BAIRD, CALLAHAN COUNTY, TEXAS, FRIDAY, NOVEMBER 22, 1929

NUMBER 51

I. N. JACKSON No. 2. MAKING 500 BBLs. HIGH GRAVITY OIL CALLAHAN CO. VOTES ON MILLION DOLLAR ROAD BOND SAT.

I. N. JACKSON NO. 2 ESTIMATED AS MAKING 500 BBLs. DAILY

The oil field north of Baird became more firmly established last Sunday morning when the Campbell Oil company of Abilene drilled in the I. N. Jackson No. 2 for an estimated production of from 500 to 750 barrels daily. The pay was struck at a depth of 1-124 feet, with the top of the sand barely touched.

The well was reported yesterday as flowing steadily at better than 20 barrels an hour.

The new well is about seven miles north of Baird on the South Hubbard creek and is surrounded by producing wells, the nearest being the Drew Beams, 1-1-2 miles southwest. On the west is the Maggie Alexander, 2-1-2 miles on the north the Dyer and Lones wells 2 miles away and the Snyder wells 2-1-2 miles.

Three new locations have been made, one 300 feet south of the new well by Union Oil Co. and one 300 feet east by Mid-West Exploration Co. and the other location 2 miles north by F. W. Holder.

There are 9800 acres in the Jackson tract and the following companies hold acreage:

Campbell Oil Corporation, Humble Oil & Refining Co., Union Oil Co. of California, Mid-West Exploration, The Texas Co., The Prairie Oil & Gas Co., Shell Petroleum Co., Gibson & Johnson, Drew Beams, Homer Peoples, F. W. Holder, Howard Petroleum Co., Wildman Oil Corporation, and it is evident that drilling will be very active in this field. Some acreage is being sold at \$100 per acre.

A well was brought in on the Lones lease about 2 miles north of the Jackson, Tuesday, which is said to be making six million feet of gas and spraying oil and another well about 5 miles east on the Diller ranch was brought in Tuesday and is making about 10 barrels per day.

The Jackson well came in very unexpectedly and some 200 barrels of oil was wasted before the well could be capped to provide storage. Yesterday morning the well had filled two 100 barrel tanks and three 250 barrel tanks. This oil is of 41 gravity.

It is reported that the well on the Maggie Alexander tract just west of the original well would be brought in yesterday afternoon.

The development of this field would mean a great deal to Baird.

Car of Provision Sent to Buckner's Orphan Home

Rev. Joe R. Mayes, pastor of the Baird Baptist church, informs us that the car of provision sent to the Buckner's Orphan Home by the Baptist people of Callahan county was valued at some \$500. There were potatoes, fruits, chickens, in fact food products of all kinds, clothing, quilts, etc., included in the contribution.

This movement was fostered by the County Woman's Mission Union and they wish to extend sincere thanks to all who contributed to the collection.

DISTRICT COURT WILL ADJOURN SATURDAY

District Court will adjourn Saturday for the term. Court has been quite busy past week. Next week we will give a report of the court for the term.

The following article on the road bond issue, which is to be voted on tomorrow, is a complete explanation of the issue and we trust all voters will read it before casting their vote.—Editor Baird Star.

We, The Undersigned Citizens And Property Tax Paying Voters Of Callahan County Texas, Are In Favor Of, And Will Vote On November 23rd., 1929, For The Million Dollar County Wide Road Bond Issue For The Following Reasons.

FIRST ALL WEATHER ROADS.

We believe that this is a proposition that will give to nearly every part of Callahan County and to the county as a whole, a system of all weather roads that will enable the people in every community to reach, at all times, their trade towns and other communities regardless of weather conditions, thus enabling them to market their produce at the times that prices are best, and without waiting for roads to dry with a chance for a drop in market prices. Reliable figures show it costs at a minimum for gasoline, tires, lubrication, repairs and depreciation at least two cents per mile more to operate cars over all classes of roads than if the same cars were operated over all weather roads. Any taxpayer who will determine the number of miles he travels each year can readily see whether the saving will more than offset the amount of taxes he will pay on the road bonds. We believe that the saving each year on gasoline, tires, wear on car, etc. that will result from good roads instead of bad roads will offset the small amount of tax that will be required from each individual.

SECOND \$267,000.00 FOR LATERAL ROADS TO BE BUILT BY LOCAL LABOR.

If the bond issue carries, the County Commissioners have pledged themselves to expend \$267,000.00 of the money in the construction of graveled roads, which expenditure will be made directly by the Commissioners Court, and these roads will more than likely be completed before the State Highway is commenced. The Court has obligated itself to expend not over \$400,000.00 on the State Highway, and the outstanding road bonds to be taken up amount to approximately \$333,000.00, which will leave a balance of \$267,000.00 for the gravel roads, and the commissioners have obligated themselves to expend this sum on the gravel roads. This leaves approximately \$2000.00 per mile for such roads. Other Counties have built good graveled roads for less than this sum per mile. This sum of money paid out to Callahan County people, who will be employed to do the work, will not only give employment to many who need the work, but will mean that this sum will remain in Callahan County.

THIRD \$1,067,000.00 WORTH OF ROADS FOR \$667,000.00.

The State will pay for one-half of the cost of the State Highway which means that Callahan County will, after retiring present bonds, get roads to the value of \$1,067,000.00 for \$667,000.00 or \$400,000.00 worth of roads without cost to the county.

FOURTH NO ADVANTAGE FOR ROAD DISTRICTS ONE AND FOUR.

It has been stated by some that those people in Road Districts Nos. 1 and 4 want the rest of the county to pay their indebtedness. If this issue carries the present bonds will be retired and those people in Districts Nos. 1 and 4 will have to pay on the county bonds just as the remainder of the county. Regardless of whether we want it or not, it is believed by those who are informed on sentiment over the State, that in a short time State-wide bonds will be issued to take care of State roads as a whole. In that event all outstanding indebtedness of the county in so far as it applies to State roads will be refunded to the counties, and the rate of tax necessary to take care of the remaining bonds will be very materially reduced. If this bond issue is defeated, and the State bonds are issued, the debts of the present road districts in the county will be refunded and those districts will be clear of road debts, whereas, if the issue carries, those districts will continue to pay on the County-wide bond issue, so there is no advantage to those road districts over other communities in voting this issue.

FIFTH SEVENTY CENT TAX ALL REQUIRED.

Expert accountants, who are not interested in Callahan County, have advised that a tax of 70 cents on the hundred dollar valuation will take care of interest and pay off the bonds within thirty years. No one can believe that the total valuations of the county will not increase materially long before these bonds all mature. Any additional increase in total values will call for a corresponding decrease in the rate necessary to raise the interest and bond payments, and in a few years in the natural course of events it will require a much less rate of tax per hundred dollars than at present. This year there has been built across the county another pipe line carrying a taxable valuation of about \$100,000.00 which will be on the rolls next year. The Charter has already been granted for another railroad through the county, all of which will add very materially to the total valuation and correspondingly decrease the tax rate.

SIXTH PROGRESS OF CALLAHAN COUNTY.

We believe that with the natural increase in the value of property in the county it will be only a few years until a tax of much less than seventy cents will be sufficient to take care of the bond issue. It has been claimed by some that a tax rate of \$1.30 will be required to pay the interest and principal of these bonds. Anyone that can figure, in a few minutes can see that such a tax would retire a million dollar bond issue in less than twelve years, and it cannot be contended that such a rate would be necessary. The statement of experts is that seventy cents will be sufficient and a few minutes figuring will prove it to any one who goes to that much pains.

Counties are very much like individuals, they can progress or they can go backwards. Other counties around us are building good roads and making their counties desirable to people who come west to make their homes. Very few people will buy property and settle down in a county that has less of the comforts and necessities than other counties have. The reasons above set out, and a desire to see Callahan County progress and be a better place in which to live, to make it more attractive to others who may want to settle with us and a belief that a County-wide system of good roads will be profitable in every way, induces us to want to see Callahan County vote to issue these bonds.

J. E. Lee of Clyde Dies

Mr. J. E. Lee age 76 years, a resident of Clyde for 14 years, living on his farm two miles south of town, died on Friday morning of last week at the home of his daughter, Mrs. Josie Bacon, in Abilene. Mr. Lee had been ill for several weeks following a stroke of paralysis.

Funeral services were held at the Church of Christ at Clyde Saturday morning at 10 o'clock, conducted by A. R. Lawrence and F. B. Shepard and interment made in the Clyde cemetery.

Mr. and Mrs. Lee had observed their fifty-fourth wedding anniversary on Thursday. Mr. and Mrs. Lee have made their home with their daughter, Mrs. Bacon, in Abilene for the past two years.

Besides his widow, Mrs. Annie E. Lee, Mr. Lee is survived by eight daughters, Mrs. W. B. Taugue, Hamlin; Mrs. F. W. Wilson, Los Angeles; Mrs. T. F. Thomason, Lake Arthur, N. M.; Mrs. Josie Bacon, Abilene; Mrs. B. L. Garrett, San Francisco; Mrs. James P. Simpson, Dallas; Mrs. T. F. Stovall, Dallas; Mrs. George Z. Ryan, San Antonio; and by three sisters, Mrs. George W. Jackson, Goldthwaite; Mrs. Louis Canady, Big Spring and Mrs. Sue Marshall, British Columbia; twenty-eight grandchildren and 13 great-grandchildren.

MRS. W. C. WHITE UNDERGOES OPERATION

Mrs. White, wife of County Judge W. C. White, underwent an operation for appendicitis at the Scott and White Hospital, at Temple, on Thursday of last week, and is reported doing nicely. Judge White is with her.

MRS. S. F. MC CAFFITY UNDERGOES OPERATION

Mrs. McCaffity, wife of Rev. S. F. McCaffity, pastor of the Presbyterian church, underwent an operation at the West Texas Baptist hospital, Abilene Wednesday and at last report was doing nicely.

R. P. Hennessy Dies At Clyde

Robert P. Hennessy, age 64, well known mining operator and ranchman, died at his home in Clyde at an early hour Thursday morning of last week from an attack of heart trouble. Funeral services were held last Monday morning at 10 o'clock at the Catholic church at Clyde and interment made in the Catholic cemetery.

He is survived by his wife and one daughter, Miss Mary Hennessy, Mr. Hennessy owned considerable ranch property north of Clyde and extensive mining interests in Arizona and had made his home in Bisbee, Arizona for the past 25 years, being engaged in the undertaking business. His health failed some months ago and the family had spent some time in Clyde, with Mrs. Kate Dugan.

Where The Preachers Go

The twentieth annual session of the Northwest Texas Conference closed at Pampa Sunday night with the reading of the appointments of preachers for the ensuing year by Bishop Moore. Appointments for this, the Abilene District is as follows:

Presiding elder, E. E. White, Abilene, First Church, J. H. Hamblen; St. Paul's, J. Richard Spann; Oak Street, J. E. Harrell; Albany, T. J. Rea; Anson, H. C. Gordon; Anson circuit, E. M. Nowlin; Avoca, Joe S. Strother; Baird, B. W. Dodson; Blair circuit, Marvin Williams, supply; Bradshaw circuit, J. Edmond Kirby; Caps, H. L. Thurston; Clyde, Ray Lee; Clyde circuit, C. D. Dameron; supply; Cross Plains, W. C. Howell; Cross Plains circuit, G. C. Williams; Hawley circuit, Otis F. Mason; Merkel, T. C. Willett; Moran, George W. Montgomery; Nugent circuit, Ray Johnson, supply; Oplin circuit, to be supplied; Putnam, Cecil Fox; Trent U. S. Sherrill; Tuscola-Ovalo, J. B. Baker; Tye, L. H. Davis; president McMurphy college, J. W. Hunt; professor, McMurphy college, F. Darcy Bone; professor, Weatherford college, J. V. G. Anderson; conference evangelist W. B. Morton.

Rev. Cal C. Wright, who has served the Baird Methodist church for the past four years, goes to Snyder, which is in the Sweetwater district, and with his family left for that place yesterday morning carrying with them the best wishes of many warm friends in Baird. The Snyder church is a much larger church than the Baird church, and this promotion given Bro. Wright is a fitting reward for his faithful work and ability.

ROBERTSON DRY GOODS CO. WELL PLEASED WITH RECEPTION GIVEN THEM

Mr. Sam L. Robertson, manager of the Robertson Dry Goods Co., which opened their store here on last Saturday, expresses himself as delighted with the reception given them, also with the business they have done.

Mr. Robertson is assisted in the store by John Asbury and Mrs. Clifford Jones, of Baird and Miss Ted Moore and Mrs. Howard Ransdell and Mr. E. C. Waddell, who were with him at Puzantm.

The first visitor of the new store was a robber at an early hour last Friday morning. John Asbury was first to reach the store on that morning and as he went in at the front door a man ran out at the back with some clothing on his arm. John gave chase, but the man got away. The theft occurred at about 7:15 after night watchman, G. L. Albin had gone off duty.

Road Building Increases

Sixteen States have curtailed their road building this year despite the nation-wide appeal of motorists and road builders for more roads. In seven other states road building expenditures will fail to keep pace with the increase in auto-

mobile registrations, according to a report of the American Motorists' Association, Texas is one of seven states, where the highway programs provide for increased expenditure, the other states being Georgia, Idaho, Kentucky, Massachusetts, Mississippi and Tenn.

Party Suppers That All Enjoy

By JOSEPHINE B. GIBSON
Director, Home Economics Dept.,
H. J. Heinz Company

EVERYWHERE there are congenial couples who gather regularly at one another's homes to pass an enjoyable evening.

For such informal—and often impromptu—affairs, many hostesses find it most satisfactory, particularly to the men folks, to serve one hot dish, with suitable accompaniments, rather than the more usual "party meal" of sweets.

And these suppers are much more fun if they are so planned that all the actual preparation is made beforehand, with only the serving to be done at the last moment.

The following menus for midnight suppers have proved most satisfactory and enjoyable to many groups we know:

Menu I
Scalloped Eggs and Olives on Toast Points
Shamrock Rolls Sweet Pickles
Cheese Crackers
Cherry Preserves
Coffee

Menu II
Hot Cheese Sandwiches
Ripe Olives Fresh Cucumber
Pickles
Pineapple Salad Supreme
Cookies Coffee

Menu III
Mushroom Patties Stuffed Olives
Sandwich Relish Sandwiches
Very Small Coffee Cakes
Apple Butter Coffee

Scalloped Eggs and Olives—Melt 3 tablespoons butter in a saucepan; add 4 tablespoons flour and stir until well blended. Add 2 cups milk and cook, stirring constantly until thick. Season with salt, pepper and 1 teaspoon Worcestershire sauce. Add eggs cut in slices, and 1/2 cup stuffed olives, sliced. Pour into buttered baking dish, cover with buttered crumbs and brown in a hot oven. This dish may be prepared and ready to place in the oven before the guests arrive.

Hot Cheese Sandwiches—Mix 1 cup grated American cheese with 3 tablespoons chili sauce. Spread on buttered slices of white bread, trim crusts and toast. Serve hot. Spread sandwiches before serving time, and toast at the last minute.

Pineapple Salad Supreme—Arrange individual nests of lettuce. Spread slices of pineapple with a layer of cream cheese. Decorate each slice with 4 halves of walnut meats, and place on the lettuce. In the center of each pineapple ring place a spoonful of current jelly. At one side serve a spoonful of mayonnaise dressing.

Mushroom Patties—Remove caps from one pound of fresh mushrooms; peel and break into pieces. Peel the stems and slice thinly. Cook both stems and caps in a saucepan with 4 tablespoons butter for three minutes. Season with salt and pepper, add 4 tablespoons flour and stir until blended. Add 2 cups milk or thin cream, and 1 teaspoon Worcestershire sauce. Cook for five minutes. Serve in hot patty shells and garnish with stuffed olives.

Differ Over White Heather
Why white heather should be considered a luck-bringer is an open question. Certain Highland clans, whose chieftains included heather in their badge, have always regarded white specimens as lucky. On the other hand, ancient Gaelic traditions associated it with misfortune and death.

Airplanes Drop Tons Of Food During Flood

Army, Navy and Alabama National Guard airplanes delivered twenty-five tons of supplies furnished by the American Red Cross to flood refugees who were completely cut off from any other aid, during the serious floods in four southeastern States early this spring.

The three services made an average of fifty flights a day, delivering medicine, food, clothing and blankets. Most of the supplies were dropped to the refugees, who were isolated on hill tops and high ground, by the flood waters.

Naval aviators made a total of 115 flights during the flood period, embracing 15,000 miles. Observation planes also reported by radio where marooned refugees could be located, and a magnificent program of co-operation with the Red Cross relief forces was carried forward by all three aviation services.

The American Red Cross expended \$8,669,627.24 in disaster relief work in the United States and its insular possessions and in eleven other countries during the year ending June 30, 1929.

ELECTION ORDER

THE STATE OF TEXAS: COUNTY OF CALLAHAN:

On this 16th day of October, A. D. 1929, the Commissioners' Court of Callahan County, Texas, convened in regular session in the Courthouse of said County, being the regular meeting place of said Court, with the following members of the Court, to-wit:
W. C. White, County Judge,
J. W. Hammons, Commissioner Precinct No. 1,
J. H. Carpenter, Commissioner Precinct No. 2,
W. A. Everett, Commissioner Precinct No. 3,
G. H. Clifton, Commissioner Precinct No. 4,
S. E. Settle, County Clerk and Ex-Officio Clerk, Commissioners' Court.

being present, there came on to be considered the petition of R. L. Jolly and 301 other persons praying that bonds be issued by Callahan County, Texas, in the sum of One Million (\$1,000,000.00) Dollars bearing interest at the rate not to exceed five and one-half (5½%) per centum per annum, and maturing serially or otherwise not to exceed thirty (30) years from their date, (rate of interest and maturity to be fixed by the Commissioners' Court), for the purpose of purchasing District Roads and the further construction and maintenance and operation of macadamized, graveled or paved roads and turnpikes, or in aid thereof, throughout such County, as follows:

1. Bonds to be issued in the aggregate sum of Three Hundred Thirty-Three Thousand (\$333,000.00) Dollars for the purpose of the purchasing District Roads in said County, and which bonds shall have the same dates of maturity and bear the same rate of interest as the bonds heretofore issued and now outstanding against road districts numbers One (1) and Four (4) in said County.

2. Bonds to be issued in the aggregate sum of Six Hundred Sixty-Seven Thousand (\$667,000.00) Dollars for the further construction, maintenance and operation of macadamized, graveled or paved roads and turnpikes, or in aid thereof, throughout such county, and which bonds may run for a term not to exceed thirty (30) years from their date and bear interest at the rate of not exceeding five and one-half (5½%) per centum per annum.

And whether or not an ad valorem tax shall be levied upon the property in said County subject to taxation for the purpose of paying the interest on said bonds and to provide a sinking fund for the redemption thereof at maturity; and it appearing to the Court that said petition is signed by more than two hundred fifty of the resident property tax-paying voters of said Callahan County, Texas; and it further appearing that the amount of said bonds prayed to be issued will not exceed one-fourth of the assessed valuation of the real property of said Callahan County, Texas;

IT IS THEREFORE, CONSIDERED AND ORDERED BY THE COMMISSIONERS' COURT OF CALLAHAN COUNTY, that an election be held in said County on the 23rd day of November, A. D. 1929, which is not less than thirty days from the date of this order, to determine:

"Whether or not the bonds of said County shall be issued in the amount of One Million (\$1,000,000.00) Dollars, bearing interest at the rate not to exceed five and one-half (5½%) per centum per annum and maturing serially or otherwise, not to exceed thirty (30) years from their date, the rate of interest and maturity to be fixed by the Commissioners' Court, for the purpose of the purchasing of District Roads in Road Districts Numbers One (1) and Four (4) in said County, and the further construction, maintenance and operation of macadamized, graveled or paved roads and turnpikes, or in aid thereof throughout such county, and whether or not a tax shall be levied upon the property in said County, subject to taxation for the purpose of paying the interest on said bonds, and to provide a sinking fund for the redemption thereof at maturity."

That said election shall be held under the provisions of an Act of the Legislature of the State of Texas, passed at the First Called Session of the 39th Legislature, and approved October 18, 1926, and Laws of the State of Texas.

All persons who are legally qualified voters of the State of Texas and County of Callahan, and who are resident, property taxpayers of said County shall be entitled to vote at said election.

The ballots for said election shall have written or printed thereon the following:

"FOR THE ISSUANCE OF THE BONDS AND THE LEVYING OF THE TAX IN PAYMENT THEREOF"

"AGAINST THE ISSUANCE OF THE BONDS AND THE LEVYING OF THE TAX IN PAYMENT THEREOF"

The voter shall mark out with black ink or with black pencil one of said expressions, thus leaving the other as indicating his vote on the proposition.

The polling places and the presiding officers of said election shall be respectively as follows:

Voting Precinct No. 1, at City Hall in Baird, Texas with W. E. Melton, as presiding officer.
Voting Precinct No. 2 at Schoolhouse, Belle Plain, with Claude Flores, as presiding officer.

New Crops in Flooded States Bring Prosperity

The introduction of new habits of planting, following the Mississippi Valley flood of 1927, has brought added prosperity to farmers in many of the Mississippi Delta counties, according to Red Cross officials.

Almost every cabin has a fine vegetable garden, whereas cotton formerly grew right to the doorstep, the Red Cross states. The home demonstration and agricultural agents have followed up the project inaugurated by the Red Cross, immediately after the flood of 1927, with very gratifying success. There is a large acreage in corn, whereas formerly cotton was the one crop. Alfalfa has gained a firm foothold, and the growing of this crop is bringing good financial returns from the three or four cuttings each year. Live stock also is showing improvement due to these new crops.

Everything considered, the Delta sections which escaped a backwater problem in the spring of 1928, are in a prosperous condition, as a result of the follow-up and rehabilitation by the American Red Cross.

OVER TO BAIRD MONDAY

It was our pleasure to attend the Corner Stone laying of the Callahan County Court House Monday—It was indeed a gala day for Baird and Callahan county—It seemed like the most of 'em were there to do honor to the occasion, estimated that there some six or seven thousand folks there—They served an excellent barbecue dinner, and they had plenty and to spare—The morning was given over to a good roads meeting, and quite a number of speakers were on the program—Judge Ben L. Russell was chairman of the meeting—It can be said of Judge Russell that he is always in the harness for the progress of his county—Always active, and for thirty or forty years he has been on the job down there at Baird—He's a man endowed with leadership, and always when he joins in a battle there is something doing for Baird and Callahan County—Fortunate indeed that they have a man like that in their town and county—After the barbecue, then the laying of the corner stone was in order, and the Odd Fellows Lodge had charge of the ceremonies, and quite a number of prominent men were there to participate in the program—Lieut. Gov. Barry Miller was the main speaker on the program. They have a splendid court house, a three story structure, and it's modern throughout, a credit to the citizens of that commonwealth. Had the pleasure of meeting Judge White, County Judge of the county—He's quite a young man, but withal, got a good level head on him, and very popular, was raised in Baird—They have a red hot campaign down there for a million dollar road bond issue, same to be voted on November 23rd. It's to be hoped that they will put this bond issue over, as it's very vital to Shackelford county—It will be the means of giving us a southern outlet—Now if Callahan votes this bond issue, why the next move on the chess board will be that of Shackelford county to meet 'em down there at the county line—Well, Miss Callahan, here we are looking on, with the wish that you will put it over, and if you do, watch us, we are coming—Will match you in a two handed game—This will be a very important road, and it has been the dream of the editor of the Albany News that this road will be built—And by the way, when that happens, our road project in Shackelford county will be complete.—Albany News.

SIMMONS CHORAL CLUB TO PRESENT OPERETTA AT SCHOOL AUDITORIUM

The choral club from Simmons University, under the direction of Prof. William James Work, will present the operetta, "Jerry of Jericho Road," at the high school auditorium at Baird on the evening of Monday, November 25.

This will be the first performance of the operetta. It is to be given in Abilene the following night.

This is an operetta in two acts by Estelle Merryman Clark, put to music by Palmer John Clark. Besides a number of solos, duets, quartets and other special numbers, it includes several choruses which will be sung by the Simmons chorus of forty members.

The characters follow: Uncle Pete, an old time westerner, Broughton Morgan; Allen O'Day, rich rich young rancher, Harold Moore; Jerry, Bank, a carefree western girl, Virginia Peden; John Drayton, an easterner in love with Jerry, Charles Owens; Mimi, a flapper, Ruth Osborne; Dora, a sarcastic old maid, Esther Parish; Cornelius Bean, atypical Bostonian, Ozell Murdock; Amos Bank, a hen pecked easterner, Farren James; Lettice Bank, his wife, Ruby Fay Myrick; Sandy Bank, their daughter, Joyce Handy; Hunter, a detective, Harve Anderson;

The chorus will consist of tourists, cowboys, ghosts, and masqueraders.

The Senior class of Baird High School is sponsoring the opera and will appreciate the public patronage.

Admission is 35c and 50 cents.

EULA LOCALS

Well how is The Star force? We are having some winter weather out this way.

We are all well, but broke. This drouth was awful hard on the Eula country, but the cows and turkeys have been a great help to us. Some seem to think it is hard to sell turkeys at 20 cents per pound, but that isn't bad, neither is selling cotton at 18 cents bad. What we need is more turkeys and more cotton to sell. We will have t. back our ears and come again.

Peanuts are selling at 65 cents per bushel. Good time to buy your seed for another year. 1930 will bring about a wonderful change, we hope. Small grain is

looking fine and the pastures will save lots of feed.

Rev. R. H. Williams, of Abilene, was in Eula a few days ago, looking over his farm. Bro Williams has one of the best farms in the Eula country. We are always glad to see Bro. Williams, for he is a good man and always stands ready to help his country.

Well here is our hats off to the city of Baird. Did they pull a good one on Nov. 11. I say they did. You good people know I always speak a good word for Baird, but this time I can't praise her enough. It was a get together meeting. I met the Barr boys and others from Cross Plains. Met many friends from all parts of the county. I want to pin a bouquet on H. Schwartz, S. E. Settle, Bill Kershner, and the Chamber of Commerce of Baird, for the way they handled the day in every way. We heard some wonderful speeches that day. Boys we must take our hats off to Judge B. L. Russell. He is a manly man and I don't see how we can ever get along without him, so while he is living let's pin a bouquet on him so he can enjoy it with us. I am glad I can take him by the hand and call him my friend. I did not get to see H. F. Foy and T. E. Powell. I always try to see these good men, when I am in Baird. I met my good friend, A. G. Webb, of Abilene and sure was glad to see E. L. Finley of Abilene.

I want the editors of The Star to know you are getting out a good paper. We are always glad when The Star comes to our home. Best wishes to all who read The Star.

"FLO'SHEIMS
sho' makes mah
life easy!"

The chaps who take pride in giving your shoes that chromium-plated look, are experts at judging shoe quality. They know, a little better than anyone else, just how wonderfully a Florsheim shoe stands up—just how smartly its finish comes back, time after time! No wonder they say, "Florsheims make life easy."

UNION SCHOOL AND LOCAL NEWS

The third issue of the school paper is out. A name has been chosen, 'The Whirlwind,' by the staff. This issue of the paper had improved so much, and we are hoping for it to be better each time. The Whirlwind, is published by the high school pupils, so let's all get behind it and help make a number one school paper. One purpose of a school paper is to bring about more understanding between the home and the school.

The Union P. T. A. met Thursday afternoon at 4 o'clock. A nice crowd attended in spite of bad weather. A short program was rendered. The P. T. A. will meet on Tuesday night before Thanksgiving in a social. We hope every parent, whether a P. T. A. member or not will be present. If you fail to come, you will miss a good time.

The basket ball boys have organized with Cahal Clinton, as captain. They have begun practicing and we are expecting great things from them. Come out Friday evening and give them a boost. They play Seranton.

The girls have organized their basket ball team with Thelma Connell, as captain. At this time they do not have a game for Friday, but are trying to get one.

Mrs. Emmet Gaines and husband of Baird spent the week-end with her parents, Mr. and Mrs. W. L. Clinton.

Mrs. C. G. Lowe, of Jal, New Mexico, spent last week with her parents, Mr. and Mrs. J. B. Eubank. Mrs. Lowe was the former Miss Pauline Eubank.

HEALTH BY CHIROPRACTIC

NO Greater service can be rendered than that of restoring health to the sick and suffering. The competently trained Chiropractor, in any community, possesses unusual capacity to deliver a tremendous health service, because the percentage of results attained by the correct application of Chiropractic principles is far greater than that secured by other methods. The superiority of Chiropractic as a health science has been established in the minds of thousands upon thousands of individuals, because of the proved worth and merit of Chiropractic in comparison with results secured otherwise.

Chiropractic is in complete harmony with the inherent forces of the body. The human organism contains a marvelous vital life force which controls and actuates the various organs of the body. The human brain is the generator of this vital life force, or nerve impulses. These nerve impulses are the life of the body. They are transmitted from the brain, through the spinal cord, thence by way of nerve trunks that find their exit through the openings between the vertebrae. When the spinal column is in normal alignment, the brain generates and transmits this vital life force to all organs of the body without interference. Health is the natural result. However, when vertebrae become subluxated (out of normal position) pressure is produced upon the nerve trunks, with consequent interference to the normal transmission of this vital life force. This interference causes a condition of dis-ease, which manifests itself in the organs of the body that are effected by such interference.

The Chiropractor locates these points of interference in the patient's spine and then proceeds to adjust the vertebra, or vertebrae, responsible for the interference. Thus, by releasing the nerve pressure that is causing the interference, the Chiropractor enables the vital life force within the patient to manifest itself normally and thus restore health.

Horse, Dog, Mustache, Wife Steel Profits, One Billion A Wall Street Necklace Two Billions of Us

The rules of West Point forbid the cadet to have "a horse, dog, wife or mustache."

Cadet Paul Capron, Jr., found he could get along without the horse, dog or mustache. But when he saw Marguerite Gillespie, Cadet Capron decided that the Academy rules were too strict.

Miss Gillespie is now Mrs. Capron, and Mr. Capron, no longer at West Point, is now looking for a newspaper job in Boston.

Ancient Sparta had rules similar but more severe for young men. It is wise to bar mustaches that gather germs. Horses and dogs are not necessary. But why shouldn't a young West Pointer marry if he wants to marry?

If you have a steel business, and run it well, you can make money in America, with help of a protective tariff.

Income tax reports of the leading steel companies show that in six years past they have paid income tax on one thousand million dollars of profit.

A billion in six years is good profit, but no more than a great industry should make in a prosperous country.

The benefit of buying at home from your own people, even if you pay a little more, resides in the fact that the money stays here, goes into other American enterprises, more factories, more production, more prosperity.

Where a few persons are gathered together, only the stock market is discussed. A Fifth avenue jeweler in New York lets it be known that he has for sale a \$300,000 pearl necklace, which can be bought for \$100,000. But it must be all cash. Some lady apparently expected prices to go up forever.

Wall Street names a speculator alleged to move from the ticker to his automobile surrounded by five men to guard him. He started a bear pool two weeks ago.

A few friends each invested \$100,000, and each has thus far taken out in profit \$1,500,000.

The five body guardsmen are hired on the assumption that angry losers might plan evil for the head of the bear pool.

The rain falls on the just and unjust, and a market slump falls upon the good and bad stocks.

Of millions that rushed to buy stocks when they were going up, only a few, the wise minority, will know enough to walk in carefully and buy them when they fall below what they are worth.

Wise was old Rothschild, who said he made his money "selling too soon."

The human family is bigger than it thought. The League of Nations' statistical department shows that earth's population is only 50,000,000 short of 2,000,000,000.

Two thousand million human beings is a big crowd, of whom the majority never think, and a minority think occasionally.

The wonder is not how slowly we progress, but that we progress at all, the few dragging the many along with them.

Uncle Sam, you will be glad to hear, has started a really big dirigible for carrying passengers and for fighting purposes. A golden rivet, driven by Admiral Moffett, completed the "master ring" of the new dirigible.

The lighter than air ship, 785 feet long, 149 feet high, will carry 6,500,000 cubic feet of helium gas. The Los Angeles carries 2,500,000 cubic feet, the Graf Zeppelin, 3,700,000.

This newest, greatest of air giants, built by the Goodyear-Zeppelin corporation, will have as part of its equipment five airplanes to fly around it, warding off airplane attacks in war. Let us hope that will not come. Let us also remember that we should be much less apt to have it if we keep ourselves ready for it.

Douglas Davis flew from New York to Atlanta, Ga., in five hours, a record.

Shortly, New York, Chicago and other cities' business men, after the stores and exchanges close on Saturday, will fly south in the winter, landing in time for dinner at the beautiful resorts on the Georgia coast, in time to swim or play golf before dinner.

Treasury department statistics show that somebody is prosperous. Two hundred and ninety Americans reported incomes over \$1,000,000 each. Combined incomes of the 290 amounted to \$990,000,000.

Eleven reported incomes above \$5,000,000 each. The income of the eleven totaled \$95,000,000.

And this gives no idea of our really big incomes. Several men in America have \$50,000,000 a year each, one at least an income exceeding \$100,000,000. Their properties are in stocks that pay corporation income tax, invest their earnings in new properties and issue stock dividends paying no income tax, in accordance with a Supreme court decision.

New York city re-elected James J. Walker mayor by almost 500,000 plurality. "The blizzards" in America evidently likes the young man who dresses neatly and does not take himself or the world too seriously.

PERFECT ATTENDANCE RECORD

In the fourth grade in Baird Public School, the following pupils have a perfect attendance record: Martha Faye Barker, Anna Myrl Bell, Margaret Evans, Loraine Henry, Frances Mayfield, Jean Newton, Clara Lee Wallis, Ben Corn, Sam Kerr, Willie Oscar McWhorter, and Tommie Stanley.

Ruth Hardwick has missed only one word in spelling this year.

GAME WARDEN TELLS RULES, WEST PECOS

Deer season last just two weeks on Blacktails.

Howard Pierce, of Pecos district game warden, offers the following game laws governing this country west of the Pecos river, for the benefit of those who contemplate hunting in that section.

With deer season opening, and plenty of hunters on their way to the mountains to replenish the family larder, the right dope will come in handy. The season opens November 16th, Saturday, and ends Saturday November 30 on black-tail deer, male with pronged horn, west of the Pecos. The limit is two bucks for the season.

Quail season opens the first of December and lasts until the 16th of January with 12 a day limit and the week limit set at 36. Duck season opened the 16th of October and will end the 31st of January. Fifteen is the limit for one day, or 25 waterfowl which includes snipes and rails. Dove season closes.

Outside of your own county it is necessary to have a license, and to have it on your person. This license permits you to hunt only where it is not posted territory.

The season on deer was shortened west of the Pecos, during the past legislature at the request of the many ranchers and sportsmen in this country. Game is getting scarce in this country and even stricter regulations are being asked by the home people.

A. & P.'S ADVERTISING 85 PER CENT IN NEWSPAPERS

How it estimates the values of different kinds of advertising is shown in the edistribution of its \$6,000,000 advertising appropriation by the A. & P. Co., whose 15,000 retail stores recently set a new peak for annual business at a billion dollars.

It spent \$50,000 in magazines, \$280,000 for radio and \$5,670,000 in newspapers.

Since 1925 the company's advertising bills have gone up at the rate of \$1,000,000 a year and since 1926 it has been doubled.

Texas ranks second among the states in value of exports and among the 102 countries of the world ranks eighth. New York led in 1928 with \$861,000,000, Texas was second with \$817,000,000 and Michigan was third with \$367,000,000, less than half of the total for Texas.

Growth of the Texas dairy industry is indicated by the fact that Texas milk plants have a daily

capacity of 800,000 pounds of exclusively of 250,000 additional pounds capacity in cheese manufacturing plants.

Utilization of oyster shells in the manufacture of lime is the purpose of the Haden Lime Co., whose \$500,000 plant on the Houston Ship Channel was recently completed.

MAJESTIC has removed those last two obstacles to perfect enjoyment of radio reception... the low hum and clicks brought in with power from the light socket... and the distortion caused by old style detection. Development to the utmost of the proved practical type -27 tube accomplished the first of these advances... Power Detection made possible the second.

The magnificent tone quality of Majestic's Super-Dynamic Speaker and type -45 power tubes... without the irritating accompaniment of clicks, hisses and hum that have constantly intruded.

Those who have heard the new Majestic Anniversary Models... then noted the inspired beauty of the cabinets... and compared... have created such a demand that Majestic Radio is being made, purchased and installed at the rate of 5000 every day!

The New A-B-C Of Poultry Raising

"Professor," inquired a student in one of our agricultural colleges "you say we don't know what vitamins are; then, how do we know there are any?" "Do you know what life is?" retailed the instructor. When the pupil admitted that he did not, the professor crisply retorted, "Still, you've reasonably sure that you're living, aren't you?" In that reply lies the key to a proper understanding of the subject of vitamins by poultry raisers. True, we don't know what they are, but we know what they will accomplish and that is the main thing after all.

Of the four known vitamins, A, B, C, and D, proper understanding of the functions of the first and fourth is of paramount importance to poultry raisers. The other two may be ignored, as B is present in the outer covering of all grains and chickens do not seem to need vitamin C at all.

If feed is deficient in vitamin A, a disease called nutritional roup may develop. Mature birds affected in this way will die in from four to twelve months and young chicks in from four to eight weeks. Since feeding the proper ration of vitamin A means a ver considerable protection against this disease, it may be seen that a proper understanding of the sources of this important vitamin is something worth considering.

Vitamin A is produced in all plants that grow in sunlight and is stored in the part that shows a green or yellow color at maturity. Thus we find it in yellow corn, the outer leaves of cabbage, the leaves of alfalfa and similar plants, in yellow carrots and in sprouted oats, if they are sprouted in the presence of enough sunlight to insure a good green color. Any other kind are valueless. There are not

the only sources of vitamin A, but they are the ones principally used in poultry feeding. Strangely enough, drying does not affect the vitamin content of vegetable products, a fact which accounts for the value of alfalfa hay, and meal, when used for winter feeding.

Another valuable source of vitamin A is Cod Liver Oil. When a sufficient quantity of the products mentioned above cannot be obtained, Cod Liver Oil at the rate of about 2 per cent may be added to the mash to provide the necessary vitamin A content and also the equally valuable vitamin D.

Vitamin D, just mentioned is important because without it the mineral elements of the fowl's ration intended to supply bone and egg shell will simply pass through the system unused. In young chicks this appears as "leg weakness" or, more properly, rickets. Older fowls show a similar weakness when they are not getting enough vitamin D. They will also lay eggs with soft or extremely thin shells. Their eggs will also prove deficient in hatching qualities.

A peculiarity of vitamin D is that it can be formed both in the feed or in the bodies of the birds themselves when exposed to direct sunlight. It must be direct sunlight, however, as only the ultra-violet rays produce vitamin D and they cannot pass through ordinary window glass. The part played by ultra-violet rays in developing this necessary vitamin has been definitely established by experiments in the University of Kansas. Hens which were kept away from natural sunlight but exposed 20 minutes daily to artificially produced ultra-violet rays laid a normal number of eggs with satisfactory hatchability.

As previously mentioned, Cod Liver Oil contains Vitamin D and if mixed in the same proportion as recommended for supplying vitamin A, it will supply the other one also. This oil is not an alto-

gether dependable source of vitamin D, however. Some grades do not contain enough of it to be of any real value. So, whether you feed oil or not, see that your fowls get as much sunshine as possible. Let them out in the open whenever possible. Shelter them in the open front type of house and keep as much as the weather will permit. When the house must be closed use the new glass substitutes, which allow the ultra violet rays to pass through. Then your hens will be healthy and strong. They will lay more plentifully; then eggs will hatch better and the chicks will be free from many weaknesses.

Thus it appears that the subject of vitamins is a fairly simple one, after all. Even if nobody does know anything about their chemical makeup, it is easy to see how they work and how to utilize their valuable properties in the proper nourishing of the poultry flock.

Declares Orgatone is The Most Wonderful Medicine He Has Ever Seen

"At last I am on the road to health after spending lots of money and many days of suffering trying to get relief from my troubles," says J. W. Bethell, a well known Greenville drayman.

"About 12 years ago," he continued, "when I started down hill from stomach trouble, I would have gas on my stomach and it would press against my lungs and cause a shortness of breathe. I was badly constipated and would be forced to take strong laxative and was in a badly run-down condition. I would have headaches and sometime spit my food up."

"I had tried most everything I would hear of but nothing seemed to do me any good at all."

"After reading so much about Orgatone I decided to try it, and I began improving right away. My troubles now are a thing of the past, my stomach trouble is fast disappearing and in fact, I feel one hundred percent better. I sleep much better every night and I feel better than I have in many years. I don't believe there is another medicine on earth like Orgatone, it is the most wonderful medicine I have ever seen."

Genuine Orgatone may be bought in Baird at Wheeler's Drug Store.

CISCO LOBOS AND EASTLAND MAVERICKS MEET AT EASTLAND

Two teams whose rivalry dates back 10 years will meet on the gridiron at Eastland Friday afternoon in the banner game of the week in the Oil Belt district, when the Cisco Lobos clash with the Eastland Mavericks.

Cheathan, Maverick quarterback, is one of the greatest all-around backfield men in West Texas. He hits the line circles end, throws passes and kicks the ball. Norton a splendid pas receiver and pretty side-stepper is another Eastland ace.

Whitehead and Turknett of Cisco are speedy; Miller, fullback, is a giant plunger and Chambliss is a triple threat man who bounces threatens to throw the ball.

A battle in which wide runs, lateral passes, forward passes and trick plays can be looked for will be waged by both teams.

Eastland has never defeated Cisco but the Maverick machine this year is ranked as the finest that has ever represented the school. It has defeated Brownwood, San Angelo, Sweetwater and Big Spring and held the Breckenridge Buckaroos—next district champions—to their lowest score of the season. Breck could not score on Eastland till the last quarter and a disputed decision paved the way.

The Cisco-Eastland game, being the most important of the week in the Oil Belt, will draw a big crowd. The season will reach its climax Thanksgiving at Breckenridge when the Buckaroos will end their district schedule with a game against the Ranger Bulldogs.

STOP! LOOY! AND LISTEN!

The comedy play "The Poor Married Man" that was given last Friday night at the Baird High School auditorium, will be staged again at Cottonwood Saturday, Nov. 23.

If you haven't seen this play you have missed half of your life. There is fun from start to finish. The proceeds go to help finance the annual.

Do you want to see something funny? All right, just see Jupiter, the negro servant, get a nanny-goat.

The Senior class has put lots of work on this play. Dr. Morrison and Miss Camp are the coaches. Dr. Morrison has coached this play several times before and we all know Miss Camp's ability to coach plays. So you see they know how it is done.

Don't fail to see the high-powered mother-in-law. She says she is "a woman of experience." Well, see if she is. You will also see how these poor husband s are treated.

Our motto is, "The larger the crowd, the better we act." So help us do our best. You do your part and we'll do ours.

There are specialties between acts that are exceedingly full of vim, vigor and vitality."

Don't forget folks, The Poor Married Man, Saturday night at Cottonwood. Admission, 15c and 25cents.

RIO RITA

Palace, Cisco, December 1st.

A new and mighty era in eye-ear entertainment opened at the Palace Theatre Cisco starting Sunday, December 1st, where "Rio Rita" will have its first showing, without a doubt this audifilm version of the famous Ziegfeld musical success is destined to write a new and glowing page in the history of the screen. Prolonged applause gave the verdict of the fans. Not only is it laden with beauty, color, mystery, intrigue, drama and action, but it serves to introduce Bebe Daniels to the screen as possessor of a voice that promises to take her far in the new secret medium-talking and singing pictures.

As a picture "Rio Rita" should fire the world with enthusiasm even greater than did the Ziegfeld stage production, you will hear John Boles sing and better than he was in "The Desert Song" and that saying a whole lot, nevertheless he will be heard as will 100 singing girls in the chorus, "Rio Rita" is eye-filling, ear-soothing, soul-stirring, it has everything that makes for keen interest in sound films, it is lavish in its scope, prodigal in its beauty and has ever right to be classed as the finest musical extravaganza yet to greet the eyes and ears of picture goers, "Rio Rita" is the "hit" show of the new era, it is a picture on one can afford to miss. Another word about John Boles, he won fame in Greenville Texas while playing on the high school foot ball team, he also attended University of Texas and

while there he began to cast an eye on the stage, especially the musical comedy stage, his voice in the glee club and college musicals had captured plenty of attention, when he left college it was to study for two years in Paris and Rome, and while in New York singing in the big musical comedy show "The Very Idea" he was caught up by the Warner Bros and contracted to sing in "The Desert Song" and so here he is again and how glad we are to know that we have a Texas lad in the Movies.

Texas and Texans

Power Plans Revived

It begins to look like the Colorado river is to be dammed after all. The Insull interests withdrew from the proposition after Brownwood refused to let them have all the water the stream and all its tributaries could furnish, but now it is stated that another organization has become sufficiently interested to ask for a renewal of the permit which will soon expire. The company, which has headquarters at Seguin, says it has expended considerable funds on the project and that its first work will be to build the dam at Marble Falls which will be used to furnish power for the cotton mills to be located there, a project that has been delayed for some time pending settlement of the water rights controversy.

Some Cotton Haul

In the cotton parade at the Waco Cotton Palace there was a bale of cotton that had been hauled there by truck from Sudan, Texas, 454 miles from Waco. The owner or hauler received a prize of \$50 for bring the cotton the longest distance to enter it in the parade. That is some distance, but the cotton was brought only to about the center of the State. Brownsville should try to get that bale of cotton taken the rest of the way across Texas.

Large Wheat Crop Planted

Panhandle farmers must think that the Federal Farm Bureau is going to help them sell their next wheat crop to advantage. An increase of 42 per cent over last season's planting is shown in a survey that has been made. The estimated crop for that section is 2,500,000 acres, as compared with 1,750,000 acres last season was 42,000,000 bushels.

Hamilton Has Gas

Hamilton now has natural gas and is feeling good about that and principal streets. Texas towns are awakening to the fact that it pays to be comfortable and most of them now have most of the conveniences to be found in the cities.

Has Best Health in Twenty Five Years

"I am now in good health for the first time in twenty-five years and Sargon deserves all the credit."

"My stomach was badly disordered, blisters were continually

Mrs. J. E. COX

breaking out in my mouth. My nerves were upset, I never slept well, and there was an awful pain in my side, near my gall bladder. I was habitually constipated and had one headache after another. "I had no idea any medicine could do for me what Sargon did. There isn't an ache or pain in my body now! My stomach is in fine condition and the blisters in my mouth are gone. I'm no longer nervous, but sleep fine and since the Sargon Pills put my liver in working order, I've been entirely free of constipation and headache. I think Sargon is the grandest medicine on earth."—Mrs. J. E. Cox, 3212 Holmes St., Dallas. City Pharmacy, Agents.

GRIGGS HOSPITAL NEWS

William Burk, who has been a patient for the past several weeks, following an operation for appendicitis, was carried to his home at Rowden Tuesday. He is slowly recovering.

Mrs. J. M. Sikes is a patient, and Mrs. Josie Bacon, of Abilene, is nursing her.

Mrs. Perry Gilliland was a patient for some days for X-ray and treatment.

Mrs. Chas Russom was operated on for appendicitis last Saturday and is doing nicely.

Miss Hattie Smedly, of Rowden, was a patient for a day, having her tonsils removed.

Miss Janie Hall has at the hospital yesterday to have an X-ray made of her hand, which was injured by a fall and was found to be fractured.

Silas Dunlap, of Belle Plains, had his head badly cut with a circular saw, requiring 16 stitches to close the wound.

Mr. and Mrs. Harry Warren, brought their little son, W. Dell, age 3 years to the hospital last Saturday for X-ray of his leg, which was found to be fractured. The little fellow fell from the car just as his mother was stopping it and the wheel passed over his leg.

The stork visited the hospital yesterday morning leaving a baby girl with Mr. and Mrs. P. H. Harbrough.
