Is Missing

After a week as the bride of J. Scott Glenn, heir to Oklahoma oil millions, Corinne (Jojo) Harris Glenn, above, former model, was reported to have disappeared suddenly and mysteriously from their New York apartment.

Insurgents Advance Towards Valencia In Latest Drive

HENDAYE, France. (At The Spanish Frontier), June 14. (AP).— Spanish insurgents announced officially last night the occupation of Castellon de la Plana and its port of Grao, opening a broad coastal plain for an offensive against Valencia.

Military dispatches which told of the capture of the ancient and once-thriving city said a majority of its civilian population remained despite reports they had fled.

Valencia, next major objective of the onrushing insurgent is 40 miles down the Mediterranean coast from Castellon de la Plana.

The capture of Grao gave the insurgents their first good seaport on the eastern Spanish coast.

They drove a wedge through government Spain last April 15 at Vina-roz, between Barcelona and Castellon de la Plana, but failed to obtain an adequate port in the 40-mile stretch of coastline west then.

Heretofore they have been forced to unload supplies on to barges from vessels anchored some distance off the coast.

A military communique from the eastern front said the insurgents entered Castellon de la Plana in mid-afternoon and completed occupation of the city shortly after midnight.

Generalissimo Francisco Franco's hard-driving fighters were reported to have moved swiftly through the streets to the center of the city.

Stubbornly resisting government defenders continued to blaze away at the insurgents from street barricades and fortified houses.

Meanwhile, insurgent troops on the outer ring of the insurgent lines around Castellon de la Plana continued on southward.

Insurgent activities said they pushed past Castellon de la Plana pursuing retreating government troops toward Valencia, their next major objective on the Mediterranean coast.

On the northern front, an insurgent offensive was said to be progressing through the Pyrenees Mountains toward Biesla, a village 10 miles from the Franco-Spanish border.

The government's "lost" 43rd division was reported to have been forced back toward the frontier. The division, separated months ago from other government forces, has been carrying on guerrilla warfare against the insurgents.

The entry into Castellon de la Plana was reported after insurgent fighters commanded by General Miguel Aranda had started a noon-day siege of the city.

Guilty Pleas Net Forger Four Years

Marshall Burton today was convicted in district court on two charges of forgery and given two years in the penitentiary on each count. Jurors in the case saw each count with when the prisoner appeared before District Judge Chas. Klapproth and entered his pleas.

No cases are scheduled in court tomorrow but two are on the docket. An injunction hearing regarding closing the Mid-Tex club for six months by state enforcement officers is to be heard Thursday morning and in the afternoon the trial of O. A. Manny, charged with forgery, is to be held.

Noted Astronomer Victim of Suicide

SAN FRANCISCO, June 14. (AP).— Dr. William Wallace Campbell, 75, regarded as one of the world's greatest astronomers, killed himself today, coroner T. B. W. Leland reported, leaving three stories from the window of his apartment.

Solons Will Quit Capital Wednesday

Compromise Agreed Upon, Wage-Hour Action Due Today

WASHINGTON, June 14. (AP).— The senate banking and currency committee today agreed to report favorably legislation liberalizing government railroad loans. Leaders announced the measure would probably be passed by the senate today.

Senator Barkley (D-Ky) majority leader, said the presiding "had no objections" to the legislation.

The house rules committee pigeon-holed the labor-sponsored bill penalizing government contractors who fail to observe decisions of the National Labor Relations Board or disregard stipulated wage-hour standards.

John L. Lewis chairman of the CIO, personally led the fight for approval.

Legislation modifying drastically the national flood control policy went to congress this morning for final action. The act would eliminate entirely local contributions for reservoir-dam projects and vest the federal government with full title to lands involved.

The bill makes no appropriation, but would authorize projects costing \$375,000,000 during the next five years.

WASHINGTON, June 14. (AP).— The 75th Congress was almost ready today to pass into history. Leaders had struck a compromise on the \$3,753,000,000 spending-lending bill, designed to stimulate the nation's economic system, and had washed their hands temporarily at least, of the troubles confronting the country's railroads.

Those decisions, and the compromise on wage-hour standards reached by a Senate-House committee over the week-end, virtually disposed of the major tasks on the program for the last days of the session.

Several formalities, and odds and ends, remained to be cleaned up, but the administration leadership announced that the final vote would fall Wednesday night, barring unforeseen developments.

It was decided at a White House conference that the problem of the railroads, many of which face financial difficulties in this time of depression, would be postponed until next session. Senator Barkley (D-Ky) announced the decision.

A few weeks ago, legislation to loosen up RFC loans to carriers was making headway but railroad labor unions, aroused by the carriers' proposal to cut wages 15 per cent, registered strong opposition to the legislation, and it was sidetracked.

School Head Returns From Trip Over State

Superintendent W. W. Lackey has just returned from a week's trip to Abilene, Denton, Dallas, and Fort Worth where he attended three commencement programs, one at Hardin-Simmons University at Abilene, and two at the Texas State College for Women at Denton; and Midland school again heard three commencement speakers: The Honorable William Hall Preston, of Nashville, Tenn., president of the student union of the Southern Baptist Convention, who delivered the literary address at Hardin-Simmons; The Right Reverend Harry T. Moore, head of the Episcopal Diocese of Dallas, who preached the baccalaureate sermon at the Texas State College for Women at Denton; and Dr. L. H. Hubbard, president of the Texas State College for Women, who delivers the literary address each year at the College. Rev. and Mrs. J. William Arnet, and Miss Helen Dumagan, of Midland, were among the graduates at Hardin-Simmons; and Miss Walter Fay Cowden, of Midland, was among those receiving degrees at Denton.

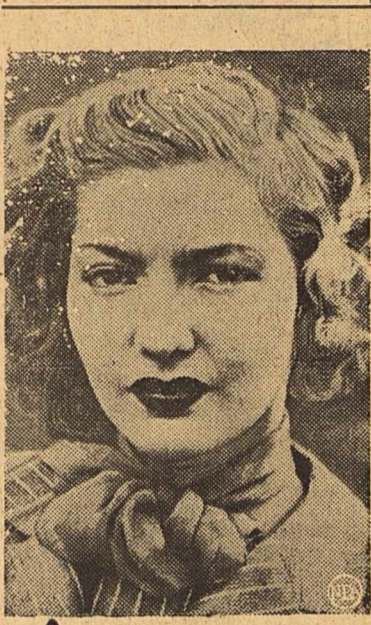

While on this trip, Superintendent Lackey interviewed candidates for teaching positions at these two schools and at the North Texas State Teachers' College at Denton, at S. M. U. at Dallas, and at T. C. U. at Fort Worth. During intervals of business he enjoyed visits with two sisters, Miss Nora Lackey, who teaches in Fort Worth, Mrs. A. B. Duckworth, and two brothers, T. E. Lackey of Durant, and C. S. Lackey of Dallas.

Former members of the Midland faculty, Miss Merle Smith, Miss Louise Rippy, Miss Catherine O'Dell and Mrs. Elizabeth Wright, and graduates of the Midland high school, Miss Josephine Ray and Miss Mary Beth Scroggins, were among those seen in the summer school at the State College for Women in Denton.

MAJOR LANDS HERE.

Major Stromme, flying a BT-2, landed at Sloan Field at 1:45 this afternoon. He came from Hensley Field.

Next Garbo?

Young (17), blonde Corinne Luchaire, above, new French film star, was described by Mary Pickford as the direct successor to Greta Garbo. Reported to have refused offers from British and American producers, she was finally signed by famed director Alexander Korda to make a picture at his Denham, England studios.

Midland Motorcade To Pecos Rodeo Is Favored by C of C

Sponsorship of a Midland motorcade to the annual Pecos rodeo on Monday, July 4, was voted by chamber of commerce directors at the regular monthly board meeting last night, arrangements committees to be named this week by President Marion Flynn. Pecos rodeo officials had informed the local chamber of commerce that they would bring a large delegation to the Midland Cowboy Contest in September providing a Midland delegation would visit their show on July 4. The Midland junior cowboy ropers will appear at the Pecos rodeo on that day.

Directors in attendance also voted to send sponsors to the Fort Stockton and Sweetwater water carnivals and to the Stamford Cowboy Reunion. The sponsors will be named shortly.

To defray the traveling expenses of a 4-H club girl to the A. & M. College short course at College Station next month, directors appropriated the sum of \$18.00.

Manager Bill Collins was named to represent the chamber of commerce at a meeting of the Southwestern Conference of Mayor and chamber of commerce representatives in Hot Springs, N. M., on June 24 and 25.

Winkler Sand Pay Strike Flows 109 Barrels On Test

BY FRANK GARDNER.
—Samwan Oil Company (formerly E. L. Gelder) No. 2 mile and a half east of the Kermit field in Winkler flowed 109 barrels through tubing on 24-hour potential gauge connection yesterday. It showed a flow with 240 quarts from 3,080 to 3,203, total depth. Pay sand was topped at 3,083. The strike is 2,310 feet from the south, 330 from the east line of section 14, block B-3, public school land. It is understood that operators have requested that it be granted a new pool allowable. Magnolia is making pipe line connection to the well today.

Original contract with land owner called for drilling to a depth of 3,000 feet. Samwan transferred its interest to E. L. Gelder, secretary of the company, and it was transferred back when depth of 3,000 had been reached.

A north offset, Magnolia No. 13 State-Walton, 2,310 feet from the north, 330 from the east line of section 14, had drilled to 3,205 feet in line. It is reported running three feet lower than the discovery.

Crane Gasser Completed.

A one-mile southeast outpost to the Tubby deep Permian pool of western Crane, Humble No. 1-B Tubby, has been completed as a gasser.

On 30-minute test through 7/8-inch tubing choke it flowed at the rate of 16,724,000 cubic feet of gas per day, with a spray of oil. Tubing pressure was 850 pounds and casing pressure 1,650. The well is bottomed at 4,430 feet in lime and has been acidized.

In the Sandhills Ordovician pool, western Crane, Gulf No. 8 W. V. Waddell et al obtained full recovery of broken lime, bearing no shows, in a core from 6,055 1/2 to 6,067 feet. Drillstem test then was taken from 5,985 to 6,067 which showed rise of 55 feet of drilling mud, with no oil or gas, in 45 minutes. Coring was resumed, and at last reports the test had reached 6,072 feet in lime. It topped Ellenburger, lower Ordovician at 6,054 feet.

Gulf No. 4 McKnight, scheduled deep test in western Crane, had drilled to 3,983 feet in lime. Magnolia No. 1-15 University, eastern Crane wildcat, is drilling at 1,070 feet in red rock. It struck a hole full of water from 1,010-30.

Magnolia No. 1-A McKee, in northern Pecos, is drilling Ellenburger brown lime at 6,150 feet, with fluid bailed down 5,000 feet from See OIL NEWS PAGE 6.

Youngsters Not So Bad

"I don't think the younger generation is much worse than when I was growing up," he said. "Back in the 20's the rah-rah crowd was conspicuous. But since 1929 young people (See Noted Bishop Page 6)

Indict Pair In Death of Santone Boy

Charge Man, Wife Shoved Youth Off Mountain at Alpine

ALPINE, June 14. (AP).—Deputy Sheriff H. T. Labeff said last night a Brewster county grand jury had returned indictments against Mr. and Mrs. Francis Black of San Antonio in connection with the death of 13-year-old Marvin Dale Noblett. The cases were set for trial June 20. A special venire of 100 men was ordered.

The Blacks remained in jail here, no bond having been set.

They were arrested Saturday after the boy, who had been left in their custody two months previously, toppled from a 400-foot cliff in an isolated spot at Agua Fria springs in the Big Bend.

Black, 25 a San Antonio filling station operator, and Mrs. Black had been vacationing in this section. On May 27, District Attorney Alan Fraser said it was learned in an investigation, a \$5,000 insurance policy was issued in San Antonio on the boy's life with the Blacks as beneficiaries.

Mrs. Bobbie F. Smith, 41, of Harlingen, mother of the boy told authorities that the Blacks had discussed adoption of the boy, but that she had insisted that the boy live with them six months or a year before a decision.

Gulf Official at Odessa Will Take Job in Venezuela

ODESSA, June 14. — F. E. Hatfield, district superintendent of the Gulf Oil company for the West Texas division, is to be transferred to Venezuela in South America, Tom Pickering, assistant district superintendent, announced Monday. Mr. Hatfield was out of the city.

The Gulf chief is en route to the Gulf Coast area where he will study the type of equipment that is similar to that used in the South American field.

He will return here about July 10 and leave Odessa July 11 for his South American home.

Hatfield came to Odessa from Borger in the Panhandle in 1934. He has been very active in local civic affairs and has served on the board of directors of the Odessa chamber of commerce.

Mrs. Hatfield has been prominent in local social and music circles.

A successor has not yet been named, Pickering stated.

Large Attendance Today at Baptist Bible School

With 160 children in attendance, the Baptist daily vacation Bible school held its second daily session this morning.

Attendance by departments today was as follows: Beginners 38; primary, 47; juniors, 59; intermediates, 16.

Each department has its own special project, Mrs. E. F. Conner, principal of the school, said. Story drills, memory verses, and handwork are included in the curriculum.

Juniors and intermediates are studying the book of Mark under Rev. D. H. Bonner. Bible notebooks have been started by the intermediates. Junior girls are making cup towels for the church kitchen while both junior and intermediate boys are making lawn figures with coping saws.

All children from the ages of four through 17 years are invited to attend the school.

Scout Jamboree Films Will Be Shown Here

Motion pictures of the National Boy Scout Jamboree held in Washington, D. C. last summer will be shown at Boy Scouts headquarters on West Illinois St. here Thursday evening at eight o'clock, Buster Howard, Scoutmaster of Troop No. 34, announced today. The film will be brought here by Al Stiles, executive of the Buffalo Trail Council, Boy Scouts of America.

All scouts, scouters, cubs, parents and others interested in scouting are cordially invited and urged to attend. The performance will last approximately one hour.

Celebrities, camps, parades, song fests, interesting scenes, air views, various Jamboree activities and stunts will be shown in the picture.

More than a dozen Midland Boy Scouts attended the Jamboree last summer.

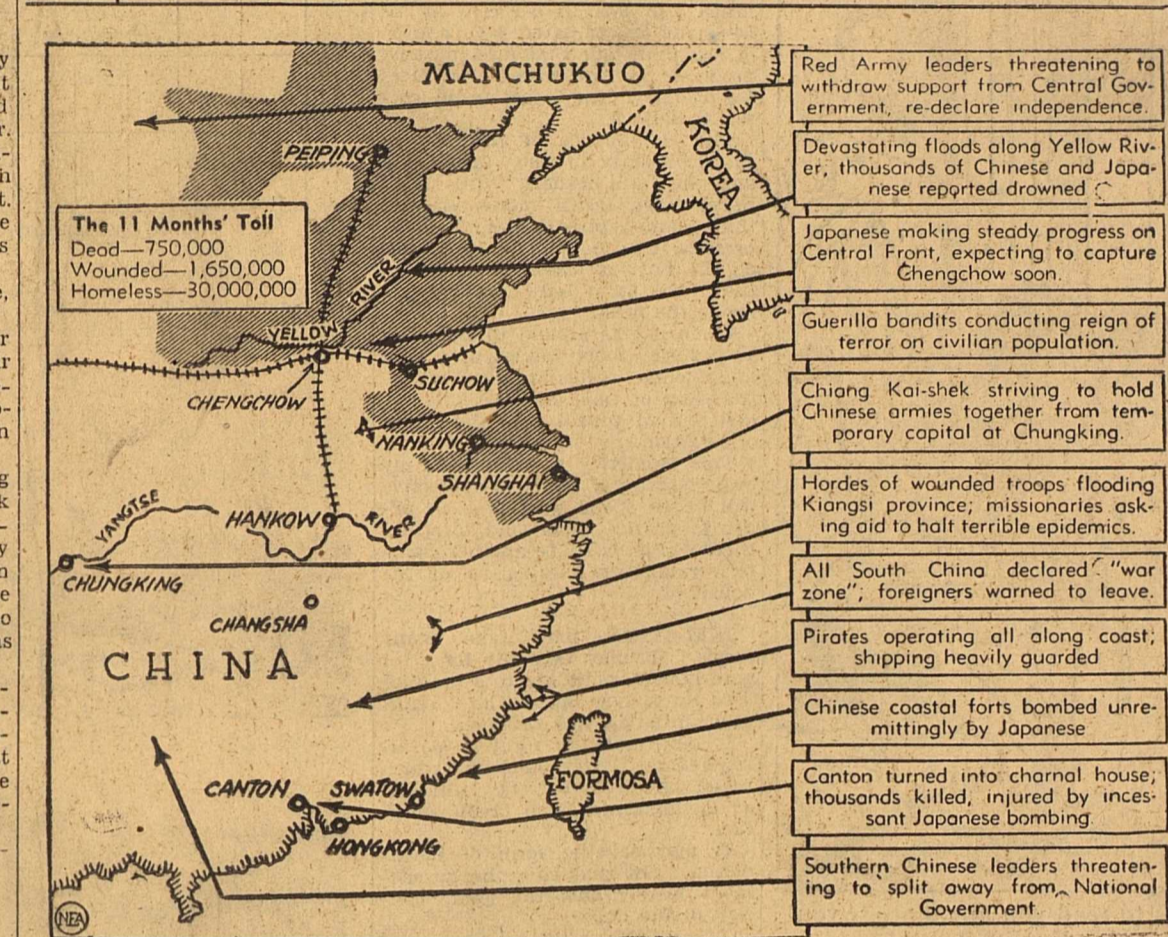

Midland Packing Plant to Be Completed Within Two Months; Of Great Aid to City

Although only a few local residents are aware of the fact that Midland will soon have a large, modern and strictly sanitary abattoir, such a plant will be opened here within the next six weeks or two months by the A. and M. Meat Packing Company which is owned and operated by S. L. Alexander and H. M. McReynolds. The two men have been in the slaughter business here for the past 15 months.

The new plant will be housed in a new adobe building located just east of the city limits, fronting on Texas and Pacific right of way. The building, nearing completion, has an overall dimension of 63 by 33 feet with a 14-foot ceiling. The building is equipped with 18 inch walls plastered with stabilized plaster, the same material to be used in the street paving project here. Since many of the oldest buildings of the southwest are constructed of unprotected adobe, this modern material

All children from the ages of four through 17 years are invited to attend the school.

Charges on Handset Telephones Cease After 12 Months

The 15-cent monthly charge for handset telephone service in Midland will be limited to 12 months for each subscriber, instead of 24, Mr. H. F. Fox, district manager of the Southwestern Bell Telephone Company, announced today.

Approximately 375 Midland handset telephone users will receive a reduction of 15 cents a month effective with their July telephone bills, and 500 in addition will receive the reduction within the coming year.

Subscribers who have paid the handset charge for twelve months or longer will have the 15-cent charge eliminated immediately. Those who have had handsets for less than twelve months will have the 15-cent charge deducted from their bills at the end of the 12th month.

The handset was first introduced in 1927," Mr. Fox said. "A charge was established to permit an orderly introduction of the instrument and to prevent premature retirement of serviceable desk telephones. Nearly half of the handsets now in service in Midland do not carry the additional charge, and by the end of July, due to this reduction, more than two-thirds will not pay a handset charge."

Bullet Wound Fatal To Hershall Gunter

Hershall Gunter, 27, formerly an automobile salesman, died in a local hospital today of what a doctor described as injuries resulting from a gunshot wound inflicted May 30.

Gunter allegedly was shot by T. L. Box in an altercation on South Main street and had been in a hospital since, paralyzed from the waist down as a result of the bullet from a small calibre pistol striking the spine.

Box has been in the county jail here since the incident and was recently indicted by the grand jury for assault with intent to kill. County Attorney Merritt F. Hines said today a murder charge would be filed against Box.

Funeral services had not been decided upon this afternoon.

Convicts Captured After Prison Break

SAN ANTONIO, June 14. (AP).— State prison officials at noon today had taken into custody in the sandy hills near Gonzales three escaped convicts from the Harlem prison farm and a woman companion. The woman was captured in a tree where she had fled prison bloodhounds.

The men gave up without resistance, early reports said. The trio escaped the prison farm yesterday in a car driven by the woman.

LEGION MEETING

All American Legion members and all ex-service men are invited to a regular business meeting of Woods W. Lynch post tonight at 7:30 on the Mezzanine floor of Hotel Scharbauer.

Cloverdale Park to Be Policed, Lights Out at 10:30 Each Night and Drinking Parties Strictly Banned, City Announces

City authorities announced today that, for the protection of people desiring to use the facilities of Cloverdale park as a recreation resort, lights will be turned off at 10:30 o'clock each night and the park will be patrolled to prevent misconduct by "wild" parties as has been reported recently.

Full authority to make arrests will be given city representatives policing the park, it was announced, and all persons will be expected to leave the premises by the time the lights are turned off.

This measure is taken as a protection to the public and to the park property, city officials said. They expressed the wish that the people of Midland and surrounding territory continue to enjoy the recreational spot as they have done in the past without necessity of being embarrassed by those who have been guilty of indecent behavior and misconduct.

Drinking parties and other violations of good behavior are strictly banned, it was announced, and Cloverdale park must be used the right way. Any violations of decent and respectable behavior will not be tolerated, city authorities said.

Bodies of 9 Killed in Airliner Crash Brought Out Today

YOSEMITE, Calif. June 14. (AP).— Bodies of all nine victims killed when a TWA airliner crashed into a mountainside last March 1 were brought to Wawona today. Mules were used to pack the bodies through 20 miles of snow country.

Members of the searching party said only parts of the fuselage and tail surfaces were recognizable. The rest was smashed into bits but did not burn.

All Bible questions will be especially welcomed, those in charge of arrangements for the meeting said. "Come, let us reason together, saith the Lord."

Mexican Officers Wipe Out Rebels

MEXICO CITY, June 14. (AP).— Policemen's bullets wiped out the rebel band of Brig. Gen. Enrique Espejel Chavarria Monday.

The general, his brother and a policeman were killed when Puebla authorities raided a hillside shack near Chilpo village when they learned the suspected follower of Gen. Saturnin Cedillo, himself hunted as a rebel, was sleeping there.

A volley of shots greeted the policemen's orders to Espejel to quit the cottage. One man, Atlauzo Amaro, fell dead.

Espejel and his brother fled from the house, and when the former tried to mount his horse after disregarding the policemen's repeated orders to surrender, fired his pistol, wounding another of the 12 policemen.

The remaining agents concentrated their machine-gun on the pair. Three others in the house escaped afoot in the confusion.

Espejel had been attached to the garrison of Torreon, 300 miles from San Luis Potosi, where Cedillo's followers began an unsuccessful revolt May 20.

He was dropped from the army as of May 16 for "presumption of guilt of rebellion."

It was disclosed that Brig. Gen. Honorio Vivalzain Huesco and an unnamed lieutenant colonel and major had been arrested, accused of rebellion.

GIRL TO STANTON COUPLE.

Mr. and Mrs. Jim Willingham of Stanton are the parents of a daughter, born this morning in a Midland hospital. Mother and child are reported doing well this afternoon.

Offensive of Japs Held Up By the Stream

Air Raiders Return To Attack on Canton After Missing 1 Day

SHANGHAI, June 14. (AP).— Japanese military authorities said tonight they believed 150,000 Chinese civilians had been drowned by flood waters of the Yellow river, now spreading over a wide area in northern Honan province.

The flood conditions were said to be worst in the Chungchow area, 25 miles east of Chengchow.

The Japanese offensive on Chengchow, rail junction, now is stalled by the overflow.

Japanese air raiders who passed Canton yesterday for the first time in 17 days without bombing returned to the attack today.

Rear Admiral David M. Lelton, commander of the United States Yangtze river patrol, today instructed vessels above Wu Hu to stay at their posts to protect American property and lives despite a Japanese warning.

On the north end of the curving front aimed at Hankow, flood waters of the Yellow river and Chinese counterattacks were reported adding hourly to the handicaps against the Japanese efforts to capture Chengchow, junction of the Peiping-Hankow and Lunghair Railways, 300 miles north of Hankow.

Waters sweeping along the Lunghai corridor were said to have surrounded Kaifeng and other towns.

Farther down the front in Anhwei Province, a Japanese column moving west from Chengyangkwan was reported to have crossed the Kwai River and to be nearing the border of Honan Province. This report said the advance was made after a Chinese force was defeated in an engagement near Falito in which 1,000 Chinese were killed.

Another Japanese column was reported driving up the Kwai River in an effort to reach the Peiping-Hankow Railway at Sinyang, 137 miles north of Hankow, by way of Sanhsien and Sillsien.

South Side Church Of Christ to Open Meeting Wednesday

Opening Wednesday night, a meeting will be held at the South Side Church of Christ, located at South Colorado and California streets. It was announced today.

Services are to be conducted by H. Norman Gipson, nineteen-year-old evangelist who has recently moved here from Amarillo, Texas.

A Bible subject will be discussed each evening and the public will receive a cordial welcome. Closing of the meeting will be announced later.

All Bible questions will be especially welcomed, those in charge of arrangements for the meeting said. "Come, let us reason together, saith the Lord."

Bullet Wound Fatal To Hershall Gunter

Currency Inflation Looms, John T. Flynn Declares

EDITOR'S NOTE: One of nation's greatest economists sees on the financial horizon a new governmental move that may have the most profound effect on the nation's business life. Read this vital article in which John T. Flynn—famed for his accurate forecasts of economic developments—write of the 'imminent possibility' of a form of currency inflation and tells what form that inflation may take.

BY JOHN T. FLYNN.
(Copyright, 1938, NEA Service, Inc.)

NEW YORK.— Watch the situation on the farm. Farm prices have fallen well over 20 per cent in the last year as compared with a drop of less than half that for industrial products. A huge wheat crop faces the country. The situation in cotton is serious.

The significance of this lies in the psychology of the farm belt and the farm leaders. While farm prices have fallen more seriously than manufactured goods, the depression has not made itself felt on the farm as emphatically as in the cities. It is only now spreading to the farm.

When it gets around to the farm sufficiently, there will go up a new and violent demand for money tinkering of some sort.

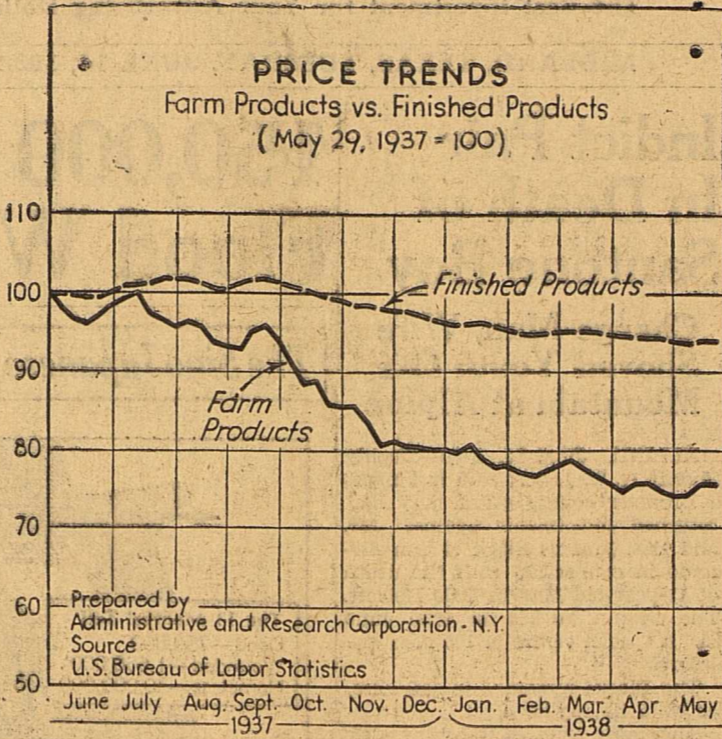

It will of course take the form of inflation. This is merely a guess but my own feeling is that its objective will be to spend gold and, in order to provide more gold to spend there will probably be another clamor for further devaluation of the dollar.

INFLATION may take many forms. It may take the form of government credit which is the type used up to now upon a large scale. That inflation has collapsed.

It may take the form of devaluing Federal Reserve currency, which would be direct currency inflation as distinguished from credit inflation.

It may take the form of devaluation. In that case the government merely cuts the gold content of the dollar.

Devaluation may or may not be effective as inflation depending on how the government follows up the devaluation. In 1934 the government cut the gold content of the dollar from 40 to 50 per cent, leaving the actual cut up to the President. In fact, President

"While farm prices have fallen more seriously than manufactured goods, the depression has not made itself felt on the farm as emphatically as in the cities."

The Town Quack

conduct, according to city officials. They have come on the premises late at night, some remaining until about daylight, and they haven't protected the good name of Cloverdale Park.

City authorities have been quick to act. In today's paper they are running official notice that lights will be out at Cloverdale at 10:30 each night. The premises will be patrolled and anyone found on the park after lights are out will be subject to arrest, fine or jail sentence.

The park is there for the good people of Midland and surrounding territory, to be used properly. All indecent conduct is banned, city officials are announcing, and the good name of Cloverdale WILL BE PROTECTED.

MOTHERS, bring your youngsters to Cloverdale with the assurance that they will witness no indecent conduct on short notice.

New Method Successfully Lengthens Withered Legs of Paralysis Victims

SAN FRANCISCO (U.P.)—Shortened legs of infantile paralysis victims can be lengthened by as much as an inch and a half by a new method being perfected at the Medical School of the University of California.

The same results also can be obtained in other cases where a withering disease that have affected the lower limbs.

Announcement of successful experiments has just been made by Dr. Roy C. Abbott professor of orthopedic surgery and Dr. John B. Saunders chairman of the division of anatomy at the university.

The first preliminary operation for the application afterward of the lengthening process was performed by Dr. Abbott at the Shriners' Hospital for Crippled Children at St. Louis and with such encouraging results that the method was developed further here to its present successful state.

Included in the new process is a special apparatus designed by August Kern, brace maker at the medical school.

The operation necessary, it is said, together with the lengthening process that follows, involves none of

the hazards formerly encountered in attempting to reach the results now obtainable.

Under the new process the leg can be lengthened from 1-16 to 1-8 of an inch each day without the patient suffering any inconvenience. One and a half inches in 6 days.

In the various cases handled the legs have nearly all been lengthened to their normal length or sufficiently near to it to permit of full, normal functioning. Deformity of the knees and feet also have been overcome and all without injury to the nerves, blood vessels or muscles.

When the leg has been lengthened to its normal length, or as nearly so as seems desirable, the apparatus is removed and the entire limb in plaster casts until the leg has permanently been stabilized at its new length. Weight bearing with support is generally possible in three to five months.

Although Drs. Abbott and Saunders have met with great success in their new method they declare they are not ready to offer final conclusions until still further cases have been treated and the results definitely established.

Survives Bullet 'Meant for FDR'

Five years after she was shot in the head by a bullet intended for President Roosevelt, Miss Margaret Krus, pictured above with her pet dog, Fluffy, still suffers headaches but holds a position with the Bituminous Coal Commission in Washington, D. C. The shot which struck Miss Krus was fired by Joseph Zangara at Miami on Feb. 15, 1933. Mayor Anton Cermak of Chicago, who was with the President at the time, was killed.

Home of Town Founder Will Be Transplanted

HAERHILL, Mass. (U.P.)—Early in the 18th century Jeremiah Hutchins left his Haverhill home and transported his family and household goods in an oxcart to New Hampshire where he founded the town of Bath.

Now the Haverhill house, built by Hutchins' grandfather, has been torn down and will be reconstructed in Rochester, N. Y.

The port of Brownsville handled products value at \$15,000,000 since it was opened in 1936. Two hundred and three deep sea vessels called and lifted 126,932 tons of cargo, of which 24,139 tons moved in international trade.

Personals

Mr. and Mrs. P. A. Nelson and young son left recently for Oklahoma City where they will leave the boy during the time they are vacationing on the west coast. Nelson is manager of Penney's here.

Mrs. A. C. Caswell and daughter, Dorothy, are visiting her parents, Mr. and Mrs. S. H. Hart, at Loraine.

Mrs. Rowena Gentry is making an extended visit in Midland. She taught in the city schools a number of years ago.

Mr. and Mrs. F. O. Harms and daughter, Georgia, of Taft, Calif., are making a visit of several weeks with relatives here.

C. A. Goldsmith left Monday for Boulder, Colo., where he will attend summer school.

Bequest to Dog Nullified.
CLEARWATER, Fla. (U.P.)—A St. Petersburg resident who died bequeathed \$55 to Mutt, his 15-year-old dog. But Mutt derived no benefit from his inheritance. He died two days before his master, although the latter was not informed of his pet's death.

Physicists Try To Find Secret Of Violin Tone
CAMBRIDGE, Mass. (U.P.)— Science may debunk the violin. Harvard University physicists are engaged in research designed to "analyze the causes of beautiful tone production in the world's finest instruments and to discover why poor instruments fail and how they may be improved."

Dr. Frederick A. Saunders, research director, says that already a few inexpensive modern violins are found to give exactly the same tone quality as certain Stradivarius instruments.

A \$5 violin is used as the standard of badness. Its tones are compared with those of the mellowest violins.

The "rawness" of many new violins which disappears after being broken in, also is being studied in belief that perhaps the wooden plates are glued too tightly at first to vibrate freely and need time to loosen. Effects of moisture and varnish also are being studied.

As result of the studies, the physicists hope to learn how to build an inexpensive violin with a fine tone quality.

Sailors Learn to Paint.
LONDON (U.P.)— The crew of the Cunard-White Star liner Ascania are tuning artist. Inspired by their chief electrician, John McTaggart, an artist of ability, nine sailors are learning to paint in oils and spend their leisure time doing landscapes, seascapes and portraits. Others are taking up wood-carving and modeling.

Roosevelt cut it about 41 per cent. The effect of this was to make the gold held by the government worth \$35 an ounce.

BUT this was not effective as inflation because the old dollar remained held fast to a certain value through the sheer force of general acceptance. And this was true because while the government cut the gold content it did not issue new dollars to correspond with the devaluation.

For instance, if the dollar's gold value is cut in half the implication is that the dollar is worth only half as much—half a dollar. If the government then calls in all existing dollars and issues two dollars for every one you would have effective devaluation and inflation. If President Roosevelt had issued

an additional 41 dollars for every 100 dollars outstanding we would have had effective inflation. One way of doing this would be to spend the gold profit.

What now seems possible, if not imminent, is that when agrarian clamor for inflation gets under way, the government may yield to a further devaluation to 50 per cent of the old standard, which would make gold worth about \$41 an ounce, and then proceed to use that new profit plus some of the old gold profit in domestic expenditures.

We would then be actually in the condition of making the devaluation with 50-cent and of doing business with 50-cent dollars, but with perhaps twice as many dollars as we have now.

It begins to look as if we would have something like that.

Try this for Summer Cooking

This new Electric Broiler-Server is the solution of many of your summer cooking problems. You can serve hot meals in a jiffy without heating up your kitchen, and with a minimum of work.

This newest of electric appliances designed to make summer meal preparation easier broils steaks, roasts meats, bakes potatoes and biscuits, and cooks many other foods quickly and conveniently.

Here are a few things it does:
Broils juicy steaks in 9 minutes.
Broils lamb chops in 4 1/2 minutes.
Roasts 3 lbs. of meat in 45 minutes.
Bakes 1/2 chicken in 25 minutes.
Bakes potatoes in 25 minutes.
Roasts a meat loaf in 45 minutes.
Bakes biscuits in 10 minutes.

The covered hot platter keeps in delicious roast flavors and keeps the meat warm while serving.

Thick, juicy steaks are cooked to the right degree, without smoke and without heating the kitchen.

SOCIETY NEWS SECTION

Variety of Projects Occupies Group Of Girls Continuing Homemaking Work

Students who are taking the special summer projects in connection with the homemaking work of the High School have been working on a department project, along with their individual projects, Miss Vada Crawley, supervisor, said today.

The department project consists of waxing and shining the dining room floor and table tops in the foods laboratory. Toys have been renovated and made to be used in connection with the teaching of the child care unit and to be used when caring for children during the school operettas in the spring. Window boxes have been made and painted to be used for flowers, mint, and parsley in both the foods and clothing laboratories.

Following is a list of the types of individual projects and the names of the girls working on each: Gardening—Lee Dane Jones, Ethel Mae Roark, Bess Eldson. Gardening and home grounds—Beatrice Cooke, Margaret Watford, and Merle Scott. Raising chickens—Jo Nell Jones.

Making the home more attractive and livable—Faye Zimmerman, Leslie Houston, Inez Pittman, Maurine McGuire.

Planning the foods budget and menus for the family—Delphia Wood and Josephine Barber.

Planning, selecting, and making her summer wardrobe—Doris Alkire, Betty Lou Black, Atrill Smith, Nita Stovall, Tennie Stewart.

Preparing a study center and making the home more attractive—Oma Lee Roark.

Renovating her bedroom—Helen Barber, Jewella Jones and Nina Mae Brock.

Renovating the kitchen and dining room—Mary Elizabeth Kerr.

Each girl will spend from 90 to 100 hours on her project during the summer months, and then at the end of the summer, if she has done sufficient work to deserve credit, she will receive one-half credit on her project.

This is the first time Midland high school has offered special project work but it will probably be offered every summer from now on, Miss Crawley said. A girl may carry on special projects for two summers, enabling her to make one full credit in homemaking.

Smartness Blossoms Out On Gardeners Nowadays

Full-skirted, flattering dresses and well cut slacks and overalls are what modern wear when doing a bit of gardening these days. The above outfits are reasonably priced, cool and comfortable and useful around the house and on vacation as well as in the garden.

BY MARIAN YOUNG.

NEA Service Staff Correspondent. NEW YORK.—Fashionists have conspired to erase quickly any old mental pictures you have of how hopelessly un-smart the amateur gardener usually looks when working in her flower beds. New togs to wear when gardening or doing other homely chores about "the place" are as chic in their own way as afternoon, street and dance frocks are in theirs.

We're sure here and now — before anybody has a chance to try to point out that our attitude on gardening is very frivolous and superficial, indeed — that having attractive clothes to wear while weeding, pruning and so on may have more to do with the success of any woman's garden than her husband is willing to admit. Clothes Make the Gardener. In the first place, she'll tend the garden more regularly and

not just now and then when she's sure nobody is looking. Instead of slipping out in a dowdy old house dress and then having to leave the flowers and vegetables and change into something more presentable before the cold lemonade guests arrive, she'll stay right there and weed the radishes or hill the beans until she hears the guests on the front porch. Lovely to wear around the house as well as in the garden are printed cotton dirndl theme. With the majority of the fully cut ones, girdles and slip aren't necessary. The dirndl shown here at the left today is of waffle-weave pique with large navy tulips on a white ground. A tiny bouquet of colorful blossoms is in the center of each tulip.

Kerchief Replaces Hat. Notice the sweetheart neckline, the puff sleeves, the wide armholes that allow plenty of freedom and the navy belt that is finished with red and navy tulips instead of a buckle. The kerchief which is cooler than a hat matches the print of the dress. The other gardening frock, shown on the girl who is busily painting a wooden Indian (and by the way, wooden Indians decorate some of the smartest suburban gardens these days), is a two-piece model which comes in orange, aqua, or navy uncrushable cotton with white stripes. Both shirt and skirt button down the front. And there's shirring on the top of the skirt. This costs less than four dollars and can be worn about the house as well as in the garden. The ankle-length overalls on the kneeling figure are of corduroy and may be ordered in Copenhagen blue, green or navy. The printed cotton shirt with convertible neckline with huge pink cabbage roses. These, too, are priced for low budgets. And they'd be ideal for fishing or a camping trip.

and are quite attractive in their simplicity. Likewise, our approval goes to gay beach cape in multi-color striped toweling which ends in a loose hood to be drawn over the wearer's head. Just another of those rather delectable styles designed to lure hard-working humans away from their cares of loaf hours on the beach or beside the swimming pool—though most of us do not need extra-clever clothes, we'll wager to lure us away from our jobs in sizzling weather. More likely we need something to make us stay with them.

The average human being would not be happy, however, without something to complain about. And having to work when we want to play gives us a perfectly grand excuse for feeling martyred and down-trodden. Blue Clothes Carefully. Bleaching should be added to the last rinse water and thoroughly dissolved before putting in the washed clothes. Avoid using too much. Thin fabrics need less bleaching than heavy materials.

When the women who write the cooking columns for the daily newspapers and the magazines ever get hungry while reading over their copy? As hungry, for example as their readers do. The cooking pages of the women's magazines are an eternal siren call from bacon and beans and biscuits (which are a must in the average household) to strange and delicious dishes which sometimes, we must confess, run up the family grocery bill without running up the well-fed feeling of the family, especially the masculine part of it. We approve the new bath towels in cool white with their only decoration a medium-narrow band of two-tone color such as orange and brown or yellow-green and blue at either end. Another clever towel has a plain white background, refreshing after all the solid colors seen lately in these bathing necessities, which flaunts very narrow stripes in groups of three running lengthwise down the towel, instead of across it in the accustomed manner. These towels come with the stripes in blue or red

Feminine Fancies

Cooking, despite the trend toward fewer dishes per meal and fewer ingredients per dish, seems to become an increasingly subtle art and one which requires study. Nowadays the cook, in addition to noting the freshness and purity of the foods which she prepares must also have a knowledge of the vitamins and calories contained therein, must know whether her family is allergic or not to the different foods, and finally must keep in mind the artistic effect of the various dishes. Are they decorative? Do their colors blend or contrast? There must be times when the meal-maker longs for the good old

days when a couple of pots and a knowledge of seasoning meant a good dinner. When the women who write the cooking columns for the daily newspapers and the magazines ever get hungry while reading over their copy? As hungry, for example as their readers do.

Business Women Hear Resume of Year's Study Course

Twelve members of the Business and Professional Women's club met at the courthouse Monday evening in the organization's last business session of the year.

Mrs. Frances Stallworth presided during the business period. The resignation of Mrs. Laura Hollingsworth who is leaving Midland to make her home at Menard was read and accepted.

Recommendation made by the nominating committee at a called meeting previously that the constitution of the club be changed to include a president-elect as a regularly elected officer and that the constitution and bylaws be changed as may be needed was put in the form of a motion, seconded, and carried by vote.

Miss Betty Wilson, by written ballot, was named president-elect. Announcement was made that installation of officers will be held at the dinner meeting the last Monday in June.

Miss Maria Spencer was in charge of the program for the evening and presented a resume of the study for the year which has dealt with the general subject of "Our Town's Business."

The resume was presented under four sub-topics as follows: "How We Make Our Living," "What Controls Business in Our Town?," "What We Buy and Sell in Our Town," and "What We Get for Our Money."

In a survey made by the club during the course of the year's study, it was brought out that Midland and Midland county have a population of approximately 10,000, of which 450 are negroes and 400 Mexicans. Data showed that 3500 of these are gainfully employed and 30 were on relief.

Chief industries of the county are agriculture, employing about 481 persons, cattle employing about 85, and oil employing 752 persons including 67 women.

The professions employ 76 persons of which 30 are women. Additional interesting statistics concerning the business were given by the speaker.

A round table discussion of a questionnaire sent out by the organization was held. Miss Ethel Kaderli of Stanton was a visitor.

Members present were: Mrs. Iris N. Bounds, Mrs. L. A. Denton, Mrs. Elsie Gilkerson, Miss Ophelia Greene,

YWA Installs New Officers at Meeting Monday

Installation of officers marked the meeting of YWA members for which Miss Nedra Arden, 319 W. Indiana, was hostess Monday evening at 8 o'clock.

Those assuming offices were: President, Miss Arden; vice president, Miss Boerne Kidwell; second vice president, Miss Bernice Ray; secretary-treasurer, Miss Peggy Mathis; reporter, Miss Dorothy Hines; program chairman, Miss Alta Merrell assisted by Miss Ruth Tidmore; personal service chairman, Miss Daphne Shafer; missionary chairman, Mrs. Marvin Douglas. Prayer, singing, scripture reading, and other numbers were included on the program which was followed by a social hour and the serving of refreshments.

Present were: Misses Peggy Mathis, Daphne Shafer, Kathryn Beauchamp, Doris Tidwell, Dorothy Hines, Bernice Ray, Georgia Johnson, Boerne Kidwell, Helen Ruth Merrell, Alta Merrell, and the hostess.

The group will meet next Monday with Miss Mathis, 1508 S. Lorraine.

Mrs. Hodge Teaches Mission Study for Baptist Circles

All circles of the Baptist missionary union met at the church Monday afternoon at 4 o'clock for a missionary lesson taught by Mrs. J. Howard Hodge. The first and second chapters of the text, "Heart of the Levant", were studied.

Mrs. Edna Mahoney presided in the absence of the president, Mrs. Myrtle Smith, who is ill. Following the opening song, "Praise Him; Praise Him!", Mrs. B. C. Girdley offered prayer.

The devotional including Psalms 24 and Revelations 19:6, was read respectively by the group, after which Mrs. J. M. White offered prayer.

Announcement was made of a missionary study to be held at Big Spring Friday of this week at the Fourth Street Baptist church. All women were urged to attend the meeting which will include the serving of luncheon at noon.

Mrs. W. L. Fickett offered the dis-

Miss Clara Jesse, Miss Laura Jesse, Miss Mamie Belle McKee, Miss Dru Lord, Miss Spencer, Mrs. Stallworth, Miss Wilson, Miss Kathleen Eiland.

Presbyterians Have Round Table Program Discussion

Mrs. T. D. Kimbrough led the program for the meeting of the Rachel circle of the Presbyterian auxiliary at the church Monday afternoon. Feature of the afternoon was a round table discussion based on "What Presbyterians Believe," taken from the "Presbyterian Survey." This brought out that the distinct doctrine of the Presbyterian church is the Sovereignty of God.

Devotional was led by Mrs. John W. Drummond and included the following extracts from the Scriptures: Exodus 33:9-10; Exodus 35:4-5, 21; Exodus 36:3, 5; Leviticus 5:5, 6; Leviticus 20: 7, 8, 26.

Mrs. Butler Hurley called the meeting to order and reports were called for.

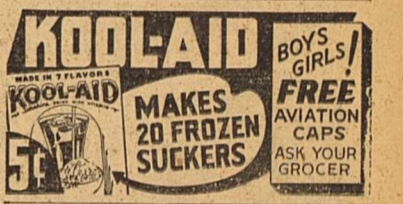

Hostesses for next time were announced as Mrs. Hurley, Mrs. Bob Clarke and Miss Laura Hitchcock, the meeting to be held at the home of Mrs. Hurley at 9:30 o'clock in the morning.

Thirteen women were present for the meeting. Hostesses for the social hour following the program were Mrs. H. L. Albrecht, Roberts, Otis Kelly.

Missal prayer. Fifteen members were present. Next week all circles will meet with Mrs. Barbara Wall, 601 N. Marienfeld, with the Glenn Walker circle in charge of the Royal Service program.

TRAVELING SCALE

A small accurate scale, weighing no more than six pounds, together with leather carrying case, is a new convenience for the traveler who likes to check his weight daily.

She says "Please" and "Thank you"

The alert, courteous voice of the telephone operator is known to all who use the telephone. To the little old lady in the shawl, the man in the big house on the hill, the tiny tot of six, the words are the same: "Number, please" and "Thank you". Like all those who work for the telephone

company, from executives to office boys, the operator's aim is more than just giving fast, accurate, dependable telephone service, at a reasonable price to you. It is to serve you in such a manner that you can say, "They're nice people to do business with."

SOUTHWESTERN BELL TELEPHONE COMPANY

Nearly 16,000 of the 25,000 employees of the Southwestern Bell Telephone Company are women. They are your friends and neighbors... living in every section of the Southwest. Their average length of service is about ten years. They play an important part in giving this country the best telephone service in the world.

Struck out—Roberts 6, Neighbors 16. Left on base—Midland 8, Wink 9. Earned runs—Wink 3. Umpires—Fritz and Cartwright.

Weary Promoter Suffering from Bad Case of Nerves, Would Take Less Than Million for Monopoly and Champions

BY HARRY GRAYSON, Sports Editor, NEA Service.

NEW YORK. — About to promote what promises to be the first genuine million-dollar prize fight in 11 years—the return meeting between Joe Louis and Max Schmeling at Yankee Stadium, June 22—Michael Strauss Jacob declares that he is fed up with boxing and would like to step out.

Jacob, who brought the game out of the doldrums when the Madison Square Garden Corporation and others gave up, and who so quickly qualified as a real successor of Tex Rickard, confesses that he has a bad case of nerves. He has lost 20 hours a day. The fellow thinks so rapidly that no one can keep up with him. "That is why he has to go it alone."

Jacob says that he would sell monopoly in the break-busting business for a million, but admits that he would take less. "And I'll give you \$100,000 for finding me a buyer," he smiles.

Uncle Mike's tangible ring assets are leases on the Garden, the Garden Bowl in Queens, the New York Hippodrome, and the two New York baseball parks, and contracts with every headline fighter.

With New York tied up, together with Louis, Schmeling, Max Baer, Tommy Farr, Tony Galento, Henry Armstrong, Lou Ambers, and some more, Jacob practically could be prosecuted under the German Anti-Trust Law as a one-man combination in the restraint of trade.

UNCLE MIKE STEPPED OUT IN FRONT RELUCTANTLY

JACOBS wasn't around Rickard all those years for nothing, or perhaps it was the other way around. Anyway, it was Uncle Mike who showed Tex how to finance the Dempsey-Carpenter extravaganza on the advance seat sale. It was just as well for the pair of them that the huge production got off well.

Jacobs, who made a million as a Broadway ticket broker, entered the promotional field openly five years ago reluctantly. For years he had sat in the background, pulling the strings.

But he stepped out in front when the New York Free Milk Fund for Babies could not make satisfactory agreements with the Garden. He took Barney Ross and Billy Petrole to the Bronx Coliseum, drew \$36,000 and turned em away.

Jacobs quickly fastened such a grip on the dodge that he moved into the Garden on a two-year lease last September.

The Garden admitted that it could not make boxing show a profit, but Jacobs paid the corporation \$80,000 for 16 shows, and cleaned up more than \$100,000 for himself. He peddled the radio rights for \$50,000 and the pictures for \$30,000, so really had no rent at all. "Then fellows didn't know what they had," he says of this deal. And the Garden now seeks a five-year renewal.

INVESTMENT O. K. IF JACOBS' SERVICES WERE INCLUDED

JACOBS guarantees the New York ball parks two shows a season and the Garden Bowl four. The rental is 10 per cent of the net. Mr. Ruppert and Stoneham easily will collect \$150,000 this summer, and the Garden \$50,000 for the use of its bowl.

It costs Jacobs \$1500 a week to operate the Hippodrome, which he took over before entering the Garden in order to have a place to develop outdoor attractions. The Hippodrome lease is a headache,

Negro Woman Gives Cooking Talks to '400'

NEW ORLEANS (U.P.)—Lena M. Richard began to make history when she mounted a Vieux Carre platform and started to beat an egg.

Then she set another precedent as she explained to a group of the city's social leaders how to make ham a la king and cheese balls.

Lena was believed to be the first negro woman ever to address a white audience here on cooking. Members of the audience, eager to learn the secrets of the Creole cooking had arranged the lecture.

Author of a cook book, Lena demonstrated to the 400 such Southern traditions as lemon delight, crab cutlets and popovers. At the end of the lecture samples of the dishes were given away, to be carried home in limousines.

Topers in Jail Too Costly

SAINT JOHN, N. B. (U.P.)—If the municipal council has its way, a night in jail is all that tipplers are going to get in the future. The council is seeking revision of the liquor laws providing a month's sentence for common drunkenness. It costs the city too much, the council said, to enforce the law.

complete airframes.

The government contracted to repay to the agents the net cost, which was defined in the agreement as the actual net cost, properly incurred, "having due regard to economy and efficiency and subject to all discounts, rebates, etc." The net cost was not to include any payment for services of directors or of the heads of department.

"The agents are remunerated, the report said, "by management fees which take the form of a fixed amount payable in respect to the

construction period a sum of \$1,000 or \$1,125 per airframe and \$375 per engine produced. An incentive to economy in production is provided by a bonus scheme under which agents will receive a share ranging from 12 1/2 per cent to 17 1/2 per cent of the sum by which ascertained net cost is less than a basic price."

Road Bed Sinks 2 Feet In 4 Days on U. S. No. 22

LANCASTER, O. (U.P.)—A sinking hill that fell 2 feet within four days has puzzled highway engineers in charge of U. S. Route No. 22 near Rushville, O.

The drop has caused a break 150 feet in length in the pavement. The engineers sank drills 14 feet under ground to obtain soil samples in an effort to determine possible cause of the slide.

Texas, 80, Grows Soft

FCRT WORTH, Tex. (U.P.—S. J. Adkins, 80, thinks he must be getting soft. He started his annual walk from Dallas to the home of a daughter here, a distance of 30 miles, and was forced to ride half the way on a bus when his foot began hurting. Adkins has made the journey on foot each birthday for several years.

So Sari Said So Long to Sam

Sari Maritza, petite picture star, took exceptions when her husband, Movie Producer Sam Katz, termed her "stupid." And because he left her alone while he took evenings out, Sari, won a divorce in Los Angeles. As to alimony, she gets \$1400 a month as long as Katz' income is \$3000 a week, \$10,000 in cash, and \$15,000 in three installments.

Lead Is Mined From Grounds Of Gun Range

SIoux CITY, Ia. (UP)—An ingenious Nebraskan is reaping a profit at Sioux City through a new form of lead "mining."

The lead in this case was deposited by man more than a third of a century ago. It is in the form of pellets fired on the old Soo Gun Club grounds. The ground was abandoned years ago. The sandy soil on the Missouri river bottom southwest of the city's business section never was planted to crops and grew up with weeds and underbrush.

A few weeks ago Carl Harvey of Omaha, Neb., came to Sioux City, inspected the grounds, tested the soil for lead and determined to try his hand at "mining." He had done similar work at Omaha and Fremont, Neb.

He found the top several inches of soil filled with pellets fired by thousands of sportsmen at clay pigeons. Harvey rigged up a separating machine on the chassis of an old automobile. A large tank was filled with water and it was placed an agitator.

Into the tank was dumped wheelbarrow loads of soil skimmed from the surface of the ground. The lead pellets, being heavier than the soil sank to the bottom and the soil floated away as water was added.

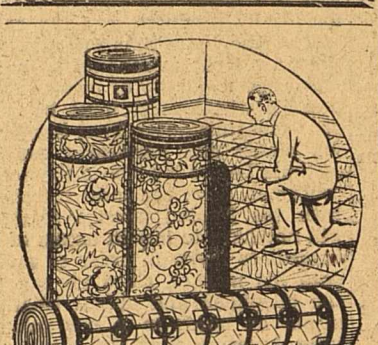

A crew of five men operates the "mining" outfit.

Tract No. 49, consisting of Sections 12, 13, 18 and the E/2 and SW/4 of Section 19, Block 48, is to be offered as a drilling block to be bid on as a unit of 2,449.3 acres but to be leased as 15 quarter-section tracts by separate leases, each to be originally dated as of the same date of issue. The minimum consideration that will be accepted for Tract No. 49 will be a cash bonus of not less than five dollars (\$5.00) per acre, plus the legally required 1 per cent, plus a well to be started on either the SW/4 of Section 12, the SE/4 of Section 13, or the NE/4 of Section 18 within two (2) years from the original date of lease and to be diligently drilled to 8,500 feet, or to sulphur water in the Ordovician, or to granite or metamorphic rock or other impenetrable rocks at a lesser depth, or to commercial production of oil and/or gas at a lesser depth, and a failure to start the drilling of said well within said time shall terminate each and all of said leases. Each quarter section of Tract No. 49 shall constitute a separately leased area and in the event production has not been secured upon each quarter so that the royalties paid will equal or exceed the amount of the annual rental that would otherwise become due on such quarter within twelve months after the execution of the lease, an annual rental of fifty cents (50¢) per acre shall be due.

Each of said leases upon the fifteen (15) quarter sections are to be written and executed on the form set out in said original advertisement, but shall contain in addition to the terms set out therein the following provision:

"This lease shall terminate unless a well is commenced on either the southwest 1/4 of Section 12, the southeast 1/4 of Section 13, or the northeast 1/4 of Section 18 in Block 48, University Lands, Reagan County, Texas, within two years from the date of this lease and be diligently drilled to a depth of 8,500 feet or to sulphur water in the Ordovician or to granite or metamorphic rock, or other impenetrable rocks, at a lesser depth, or to commercial production of oil and/or gas at lesser depth."

Paper Will Be Feature of Program

Miss M. Elizabeth Wilson will read the paper which will be the central point of the health program to be broadcast over station KRLH Wednesday morning at 11 o'clock. The paper will discuss gall bladder trouble.

Mrs. F. R. Schenck will announce for the program which will include recorded musical selections. The health program is sponsored each Wednesday morning by the Midland county public health board as an educational project.

Circle Officers Elected Monday

Circle No. 2 of the First Christian church missionary society met with Mrs. J. E. Pickering, 215 N. Loraine, as hostess Monday afternoon for organization of the group.

Mrs. Jas. H. Goodman was elected circle president. Other officers named were: Vice president, Mrs. S. P. Hall; secretary Mrs. A. B. Johnson; treasurer, Mrs. Horace Rankin. Chairmen appointed included: Attendance, Mrs. Pickering; literary, Mrs. M. A. Park; finance, Mrs. Frank Williamson; social service, Mrs. W. L. Brown; program, Mrs. Glenn Brunson; fellowship, Mrs. L. B. Pemberton.

A social hour followed the business session and a refreshment plate

Announcements

Midland county museum at the courthouse will be open Thursday afternoon from 2:30 o'clock until 5 o'clock. The public is invited.

FRIDAY.
Tapestry Sewing club will meet with Inez Whiteaker, 502 S. Terrell, Friday afternoon at 2:30 o'clock.

Belmont Bible class will meet with Mrs. A. B. Stickney, S. Carrizo

was served to eight members. They were: Mmes. Goodman, Hall, Rankin, W. M. Holmes, B. W. Stevens, Chas. Klapproth, Brunson, and the hostess.

street, Friday afternoon at 4 o'clock. Stitch and Chatter club will meet with Mrs. Forest Reven, 809 N. Weatherford, Friday afternoon at 2 o'clock.

SATURDAY.
Story Hour will be held at the courthouse Saturday morning at 10 o'clock.

Oil News- CONTINUED FROM PAGE ONE

Gulf No. 3 Crier-McElroy, on the Upton county side of the McClintic pool, flowed 832.64 barrels a day, with gas-oil ratio of 933-1, after shooting with 456 quarts of nitro. Pay was entered at 2,663, and total depth is 2,923.

Corpus Show Poverty.
Bottom three feet of core from 4,330-49 in Olson Drilling Company (formerly H. S. Forrester) No. 1 Lockhart & Brown, Andrews prospect, showed some porosity and slight oil saturation. The core was fully recovered. This morning, the well was coring ahead at 4,556 feet in time, with another core scheduled to be pulled at four this afternoon. No. 1 Lockhart & Brown is being deepened from 4,493, where it swabbed about three barrels of oil hourly after treating with 1,500 gallons. It is in section 20, block A-41, public school land, five miles west of the Fuhrman pool.

Atlantic No. 1 Texaco-University, in southwest Andrews, had drilled to 4,570 feet in time, with another drillstem test slated to be taken at 4,580.

Running of 7-inch casing was to have begun this morning in Rhodes, Tompkins et al. No. 1 Emma Cowden, in southern Andrews. High gas from the Yates had kicked out some mud, forcing a delay while hole was conditioned. Total depth is 4-155 feet in time.

Barnsall No. 14 Foster, in the Foster pool of Ector, flowed 996.68 barrels a day, with gas-oil ratio of 925-1, on test, bottomed at 4,290. Pay topped at 4,180 was shot with 440 quarts.

Gaines Wildcat Starting.
Application to drill has been filed by Warr & Riddle, Dallas operators, who propose to start a 5,700-foot wildcat in northeast Gaines by June 15. It is their No. 1 J. B. Brown, 660 feet out of the northeast corner of section 26, block G, C. & M. survey. Rotary will be employed in drilling to top of lime, then cable tools will be installed. No. 1 Brown is eight miles southeast of Seagraves and about the same distance northwest of J. T. Perryman, Jr. No. 1 C. H. Doake estate, wildcat a short distance west of Cedar Lake in northeast Gaines.

The Perryman test at last reports was shut down for repairs after drilling to 1,940 feet in redrock. Magnolia No. 1 J. D. Webb, in central Yoakum, has 1,422 feet of oil in the hole while cleaning out on bottom at 5,330 feet.

Solons CONTINUED FROM PAGE ONE

Another proposal taken up during the session would facilitate the reorganization of roads in difficulties, but Senator Wheeler (D-Mont), chairman of the Senate Interstate Commerce Commission, expressed belief that insufficient time remained to put through such a major bill.

Despite announcements, however, pressure for some legislation assisting the roads continued. A new compromise was put forward. It consisted of an offer of a railroad unemployment insurance bill approved by the House, in return for withdrawal of union opposition to the RFC loan bill. Union executives arranged a meeting tomorrow but there was no clear indication that they would take the compromise.

A Senate-House conference committee agreed tentatively during the day on the spending-lending bill. However the agreement called for separate House votes on two items added to the bill by the Senate—\$212,000,000 for additional farm bene-

Packing Plant CONTINUED FROM PAGE ONE

public. The handling of all meats in this modern plant will start from the pens on the extreme eastern edge of the ten acre tract, from whence animals will be moved to the preliminary wash room which will be at the east entrance of the building proper. Here all flies will be killed and the animal washed so that all foreign matter will be removed. The animal will then be transferred through a chute to the slaughter room which is 13 by 20 feet. Here the hide and offal will be removed and the carcass elevated to the trackage system from whence it will be carried into the work room which is 10 by 13 feet. The work room is equipped with a hot and cold water system. Here the carcass will be halved, thoroughly cleaned and covered with hot shrouds. It then goes to the pre-cooling vault where it will remain until the animal heat is thoroughly removed and a uniform temperature of the carcass obtained. It will then be moved into the storage vault where it will remain until called for by the customer. Necessary loading docks and office space complete the layout.

From a civic standpoint, the advantage of this modern equipment is that it will provide a better market for locally produced and fed cattle and at the same time make it possible for local merchants to sell a much better quality of meat than is possible where meat must be shipped great distances from the packing plants and handled a number of times before it reaches the actual consumer. Also, the local merchant, with his limited storage facilities, will not have to buy in excess of his immediate needs in order to anticipate his market, since he can use the telephone and obtain whatever meats he needs in a few minutes time, knowing that the meats will reach his counter at practically the same temperature at which it left the storage vaults.

Noted Bishop CONTINUED FROM PAGE ONE

Electing a bishop of his church in 1922 Dr. Boaz was assigned to superintendent church work in China, Japan, Siberia, and Manchuria. For two years he lived in Korea and for two years in Shanghai, China, making frequent trips to Soochow.

Japan is Aggressor
"Japan has undertaken what she can't carry out," he said in reference to the present political situation in the Orient. Japan is the

fits and \$1,000,000 for administrative expenses. If these items are finally approved, the bill will total \$3,753,000,000. This is an increase of \$599,000,000 over the sum originally approved by the House. The bill among other things, calls for huge amounts for public works "pump-priming" and for work relief. An item of \$125,000,000, to be spent for direct relief (the dole) in cases of emergency, was cut down by the conference committee to \$25,000,000.

Despite announcements, however, pressure for some legislation assisting the roads continued. A new compromise was put forward. It consisted of an offer of a railroad unemployment insurance bill approved by the House, in return for withdrawal of union opposition to the RFC loan bill. Union executives arranged a meeting tomorrow but there was no clear indication that they would take the compromise.

Japan is Aggressor
"Japan has undertaken what she can't carry out," he said in reference to the present political situation in the Orient. Japan is the

fits and \$1,000,000 for administrative expenses. If these items are finally approved, the bill will total \$3,753,000,000. This is an increase of \$599,000,000 over the sum originally approved by the House. The bill among other things, calls for huge amounts for public works "pump-priming" and for work relief. An item of \$125,000,000, to be spent for direct relief (the dole) in cases of emergency, was cut down by the conference committee to \$25,000,000.

AVOID Dangerous Skids!

EQUIP YOUR CAR WITH New Firestone CONVOY TIRES for only \$1.50 A WEEK!

1,650 people were killed and 41,520 injured in accidents caused by skids last year. Are you inviting accidents and risking your life on Smooth, Worn Tires? The new Firestone Convoy Tire gives you Non-Skid Safety, Long Mileage, New High Quality at a new low price.

It costs only a small amount each week to equip your car with year-round driving safety. Use your credit—Come In—Ask for the Budget Manager. Arrangements quickly made—Tires immediately installed—You pay as you use them—Driving in safety.

Listen to the Voice of Firestone, Monday evenings over Nationwide N.B.C. Red Network. Tune in on the Firestone Voice of the Farm Radio Program twice each week during the noon hour.

All oil and gas leases sold at this auction will be for a term of five years, or as long thereafter as oil and/or gas is being produced in paying quantities therefrom. There is no limit as to the number of such tracts that may be bid in by any party or company.

All leases shall carry a royalty of 1/8 of the value of the gross production of oil and gas therefrom. The Board has fixed an annual delay rental of not less than 50¢ per acre on each tract offered.

No advance rentals shall be added to the bid price of successful bidders. But one per cent
