### He Still Lives.

Jack Hamilton, our accomplished county clerk, has actually been engaged in manual labor! Now don't be alarmed, for it wasn't a very big job, and he still lives.

This week he summoned all his energy for the task, girded up his loins, spit(?) upon his hands and proceeded to build several yards of fencing!

During the operation he painted his left thumb nail a lovely blue blue, buried a piece of picket in his hand, got a kink in his spinal column and smashed the third commandment all to pieces.

He finished himself before he finished his job, and was borne tenderly into the house by a kind-hearted neighbor. His work proved a complete loss, as it all had to be gone over again by skilled workmen.

Jack has reformed now, saying that hereafter he will confine his operations to building and repairing political fences, in which work he is a brilliant success.

### DEATH OF DR. WRIGHT

A SAD LOSS TO OUR CITY

"Funeral Notice.—The friends and acquaintances of the family are invited to attend the funeral of Dr. J. W. Wright, from the Methodist church at 3 o'clock this Friday afternoon, March 31st, 1899."

This brief notice, posted about town early yesterday morning, told the story of the early ending of the useful life of a good man.

Dr. Wright was born September 13, 1861, in Anderson county, Texas. He moved with his parents to Rusk county when four years old, and from thence to Van Zandt county when eighteen. After graduating from the Sam Houston Normal he entered the Louisville Medical College where he became an M.D. He was married in 1884 to Miss Gertie Davis.

In 1892 the Doctor came here for the benefit of his health. The Doctor built up a good practice and grew strong and robust. This winter he contracted grippe. Later he suffered with measles. These maladies, coupled with a lung affection, was more than he could bear and he succumbed at 2 p. m. Thursday. A few minutes before his demise he said to those about him, "If this is death, it is good to die." Of nine children the Doctor was the third to die.

As we go to press, the solemn toll of the funeral bell gives notice that the cortege is moving from the sacred edifice, on its way to Glen Rest, the silent city of the dead.

Sheriff Vann of Kerr and Davis of Bastrop came up Saturday for one of the prisoners lodged in jail a short time ago by Messrs Dick Stewart and Charley Caples, two of our efficient officers.—Rock Springs Rustler.

On that trip our sheriff, John Vann, drove sixty miles in one day. Like Brother Broyles, our John is a "Rustler."

## Made a Strand.

Manila, March 25.—A thousand Filipinos, composing the rear guard of the rebel army, which is retreating on Malolos, Aguinaldo's headquarters, made a stand yesterday in some strong trenches about Maricao, across the Maricao river. In the engagement, six Americans were killed, including three officers, and forty were wounded.

The American forces advanced from Maricao to the bridge commanded by Gen. H. G. Otis being on the left of the railroad, and Gen. Hale's on the right. They eventually discerned white roofs and steeples among the green trees beyond the river, looking not unlike a Massachusetts village.

The rebels had an unfordable river in front of them, and they poured in a fire so effective that it showed they were veterans, probably members of the native militia which the Spaniards organized.

The American artillery put a dramatic end to the battle. Approaching under cover of the bushes to about thirty yards from the trenches, the artillerymen emerged upon an open space commanding the town. When the Americans appeared they gave a great yell, and the Filipinos were panic-stricken, about 100 seeking safety in flight, while a white flag was raised by those who were in the trenches, who also shouted, "Amigos!"

Col. Funston, with twenty men of the Kansas regiment, crossed the river to the left of the railroad bridge, and captured eighty prisoners, with all their arms.

The Pennsylvania regiment captured forty prisoners from the Filipinos. By this time the right of the Filipinos was demoralized.

The Americans refrained from burning the town, and rested there last night. Gen. Otis' brigade is crossing the framework bridge, Gen. Hale's brigade remaining on the south bank of the river.

The United States Philippine commission proposes to issue a proclamation immediately after the rebel government at Malolos is dispersed, believing that the most effective moment to secure the allegiance of the natives will be after they have received an object lesson of the Americans' power.

**American Convicted.**  
Washington, March 25.—The following telegram was received at the state department from secretary of Legation at Bogota, Colombia:

"Kandoupa tried at Medellin. The jury has returned a verdict of guilty on all counts. A telegram was dated March 21, and marks in all probability one of the most prolonged trials ever made to save the life of an American citizen. Francis C. Kandoupa is of one of the best families of the south. He was a man of fine qualities and obtained the position of judge in Andalusia, but left there, as the official reports state, under a cloud. He went to Colombia and it was at the little town of Candoupa in the country that he killed a man Sept. 5, 1898. The man was a reputable German merchant named Simmonds, who was held in high esteem in the community. The killing grew out of a dispute in Simmonds' house over some property he had sold to Kandoupa, who was living under the assumed name of Charles Laford. Kandoupa admitted the killing and was sentenced to life imprisonment. His Alabama friends, notably ex-Secretary Herbert, interested themselves in his behalf and induced the state department to employ attorneys to defend him. Kandoupa was transferred from Cali to Medellin on the ground that he could not obtain a fair trial at the former place. He was convicted and sentenced to death and was executed by the firing squad during which United States Minister McKinley, by direction of Secretary Olney, managed to appeal the case and secure a retrial. Kandoupa's defense was presented actively by the present administration at the urgent solicitation of ex-Secretary Herbert, but it is believed that the action of the jury reported by Secretary McKinley marks the end and that Kandoupa must pay the penalty of his crime."

**Received by Sultan.**  
Constantinople, March 25.—Oscar Straus, the United States minister, was received in private audience by the sultan at the ceremony of the Selamlik. He was accompanied by Mr. Drake, a relative of Col. John Hay, United States secretary of state, whom he presented to his majesty. The sultan requested Mr. Straus to convey his salutations to the secretary of state and to dress Mr. Drake declared that he held the American minister in the highest esteem, adding that he appreciated the impartial and energetic way in which the minister was carrying out the negotiations he had in hand and that America's representative had the good will of the Turkish officials.

**Charles Hughes, a section hand, was run over and killed by a train at Waco.**

**Birmingham, Ala., March 25.—**Several trouble was threatened at the Ore mines at Dolomite, where 250 miners went on strike because three of their number were arrested Saturday night. Will Calvin, a colored man, was shot and mortally wounded by an infuriated black who allowed himself to be arrested without resistance.

**Sheriff O'Brien and a dozen deputies went to the scene and dispersed the men, the sheriff giving the rioters a severe talk. All work was suspended for the day.**

**Golfers.**  
St. Augustine, Fla., March 25.—Qualification play for the winter golf championship of the United States opened on the Country Club links yesterday. The remarkable score made by B. E. Schumert of the St. Paul Country club was the feature of the contest. On the first round of the nine holes he made a record of 33 strokes, and completed the second round by making a total of 79, establishing the season amateur record for the links and capturing a cup put by the Florida East Coast Golf club for the record-breaker.

**Temporarily Off.**  
New York, March 25.—William A. Brady, manager of Kid McCoy, yesterday notified Tom O'Rourke, manager of Tom Sharkey, that the McCoy-Sharkey match would have to be declared off temporarily, as McCoy hurt his shoulder in his recent fight with Choyinski. McCoy does not feel physically prepared to meet Sharkey, Brady says. He wishes to take on more weight before meeting the sailor.

**The thermometer at Dallas on the 25th registered 96 degrees, the warmest March weather ever known there.**

**Harvey Rejoins.**  
Chicago, Ill., March 25.—Mr. W. H. (Coin) Harvey has resigned as general manager of the 70's and means company of the United States national committee, and Mr. Sam B. Cook of Missouri has been appointed in his place. Mr. Cook has been in practical charge of the office for some time while Mr. Harvey has been in the field. Mr. Harvey gives us the key to his resignation that he could not get the committee to agree on what he thought was a practical business-like and aggressive policy. He expressed an earnest desire for the success of the work of the ways and means committee.

**Shooting Affair.**  
Memphis, Tenn., March 25.—Walter A. Farrabee shot William S. Arbieckle in the hip yesterday in front of the Clarendon hotel, inflicting a painful though not serious wound. Both men are well known in business circles, and the affair caused considerable excitement. The two men were armed and had their weapons drawn, but only one shot was fired, bystanders interfering and dispersing the combatants. The cause of the trouble is said to be domestic affairs. Farrabee's wife accused a divorce more than a year ago, and recently it was announced that she and Arbieckle would wed. Farrabee was arrested.

**Still Active.**  
Havana, March 25.—The bandits near Guanayra, province of Pinar del Rio, are still active, and Gen. Diaz, the Cuban commander of that district, has published a proclamation to the sixth army corps, asking the troops to make every effort to prevent the spreading of the disorder in that province, and it is said the bandits will be energetically pursued. The bandit leader was formerly, during the war, the guide of Col. Pedro Beigade, of the Cuban army.

Secretary of War Alger conferred with the American generals at Governor General Brooke's headquarters yesterday.

**From Oils.**  
Washington, March 25.—The following dispatch has been received from Gen. Otis:

Manila, March 27.—Adjutant general Washington: MacArthur holding Maricao, seven days ago, today we had our casualties about forty. The insurgents have destroyed bridges, which impeded progress of train and artillery. Our troops met the concentrated insurgents, forcing on our northern line, commanded by Aguinaldo, in person, and drove with considerable slaughter. They left nearly 100 dead on the field, and many prisoners and small arms were captured. The column will press on in the morning.

**Addressed Legislature.**  
Little Rock, Ark., March 25.—Hon. J. W. Brown was the guest of the legislature yesterday. He arrived from Hot Springs at 9 a. m., and at 10:15 visited the capitol, making brief talks in both houses to the members of the legislature. In the afternoon he addressed an audience at Glenwood park, and left last night for Lincoln, Neb.

A state blooded and fat stock show association is to be organized at Fort Worth April 12.

**Louisville Hot.**  
Louisville, Ky., March 25.—Great indignation was manifested in the camp of the Louisville baseball club yesterday, owing to a change in the schedule adopted by the league magnates in New York Saturday night, by which Louisville is deprived of eleven five at home and six abroad, of the seventeen Sunday games originally allotted that club. In nearly every instance where Sunday dates were taken from the Colonels, the games were doubled for Mondays or Fridays—poor days for attendance, as President Dreyfus puts it.

**For Civilians.**  
Washington, March 25.—One of the matters which will be brought to the attention of the president will be to supplant the military with civil officers in Cuba and Porto Rico, so far as practicable. The civil officers selected will be subject to the military authority, which must be supreme for the present, as it is the only method by which the governments of the islands can be maintained. What is desired, and what has been under consideration by officers of the administration is to have civil officers selected who will be in direct contact with the people of the island.

## Legislative.

Austin, Tex., March 25.—In the senate yesterday Grinnan presented a memorial containing the minutes of the meeting held at Tyler endorsing the governor's action in vetoing the several consolidation and fee bills. Yantis presented a petition from citizens of Waco praying for passage of Waco city charter.

Terrell presented a petition from 129 citizens of Waco county praying for passage of a house bill providing for the better protection of the lives of coal miners.

Yantis introduced a bill further defining unjust discriminations by the railroads.

Davidson's bill validating the incorporation for school purposes only of Victoria independent school district was ordered engrossed.

Bill by Yantis to prohibit any person from charging or taking from another any rate of interest greater than 10 per cent per annum passed finally. Odell's bill providing that all city charters and charter amendments be submitted to a vote of the people in the future before being granted by the legislature, was engrossed.

Burns secured the engrossment of his bill amending the charter of Houston. House bill providing that the January election of the district court of Grayson county be allowed a grand jury, was engrossed.

Grinnan secured the engrossment of his bill providing that fire insurance companies doing business in this state shall pay damages of 12 per cent interest and attorneys' fees where they fail to maintain their defenses in court.

Bill by Ross, relating to actions of force and entry and to the trial of persons charged with the same, was passed finally.

On motion of Mr. Henderson of Lamar the house passed under a suspension of the rules the senate bill to amend the charter of Paris, as to make all officers elective by the qualified voters of the city.

The Dallas charter bill was then taken up. An amendment offered Friday by Mr. Stables relating to qualifications for holding office in the city was tabled.

Several amendments offered by Mr. McKinney were adopted, the principal one being the limitation of the amount of the city council in imposing occupation taxes to such occupations as the laws of the state do not prohibit, the levy of such taxes upon a number of species were made.

Mr. Adams offered the following as a substitute for one offered by Mr. Murphy:

Added to the provision of this bill relating to the qualification for holding office the following:

Provided, that the disqualifications above mentioned shall not be so construed as to apply to laboring and persons engaged in the ordinary and usual service of said corporations in the mechanical operation and conduct of their legitimate business in said cities.

Mr. McKinney stated that the amendments would be acceptable to the friends of the bill.

**Burglarized.**  
Denison, Tex., March 25.—The shoe store of J. P. Marsh was burglarized Saturday night, and a number of fine shoes and a small sum of money stolen.

When Mr. Brigham, who clerks in the store, came down Sunday morning, he found the back door standing open, and upon examination discovered that several pairs of shoes were missing.

Sunday afternoon L. M. Bishop, water service man for the Missouri, Kansas and Texas, found four pairs of the missing shoes in an old water tank down in the Katy bridge and building.

The shoes had evidently been hidden by the thieves, with a view of returning for them later. It is thought the thief was hidden in the store and was locked up Saturday night.

**Wanted at Dryas.**  
Bryan, Tex., March 25.—Dr. W. A. Blunt, state health officer, visited Dryas to make a personal investigation of the small-pox situation, after which he stated that there was, under the circumstances, no occasion for the state to take charge of the matter, and no reason for quarantine against that place, as the local health officer had the situation well in hand and all cases are immediately isolated upon discovery. ## "Same as Other Ladies."

An English society paper tells the following little anecdote about the Princess of Wales. It appears that her kind heart interests itself not only in hospital life, but also in the welfare of prisoners. One day she visited Wormwood, Shobbs prison and went into every nook and cranny, including the laundries and the kitchens, even tasting the soup and the bread.

When she was shown some hand-cuffs she laughingly insisted on having them clasped on to her own wrists. "There!" she said. "I suppose I am the first princess who has ever been in irons!" Presently she held out her wrists to be relieved of her gages. But, alas, the governor of the prison, unused to performing such a task, was utterly unable to move the locks, and there stood the princess handcuffed and helpless, like any poor fallow!

The governor appealed to a warden to come to the rescue. The man looked confused and hesitated before submitting his rough hands to the touch of royalty, but the princess, seeing his confusion, laughed and said kindly: "Oh, don't be afraid! I am only the same as other ladies." And the man did as he was bidden.

**Ten Cigarettes.**  
The tobacco cigarette has a rival which has just appeared in the field in New York in the tea cigarette. It is made from unbroken leaves of tea, with a little tea dust. The combination is moistened, rolled and inserted in a paper wrapper, so that outwardly it looks like an ordinary cigarette. The effects are said to be peculiar. The smoker first experiences a thickening sensation of the head, and he is afflicted with a desire to sit down. This is followed by a period of intense exhilaration, which, presumably, accounts for the habit, the "shirt" phase is nausea and disgust for all.

The beginning of recovery is marked by a yearning for tea in any form. The tea cigarette habit is said to be peculiarly difficult to overcome, even harder than that of the tobacco variety.

**Intended for the Prince.**  
They say it is generally understood in London that the old bequest of the late Earl Ferdinand Rothschild of £1,000,000 to his bachelor cousin was, in reality, meant for the Prince of Wales, and that it was only put in that form so as to avoid the comment which would otherwise have been caused.

**A BRAVE COLONEL.**  
RECOMMENDS PE-RU-NA AS A FAMILY MEDICINE.

A Scientific Spring Medicine and Remedy for Catarrh and Stomach Troubles.

Colonel Arthur J. Hamilton, of the Seventh Ohio Volunteers, 259 Goodale street, Columbus, Ohio, writes: "Besides having the merits of Pe-r-u-n-a fully demonstrated in my family, I

have a number of friends who have taken it for catarrh and stomach troubles, and all unite in praising it. As a remedy for catarrh I can fully recommend it." Mrs. Hamilton, wife of the gallant colonel, "is an ardent friend of Pe-r-u-n-a also. In a letter on the subject, she writes: "I have been taking Pe-r-u-n-a for some time, and I am enjoying better health now than I have for years. I attribute the change in my health to Pe-r-u-n-a, and recommend this excellent catarrh remedy to every woman, believing it to be especially beneficial to them."

The spring-time is the most favorable time of the year to treat catarrh. There is so much less liability to take fresh cold that the treatment

The Marconi system of wireless telegraphy will become a success, unless it is stamped out by the wire trust.

There is likely to be a clash between the war department and the Texas state health authorities, over the landing of the First Texas regiment at Galveston. The spread of Cuba yellow fever germs over the state is feared, should the troops be permitted to land at that port.

The Rock Springs Rustler says "a two-pound kid made an appearance at Henry Perry's 'other day.' That is a very poor showing for a good stock country like Edwards county. Henry had better give up that branch of the stock industry and try raising lambs.

It is said that Nelson Morris, the packer, can tell by the taste of a beef steak or roast beef if the steer came from Texas or Montana. As for the taste of Texas beef it lingers as a pleasant memory, unerasable by the lapse of time or the crush of world.

Of course; but after a Texas steer has been embalmed, for army pur poses, its nearest relatives cannot recognize its birth marks.—New Orleans Picayune.

That's because the beef may be embalmed horse.

The Rock Springs Rustler says a number of its young men attended a quilting bee, and beat the young ladies in the use of the needle. "One of the young men is now wearing a thimble over his heart." What's the good of that, since his heart has already been pierced?

**Some New Trusts.**

The new trusts established in 1898 would fill the columns of the Paper, the combined capital of which amounts to almost an even billion dollars. The beef trust, \$125,000,000 capital, and the Standard Oil trust monopoly, \$100,000,000, existed before 1898; also the sugar trusts, \$75,000,000.

**LADIES' HATS**

Our young friend John F. Muller returned home from the war last Sunday, in good health and without the loss of any part of his anatomy. He enlisted May 21 in the First Texas infantry, and was with his regiment in camp at Austin, Mobile, Miami and Jacksonville, thence to Cuba. He was stationed at Havana, and was present when the Stars and Stripes in triumph was unfurled over that ancient city. Mr. Muller received his discharge March 26th. He says he has no relish for the life of a soldier nor appetite for soldier's fare, but is ready at any time to take up arms in response to his country's call.

**The Lone Star State.**

Lately there has been a change of sentiment in Leslie's Weekly toward the State of Texas. Until recently that influential publication has steadily defamed our State. The scales of injustice must have lately fallen from its eyes, and in its issue of March 30th it says: "The State of Texas, through its Legislature, is putting on record, one and for all, its unalterable opposition to a division of that magnificent commonwealth. It is the Lone Star State, containing over 274,000 square miles, and capable of sustaining a population of 25,000,000 without the slightest difficulty. It is the largest State in the Union, and it proposes to retain that distinction to the end.

We congratulate Texas! May it ever remain great and glorious, one and indivisible; the state of fighters and square feet; of history and hogs; of courage and cattle; of whisky and wheat; of live men and live stock; of good law and hard labor; of brave men and noble women; of fresh air and free farms; of statesmen and stockmen; of sorghum and snakes; of preachers and prairie dogs; of politics and pecans; of harbors and health.

Imperial Texas! The greatest gateway to the greatest gulf; widest open doors to the emigrant and the capitalist, on the face of God's earth. One of the youngest and one of the greatest of commonwealths, an empire in itself, with a farm for every toiler and a welcome for every honest man. Long may the noble flag of the

**Birthday of the Jewish Nation.**

The movement looking to its Re-establishment in Palestine.

The following, taken from the Galveston News, is not the least among the startling things which must shortly come to pass:

"The following address is sent the News by the B'Nai Zion association of Galveston: "To day we celebrate as the birthday of the Jewish nation. The day is celebrated throughout the world by the Jews. The occasion is fitting to call your attention the movement looking to the re-establishment of the Jewish nation in Palestine. The movement was started at Bassel, a congress attended by delegates from all parts of the world. The movement has in view the settlement of the trials, difficulties and persecutions suffered by the Jews in Russia, Austria, France, Algeria, Roumania, and other parts of the world. Those engaged in the work are known as Zionists. Already the establishment of a bank is in progress. The bank is to have a capital of \$10,000,000. The shares are to be taken by people in all parts of the world, each share costing \$5. Much has already been subscribed. The shares are to be signed in London on March 28, 29 and 30 of this year, an office having been opened in London for the purpose. The purpose of the fund is to enable the Zionists to negotiate with the government of Turkey for concessions of territory. We, the Zionists of this city, send now this appeal for help in the great cause, feeling that in this our loved country, where liberty is so much prized and esteemed, where there is the feeling of justice and the desire to frown down oppression, there will be many who are willing to assist in our cause, a cause which looks to the reopening of Palestine with the Jews from all countries wherein they now suffer much persecution."

**How He Knew He Wasn't Dead.**

Thomas H. Grisham, president of the board of managers of the Dodge City soldiers' home, told a Journal reporter last week a story about an old soldier named John Clark, who came near being buried alive. He had been ill a long time with typhoid fever, and at last lapsed into a comatose state and was pronounced dead. Burial robes were placed upon him and he was tenderly placed in a casket to await interment on the following day. During the night Clark regained his senses and rose up in his narrow prison. He upset the coffin and was sent sprawling on the floor. In consideration one attendant rushed into the room and retreated, declaring he had seen a ghost. Then other attendants came. Stimulants were quickly applied, the limbs of the body of Clark rubbed with alcohol. He soon opened his eyes. After careful attention and nursing he recovered entirely and to-day tells the story of his narrow escape from being buried alive.

**To Kill Vermin.**

A writer in the Scientific American says he has cleaned his premises of vermin by making whitewash yellow with copperas and covering the stones and rafters in the cellar with it. In every crevice in which a rat might get he put the copperas and scattered it in the corners of the floor. The result was the complete disappearance of rats and mice. Since that time not a rat or mouse has been seen near the house. Every spring the cellar is coated with the yellow whitewash as a purifier and rat exterminator. He says also that no typhoid, dysentery or fever attacks the family.

**The Dead Came to Life.**

There was one scared man in Seguin last Sunday night and for all we know he is still running, and by this time ought to have reached the Brazos river if he kept up at the lick he started at. Some of the town's practical jokers, and we have a great number of them, told this party that a Mexican had just died without relatives and friends and they proposed to do the right thing by the unfortunate stranger and would sit up with him. One of the boys acted the part of the deceased Aztec, candles were placed around the bier and a white sheet covered the supposed remains. The boys got their victim's consent to take the part of the watch over the remains of the dead. He consented. In the stillness of the night the dead rose with a ghastly stare and approached the horror-stricken watcher. He didn't approach very close, however, because he couldn't. The rest was a matter of speed. Jumping Jehosophat, how that man did run! We take that back—he didn't run, he flew—he flew so fast that Troell's electric spark on the wires grew jealous of him and got huffed, so the lights went out and left the town in darkness.—Seguin Enterprise

Paris in 1897 was visited by 890,000 visitors, Berlin by 517,000 and Vienna by 364,000. Thirteen years ago the figures for the three cities were: Paris, 684,000; Berlin, 268,000, and Vienna, 181,000, the relatively large increase in the last probably having something to do with the freedom from Dreyfus affairs and the new city laws. In thirteen years Paris hotels have entertained 8,700,000 guests, those of Berlin 4,500,000 and those of Vienna 3,090,000. It would be difficult to obtain accurate figures for New York and London, owing to the lack of police supervision of hotels.

The whole world of femininity has gone mad on bargains, for this is the month of months to get things for "almost nothing." **Women and Their Watches.**

A woman who possesses a watch that is always running is as rare as a peacock with a nightingale voice. As a general rule she remembers to wind her watch about three times every ten days. During the intervals its works are as dead as Julius Caesar, or else it is reposing among the hospital stock of watches at some jeweler's—a little recreation which usually costs the owner about \$7.35.
