## BAIRD MOVES ONE GAME NEARER DISTRICT TITLE

The Baird Bears moved a step nearer to their first championship of the District 11 Class B when they won over their ardent rivals, the Clyde Bulldogs in the Armistice Day classic, 19-0.

Twelve Hundred football fans saw Baird exhibit a pair of the district finest backs, Atchison and Strickland. Atchison taken care of the pass receiving and end runs and Strickland made most of the yardage on the line plays. He also played the best defensive game on the field. Jackson, substituted half-back, showed that Coach Daniels couldn't put all of his good men on the field at one time. Barrett played a jam up game when he went in to take the place of Captain Stanley at the end position. All of Baird's line played a good game.

Clyde played hard the first half, but had to yield to one touchdown before it was over. Dillard and Bauleh were the outstanding players in the ball toting department, while Malford played a wonderful game at his end position. Jacques and Gode played a good game from start to finish. Touchdowns were scored by:

Atchison in last seconds of second quarter circled right end for the extra point 7-0.

Atchison on a pass from Bell in first part of fourth, the yards consumed in the play was 55. 13-0.

Jackson through line, Baird was off side and the ball was brought back. Strickland intercepted a pass and raced 45 yards in the last minute of the fourth quarter. 19-0.

## WITH BAIRD BAPTISTS

Great day Sunday, three good services. Two with the church here at Baird and one at Midway.

I am urging all of our people to attend next Sunday. Now you had better come for we have some reports to make concerning our new church building.

Now it was some convention we had; the largest and most harmonious we have ever had. I am sure there were more people sent home from that meeting with new hope in their heart than from any meeting ever held before. J. B. Satterwhite, Royce Gilhland, Mrs. F. M. Coats and myself were there from Baird, the others who were elected to go did not go and they surely missed it. I wish all of the church family here could have been there. I think it would have made our church over, at any rate we would certainly have had a feast and a good time. The next session will be held at San Antonio, Nov. 6, 7, and 8, 1934. Let's begin now to make our arrangements to go.

Let's all be at Sunday School and preaching next Sunday.

JOE R. MAYES.

## RED CROSS ROLL CALL

Again the American Red Cross is in the midst of its annual roll call, which is made each year between Armistice Day and Thanksgiving. It deserves the support of everyone who can possibly contribute.

Communities which have happily escaped disaster can hardly appreciate the magnificent work of this foremost relief organization. A great fire, flood, storm, epidemic or other cause of widespread distress immediately brings the Red Cross into effective action.

When the need for aid arises the Red Cross responds unfailingly, promptly, efficiently. There are no delays, no hesitancy, no lost motion. With clock-like precision, the trained personnel moves to its humanitarian task and sticks to it until its finished.

While it was originally designed for the relief of suffering in time of war, the Red Cross has in late years become the greatest agency for emergency relief in time of peace as well.

It costs only a dollar to join the organization and thus become identified with its noble work. To do this is at once a duty, a privilege and an honor.

## THE BASIS OF OUR CONFIDENCE

Once more we think it timely to counsel patience. We realize that many are impatient because the tide of economic recovery has not yet reached them; but we believe that it has set in and is gradually rising. Whether it would have risen unaided as rapidly as it has, or whether the stimulants administered at Washington have accelerated it, we are not going to discuss here. Opinions differ, and the best opinion that can be rendered now is more or less guesswork.

What we have faith in, above all politicians and their parties, is the sound, underlying common sense of the American people and their confidence in themselves and their country. One of the most amazing things about our economic depression has been the universal cheerfulness with which we have faced the strain. Every visitor from Europe in the past two or three years has commented on this phenomenon.

The attitude of American is not and has not at any time been that of a crushed and defeated people. We have, actually, fared pretty well, compared with the rest of the world in what is now known by all to be a world-wide catastrophe. And we are going to come through on top of the heap, as we have always come through in the past.

We do not believe that all of the social reforms which those now in the saddle are trying to put into effect will become permanent fixtures. We think the people will choose for themselves which of them they will retain, which reject. We have no idea that the majority of Americans are so ready to surrender on demand all of the old American rights and traditions, as some of the doctrinaires would have us believe. We agree that many abuses have crept in, and we are glad to see some of those who have been feathering their own nests at the expense of others brought to book. But we do not think that any important changes in human nature are going to be brought about by edict or statute.

That is, fundamentally, the basis of our confidence in the future. We have undying faith in the high and enduring qualities of the American character.

## RELIEF FOR AUTO OWNERS

(From Dallas News, Sept. 30)  
I would like to second the suggestion of Harry Arons in The News of Sept. 27 for a cut in automobile licenses for 1934 at the hands of the present session of the legislature and trust our Governor will submit the question for consideration.

Also I think the legislature should petition the congress to rescind the 1-1-2 tax on gasoline. It was put on for one year at 1c, yet like most new taxes, instead of being allowed to lapse, as agreed was increased to 1-12 and tacked on for another year. It should

at least cease at the end of the next year.

About the auto licenses for Texas, I believe they should be fixed at \$3 for cars retailing for not over \$1000, and \$5 for all cars over that amount. This would afford some relief for an overtaxed portion of the people—the automobile owners and users.

It seems impracticable to reduce the gasoline tax with the transferring of the road bond tax to the auto owners, relieving all other classes of taxpayers, thus giving 1c for bonds, 1c for schools and leaving only 2c for roads, which, after Uncle Sam ceases his benevolence, will really be required to maintain and build an adequate system of roads in Texas.

A recent nation-wide tabulation shows that in Texas, the auto owners pay about 40 per cent of the total taxes, and the tendency seems to be to place practically all costs of government on the auto owner.

Now no auto owner objects to paying a fair share of taxes, yet the thing can be overdone. Hence I suggest a reduction of auto license fees, which will prove direct relief to every automobile owner in the state.

Rally to Mr. Arons is my appeal to the 1,000,000 automobile taxpayers of the state. In union there is strength.

FRED B. ROBINSON  
Waco, Texas.

## TIMELY TOPICS

Although the recent national air pageant in New York was given for sweet charity, it lost more than \$40,000. Stunts in the air have become so commonplace that they seem to be unable to attract paid customers in sufficient numbers to make aviation meets profitable.

After teaching its students for 900 years that the earth was flat, El-Azhar University of Cairo, Egypt, has at last succumbed to the spherical idea and will in the future impart that fact to its pupils. The prophet Mohammed also has probably found out the truth of the matter by this time, if he exists in some spiritual sphere, and will approve of the innovation.

A school in New York advertises a course in "asking for a job." Which may not be as silly as it sounds. There is no doubt that many capable applicants for positions spoil their chances by awkward and unimpressive methods of approach. Salesmen are taught how to act in the presence of a prospective customer. Selling one's self to a prospective employer is the height of salesmanship. Why may it not be taught.

## Better Lighting Will Ease Your Budget Worries

There are budgets that really will work . . . budgets that will show how to bring expenses within income! But they weren't created at a dark and gloomy desk . . . they were the result of calm and intelligent analysis under the cheering atmosphere of good light.

It's surprising what a difference adequate lighting makes! . . . Troubles take on a less terrifying aspect when subjected to the clear, eye-soothing brilliance of the modern electric light. It's not only much easier to work, but the absence of eye-strain keeps your mind clear and alert.

Next time you sit down to plot out the month's expenses, or to write a letter, be sure your light is adequate. You'll find the difference amazing!

A trained employe will be happy to inspect your home-lighting arrangements. There's no obligation, of course . . . and changes are that a simple rearrangement of your present fixtures, or adjustments giving you adequate sized lamps where they're needed, will be all that's necessary.

Do you know that your increased use of Electric Service is billed on a surprisingly low rate schedule . . . and adds only a small amount to your total bill?

Miss Mary Elizabeth Fetterly, a student of the N. T. S. T. C. at Denton, is attending the meeting of the State Federated Woman's Clubs at Austin this week as a reporter.

Mr. and Mrs. W. O. Spencer, Mr. and Mrs. Vernon Spencer, Mr. and Mrs. Frank Spencer and Miss Fannie Baum of Burnt Branch, were in Baird Saturday.

Mrs. Cecil West and little sons of Big Spring, and Mrs. Alex Ogilvy and children of Anson, spent the weekend with their parents, Mr. and Mrs. W. G. Bowlus.

Mr. and Mrs. Tom Windham, Mr. and Mrs. John Jordan and Mr. and Mrs. Frank Windham of Oplin, were in Baird the first of the week.

Master J. L. Walker of Denton, is spending a week or so with his grandmother Mrs. Ellen Foster while his uncle and aunt, Mr. and Mrs. Vernon Walker have gone on a hunting trip to South Texas.

J. N. Tyson, cotton yard man of Oplin was in Baird Wednesday. He says up to noon Wednesday he had weighed 1202 bales of cotton and that there probably would be some 15 or 20 more bales.

O. B. Jarrett, who with his black and gray horses, have served the public of Baird as drayman for 15 years or more, has retired from that business, and now runs a eating stand just west of the Red and White store on the Broadway of America. He serves chili, hamburgers, coffee, stew, candies, etc.

The Ladies of the Methodist Missionary Society request all who use Folger's Coffee to please save the metal binding bands for the society. Mrs. W. A. Fetterly, Mrs. S. P. Rumph or Mrs. Bob Norrell will call for the bands if notified you have them.

## A DEVOTED MOTHER

Mrs. W. L. Bell and little son of Cisco, Mrs. Frank Russell, Mrs. T. A. Coppinger, Mrs. B. H. Freeland and children, Mrs. P. G. Freeland and children of Cottonwood, were Armistice Day and week-end guests of Mr. and Mrs. F. E. Mitchell, Mrs. T. A. Coppinger was awarded the print dress prize given by Jones Dry Goods to the mother of the largest number of children who visited their store on Armistice Day.

Mrs. Coppinger is one of Callahan county's Gold Star Mothers. She has reared fifteen children to maturity all of whom are living with, or near her at Cottonwood except one son, Bart Coppinger who died during the world war. Bart belonged to the 141st Infantry of the 36th division which trained at Camp Bowie and died in France soon after going overseas in July 1918. His body was brought home and he now sleeps in Arlington National Cemetery at Washington. His father never recovered from the shock of his son's death and died some three years after the close of the war leaving Mrs. Coppinger with several small children to support and educate which she is doing in a very creditable way, and the 7 stalwart sons and seven daughters are all living testimonials of a mother's faithful devotion to her duties.

Baird friends of Mrs. Louis Hall will regret to learn that she has been very ill at her home in Longview where Mr. Hall has a position with the Texas and Pacific. Mrs. Hall has been in ill health for sometime, but at the last report she was some better.

Mrs. F. I. Haley has returned from a two week's visit with her daughters, Mrs. E. E. Wright and Mrs. D. H. Wright at Gorman. Mrs. D. H. Wright and little daughters, Mona Fay and Rena May, accompanied Mrs. Haley home for a short visit.

Mrs. Poly Holloway of Rowden and Mrs. Willie Higgins of Eula, were in Baird Wednesday enroute home from Cottonwood where they spent several days with their father A. J. Arvin who we regret to learn has been ill for some time. He is some what improved at this time.

Judge Oscar F. Chastain of Eastland was a Baird visitor yesterday. He made a brief visit to The Star office. Judge Chastain who is a member of the legislature from his district, the 106th district, informs us that he will make the race next year for Congress in the 17th district of which the Hon. Thomas L. Blanton is now congressman.

## AMUSEMENTS

Do you want to kill your town out-right? If you do, then frown upon amusements. All innocent amusements, trivial or otherwise, should be encouraged in the community. They, to some extent, take the place of vicious amusements, and add to the health, happiness and business prosperity of each individual comprising it.

To go to church and pay the preacher is certainly a great privilege, but only this and nothing more, after a while, gets on the nerves, and especially the nerves of young people, who need diversion and are going to have it.

To truly repent and unfeignedly believe, to lead a clean, moral life and look forward to a joyful resurrection after death is one thing, to get your eyes so intently fixed on your "Heavenly Home" as to become cross-eyed, and pass by and condemn, as mortal sins, all the pleasures of this life, is another and quite a different thing, and is not religion at all.

There was a time, when people scourged themselves, became hermits of the desert and sat on poles during a lifetime, vainly imagining that such practices were acceptable in the sight of the Lord, and insured their entrance into paradise.

Civilization has slowly emerged from gross superstition and people can now have some pleasure, even indulge in a little frivolity and yet be devoutly religious.

There are still a few people, who think a fiddle is an instrument of the Devil, because everytime they hear a lively tune played on it, their feet begin involuntarily to move, and they have to take a firm grip on themselves to avoid indulging in a delightful waltz.

The following epitaph is suggestive. In memory of Malindy Smith.

My body here lies,  
My soul is in Paradise.  
The joys of Heaven now I see.  
My life's been pure as pure can be.  
Prepare yourself to follow me.  
Under this some wickel little boy,  
who had known Aunt Malindy in her lifetime, wrote,  
"You cannot most always, sometimes tell,  
Maybe Aunt Malindy is right now in hell."

#### COTTON PLAN FOR 1934-35

During the past week it was our pleasure and opportunity to attend the greatest convention of County Agents ever held in the United States probably and to have discussed with us the new cotton plan by Hon. C. A. Cobb, Chief of the Cotton Section, from Washington. There were many press reports coming out that many of you read but many of them were rather hazy and some seemed to give the impression that the agents were not thoroughly of the opinion that the deal would go over. That was not the impression given the writer, but that every man there said it was a very fair plan and could be sold on its merits. After having gone through the past summer's experience here with you farmers and after having the opportunity of meeting you and personally discussing the problems concerning cotton reduction our opinion was that the plan will meet with greater success than that of last summer. The new plan has many angles that will appeal to the cotton grower that the other plan failed to include. The new contract will be drawn by three kinds of individuals. They are the land owner, the independent farmer who is a renter and the cash renter. In every case we are advised the landowner will sign the contract. Those who have a money lease for 2 years or more will sign the contract years or more may sign and get full benefits, without the landowners consent.

The plan is altered as was first printed in the papers some few weeks ago as that plan said it would be paid a rental fee of \$3.00 to \$1.00 where as the revised plan, which is now going to press, will pay the farmer 3 cents per pound for his 5 year average production. This five years is from 1928 to 1932 inclusive. The 1933 crop is not included in the set up. Each farmer is asked to cut his acreage 40 per cent of his five year that his average shows and no other average. He will receive the rental will be used to determine his rental fee. That is no inspector will guess of the amount the land will make, but the cold figures of what has been done will be used. This seems a fair deal and will play no favorites.

In addition to the rental there will be a five dollar bale allotment paid to the farmer regardless of the price the cotton brings. If it goes sky high the man who has signed the contract will get this allotment next December 1, 1934. We are allowed to plant as much of the contracted acreage to feed and food or for soil improvement as we desire but none of can be sold either directly or indirectly. The government believes that the man signing the contract will profit more than those not signing and can in addition boast that he is supporting the administration as he promised when he voted for the new change in governmental jurisdiction. The nation's leaders have already given the president their word of honor that the new plan is good and that they will cut their allotment.

It is planned to cut the 1934 acreage 40 per cent and the 1935 25 per cent. This will shave down the great surplus and thereby give a fair return on the cotton we raise. Mr. Cobb said that the new government report showed we are raising 13,100,000 bales this year. We have on hand 11,600,000 from last year. We plowed up 10,400,000 acres which at the yield of that left (which is the greatest yield since 1912) would have been 5,000,000 more bales. We annually can save about 13,000,000 bales. This figure from the total above would leave 16,700,000 carry over. Do you think we would have received 10 cents per pound if such enormous amount had been made available? Let us look at it from this view point. Suppose we had raised that other five million bales and add it to the 13,100,000 we do have that would give us 18,100,000 bales or the largest crop the United States has ever raised. Would we have gotten 10 cents per pound. Do we have any cause to cut our production for another year? Those are the facts that face us.

We believe Callahan County will go over the top. It's plain good business to do so. Many farmers are calling in to get the details. Come in and let us chat it over, and go out and help put over the greatest plan ever undertaken by the government for the helping of the farmer.

**Thousands have Ended their Bowel Worries by taking this advice!**

Can constipation actually be overcome? "Yes!" say medical men. "Yes!" say the many thousands who have followed their advice and know.

You are not likely to cure your constipation with salts, pills, tablets, or any of the habit-forming cathartics. But you can correct this condition by gentle regulation with a suitable liquid laxative.

#### THE LIQUID TEST:

This is the way many men and women have made their bowels as regular as clockwork in a very short time.

First: select a properly prepared liquid laxative. Second: take the dose you find suited to your system. Third: gradually reduce the dose until bowels are moving of their own accord.

Simple, isn't it? And it works! The right liquid laxative brings thorough bowel action without

using force. An approved liquid laxative (one which is most widely used for both adults and children) is syrup pepsin. Dr. Caldwell's Syrup Pepsin is a prescription, and is perfectly safe. Its laxative action is based on senna—a natural laxative. The bowels will not become dependent on this form of help, as is the case of mineral drugs.

Hospitals and doctors have always used liquid laxatives. The dose can be measured, and the action controlled. Pills and tablets containing drugs of violent action are hard on the bowels.

If there are children in your household, don't give them pills, and form of laxative, but use a beautiful, helpful preparation like syrup pepsin. Its very taste will tell you it is wholesome, and agreeable to the stomach. Delightful taste, and delightful action; there is no discomfort at the time, or after. Ask your druggist for Dr. Caldwell's Syrup Pepsin, all ready to take.
