Plans, Specifications Received This Week For Bids On Dry Devil's River Site 1

Judge J. W. Elliott received plans and specifications this week for the construction of a floodwater retarding structure at Site 1, Dry Devil's River.

The structure will be located on the R. D. Johnson ranch some six miles southwest of Eldorado. The drainage area includes 13,191 acres of rangeland.

The dam will be 47 feet high, and will contain approximately 258,510 cubic yards of earth and rock fill. A 200 foot rock bottomed emergency spillway will be built at each end of the dam.

Bids on Site No. 1 will be opened 10:00 A.M. at Sonora on May 2. The successful bidder will have 243 calendar days in which to complete the contract.

Award of a contract on Site 1 will bring 12 of the 13 planned structures under construction.

Four dams on Lowrey Draw have been completed and the fifth structure should be completed in May.

Good progress is being made on the six structures under construction on Dry Devil's River. Site 8 on the G. H. Davis ranch is over half completed, and Site 7 on the Ben Meckel ranch is nearing the halfway mark. Easter - It's Meaning For Us

By Rev. Alanson Brown

"Almighty God, whose most dear Son went not up to joy but first he suffered pain, and entered not into glory before he was crucified; Mercifully grant that we, walking in the way of the cross, may find it none other than the way of life and peace; through the same thy Son Jesus Christ our Lord. Amen"

Easter which celebrates the Resurrection of Jesus Christ would be empty were it not the answer to the pain and suffering of Jesus as well as all of us. Without the depths of Good Friday with its suffering, pain and death all allusions to a "new life" or "resurrection" is foolishness. Unless you and I are willing to grasp the depth of despair of this world and accept them as part of God's World then we will never experience the deep joy and glory of the Resurrection.

The message of Easter is that God has control of this Universe and when we live according to His Plan nothing can separate us from His Strengthening Love—neither pain, suffering, despair, hate, tribulation, or boredom. All is overcome by the power of God in Christ if we will but endure.

County Renditions Being Mailed This Year

The County Tax Assessor-Collector's office is mailing the renditions for 1960 instead of calling on property owners in person as in former years. Renditions are to be returned not later than April 30, 1960.

Reason for the delay in receiving renditions is due to the re-evaluation survey recently conducted, according to Mrs. Zilpha Wheelis, chief office deputy.

Any questions regarding new values set by the re-evaluation may be asked at the office, Mrs. Wheelis said. She added, "We will appreciate everyone's usual kindness and consideration in this matter."

Devil's River Philosopher Speculates On The Value Of Looking At Clouds From Top Side Instead Of Bottomside

Editor's note: The Devil's River Philosopher on his bitter-weed ranch on Devil's River has found out about the new weather satellite now circling the earth, his letter this week reveals.

Dear editor:
I'm always in favor of progress provided it doesn't disturb the way I'm living already, and consequently I was pleased to learn that the United States now has a weather-viewing satellite circling the globe every 90 minutes, sending back pictures from 400 miles up.

A lot of professional weathermen are saying this will open up a new day in weather forecasting, but I read in a newspaper last night, along toward the bottom of an article about the new prospects, that one scientist said he had his doubts, that most weather is fairly local.

I don't know exactly what he means by this, but I do know that most people, including me, are a lot more interested in the weather immediately overhead and a few miles on all sides, than they are in the weather 1,000 miles away or 400 miles up. It's a sort of like a scandal. The closer

it is to your area, the more fascinating it is.

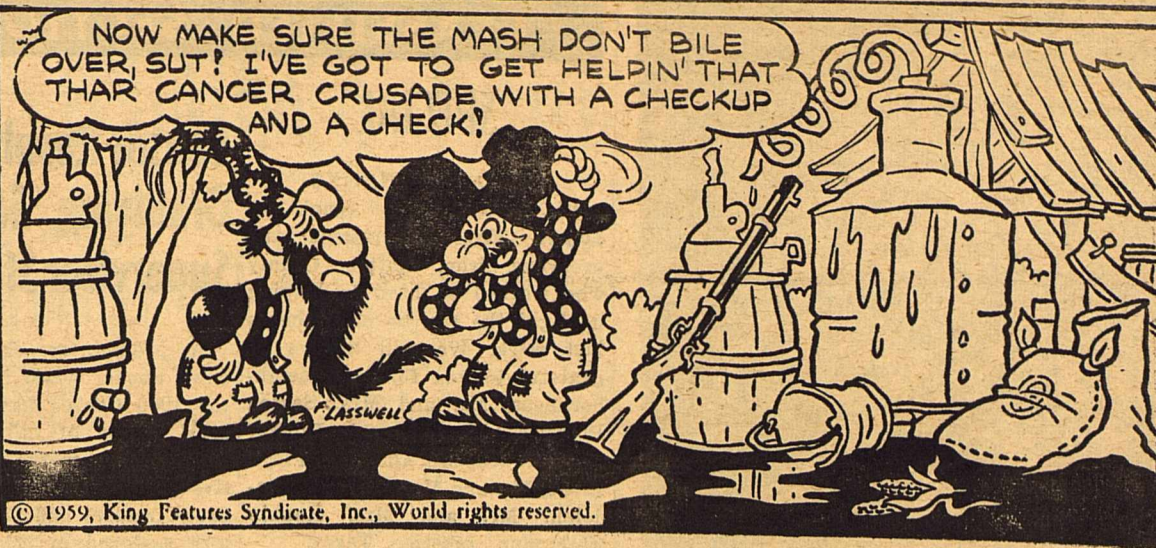

As I understand this new satellite, it photographs clouds from up above, looking down, and while this may have some meaning I can't grasp, I'm not sure that looking at a cloud from the top down instead of from the bottom up will tell you whether or not it's going to give down any rain. At least I know that from a life-time of studying them

from the ground looking up, I haven't been able to tell any more about what they're going to do than a long-range forecaster. I've seen a day dawn bright and clear without a cloud in the sky, soon had a cloud-burst. On the other hand, I've seen a day cloudy for a week without getting more than a muddling mist.

I guess it's going to be interesting to have a photographic record of where the clouds are all over the world, but there'll never be a substitute for clouds overhead when you need a rain, and it doesn't take a satellite to tell me that, all I have to do is tilt my head and look up, and if I'm lying flat of my back out in the open, I don't even have to go to that trouble.

Yours faithfully,
J. A.

Census Takers To Count Inmates Of County Jail

Census enumerators in Sutton County will visit the county jail Friday, April 8 in a special drive to count persons who do not have a fixed address, District Supervisor William G. Stacy said Wednesday. Persons who do not have a fixed address are included in the population of the place in which they are located by the census takers.

The district supervisor pointed out that under Census law, all persons 18 years old and over are required to answer official Census questions. The same law specifies that personal information collected by Census takers must be kept confidential. The person who willfully refuses to answer the official Census questions is subject to a maximum fine of \$100 or 60 days in jail, or both. The Census taker who reveals information about individuals to anyone other than a sworn employee of the Census Bureau is subject to a fine of \$1,000 or two years in jail, or both.

Mrs. Lois W. Young, who heads the Census in Sutton, Edwards and Schleicher Counties, says her enumerators are receiving full cooperation of all citizens and expresses her appreciation to the residents of these counties.

Thresher showed a film and distributed literature pertinent to cancer.

Dr. Browne told of the patient record at the local hospital, reporting 1,196 babies born there since 1951 and 1,472 surgical cases with no operating deaths in that time. Total number of patients cared for in 9 years is 6,979.

The projects committee reported two electric heaters given to the hospital by the auxiliary and Mrs. Dock Rape reported that her sewing committee has spent 91 hours of work, largely on dressings for use by the Texas Cancer Society.

Census Results Gratifying, Says Supervisor Stacy

A preliminary check of the first weeks' work in compiling the 1960 Census has revealed a high degree of diligence (long hours, hard work), and effectiveness on the part of the 17 Crew Leaders and 286 Enumerators assigned in this 21st Congressional District, according to District Supervisor W. G. Stacy. Results to date have been most gratifying, he added.

The response from citizens, in the main, has been most cordial and co-operative, Stacy said. In only a very few instances have the Enumerators encountered reluctance to answer the questions involved.

He concluded, "Because of the coverage that must be made with a limited number of Enumerators, some folks may not have yet been counted. Please bear with us, hold on to your Advance Census Reports (as well as your patience) and we will soon get to you."

Annual Junction Easter Pageant Slated Saturday

Junction's 10th Easter Pageant will be presented Saturday, April 16, at ten p.m. on the eve before Easter Sunday, in a natural amphitheatre on the hillside below the Everburning Cross, one mile southeast of Junction.

Presentation is by four score Kimble County people, all laymen, women and children in colorful costumes typical of the dress of Biblical times. Here they will re-enact Christ's last days on earth, so timed that the Ascension will take place shortly after midnight on Easter morn.

The pageant will be presented in pantomime, supported from a broadcasting booth by readers and background music. A dozen stages have been arranged among the rugged boulders of the hillside and changes of scenes are effected by shifting of spot and floodlights.

The production is entirely amateur and non-commercial. Members of the cast are all local people with no professionals or paid actors.

Parking areas are provided from which spectators may view the spectacle from the convenience of their cars. There is no charge for admission or parking and programs are free. Sesame Seed Now Available To Landowners

A seed mixture of early and late maturing sesame has been prepared by the Texas Research Foundation for landowners and sportsmen to plant for feed and

cover for dove and quail this fall and winter.

The mixture coming from the research farms at Renner, Texas, contains three varieties of semi and no-shattering sesame, which will begin releasing seed in September.

All three varieties are heavy producers, and a continuous supply of seed they provide will carry game birds through the dormant season in excellent condition for the spring mating sea-

son. The mixture now is being put up in 5 to 100 pound bags for distribution to landowners.

Proper preparation of soil beforehand is urged, with conventional farm equipment. Small areas should be prepared with a rake. The seed bed should be rolled or firmed after the seeds have been planted.

The feed was developed after field observations showed bird preference for this type of seed.

Devil's River Philosopher Doubts If Improving Television Programs Will Improve The Children Much

Editor's note: The Devil's River Philosopher on his bitter-weed ranch on Devil's River discusses television this week. At least we suppose that's what he's doing.
Dear editor:
It never has worried me much

about what other people thought about me, consequently I don't get riled up over what the television industry thinks of the American public, but this doesn't go for some people.

I was reading in a newspaper only this morning where the head of the national PTA was outraged at what the television people are offering the public, especially the children.

She said there is far too much violence, too much silliness, too much trash, offered the 30 million children watching TV these

days. Also she said if the television industry would take a survey they'd find the American public isn't as moronic as the industry apparently thinks.

Well, it's my opinion that the television people aren't in much shape, mentally speaking, to be surveying anybody's intelligence, judging by some of the programs I've had a chance to see.

But back to the violence angle, the brutality, the shooting, the crime, the delinquency, the stupidity, shown on television, with millions of kids watching. I know there are some people who say if you don't think your children ought to see such programs, turn the thing off, but they don't understand the control the kids

have over the situation. The only way to keep most children of most parents from watching

television is to wait till the picture tube blows out.

Consequently, the argument is that the only way to improve the situation is to improve the programs, and until they do, we're liable to have more juvenile delinquents, more youthful crime, more children with the wrong viewpoint toward life, etc.

Well, now, I'll tell you. I think a lot of kids could stand some improving, but I doubt if improving television will do it.

And if you want to protect children from hearing about violence, silliness and stupidity, you'd better not let them read the newspapers or listen to the radio or read history. In fact, you'd better not let them associate with adults at all.

Yours faithfully,
J. A.

Communitists Flinch As Sentence Upheld, Says Fisher

Communitists flinched a bit the other day when the Supreme Court by a five-to-four decision upheld a conviction of the Soviet's top spy in this country—Rudolph I. Abel. Arrested in 1957 in New York in possession of secreted microfilm, electronic equipment and other spy paraphernalia, he was convicted and given 30 years. Chief Justice Warren and Justices Black, Douglas and Brennan voted to turn him loose.

"I Was a Career Girl's Consort" is the title of a new book by Bart McDowell, formerly of San Angelo, now on the editorial staff of National Geographic in Washington. It is light reading but Washington reviewers rate it high in humor. Bart depicts himself in the role of a baby sitter, smitten with all sorts of household problems.

Recent guests have included Jerry Puckett of Fort Stockton and Lance Sears of Sweetwater, both here to testify before the Tariff Commission on Lamb imports, where, incidentally, I also testified.

FREE SAMPLE DOWPON... Kills

Problem grasses choke out crops, reduce yields, make extra cultivating work! Clean up your fields with Dowpon. It's more economical... more effective... kills grasses, roots and all... reduces regrowth problems. Will not injure grazing livestock if accidentally eaten. Apply in spring or fall before planting, or as a selective spray, or as spot treatment on certain crops.

Come in for your free sample. Enough Dowpon to spray 225 sq. ft. of problem grass.

CHAMBER OF COMMERCE COMMENTS

MORE OF THE SAME- Looks like rain (Monday), hurrah. We is ready. The old joke is, "all that is wrong with West Texas is that it always needs just one more rain." On the other hand we can get a lot done with just a little of that wet stuff, well distributed.

JACKPOT- Sonora made the news in last Sunday's Standard-Times. First, the mystery town picture was Sonora, the story of same being on page 4B. Then there was a nice story and picture of the Sutton County 4-H Wool Judging team, winning first at the San Angelo College meet.

Then there was a story about Mrs. W. P. McConnell, Jr., and Mrs. Louie Trainer being elected president and corresponding secretary, respectively, of the Sixth District Texas Federation of Music Clubs and then another

story of John A. Martin, Jr. being elected President of the Hill Country Firemen's Assn., Mrs. Martin vice-president of the Auxiliary and Gilda Raye Ingram being elected sponsor of this organization. And on the same page was a story of Billy Shurley being selected to act the male lead in a television story.

The story of the mystery town says that Sonora is going after more of the tourist dollar using as bait the Caverns of Sonora. They are just right and it won't be long. The developers are back in the cave now working on the delicate job of cutting passages, installing rails and on occasional step, all the while preserving the wonders this Cave alone offers. Your CC harbored the force Saturday night, on the site, celebrating laying the final step to the registry room.

PIANO STORAGE- Free- Any one wanting to store a good piano indefinitely please call one of the 4-H Club committeemen. Same for folding chairs, folding tables, table tennis set-ups, etc. There will positively be no storage charge.

COMMUNITY COOPERATION of the kind we were raised on has been in evidence in Sonora the past two weeks. The 4-H Club building project and the race track improvement project brought out the best in a great number of citizens. We will be proud to call some names in future issues of this column.

HAVE YOU HAD YOUR CHECK UP AND GIVEN YOUR CHECK TO THE CANCER FUND? With your help a cure for this killer of all killers might be had, just as your help did for the polio scourge.

D. L. Locklin, Hub Hale and Ernest McClelland spent last weekend fishing at Don Martin Lake.

Miss Sue Ann Stokes of Fort Worth will spend Easter with her family, Mr. and Mrs. H. V. Stokes and Nannette.
