

THE MESSENGER

HAGERMAN, CHAVES COUNTY, NEW MEXICO, NOVEMBER 1, 1928.

NUMBER 44

SCHOOLS

"CHAPEL"

MESSENGER — RODEO THEATRE TO GIVE THE ELECTION RETURNS

Arrangements have been made with the management of the Rodeo theatre to give the election returns, state and national, from eight o'clock until twelve on election night.

We will get an Associated press report every thirty minutes and will flash it on the screen, so if you want to get the election news that night, come to the theatre early and get a good seat.

We will also furnish the county news, or as much as its completed by the time we quit giving out the returns.

The Messenger and the Rodeo Theatre invites you to come in and see how the election is going.

"ABIE'S IRISH ROSE"

If your idea of entertainment in the theatre is to laugh and hear your neighbors laugh with you, then do not fail to see "Abie's Irish Rose" the mirth provoking comedy success by Anne Nichols, who is both its author and producer. Abie's Irish Rose, will begin an engagement of one day at the Princess Theatre, Roswell, Tuesday, November 6, matinee and night.

Aptly described as "the play that puts 'U' in humor," this comedy, based on the martial troubles of a young couple of different race and religious beliefs, has established a record for continuous laughter that has not been equaled by any other theatrical attraction in America. It ran over six years at the Republica Theatre, New York, and has also brought capacity records at Chicago, Philadelphia, Washington, Baltimore, Cleveland, Cincinnati, Pittsburg, Los Angeles, New Orleans, Atlanta, etc., etc.

The story of the play hinges around the difficulties of a young married couple, a Jewish boy and an Irish girl, whose fathers endeavor to separate them on account of different religious faiths. This theme is so delicately and humanly handled as to give offence to no one. Seats for the entire engagement are now selling at the box office.

It's the stage play itself, and not a motion picture.

WALKER TO WAIT THE ACTION OF GRAND JURY

B. L. Walker of Roswell, charged with first degree murder in connection with the killing of W. T. Mosley in front of the U Eat cafe on East Second street, on October 3rd, was held without bond to await the action of the Chaves county grand jury, following a preliminary hearing at Roswell Monday. Walker waived arraignment in his preliminary hearing and a plea of not guilty was entered.

KIKER AND BRATTON TO SPEAK AT CARLSBAD

Senator Sam Bratton of Albuquerque and Judge A. A. Kiker, democratic candidate for justice of the supreme court, will speak at the court house in Carlsbad, November 3rd. The public is cordially invited to hear these gentlemen discuss state and national issues.

CATTLE SHIPPED OUT

Approximately twenty-eight cars of cattle gathered from the hills west of here will be shipped out to Texas points this week. R. L. Paris, who is receiving the cattle will keep about 300 head here to feed out for the winter.

—Artesia Advocate

BAPTISTS PLAN TO MAKE GOOD THE DEFAULT OF MISSION TREASURER

Sunday November 11th, has been set by the 3,500,000 Southern Baptists as Honor Day. On this day all Baptist churches will have special services to make good the \$953,000.00 that has been lost by the default of C. S. Carnes, treasurer of home mission board of Atlanta, Georgia.

Services will be held in all Baptist churches of New Mexico on that day. Special services will be held in churches of the valley, Dexter, Hagerman and Lake Arthur. The speaker for Dexter will be Dr. Julian Atwood, pastor of First Baptist Church of Roswell. Speaker for Lake Arthur will be Pastor R. Peterson of Artesia. Services at both places will be held at 3:00 p. m. Speaker will be announced for Hagerman later.

The public is cordially invited to all the services.

Miss Eulla Lee Carter has returned from El Paso, where she has been attending school.

Mr. and Mrs. W. P. Woodmas and Mrs. J. C. Hughes and children were Roswell visitors Friday.

The chapel program was opened Tuesday morning by a song by the fourth grade. The song was followed by a solo by Sara Beth West, which was enjoyed by everyone. The next number on the program was a reading by Lila Lane and Winnifred King, at the close of which, they tempted many people, who are fond of pumpkin pie, by sitting down on the stage and eating two pieces.

This morning at chapel Prof. White finished the last of a series of talks he has been making on the subject "Why Boys and Girls Come to School." Mr. White reviewed the topics which include, "Skill in Tool Subjects" such as reading, writing and grammar. He said most trouble arose for the student because of his inability to read and interpret, (understand) what he reads than all other causes combined. He advised both teachers and students to put greater stress on reading—better and more of it.

Mr. White merely referred to the health phase of education by saying health, beauty, wealth and power were great if not the greatest human incentives. He emphasized health as being one of the leading aids to beauty. He made the point that very little beauty was found where there is not health.

He then turned for a minute or two concerning what a student should accomplish which would make a better home maker.

Citizenship was referred to as being one of the aims to be attained in the school. He said a good citizen was a square shooter; that he stood up for what was right; and that a good citizen was a person whom

everybody enjoyed being around. He made the point that citizenship was a bundle of good habits—among the more important ones he referred to politeness, tact, and honesty. He said a boy who gave trouble at home was apt to give trouble at school and he who gave trouble at school was likely to give trouble in after life.

He also made the statement a person would not be a very good citizen who did not have a good way of making a living.

Culture was referred to as a by-product of school. Each pupil was appealed to to consider every questionable bit of behavior in the light of the welfare of the group. He said we could tell who the cultured ones were by the way they acted toward other people.

He told us we have much more time for culture than our mothers and fathers had and that if we kept making more "iron men" to work for us we would still have more time to pursue culture and advised us by all means to cultivate ourselves for he said, "One of the tragedies of human life is for a person to grow old without tagible means to enjoy himself culturally." He referred to the importance of culture from the standpoint of sudden wealth. He said the sight of a person becoming suddenly rich without culture was a comedy which in that case was almost as bad as the tragedy referred to above.

Mr. White concluded his talk by saying that one of the hardest things to do was to know the best way to spend one time when he has a little leisure. One who can do that wisely he regards a person possessing wisdom.

TWO MEN ARRESTED AT ROSWELL CHARGED WITH THEFT OF BEEF

Two men were arrested in Roswell Friday afternoon, charged with larceny of neat cattle and of transporting liquor while armed with a deadly weapon. These charges were filed in justice court, Saturday morning against Ott Owens and M. Ercanbrook, says the Roswell Record, after the men had attempted to peddle beef in Roswell and did not have the hide in their possession. Following their arrest Ercanbrook took the officers to a point east of Lake McMillan, where a hide was found and the place of the beef belonging to Mark Fannin was located.

It was indicated later that the two men would plead guilty with charge.

HAGERMAN TEACHERS AT ALBUQUERQUE MEETING

The Annual meeting of the state educational association at Albuquerque will be attended by the following teachers of the Hagerman schools: Mrs. Stella B. Palmer, Miss Ruth Pettigrew, Miss Nellie Burt, Miss Pearl Richards, Miss Helen Richards, Miss Frances Snyder and Prof. E. A. White. Mr. Harry Cowan as a representative of the school board will also be present.

Mr. White and Mr. Cowan left about nine o'clock Wednesday morning to make the overland trip to Albuquerque taking with them the above named teachers.

Mr. White who will preside at the first general meeting as ex-president will also appear on the program of the sectional meetings. Mr. White is a member of the executive committee. He is president of the School Masters Club.

ALAMOGORDO MAN KILLED

Wesley Campbell, age 22, son of Rev. Joe Campbell, pioneer resident of James canyon, was arrested at Alamogordo Saturday charged with the killing of W. R. Batt, age 54, as a result of a horse trade.

Batt was shot to death from ambush as he worked in a corral among his horses by a person who fired a rifle, while hiding behind some rocks about 250 yards distant from the corral. The story of the horse trade was that Batt had traded \$30.00 and a mule to Campbell for a horse. Shortly afterwards, a prospective buyer offered Batt \$100.00 for the horse, which he refused. Campbell heard of the offer and wanted to trade back, offering Batt \$5.00 to boot.

Mr. Cluting, of Brownfield, Texas, visited his daughter, Mrs. Jim King, a few days last week. On his return home he was accompanied by Mr. King, who will visit for a few days.

PHONE CIRCUIT CREW OUT 25 MILES ON THE LOVINGTON LINE NOW

Satisfactory progress has been made in the construction of the new circuit of the Mountain States Telephone Co., from here to Lovington, although the workman have been recently hindered by the inclement weather. Practically all of the poles have been strung along the route and a crew is out about twenty-five miles erecting the poles. As soon as the poles are erected the line will be strung.

Construction is also underway on two new circuits between Artesia and Roswell a crew is now working a short distance this side of Roswell.

PRAGER MILLER EXPRESSES HIMSELF

My prediction is that Hoover's stand on prohibition, restricted immigration, increased tariff on farm products and the cooperative financing and marketing of surplus farm products will send him to the white house on November 6th. Prohibition in the interest of humanity, restricted immigration in the interest of labor, and relief for the farmers are, in my opinion, the outstanding issues in this campaign. The latter, which is no less important than the first two issues, is most interesting subject. Farming is our basic industry and there are three things absolutely essential to its future stability and success.

First, there must be cooperation in the pooling for sale of all non-perishable farm products; second, there must be ample credit for their retention in storage; and, third, these two demand that competitive products from foreign fields must not be allowed to supply our domestic markets. In other words, cooperative marketing, proper credits and tariff must be linked together if farming is to take its place on a plane with other industries. My argument in this matter is based upon the same principle that it involved in labor organizing for better pay and then allowing the influx of unrestricted immigration, which would bring cheap foreign labor to take the jobs while our boys would be organized but idle.

We must maintain our present high duties on our staple cotton-seed oil and other farm and livestock products. There is a great controversy on, of course, about the first question—prohibition—and everyone is entitled to his or her opinion. I, personally, think no man can be elected president of the United States who is opposed to prohibition; and, furthermore, I do not think that the sale of intoxicating liquor will ever again be sanctioned by law in this country.

JIM WILLIAMSON IS APPOINTED MARSHAL BY THE TOWN COUNCIL

At a meeting of the City Council Thursday night Jim Williamson was appointed to act as marshal for the town. He has also been recommended for appointment as deputy sheriff, and will soon be a full-fledged peace officer with authority to act in all cases where an officer is needed.

Hagerman has been without marshal for some time, and cotton pickers coming in had begun to stage crap games on the streets, and appear on the streets in a drunken condition—so the citizens and city council decided to put a man on the job to put an end to these misdemeanors.

\$800.00 TAX SUIT EXPLAINED

Local democrats have investigated the basis of the \$800.00 tax suit against Bob Dow, democratic nominee for governor, which is being used as political propaganda against Mr. Dow's candidacy. An investigation of the court records at Carlsbad this morning reveals the following facts: That the suit to collect \$800.00 delinquent taxes, against Mr. Dow was filed by Guy Reed, delinquent tax collector. The taxes were on cattle taken over by the Federal Reserve bank. The settlement of 25 cents on the dollar which was made by Mr. Dow was on authority of the State Tax Commission and applied to all cattle taken over by the Federal Reserve bank. At the same time the State Tax Commission authorized similar settlements in Lea county at 10 cents on the dollar because it was felt that Lea county cattlemen were in worse condition financially than cattlemen in Eddy county.

The Federal Reserve bank, which took thousands of cattle out of the state because cowmen were unable to pay off mortgages during the period of depression, refused to pay the taxes on the cattle, which left the burden on the former owners of the cattle.

OFFICIALS IN VALLEY TO LOCATE HATCHERY

E. L. Perry, state game warden and J. A. VanAtta, member of the Federal bureau of fish hatcheries, were in town Tuesday to confer with W. A. Losey, member of the State Game Commission in regard to a site for a warm water fish hatchery in the Pecos valley.

The state department of game and fish made an appropriation some time ago for the establishment of a hatchery in Southeastern New Mexico, but no site has as yet been selected for the location of the hatchery.

PRESBYTERIAN CHURCH

"The Power and Outreach of the Early Church," will be the theme of the morning service at this church next Sunday. This will be a preparatory message to the special meetings which are to begin next Sunday, November 18, with the coming of Rev. C. E. Walker D. D. Ph. D. a noted avangelist, who is at present in Minnesota completing a series of meetings with several churches there. Dr. Walker is an able cultured, and sound preacher whose messages are listened to with great profit and delight. More extended notices will appear in the next issue of the Messenger. Sunday evening the theme of the sermon will be, "Standing Behind the Eighteenth Amendment, Ten Good Reasons for Doing So." The Sunday school and Christian endeavor society will hold their sessions at the usual hours. The training class taking the course in Bower's "Teaching Task of the Church," completed this course this week and are now ready to take the examination for credits. About ten have taken the course. The pastor, Rev. James A. Hughes has been the instructor.

VELMA LEE SENN ENTERTAINS

Miss Velma Lee Senn entertained a number of her friends last Friday evening with a Halloween masquerade party. The evening was spent playing games and contests. At an early hour the guests were served with delicious refreshments consisting of doughnuts, fruit punch and candy. Those who enjoyed the affair were: Lillace Mae Andrus of Hagerman, Breba Jean Hurst, Dorothy Lewis, Evelyn Cook, and Junior Wolf, E. O. Moore, Harris Jernigan, Tommy Buchanan and the hostess Miss Velma Lee Senn.

The ladies of the O. E. S. held their regular meeting at the lodge room Wednesday night. The regular routine of business was transacted, and in addition a candidate was initiated into the order.

RAINS GENERAL OVER STATE-A LIGHT SNOW FALLS IN NORTH PART

Precipitation Here Amounts To About Two Inches—Roads Are Almost Too Muddy For Travel—Early Frost On 18th.

Rain begun falling here Sunday night and we have had such a spell of it that some people wonder who named New Mexico, "The Sunshine State."

Showers fell at intervals throughout the day Monday, and it rained some Tuesday, but the main down-pour came Tuesday night and continued throughout the night. About two inches of rain was said to have fallen during this time.

The rain seems to have been general and the roads are almost too muddy to travel in some parts of this section. The earliest killing frost ever known in this section occurred here the 18th of October. The frost, however, was light in most places and did no damage to growing crops.

Snow was reported yesterday in the vicinity of Raton and Las Vegas with rains general in the northern part of the state. The Tularosa-Carrizozo road was reported impassible on account of washouts. The highway department issued warnings for motorists to use chains.

VOTERS SHOULD BE CAREFUL

New Mexico's new state election law provides that all ballots cast in the coming election must be marked with either pen and ink or an indelible pencil. Ballots otherwise marked will not be counted. Pen and ink and indelible pencils will be found in all the booths and must be used in order to have the ballot counted. If you use a pencil in voting BE SURE it is indelible.

COTTON REPORT AS OF OCTOBER 1, 1928

Upon the preliminary estimate of 44,916,000 acres of cotton for harvest in the United States for 1928, a crop of 13,993,000 bales is indicated by the October 1 condition of 54.4 per cent, and other data. This would approximate a yield of 149.1 pounds of lint cotton per acre.

The final outturn of the crop will depend upon whether the various influences affecting the crop during the remainder of the season are more or less favorable than usual.

The production in 1927 was 12,955,000 bales; in 1926, 17,977,000 bales; in 1925, 16,104,000 bales; in 1924, 13,628,000 bales; and in 1923, 10,140,000 bales.

The condition on October 1 in 1927 was 54.2 per cent of normal; in 1926, 61.3 per cent; in 1925, 56.6 per cent, and the ten-year average on October 1, 1917-1926, was 53.5 per cent.

The yield per acre in 1927 was 154.5 pounds; in 1926, 182.6 pounds, and an average for the ten years 1917-1926 of 156.3 pounds.

New Mexico with 431 pounds leads all other states in the yield of lint cotton per acre. California with 318 pounds is second, and Arizona is third with 314 pounds.

Last Wednesday evening the Woman's club gave a Halloween tacky party at the Lake Van club house, pitch and bridge were played during the evening. About forty guests were served with refreshments at the close of the evening.

MEDAL PROGRAM AT LAKE ARTHUR FRIDAY NITE WELL ATTENDED

Although not a local affair, the people of Lake Arthur turned out well to listen to the Artesia W. T. C. U. medal contest program, given in the auditorium of the Lake Arthur high school, Friday evening, October 26th.

The program was practically the same as was presented at Artesia two weeks ago. Prof and Mrs. E. L. Harp of Roswell were present as well as a number of the members of the Pecos valley orchestra and made a material contribution to the program.

The event of the evening was the presentation of the medal to the winner by superintendent C. R. Bernard of the Lake Arthur school. Wayne Brown, son of Mr. and Mrs. Austin Brown of Artesia was given first place by the three judges.

Mrs. J. P. Sinclair of Artesia acted as chairman of the medal contest, while Mrs. W. A. Huffman, led the singing.

Hagerman—Where the most valuable mineral water in the Southwest flows from an artesian well in the city.

is situated in the best farming re- place to live.

ME TWENTY-SEVEN

AMERICAN SPEAKING AT HIGH SCHOOL ORATORIUM TUES. EVE.

Weather Hinders Attendance—Short Talks By A Number of Candidates In Pleas For Support.

Republican speaking advertised at the school house tonight was held, but owing to bad weather and the condition of the roads only a small attendance.

Candidates were made by a number of candidates in their pleas for support of the voters.

Pankey, candidate for land commissioner, was first on the program. He made a short talk in which he was running for re-election. He had made a record for himself in office. He had been in office for a year and had made a record for himself.

Miller, candidate for state auditor, spoke for a few minutes. He made a short talk in which he said he would do all he could to build up the Pecos Valley. He said he understood the problems of the valley as well as anyone as he had lived in Chaves county.

Dillon was present, but was not known until that he would be on hand, and made a short talk in which he said he would do all he could to build up the Pecos Valley.

Simms, candidate for Congress, made a brief, interesting talk.

Woodward, candidate for mayor, made the longest talk of the evening in which he defended his administration, and criticized the administration of the other candidates.

Woodward made a plea for the adoption of the constitution which will be voted on election day. He said he was in favor of the constitution and advocated by both parties.

AS CLOSING OUT SALE BEGINS SATURDAY

In this issue you will find a double-page ad of W. P. Woodman who is closing out his merchandise preparatory to his departure to California.

Woodman will continue the sale every article in the store, and many real bargains being offered. Read the ad—then come in and see what he has to offer you.

PLAYING BASKETBALL

Campbell, who broke his arm last week, broke the same arm again while playing basketball at school.

At the practice game the ball fell with all his weight on it and broke it again in the same way it was broken last summer.

ROAD DEPARTMENT SURVEY ON ROAD TO CAVERN

The highway department is to build a new road to the caverns, at least part of the road from Carlsbad to the caverns so heavy that the department is finding it difficult to maintain a road. Accordingly plans were made to survey the short-cut from Carlsbad to the caverns and build a hard surface road. The surveying of the new road is in charge of R. E. Horne.

LIGHTED VEHICLES

There is no law against a farmer along the highways in an open buggy or wagon, but if a farmer breaks up behind him and he will have to look in the rear for sympathy.—Ex-

It Strikes Home

OPPORTUNITY

Some sage once said that "opportunity knocks at
your door but once in a lifetime," or words to that
effect and this is a common saying to this good day.

There is a measure of truth in this, but here is
a better one than that: "He that would be successful
beath opportunity to it and knocketh on opportunity's
door."

Men waste their lives waiting for the knock of op-
portunity—then when she comes they are sound asleep,
or fail to recognize her. They sit around and wait for
the "big chance" that never comes, and their lives
are failures.

But the successful man goeth forth and seeketh op-
portunity—and if need be, maketh it; he is awake to
any opportunity that comes his way.

But what we want to say is that the same thing
that applies to an individual applies also to a town.
Some towns sit around waiting for opportunity to come
along and make cities of them instead of getting busy
and doing the building themselves.

Nature has been exceedingly kind to Hagerman and
has given us the greatest opportunity of any town in the
southwest to grow into a city; our mineral water will
bring people from all over the United States and Ar-
kansas to our locality for healing—if we will only do
our part. But bless your life it won't be worth a
tinker's dam to us unless we get busy and do some-
thing ourselves.

Most tubercular patients suffer with stomach trouble
as well, and though this climate is beneficial to their
lungs, the hard water is detrimental to their stomach—
and they die. Think what it would mean to them to
use the medicinal waters from our wells and heal their
stomachs with this while the sun and wind is healing
their lungs? If sick people but knew what was in
store for them here they would come in droves. But
how are they to know unless we tell them; then after
they have come, what would we do with them.

We should by all means, have a sanitarium and
bath houses here; then go into the highways and byways
and invite those who have need of healing to some
here.

Hagerman can be made into a city—but it won't
grow of it's own accord. We must help it grow.
What say? Are we right or wrong?

CO—A DEATH MESSAGE Highway Safety Bulletin No. 9)

The cryptic "CO" stands for carbon monoxide gas,
which is the colorless, odorless, vapor that is one of
the chief constituents of the exhaust gases of your
automobile. Every year about this time reports come
in of the strange deaths of people in closed cars,
locked garages, and other weird circumstances which
would make the basis of a good mystery story were it
not a matter of such lively tragedy.

Usually these deaths are listed as some man tinkering
with his car in a closed garage with the motor
running, or a closed car parked with widows tightly
closed. One case was of a man driving into his garage
late at night and napping for a few minutes before
closing off the car and leaving it for the night. He
was found a few days later—still asleep, a sleep from
which there was no awakening.

Carbon monoxide gas from the automobile exhaust
is a deadly, quick acting poison. Under no cir-
cumstances should a person remain in a garage with the
engine running and the doors closed. Opening the
door is not always enough. When there is no breeze
death may occur in a few minutes.

There are reports of people dying from the fumes
when driving in a closed car with the windows shut
and a breeze from the front driving the fumes back
into the cab of the car. Several instances of "neckers"
are on record who pulled to the side of the road, left
the engine running and the windows closed, and died
thrustly in a few minutes. What was to be a gesture of
romance in the modern manner was turned into a
tragedy without poetry.

Play safe! Endure a little chilliness when repairing
the family car at home and move it out into the
yard. Leave one window at least partly open when
driving against the wind on the open road. Beside
protecting you from an untimely and unearned death
good health practice demands fresh air. Cryptic, dead-
ly and common as your old shoes, yet always with the
motorist—watch out for the death message from CO.

Speaking about politics, our proofreader rises
to inquire if politics is singular or plural. Should the
paper say, "Politics are warming up" or "politics is
warming up?" When interviewed on the subject,
Professor Breland of State college said, "It is my
belief that politics are singular, although in Brigham
Young's time some people were known to have favored
the plural. However, according to the dictionary the
word formerly applied to ethics, and as this meaning is
no longer relevant, I must conclude that politics is
singular in tense and in fact."—Rio Grande Farmer.

VOTE FOR THE AMENDMENT

On November 6th, there will be submitted to the
voters of the state an important amendment to the
constitution of New Mexico, one that vitally affects
the oil development of this section and one that has
been endorsed by the chairman of both political parties
as a meritorious, non partisan measure. As we under-
stand the measure, it will enable the state to give a
clear title to all state leases and will put the state
mineral lands on the same basis as the United States
government. Under the enabling act by which New
Mexico came into the Union, the government made
grants of land to the state, and provided that these
lands could not be leased or sold without advertising
the lands for a definite time. The state supreme court
has held that this provision does not apply to oil and
gas leases and the land commissioner has been issuing
the leases without the advertising. However, the ques-
tion has never been before the federal court and firms
or individuals holding state leases have been in doubt
as to the clearness of title.

The purpose of the amendment is to relieve the
state of the restrictions of the act of congress. If the
amendment is adopted the legislature can valid the out-
standing leases, which will permit development to go
forward unhampered. Those who have studied the
provisions of the amendment believe that it will in-
crease the state's revenue in a substantial manner and
at the same time be a great aid to the common schools.

In the past it has been the policy of a number of
voters to vote against any proposed amendment to the
constitution. This may be a commendable policy as a
general rule, but the amendment to be voted on
November 6, is an exception and one that should re-
ceive the wholehearted support of the local people.

If you favor the continued development of this sec-
tion, if you want to increase the revenue of our com-
mon schools and state institutions, then vote for amend-
ment No. 4.

FARM PROBLEM AS OLD AS ADAM

R. L. Duffus, in an article in the New York Times,
entitled, "The Farm Problem is as Old as Adam,"
makes a most intelligent analysis of agricultural con-
ditions. Mr. Duffus' conclusion is a definite statement
of what the farmer may expect in the future.

"The American farmer," he says, "first among
all the tillers of the soil in the history of mankind, is
ceasing to be merely a farmer and is becoming a busi-
ness man and a manufacturer. Reapers, harvesters,
combines, gang plows, improved fertilizers, great ir-
rigation projects, the growth of cooperative associations
which now handle about a fifth of all the farmers' busi-
ness—all these show that the industrial revolution is
at last penetrating to the farm.

"The American farmer, despite his present troubles,
is transforming himself into a new man—a happier and
more successful one. He is breaking down the barrier
between himself and his fellows in the cities.

"The city is peacefully penetrating the country, the
country is peacefully penetrating the city. The popu-
lation is being geographically scrambled as never be-
fore. This doesn't mean that the economic interests
of the farmer and the city man are about to become
identical. But the farmer is becoming socially and
culturally more like the dweller in towns. The bitter-
ness which results when there is a struggle between
groups of totally different ways of living and thinking
is bound to be removed. The agricultural problem is
entering upon a new stage—an issue between equals.
It will long be an economic issue, but the time is
probably past when it can shake the foundations of the
republic."

UNITED STATES A NATION OF NON-VOTERS

As a nation which is supposed to be governed by
the people, the United States bears the record of polling
the smallest percentage of votes of any nation in the
world.

At the end of the revolutionary war, 100 per cent
vote was polled our forefathers fighting for the priv-
ilege of casting their vote. This was the time before
the automobile was dreamed of. They did not have to
be hauled to the polls and begged to exercise their
franchise.

100 years from this time the vote had dropped to
80 per cent.

Just before the passage of the Woman's Suffrage
amendment, a vote of 60 per cent was polled.

In the last presidential election, which included the
Woman's vote only 50 per cent availed themselves of
the opportunity of a voice in the government of the
United States.

Now another election is at hand. What per cent
vote will be cast? How many will stay at home and
then cuss the officers who are elected?

How many will avail themselves of the privilege
of voting their choice from president down to the county
officers?

In the last election there were voters enough in
eastern New Mexico to have swung the balance to a
democratic victory.

Are you going to vote on November 6th, or are
you going to stay at home and let the 50 per cent rule?
This is the condition which exists today, and the
responsibility is on your shoulders.—Portales News.

GOLDEN SILENCE MAYBE

The statement of J. S. Vaught that there were
seventy-five saloons in Albuquerque, caused quite a
sensation in the Duke city, so the Albuquerque Journal
said; because it was a slander on the good name of
Albuquerque. The fact that there were four bootleg-
gers in Artesia selling whiskey to minors is a slam
on the good name of Artesia for that matter, but the
citizenship did not rise up in arms because of the rep-
utation it might give the town, but because they wanted
to get rid of the bootleggers.

Recently the Journal came out with a proposition
that they would help clean up the town, if somebody
would point out the places selling liquor. Mrs. How-
ard Roosa, speaking at Las Cruces, charged that there
were not seventy-five saloons in Albuquerque, but more
than seventy-six, and further that she would be glad
to point them out.

We have not heard the Journal renew its propo-
sition and are wondering why the silence.

Some papers over the state are attempting to
classify the froglegs, who are running on the republi-
can state ticket this year. A few argue that they are
really democratic at heart since they were aligned with
the democratic party in 1924, while some say they
never were democrats. They're neither republicans
or democratic for that matter, but simply politicians.

MISAPPROPRIATION BY FORMER STATE TREAS. R. H. CARTER, CHARGED

SANTA FE.—Direct charges of
misappropriation of \$20,224.02 and
suspended charges of \$9,445.18 were
preferred against R. H. Carter of
Raton, former state comptroller, in
an audit of accounts handled under
the Carter administration which was
made public Thursday by State Com-
ptroller Mirabal.

Mr. Carter the audit said, assumed
the duties of state comptroller on
April 4, 1923, and was reappointed
to the office by former Governor A.
T. Hannett in January, 1925, and
that he served continuously in the
office from 1923 until January 11,
1927, when he was succeeded by the
present auditor. A summary of the
actual charges was made against
Mr. Carter in the audit follow:

"A direct charge of \$6,206.90, for
monies paid to Trinidad C. De Baca,
who was convicted of embezzling
public money while clerk for the
county of Santa Fe and who had not
been restored to his political rights
to be eligible to serve in any official
capacity.

"A direct charge of \$3,416.55 for
monies reimbursed to assistant com-
ptrollers and field auditors for ex-
penses incurred for lodging and sub-
sistence while on duty at the state
capitol in Santa Fe. Such payment,
in the opinions of your examiners, are
a flagrant violation of the law.

"Mr. Carter, in a statement to the
press Friday, answered the auditors
with a claim that the charges are
based on technicalities and have no
real foundation."

HIGHWAY EMPLOYEE KILLED

Patrick Nelson, an employee of the
state highway department, was killed
Thursday morning when a truck
overturned, pinning him underneath
the machine and crushing his skull.
Ervin Hyde, another employee, was
also seriously injured in the accident,
according to information reaching
the state highway department just
before noon today.

A Lie Nailed!

(By the Republican State Cen-
tral Committee)

Democrats are spreading the
charge that this week's El
Nuevo Mexicano, Senator Cut-
ting's Spanish weekly, tells the
voters to vote for Smith and
Cutting.

This statement is absolutely
false.

An unauthorized attempt to
insert a form of instructions
to voters was discovered after
the paper was in press, the ar-
ticle was promptly removed,
all printed copies that could be
found were destroyed, and no
such copies were circulated by
the publishers to any person.

"Sneaked" copies of the
"killed" issue are being used
by the Democrats in a desper-
ate last-minute attempt to
stem the Republican landslide.

Don't be fooled by Demo-
cratic fakers.

Vote 'er straight for Hoover,
Dillon, Cutting, Simms and the
whole Republican ticket.

NOT LONG UNTIL CHRISTMAS!

Now is the time to have those
Photos made to give your loved
ones. They can buy anything
you could give them except

ROSWELL, NEW MEXICO

The new Buick
is the new Style

Men and women on every street--
--in every city and town--are pro-
nouncing the new BUICK with
Masterpiece Bodies by Fisher, the
most beautiful automobile of the
day--

Never before in the history of
motor car manufacture have the
motorists of America welcomed
any new automobile as they are
welcoming the Silver Anniver-
sary Buick with new Master-
piece Bodies by Fisher!

Sweeping into the market at a
time when motor car lines were
practically standardized--when
imitation was destroying indi-
viduality--these epic Buick
creations introduced an entirely
new mode--

A mode of body-symmetry--of
size and magnificence--of soft
contours instead of straight

lines--of embossed side and
hood panels involving the most
costly steel paneling work em-
ployed on any car in the world!

And as the weeks have passed--
and the full significance of
Buick's achievement has be-
come apparent to the public--
enthusiasm for this car has
swelled and grown to unpre-
cedented proportions!

Buick sales records have been
broken! Production schedules
have been increased again and
again! The great Buick plants
are working to the limit of their
capacity to supply the demand.

"DOW WILL DO BETTER"

New Mexico Needs A Governor Who Can Say "No!"

DILLION CAN'T DO IT

Dick Dillon is a likeable fellow. He is kind-hearted—far too kind-hearted for the good of New Mexico. Around him are men who know what they want, and are ruthless when it comes to getting it.

Governor Dillon may have been sincere in wanting to reduce taxes, as he promised before his election. But the state tax rate has practically doubled during his time in office. It has increased because Dillon couldn't say "NO" to the men who brought pressure on him.

He may have been sincere in wanting to reduce expenses in the state departments. But they have been increased during his administration because he couldn't say "NO!" to the hardboiled politicians who are using him.

Anybody can spend money. It takes a man of character to refuse to spend it. Governor Dillon really hasn't been in Santa Fe long enough to get acquainted with his job. According to his own boast he has traveled 48,000 miles over the state during his term in office and danced in most of the school houses. Assuming he made an average of 200 miles a day in traveling this 48,000 miles, he would be out of his office 240 days, or more than two-thirds of his time since he became governor.

Governor McDonald was a cattle man and a man of character. He said "NO" to friend or foe alike when he governed the state. Hinkle was a cattle man and a man of character. He made enemies because he said "NO!" when it was proper to say no. In doing so, he saved New Mexico from bankruptcy it was facing after four years of republican mismanagement. Hannett said "NO!" in a loud and stern voice, and continued good government on a high plane.

Bob Dow comes of the same sturdy, right-thinking line that produced McDonald and Hinkle. He may make mistakes, but they are his own mistakes. He is his own man. He makes his own decisions. And he has the COURAGE that a governor of New Mexico should have!

Bob Dow was born and raised in the Pecos Valley. He is acquainted with the needs of his native state. He has grown up with the state and is better acquainted and better prepared to cope with its problems as they arise.

The Pecos Valley did not get its quota of road improvements during the Dillon administration. Bob Dow would see that his section of the state was treated fairly.

A Vote for Dow is a Vote for Better Roads and Tax Reduction

Constitutional Amendment

Touching Handling of Oil, Gas and Other Minerals in the State Lands

It is considered by the undersigned chairmen of the Republican and Democratic State Central Committees that the proposed constitutional amendment with regard to the handling and disposition of the oil, gas and other minerals in State lands is a highly meritorious measure, strictly non-partisan in character and is for the best interests of the educational institutions, common schools and other beneficiaries of the Congressional Grant Lands, and we recommend that our workers, friends, and supporters on election day use their best efforts to secure the adoption of the said Amendment.

EDWARD L. SAFFORD, Chairman Republican State Central Committee.
CLINTON P. ANDERSON, Chairman Democratic State Central Committee.

Below is the Amendment

CONSTITUTIONAL AMENDMENT NO 4

A JOINT RESOLUTION PROPOSING AN AMENDMENT TO THE CONSTITUTION OF THE STATE OF NEW MEXICO.

H. J. R. NO. 8:

Approved March 11, 1927.

Be it resolved by the legislature of the State of New Mexico:

That the following amendment to the Constitution of the State of New Mexico is hereby proposed to be added thereto as a new Article to be known as ARTICLE XXIV and entitled:

CONTRACTS FOR THE DEVELOPMENT AND PRODUCTION OF MINERALS ON STATE LANDS.

to be submitted to the electors of the State at the next general election, when and after the Congress of the United States shall consent thereto.

ARTICLE XXIV

Contracts for the Development and Production of Minerals on State Lands.

Leases and other contracts, reserving a royalty to the state, for the development and production of any and all minerals on lands granted or confirmed to the State of New Mexico by the Act of Congress of June 20, 1910, entitled "An Act to enable the people of New Mexico to form a constitution and state government and be admitted into the Union on an equal footing with the original states," may be made under such provisions relating to the necessity or requirement for or the mode and manner of appraisal, advertisement and competitive bidding, and containing such terms and provisions, as may be provided by Act of the Legislature; the rentals, royalties and other proceeds therefrom to be applied and conserved in accordance with the provisions of said Act of Congress for the support or in aid of the common schools, or for the attainment of the respective purposes for which the several grants were made.

In that this is not a partisan issue, as evidenced by the signatures of the chairmen of both political parties, voters should gladly vote for the amendment. It is estimated that not less than fifty million dollars in revenues will be the part for the state institutions from leases on state lands, and this should lower taxes in the future.

Vote for the Amendment

and break the deadlock that now exists; get more development; get more money for our schools, and help to have better schools in the future—with a lower rate of school taxes.

Both Political Parties Ask You To Vote For This Amendment

**THREE MILLION
AND WOMEN HAVE
REGISTERED FOR NOV. 6**

WASHINGTON.—Forty-three million men and women, by far the largest number ever registered, have participated in the battle for the presidential election on November 6.

The registration marks an increase of 1,000,000 over the vote cast in 1920 and makes the figures of 1924 appear small in comparison to coast and from the Rio Grande to the Rio Grande gathered by the Associated States of America for the determination of voters to participate in the contest of 1928.

The conservative estimate based on the 1924 vote at 15 per cent. The increase in actual votes would be about six million over 1924. This makes the estimated vote more than 10,000,000, compared with 29,000,000 four years ago.

Women Voters Increase
The surprising results noted in the tabulation is the tremendous increase in the number of qualified women voters. Political leaders and state officials generally believe the women will hold the balance of power. Every state has shown a startling jump in the registration. It has been impossible to ascertain the total number of women entitled to vote but, based on known segregation of registration, it is estimated that in the 1924 election women will cast between 15 per cent of the total vote. The percentage probably will be higher in towns and rural sections.

**ALFALFA SEED MOVING
FASTER THAN LAST YEAR**

Alfalfa seed has been in demand for more than last year due to most higher prices to growers and relatively small size of the crop. The U. S. Bureau of Plant Industry estimates that 30 per cent of the crop that was planted in 1924, up to October 16, in comparison with 30 per cent in 1923, and 40 per cent in 1922. In general growers have been free to sell at prices higher than usual as prices have been the highest in eight years. The average prices for common alfalfa seed in October 16 were offered in Utah (\$22), east-western (\$20.50) and western (\$20.25) and the low western New Mexico (\$14.50). Prices were higher than last year in all sections and averaged \$18.50 per bushel, basis clean, compared with \$14.50 last year and two years ago.

The most rapid movement occurred in California and New Mexico; and in Nebraska and Montana. Movement was faster than in important districts except in California and eastern New Mexico.

Imports and exports showed a marked increase from those of last year. The total amount of alfalfa seed July 1 to July 15 amounted to 133,100 bushels compared with 10,400 bushels in 1926, 132,300 in 1925, 299,000 in 1924, 3,247,200 in 1923 and 4,639,700 pounds in 1922 in the same period. Exports of alfalfa seed for September amounted to 119,000 pounds this year, 87,829 in 1923, 822,222 in 1926; 141,241 in 1924; and 103,555 in 1923. Exports for the months ending September 30 amounted to 790,696 this year, 993,000 last year, and 309,575 pounds the year before.

COTTONWOOD ITEMS
Alma Bradley, Reporter)

W. R. Clarke, of Topeka, Kansas, was at the home of her sister, Mrs. W. L. Bradley.

Georgia Knowles, of Carlsbad, was at the home of her sister, Glenn O'Bannon Sunday.

Mrs. H. B. Worley and her sister, Mrs. E. Nelson in Carlsbad last week.

Mable Vowell and Katie Cowan entertained their pupils with a party at the school house Friday afternoon. Many Halloween games were enjoyed. Refreshments of soda pop and chewing gum were served after playing the games.

Ruby Jenkins, teacher in the Cottonwood school entertained her pupils and a few invited guests with a Halloween party Friday at the home of Mrs. W. L. Bradley. The evening was spent in many amusing games, refreshments were served following guests: Misses Alma Ankerston, Nona Hill, Goldie Saline Watson, Nella and Lorraine, Edith Wilson, Ruby Kenner and Hattie McCauslan, Frank, Euphemia Hill, Alma and Mrs. Bradley, Messrs. A. D. Hill, Dickson, Wayne Norris, Carl, Doyle and Howard Hill, Clyde and Claude O'Bannon, Kenner, Woodrow and Wilson and Billy Bradley.

LEE TIRE SALES CO.

LOCATED AT 112 West Second street, Roswell, New Mexico. Feature auto repairing, tow car, tires, tubes, gas, oil, auto parts. "Honesty Their Motto." Under expert management. 24 hour service. Telephone 94.

Featuring first class auto repairing, high grade oil, gas and auto parts, enables the Lee Tire Sales Garage to lay claim to operating a garage and service station that is rendering service in giving value received for your money. When our readers are in need of auto repairing, gas, oil or tires, we call their attention to this garage and you will be surprised at the low cost, the immediate service, the appreciation shown and the high quality of the goods they handle. Their garage and station is among the most modern and up-to-date in the vicinity. The establishment is equipped with water and air and the helper will fill up your radiator and tires, which is part of their free service. Appreciation will be shown for every purchase, no matter how small. Your windshield is cleaned the minute you drive up, and without your asking.

The Lee Tires Sales Garage features tires and tubes that speak for themselves. They have one of the most thorough and systematic greasing systems. Most welcome to many patrons is the courtesy shown by this well known establishment. They also do tire and tube vulcanizing and carry a complete line of automobile accessories, glycerine and alcohol compound, and many other necessities for the motorist. They extend a cordial invitation to our readers to visit their garage and service station and try their service, knowing that you will be so well pleased that you will become a regular customer when in Roswell.

We deem it necessary in this review of the county to mention this well known establishment and consider them an asset to the community. Advertising

ACME SIGN COMPANY

LOCATED AT 418 1/2 North Main street, Roswell, New Mexico. Has merited the name as "Leaders." The firm which paints the signs of the times. A real metropolitan sign painting studio. Painters are real artists. Invaluable in their service to the community. Members of the firm are respected citizens. Telephone 356.

Today, when our historians wish to trace the lives of Egyptian Pharaohs, who lived thousands of years ago, they accomplish it by laboriously interpreting the signs on the walls of their cities. Other records have gone down under the press of time and the elements; these signs remain. Perhaps five thousand years hence, when the historians of the future have delved into the records of our own almost forgotten race, they will trace some of them by the signs which guided people in their daily activity. If such be the case, we venture that the signs of this popular local studio will be preserved because of their outstanding characteristics and artistic qualities.

All speculation aside, this community is extremely fortunate in having here a sign company which does work of such high quality, for the value of painted and electric signs in the advertising and commercial world is becoming more and more realized. Think of any ordinary commodity

that you buy. Why did you buy it? because you saw a certain quality of it portrayed on some sign which appealed to your eye because of certain outstanding artistic qualities.

This firm does all sorts of sign work. Their signs are real artistic creations. But these sign painters are not only artists but are psychologists. They have that understanding of psychology of attention and association, to the degree that they have the grasp of just what will bring to the focus of attention in the individual's mind the exact thing that the seller of the product of the idea wishes to impress; they know how to make their signs appeal.

The men connected with the sign company are thus rendering a real service to the community in their business. Time and again they have contributed to the welfare of the community by giving their efforts toward the promoting of some good cause.

—Paid Advertising

BON TON SHOP

LOCATED AT 309 1/2 North Main street, Reswell, New Mexico; Is an up-to-date millinery and hat shop in every particular and carries a large stock of millinery for the accomodation of the ladies of this section. The Manager, Mrs. Palmer, is held in the highest esteem throughout community circles. Telephone 436.

This is one of the leading millinery shops in this section and has the reputation of offering chic millinery, and the many smart hats that have been turned out from this efficient shop have been the subject of much favorable comment among the leading ladies of the county. They purchase their stock from the leading establishments of the east and, as a consequence, it is strictly up-to-date. They are milliners of marked ability and taste.

At this time they are offering the newest of the season's styles in all the popular shades and of the best quality possible to obtain. The prices are most reasonable and are very consistent with market conditions. Here you will find garments for

children, women and misses in all sizes—a large stock of ready-to-wear. The customers invariably find this establishment has provided a large assortment from which to choose.

It has been the policy of this popular shop to adopt for their patrons the newest styles just as soon as they are recognized and accepted by the fashion leaders of the country. Because of this fact, they have won a well-merited name for themselves as having a shop that would do credit to a much larger city.

In this review it affords us great pleasure to recommend this firm to our readers and to suggest that this is the logical shop when seeking any thing in the millinery line.

THE HAGERMAN MESSENGER

Hagerman, N. M.

IN BEHALF OF

HARRY COWAN

Candidate for County Commissioner, Third District, Chaves County

Mr. Cowan is the candidate of the Republican party, but he is a great deal more than a party candidate. He is the candidate of his neighbors and friends, and a vast following of those who vote independently. To the voters of Chaves County who do not know Mr. Cowan personally, the following facts are presented:

Mr. Cowan has been a resident of Chaves County for thirty-two years, practically all of which time he has resided at Hagerman. During all of these years he has actively engaged in farming—making a living by the sweat of his brow—and despite the ups and downs of the industry he has succeeded in his farming operations and now owns a large farm near Hagerman. But he has also found time to identify himself with community life, and has perhaps given more of his time to public and semi-public affairs than any man in Chaves County, these activities covering a period of more than twenty years and with very few exceptions his public services have been without remuneration.

These public services include Justice of the Peace, local Board of Education, County Board of Education, Budget Commissioner, Selective Service Board during the war period; and he has also served as officer and director in various local business organizations, including the Hagerman Irrigation Co., and the Hagerman Alfalfa Growers Association. And in all of these places Mr. Cowan has proven himself a valuable, public-minded citizen, and always enjoyed the fullest confidence of his colleagues and of the public.

In presenting Mr. Cowan as a candidate for County Commissioner, his friends urge his election as a matter of vital importance to Chaves County. His qualifications are of the highest, his personal and business integrity are unimpeachable, and his devotion to the public welfare is acknowledged by all who know him and proven by the conscientious performance of every public duty imposed upon him.

As a member of the Borad of County Commissioners, his every act would be prompted by a service of right, based solely on, and in the interest of the public welfare.

Knowing his high personal character, his understanding of public affairs and the unswerving devotion to the things that are right, Mr. Cowan's friends and neighbors urge the citizens of Chaves County, irrespective of political affiliations, to cast their vote for him for County Commissioner from the Third District.

ANIMAL HOSPITAL

LOCATED AT 1108 North Main street, Roswell, New Mexico. Under the direction of a well known veterinarian. Animals restored to health. Under care of Dr. H. Crowder. Office Phone 987-J; Residence 1238.

Dr. Crowder has a complete animal hospital with boarding kennels and cats, and when left in your care you can rest assured that your animals will be treated properly. The doctor's professional in his line is only the latest scientific in medicine. He is a veterinarian of remarkable ability. He has called upon veterinarians for them, and animals in his care now testify to his skill. If you have a sick or injured cow, sheep, dog or cat, call this well known

veterinarian by phone at once and the animal will soon be restored to perfect health. The doctor's charges are very reasonable and his hospital is one of the most sanitary of its kind in the state of New Mexico. The doctor extends a cordial invitation to those interested to visit his hospital and in this review of the county we are more than anxious to mention this well known doctor to all our readers and to say that his institution is a great aid toward making Roswell a better and more desirable place in which to live.

WHOLESALE CANDY CO.

B. F. ST. JOHN Candy Company, located at 104 Pennsylvania Avenue, offers the public fine assortments of chocolates, candy bars, bucket candies and chewing candies. Prompt delivery service. B. F. St. John, Mgr. Telephone 505.

There is no one firm that has done so well in the keeping of Roswell as the B. F. St. John Candy Company. The well known concern carries a stock of practically every variety of candies and confections. The experience of the manager has enabled them to select the best grades of stock and to give the trade that has no superior. It is very convenient to the stores of the state as they carry and get supplies which might take quite a time to get from some distant point. Those familiar with the candy and by experience have known the various features that make it so successful. During the time they evidenced their wisdom in large quantities at the right time, and are able to offer the people the best quality of goods and the

most accommodating service. They always give "Instant Service." This means what it says and if you call at this place or call them over the phone or drop a letter telling what you want, they will instantly see that the order is filled and on the way by the quickest transit method. It will be securely packed and ready for use on arrival. It is not strange, then, that the patronage is ever increasing. When they tell you about candies you can depend upon the advice, for in these parts they are considered an authority upon the subject. We wish to direct your special attention to this establishment as one of the distinctive features of the community. In making this review we wish to compliment them upon having not only superior products to offer their patrons, but also a superior service and one that is ever courteous and satisfactory. —Paid Advertising

PALACE TRANSFER CO.

LOCATED AT 108 East Second street, Roswell, New Mexico. Is one of the leading transfer companies of this community. Operating on a plan that guarantees satisfaction to each and every customer. Short hauls, long distance moving, packing and storing. Under the management of Mr. G. A. Yarbrough and Mr. Rapp. "Service With A smile." Telephone 36.

The building of hard surfaced roads in long stretches throughout the United States gave rise to the modern trucking companies, both in hauling of produce and in overland household goods moving. Those who deal with this firm are all satisfied customers. Moving and storage of household goods is a scientific business that calls for a high degree of efficiency. Men must not only be strong—they must be trained so that your valuable and delicate pieces of furniture may be protected and not suffer so much as a scratch in the hauling and handling. That is why we say storing and moving goods is a business and that is why they do it. You can stop worrying if you call them. Their facilities save you money, and there is satisfaction, too. They have in their employ men thoroughly experienced in the packing of household goods—and their satisfactory service is attested by

the number of calls which they receive from out of the city for their packers to come and prepare furniture for shipment. They are a thoroughly responsible concern. You need not carry your own risk for careless handling of your own furniture. It will pay you to be certain of such responsibility when giving orders for moving. Their entire organization is well trained to render complete service to families moving locally from one house to another—also for overland hauling by truck—and for packing for railroad shipments. When you ship by truck, household goods do not require packing—and invariably arrive at their destination in first class condition. Such service will prove a saving to you and is the most satisfactory means of transportation. Truly a responsible firm, willing to assume responsibility. —Paid Advertising

AMENDMENT IS VITAL ISSUE IN THE COMING ELECTION NOVEMBER 6

One of the most vital issues in the coming election in the state, and one which is of great importance regardless of which party triumphs at the polls, is the amendment relating to the leasing of oil and gas lands, according to many of our leading attorneys. This amendment would provide that the state legislature can pass an act regulating the manner of making the leases—the revenue to continue to go to the schools. The bone of contention seems to be a requirement in the original law, drawn up in the Congress of the United States and intended to apply to grazing lands, that lands be advertised for ten weeks before being leased. This has proved an impossible requirement in the oil districts where action is fast and values fluctuating, and the land office under both administrations has interpreted the law in such a way that leases have been made without advertising. In this action they have been supported by the legislature and the courts but now that oil lands are acquiring real value a question has been raised as to the validity of these leases. Attorneys state that failure to pass the amendment and the act, may result in over two million acres of land being tied up in litigation, a great

slowing down of oil development, and a loss of income from new leases and renewals. It has been pointed out that most of these leases were made to individuals and have been assigned to many persons and operators throughout the United States. Both political parties have gone on record in favor of the amendment, through statements from their state chairman.

PAT TAUGHT HIM An Irishman came into the office of the president of the Illinois Central Railroad one morning and said:—"Me name's Casey. Oi Worruck out in the yard-rds." Then he paused before saying: "Oi'd like a pass to St. Louie." "That is no way to ask for a pass," said the president. "You should introduce yourself politely. Come back in an hour and try it again." At the end of the day back came the Irishman. Doffing his hat he inquired, "Arre yez the man I seen before being leased?" "I am." "Me name is Petrick Casey. Oi've been workin' out in the yard-rds." "Glad to know you, Mr. Casey. What can I do for you?" "Oi've got a job an' a pass to St. Louie on the Wabash. Ye can go to hell."—Everybody's Magazine.

WHEN YOU TRADE In Roswell, go to the little store for men just back of the First National Bank. There you will find a good assortment of standard merchandise. 43-2tc

HIGHWAY ENGINEERS SURVEYING ROAD FROM MONUMENT TO JALISCO

ROSSELL.—Highway engineers have been sent out of the district highway office here to survey a road from Monument to Jalisco and thence on to the New Mexico-Texas state line. Lea county recently voted a bond issue of \$50,000 to construct a road north and south through the entire county. Representations were made to the State Highway Department with the result that the Highway Department has promised cooperation with the county in getting the road located and built. The engineers of the survey party are under orders to rush the work with the utmost speed. The cumulating increase of traffic over Lea county roads as a result of the oil boom in that section has made a new road a necessity. If the oil development keeps up it will be but a matter of a short time before Lea county will have roads radiating in every direction. In the past, this county has been a vast expanse of rolling cattle country with roads few and far between.

War's Coinage of Words Doctor Vizetelly has estimated the number of new words the World War added to the English language to be less than 10,000.

Optimism and Vision "You can't be optimistic if you have misty optics," remarked a prominent eye doctor.

SMITH PEOPLE DRAG RELIGION INTO CAMPAIGN

ONE QUART LAW EXPLAINED BY REV. BAKER

(By the Republican State Central Committee)

"Some of the people say that if Governor Smith is elected president, the Pope will be president. Well, that is good enough for me, for that would be far better than the republican administration we have been having.

"These were the startling statements of Bryan Johnson. One of the speakers at the Smith-Robinson banquet held in the Franciscan hotel here Saturday night and which was attended by 400."

The above is from the Albuquerque Morning Journal, October 29, 1928.

Mr. Bryan Johnson, is the organizer of the Smith-Robinson clubs, employed by the national democratic organization.

The democratic organization has accused the republican party of dragging the religious issue into the campaign which accusation is false.

The above shows the strenuous efforts made by the Smith adherents to drag the question into the campaign. Such efforts deserve the condemnation of all fair minded people.

STORY OF ONE QUART LAW

Reverend Rufus C. Baker, District Superintendent of the Methodist Episcopal church for New Mexico, and state superintendent of the Anti-Saloon League, has put an end to the scurrilous attacks upon Governor Dillon for signing what is now generally termed the "One quart law."

Mr. Baker was present at the Legislature during the time the bill was under consideration. The bill that the temperance workers of the state really wanted was the one vetoed by Governor Hannett, after it had passed the previous Legislature. The present law was the best that could be secured, and Governor Dillon signed it because it gave a law that Wayne B. Wheeler, the counsel for the Anti-Saloon League for the nation, pronounced the seventh best in the whole country.

QUART NOT LEGALIZED

That it legalizes the ownership of a quart of liquor is not true. It prohibits having for sale a single drop of intoxicating liquor. It placed the burden of proof on the owner of even a gill of liquor to show that it is not in his possession for the purpose of sale.

Mr. Baker's statement is clear and authoritative and puts to shame the people who have spoken of the governor as "One-quart Dillon." It shows that the governor, as a consistent advocate of prohibition, did the very best for the cause that was possible in the circumstances.

Mr. Baker's letter follows: "I believe that facts and fair play have a part even in a heated political campaign, and for that reason am writing you of my knowledge and estimate of the situation as touching the prohibition enforcement code enacted by the last session of the New Mexico State Legislature.

"Certain political speakers and writers have been making violent attacks upon the prohibition law. There is just one provision in the law that so far has been attacked by them.

"That provision follows: "Provided, that nothing in this section shall authorize seizure or confiscation of liquor, or a conveyance where such liquor does not exceed one quart, unless the same is being transported for sale."

"That provision is attached to Sec. 5 of this law, which provides for the seizure of intoxicating liquors and all vehicles in which the same are being transported.

NOT IMMUNE FROM ARREST

"Based upon that one section, political speakers and writers have been indulging in the extravagant assertion that this law protects the bootlegger and makes him immune from arrest if he has only one quart of liquor. The fact is that the law does not provide that a bootlegger can have in his possession one quart or any other amount for sale. It does provide that where a person has in his possession one quart of intoxicating liquor, which is not used for sale or held for that purpose, or being transported for the purpose of sale, it cannot be confiscated; but the law plainly says that any liquor, or vehicle conveying same, whether it is a quart or less than a quart, can be confiscated and the offender prosecuted, if the same is being held or transported for the purpose of sale.

LAW BEST TO BE HAD

"I was present at the state Legislature collaborating with the prohibition forces of the state in securing the passage of an enforcement code when this law was passed. I read the copy of this law before it was presented to the Legislature. I noted then this provision which is causing so much concern and debate. That provision was not put in at the request of the present governor, but was put in as a concession to

obtain its passage. The prohibition forces knew the temper of the last Legislature and consented to the insertion of this provision, knowing that without such concession the bill would be defeated, and we would find ourselves without a prohibition enforcement code as we were when the former governor vetoed our bill two years before. With that one single exception the law is a splendid one. The late Wayne B. Wheeler, counsel for the Anti-Saloon League, pronounced this the seventh best in the nation, even with that provision in it. And not a semblance of evidence has ever been produced to show where this provision has been the means of protecting a single bootlegger since its passage.

LAW USED EFFECTIVELY

"This law is not all the prohibition forces of the state would like. It is not as good, for example, as the law vetoed by the former governor two years before its passage. But compromise in practical politics has always had its place. The prohibition forces of the state are not fully satisfied with the present law and will work for a better one. But in the meantime we have in the present law one that can be and is being used, and used effectively, where those being charged with its enforcement care to put its provisions to the test."

Respectfully yours,
(Signed) Rufus C. Baker

GAME AS AN ASSET

On every farm is a force of workers who receive no pay, yet, without their help, crops would be decidedly smaller—in fact, it is doubtful if crops could be raised if these tireless workers went on a strike for a few years. These workers are the birds whose daily bill of fare consists largely of destructive insects. A number of birds are classed as game birds which, besides keeping down the insect population, serve another purpose as food for the farm family during the hunting season. Aside from the very considerable food value of game birds, the economic value of the feathered tribe to the farmers of a number of the states can be expressed only in terms of millions of dollars because of their activities in controlling insect pests and destroying the seeds of noxious weeds.

A. Willis Robertson, chairman of the Virginia Commission of Game and Inland Fisheries, calls attention to a statement to the effect that each insectivorous bird eats 100 insects each day, "which would be 18,250 for a six months period," Mr. Robertson reminds. But, obviously, that number is really inconsequential compared to the millions of destructive progeny which would spring from the insects devoured by a single bird.

Taking Georgia as an example, because of the survey conducted by Commissioner Peter S. Twitty, of the department of game and fish, it is found the wild life of the state has a food value of many millions. Reports on the game taken during the 1927-28 season show it is worth \$5,236,250. That the estimate is conservative is apparent from considering that rabbits were valued at 25 cents each, while deer were estimated to be worth \$30.00. The species of game included quail, doves, ducks, snipe, wild geese, woodcock, turkeys, marsh hens, rabbits, squirrels and deer. As to numbers taken by hunters, Commissioner Twitty's report lists more than five million rabbits and 750 deer among the game animals, while the game birds range from 9,000 wild turkeys to nearly five million quail. Game of all kinds totaled 15,678,750. Naturally, a very large proportion of the Georgia game was found on the farms of the state, a situation which holds good to even a larger extent in various other commonwealths.

Another phase of the game situation which, too often, is overlooked is the value of good shooting in drawing strangers to a locality with consequent spending of large sums of money for hotel and other accommodations, resulting in increased volume of purchases of farm products and otherwise putting considerable money in local circulation, a thing from which the entire community benefits.

Some idea of the value of attracting tourists by means of scenic and fishing and hunting inducements may be gained from consideration of the fact that visitors to Minnesota expend \$65,000,000, those who visit Colorado leave over \$60,000,000 and other tsates enjoy annual incomes as follows: Florida, \$70,000,000; Wisconsin \$27,500,000; Michigan \$40,000,000; South Dakota, \$22,000,000.

In parts of Pennsylvania, farmers, according to report derive a greater income from boarding sportsmen during the hunting season than they make clear from the raising of crops.

BAILEY CLEANING WORKS

LOCATED AT 420 North Main street, Roswell, New Mexico. Featuring tailoring, cleaning, alterations, hat blocking and repairing. Mail order department for out-of-town customers. Under the personal direction of Mr. Bailey. Telephone 890.

This establishment has a reputation as a cleaning plant that is built to last, having up-to-date machinery installed for the cleaning and pressing of the most delicate fabric.

They will call for your clothing and return them to you clean and fresh at the specified time. The modern process used by this firm cleans thoroughly and restores your garment to its original shape and fresh appearance. The service received at the plant assures the wearer of attractiveness, poise and self confidence. They take the same painstaking care with your clothing as they would their own.

They have a mail order department at this well known establishment for out of town patrons. Meeting with instant approval, the work of this

cleaning hat-blocking and tailoring plant is winning a large patronage from the surrounding country and with the dawn of prosperity the future will find this one of the busiest beehives of industry.

The manager of this plant has devoted years of study to the cleaning business and understands it thoroughly. You can rest assured that your cleaning worries could get to no better hands. Giving them a call is an investment in good appearance.

In making this review we are glad to compliment the management upon the position they occupy in the business world and to say that their commercial success is well merited and we believe that this establishment is, indeed, an asset to the community. Advertising

OWL DRUG STORE

LOCATED AT 220 North Main street; Is a center in the drug, prescription and druggist sundry trade of this part of the country, carrying many specialties—such as stationery, kodaks, toilet preparations, rubber goods, etc. Under the management of a druggist who knows the profession from A to Z. Telephone 41.

This store, because of the wide variety of departments, is an institution in the life of the people and a popular place for shopping.

They have a full line of drugs, chemicals, druggist sundries and practically every proprietary medicine known. These are all secured from the very best houses and are pure and tested. The fact that the manager had a thorough training in the profession makes him very careful in the filling of all prescriptions, to see that the compounding is correctly done, proper directions are attached and everything is exact.

Perfumes and toilet articles are carried in great variety. No matter whether you desire the importation from France, the orange blossoms from Florida, or the sweet scent of any other field roses, lilies or violets, you will find they have them all and a selection is easy.

Cigars, cigarettes, tobaccos, stationery, rubber goods and many specialties make the store a necessary shopping place for the many people.

Men of the surrounding territory drop in here to secure their favorite smoke, ladies the latest powder. Kodaks of all sizes, films and supplies for amateur photographers are a feature of the place that makes it a center for the people of the surrounding territory.

In making this review, we are glad to compliment the Owl Drug Company as druggists and at the same time business and professional men, who keep their store right abreast of the times, both in the way of appointment and stock. Advertising

THE WINTER BRIDGE PROGRAM OF HIGHWAY DEPT. IS UNDERWAY

SANTA FE.—The state highway department reports that the heavy pre-winter bridge building program is under full steam ahead with bridges being finished every few days. Four bridges under this schedule are complete with seven under construction. Those bridges under construction are: the Escavado Wash bridge on the Pueblo Bonito-Thoreau road; Gallina-Cuba just starting by crew who completed the Rio Negro bridge; the Grants bridge; Cerrillos bridge at Los Cerrillos, largest bridge being built by state forces, solely; Rio Puerco bridge west of Belen nearly complete now; Jemez bridge No. 2; and Cuba-Farming-ton bridge.

The same report carries the information that a survey of the roads of the state show them to be all in first class condition for what is expected to be the largest winter tourist season yet experienced. The new oil sections coupled with the largest building program yet done by the state put New Mexico's roads in a finer condition than ever before. It is hoped that the touring public will realize that New Mexico offers an unexcelled winter resort privileges. Tourists coming to the state this winter will find facilities which from their angle will prove this contention.

EXPERIMENTS IN THE ERADICATION OF WEEDS

Tests are being made by project farmers, with the cooperation of county agent W. A. Wunsch, in the eradication of weeds and grass on farm lands, using sodium chlorate spray. Two tests now under way are on the farms of J. R. Ogden and Rich Carter, in the Loving section, and it is planned by Mr. Wunsch to make a test also, with Mr. Foster, project superintendent, on tulies, salt cedar and weeds along drain ditches on the project.

In these tests a pound of sodium chlorate salts is used to a gallon of water, and about 100 gallons of water are used to an acre. This costs about \$12.00 to \$15.00 an acre, and is more effective and cheaper than other methods. It kills Johnson grass roots four inches below the surface in about ten days, and also is reliable in ridding fields of Bermuda grass, goldenrod and other noxious weeds.

In tests already applied, heavy plots of Bermuda grass eight inches high have evidently been thoroughly killed.

The treatment is not injurious to the land, and is really considered beneficial, since it leaves the roots and stalks of the grass and weeds in the ground for humus value, and looks like a good and cheap method.

If you have a house or room for rent, try a messenger want ad.

W. T. NEELY, D. C.

LOCATED AT 911 East Second street, Roswell, New Mexico; is a prominent professional person who has a clientele that extends for many miles. A man of wide experience who has met with marvelous success. Telephone 314.

A man of wide experience and broad professional attainment, who has met with wonderful success. In the professional life of this part of the state there is none who have attained a more successful career than Dr. Neely, who is recognized as an authority on Chiropractic.

Daniel Webster defines Chiropractic as a philosophy of science and art of things natural, and a system of adjusting the spine by hand for the elimination of the cause of disease.

Dr. Neely does not believe in operations unless necessary, which he O. K.'s. The spine is an index to your health and removes the cause by relieving the pressure on the nerves. Dr. Neely's slogan is: "If the spine is right the man is right." And any one who is feeling in the

best condition should call around and have an examination, for an adjustment or two, taken in time is a powerful preventative and may save you much trouble and pain.

Dr. Neely is noted for his quick and correct analysis. The general satisfaction expressed by his clients and the great demand for his services constitute a well merited tribute to his efficiency and conscientious methods.

We wish to compliment the doctor upon the very valuable work he is doing in this section, and we find him very anxious to back any movement leading toward the progressive development of the county. We are glad to compliment him upon his successful career and refer this well known specialist to all our readers without hesitation. Advertising

PURITY BAKERY CO.

LOCATED AT 102 South Main street, Roswell, New Mexico, is one of the cleanest and most sanitary institutions in this section and whose high quality bakery products are finding a ready sale in this community; featuring the famous Purity and Golden Krust bread. Under the supervision of Mr. R. H. Harlan. Telephone 700.

On the whole food scheme of the home, there is no article that deserves more attention in its preparation than bread. Through many ages of man's development, it has occupied a place of distinction in food value. It is therefore fitting that the quality of the ingredients that compose it and its method be given the careful attention it deserves.

Never before in the history of this city have its people manifested such whole-hearted enthusiasm over a food product as they have over the bread from the Purity Bakery Company.

The reason:— Because their bread is a quality bread, made from the best materials in this modern bakery equipped with the most modern machinery available.

Bite into a slice of their Golden Krust bread if you want to know

how good bread can be. It has a mighty appetizing flavor—a flavor that put it in a class by itself.

This bread calls for the best materials—the choicest flour, doubly tested for food value, pure milk and kettle rendered lard, refined granulated sugar, pure crystal salt and fresh yeast—all materials which make it your most nourishing food. Their bread is slow baked, the flavor saying in the loaf.

Going upon the theory that a smile is as deep as a frown, the manager always has a cheering handshake ready to greet the casual customer or the one who comes on business—both are met in the same cordial manner.

He is never too busy to pass the time of day with you and to chat with an old friend who may be a visitor. These elements in his disposition could not do otherwise than make him popular. Advertising

THE MAYTAG SHOP

WITH OFFICES located at 113 North Main street, Roswell, New Mexico. Are direct dealers for the most famous Matag Washer with cast aluminum tub, which is being placed in homes all over this section and is relieving the ladies of much household drudgery. The very latest invention of the day. They will be glad to demonstrate in your home, and offer it on easy terms. Have sold many in this territory. Factory now turning out 1250 Maytags a day.

The Maytag Shop is strictly in accord with the spirit of the times. With the advance of woman into a larger sphere of life there came the need of ways to alleviate her household work. First that of hiring help was the easiest and simplest. With the coming of the age of the scarcity of labor and tendency of the times toward unsettled labor conditions, came the necessity for inventions to take the place of the haughty maid and the bucking wash woman.

Many Maytag washers have been sold in the valley and are giving the best satisfaction. Many are in use in this county, and the company will give you references of local people whom you can interview about the matter.

Among the leading Maytag features are faster work, cleaner clothes, with a 23 gallon tub turning out more clothes per hour, takes up less floor space than any other washer being only 25 inches square, cleans

itself, has a cast aluminum tub which will not corrode, rot, swell, warp or split, can be easily adjusted to any height, clothes can be taken out or put in when running, has all-metal wringer with a self adjusting instant tension release, its versatility from the fact that it can be operated by electric current or with a built-in gasoline engine.

The manager and assistants are over this territory and will be glad to demonstrate to anyone the advantages of the Maytag.

It is not surprising then that it should have such a successful career in business or that it should now be one of the leading appliance establishments of this section of the country.

We wish to compliment the Maytag Shop of Roswell upon the up-to-date establishment and the admirable policy in which it is conducted. Advertising

CLAIRVOYANT

DR. LA ROSE, located at 109 West Fifth Street, Roswell, New Mexico, in the Jacobson Apartments, is recognized as the world's greatest authority on Clairvoyance and Palm Reading. Office hours from 9:00 A. M. to 8:00 P. M. Private Parlors. Consultation Free. Phone 1205.

Known as the greatest Clairvoyant and Palmist of all time, Dr. La Rose has met with wonderful success in this vicinity. The doctor can tell you anything pertaining to your present or past life, anything regarding business transactions; date of your marriage; number of children. Your complete life history will be laid before you. This man, with his great power, has benefited many thousands of people throughout the country. He can call you by your first or last name.

Dr. La Rose's success is due to the fact that he has helped many thousands of people who are willing to testify to his unusual power and ability. He has reunited many unhappy families after consultation with him. Unless you receive perfect satisfaction, the doctor makes no charge.

In this review of the county we are more than glad to recommend this well known clairvoyant to all our readers, and to say he has benefited a great many people in this

LIVE STOCK NEWS

WINTER CARE OF FLOCK OF SHEEP

A great deal of the success with the lambs in the spring depends on the feed and care given the ewes during the winter.

If ewes are to develop good lambs they must have good feed and plenty of exercise. This does not mean that they should be fat. The aim should be to keep them in good thrifty condition. If plenty of roughage is available, the ewes, as a rule, will not need grain feed until about six weeks before lambing. Alfalfa hay is one of the best feeds for breeding ewes, writes Turner Wright in the Dakota Farmer. The clover hays are also good and should be used when alfalfa is not available or they can be mixed with the alfalfa for very good advantage. The run of a stalk field in the fall and early winter, and the use of corn stover or sorghum and similar fodders will help to lower the cost of winter keep, but as these feeds supply only a small amount of growth materials, the ewes should not be forced to subsist on them alone, as weak lambs will likely be the result. Used in connection with alfalfa or one of the clover hays, however, they make a very good winter ration.

Watch the flock closely and if any of the ewes begin to get thin in flesh, start feeding those ewes a small amount of grain each day. All the ewes in the flock ought to be put on a light grain feed about six weeks before lambing. About a half a pound a day of a mixture of about two-thirds oats and one-third corn or barley for each ewe is very good for the ration. If one is fortunate enough to have a good wheat or rye pasture available, the ewes should have access to it at all times when weather conditions will permit. No other winter feed gives quite such good results.

A supply of good water at all times is an important consideration. If the water can be heated in very cold weather just enough to remove the chill, it will be better for the ewes.

Many shepherds make the mistake of housing their flock too closely in tight barns during the winter. A mature sheep does not need much protection from cold as its fleece will keep it warm enough. A good shed, open to the south, will serve the purpose of winter shelter very well. If this shed, or the yard surrounding it, opens into a large pasture, the run on this pasture every day will add to the health and thrift of the flock.

Suits of Print Velvet Ultra Chic for Fall

There is no smarter suit for fall than that of print velvet. These new velvets which enter into the making of the jacket-and-skirt suits register for the most part small repeat patterns which in their coloring and that of their backgrounds seem to have captured autumn's richest browns and greens, deep wines and copper shades together with rust tones and yellow, also handsome blues and mauves. An intriguing blouse adds the final note of chic.

BUSY BEE CAFE

LOCATED AT 318 North Main street, Roswell, New Mexico; Is a popular cafe which is an Epicurean rendezvous twelve months of the year, and is first the latest in all that pertains to delicious home-cooked foods and cafe delicacies. Is one of the firms that operates under a policy dedicated to a greater Roswell and vicinity. Owners are held in highest esteem throughout business circles. Telephone 281.

This cafe is one of the popular establishments of the city. The excellent and courteous treatment they are giving the people is winning for them a large patronage, of which they may well be proud. The place is equipped with the latest and best fixtures and perfectly appointed. It is cool and comfortable in the summer, never hot and sultry, and they have something that will put you right with the world, for this is an up-to-date place and serves its patrons in all kinds of weather.

The proprietors are among the live wire business men and the place truly gives the town a metropolitan air.

Twelve months out of the year this well known establishment is one of the most popular social centers of the community, where the best food is to be had.

This establishment is one of the features of the life of the community and aids in making the city

a more progressive and desirable place in which to live.

The grill is one of the social centers of the country. All of the cafe dainties make their first appearance here, and it is no exception to say that this popular establishment surpasses many in the larger cities, both in service and quality.

When the people who handle important articles of food and in which they are handled described above, it is safe to say that what they have to offer customers is the best that can be had.

Having gained a reputation for good business methods, satisfactory service and the best of products, the proprietors find foods in great demand and, as a consequence, their business is growing.

ROSWELL BUSINESS COLLEGE

LOCATED AT 122 East Fourth Street, Roswell, New Mexico; features complete business training in bookkeeping, shorthand, stenography and typing, English, stenographic work, Spanish, mathematics, chemistry; also commercial law course and accounting. Phone 516, residence Phone 1138, Mr. I. A. Witham, Manager.

City of Roswell is very fortunate in having a business college in its midst where a complete business training can be accomplished by an educator of marked ability at a very reasonable charge. Mr. Witham is a very prominent and efficient educator who is responsible for the success of many students in the city as well as those of the urban centers, and his many satisfied

graduates are willing to testify to his scientific methods and marked ability. How many people are today wishing they had taken advantage of the schools when they were younger. In the past, education was only permitted for the wealthy but as education advances and civilization increases, the modern Business College becomes more and more a necessity.

It only takes a moment to find out what this well known Business College can do for you, and this one little step may be the means of changing your whole career. Your studies can be arranged for a convenient time so you will not be compelled to leave your present position.

In making this review of the county, we are more than anxious to compliment Mr. Witham upon his successful Business College, which is the only one of its kind within a radius of 200 miles of Roswell, and to say he is a great aid to the community.

KIPLING'S

Roswell, N. M.

JETHRO VAUGHT SAYS JETHRO SMITH BECAUSE HE IS A CATHOLIC

(The Republican State Central Committee)

Mr. S. Vaught is making a strong appeal for votes for Governor Smith. We should vote for Jethro Smith because he is a Catholic. Mr. Vaught has a friend who is a thirty-degree Mason. That friend is a Catholic girl, and they have two boys who were brought up in the faith of their mother. To defeat Jethro Smith who is a Catholic would be to defeat the Catholic faith of these boys to become president, because no Catholic has ever been elected. Each would believe that Jethro Smith is a Catholic would be a defeat for those boys! So Jethro Vaught.

At the same token should Jethro Smith be defeated for Senator, it would be proof to any boy named Jethro that he never could hope to become a senator, because no one named Jethro has ever been a senator. "So, Jethro, just to prove to any dear friend that the name is Jethro that he has a chance to become United States senator, elect me to the Senate," Jethro Vaught in effect.

As it sounds, Jethro Vaught is as much right to appeal for Jethro Smith, because his name is Jethro, as he has to appeal for Jethro Smith because Smith is a Catholic.

JETHRO SMITH WILL BE DEFEATED

Senator Smith will be defeated, because he is a Catholic, but he offers nothing to the people of the United States, except, to make an earnest effort to repeal the prohibition amendment. He will make intoxicating liquor cheaper and more plentiful. Other Governor Smith nor Jethro Smith claims that Smith's liquor will make more money for the farmer, the drygoods merchant, the automobile dealer or for any of the trades or professions. Doctors have more patients, but none of them wants that kind of prosperity.

GROWTH OF CHURCHES

Statistics of the churches make it plain that the prohibition went into effect membership of the churches in this state has increased from forty millions to fifty-four millions, the value of church property has more than doubled within that period.

Increase in church membership since prohibition went into effect without even approximate parallel in human history.

Jethro Vaught—remember that the name Jethro has ever been used in the United States senator—says the democratic party has abandoned its principle of tariff for revenue, and that it now is for the protection of the livestock industry—sheep, meats and wool.

LACK FINANCIAL RECORD

Senator Smith, in his address of acceptance, said he was for revision of the tariff on the principles of the Underhill free-listed cattle, sheep, and wool. So did the Wilson-Gorman bill in the Cleveland administration.

The Wilson-Gorman bill and the Underhill bill are the only tariff bills passed by the democrats since the Civil War. Each of them brought ruin to the country.

Under the operations of democratic tariff the livestock industry was ruined. During the Cleveland administration a cow and calf brought an average of about \$5.00. Now they alone bring from \$35.00 to

experienced sheep grower says

that, under the Cleveland administration it took several fleeces, after paying the cost of sheering, hauling, sacking and packing, to pay for one package of Duke's Mixture.

Before the republican tariff bill of 1922 was passed, the price of lambs dropped to \$3.00, the price of sheep to \$5.50, and the price of wool to ten cents a pound. After the passage of the republican tariff bill protecting sheep and wool, lambs went to \$8.00, sheep to from \$11.00 to \$12.00 and wool thirty-five cents.

WOULD INVITE DISASTER

The election of Smith and a democratic senate and house of representatives would invite financial disaster.

Ask Jethro Vaught or John Morrow in what way, except by giving the people more and cheaper liquor, they expect the election of Smith to add to the prosperity of the country.

Hoover, Cutting and Albert G. Simms stand for the definite policies of the republican party which have always brought prosperity.

Smith, Vaught and Morrow stand for the democratic policies, whatever they are. Democratic control has always brought hard times.

You take no risk in voting for Hoover, Cutting and Simms who are candidates, respectively, for president, United States senator, and for

representative in congress.

You risk bringing hard times to the nation, in general, and to New Mexico, in particular, when you vote for Smith, Vaught or Morrow.

You say, Mr. Democrat, that you take no risk. So said several millions of democrats when they voted for Grover Cleveland and democratic candidates for the senate and house of representatives in 1892.

The record of the democratic party is not one to inspire confidence. (Political Advertisement)

RASCOB HAS 11 CHILDREN WHO DO NOT DRINK

NEW YORK.—John J. Rasco, chairman of the democratic national committee, has 11 children and none of them smoke or drink, he has been telling radio audiences this week.

Rasco, who favors modification of the Volstead act, says success in temperance in his own home has been due to education and common sense.

"It is an education founded upon love," Rasco asserts, "and therefore has been a success. Temperance can only be accomplished by education. It cannot be accomplished by snooping and by law."

WEDDING INVITATIONS—THE MESSENGER

VOTE FOR PRAGER MILLER FOR STATE SENATOR

Prager Miller, Republican candidate for the State Senate from Chaves County, has had a very interesting career in the public interest during the last several years.

Mr. Miller served, with credit to himself and much profit to the Association, five years as President of the New Mexico Wool Growers Association.

During six years as a member of the State Sheep Sanitary Board he led the way in weeding out inefficient political appointees, which resulted in such efficiency that general dippings were discontinued, which has saved the wool growers of the state about Two Hundred Thousand Dollars a year for the past several years.

In appreciation of Mr. Miller's interest in public affairs, he was called upon to represent the state at a meeting of the War Industries Board in Washington in December, 1918. At this meeting a decision was made to have ample credits extended by the Federal Reserve Board, which prevented a panic at that time. The sudden termination of the War left us with our warehouses overflowing with surplus commodities and our foreign market cut off over night. The extension of credit at that time maintained prices on a high level up until May 18, 1920, when the Federal Reserve Board, after the War Industries Board had ceased to function, introduced its policy of deflation.

Mr. Miller was again called to Washington, representing New Mexico, at a meeting of the Federal Reserve Board, in July, 1920, at which time the Committee's recommendations to the Board, that they rescind their action to contract credits, was unheeded, and resulted in the panic of 1920.

He was also appointed Chairman of the Range Livestock Committee at the National Agricultural Conference, held in Washington in 1921, in the interest of the farmers and other producers of the state. We were also represented by him in the fall of 1920 in the framing of the Emergency Tariff Bill.

These are some of the activities in which our native son participated in our behalf, which show the natural interest he takes in public affairs. In fact, we think Chaves County should be proud of this native son candidate for the State Senate and should send him to Santa Fe to represent us in that body. If there is any reward for service and if Chaves County wants a man in the Senate who has served us faithfully in other capacities when called upon, and who will represent us in a really capable way, Prager Miller will receive your vote for State Senator on November 6th.

(Published and Paid for by Friends of Prager Miller)

PECOS VALLEY LUMBER CO

LOCATED AT 200 South Main street, Roswell New Mexico. Is under the competent direction of a most experienced management and is a concern which is building a reputation that will stand for all time. One of the leaders in the building industry of this part of the country.

One of the essential features of any house, store or other structure is that it shall stand the wear of years. The same is true of the reputation of any business firm, and that is why this concern enjoys an ever-increasing popularity.

At the outset it is realized that a satisfied customer is the best influence for more business and it determined to build for this establishment a reputation that would be the envy of the building material trade. That it has succeeded is evidenced by the large amount of patronage that it now receives and the amount of territory that its activities cover. With a knowledge of their business that always breeds success, they have gone into the world's largest markets and have purchased their supplies of the best quality and in large quantities.

Therefore, the people of the territory for miles around are offered, at very reasonable rates, lumber and building materials of every description and of the very best grade. We will not attempt to detail the very large stock they carry. Suffice it to say that this establishment compares favorably with the best and most up-to-date establishments of the metropolitan centers, in the point of extent of stock, quality of work and material and the general excellence of everything that there is in the building supply business.

The contractors and builders and the people generally, have come to know that they can depend on the well know firm for just about everything that there is in the lumber and building material business. The reputation they have established for stocks of quality and of straight-forward dealing is bringing thousands of dollars to town that would go to some other trade center were this establishment not located here. It may be truly said that this establishment is a valuable asset to the county and in this edition, which calls to mind our forward progress, we wish to direct your special attention to their commendable activity as one of the distinct features of our business and industrial efficiency.

DAIRY PRODUCTS CO.

LOCATED AT 208 West Fourth street, Roswell, New Mexico; Offers the people of this section a most modern dairy service in milk, cream and dairy products, and number among their customers many of the leading hotels and families who are particular about their food supply. Have the latest equipment and offer excellent service in delivery. Under the supervision of Mr. John Summergil. Telephone 215.

During the last decade the importance of the milk supply and its source of purity has received much attention, and in this section of the state there is no firm that has made a closer study of the subject than the Dairy Products Company. They have a modern plant where the latest equipment has been installed for the proper handling of milk and cream. Their sterilizing plant places the bottles in a condition of absolute being sent to the trade and this assures the public of dairy products of the highest quality.

Their milk supply come from registered stock of tuberculin tested cattle. They are all properly cared for, fed scientific feed, and the milking is conducted under the most careful conditions. A visit to the plant

of this concern is very interesting to the uninitiated.

Their business has increased so rapidly that improvements were necessary from time to time, until today they have a model industry. Everything in this dairy is kept scrupulously clean as is the policy of this firm not only to sell creamery products that will pass inspection, but to turn out products that are as near an approach to the acme of perfection as modern sanitation and up-to-date methods will permit. In a review of their progress we are glad to compliment the Dairy Products Company upon their ultra-modern plan, excellent service and the superiority of their products, and to advise everyone to try their service

ROSWELL FLORAL CO.

LOCATED IN Roswell, New Mexico, on East Fifth street; Is noted for the freshness and rare beauty of the flowers, which represent the very best that nature produces. Carries a complete line and enjoys a large patronage from the surrounding territory. They feature roses, sweet peas, and also a beautiful assortment of chrysanthemums and carnations. Telephone 196.

In the complexity of modern society there is no one business that has come into more and more prominence in the past few years than this well known floral and greenhouse. In this community there is no florist who enjoys a wider reputation as offering the public the most complete service than this well known concern.

For centuries flowers have been symbolic of human sympathy and the recent development of the flower as a token of esteem and remembrance has placed it in the front rank for all social, joyful and mourning occasions. Its varied uses have made the modern florist a deep student of social etiquette and there is no one more thoroughly versed in this phase of the business than the manager of this house. Place your order with them, either in person, by phone or letter, and they will see that your card arrives at the right time.

As designers of floral emblems for funeral or social occasions, they are artists of more than ordinary ability. Their heart and soul beat in unison with the work and, as a consequence, the designs are distinguished for their very appropriate appearance.

Every modern facility for the proper care and preservation of the flowers until they reach their destination has been provided, and they will remain fresh long after arrival as they provide them just as they are coming into bloom.

We would compliment the manager and suggest that when you are in need of anything in this line, you call at this favorite floral place, write them or call over the phone, and they will see that you get what you desire at a very reasonable price.

THE BEAUTIFUL GIFT

By Grace Noll Crowell

What can a mother give her children Greater today than this one thing—Faith in an old, sweet, beautiful story, A star—a stable—a new born king?

Shining faith in the young lad, Jesus; Lover of high white things was He; Jesus—straight as Lebanon cedar; Jesus—clean as the winds from the sea.

Faith in the young lad come to manhood; Jesus, compassionate, tender and true, Oh, my children—what more glorious Gift in the world can I give you?

Carry it high like a lamp in the darkness, Hold it with warmth when the day is cold— Keep it for joy when youth goes singing, Clasp it for peace when you are old.

What can a mother give her children More than a faith that will not dim? Take it, my dear ones—hold it forever: A lamp for a lifetime—faith in Him.

—Good Housekeeping, (New York.)

N. M. LIBRARY ASS'N. MEETS

The New Mexico Library Association, a section of the New Mexico Educational Association, meets in Albuquerque on November 1-2. The program arranged by the president, Wilma L. Shelton of the University library emphasizes three subjects of particular interest in New Mexico; Spanish and Mexican literature, school libraries, and library advertising. The association hopes for a large attendance of librarians, teachers interested in promoting school libraries, and club women who are giving time and thought to the establishment of libraries in New Mexico. The meetings will be held in the beautiful new High school library in Albuquerque. There will be a school libraries exhibit with pamphlets on library methods for distribution.

INSIDE INFORMATION

Prolong the life of shoes in wintertime, especially those worn by men and boys without rubbers, by soaking the soles in a grease that will make them waterproof. The United States Department of Agriculture recommends several simple formulas for the purpose.

Rice can be cooked in an open kettle in 15 to 20 minutes. A large quantity of water should be used. As soon as a grain pressed between the thumb and forefinger is soft and has no hard portion in the center, the rice should be taken from the fire, drained, covered with a cloth, and allowed to steam until the grains swell and separate.

In cake recipes with a number of eggs, it is possible to substitute baking powder for one or two of the eggs called for, during the period of egg scarcity. Of course the cake will not be so rich as when all the eggs required are used. Allow one-half teaspoon of baking powder and two tablespoons of milk for each egg omitted. From half to two-thirds of the eggs called for should be used even when this substitution is practiced.

For rather novel sandwiches or thin bread and butter for afternoon tea make some orange bread. The flavor is given by the cooked peel of two oranges. This is cut into shreds, covered with water and cooked for about 20 minutes, or until tender, and then drained. Next cook the peel in a sirup of one cup of sugar and half cup of water until there is only about 1 tablespoon of the sirup left. Sift together 3 cups of flour, 4 tablespoons baking powder, and half teaspoon salt. Cut in 1 tablespoon of butter and add 1 well-beaten egg and one and a quarter cups of milk. Beat this mixture for about 3 minutes. Stir in the orange peel and mix thoroughly. Pour in a greased bread pan and bake for one hour in a moderate oven (about 325 to 350 degrees F.)

ROSWELL GRID PLAYERS INJURED IN CAR CRASH

One youth was injured and another badly shaken, when two cars carrying members of the Roswell High school football team, were wrecked Friday evening near Acme. One car struck a concrete post and turned over, but none of the occupants were injured. The other car struck the rear end of a truck and seriously cut and bruised the driver, Dick McPherson.

Famous last words:—"I'm as sober as a judge."

Among the numbers on the program is the discussion by Miss Ruth Russell, assistant librarian of the State University on the subject of, "What the library can do for the sick of our state."

BE CAREFUL HOW YOU CROSS LAKE McMILLAN

H. C. Holcomb, watchman at Lake McMILLAN has requested us to warn visitors at Lake McMILLAN to be on the lookout for bad roads and high waters, especially if the visitor goes by way of Lakewood. The lake is full and a small amount of rain will over flow it and cause the waters to spread out on the flats. The visitor may find it necessary to de-

tour by the oil field road even visiting the lake.

A PROSPERITY POINT

Business conditions in New Mexico are much better this year than based on income tax collections for the present year to date, gate \$673,237 for a similar period in 1927, which was better than The Earth.

SEE THE WORLD'S GREATEST COMEDY

"Abie's Irish Rose"

"Abie's Irish Rose," the comedy sensation by Anne Nichols, which plays at the Princess, Tuesday, November 6th, enjoyed a run of over six years at the Republic Theatre, in New York, and was the outstanding hit of the metropolis. It has played to capacity audiences in record-breaking engagements in Washington, Baltimore, Pittsburg, Cleveland, Chicago, Cincinnati, Los Angeles, San Francisco, Atlanta, New Orleans, etc. It has demonstrated that the public enjoys clean, wholesome entertainment, for there is nothing suggestive in any action of the play, nor does it attempt to discuss any sex problem. It dispenses pure, clean humor from the rise of the curtain until its fall, and elicits roars of laughter every minute. It will be presented by a cast of well-known metropolitan players.

It is well to bear in mind that this is the original and genuine stage play and not a motion picture.

**Sunday School
Lesson**

BY P. R. FITZWATER, D.D., Dean
Bible Institute of Chicago
Western Newspaper Union

Lesson for November 4

THE TEMPERANCE SUNDAY

TEXT—Romans 13:1-14.
TEXT—Love worketh no ill
neighbor, therefore love is the
of the law.
TOPIC—Obedience to Law.
IMMEDIATE AND SENIOR TOP-
ics for Prohibition.
PEOPLE AND ADULT TOP-
ics for Law Enforcement.

The Christian's Obligation to the
rulers (vv. 1-4).

A believer in Christ is a citizen
of the state as well as a Christian.
Intelligent citizenship will be loyal to the state as
well as to the church. Failure to
do this has brought Christianity
disrepute in many quarters.

Obedience to rulers (vv. 1-4).

Obedience is upon all Chris-
tians. The reason is that civil gov-
ernment is ordained of God and rulers
are His representatives. To refuse
to obey civil authority is to resist
the ordinance of God. This does not
mean that a Christian is to obey
the law of the state should it be
inherently wrong. It is the duty of
a Christian to obey the law of the
state because God is the source of
authority, but because it was or-
dained for the benefit of the
people.

The spirit in which the Christian
obeys to rulers (v. 5).

Should regard it as his obliga-
tion to obey merely because it serves
a purpose, but because it is moral-
ly right. It is a conscientious obli-
gation to obey the law of the state
because God is the source of author-
ity, but because it was ordained for
the benefit of the people.

The payment of personal and
taxes (v. 6, 7).

The payment of personal and
taxes is a duty upon merchants
and license fees.

The exchange between na-
tions should be regulated. For such
expense is incurred, for which
the citizen should pay.

The fear of God in the hearts
of magistrates ("fear of God").

Who have the fear of God in
their hearts will venerate their rulers,
representatives.

Honor to whom honor.

The Christian's Obligation to His
Citizens (vv. 8-10).

This obligation is perpetual.
The debt which is right to owe is
love. The discharge of this
obligation forbids:
1. Frauding in matters of proper-
ty.
2. Forbids going into debt with-
out being able to meet
obligation.
3. Forbids defrauding in matters
of purity (v. 9). Where the life
of the power of love, adultery
is committed.
4. Forbids murder.
5. Forbids stealing.
6. Forbids coveting.
7. Forbids the working of any
evil neighbor.

The Supreme Motive Governing
the Christian (vv. 11-14).

The attitude of the Christian is that
of expectancy. There is no time
for sloth or indifference. The time
is drawing near. The salu-
tation mentioned is not that
we obtain in justification and
redemption, but is that which we
obtain at the second coming
of Christ. Redemption is threefold:
1. Justification through faith in the
Word.
2. Sanctification through the obedi-
ence to the Word.
3. Glorification, when the fullness of
Christ shall be realized at Christ's
returning.

Reasons for this attitude of ex-
pectancy are that the night of Christ's
coming is far spent and the day of
His appearing is at hand. The
product in view of this is:
1. Put off the works of dark-
ness (vv. 12), which are revelling,
drunkenness, chambering, wantonness,
jealousy. The child of light
walks in drunken carousals,
practices licentious acts and
neither engages in strife,
nor the spell of jealousy.
2. Put on the armor of light (v. 12).
The armor here is of the Roman sol-
dier, to arise from sleep and put off
the robes and put on his
armor.
3. Put on the Lord Jesus Christ
and be seated with Him in
heaven to throne Jesus Christ
Lord of the life, to bring the
world under His control.

Thou an Example

The man despise thy youth; but
be an example of the believers in
conversation, in charity, in
faith, in purity.—Paul.

The Lord Dwells There

Where home may be a vestibule of
heaven because the Lord dwells there.
Dixon.

Lighting and Praying

The best who prays best.—J.

MABIE-LOWREY HDW. CO.

LOCATED AT 113 North Main street, Roswell, New Mexico. Featuring Winchester guns, ammunition, dishes, household utensils, electric refrigeration, gas engines, pumps, electric motors and John Deere Farming Implements. Ask for Gold Bond Trading stamps. Dan H. Wilmot, Manager. Telephone 634.

THE WINCHESTER STORE

Some businesses deal with the luxuries of life, those commodities whose primary purpose is to give pleasure—and for a well rounded life they are necessary. But there are other stable necessities of life. On this latter class the public is most exacting. When we need necessities, we need them usually at once and without delay. The hardware business falls in this latter class.

Whether people need an engine or a dime's worth of nails, their need must be met at once. This demands several things on the part of the successful hardware firm. They must have a complete stock. In order to keep abreast of the thousands of their customers, they have at this time the largest hardware store in eastern New Mexico. A large amount of their stock has been placed upon tables so that a selection is very easy.

Prompt service to all who come in, whether they wish the smallest article in the place or the largest piece of hardware for sale—has been one of the working policies of this well known and popular store.

This store is a particular favorite with the farmers of this community. So many articles of hardware are

needed on the farm and the farmer wants nothing except what can be absolutely depended upon. If the farmer raises poultry—and most of them do—a full line of equipment for poultry raising can be purchased here, everything from incubators to wire netting for the chicken yard. Many convenient stock-feeding devices can be purchased here.

Another line which interests the farmer is the complete line of electric motors and John Deere farm implements. Every man is, by nature, a tiller of the soil. All those little implements of cultivation—from the spade down—can be bought here. These, too, are in standard nationally known lines.

The owners of this store are men who have succeeded by making service to the public their first concern. This policy has been followed not only in business but in life, as responsible citizens of the community.

EIGHT LEPEERS RELEASED

The Public Health Service has recently authorized the probational release of eight lepers from the National Leprosarium at Carville, La., as no longer a menace to public health. These eight lepers have been under treatment at the National Leprosarium Home for varying lengths of time, ranging from two years to seven years. It is of interest to know that leprosy, the dread disease of the centuries, is beginning to be conquered by improved modern scientific medical treatment.

The National Leprosarium at Carville, La., has been operated by the U. S. Public Health Service for a little more than seven years. During that time 37 lepers have been released or paroled as being no longer dangerous to the public health. Only one of these lepers has suffered a

relapse and has had to resume treatment. More than 300 lepers are now under treatment at this institution.

City Banker (Visiting Farm):—"I suppose that's the hired man?"
Farmer (Who Had Visited Several Banks):—"No, that's the first vice-president in charge of the cows."

Brookshier Produce Co.

LOCATED ON East Second street, Roswell, New Mexico. Offers the farmer the best prices for poultry, eggs, cream, turkeys, rabbits, correct weight and fair treatment. Twenty years in the produce business. Mr. Brookshier, Manager. Telephone 1174-W

The farmers of the entire valley are very fortunate that in this vicinity they have a produce house that is paying them a fair price for their products. The increased patronage this firm enjoys is due to the fact that the farmer has come to realize that they will be treated fair and alike and that they are doing business with men who have technical knowledge, experience and good business judgment. The people who originated this enterprise obtained a liberal education in the school of experience and this, coupled with their straight forward dealing, is responsible for their success.

In this edition we are glad to point to this establishment and to say they are a great aid to the farmer of this and adjacent communities.

WHEN YOU TRADE

In Roswell, go to the little store for men just back of the First National Bank. There you will find a good assortment of standard merchandise. 43-2c

LOIS RANDOLPH

Non Partisan Candidate for

Superintendent of Public Instruction offers a record of non-partisan administration in the past two years and pledges the same service if re-elected. She favors a Free Text Book Law that can be administered, and stands for better rural schools.

CHICKEN DINNER 40c

EVERY SUNDAY AT

STAR RESTAURANT

MRS. CLYDE GANT, Prop.

Harry Thorne

CANDIDATE FOR SHERIFF On The Republican Ticket

OPENING MY CAMPAIGN

1st.—I am for Herbert Hoover for President

2nd.—If elected to the office of Sheriff of Chaves County, my best efforts will be made to enforce the laws of this county and especially the liquor laws of the State and Nation with as much vigor and ability as I possess—and the last mentioned law will be enforced without fear or favor.

3rd.—I have never held office in Chaves County, but if elected, I promise all the people of this county that the office will be conducted in a business-like manner and that all of the laws will be enforced equally as well as they have been done by any sheriff before me.

4th.—It is my judgment that a vigorous effort in the Sheriff's office will very materially tend to reduce crime and especially the liquor traffic in Chaves County.

5th.—I haven't had time to see all of the voters in the County as I do not hold public office and my time does not now belong to the public, but to my private business, and necessarily, working for myself rather than the public, I have not the time to see you.

However, my platform is just exactly as above outlined, to-wit:

"LAW ENFORCEMENT"

Harry Thorne

METHODIST CHURCH

Last Sunday was well spent in our church. Many people told us it was one of the best days in church work they have witnessed in a long time. The evening service was especially well attended. There were many strangers who found a warm welcome. Many old timers have told us since the close of the service, they have never seen so many people at church in this small city. We were wholly unable to care for the numbers who came and as a result probably at least a hundred was turned away. This speaks a very encouraging outlook for the work of religion in this community. We have been in the ministry for more than twenty years and we have never seen a finer spirit of appreciation of church activity than is being shown in this of ours. The Sunday school was above any attendance in the history of this school except on special days. There will be classes for every one next Sunday. Spend an hour with us and be convinced. Epworth League at six thirty. Preaching hour in the evening at seven fifteen. The orchestra will play a prelude at exactly seven fifteen.

M. F. BELL, Minister.

THURSDAY CLUB

The Thursday club met with Mrs. Cowan, October 25th. A very interesting lesson was given by Mrs. Aaron Clark on Norway, Sweden and Denmark, after which Norwegian refreshments were served to seventeen members. The next meeting of the club will be held at Mrs. Van-Arsdols', November 8th.

Choose Plaid Velvet for Your Autumn Frock

For your handsomest daytime frock choose plaid velvet. When the plaid is expressed in terms of royal blue and green with touches of red and yellow as is that of which the gown in the picture is fashioned—well, just look up some of these new plaid velvets and see for yourself.

NEW TOILET DESIGNS

Women are the leaders in our new standards of taste. Merchants and manufacturers are working day and night to keep pace with the influences of style and beauty paramount today. Art and artists are searching the world for new ideas and designs in patterns and styles that will enable them to show the progress in their skill and talent.

In toilet accessories they have found new thrills by reason of the patterns and designs in inspiring creations known as "Lucite."

There is an oriental motif of this material known as "Ming," described as an inspiration from the authentic bowls and vases on display at the Metropolitan Museum of Art. It is in colors of mandarin red, jade green and jet black. There is another famous design in "Empire" pattern, which carries all the romance and beauty which distinguished that high point in French art in the days of Napoleon. Paris is right now revealing anew in Empire creations that include everything from dresses and hats through the list of articles of furniture, table services, spoons forks and dishes. But Empire patterns, though French in origin, do not neglect in color our own Colonial buff and blue. The other patterns include floral designs known as the "Orchist" and the "Fleur d'or," in gorgeous and flashing colors. The decorations of the Fleur d'or are, as the name implies, inspired by the chrysanthemum and consist of a rich background laid on a base of silver gray, which will provide a contrasting note to more delicate colors. "Lucite" the new material is a beautiful, translucent, plastic which has satisfied the designers and won the favorable verdict of a jury of a thousand American women selected because they were recognized as the Nation's best critics and authority on style.

J. U. G. HALLOWE'EN PARTY

The J. U. G. entertained Friday evening with a line party after which a Halloween party was given. A very good show "Old Ironsides," was enjoyed and the J. U. G. girls and their guests went to their "Spooks Headquarters." On entering the house the boys were led through the "Vale of Horrors," encountering the murdered man's parts and groans. They were then made acquainted with the "Three Hands of Fate," which told them where they would go, whether to hades or heaven. Most of them were pushed into hades but they soon found that it was not as bad as they expected. Contests and games were played until after midnight when delicious refreshments of pumpkin pie with whipped cream and coffee were served to: Messrs. Paul Whitman, S. A. Whitcomb, Barney Robinson, A. Clark, Nicholas Crain, Theodora Vanderbout, Walter Stone, Carl Hansen, of Hagerman and Everett Stanley. The hostesses, Misses Ella Mae Beadle, Frances Martin, Agnes McMains, Pauline Robinson, Alma Thompson, Dora Whitman, Effie Mae Senn, Doris McVicker and Avalee Barnes.

LAKE ARTHUR ITEMS

(Mrs. Ned Hedges, Reporter)

Mesdames E. D. and M. D. Menoud of Hagerman were the guests of Mrs. E. C. Latta Thursday.

O. A. Bradley and Mr. and Mrs. F. W. Dixon were business visitors in Carlsbad one day last week.

Mr. and Mrs. E. V. Wasson of Weed were visiting her parents Mr. and Mrs. J. R. Spence here over the week end.

Mr. and Mrs. E. C. Jackson returned last Saturday from their motor trip to Tulsa, and other Oklahoma points.

Mr. and Mrs. J. P. Shinneman joined the Porter family of Dexter Sunday and motored with them to Carlsbad. They were the guests of the George Benz family while there.

On Friday November 16th the Parent Teacher's Association is giving a carnival. The committee is already planning new and novel features that will make it particularly attractive.

The Sew and So club met at the home of Mrs. B. C. Moots on Oct. 30, with Mrs. Moots, Miss Gertie Moots and Mrs. Moss Spence hostesses. Roll call was answered by ghost stories. The main business of the afternoon was the planning of the annual club Thanksgiving dinner. It was decided to be given on November 30th. A lovely four course luncheon rounded out a pleasant afternoon. The next meeting will be with Mrs. H. A. Sims, November 13th.

WEEKLY BUILDING AND IMPROVEMENT NEWS

(Reported by Kemp Lumber Co.)

J. T. West is having his house papered and otherwise improved.

Workman are busy putting the new roof on the W. E. Bowen building on Main street.

O. R. Tanner has just completed a new double garage at his residence in west Hagerman.

J. V. Brown has just completed an addition to his residence in west Hagerman. West Hagerman is on the boom at present.

HALLOWE'EN PARTY

Miss Flora Hughes was hostess to a delightful Halloween party Tuesday night. A number of young girls were present and games and Halloween stunts were played, after which refreshments of sandwiches, pumpkin pie and cocoa were served. Orange paper cups filled with candy were used as favors. A most enjoyable time was had by all attending.

VOTE

For Mrs. Frank Markl for County Treasurer.—Adv. 43-2tc

"I hear your son is at college."

"Yep."

"How's he doing?"

"Pretty good I guess, he's taking three courses. I've just paid \$10 for Latin, \$10 for Greek and \$100 for Scotch."

Fredrick was crying, when Billy came along and asked what was the matter.

"Oh, I feel so bad 'cause Collie's dead," sobbed Fredrick.

"Shucks," said Billy. "My grandmother's been dead a week and you don't catch me crying."

Fredrick gave his eyes and nose a swipe and looking up, sobbed despairingly:

"Yes but you didn't raise your grandmother from a pup."

Sympathy

The building was on fire where a woman's husband is employed. She called her friend on the telephone to relieve her anxiety. "Oh, Mabel, did you know about the fire?" said the excited wife. "If it burns down Joe will be out of a job, and we will have to come and eat with you." "Well, I hope it don't burn down," was the sympathetic reply.

Improve With Service

Years ago, defending the "old man" in business, Chauncey Depew declared that his own private secretary had been with him forty years and was more efficient than when he began with him as a youth. "The longer a man holds down a job the better he will be at it," he said.

Peculiar Light

Science service says that "false dawn" is the zodiacal light, supposed to be due to the reflection of sunlight from fine particles of matter entirely outside the earth's atmosphere. It is best seen in low latitudes, especially in the pure air of tropical and subtropical deserts.

Glory of Old Rome

The rule of Trajan, 98 to 117 A. D., marked the height of the Roman empire. The rule following, that of Hadrian, was memorable for its peacefulness and for the fact that it was the most splendid era of Roman architecture.

BOY SCOUT NOTES

The local Boy Scout troop this week entered into a program of first aid training. This is being operated by the area scout office and it is reported practically every troop in Eastern New Mexico is taking part.

To the Boy Scouts, first aid means "Till the doctor comes." The problems are made as real as possible and the scouts actually dramatize. Each patrol of the troop practice separately during the patrol period of the troop meeting.

Cooperation with the scoutmaster in seeing that patrol leaders plan to work ahead and have plenty of material on hand.

LOCALS

Ed Lane was in Roswell Monday.

Rev. M. F. Bell was in Roswell Monday.

Z. B. Moon, of Artesia, was in the city Friday.

Dan Wilnot of Roswell was in town Friday.

G. A. Turnbough was a Roswell visitor Friday.

H. M. Dow, of Roswell, was in town Monday.

H. M. Dow, of Roswell, was in town Thursday.

Mrs. Edward McKinstry was in Roswell Tuesday.

Miss Clyde Pierce went to Roswell Wednesday morning.

Mr. and Mrs. J. W. Alter were in Roswell Tuesday.

Mrs. W. P. Woodmas was a Roswell visitor Tuesday.

Harry Thorne, candidate for Sheriff, was in town Tuesday.

J. C. Patton, linotype salesman, of Amarillo, was in town Saturday.

Mr. and Mrs. Van Sweatt, Jr., of Roswell, visited relatives here Tuesday night.

Miss Marjorie Miller, of Roswell, visited her brother, Harold Miller, Wednesday.

Prager Miller who is shipping some sheep from Lake Arthur, was a Hagerman visitor this morning.

Mr. and Mrs. J. Vedder Brown have moved to their residence in town and will hereafter be city folks.

J. W. Capps and family have moved into the S. E. Hamill house recently occupied by Mr. and Mrs. Williams.

The Missionary Society of the Methodist church will serve sandwiches, pie and coffee on election day at the Cumpsten Furniture store.

The Methodist Missionary Society will have a "week of prayer" program at the Methodist church Wednesday night after prayer meeting.

Mr. and Mrs. J. E. Senn and daughters Effie Mae and Velma Lee were the dinner guests Sunday of their daughter Mrs. James McKinstry of Hagerman.

Muses

The Nine muses were the daughters of Jupiter and Mnemosyne, goddess of memory, and presided over the arts and sciences after this manner: Calliope, epic poetry and rhetoric; Clio, history; Erato, love poetry; Thalia, festivals and comedy; Melpomene, tragic poetry; Terpsichore, dancing; Euterpe, instrumental music; Polyhymnia, singing and rhetoric; Urania, astronomy.

"Vanities" Burned

The "Bouffe of Vanities" was the burning of indecent books, pictures, masks and other objects pertaining to frivolity at Florence, Italy, in 1497, under order of Savonarola. A Venetian merchant offered 22,000 gold florins for the doomed vanities, but his offer was rejected and his portrait was added to the pyre. It is said that no book or painting of value was destroyed.

Defenses of New Orleans

The famous trench fortification at New Orleans was originally a canal. At the time of the War of 1812, Gen. Andrew Jackson threw up breastworks on the near side of the bank. The other fortifications of the city were months in building, both the British and the Americans being responsible for the construction.

Rain Foiled Burglars

Burglary of a dress shop in New York was called off on account of rain. The burglars had cut a two-foot hole in the roof, but drops of water from a storm that was passing over the city came through the hole, completing the electric circuit of an automatic burglar alarm and called the police.

Birds-Eye View

Experiments conducted in England have revealed the fact that a thrush detects as small an object as a worm squirming in the grass at a distance of 100 yards.

Your Sacred Duty

as a Citizen is to Vote next Tuesday!

We can't give you any instructions on how to vote like some of your whispering friends, or some of the politicians—because we know that Western Men and Women have that feeling of freedom and common sense, which entitles them to vote as they please, regardless of the Political Harangue.

We find that our customers and friends (of both parties) don't crave our advice as to how to vote—but they do seek our services when they want good Clothes, Stetson Hats and other Wearables.

Yes sir, we will have your sizes in a Smith or Hoover Hat as well as a Dillon or Dow style.

CHE-MODEL

DEXTER ITEMS

Mrs. Roy Pior of Artesia spent Sunday in Dexter.

Mr. J. E. Senn is the owner of a new Buick sedan.

Mr. and Mrs. O. M. Wallace of Roswell were in Dexter Sunday afternoon.

Miss Alma Bell spent the week end in Hagerman, visiting Mrs. Edmund McKinstry.

Miss Ava Lee Barnes, Mesdames Clyde Barnes, and Edmond McKinstry spent Saturday in Roswell.

Notice to P. T. A. members: meeting postponed from first Tuesday to second Friday in November.

Mr. and Mrs. F. L. Wayne of Tatam spent the week end in Dexter visiting with friends and relatives.

Mrs. Bobbie Reid and little daughter returned home Tuesday from Tatam where they have been visiting with Mrs. Reid sister since Sunday.

Misses Elenora Patrick, Eva Mae O'Brien, Mrs. Darrel Davis and Gladys McMains attended the show, "The Road to Ruin," Thursday in Roswell.

The Dexter School Carnival went off Saturday night with a bang! A large number attended and every one seemed to enjoy it immensely. \$105.00 was taken in the profits estimated at \$60.00 which will go to the boy's and girl's athletic fund and for supplies for the elementary grades.

ATTENTION—Those owing accounts to me will please call at First National Bank, Hagerman, and settle same as soon as convenient. Dr. E. E. Dickason. 42-4tc
