DEEP CREEK DOTS.

September 28.—Rev. Carr who is a rare comer from Limestone county brought with him a quantity of cottonseed which deserves general attention. The bolls have five locks are very easily picked and the yield is better than that of any other variety. 1600 lbs of seed cotton furnished a bale of 410 lbs. Mr. C. will take especial care to have the seed clean and genuine. Cotton pickers are more in demand than ever before and although this year less of people from the Eastern counties flock to the blessed west with the purpose to help in the harvest of the fleecy staple there is still a scarcity of hands. By the way the most reliable reports state that the crop is short in a large part of the state, the latest bulletin of the department places it at only 70 per cent and the same news comes from other states then why is cotton going down instead of bringing better prices? Several causes combine in my opinion for this distressing and discouraging result. The harvest began earlier than usual and therefore the weekly receipts at the ports were much larger than in the corresponding weeks of other years. This and the increased average was used by the bears to influence the market and the consumers, that is the manufacturers, hearing of the enormous crop were not in a hurry to send in their orders so that the prices were very exclusive, controlled by the bear-element of the speculating forces. Another trouble was the big boom in the grain and provision market. The cotton market was therefore to a certain degree neglected. This abnormal condition can not exist much longer. The most conservative and experienced traders predict an early rise and one big Galveston house has raised the advance per each bale from \$25 to \$28. That is a very good sign for the better. Uncle Billy Smart's old Sunday for

Denton county where his personal interests demand his personal attendance for sometime.

The Outbirth gin crawled up to 204 bales last Saturday, that makes 84 bales for the week. Unfortunately the machinery broke down repeatedly and the ginning was interrupted for at least 40 hours. We are sorry that the management has to contend with such difficulties, but it takes first class machinery to handle a crop like this year's crop and every business man runs in his own flesh if he does not give to the public first class accommodations. I repeat that the crew with Mr. D. C. Campbell as manager give full satisfaction, but they have up-hill work.

How do you like these figures? Miss Gerie McIendon the other day picked 301 lbs of cotton and her sister Ida, hardly 14 years old picked 238 lbs. Such girls will soon be not only an ornament to any household but also a helpmate to the husband in the true meaning of the word.

And now I beg leave to introduce to the reader the youngest P. O. and youngest P. M. in Callahan county to-wit:

"ADMIRAL"

HENRY L. BOCHES, P. M.

As to the name I am not much of a matter and had preferred "General" or "Major" but P. M. Solomon, who as a graduate of the Annapolis naval academy still has fond reminiscences of naval affairs and connections suggested this one among others and it was selected. Judge S. is the God-father of the young child, and I would accept the office under any name—so long as it is needed at this place. There will be a separate entrance to the Post Office and I can assure the public that nothing will be kept or tolerated that interferes in the least degree with the dignity of the U. S.

BLOOMERS BERATED.

A Pretty Teacher From Reform Times Lead Her Late Disposition.
There is a young and pretty teacher in the Grant school at St. Louis whose ideas of dress reform are causing a storm of indignation among the patrons of the school. The Grant and Grove School association is a body made up of good people who take a great pride in the school and plan and work for its success. The association objects because the young teacher wears bloomers and held an indignation meeting on night recently in the school. Dr. George J. C. Lewis, secretary of the association, said he did not wish to go into details and mention names, but he knew the name of the young lady who persisted in riding her wheel to the school and pandering her abbreviated costume before the pupils. He did not object to bicycles, but to draw the line when the new women discarded skirts for above the knee leotards.
The meeting decided that the young woman should be asked to resume the use of skirts, and if she refused to comply with the request the matter would be acted on by the association.

COAL COALE COAL!

I will handle coal this winter and will greatly appreciate your orders.

MARRIED.

Monday evening at 8 o'clock Sept. 27, 1897, a large congregation gathered at the Baptist church to witness the marriage of Mr. Frank Mayes and Miss Hattie Black. The marriage ceremony was performed by Rev. R. D. Carter, of Cottonwood. The attendants were Mr. B. L. Doydust and Miss Emily Teepie, Mr. J. C. Gray and Miss Ada Cooke; Mrs. C. S. Boyles played the wedding march.

After the ceremony at the church the immediate relatives and attendants repaired to the residence of the bride's sister, Mrs. J. A. Miller, where refreshments were served.

Both young people have resided in Baird for a number of years. The groom is a son of Rev. J. L. Mayes, pastor of the Baptist church at this place, and is an exemplary young man in every respect. The bride is one of Baird's most popular and handsome young ladies.

The Star joins with the friends of the happy young couple in extending congratulations and good wishes for their future happiness and prosperity.

The young couple will make their home at Eastland for the present. They left on the train Wednesday for the last named place.

Married at the residence of the bride's mother, four miles from Cross Plains on the Clear road at 8 p. m. Sept. 23, 1897, Mr. C. E. Barr and Miss Essie D. Hargrove. The writer officiating. After the ceremony the guests repaired to the table and enjoyed the splendid supper that was prepared for them.

THE TRUE REMEDY.

W. M. Reppin, editor Tikliwa, Ill. "Chief," says: "We won't keep house without Dr. King's New Discovery for Consumption, Coughs and Colds. Experienced with many others, but never found the true remedy until we used Dr. King's New Discovery. No other remedy can take its place in our home as in it we have a certain and sure cure for Coughs, Colds, Whooping Cough, etc." It is like to experiment with other remedies, even if they are urged on you as just as good as Dr. King's New Discovery. They are not as good, because this remedy has a record of cures and besides is guaranteed. It never fails to satisfy. Trial bottles free at H. Phillips drug store.

The citizens of Baird have got it
bad—the bicycle craze.

Several Cross Plainsites were in the
city with cotton Monday.

M. R. Surles, from Putnam, was in
the city on business Monday.

Luke Cathey, from the Putnam
neighborhood was in the city Tues-
day.

J. C. Walker and "Uncle" Dave
Epley, from Putnam were in the city
last Saturday.

Dick Barfield, an old pioneer of
the Cottonwood precinct, was attend-
ing the races last week.

Will Boydston has sold the agency
of the Troy Steam Laundry to Geo

The Foster gin at Baird seems to be
doing a rushing business from the
amount of cotton passing through
town daily to the gin. The hum of
the gin is the first thing heard in the
morning and the last at the close of
day.

Road overseer, Perry Klepper, has
put the Abilene road in splendid con-
dition, so say those who have recently
traveled over the road. Good roads

H. L. Buchen was in town Monday
fixing up his bond as postmaster at
"Admiral" the new postoffice at his
store. THE STAR congratulates Mr.
Buchen on his success after such a
long hard fight to secure this office.
The postoffice at Tomato still remains
and this gives the Deep Creek country
two offices. W. R. Vaughn and
August Horn are the surities on Mr.
Buchen's bond.

We would like to have a few more

Cotton pickers are in demand and
hard to get. We heard several farm-
ers inquiring for hands this week; one
farmer said he had now twenty-five
bales open and but few pickers. He
wanted twelve or fifteen more hands
but said he could not find them. The
gentleman referred to is Mr. Mott, liv-
ing on the Mad Bally place who believe
if any one wants a job of cotton pick-
ing they might call on him. J. W.
Bulley at Lytle Gap also wants hands.

M. Good are in the south part of
the county on official business.

Mr. and Mrs. J. B. Price left Sun-
day for the Sharp Ranch, Taylor
county, where they will reside for the
present.

R. C. Dawkins and Gabo Smartt of
Tomato, two of Callahan county's
prosperous farmers were in town,
Wednesday.

W. B. Vaughn is having the north
side of his stone building repointed
which helps the looks of the building
considerably.

R. A. Speer is putting in the "Sun-
light Gas" for T. E. Powell and Julian
Norton. Both use the same generator
which is situated in the rear of the
buildings. Powell has eleven jets and
Norton forty, but the full capacity is
twenty lights. Mr. Speer, sometime
ago put in these lights in the Palace
Saloon and they give entire satisfac-
tion in every instance. The light re-
sembles electric lights more than gas
and some even claim that it is equal
to electric lights. The Powell build-
ing was lighted up Wednesday
night and Norton's store was to be
light up last night. This invention is
undoubtedly one of the great inventions
of the present century. Go and see
the lights.

MOTHER'S Friend

There is no word so full of meaning
and about which such tender and
holy recollections cluster as that
of "MOTHER"—she who watched over
our helpless infancy and guided
our first tottering step. Yet
Mother is enabled to look for-
ward without dread, suffering or gloomy fore-
bodings, to the hour when she
experiences the joy of Motherhood.
Its use insures safety to the lives
of both Mother and Child, and she
is found stronger after than before
confinement—in short, it "makes
Childbirth natural and easy," as
so many have said. Don't be
persuaded to use anything but
this.

pected to be a MOTHER's, says a customer.
