

THE MESSENGER

HAGERMAN, CHAVES COUNTY, NEW MEXICO, THURSDAY, OCTOBER 27, 1932.

A friendly town
A friendly community
Served by a friendly paper.

TY-ONE

NUMBER 43

MOVED S STA. 3 YRS.

Funeral services for Mrs. John L. Stevenson, Clovis resident and sister of E. E. Lane of Hagerman, will be held this afternoon at 2:30 o'clock at Clovis. Mrs. Stevenson's death which occurred Tuesday noon, was the result of injuries sustained in an auto accident south of Tatum. Mr. Stevenson and Mrs. Brooks, sister of Mrs. Stevenson were also injured but not seriously.

INCOME OF LAND OFFICE INCREASES

Instead of a loss in revenues during the present administration in the state land office, there has been a gain over the previous regime, says State Land Commissioner J. F. Hinkle in a statement given Tuesday at Santa Fe. He said: "There seems to be some misinformation in regard to the land office income as the statement is put out by both campaign parties that the falling off in receipts is around \$600,000. The receipts for the fiscal years are as follows:
1928-1929.....\$1,850,818.19
1929-1930.....1,795,254.01
Total for 17th and 18th fiscal years...\$3,646,072.20
1930-31.....\$2,147,310.13
1931-1932.....1,734,561.53
Total for 19th and 20th fiscal years...\$3,881,871.66

SENATOR GORE TO SPEAK AT ALBUQUERQUE SAT.

United States Senator Thomas Gore, of Oklahoma, "The Blind Senator," will speak in New Mexico on Saturday, October 29th, it was announced by W. J. Barker, democratic state chairman. Senator Gore, who is making a western trip under the auspices of the democratic national committee, will speak in the high school auditorium at Albuquerque at 8:00 o'clock the evening of October 29, and from 7 to 7:30 that same evening he will broadcast over radio station KOB, Albuquerque. Senator Gore is accredited with having the most remarkable memory of any man in public life today. It has been said of him: "His mind holds a mass of figures and facts his eyes have never seen." He is acknowledged to be one of the best public speakers in the country, and despite his affliction of blindness, is one of the best informed men in Washington.

"New Mexico is extremely fortunate to have the opportunity to hear Senator Gore," said Mr. Barker, "and I am sure he will speak to large audiences both over the radio and in Albuquerque."

MONTH'S R. F. C. LOANS TOTAL \$137,346,000

WASHINGTON, D. C. — The monthly report of the reconstruction corporation to congress Saturday showed advances authorized in September amounting to \$137,346,000 and outstanding loans of nearly a billion dollars. Made public Saturday by South Trimble, clerk of the house of representatives, the report revealed a marked decline in applications for loans by financial institutions as compared with the 1,151 received in August. In September, there were 700 such applications. Less the repayments exceeding \$100,000,000, loans outstanding to financial institutions and railroads were listed at \$995,406,493 on September 30, with \$289,580,373 in authorized advances to the same class of borrowers yet to be called for.

PARENT TEACHERS' ASS'N.

Thursday morning, November 3rd, there will be a meeting of the Parent-Teachers Association at Roswell in connection with the New Mexico Educational Association program. Mrs. C. C. Pritchard, Misses Helen Pritchard and Ruth Beatty of Roswell were callers in Hagerman on Monday afternoon. They were accompanied on to Carlsbad by Mrs. Harrison McKinstry.

AL SMITH MAKES HIS FIRST CAMPAIGN SPEECH MON. EVE

NEWARK, N. J.—"Al" Smith before a police estimated crowd of 20,000 concluded his first national campaign speech Monday night by declaring that nothing but the election of the Roosevelt-Garner ticket would solve the economic problems of America. The crowd was in an uproar virtually through out the speech.

Smith had reserved mention of the name of his old political ally Governor Roosevelt, until he had lashed out at prohibition and had made extended criticism of the republican administration.

His call for a Roosevelt-Garner victory set off a demonstration in the vast auditorium which was many minutes in ending. Thousands of American flags were waved. Automobile horns set up a bedlam of noise. Whistles and cheers blended in the din.

Smith wound up by asking his audience to "go home and see if you can find one great big public question that they (the republicans) have made a reasonably good attempt to settle."

"Instead of that," he continued, "we received a program of threat that if the republican party is defeated the return of prosperity will be retarded."

"I deny that, and I deny it emphatically, and I state from this platform to my nation-wide audience that the election of the democratic ticket is the best way to solve these problems and the best way to bring back prosperity—the election of Roosevelt and Garner."

While uncounted thousands—some police estimates exceeded 50,000—literally battled outside the huge brick building in a vain attempt to smash through police lines and gain entrance Smith delivered a speech which was devoted principally to prohibition.

"In 1928," he said, "both parties ducked the prohibition issue. They were both afraid of it."

"The democratic party wasn't a bit better than the republican party. They both laid down, in fear of the consequence had they taken a decided step looking to revision or repeal of the 18th amendment."

The crowd roared when he said: "I think the record pretty clearly indicates that I did not dodge it. I did not duck."

DEMOCRATIC RALLY

Although local democrats did not attend very well, the democratic rally at the school house Saturday night stimulated greater interest in the formation of a Roosevelt-Garner club here. Probate Judge Lake J. Frazier, and J. M. H. Cullender, addressed the gathering. A large crowd from Roswell and Dexter was present.

State Treasurer, Warren Graham, democratic candidate for re-election.

FEDERAL SUIT TO FORCE DIVISION OF PECOS RIVER WATERS

Ralph Yarborough, Texas assistant attorney general, announced Saturday that Texas plans to bring suit in federal court at Austin against the state of New Mexico to force a fair division of the waters of the Pecos river. Yarborough said that he recently visited the Pecos and found New Mexico water projects within the artesian development area had dried up springs that formerly supplied the Pecos river, the result being a marked loss of water normally carried by the stream.

The attorney general was authorized to make an investigation of the situation by the last legislature.

The matter has been a bone of contention by Texas authorities for many years. They claim that Texas residents living along the lower Pecos are entitled to a larger share of water from the river than they are getting and seek to force New Mexico residents to release more of the water into the stream.

Should such a demand be successful, it is pointed out by authorities, present agricultural areas along the Pecos in New Mexico, including the one at Carlsbad, would likely suffer.

IMPORTANT CASE SET FOR NOVEMBER 28th

A case in the U. S. District court at Roswell of much local interest is that of V. H. McNutt vs. the United States Potash Co., which is called for trial on November 28th. The plaintiff asks damages in the sum of \$400,000 for fees and salary alleged due in staking out the potash fields in the southeastern portion of Eddy county.

RELIEF COMMITTEE WAS ORGANIZED IN ROSWELL YESTERDAY

Rev. James A. Hedges attended the meeting Wednesday in Roswell at the Chamber of Commerce where the Chaves County Emergency Relief Committee was organized, whose business will be to assist the State Bureau of Child Welfare and the State Board of Finance in dispensing relief loans in this county out of the \$90,000 appropriation to this state from the great national relief fund recently set aside by congress for that purpose. The committee will handle none of this fund which will be distributed through the Child's Welfare Bureau and checks given by the State Treasurer for all vouchers approved by local and county welfare committees and Child's Welfare Bureau. Local committees will make all investigations and recommendations and rigid supervision of all need and unemployment.

John Tweedy, chairman of the Board of County Commissioners was made permanent chairman of the county committee; Rev. John G. Anderson of Dexter, vice-chairman and Mrs. Lake J. Frazier, Roswell, secretary. An executive committee composed of Mrs. Willard Prager, William C. Lawrence and Harold Hurd, all of Roswell and Rev. James A. Hedges of Hagerman, with John Tweedy as chairman was chosen to act in the interim of the regular monthly meetings of the general committee. The general committee will hold its first regular monthly meeting, Monday, November 7th, at the Chamber of Commerce.

Mr. and Mrs. John Emerson and Damon Emerson were in town from their ranch west of Hagerman Tuesday afternoon. They report that Hardy Emerson is at present district superintendent of the oil company of which he has been an employee for a number of years in east Texas. This is good news to his many friends, as it means a successful promotion.

E. E. Lane and daughter, Lila went to Dallas, Texas last week to accompany home Mrs. Lane and small daughter, Blanche, who has been in Dallas for several weeks for medical treatment. Blanche underwent two major operations while there.

Mr. and Mrs. Charles Atkinson of Knickerbocker, Texas were guests of the Aaron Clark family Sunday and Monday.

Mr. and Mrs. James McNamara have moved into the house recently vacated by the O. J. Ford family.

Mr. and Mrs. Ira Johnson and small daughter of Melrose are visiting relatives in Hagerman.

J. E. BOWMAN WAS BURNED BY ACID WHEN AUTO FLIPS

J. E. Bowman is suffering from burns as result of a car accident which occurred at Seven Rivers Saturday evening. Details surrounding the accident are not known, but it is reported Mr. Bowman overturned his car and was pinned underneath the car for about two hours before being rescued. It was fortunate that Mr. Bowman escaped serious injury, although acid from the battery dripped down and burned him about the neck and arms. Except for a slight cut he was not otherwise injured. The name of the man who came to the aid of Mr. Bowman was not learned.

OKLAHOMA MINISTER SENTENCED NEXT MON.

MUSKOGEE, Oklahoma — The Rev. S. A. Berrie, 52-year-old unfrocked Presbyterian minister, was convicted Tuesday of the poison murder of his first wife, Mrs. Fannie Berrie.

The verdict, which carried a life prison sentence, did not appear even momentarily to break the composure of the preacher. He appeared calm when he was returned to his cell. Sentence will be passed formally next Monday.

His comely 19-year-old second wife, the former Ida Bess Bright, a Sunday school teacher in his church, also apparently was unmoved by the jury decision.

During the trial Mrs. Berrie, named by the prosecutor as the motive for the poisoning, appeared by the side of her husband and asserted her belief in his innocence. He is the writer of numerous hymns including "In Beulah Land."

The state alleged the preacher had been intimate with the young woman several months before the death of his first wife, and substituted poison for sedatives taken by the older woman so he might be free to marry the Sunday school teacher.

After being sentenced, Berrie will be taken to the state penitentiary at McAlester, where he will remain pending outcome of a possible appeal.

TROOPS TO EAST TEXAS OIL FIELD

AUSTIN, Texas — Additional national guardsmen and squads of rangers were rushed to the east Texas oil field Tuesday upon orders of Governor R. S. Sterling to keep the lid clamped on the vast producing area in face of a federal court decision holding that existing proration regulations are invalid.

The troop movement was a repetition of the mobilization more than a year ago when Governor Sterling proclaimed martial law to curb the unbridled flood of crude that undermined the stability of the oil industry and brought prices to the lowest levels in history.

"East Texas will not be permitted to run wild again," said Governor Sterling.

The troops, assembling Tuesday night at Kilgore, Texas were to be assigned to patrolling oil wells to enforce orders of the Texas railroad commission, which administers the state conservation statutes, limiting production of each well of 40 barrels daily.

UNION SULPHUR CO. RELEASES ACREAGE

The Union Sulphur Co. has released all acreage for sulphur in the Cottonwood community, except the acreage leased since the first of the year, it was learned here recently. This company had a number of leases placed of record in the lower part of the Cottonwood section shortly after the first of the year and these leases are the only one retained thus far. Plans are still going forward for another test in the Upper Cottonwood and work is to start as soon as sufficient acreage is secured, it is understood.

GET AUTO PLATES

SANTA FE—The first carload of 35,000 automobile license plates for 1933 arrived Monday, Comptroller Juan Vigil said. They will go on sale Nov. 1 in the counties.

WIN LAS CRUCES AWARDS

Misses LaVerne Campbell, Mayre McIntosh and June Jacobs, were winners in the domestic arts contest recently held at State College. Miss Campbell won first place on her sewing, among 58 contestants. June Jacobs with her exhibit of a hat, dress and laundry bag, also won a first prize. Mrs. J. W. Wiggins accompanied the Hagerman girls to Las Cruces.

CARLSBAD MAN IS FOUND DEAD NEAR SPRINGS MONDAY

The body of an unknown man was discovered on the valley highway just north of Carlsbad Monday afternoon.

The body was found a few yards east of the road leading to the Carlsbad Spring by Julian Garcia, H. B. Markham of Roswell and A. A. Kroal also of Roswell. They discovered the body about 2:30 Monday afternoon and notified authorities at once.

While the body was not moved by those who discovered it, he appeared to be between 30 and 40 years of age and well dressed. Near the body they found a bottle labeled strychnine and containing a small amount of a fluid resembling strychnine. The ground near the body showed signs of a struggle.

The only clue to the identity of the man was an express receipt bearing the name of W. S. Boyd. It was for a suitcase shipped from Carlsbad to Los Angeles. Los Angeles police are attempting identification, it was said Tuesday morning.

A coroner's jury empaneled on Monday afternoon at Carlsbad rendered a verdict of suicide by poison.

It was announced at Carlsbad Tuesday that the body of the man found near the Carlsbad springs Monday had been identified as William L. Boyd, 58, a steam fitter, who has made his home with the Jack Hayes family at Carlsbad since last July. The Hayes family, who did not learn of the tragedy until notified by wire from the Los Angeles, California police, scouted the theory of suicide. Mr. Hayes stated that Boyd was subject to heart trouble. Boyd has been employed by the United States Potash Co., until recently.

DEER HUNTER SHOT

SILVER CITY—J. E. Denton of La Mesa, this state, was wounded, perhaps fatally, when a rifle discharged accidentally as he was deer hunting in the Gila National forest above the Mimbres Checking Station yesterday.

Denton had both hands on the muzzle of the rifle. The bullet penetrated both hands and lodged in his head. One hand was almost severed.

He was rushed to the Nevada Consolidated Copper Company's hospital at Santa Rita for emergency treatment and from there was taken to the Ft. Bayard Veterans' hospital.

It was the second casualty of hunters in this region since the deer season opened Tuesday.

FIRST SNOW

The first snow fall of the year to cover a greater part of the Lincoln national forest occurred Thursday.

Company in the home of Rev. and Mrs. Bryan Hall during the Methodist church conference in Roswell, were: H. L. Thurston, brother and Rev. L. L. Thurston, father, of Mrs. Hall. The brother is from Wilson, Texas and Rev. Thurston, from Gallup. J. E. Hall, wife and daughter, Jeanne, of Carrizozo, were also here for a few days visit. J. E. is a brother of the local minister.

GOLD HUNTER

Capt. D. S. Bondurant of Cairo, Ill., who has been granted the first and only license issued by the New-foundland government permitting him to prospect for gold in wilds of Labrador. Captain Bondurant has led aerial exploration of this section for the past year and is said to be a gold area.

STUDENT PROBLEMS—KEEPING MIND AT WORK

(By E. A. White)
The statement has been made that children are not mentally lazy. If keeping the mind busy is a sign, then I say the statement is true. If a mind doing controlled thinking is an industrious mind, the statement is only partly true. A student came to us yesterday with a statement that he could start in at the top of the page, on his English with all the determination at his command, and that he often found himself reading at the bottom without having gotten a single idea from the whole page. His trouble is not that he can't think. The fact is he thinks so intently about matters foreign to his lesson that he is unable to concentrate on the things in hand. Directed thinking is a somewhat painful performance. Human beings have a tendency to "shun" what e're brings pain. A great deal of mental inertia must be overcome every time we do serious thinking, which is more or less disagreeable to any one, especially to high school students. However, a second thought will convince one that in the long run, more pleasure than pain comes to the student who is willing to endure the grief coming to one who applies himself industriously. Figures and known facts prove that one finally collects in cash and culture, values which bring pleasure far in excess of all the pains endured in the study process. Constant immediate efforts have another value. A fellow gets used to the success habit. The success habit brings greater pleasure in the future than pain at present—stated negatively: The fellow who does not study has to endure pain for his ignorance.

Whether we like the philosophy or not, we stamp and yell at the dog at the same time, in an attempt to put the fear of the master in him. We want him to know that pain will be the result if he remains inactive. The fellow who remains mentally inactive or inert, will as surely suffer for the inactivity.

Financial failures strewn along our business boulevards are men who have failed to think rightly. The accident I read about in yesterday's paper occurred because the boy's friend didn't think the gun was loaded. Some one acted without exact knowledge. Often times when we inadvertently get our names on the dotted line and have to pay some peddler a bounty for his "grab," we find we have thought wrongly or failed to think at all. We paid off the other day fifty-nine dollars and no sense (note the spelling). It was just because we didn't read carefully a jewelry peddler's contract.

The school boy who broke his tooth on the ornamental banana wasn't thinking about what he was doing. He's the kind of a boy who makes the man who signs up with peddlers for whole dollars and "no sense."

Moral: It pays to think for yourself. Don't let itinerants think for you. Do your own thinking and buy from the home merchants.

Yours for more and better thinking.

THANKS MR. HALL

Since Bryan Hall, pastor of the Methodist church, is being transferred to the Las Vegas district, we feel that this paper should express the appreciation felt by the citizens of this community for his labors here.

Rev. Hall is a minister whose sincerity is unquestioned, and whose devotion to the service of his fellow man is outstanding. He has worked at the job faithfully and well. For the last two years, Rev. Hall has helped carry the burden of the welfare committee, and has participated in other civic affairs.

We hope that Mr. and Mrs. Hall and children will be greatly blessed in their new field of endeavor.

HOUSEHOLD HINTS

Save Paraffin
Save all paraffin from used jelly glasses. Don't throw it away. That's being wasteful. Simply take each piece out of the used jelly glass and wash and dry it. Put away in a covered dish and keep handy for use again when needed.

COOKING HINTS
Hallow'en Cats
Make cats out of cheese. Method: Mold two balls of cheese—one a little larger than the other. Place the smaller one on top of larger one. Then on top one—mark cat's face—eyes, nose, mouth and ears. A tail can easily be added. These are cute on salad plates.

Hallow'en Salad
This is a pretty way to serve fruit salad.
Method: Take a pretty red apple. Hollow out center. Make a face on side. Fill with fruit salad.

Grape Juice Mousse
1 pint whipping cream.
3/4 cup powdered sugar.
Salt.
1 cup grape juice.
Method: Whip cream. Add the sugar, salt and grape juice. Mix well. Put in a chilled mold. Pack and let stand 3 hours. This recipe makes 3 pints.

BAKING HINTS
Baked Lima Beans-Salt Pork
Method: Cook lima beans until tender. Drain. Put in buttered baking dish. Place thin strips of pork throughout and on top, season. Sprinkle little brown sugar over all. If very dry add a little milk. Bake in a moderate oven until strips of pork are nicely browned.

Baked Steak
2 pounds round steak.
1 green pepper.
1 onion.
Little tabasco sauce.
1 tablespoon Worcestershire sauce.
1 cup catsup.
1 cup hot water.
Little flour.
Pepper and salt.
Method: pound flour into steak. Put in a pan of hot grease. Brown well on both sides. Season. Add onion, green pepper, lemon, tabasco sauce. Pour catsup and water over all. Cover. Place in oven. Bake two hours.

A man rushed up to the home of a doctor in a small village about 3:00 a. m. and asked him to come at once to a town several miles away.

The doctor hustled out to his car and they drove furiously to their destination.

Upon their arrival the man asked, "How much is your fee, doctor?"

"Three dollars," said the physician in surprise.

"Here you are," said the man, handing him the money, "the garage keeper wanted \$15 to drive me over when I missed my train."

Frank Vesley, democratic candidate for land commissioner.

STATE ORGANIZER HONORED

Mrs. Guy E. Rector of Tucumcari, state organizer of the P. E. O. made her official visit here last Thursday and was honored with a luncheon given by Chapter J at the home of Mrs. M. A. Corbin. The Corbin home was attractively decorated with gorgeous chrysanthemums, dahlias and roses for the luncheon, which was served in three courses at one o'clock, the dining table being centered by a handsome bouquet of chrysanthemums in the P. E. O. colors, yellow and white.

Following the inspection of the chapter, Mrs. Rector was presented with a gift, the president, Mrs. J. H. Jackson, making the presentation on behalf of the chapter. Mrs. Bessie Bonnie Foyil, president of Chapter D at Tucumcari, who accompanied the organizer, was the recipient of a handsome bouquet.

The ladies were the guests of Mrs. Jesse Morgan while here and left Friday morning to visit Chapter A at Carlsbad.

NOTE
Come in and settle at once. You have to pay your cotton pickers and day labor. This is labor and cash both. I need it bad. One and all yours truly. J. L. King. 42-2tp

British Prince to Wed Royal Beauty

Prince George, youngest son of the king of England, and Princess Ingrid, lovely daughter of the crown prince of Sweden, whose engagement was expected to be announced in the Swedish capital.

MEET MR. BEGTOSTATE
Wife—Did you have a hard day at the office, dear?
Mr. Begtostate—In reply to your query of even date as to my day at the office, regret to say that business matters were pressing, and I am very tired.
Wife—You poor dear! Well, come on now, dinner is ready.
Mr. Begtostate—In re your statement concerning immediate preparations to serve dinner, beg to advise that it will be five minutes before I can act on this, owing to the fact that I have just lighted a cigar. Regretting my inability to comply promptly with your request, and trusting that the delay will not seriously inconvenience you—
Wife—Lay down that cigar and come to dinner at once! It's getting cold.
Mr. Begtostate—Your complaint regarding delay in attending to your recent order has been called to my personal attention, and I beg to assure you same will receive immediate handling. Feeling sure you will be pleased and—
Wife—Thank heavens! Won't you have some potatoes, dear?
A woman is not old at thirty because most of them don't admit it till about thirty years after.

LITERATURE

Literature is life. Without life there could be no literature, but all life is not literature.

Had it not been for certain literary men during the Christian era, we would not have the Bible today. Had it not been for some broadminded men like Milton, this old world probably would not be so comfortable to live in. Milton had as much influence over England as did any other man of his time. How did he gain that public confidence? He had such dynamic personality and such high-minded thoughts and could express them so prettily, that the public simply recognized his greatness.

Take the great poets, especially the poets that wrote on nature. No one could tell us things so clearly as they could. The beautiful words and the rhythm seem to paint a picture for us, which any prose cannot express.

The drama, also was a great influence on the public in the early days, only the scholars then could read and write. It cost so much that only the wealthy could afford an education.

In that far off day the well educated people sought some way in which they could reach the masses, so they began by crude methods to stage plays, in which there was little or no plot. The most of these plays, dealt with religion. Often they would have a stage on wheels that contained two and even three floors. In the ones that had three floors, the lower floor represented hell, the second represented earth and the upper heaven. They tried to represent the ascension of man to heaven and the descent to hell. These plays were very crude indeed, but they express things to the masses that could not be reached in any other way.

During the years following these early periods, literature has undergone many changes. It is said that no civilized country has progressed more than its literature. We wonder if the "depression" we hear so much about in the United States is not due to lack of study of the things that count most. We may not think that everything that we come in contact with daily affects us one way or another.

Let us do our part by reading good literature.

WISE CRACKS

Boys, here is one that a certain girl wrote to another up in the front of the study hall. It was in many pieces, but it was put together. "A cadet would do if he were nice looking, mannerly, clever, cute, foot-ball star, tall broad, curly haired, just so it is not an ugly color." Well boys there are the requirements. Get your beauty books out and, and start football.

Miss George says: "Can you tell me anything about John Milton?"

Ruby: "Well, he got married and wrote 'Paradise Lost.'" Then his wife died, and he wrote 'Paradise Regained.'"

Buddy Utterback wants to know why Glynn Knoll's desk is located at the north end of the study hall. That's simple.

SANDWICH SPREAD

The following recipe for making sandwich spread was sent us by Mrs. A. W. Wilde:
Grind 6 red and 6 green bell peppers, (can be all green if preferred), 6 medium sized onions. Then grind enough tomatoes to make 4 quarts. Mix tomatoes, peppers and onions together and add 1 cup of salt and let stand over night. In the morning squeeze out of brine. Then make a salad dressing, 3 cups of granulated sugar, 2 cups of flour, 1 tablespoon of tumeric powder and 1-10c box of ground (French) mustard. Mix all ingredients to a thin paste with water. Then stir it slowly into 2 quarts of boiling vinegar. Cook until thick and add to tomato mixture. Stir thoroughly and heat thoroughly, not boil. Put in cans and seal while hot.

STATE ISN'T EXEMPT FROM GASOLINE TAX

SANTA FE—Gasoline purchased for state owned automobiles is still subject to the five cent excise tax, the attorney general Monday informed Comptroller Juan Vigil. Mr. Vigil thought the state might be exempt.

An exchange says a girl was overheard talking and was so dumb that she thought the eternal triangle was a baby's loin cloth.

PROF. WHITE TO ADDRESS HOPE SCHOOL FACULTY

Superintendent E. A. White will address the faculty of the Hope school November 18th, on the subject of "Educational Finance From the Teacher's Point of View."

The faculty of the Hope school is doing constructive research work relating to the teaching profession, under the leadership of Superintendent Irvin P. Murphy. The meeting which Prof. White will address, is in this interest.

Mr. White is well qualified to speak on any phase of educational work. He has been a president of the N. M. E. A., and is now a member of the executive committee.

ROOSEVELT WINS

Franklin D. Roosevelt won by a large majority in a straw vote conducted in high school last week. Of a total of 76 votes cast, Roosevelt won 53, Hoover 19, and Upson 1 and Norman Thomas 3.

The post graduates voted 4 for Roosevelt. The Seniors, however, were more divided in their voting than the post-graduates. Hoover and Roosevelt received 7 votes each, with 1 for Upson and 2 for Norman Thomas.

The Junior class voted more strongly for Roosevelt. In fact the Freshmen, Sophomores and Juniors were largely responsible for Roosevelt's one-sided victory. The Juniors voted 16 for Roosevelt, 2 for Hoover and 1 for Norman Thomas. The wise Sophomores (who boast of reading the newspapers) voted the strongest of all for Roosevelt. Roosevelt received 23 votes while Hoover only received 3. The Freshmen also had 3 for Hoover, while only 14 voted for Roosevelt.

WE WONDER ???

Why some of the Seniors are always making wise-cracks about someone trying to run the class?

Why Prof. White didn't start football this year?

Why the post-graduates were so anxious to learn who was on the honor roll?

Why Thelma doesn't want to take short story writing?

Why Ruth Wiggins likes to write her name on that new typewriter so well?

Why so many of the girls put their letters on the back instead of on the front of their sweaters?

Why Miss Clemons insists that she is letting us by too easily in typewriting?

Why Prof. White does not want to humiliate the high school students' grades by not putting the post-graduates on the honor roll?

CHAPEL EXERCISES

The Hagerman High School Girls Glee club opened the exercises Wednesday with "Twilight," which was enjoyed by everyone.

We wish to express our appreciation for the effort that these girls have put forth in giving the high school this good entertainment.

Kenneth Stine gave us a wonderful cornet solo, which went over with great success. We hope he will honor us with more of these solos.

Mr. White started his series of chapel talks on "How to Study." The first talk was on the proper way to think. This was enjoyed very much by all present.

Mr. Knoll seemed to get much 'kick' out of being classified as a kid when it comes to kicking a football.

Governor Arthur Seligman, democratic candidate for re-election.

SELIGMAN WOULD DIVORCE TEACHERS FROM STATE POLITICS

Enactment of a law insuring permanency of employment for qualified school teachers and divorcing employment of school teachers from political consideration was advocated by Governor Seligman in a prepared speech at Alamogordo Monday night.

"Some method to stabilize school income was also advocated. "Some satisfactory solution of the public school situation in New Mexico is one of the paramount problems before the people of the state," he said, "and undoubtedly will be given serious consideration by the next legislature."

"Because of a decided falling off in the revenues of the schools from state lands and interest on their permanent funds, they are in a most trying position."

In view of the economic condition throughout the state it has been impossible to increase the school tax burden on the people to offset the loss of other school income.

"In fact, it has been necessary to decrease the amounts of money to be paid in school taxes in 1932 by 7.37 per cent in comparison to the amount levied in school taxes in 1931."

"This is the smallest of the tax cuts made by your democratic administration. The reduction in state taxes has been 8.4 per cent, county taxes 16 per cent and in municipal taxes 15.49 per cent."

"There is an urgent need for some equitable plan in the state to stabilize school income without adding to the burden of the property owners. Our schools should not be subjected to the uncertainty of a greatly fluctuating income, and our taxpayers cannot be asked to assume an increased burden."

"I believe that the tenure of employment for our teachers also should be made more definite and more stable. I am of the firm opinion that the laws of our state should be so changed as to insure permanency of employment for properly qualified teachers."

The governor said he would do "my utmost" to obtain passage of a law "which will provide that the hiring of teachers on the basis of qualifications alone shall be mandatory, without regard to their political affiliations."

Residents of the state should be given preference, he said. "I believe," he said, "that provision should be made in the law that a list of qualified teachers should be kept in the department of education and that when a vacancy occurs in any county in the state, the position must be offered to the eligible teacher standing first on the list."

FEDERAL TAX PLACED ON CAVERN TICKET

Admission to the Carlsbad cavern was raised to \$1.65 which includes the federal tax on amusements of 10 per cent, it was announced at Carlsbad Saturday, by Col. Thomas Boles, superintendent of the Carlsbad Cavern National Park, says the Carlsbad Current-Argus. The new admission fee took effect Sunday.

The raise has been made necessary by an order issued by the internal revenue department of the United States Treasury department. O. N. Wherritt, official of the department, stationed at Roswell, was in Carlsbad Saturday and informed Col. Boles of the order making necessary the increase in the charge at the Cavern.

Col. Boles was of the opinion the Cavern was an educational study and that the 10 per cent tax was not necessary. The department of internal revenue officials hold that it is an amusement, however, and that the tax must be enforced.

The order on the 15 cent tax will be enforced on all passes and on all children over 12 years of age as well as adults, Col. Boles stated.

Admission charges to the Cavern is \$1.50 per person and 50 cents additional each way for those who ride the elevator.

There will be no tax on the elevator rides so that the schedule of rates will be as follows:

Admission rate without elevator ride \$1.65.

Admission, riding one way on elevator, \$2.15.

Admission, riding both ways on the elevator, \$2.65.

The new schedule was put into force Sunday morning, Col. Boles stated.

Huge Task of Nurses

Red Cross public health nurses, who work in hundreds of communities, are meeting the greatest demands in history for their services, due to the depression. Visits in maternity cases, protecting the health of infants and children, and aiding mothers in distress due to unemployment of the bread-winners have taken them into thousands of homes. The nurses made 1,357,000 visits to or on behalf of individuals, and inspected 949,000 school children. More than 58,000 adults were instructed in home hygiene and care of the sick.

The telephone offices are being remodelled and painted by Robert Cumpsten.

Clothes for the Needy

Women volunteers sewing for the needy under direction of the Red Cross produced 296,000 garments last year, and will produce millions of garments in the winter of 1932-33. These will be from the millions of yards of cotton cloth distributed by the national Red Cross from the 500,000 bales of cotton turned over to the organization by Congress. Cloth was sent to all chapters requesting it, and later it was proposed to send some simple ready-made garments, including trousers, overalls, underwear, stockings and sox.

INSIST ON GENUINE BAYER ASPIRIN

BAYER ASPIRIN

Because

The Bayer Cross is not just a trade-mark, but a symbol of safety.

That name tells you it cannot depress the heart.

The tablet stamped Bayer dissolves so quickly you get instant relief from headaches or other pain.

There is no disagreeable taste or odor to tablets of Bayer manufacture; no harmful quantities of free salicylic acid to upset the stomach; no coarse particles to irritate throat or stomach.

ENGRAVING at The Messenger

DAILY USEFULNESS

"I wouldn't be without my telephone on the farm. It's useful in so many ways—keeping in touch with market prices on poultry and dairy products—keeping in touch with my children going and coming from school, summoning neighbors to social gatherings and club meetings."

This is a statement from a farm telephone user who uses telephone service to advantage. It can be equally useful to you in emergencies, sickness, fire or accident, one call may be worth more than can be measured in dollar value.

The Mountain States Telephone & Telegraph Co.

NATIONALLY KNOWN SPEAKERS TO APPEAR IN NEW MEXICO

Democratic state headquarters have announced that Senator W. H. King of Utah and Thomas P. Gore of Oklahoma and Sam G.

Bratton of New Mexico will deliver addresses in New Mexico before the national election on November 8th in the interest of the democratic ticket.

Senator Gore of Oklahoma will speak over the radio station KOB at Albuquerque on Saturday evening, October 29th at 7:00 o'clock.

6 and 8 "Plies"

Of the six layers (8 layers in 6.00 and 6.50 sizes) of Super-tread Cord under the Pathfinder tread, two do not run from head to head—they are really cord "breaker strips" and that's what we call them.

As Low As \$4.55 EACH in Pcs.

Many other tires sell at higher prices. But the Goodyear Pathfinder gives such fine performance that it has become
