RANGER, TEXAS, TUESDAY EVENING, AUGUST 18, 1936

PRICE FIVE CENTS

# **COLONY WILL OPEN SCHOOL AUGUST 31ST**

The opening date for Colony School has been set for Monday, August 31st. All patrons of the community are urged to start their children into school the very first day, as all registrations and classifications can be made at that time and the regular class room work taken up the following day.

The people of Colony community feel that the school is making wonderful progress. Additional credits are being affiliated each year as well as improvements from a physical standpoint. The school is classified by the State Department of Education as a four year high school. At present 12 units are accredited and the school authorities feel confident of securing five additional credits this coming school term, thus making the school fully accredited.

"The entire Acker school district and a part of the Oakley district are transferred to Colony for this school term. We wish to welcome these people into our community and want you to feel that you are a part of our community," stated Guy T. Smith, superintendent of the school.

Mr. Smith continued: "A number of persons have asked about children under six years of age attending school. Of course, in order for a child to be a scholastic he must be six years of age on or before Sept. 1, 1936. But the local school board has passed a regulation that if a child is si years of age by January 1st, 1937 he may attend free of tuition for the school year 1936-37, if the parents are desirous of sending him; provided the child starts into school during the first week of school, and provided further by permitting the above the school does not become too crowded. Un der no condition will a child who is not six until after January 1st, 1937, be permitted to attend. We are anticipating an enrollment of about 180 students this year."

Teachers of the Colony school this year are as follows: Guy T. ERN REBEL ARMY, Aug. 18 -Smith, Supt.; Carl E. Johnston, Loyalist forces, fighting desperate-building, each morning between sie Williams, 1st and 2nd.

#### 'Buck Passing' Legal in Canada

That universal formula for getting out of tight spots, "passing the buck," has won formal recognition with introduction of \$1 prosperity certificates by the Alberta, Canada, Social Credit government. It's the same old game, but with a few new rules. Those holding the certificates each Wednesday (buck-passing day), must affix a 1 per cent stamp on each \$1 slip. After two years, scrip is redeemable in good Canadian dollars. Mrs. Edith Gostick, member of the provincial legislature from Calgary, is shown buying groceries with one of first certificates issued.

#### Campaign Hits Stride In News Columns

There is blood on the moon in any election year, and the makers of medicine have many a sign and portent to take into account. So it begins to look as if the present campaign would be remembered as the great year of freefor-all propaganda.

Propaganda is expected from party leaders, especially from national chairmen. If Messrs. Hamilton and Farley, for instance, on the same day issue diametrically opposite statements about the same thing, that is just one of the little vagaries of the game and is only a sign that everything is proceeding normally.

But that kind of propaganda never fooled anyone who did not want to be fooled. The business gets more serious when it moves into the regular channels of information and takes on the guise of unbiased news.

Here is a sample case.

On Aug. 6, two Washington correspondents sent out stories about the same news event—the schism in the ranks of organized labor which has John L. Lewis heading in one direction and William Green heading in another. The opening paragraphs of their stories are presented herewith:

WASHINGTON, Aug. 6.—Republican Nominee Alfred M. Landon will gain thousands of votes as a result of the crack-up within the ranks of organized labor. This stood out clearly today through the welter of charges and counter-charges hurled by labor leaders following the suspension . . . of John L. Lewis . . and the ten "rebel" unions.

WASHINGTON, Aug. 6. — Hostile organized labor groups will not let their feud interfere with their promise to help re-elect President Roosevelt, leaders indicated today. A truce between A. F. of L. leaders and those of the ten "rebel" unions ordered suspended has been declared until after the November elections.

Now the thing which stands out like a brick corncrib in a fog is that here we have two Washington correspondents, entrusted with the task of telling the people what is going on in their national capital, taking the same set of facts and drawing diametrically opposite conclusions.

One of them is positive that the labor split will not hurt President Roosevelt's chances in the least; the other is en more positive that the split will hurt the president's chances very badly.

Obviously, one or the other, if not both, of these gentle-

men has been writing propaganda, rather than news. What is the innocent reader to do in a case like that? How is he to tell propaganda from news?

During the heat wave ,a forest ranger was trapped in an Ontario forest fire. His hut was a small one, is it was useless for anyone to try to rush in and join him.

MOLLY MILFORD, rich and popular, has received proposals of marriage from three suitors, but BRENT STUART, whom she loves, has not asked her to marry

Bored with parties, Molly asks
Brent to the her to "The Red
Poppy," a questionable night
club. He refuses. Molly, annoyed,
goes with WICK ROSS, another
admirer.

goes with WICK ROSS, another admirer.

The lights go out suddenly and when they come on again Molly finds herself dancing with a handsome stranger. He is, in reality, NELSON FERGUSON, bank robber, and he is one of a group planning to spirit Molly away and hold her for ransom.

A few days later Ferguson telephones and asks her to have dinner with him. Molly agrees. Waiting for him at a downtown store, she encounters a girl who appears to be her exact double. Impulsively Molly exchanges her iuxurious costume for the other girl's shabby one.

me."

Molly was silent for a moment.
The words had sounded crude.
She felt a sense of disappointment, too, because he was not quite as handsome by daylight as he had been in the softened glow of "The Red Poppy."

He assisted Molly from the car, who could play like that could surely be trusted. Maybe they didn't know this was a wicked sort of place. Or maybe it wasn't wicked. You couldn't judge a place always by the people who companion said. He raised his came to it. Molly knew now she companion said. He raised his hand in salute. "Hello, 'French'!" had definitely decided Nelson

with a man who was a complete stranger to her? On her way with him to some unknown place called "Frenchy's"?

"Is it far to Frenchy's?" she

"Is it far to Frenchy's?" she

"Is it far to Frenchy's?" she "Is it far to Frenchy's?" she sked suddenly.

He turned and she felt his eyes THE table at which Molly and wrote: "Am at Frenchy's. Twelve wrote: "Am at Frenchy's. Twelve miles from the bridge. Place searching her face. "Not very," rectly in front of the orchestra miles from the bridge. Place he said. "Why?"

Molly hesitated. "I was thinking if it is, perhaps it would be best not to go there tonight, because I must be back by 10."

"Double-dating? Well, if you keep him waiting, that's his hard luck."

"Ask them to play something."

"Rotty in front of the orchestra stand. Molly stared at the young music and the prince with a green front. Please come. With a green front. Please come. With a green front. Please come. With a green front play." Taking the bill from her purse—she noted it was \$20—she one to aid her, if a way opened stand, she placed the papers in the hand of the young musician.

luck."

"Ask them to play something
No, Molly decided, I don't like from Leoncavallo's 'I Pagliacci,' and place the other in his pocket.

Molly said quickly, and was re

# TAKE THE TRAIN . . . Sample Low Fares

You can have speed—with safety—when you travel by train. Western railroads have speeded up many train schedules but in the whole year of 1935 not one passenger life was lost in a train accident, while millions were carried in perfect safety. This is a record which western railroads strive day and night to maintain.

What makes this fine record possible? Constant vigilance, ceaseless inspection of roadbeds, rails, signal systems, automatic safety devices, engines and cars. Brakemen, conductors, dispatchers, engineers, firemen, inspectors, maintenance-of-way men, oilers, signalmen, switchmen, telegraphers, Pullman porters all railroad men keep the first railroad commandment, Safety First.

Train travel offers speed with safety, plus air-conditioned comfort, money saving fares and economy meals, new coach comforts, world's finest sleeping cars, dependability in all weather. Ask the railroad agent

about travel or shipping by train. Shippers: Use new Free pick-up-and-delivery of LCL freight.

Proud of our achievements, we appreciate the public's good will and increased patronage, and pledge continued progress

AND THE PULLMAN COMPANY

A WANT AD IN THIS PAPER WILL BRING QUICK RESULTS!

This was a scene "somewhere near Camp Custer, Mich.," as the zero hour in U. S. war games

brought a squadron of nearly 80 "enemy" war planes roaring down in power dives on a concentra-

tion of regular army troops and national guardsmen. Men above are swinging an electrically controlled anti-aircraft gun into action. Small groups to right and left are range-finding and communications details. Foreign military attaches are observing the maneuvers, which involve all

branches of the army service.

#### Caddo and TeePee Win Monday Games

After getting several apparenty raw decisions at the hands of the umpires, Caddo played the remainder of their game with Magnolia under protest, then proceed ed to go out and win the game without the necessity of protesting, though the breaks continued to go against Caddo.

In the nightcap TeePee went into one of their rare hitting sprees of the season and pounded War ford and Gray for a total of 10 hits and 12 runs, while the Elks were held to six hits and thre runs to blast any hopes they had of going into a tie with Lone Star Gasoline for the league lead.

Magnolia started off with three run lead, which they retained until the protest, but Caddo forged ahead in the third, when they ran in four tallies. Magnolia was held scoreless until the sixth when they garnered two more runs. Caddo annexed one each is the fifth and sixth, then took four run lead by making three more in their half of the inning. Magnilia failed to score in the last of the seventh.

The Elks took a two run lead in the first inning, but TeePee made four in the second, three in the A new lineup will be started for third, one in the fourth and four the All Stars in the second game, were being held scoreless until the
