less than 40 cents per hour, in which latter case not to pay less than the hourly rate on July 15, 1929, and in no event less than 30 cents per hour. It is agreed that this paragraph establishes a guaranteed minimum rate of pay regardless of whether the employee is compensated on the basis of a time rate or on a piecework performance.

This fixes the minimum wage which you agree to pay factory and mechanical workers and artisans. The following schedule may help you to find out the proper rate:

If the rate for the same kind of work in the same community on July 15, 1929, was:

The minimum rate which you agree to pay is:

More than 40c an hour...40c an hour
30c to 40c an hour.....The July 15, 1929 hourly rate
Less than 30c an hour.....30c an hour

Instead of paying by the hour, you may pay by the week at a rate which gives the same weekly earnings for a week of 35 hours. For example, instead of 40c an

hour, you may pay \$14 per week.

If you had a contract on or before August 1, 1933, with a learner or apprentice, you do not have to pay him the minimum wage, but no one should be classed as a learner or an apprentice who has ever been employed as a regu-

(7) Not to reduce the compensation for employment now in excess of the minimum wages hereby agreed to (notwithstanding that the hours worked in such employment may be hereby reduced) and

to increase the pay for such employment by an equitable readjustment of all pay schedules.

Two official interpretations—No. 1 and No. 20—have been issued, explaining this paragraph. You can get copies of these at your local Chamber of Commerce or from the nearest N. R. A. representative.

Anti-Subterfuge

(8) Not to use any subterfuge to frustrate the spirit and intent of this Agreement which is, among other things, to increase employment by a universal covenant, to remove obstructions to commerce, and to shorten hours and to raise wages for the shorter week to a living basis.

This is the heart of the whole Agreement. The President's Plan is to cure this depression by increasing purchasing power. You can help him put this plan over by voluntarily signing this Agreement to shorten hours and raise wages. There is no force to compel you to sign this Agreement. It is not law. It is a personal agreement between you and the President. The President expects you to do everything in your power to carry out the spirit of the Agreement after you sign it. This means whole-hearted cooperation by really earning the Blue Eagle—not by just getting it and then not doing your part.

It would be a "subterfuge to frustrate the spirit and intent of this Agreement" to sign it and then put all of your employees on a straight commission basis—or any other trick to avoid doing what you promise to do.

HOW TO EARN THE BLUE EAGLE

- 1. Sign the President's Reemployment Agreement (P.R.A.).
- 2. Shorten Hours of factory workers to 35 hours per week, and of all other employees to 40 hours per week. (See paragraphs 2, 3 and 4, P.R.A.)
- 3. Raise Wages. (See paragraphs 5, 6, and 7, P.R.A.)
- 4. Don't Employ Child Labor. (See paragraph 1, P.R.A.)
- 5. Cooperate with the President. To do this:
- (a) Live Up to the Agreement. (See paragraph 8, P.R.A.)
- (b) Don't Profiteer. (See paragraph 9, P.R.A.)
 (c) Deal Only with Others "Under the Blue Eagle." (See paragraphs 10 and 12.)
- (d) Get a Code in by September 1st. (See paragraphs 11 and 13, P.R.A.)

HOW TO GET THE BLUE EAGLE

- 1. Sign the President's Reemployment Agreement.
- 2. Mail the Signed Agreement to your District Office of the Department of Commerce.
- 3. Put the Agreement into Effect (as outlined above in "How to Earn the Blue Eagle").
 4. Sign a Certificate of Compliance. This is a slip distributed with the Agreement. It
- says: "I/We certify that we have adjusted the hours of labor and the wages of our employees to accord with the President's Reemployment Agreement, which we have signed."

 5. Deliver the Certificate of Compliance to Your Post Office. The Postmaster will

EXCEPTIONAL CASES

1. Where a Code Has Been Submitted. (See paragraph 13, President's Reemployment Agreement). If your whole Trade or Industry is unable to live up to the President's Agreement, you should get together at once, with other employers in your Trade or Industry and, in a group, submit a Code of Fair Competition to N. R. A. in Washington

give you your Blue Eagle.

Since it takes some time after a Code has been submitted for it to be finally approved, your group may petition N. R. A. to substitute the wages and hours provisions of your Code for the wages and hours provisions of the President's Reemployment Agreement.

If N. R. A. finds that the Code provisions are within the spirit of the President's Reemployment Agreement, it will consent to such substitutions. If N. R. A. does consent there will be an official notice in all the papers. You may then put the substituted provisions into effect in place of the indicated paragraphs of the President's Reemployment Agreement. In this case you should add to your Certificate of Compliance the following clause: "To the extent of N. R. A. consent as announced, we have complied with the President's Agreement by complying with the substituted provisions of the Code submitted by the — Trade/Industry."

If the substitution is consented to after you have already put the President's Reemployment Agreement into full effect, and after you have already gotten your Blue Eagle, you may still put the substituted provisions into effect without signing another Certificate of Compliance.

2. Where a Code Has Been Approved. If a Code of Fair Competition for your Trade or Industry has already been finally approved by the President, you need not sign the President's Reemployment Agreement in order to get the Blue Eagle. The same is true if you are subject to a Code which has been put into effect temporarily by agreement between the President and representatives of your Trade or Industry; but in either of these cases, you must sign a Certificate of Compliance, adding to it the following statement: "We have complied with the operative provisions of the Code for the —— Trade/Industry."

3. Cases of Individual Hardship. (Paragraph

14, President's Reemployment Agreement).

If there are some peculiar reasons why a particular provision of the President's Agreement will cause you, individually, a great and unavoidable hardship, you may still get the Blue Eagle by taking the following steps:

(a) Sign the Agreement and mail it to your between the undersign District Office of the Department of Commerce. Labor Organization)."

(b) Prepare a petition to N. R. A. setting out the reasons why you cannot comply with certain provisions, and requesting that an exception be made in your case

(c) Have this petition approved by your Trade Association. If there is no Trade Association for your business, have your petition approved by your local Chamber of Commerce or other representative organization designated by N. R. A.

sentative organization designated by N. R. A.

(d) If the Trade Association, or other organization, approves your petition, send it to N. R. A. in Washington with this approval.

(e) Comply with all the provisions of the Agreement except the one you are petitioning to have excepted.

4. Union Contracts. If you have a contract with a labor organization calling for longer hours than the President's Agreement allows, and this contract was made in good faith by collective bargaining and cannot be changed by you alone, try to get the labor organization to agree to a reduction to the maximum hours allowed by the President's Agreement. If the labor organization will not agree, you may apply to N. R. A. for permission to work your employees as many hours a week as the contract calls for. Send to N. R. A. a request for this permission, with a certified copy of the labor contract and any statement of fact you desire. This application will be handled by N. R. A. in the same manner as an application for relief in cases of individual hardship, filed under paragraph (14) P. R. A., but it will not be necessary to obtain the approval of a trade association or other organization. If N. R. A. approves your application or is able to bring about any modification of the contract, you will then be granted permission to work employees in accordance with the contract as originally written or modified, and can then sign the Certificate of Compliance adding to it the following: "Except as required to comply with the terms of the Agreement in effect between the undersigned and the (Name of Labor Organization)."

Anti-Profiteering

(9) Not to increase the price of any merchandise sold after the date hereof over the price on July 1, 1933, by more than is made necessary by actual increases in production, replacement, or invoice costs of merchandise, or by taxes or other costs resulting from action taken pursuant to the Agricultural Adjustment Act, since July 1, 1933, and, in setting such price increases, to give full weight to probable increases in sales volume and to refrain from taking profiteering advantage of the consuming public.

The object of this paragraph is to prevent profiteering or speculation, so that prices will not rise faster than purchasing power, and destroy the President's plan. The danger to be avoided was pointed out by the President on June 16, 1983, in the statement which he made on signing the Recovery Act. He said, then:

"If we now inflate prices as fast and as far as we increase wages, the whole project will be set at naught. We cannot hope for the full effect of this plan unless, in these first critical months, and, even at the expense of full initial profits, we defer price increases as long as possible. If we can thus start a strong, sound upward spiral of business activity our industries will have little doubt of black-ink operations in the last quarter of this year. The pent-up demand of this people is very great, and if we can release it on so broad a front, we need not fear a lagging recovery. There is greater danger of too much feverish speed."

If you were selling your merchandise on July 1, 1938, below cost, you may take your cost price on that date as the basis for determining the allowable increase under this paragraph.

Cooperation

(10) To support and patronize establishments which also have signed this Agreement and are listed as members of N. R. A. (National Recovery Administration).

The success of the President's Reemployment Agreement Program depends upon public support going to those who raise wages and shorten hours in accordance with this Agreement, in order to repay them for the extra expense which they have incurred in doing their part.

Code

(11) To cooperate to the fullest extent in having a Code of Fair Competition submitted by his industry at the earliest possible date, and in any event before September 1, 1933,

This Agreement is a temporary measure to tide over the time from now until all employers and employees can cooperate under Codes of Fair Competition under the National Industrial Recovery Act. You agree, in this paragraph, to do all you can to have a Code submitted for your trade or industry before September 1, 1933.

Appropriate Adjustments

(12) Where, before June 16, 1933, the undersigned had contracted to purchase goods at a fixed price for delivery during the period of this Agreement, the undersigned will make an appropriate adjustment of said fixed price to meet any increase in cost caused by the seller having signed this President's Reemployment Agreement or having become bound by any Code of Fair Competition approved by the President.

This Agreement will, usually, increase the costs of those who sign it. The purpose of this paragraph is to pass any such increased costs along from one signer to another, and so on to the consumer.

If you have a contract made before June 16, 1933, to buy goods at a fixed price, you agree to make an arrangement with your seller so that you pay him for the extra cost to him caused by his having signed this Agreement, or having come under a Code approved by the President.

In some cases the final buyer is the Government, which, under existing law, is generally not allowed to pay more than the contract price. The President has announced that he will recommend to Congress that appropriations be made to allow the Government to play its part by paying Government contractors who have signed the Agreement for their increased costs. The President has also appealed to the States and cities to take action permitting them to do likewise.

You should have no fear that, because your buyer has not signed, you will be left with the increased cost on you alone. The President expects every employer to sign this Agreement.

Substitutions

(13) This Agreement shall cease upon approval by the President of a Code to which the undersigned is subject; or, if the N. R. A. so elects, upon submission of a Code to which the undersigned is subject and substitution of any of its provisions for any of the terms of this Agreement.

As pointed out in the explanation of paragraph (11) P. R. A. above, the President plans to have all business govern itself under Codes, and therefore Codes should be promptly submitted. If N. R. A. finds that the wages and hours provisions of a Code which has been submitted are within the spirit of this Agreement, N. R. A. will authorize your industry to operate under those provisions rather than under the wages and hours provisions of this Agreement.

Exceptions

(14) It is agreed that any person who wishes to do his part in the President's Reemployment Drive by signing this Agreement, but who asserts that some particular provision hereof, because of peculiar circumstances, will create great and unavoidable hardship, may obtain the benefits hereof by signing this Agreement and putting it into effect and then, in a petition approved by a trade association of his industry, or other representative organization designated by N. R. A., may apply for a stay of such provision pending a summary investigation by N. R. A., if he agrees in such application to abide by the decision of such investigation. This Agreement is entered into pursuant to section 4 (a) of the National Industrial Recovery. Act and subject to all the terms and conditions required by sections 7 (a) and 10 (b) of that act.

If you really want to do your part in the President's Reemployment Program, sign this Agreement. If some particular part of this Agreement causes you, as an individual employer, great and unavoidable hardship, you may obtain relief by taking the steps outlined under the heading "Cases of Individual Hardship."

Save this sheet as your official source of information. If there are any problems in your mind which are not cleared up by this explanation, get in touck with the official N. R. A. representative in your community.

Miss Dorace Roe returned Saturday from a 10 days trip during which she visited Miss Orpha Wilson, who is attending college at Denton, Miss Joe Lon Daughtry, at Fort Worth, and Miss Aubrey Wilshire at Burleson.

Mr. and Mrs. W. E. Barron and son, Billy Jack, spent Sunday with relatives at Graham.

Mrs. Roy Rushing returned on Thursday night from a two weeks visit with her sisters, Mrs. Worth Smith at Eliasville and Mrs. E. B. Stewart at Cromwell, Okla. Mr. Rushing drove up to Gainesville and met her.

Mr. and Mrs. Ed Parks and son and daughter, accompanied by Miss Nell Robert and Miss Mollie O'Rear, drove up to Olden Sunday evening and attended the young peoples' service at the Methodist revival being conducted by Rev. David Irvin and the pastor of the Desdemona-Olden charge, Rev. Z. L. Howell. Rev. Irvin recently assisted Rev. Howell in a very successful revival in Desde-

BORN-Aug. 13, to Mr. and Mrs. Thomas Browning, a 10pound girl.

Miss Aline Walker, formerly of Desdemona, but now of Eastland, spent Sunday night here with Miss Dorace Roe who went home with her Monday to visit a few days. The Walker family will move in a short time to Arlington, where they will live in a nice home provided by the Methodist church for superannuated preachers. Rev. R. A. Walker and family lived here for two years as pastor of the Methodist church until last fall when he superannuated after more than 40 years of faithful service in the Central Texas conference The many friends of the family regret to have them leave our county.

Mrs. A. C. Brown is enjoying a visit from her two granddaughters, the children of the late D. A. Brown and his wife. These attrac- = tive young adies almost grown, were quite small when they and their mother moved to Fort Worth. They are receiving a hearty wel-

Wednesday from Lamesa and Big Bratton. These attractive little but he recovered. Spring, where he had been called by the death of his grandfather, Rev. D. C. Wells, aged 74 years, who passed away suddenly at his home at Lamesa. Rev. Wells was pastor of the Baptist church at Lamesa and was just closing a great revival meeting during which 65 members joined the church. He was well known not only in Desdemona but in all of Eastland county and West Texas. Besides his daughter, Mrs. Grace Bray and her son, our townsman, J. H. Rushing, Jr., he is also survived by his mother who is up in her 90's, and many other relatives, to all of whom we extend sympathy.

Mrs. W. E. Barron, as district secretary of the Methodist //issionary societies of the Cisco district, went to Sipe Springs Tuesday and organized a society. Mrs. W. R. McGowan accompanied her and assisted in the organization.

Mr. and Mrs. D. E. Hoover and son, Calvin, returned Monday from Blanket, where they had visited her parents.

U. of T. Owns More Land Than In The State of Rhode Island

By United Press AUSTIN .- The University of

Texas owns more land than there is in Rhode Island and almost enough, if transferred, to cover either Conecticut or Delaware.

Regents who recently toured the land holdings found much of it in oil territory. The land is situated in the following counties:

Andrews county, 294,020 acres; Crane, 63,680; Crockett, 356,480; Ector, 6,080; El Paso, 11,520; Hudspeth, 453,120; Culberson, 46,080; Irion, 22,270; Loving, 22, 400; Pecos, 184,960; Terrell, 61, 440; Schleicher, 57,600; Reagan, 194,560; Upton, 77,440; Ward, 80,640; Winkler, 53,120, and Martin, 14,080.

"Fat" Justice, Mr. and Mrs. Elton Phelps and Baby Birtie Ethel of Wlatwoods were Monday evening visitors in the home of Mr. and Mrs. Troy Cannaday.

C. P. Hastings and family and Mrs. M. E. Hazlitt spent last Sunday with Bob Hastings and wife and baby at Shady Grove.

A goodly number of Oak Grovers are attending the revival meeting at Carbon Baptist church where the pastor, A. A. Davis, is delivering some soul-searching messages to a fine large audience each evening at 8:30 p. m. Hi day messages consist of an Exegesis of the Book of James, written by the Lord's brother. These services will continue through two week closing about Sunday, Sept. 3. Everybody is invited to come and worship with us. G. D. Hall is planning quite a

large acreage in fall crops since the recent rains consisting maize, kaffir corn, higera, feterinta, and peas. His plantings will total more than 20 acres.

Bridge Row Breaks Up Another Couple

SPRINGFIELD, Mo. — Mrs. Helen L. Meyers sued her husband for divorce because, according to her petition, he wasn't happy at

a bridge game unless he won, and when Mrs. Meyers had good cards she had to play them poorly just to keep peace. Meyers contested the suit, al he often w as fosced to scrub the floors and windows and sometimes Kurth Lumber Co., Keltys, will had to wait out on the porch in

If your elephant wants to ride on top IT'S ALL RIGHT WITH A CHEVROLET

We didn't actually plan on elephants when we chose the bodies for the new Chevrolet. But we did choose bodies rigid enough, and strong enough, to support six tons of elephant or anything else you can name. Fisher bodies . . . steel bodies plus a hardwood frame . . . exactly the same type of bodies used on all 12 and 16-cylinder cars. Steel alone is not enough to make you as safe and secure as we want you to be in a Chevrolet. A steel body, welded into a solid wall of protection plus resilient hardwood reinforcing to take up stress, absorb shocks and

prevent the steel from following its natural tendency to buckle under pressure makes the sturdiest body of all—the kind used on the Chevrolet, and on no other low-priced car. Remember that when you buy a car. Be sure to get all you pay for ...the super-safety of a steel-plus-wood Fisher body. CHEVROLET MOTOR COMPANY, DETROIT, MICH.
