Prof. R. F. Holloway, superintendent of the Ranger public schools, wasn't present in Ranger Friday night to help the citizens celebrate the Bulldogs' victory over the Abilene Eagles because he was in Cisco helping celebrate the victory of the Loboes over the Buckaroos, it was learned today.

Mr. Holloway's participation in the Cisco celebration was unintentional on his part, how-

He gave his congratulations to her over the telephone and asked that they be transmitted to the Cisco school head.

#### A BIBLE THOUGHT FOR TODAY

NEITHER POVERTY NOR RICHES: Remove far from me vanity and lies: give me neither poverty nor riches: feed me with food convenient for me.-Proverbs 30: 8.

#### A DEVIL'S ISLAND FOR DESPERATE AMERICAN CONVICTS

France had its Devil's Island on the coast of Giana. Uncle Sam is to have his Devil's Island on the coast of California. Atty. Gen. Homer Cummings has announced that Alcatraz island would be used to detain underworld characters who foster rebellion among prisoners, attempt to bribe guards and who have influential organized gangster friends at large constantly attempting to aid in their escape. Well an island off the coast of San Francisco has been selected for the purpose. Its description is interesting. Its rocky shores rise precipitately from San Francisco bay. It is more than a mile from the nearest mainland point. A swift, forbiding current swirls constantly around it. In all its long history as a military prison not one in- F. A. MILLER, publisher of the South Bend (Indiana) Trimate has escaped. Harvey Bailey and George Kelly are to be confined there.

Well, the government appears to need a Devil's Island for its desperadoes. After killing the sheriff, four gunmen liberated John Dillinger a bank robber, from his cell at the jail "and raced from town in two automobiles."

Away down here in Texas the sheriff of Wichita county was slugged into insensibility and thrown over a bridge into the Wichita fiver by three whites and four negroes.

Sheriffs should be trained to shoot to kil.l Jail guards better service and therefore to greater efficiency." should be trained. Police officers need training in marksmanship. Why should criminals be permitted to challenge DEMOCRATIC QUILT the government, to override all laws, to terrorize the lawabiding and to break down the superstructure of the social order?

#### A WARNING TO U. S. LABOR AGENTS Secy. of Labor Frances Perkins appears to be on her

job. She has notified agents of the department of labor that they must not attempt "to interfere in any way with newspaper editors." She has warned them that they have states, and that elephant, which I ly 7,800,000 barrels will have do any good at all, they should orno right to tell any editor what he may or may not print in his news or editorial column. And lastly, she has reminded the aforesaid agents of the labor department "there is nothing in the NRA or any other federal statute which gives you such a right." This action was taken for the reason that an agent of the labor department was charged with threatening an Alabama editor "that articles he was writing on labor unions were in violation of the NRA" and who had threatened prosecution.

Clothed with brief authority there are human atoms who puff up like pouter pigeons. Flowers for the lady commissioner. She hit the offender with an iron hammer.
