

U. S. HIGHWAYS ADEQUATE FOR MOBILE ARMY

By United Press
WASHINGTON, D. C.— Army and government officials believe the United States has no need for "super-highways" for rapid movement of the newly-created streamlined Army divisions and that the present highway system, constructed for normal commercial traffic, is adequate for the nation's defense.

The War Department has laid out a 75,000-mile strategic system of highways reaching into every state that will be needed if a 10-day mobilization day comes. The Public Roads Administration is surveying this system and believes that a major portion of it can be utilized with only minor preliminary improvements.

Secretary of War Henry L. Stimson stated that "the War Department has found that highways constructed for commercial purposes and internal development substantially fill national defense needs."

Chairman Wilburn Cartwright of the House Committee on Roads observed the plan is "not to build a lot of new highways on a grand scale."

"The roads recommended by the War Department have, in greater part," he added, "been included in the Federal-aid system. With few exceptions they are the roads most needed in our normal peacetime life."

"Military requirements would impose no standards for roads or bridges superior to those that could be required for the accommodation of normal commercial traffic," Cartwright said.

Col. W. C. Caples, Army Engineer Corps, in a magazine article said that in open warfare all supplies must eventually reach the troops by road.

"Either a nation must construct roads in time of peace or have its military operations hampered by the necessity of waiting for road construction during campaigns," Caples said.

The Army's modern division, after the German "Panzer Division," will comprise more than 13,000 vehicles and can be moved 300 miles in 14 hours—if adequate roads are available. The non-mechanized division covered 20 miles in a long day's march.

To provide for mass movements under modern warfare, the standards of construction for roads of military priority as recommended by the War Department are as follows:

Surface—hard surface capable of supporting 9,000-pound wheel load on pneumatic tires;

Width—minimum of 20 feet. Edges to be four feet in excess of approach roads;

Bridge load capacity, grade, structure, clearance and sight distance standards similar to those recommended by the Public Roads Administration.

Referring to the PBA survey of existing highway facilities, the National Highway Users Conference stated that 40,000,000 operators of the United States' 30,000,000 motor vehicles "are willing to share the cost of improvements that may be needed for normal traffic requirements. But highways built for strictly military purposes should be paid for out of defense funds."

"The greatest handicap to a full and effective use of the highways in the national defense program," the conference said, "lies in the lack of uniformity in state laws and regulations governing sizes and weights of vehicles, load limits, equipment requirements and other barriers."

"Highway improvements for defense would be greatly expedited instead of diverting upward of \$100,000,000 annually for other uses, all highway users' revenue devoted to road purposes."

The conference has designated Monday as "America's highway mobilization day." When it comes, troops, equipment and supplies will move over the highways for national defense to make its predecessor, M-Day, a success, the conference believes.

Omaha Children Make Husk Dolls

By United Press
OMAHA, Neb.—Two Omaha grade schools have found a new use for Nebraska corn.

Pupils at Webster and Columbian schools used corn shucks to make dolls and floor mats for their annual fall exhibits.

How to Get a Moose Into a Canoe

I. B. Baker, left, of Norwich, O., and guide bring out of Martin river district first moose of season to be registered at office of Ontario minister of game and fisheries. Canoe load of steaks and chops, with exception of few cooked for guides, goes to charitable institutions.

Big NYA Center In Waco Is Planned

AUSTIN, Tex.—Presidential approval of plans to construct an NYA Resident Center and Shop for 750 boys at Waco, Texas, was announced today by J. C. Kellam, state NYA administrator.

One phase of the Project calls for three hundred unemployed, out-of-school young men to help build the necessary dormitories, infirmary, laundry, recreational structure, mess hall, and machine shops for the Center.

The second phase of work involves the operation of a shop program for young men between the ages of 17 and 25 who will reside at the Center and obtain actual work experience on a production basis in the machine, woodwork, sheet metal, air conditioning, auto mechanics and welding shops, in short wave radio operation, electrical repair, and in similar fields.

The City of Waco, which is sponsoring construction of the Center, has made available to NYA 32 acres of land on which the Center and the various shops will be built.

"Young men from over the State, who are out of school and need employment, will be assigned to the Waco Center," Kellam said. "The Project is in line with the national defense program in that it will afford actual workshop experience to those who have not had an opportunity to develop the fundamental manual and mechanical skills."

Electrification Ills of Farmer Is Being Studied

AUSTIN, Tex.—Electrification ills of the Texas farmer are being probed by University of Texas engineers in cooperation with the federal government. It was announced here today.

Launched as a general survey to speed work of the Rural Electrification Administration, the project will narrow down to a study of specific problems, such as the improvement of power transmission to reduce cost, H. T. Chilton, engineering research assistant here, said.

Supervised by the University's Bureau of Engineering Research, the survey is part of a general research program aimed at making electricity available to all Texas farmers, he added.

Palo Pinto Ranch Owner Is Held In Slaying at Graham

GRAHAM, Nov. 7.—Mrs. Tom Holt, prominent ranch owner of Palo Pinto County, was free on \$7,500 bond today after being charged with the slaying of Jack Parker, 36, a former employe.

The slaying was said to have occurred last night as Parker sat in a truck with Mrs. Holt's daughter, Mrs. Lawrence Hart.

ROOSEVELT IS BACK AT DESK AT WASHINGTON

WASHINGTON, Nov. 7.—President Roosevelt returned to flagbedecked capital today after being assured of a victory in Tuesday's general election, when he carried 40 of the nation's 48 states.

Harold Ickes, secretary of the interior, submitted his resignation, as he did four years ago when President Roosevelt was re-elected for a second term. Ickes explained that he was handing in his resignation in order that the president might re-form his cabinet, "if he desires."

Cheering thousands greeted the president as he arrived in Washington, and lined Pennsylvania Avenue to the White House.

At the White House the president made a brief speech, in which he said that Mr. and Mrs. Henry Wallace, his vice presidential running mate, Mrs. Roosevelt and he were glad to be back in Washington for another short period.

He said he was really a country man, but if he had his choice of any city in which he would prefer to live, it would be Washington.

After waving to the cheering crowds and posing for photographers the president retired to his study in the White House to take up his duties.

Country Club Will Meet This Evening

Members and associate members of the Ranger Country Club will meet tonight at 7:30 at the clubhouse, when a chili supper will be served.

A business meeting will be conducted during the evening, when business matters pertaining to operation of the club will be taken up for discussion.

All members of the club have been urged by Jack Mooney, president, to be present for this important meeting and the chili supper.

Thoroughbred Horse Raisers Will Meet

FORT WORTH, Texas—Members of the Thoroughbred Horse Association of Texas will hold their annual meeting November 12 on the King Ranch, Kingsville, organization headquarters here announced.

Chief business of the session will be appointment of a board of governors and selection of permanent committees for the coming year.

Robert J. Kleberg, Jr., will be host for the gathering.

Hey, Mind Your Manners, Sonny

WASHINGTON.—The Norwegian Legation says that while some of the civilian population of Norway is living in serfdom under its German rulers, many students refuse to be cowed by the Nazis.

No Norwegian farmer may go into the city without special permission under rulings published in the official German newspaper in Oslo, the legation said. The restriction applies as well to persons who fled to the country from war-ravaged cities. Unemployed Norwegians will be shipped to Germany to work, sharing the fate of many Polish laborers.

In Stavanger, the legation said, the entire editorial staff of a labor newspaper which protested a Nazi decree that each family in town could buy only half a ton of coke was jailed.

Latest feat of the riotous student population of Oslo, which has consistently kept Maj. Vidkun Quisling, "sole political leader" of Norway, in difficulties, was the systematic removal, at night, of "Jewish owners" signs on Oslo store fronts, the legation said.

Composer Dedicates Music To Explorer

PITTSBURGH.—Dorothy Margot Von Richter has paid a musician's tribute to the memory of Richard Halliburton, explorer and author.

Miss Von Richter, 22, a friend of the late writer, composed a piece for violin and piano, dedicated it to Halliburton's memory, and sent it to his parents, who live at Memphis, Tenn.

The composer has been playing, composing and conducting since the age of six. She met Halliburton several years ago when he visited Pittsburgh.

Alive—After 70 Days of Horror

This photo records the ending of one of the most dramatic sagas of the sea in recent years. On Aug. 21 the British freighter Anglo-Saxon sank 500 miles off the Azores. Seven men took to a life boat. In the 70 days at sea that followed, five died or committed suicide. Two men, living on seaweed, a few fish and rainwater, managed to reach Eleuthera Island in the Bahamas. They're pictured above, George Tapscott, left, and Wilbert Widdicombe, so weak and emaciated he had to be carried, after being flown to Nassau for hospitalization.

U. of T. Can Aid In Work of Defense

AUSTIN, Tex.—A high-gear national defense program, lacking skilled technicians, can now turn to the University of Texas for its share of help, one teacher-training expert here declared today.

Through special courses for skilled foremen and other likely teachers, the University Industrial Teacher - Training Bureau launched a program this week to fill governmental technical needs existent since the defense program slipped into high gear, Miss Laura Murray, director, has announced.

The courses, opening to qualifying journeymen and tradesmen now employed in industry or in public schools, will concentrate on short, intensive study, involving ten to twenty hours of study in helping prospective teachers.

The Bureau also furnishes texts used, cooperates in making industrial surveys, and promotes and organizes local public school training programs.

Hear Students In Norway Rebelling

WASHINGTON.—The Norwegian Legation says that while some of the civilian population of Norway is living in serfdom under its German rulers, many students refuse to be cowed by the Nazis.

No Norwegian farmer may go into the city without special permission under rulings published in the official German newspaper in Oslo, the legation said. The restriction applies as well to persons who fled to the country from war-ravaged cities. Unemployed Norwegians will be shipped to Germany to work, sharing the fate of many Polish laborers.

In Stavanger, the legation said, the entire editorial staff of a labor newspaper which protested a Nazi decree that each family in town could buy only half a ton of coke was jailed.

Carpenter's Digging Ends "Hay Fever"

PAW PAW, Mich.—State police have solved the mystery of why their radio operators got hayfever.

Since the Paw Paw's ultra-modern building was completed in 1936, the post has had five radio operators, and each has contracted the disease.

One theory advanced was the heat from the huge transmitter tubes caused hayfever. Carpenters partitioning the transmitter from the operator's room found the real cause of the operator's misfortune.

ATTENDED 187 SCHOOLS

MELBOURNE, Australia — Laura McCormick is believed to have attended more schools than any other person in the world. Her parents are caravan entertainers and she attends the school in whatever town the caravan of its stay there. Recently she attended the Warrnambool school, 170 miles from here, for one day only. To date, she has attended 187 schools in Queensland, New South Wales, Victoria, South Australia, and Central Australia.

BOTH FORCES CLAIM TO BE WINNING IN GREEK-ITALIAN BATTLE TODAY

Disabled Veterans Make Poppies for Sale On Saturday

Bright red poppies, crepe paper replicas of the famous poppies of Flanders Fields, fill Legion headquarters here today as the women of the American Legion Auxiliary prepare for the annual observance of Poppy Day on Saturday, May 25.

The poppies were received from Legion, Texas, where they were made by disabled World War veterans. They show the patient and devoted work of these men who made them in remembrance of their departed comrades. All hand-made, the flowers vary slightly according to the skill of the veterans.

"Poppy-making means much to the disabled veterans," explained Mrs. Lee Dockery, Poppy Day chairman. "For those in the hospitals, it provides an interesting occupation to fill the long hours of illness and convalescence. It has high value as occupational therapy helping the men speed their recovery. It gives them the encouraging experience of again earning money and of being able to send money home to help support their families."

"The poppy work rooms maintained by the Auxiliary in a number of states, provide employment for disabled men outside the hospitals who are unable to do other work. For them the poppy work is an eagerly sought relief from unhappy idleness, from the almost hopeless search for a job their limited strength can perform, and a means of supporting themselves and families."

The disabled veterans are the only persons who receive pay for poppy work. The Auxiliary women who handle and distribute the flowers serve as unpaid volunteers, all contributions received on Poppy Day going to support Legion and Auxiliary efforts for the disabled and the needy families of veterans.

Interned Men Are Forming Schools

BERNE, Switzerland—Special field-universities are being created for about 500 students who were among the French and Polish soldiers crossing the border from France in June to be interned in Swiss camps.

The universities opened the end of October, following a regrouping of the interned students to place them in camps where they can resume their studies. All students following one particular line of studies were placed in the same camp.

The faculty was recruited principally from the interned soldiers, but lecturers also will be supplied by the various Swiss universities and by the Federal Technical high school. Under present plans each camp will be "attached" to one of the Swiss universities. The sponsoring Swiss university for each camp will place its faculty and libraries at the disposal of the interned students.

The students will be subject to military discipline under the direction of the interned officers.

County To Send Six Trainees In First Draft Call

AUSTIN, Nov. 7.—The first call to the Eastland County Draft Board to furnish men for the selective service draft quota was made here today by Brig. Gen. Watt Page. The quota for Eastland County was placed at six men.

The quota set for Eastland County is expected to be the number required to fill out the county's share of the 1,753 Texas trainees to be called this month.

Other quotas called for today by the Brigadier General included Johnson County, six; Palo Pinto County, four; and Stephens County, two.

Taxes On Federal Bonds Is Urged by Henry Morgenthau

WASHINGTON, Nov. 7.—Secretary of the Treasury Henry Morgenthau, Jr., today recommended that congress remove the exemptions from taxes on future government securities.

Morgenthau made the recommendation so the government could meet part of the defense expense and said that the national debt limit should be increased to \$65,000,000,000 because that is his estimate of what it will reach by 1942.

"We have only begun to rearm," said Morgenthau.

CAT WALKS 100 MILES

BOSTON — Mrs. Thompson Boyd's cat journeyed 100 miles in nine months to return home from Mystic, Conn. Its paws were swollen and raw from the long trip.

Both the Greek and Italian armies, fighting furiously in the Balkan Mountains, claimed successes today, as the British regained from the Italians the base at Gallabat, Sudan, which they lost several weeks ago.

The Athens radio said that British aid is "flowing regularly" into Greece and Premier Metaxas said the people would fight "until the last battle is won."

The biggest fight in Greece was over the Italian base at Koritza, Albania, where the fascists re-started an offensive. Yugoslav reports said the Italians were advancing slowly toward Janina, as the weather improved.

London heard that the German garrisons in Rumania were being increased greatly, possibly for a Balkan campaign.

In East Africa, British forces also attacked Kassala, another city lost early in the war. Italians reportedly were having trouble supplying mid-African forces.

At Dublin, President De Valera said that Eire will not give up bases for the British, despite a plea by Prime Minister Winston Churchill that these were necessary to the nation's defenses.

London sources reported unofficially that a basis for British-American-Australian cooperation has been reached. At Washington the United States State Department announced that Germany has refused to guarantee safe passage for another American ship to evacuate refugees from Britain. The ship was expected to land in Western Ireland to bring Americans home from the war zone.

1940 Farm Year To Exceed 1939 Economist Says

AUSTIN, Texas—Still \$23,000,000 shy of 1939's total farm cash income up to October 1, Texas farmers were today assured by a University of Texas economist their year-end dollars would outnumber those of 1939.

Citing slower cotton ginning, Dr. F. A. Buechel said 1940's farm receipts are down 8 per cent but claimed cotton growers may expect \$60,000,000 more from cotton and cottonseed during the remainder of the current cotton marketing season than in the same period in the 1939 marketing season.

The Bureau of Business Research statistician also forecast probably increased receipts from livestock and livestock products.

With only 1,487,000 bales of a 3,500,000-bale crop this year ginned to October 1, two million bales remain to come in later in the season—valued at approximately \$100,000,000, he said.

Last year, with an actual crop of about 2,800,000 bales, 1,968,000 bales had been ginned by the end of September, leaving only 832,000 bales for season-end ginning—bringing in only about \$40,000,000.

"This difference of \$60,000,000 in itself insures a larger farm cash income during the current year than in 1939," he declared.

Bureau-computed figures on cash income from the sale of farm products—which Dr. Buechel explained have proved so complete as to be virtually identical with census figures available much later—revealed a September total of \$76,227,000, down 4.8 per cent from September, 1939.

Total income from the first nine months of 1940 stood at \$264,940,000, or 8 per cent under the corresponding first three-quarters of 1939.

YOUR ARMY

A Series Describing the Arms and Services of the Regular Army

PERSONAL CHOICE

One of the most remarkable features of the Regular Army of the United States is the way it has carried the true principles of democracy into an efficient military organization.

Through the centuries most armies have been looked upon as cold machines—where individuality and personal desires are lost in regimentation.

This is not true of the United States Army. The volunteer, enlisting in the Army, is encouraged to choose the Arm or Service he prefers. If he enlists to secure training for a future career, he may decide upon the Engineers—the Air Corps—the Ordnance—Coast Artillery—any of twelve branches.

Within the Arm or Service he selects, he may specialize further in the type of work best suited to his talents and ambition.

Training schools are maintained by most of the different Branches of the Service to give men who qualify additional opportunity for study and advancement.

Nowhere else in the world is a man's individuality more thoroughly studied—or is more encouragement given to develop a higher skill and greater earning capacity.

There are about 300 different skilled trades or jobs in the Army. They touch most basic jobs in industry . . . ranging from photography to mechanics and the sciences. Men who apply

Contest Winner

Over a field of 150 contestants from Texas, Oklahoma, Arkansas and Louisiana, Marion Roberts, 18-year-old piano student of Fort Worth and Lubbock, has been judged winner of the \$250 G. B. Dealey Award and will be given a debut as guest soloist with the Dallas Symphony Orchestra at its December 1 and 2 concerts. The young artist is the son of Mrs. Corinne Ficklas, of Lubbock, and is a student at the Fort Worth Conservatory of Music. He has studied piano since he was seven years old.

The contest held to encourage the development of youth Southwestern music talent, will become an annual event, Jacques Singer, orchestra conductor, announced.

themselves during enlistment are equipped for a good earning capacity either in industry or to remain in the Army.

Those who elect to remain in the Service have many opportunities for a colorful, romantic career. They may apply for duty in this country or its overseas possessions. The broadening effect of travel is added to the many other advantages of Army life—including healthful outdoor sports; excellent medical and dental care; good food and good companions.

Promotion, under the rapidly expanding conditions of today—is rapid and the pay attractive; ranging as high as \$126.00 per month for Master Sergeants during their first four years enlistment—with increases of 5 percent every four years until 25 percent has been added.

The retirement pay for this grade is \$133.87 for life. There are few other careers which offer so much in happy, healthy living and security for old age as the Regular Army. The basic reason is the democracy of our Army—and its desire to see that every enlisted man is as free to carve out a career for himself as if he worked in civilian life.

While We've Been Looking the Other Way

Machines of Peace and War Defend the Nation

The peacetime corn picking machine at top looks as formidable as the wartime howitzer immediately below. Both play an important role in the nation's defense preparedness. Modern farming methods, along with the AAA Farm Program, assure the nation plenty of food for any emergency. In the nation's Ever-Normal Granary are nearly three billion bushels of corn, enough to fill a freight train reaching more than half way around the world.

Home, Sweet Home—for Army Families

This row of pleasant houses at Montgomery, Ala., was not built for suburban commuters. Built by the federal housing authority, they will be homes of enlisted men at Maxwell Field, army air base. The government-financed project, built in 95 days, is one of the nation's first two defense housing projects ready for occupancy.

READY ON THE FLYING LINE

When the flying cadets at Randolph Field, Texas, the Army's "West Point of the Air," go up for practice flights, sometimes as many as 300 planes are in the air at once. What might be a confusion of traffic during take-off and landings is reduced to orderly precision by radio control. Cadets do not leave the ground or land until they receive the "Okay, clear" signal from the a-patroller on the control platform.

Hawks a Menace To Bird Flights

By United Press
DALHART, Tex.—Ducks and geese which once came by the hundreds of thousands to the wildlife refuge on the famous XIT ranch are falling prey to vicious hawks.

Mrs. R. L. Duke established the refuge at Buffalo Springs, north of here, when her husband was general overseer of XIT, at one time a 3,000,000-acre ranch. The refuge was operated in the early 30's and nearly a million ducks and geese stopped there on their migrations annually.

Their protection ended when Mrs. Duke left the ranch after her husband's death. The pools remain and the birds continue to stop there.

Big Pecan Crop In State Brings Move To Control Pest

SAN ANGELO, Texas—Texas anticipating a bumper crop of nearly double year's, members of the Texas Pecan Growers association will convene Nov. 12 for their annual convention. The meeting will last two days.

Dr. S. W. Bilasing of Texas A. M. College will address the convention the first day, detail methods of controlling the stink bug and pecan weevil. On Nov. 12, H. G. Lucas of Brownwood will address the growers on advertising the pecan.

Texas is expected to produce some 38,000,000 pounds of pecans this year, according to recent surveys. Because of a sharp increase in the amount of pecans being marketed, prices have slumped. In the Brownwood area, one of Texas' best growing regions, most dealers are offering 6 cents a pound in comparison with prices of 8 to 10 cents a pound a year ago.

Because of better locomotive and freight cars and improved signaling systems and terminal railroads now turn out more than twice as much transportation service per train hour, on the average, than they did in 1918.

HAPPY RELIEF FROM PAINFUL BACKACHE

Many of those gnawing, nagging, painful backaches people blame on colds or strains are often caused by tired kidneys—and may be relieved when treated in the right way.

The kidneys are Nature's chief way of taking excess acids and poisonous waste out of the blood. They help most people pass about 3 pints a day.

If the 15 miles of kidney tubes and filters don't work well, poisonous waste matter stays in the blood. These poisons may start nagging backaches, rheumatic pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headaches and dizziness. Frequent or scanty passages with smarting and burning sometimes show there is something wrong with your kidneys or bladder.

Don't wait! Ask your druggist for Doan's Pills, used successfully by millions for over 40 years. They give happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from your blood. Get Doan's Pills.

John Kimbrough Says He's Best

John Kimbrough, his All-American running mate, said Jim Thomson, above, of Texas A. & M. was the greatest football player in the country. Given an opportunity to carry in his senior year, Thomson is doing what teammates knew he could do all along. He averaged 8.27 yards each carry in five games and caught nine passes for 161 yards and three touchdowns.

teams, at Breckenridge, the Pups reported to be strengthened since they lost to the Pups earlier in the season, and a hotly-contested game is in prospect.

Coach Scruggs reports that the Pups are in excellent condition for the game, two of the starters being kept out of the Strawn game last week in order that they might get over minor injuries and be ready for the hard game tonight.

This will be the only game in Ranger this week, as the Bulldogs will be resting for their game with Cisco's Lobes on Monday afternoon, Nov. 11. It has been reported that Olden and Williams will play at Bulldog Stadium Friday night, Nov. 15, in a crucial game in the Class B circuit. Starters for the Pups for tonight as announced by Scruggs, will be Cole and Stevens, ends; Mitchell and Black, tackles; Wheat and Dabbs, guards; Hardin center; Jewel, Renteria, White and Brown, backs.

Honor Roll of Junior College For First Term

Below is the honor roll for the Ranger Junior College, for the first six weeks session, as given by the Dean, H. L. Baskin.

- Freshmen**

HARVEST MOON CAKE
For Your Next Party
By MARY BLAKE
Home Service Dept., Carnation Co.

2 cups sifted cake flour 1 teaspoon vanilla
2 teaspoons baking powder 1/4 cup brown sugar, firmly packed
1/2 teaspoon salt
1/2 cup butter or other shortening 2 egg yolks, unbeaten
1/2 cup Carnation Milk diluted with 1/2 cup water

Sift flour once, measure, add baking powder and salt, and sift together three times. Cream butter thoroughly, add sugar gradually, and cream together until light and fluffy. Add egg yolks, beat well. Add flour alternately with milk, a small amount at a time. Beat after each addition until smooth. Add vanilla. Bake in greased pan 8x8x2 inches, in moderate oven until done. Spread with Maple Frosting. Temperature: 350° F. Time: 45 minutes. 12 Servings.

by appointment. Conductor, Laura Todd and outside guardian, Viola Brink were installed and will serve the remainder of the term.

Those who attended the Oil Belt Association at Dublin gave an interesting report.

Plans will be made at the next meeting to go to Breckenridge to initiate a candidate.

There were 13 members present.

Julia Alexander Grove Meets Wednesday
Members of the Julia Alexander Grove No. 1954, met at the I.O.O.F. hall Wednesday afternoon with Guardian Thelma Bott presiding.

Interesting reports were made by those who attended the district convention in Mineral Wells, Monday. At the convention the following women were elected to office, president, Thelma Bott; Inner Sentinel, Bessie Harris; and first auditor, Edna Williamson.

There were 13 members present at the meeting Wednesday.

Mr. Glathary, Mrs. Carroll Wed
The marriage of Mrs. Ola Maxine Carroll and Mr. Thomas S. Glathary was solemnized Monday evening at 6 o'clock in a ceremony performed at the Paramount Hotel, with Rev. H. B. Johnson reading the service.

Immediately after the ceremony the couple left to make their home in Louisiana.

Members of Ladies Golf Club Guests of Cisco Club
Members of the Ladies Golf Club of the Ranger Country Club were the guests of the Cisco Ladies Golf Club, Tuesday at a noon luncheon after which golf was played.

In the matches Mrs. Glenn West won low gross honors.

Those from Ranger attending were: Mrs. West, Mrs. Gene Yorker, Mrs. H. T. Schooley, Mrs. Brann Garner, and Mrs. Fred Yorker.

Dr. and Mrs. Jackson Given Housewarming
Following the mid-week services at the First Baptist Church Wednesday evening those attending the services were guests at a surprise housewarming given for Dr. and Mrs. W. L. Jackson, who recently moved into their new home. The affair was arranged by the Woman's Missionary Union.

After guests had been shown about the home, Mrs. Nannie Walker, dressed as an old negro "wash woman" entered carrying a tub filled with lovely gifts from those attending. Refreshments were served at the close of the evening.

Ranger Women Attend Flower Event in Fort Worth
Mrs. J. C. Carothers and Mrs. Jack Blackwell were in Ft. Worth Wednesday to attend the flower event under the sponsorship of the Ft. Worth Garden Club. The affair was held in the Anna Shelton Hall of the Woman's Club and the speaker for the afternoon was J. Gregory Conway, a national authority on flowers and flower arrangements.

Hodges Halloween Carnival Gay Affair
One of the gayest occasions of the past week was the Halloween carnival sponsored by the Hodges Oak Park Parent-Teacher Association and held in the high school building Thursday evening.

Highlight of the evening were coronation ceremonies in which Barbara Ann Healer was crowned queen of Halloween and Curtis Ringold, Jr., was crowned king. Following the coronation typical Halloween carnival events were enjoyed.

Mrs. Wolford Hostess At Bridge
Mrs. Ira Wolford entertained at her home Wednesday afternoon with a bridge party for members of the Wednesday Bridge Club. Vases of chrysanthemums were used to decorate the home and in the games of the afternoon high score award was presented to Mrs. Carl Hill and low award went to Mrs. John M. Kindle.

At the close of the games refreshments were served to the

• SERIAL STORY
GOAL TO GO
BY W. H. PEARS

YESTERDAY, Buck talks the team out of their strike, sends Bill to practice. Bill tries one of his father's plays and the scrub team clicks. Landis challenges him to teach the scrubs all he wants to. That night Bullheaded Peskin brings Dot Skelton to the drug store, bosses Bill around. Dot likes Bill. Drowsy Peters suggests Bill is overlooking a bet. Landis won't back, and if Bill is in solid with the Skeltons...

CHAPTER IV
BILL MENTOR, in football togs, moved slowly toward the practice field. Deep in thought, he was for once in his life deaf to the seductive pung of tea against leather.

Ten days had passed since Drowsy dropped the hint about Dot Skelton, but it clung to his mind like a burr on a piece of wool.

"Wait up, Bill."

He started guiltily at the sound of Helen's voice. He felt somehow that even thinking of Dot made him disloyal to Helen. Besides, she had a darn queer habit of guessing what was on his mind.

Helen fell into step with him. "Am I poison, Bill?"

"Heck no, Helen," Bill said, a little gruffly. "I've been putting in overtime, so Old Man Peskin'll let me off for the dance."

"Oh, Bill, I'm so glad!" Helen's eyes glowed. "This will be the first time I've ever gone to dance with someone that I... well, kind of like."

"We'll have fun," Bill said, and changed the subject abruptly to football. "Well, we finally won a game Saturday."

"Westerburg?" Helen scoffed. "And just by a field goal. If that's the best we can do against a little, weak team, what'll happen when we meet Clayton?"

"Slaughter," Bill said gloomily. "I'll bet Landis is fit to be tied."

LANDIS was. They could hear his voice as he stomped along the sidelines bellowing at the boys. Catching sight of Bill, he scowled.

"Well, Mentor, still teaching the scrubs to be All-Americans?"

"No, sir, but we've got some new plays ready to roll. You said you'd like a chance to have the varsity stop them."

Bill spoke quietly, without challenge, but his words sent a rush of crimson to Landis' face. For the first time he appeared to realize that his taunt had been taken sincerely, and that now it was too late to back out.

"I meant what I said, Mentor," he snapped. Then, turning to the varsity squad: "Get in there and smear this play wide open!"

In the huddle Bill said earnest-

following: Mrs. Hill, Mrs. Kindle, Mrs. Hoyt Agnew, Mrs. Fred Yorker, Mrs. Brann Garner, and Mrs. J. J. Kelley.

Mrs. Burk Joins Staff At Hamill's
Mrs. Eva Hamill, manager of Hamill's, Inc., has announced the addition of Mrs. Poly Burk to the staff of the shop.

Mrs. Burk is an experienced saleswoman and during her short residence in Ranger has made many friends who will be happy to know of her association with Hamill's.

Program Announced For Party
The following program will be given at the band party Friday night at 7:30, in the Recreation Building:

Violin Solo, Charles Osteen.
Clarinet Duet, M. L. and H. L. Baskin.
Trombone Solo, Dwaine Cox.
Saxophone Solo, Billy Harrington.
Baton Twirling Exhibition, Dorothy Henry.

After this program, Chinese checkers, bunco, and other games will be enjoyed. Refreshments will be served.

B. T. U. Contestants Go to Abilene Tonight
Members of the Baptist Training Union of the First Baptist Church who are taking part in the district contests of the association will be in Abilene this evening for the contests.

The contestants from Ranger won the right to represent the Cisco Association of the Union at the district contests by winning in the Associational meeting held in Cisco last Sunday. Of the eight contests held there the Ranger group won seven first places and one second place, and these winners are Wyan Adkins, Leroy Jay, Bruce Harris, Miss Avis McKelvin of the Young People's Department, Helen Watson and Lariate department; Joanne Jackson from the Primary department and Marilyn Jackson from the Beginners department.

Landis Orders Bill To Quit Football; Buck Gets an Offer

ly, "Let's make these good, fellows. We know the plays will work, but we've got to prove it to Coach. If we do, he may let the varsity use 'em. Let's go!"

The play was simple, yet employed a brand of deception suitable to young teams. The ball came to a big scrub back. Bill cut behind him, faked a grab at the ball. Then, running together, the two sliced off tackle. Good work by the other faking back had made it appear that the play was going in another direction. Only the defensive halfback stayed on the play. Bill rolled blocked him as he dived for the ball carrier. Landis blew his whistle sharply.

SILENCE hung over the field a minute. The varsity stood in a sheepish group. To a man, the scrubs tried to hide the triumph that lighted their faces.

Bill Mentor was surprised. Buck's training told him that the play shouldn't have clicked so easily. He sensed that it wasn't the fault of the varsity boys, but of their defensive training.

Coach Landis strode across the field toward Bill. The tiny network of veins on his nose flamed.

"Mentor," he said, "you're too big for your britches."

"But, Coach," Bill protested, "you wanted me to show the scrubs—"

"I don't want them learning circus plays," he raged. "You're—"

He checked himself, as if realizing that his anger carried him too far. "So long as I'm coach, Mentor, I'll run the show. You're a disrupting influence. I've let you practice with the squad because I felt sorry for you. I'm through being soft. Don't let me catch you around this field again."

Bill dug his cleats into the ground, bit down an angry retort. Buck had told the fellows to behave like soldiers. Now it was his turn to take orders and not whine.

BILL changed clothes slowly. He wrapped Buck's uniform in a big bundle. Where his heart should have been, there was a sick, empty feeling. No more football ever. In another year he'd be through school and looking for a steady job. Bill Mentor realized sharply just how much these

sandwiched-in practice sessions meant to him.

That night, Bill tried to get the bundle in without letting Buck see it, but the older man's keen eyes noted the shape of the package.

"That looks suspiciously like a football uniform, Bill. Anything wrong?"

Lying to Buck was out of the question. Bill said dully, "Landis booted me off the field today."

"Why?"

Bill told him.

Buck nodded, thumbed his pipe; but he uttered no condemnation of Landis. He said simply, "That's tough, fellow."

"Maybe he was right," Bill said. "I guess I did want to show off your plays, Buck."

Buck Mentor smiled. "Keep punching, Bill. If things go as I've planned, you've got five years of football ahead."

"Five years! Say—"

"Here, take a look at this, fellow."

ON the table Bill saw a movie camera and projector. "Buck, for Pete's sake, where did you get that?"

Avoiding Bill's gaze, Buck said, "A friend of mine left it here."

"A present?" Bill gasped.

"Not exactly. You've heard me mention Jim Kirk?"

"The fellow you said could drive a hole in a concrete wall?"

"That's Jim. He was my sidekick in college. Recently he heard about my accident and looked me up. He's a district sales manager for the company that makes these outfits."

"I still don't get it, Buck."

The older man fumbled with his pipe. "These machines are designed especially for coaches. Jim thinks my football background would make me a good bet to sell them."

"Nothing doing," Bill said. "You're not going to do anything like that. You know darn well what the doctor told you about being quiet. I'll keep things going until we can afford the operation."

Buck gripped his son's arm. "Sorry, Bill, but I've made up my mind. I'm through pampering myself. I'm going to make a living for us. My legs can wait. Don't think it's going to be easy. We'll be separated, and that's tough to take."

"Wait," Bill pleaded. "Something will turn up here. I know it will." Bill's mind flashed to an auburn-haired girl. "I've got a plan..."

(To Be Continued)

Brownie King, who has been a patient at the City-County Hospital, has been removed to his home.

Mrs. J. P. Hearn of Fort Worth visited relatives in Ranger, today.

Bull Fight Fans Have a New Hero In a Young Girl

By United Press
JUAREZ, Chihuahua, Mexico.—Mexican bull fight fans have a new hero—or, rather, heroine—a petite, pretty young American girl who at 18 is an international figure in the art of the toreador.

Blue-eyed Conchita Intron, born of American citizens but who has spent most of her life in Lima, Peru, is the latest sensation of the bull ring circuit of Mexico. Recently, when she made an appearance in the bull ring of this northern border town, she packed them in record crowds.

The 110-pound "Bonita Peruviana" is a strange looking figure in the arena as she pits her cool grace, daring and skill against 1,200 pounds of fighting bull. Her very appearance before the fight starts never fails to bring the crowds to their feet, cheering this girl who has dared to take over where only men are supposed to be good.

Conchita combines two types of bull fighting—the Spanish and Portuguese styles. She can ride the horse in the ring with the same skill that they do in Portugal and

Kokomo 4-H Club Elects Officers

The Kokomo 4-H club girls meet for the second time this club year.

At the meeting the following officers were elected: President, Phyllis Donaldson; vice president, Lurline Jordan; secretary-treasurer, Wanda Donaldson; program chairman, Louise Eaves; reporter, Barbara Eaves; recreation leader, Billie Jo Crawley. The new sponsor is Mrs. Alvia Woods.

Be Quick To Treat Bronchitis

Chronic bronchitis may develop if your cough, chest cold, or acute bronchitis is not treated and you cannot afford to take a chance with any medicine less potent than Creomulsion which goes right to the seat of the trouble to help loosen and expel germ laden phlegm and aid nature to soothe and heal raw, tender, inflamed bronchial mucous membranes.

Creomulsion blends beechwood creosote by special process with other time tested medicines for coughs. It contains no narcotics.

No matter how many medicines you have tried, tell your druggist to sell you a bottle of Creomulsion with the understanding you must like the way it quickly allays the cough, permits rest and sleep, or you are to have your money back. (Adv.)

BOYCE HOUSE
 "The greatest gift of God to man is will-power." This was a favorite saying with Dr. A. C. Scott, Sr., founder of the internationally famous Scott & White hospital and clinic in Temple. And friends of the celebrated surgeon—whose death occurred a few days ago at the age of 75—say that his own chief characteristic was, having once made up his mind, he stuck to his purpose.

He graduated in medicine before he was 21, returned to his native town of Gainesville to enter the practice and one of his first patients was a young lawyer, whose throat needed treatment every week-end after strenuous campaigning. The lawyer was

running for Congress and his name was Joe Bailey.

Dr. Scott was placed in charge of the Santa Fe Railroad hospital, then newly-established in Temple; built it up steadily; afterward, founded the King's Daughters hospital, which has grown into one of the largest in the State; and then he and the late Dr. R. H. White started the hospital which bears their names, paying \$1,000 down on a former convent building, which left them with just \$100 in cash.

His studies in cancer and his philanthropies made Dr. Scott a truly great man. The hospital which he headed at the time of his death has 17 buildings of varying sizes, a staff of 54 physicians and to it annually comes thousands from all parts of the South and Southwest and from Mexico, Central and South America. Back of it all was a quiet, modest, kindly man (this writer met him just a few weeks ago and will always

ALLEY OOP

treasure the experience) who never tired of working and studying.

Joke of the month is about the young father who named his child Weatherstrip—because it keeps him out of the draft.

Here's what former Governor

Francis of Missouri once said, "The editor, in proportion to his means, does more for his home town than any other 10 men, and in all fairness he ought to be supported—not because you like him or admire his writings but because the local paper is the best investment a community can make. The editors of the local papers do the most for the least of any people on earth."

"Ain't never been a hoss that ain't been rode;
 Ain't never been a rider that ain't been thrown."

Here and there—Bill Quinn, for a good while the editor of the Van Banner, is now editor also of the Grand Saline Sun. In his spare time, he probably will take up the study of Esperanto . . . The election of Dorman Nickels as Wharton County prosecuting attorney attracted interest as far away as Austin where Nickels earned money as a soda fountain attendant and in similar work to complete his education. He campaigned hard—made a speech at 10 o'clock the night before the election.

Marine Corps Has A Three-Brother Act

By United Press
 FORT WORTH, Tex.—Has the U. S. Marine Corps a better brother act than the Grays from Fort Worth?

Three of them—Oscar, 21, Pete, 21, and Martin, 18—all are Marines and their latest meeting was at Peiping, China. Oscar is now an embassy guard at Peiping, where Martin is a member of the Marine Band. Pete's present

station is Honolulu.

The W. C. Grays have one other son, Bill, a high school student.

He plans to enlist in the Marines as soon as he is old enough.

DOG ADOPTS RACCOON
 LIBERTY, Texas—A dog here has "adopted" a small raccoon, which suckles and tumbles unconcernedly with the pups in the dog's litter.

Paula Brooks AND Doris Dodson Jr.

The War Spreads

Like an ugly ink blot, the European war has spread in a little more than a year across the whole map of a continent.

It is hard to realize now that all this started over a border dispute over Danzig and the Polish corridor, just as the World War started in a dispute over responsibility for the murder of an archduke.

The dispute over Danzig might have been settled across the table, given the slightest good will, the slightest desire to settle it. But already whatever good will was left had been dissipated by the futile Munich effort at appeasement, the mounting evidence that Nazi Germany was not to be satisfied by mere amicable adjustments of borders.

And because there was not enough statesmanship, enough good will in all Europe to compromise a matter of access to the Baltic Sea, the conflagration started which now spreads across all Europe.

More even than in 1914, the world is interdependent. And even then a dispute between Austria and Serbia eventually dragged a world to war. Today—

Within two days after the Danzig failure, Britain and France entered the war. Within two weeks, Russia was plunging into Poland for its share of the swag, and within two months it was invading Finland. Within seven months Denmark and Norway were gratuitously mowed down, protesting their neutrality as they fell. Within nine months Belgium, the Netherlands and Luxembourg followed. Before a year was out, Italy plunged in. The tenth month saw Russia partitioning Rumania, and Egypt was invaded just after the first year closed. With the fourteenth month Greece is likewise engulfed.

What is significant is this: of all these countries not more than two or three wanted war. Yet war was thrust upon them all.

Once war on this scale is unleashed, those fighting have only one objective—to win. Thus Greece, whose dictatorship under Metaxas was scarcely less oppressive than those of Germany or Russia, is welcomed as an ally of democratic England, just as the democracies welcomed autocrat Russia in 1914. Dictator Mussolini does not hesitate to try to crush Dictator Metaxas.

Behind the fine-sliced bologna about ideology lies the naked struggle for power, for survival.

Anyone who supports his Community Chest can throw out his own.

Duke of Windsor bought a bike to ride to and from his office in Nassau. That's one way to keep from falling off a horse.

Total of 33,138,000 turkeys will head for market in November. That's 33,138,000 necks somebody else may have.

The safest place for a pedestrian is in an automobile. It'll help the clerks if Dad gets his Christmas socking early.

YOUR ARMY

A Series Describing the Arms and Services of the Regular Army

ENGINEERS

The modern Army is like this modern world—helpless without its engineers. The vital functions of the Army Engineers, closely allied with the functions of other branches of service, give this branch an importance and a diversity of interests which makes it especially appealing to ambitious young men.

Army Engineers do things—interesting things. They build roads and bridges. They build railroads and other things essential to the functioning of the Army, in war or peace.

Because of the many technical duties of the Corps of Engineers, the opportunity for study and advancement is especially bright in this branch of service. Approximately three out of every seven soldiers in the Corps of Engineers hold ranks higher than that of private. In addition, there is a large number of specialist ratings assigned to the Engineers. Half of these ratings, with extra compensation, are held by privates. These specialist ratings include blacksmiths, buglers, carpenters,

chauffeurs, clerks, cobblers, cooks, demolition men (who handle high explosives for blowing up enemy wire entanglements, bridges, etc.) draftsmen, electricians, horseshoers, general mechanics, motorcyclists, riggers, saddlers, wagoners, and others. Other specialists include bandmen, stationary engineers, instrument repairmen, lithographers, mimeograph operators, telephone switchboard operators, photographers, power linemen, painters, sign painters, storekeepers, recorders, rodmen and structural iron workers.

Grasshopper War Is Being Fought In Oklahoma Now

By United Press
 GUYMON, Okla.—An autumn grasshopper war which threatens to spread into Northeastern New Mexico and perhaps into parts of Kansas and Colorado is being fought in the High Plains area of Oklahoma and Texas.

Texas County, Okla., of which this is the county seat, is bearing the brunt of the battle, county agents report.

Most of the hoppers are the Mexicanus, known as the lesser migratory species in contrast to the peregrinations of the long-winged grasshopper. They became a High Plains menace this year for the first time after a three-year infestation by the long-winged type.

Entomologists say the Mexicanus is not as destructive as its long-winged cousin, but it presents more of a control problem because it can breed both in the spring and in the fall whereas the latter hatches only in the spring.

Unless an exceptionally high percentage of the spring-hatched Mexicanus hoppers are poisoned with a mixture of sodium arsenite, bran, sawdust and water, they lay eggs that hatch into a fall infestation.

And unless all infester counties secure this high percentage kill, the whole area remains in danger because the Mexicanus does migrate, although apparently not covering the hundreds of miles accredited to the long-winged species.

Two heavy migrations, less than a week apart, struck Texas County several weeks ago, concentrating in wheat stubble and wheat field borders. Every wheat field in the county, which borders along the northern tip of the Texas Panhandle, apparently has been infested, County Agent Hubert Lasater said. He predicted

LOCAL DRUG FIRM GETS AGENCY FOR HOYT'S COMPOUND

Large Shipment of This New Medicine Has Arrived At the Texas Drug Store

DR. W. A. ALLEN

Ever since the dawn of civilization the human race has been searching for drugs and medicines that would give relief from common ailments of mankind. Within the past few years, medical science has made some amazing discoveries that will have a far-reaching effect on the health and well-being of humanity.

Hoyt's Compound is the name of the new medicine that is taking the country by storm, and druggists stand amazed at its tremendous sale. Hoyt's Compound is now on sale and is being explained to crowds daily at the Texas Drug Store. Everywhere people are praising Hoyt's Compound and one of the latest to endorse it is Dr. W. A. Allen, practicing dentist and an old-time resident of Billings, Montana, owner of several medals issued by the U. S. Government for bravery during service, who resides at 4 Yellowstone Ave., Billings. He states: "I have suffered for many years with a bad case of indigestion, sour stomach and gas bloating. Most any food would cause untold suffering. I had trouble with my kidneys and it was necessary for me to get up several times during the night, which made it impossible for me to get sufficient rest. I was troubled with constipation and had been compelled to use strong laxatives for years. I had pains in my shoulders and my head ached. I suffered with dizzy spells and was considerably underweight. I went to the drug store and asked to see a stock bottle of Hoyt's Compound. After reading the analysis, I said: 'This is the result of a thousand years of scientific study.'

"After taking Hoyt's Compound I slept through until breakfast. This is the first night's sleep I had in years. This is the first public statement in my life, but I am anxious for others to know about Hoyt's Compound. It has been a great relief to me, as I now am free of headaches and my stomach and kidneys are in fine shape. I am also thoroughly enjoying my meals. I would be very glad to discuss this medicine with anyone who cares to write to me or you may phone Dr. W. A. Allen, 44 Yellowstone Ave., Billings, Montana."

If you too are suffering from a similar cause, why not come today to the Texas Drug Store and get a bottle of the new wonder medicine, Hoyt's Compound? Hoyt's Compound is also sold by good druggists everywhere. Be sure to call for and get some genuine Hoyt's Compound. Accept no substitutes.

Freckles and His Friends—By Blosser

that if the insects are not poisoned by the end of the first week in November, their eggs will give the county an unprecedented spring infestation. Adjoining Oklahoma counties and the northern tier of Texas counties, with the exception of Sherman, have been little affected.

Sherman County, it was reported, is having its third fight of the season, apparently from a hatching of unskilled spring Mexicanus eggs plus a migration from the north. Ochiltree County, in the eastern part of the Texas Panhandle, also reported traces of infestation.

Control work around Guymon has begun with scattering of poison along wheat field borders and strips of poison laid at 50-yard intervals through the fields.

Trapping Antelope By Plane Succeeds

By United Press
 AUSTIN, Tex.—Encouraged by success of its first round-up of antelope by airplane, the Texas Game Commission will try to trap 500 of the fleet-footed animals this winter in an effort to preserve the state's dwindling supply.

Last year 10 cowboys on horse were able to trap but 274.

tions to the pilot. He said the animals were readily guided by changing the direction of the plane flight as the frightened animals saw it overhead. They were driven into pens, he said, more easily than they could have been roped and led.

The antelope were being trapped to remove them from exhausted pasturage and to separate them from sheep herds. They are driven into pens, then placed in individual padded crates and moved by motor truck to new pastures and game preserves.

Frosh "Casualties" Are Diminishing

AUSTIN, Tex.—First-year "casualties" are diminishing at the University of Texas, a statis-

tical report from the registrar's office reveals.

Freshman withdrawals last year dropped to 15 per cent, lowest mark in six years and second lowest in a decade, statistics showed. Since 1934 trend of withdrawals—whether for financial, scholastic or health reasons—has steadily declined from a 19 per cent peak.

More students "busted out" last year in applied math than in any other subject—22 per cent—while 19.5 per cent failed to make the grade in drawing and 19.2 per cent in physics.

No failures were recorded in Portuguese or nursing education last year. Only .7 per cent failed Czech, while physical education listed 1.3 per cent failures.
