

THE MESSENGER

HAGERMAN, CHAVES COUNTY, NEW MEXICO, THURSDAY, AUGUST 31, 1933

A friendly town
A friendly community
Served by a friendly paper.

NUMBER 35

SEWER ADDRESSES CLUB TUESDAY WATER SYSTEM

Principal address of the Hagerman Men's Club Tuesday night was made by A. Weiland, of the Weiland Engineering Company of Pueblo, Colorado. Weiland explained the problem connected with the building of a sewer system and the construction of a water works system. The water works system would cost about \$45,000 and the sewer system would cost about \$30,000. The system cost this town about thirty thousand dollars. The sewer system would be about thirty thousand dollars with the water works system. The sewer system would be about thirty thousand dollars with the water works system.

T. POSEY RETURNS HOME SURRENDERS TO OTERO OFFICERS

Tony Posey, who is alleged to have shot and killed his father-in-law, Newt Pendergrass at Mayhill on August 22nd, surrendered to officers at Eight Mile canyon the following day, while eastern New Mexico officers continued their search for him. A coroner's jury empaneled at Mayhill held him responsible for the death of his father-in-law. He pleaded guilty to a charge of first degree murder Thursday and was held over without bond pending a preliminary hearing held Tuesday. Posey was positively identified after he was seen here at midnight on August 22nd. It was believed that he first intended to flee to Texas and later changed his mind, returning to the home of relatives near Mayhill, who persuaded him to surrender.

CHAVES CO. G.P.A. WANTS W. A. LOSEY AS STATE PRESIDENT

The Chaves County G. P. A. last night voted its support of W. A. Losey for president of the State G. P. A. for the coming year, and instructed all delegates to the state convention in Carlsbad Sunday and Monday to vote for his election. Pete Losey is now president of the county organization, was a member of the state game commission for years, and is one of the best informed men in the state on game and fish matters. The association also went on record last night as favoring an open season on pheasants next year, and posting a reward for the arrest and conviction of anyone killing pheasants out of season, and a 45 day quail shooting season for Chaves county. The association also favors a later date for the shooting of prairie chickens.

CRACK PASSENGER TRAIN IS WRECKED

TUCUMCARI—A storm in the rugged land of lava cliffs, dry arroyos and colorful vistas Tuesday destroyed two of man's most modern vehicles of transportation a crack train and a transport airplane, killing at least 13 persons and injuring 42. The Golden State Limited, passenger train carried eight to death and injured more than two score when it plunged through a weakened bridge into a flooded arroyo five miles east of here. The known dead in the train wreck were: C. J. Crofts, engineer, Tucumcari. James Randall, fireman, Tucumcari. W. H. Varley, Quincy, Illinois. F. D. Cook, Southern Pacific employe, El Paso, Texas. Sister Mary Cecelia, Tucson, Arizona. Mrs. Edder Benson of Nashville, Tennessee. Two unidentified women. Of the injured, Sister Mary Rose of Tucson, Arizona was not expected to live. A. D. Chambers of Los Angeles, a survivor of the wreck, said "the engine and several of the five cars went off the bridge on the north side and piled up. The engine," he said, "was buried deep in mud and water."

FIRST CANTALOUPES

The first car load of La Caverna cantaloupes, grown on the Carlsbad irrigation project will leave Carlsbad today for New York, says the Carlsbad Morning Sun. Prior to this, a truck load of cantaloupes left for Dallas last Saturday and netted the local growers approximately 60 cents per crate for jumbos. A second truck load of 70 jumbo crates left last night for Dallas. The melons shipped to Dallas were not first grade melons, Chas. Otis, representative of the Joseph Gettinger Co., shippers said.

MASS MEETING OF CITIZENS

A mass meeting of all citizens of Hagerman, and especially of the property owners, is called for Tuesday night at eight o'clock at the school house for the purpose of discussing a proposed sewer system for Hagerman. Everyone is requested to attend.

HAGERMAN DRAINAGE DISTRICT ORDERED TO PAY ASSESSMENT

SANTA FE—U. S. District Judge Colin Neblett Saturday signed an order in the case of Gerald Parker, Fred L. Dickey and J. Gist Search, realtors, versus the Roswell Drainage District, a corporation, confirming the report of commissioners on additional assessments to pay judgment totalling \$65,033.80. This is to be paid in seven installments the first on Sept. 1 and the others that date each year. The commissioners of the district are ordered to make annual levies on the lands in that district to meet the payments. Another order was entered for realtors against the Dexter-Greenfield drainage district to pay \$38,021.83 in the same way. Another order was for the Hagerman district to pay \$73,658.35 in like manner.

CHURCH OF THE NAZARENE

We are in a Revival Service with Rev. B. F. Harris of Roswell as Evangelist. Rev. Harris is preaching on the old lines of salvation or heartfelt religion. Come out and hear this man. Services each evening 7:30. Don't forget our Sunday school is still growing. Come and see for yourself.

WILLIAMS-ALEXANDER

Miss Elizabeth Alexander and Mr. Ray Williams, the son of Mr. and Mrs. Jerry Williams, both of Lake Arthur, were married in the Baptist church Monday at high noon by Harold Dye. The young people will make their home in Lake Arthur.

RIDES FROM CAPITAN

Clifford Wimberly, Hagerman Boy Scout, rode his horse from Capitan to Hagerman in three days, arriving here Monday. The distance is over one hundred miles. Clifford said that he enjoyed his trip immensely, and took his time on the way.

RAIN SUNDAY

The heaviest rain of the year fell here Sunday night, with the moisture measuring 1.37 inches. The rain was accompanied by severe winds. The streets were flooded for hours, in some places over the running boards of automobiles.

PLAYGROUND BALL

	W	L	Pct.
Mill	6	0	1000
Bus. Men	5	2	.714
Lanes	3	3	.500
Farmers	2	5	.286
Legion	2	5	.286
High School	1	4	.200

Monday night the Mill beat the Farmers, 17-11 in an eight inning game, and last night the Business Men forced the Legion to play an extra inning to win 10-7.

ARIZONA GINNERS DECLINE NRA RATE

Cotton growers of the irrigated districts of west Texas, New Mexico and Arizona at Phoenix, Arizona Saturday decided to propose to the national recovery administration cotton ginning rates of 30 cents a hundred pounds for short staple and 60 cents a hundred for long staple for inclusion in the ginner's code. The meeting, attended by more than 100 growers or their representatives, was called by the Arizona state farm bureau federation after officials of that organization said they had learned the ginner's code had set up prices of 40 and 80 cents a hundred pounds for short and long staple cotton respectively.

NEELY RE-APPOINTED

H. W. Neely was reappointed department adjutant of the American Legion at a meeting at Santa Fe Sunday of the executive committee by Gen. Osborne C. Wood, department commander. Confirmation was unanimous. General Wood was authorized to appoint an assistant to the adjutant to assist during the year. This appointment will be made soon, he said. Because of economic conditions the committee decided during the coming year no minimum membership would be required to keep a post charter in force. The minimum requirements to organize a new post, however, remains unchanged, 15 members. Charter of post 55; Santa Fe, was cancelled. During the last year the post did not have a paid up member.

MARRIED

Marvin Menefee, son of Mr. and Mrs. J. P. Menefee, and Mayre McIntosh, daughter of Mrs. Rufus Campbell, were quietly married in the home of the bride's parents, by Rev. M. M. Robinett, grandfather of the groom, yesterday morning. These popular Hagerman young people will make their home here. Their many friends wish them all the happiness in the world throughout life.

FIVE KILLED IN AN AIRPLANE CRASH NEAR TUCUMCARI

Clovis—Down treacherous lava cliffs and over slippery hill, five bodies Tuesday night were carried on horseback from the wreck of a Transcontinental Western air express plane to Clovis. Deep in the Malpais, or bad land, where mesa show grass topped levels but hide sheer lava cliffs, a silvery metal plane lay crumpled with only slight evidence of fire. The wings and fuselage of the multimotor monoplane were driven into the west end of one plateau, called Mesa Redondo, where a promontary juts out from the rest. Two miles over the almost inaccessible laval beds there was a semblance of a road where ambulances awaited the bodies. From there is was nearly 60 miles to Clovis over who had been roads but now were pools and puddles and slick mud, due to heavy rains and cloudbursts. The dead in the wreck had been identified as Mr. and Mrs. Ralph Gore of Albuquerque and their granddaughter, Evelyn Gore, aged 3, Pilot Howard Morgan and Pilot C. W. Barcus, both of Kansas City. Their bodies were burned when the plane crashed to its fiery end, but not badly according to early reports. The Gores had just started home from a vacation in Amarillo taking the grandchild back with them for a visit at their home. The picture of the accident from the air indicated the plane was flying due south when it crashed into the point. The accident occurred only 20 miles from where a transcontinental train plunged into an arroyo and at least seven persons were killed. While Tucumcari was closer than Clovis, there were no roads to Tucumcari, necessitating the longer drive to Clovis.

NEW MEXICO ROAD OIL CO. SHIPS OUT OIL IN CAR LOTS

The New Mexico Road Oil Co. is now able to supply road oil in car load lots from its Dayton refinery, it was announced here recently. Previous to the 28th, the finished product was shipped out by trucks in limited quantities to be used by the highway department for maintenance, but the capacity of the refinery has been increased so that the refined oil in car load lots can be supplied on short notice. Fresh oil from the Getty pool is being supplied the refinery for its daily runs. Mr. and Mrs. Albert Curry, of State College, and Mrs. Julia Thomas, of Lincoln, Nebraska, are visiting in the home of their parents, Mr. and Mrs. C. W. Curry.

MRS. EDNA BALLOU DIED SUNDAY A.M. LEAVES 7 CHILDREN

Mrs. Edna Ballou, widow of Jim Ballou, and the mother of seven children ranging from the ages of six to eighteen, died Sunday morning at 11:30 in St. Mary's hospital after an illness of several days with pelagra. Jim Ballou, husband of Mrs. Ballou, was shot to death on the streets of Artesia December 24th, 1928, when his youngest child was one day old. Since that time Mrs. Ballou has labored hard to make a living for her small children. She has received some help from the county and a little from the citizens of the community. Mrs. J. W. Hart is taking care of the children this week, and they will be turned over to Judge McGhee next week for some disposition of their case. The funeral of Mrs. Ballou was held in the Hagerman Cemetery Monday with Rev. J. W. Slade in charge of the services.

PASS--CAVERN ROAD TO BE COMPLETED

ALBUQUERQUE—Frank Butt, chairman of the state highway commission indicated Friday that plans for the Alamogordo-El Paso highway, will be carried out despite the protests of Las Cruces residents against the road. The commission chairman said that plans for the much discussed road will be carried out in order to protect revenue now received by Otero county from El Paso vacationists. Discussing the recent conference of New Mexico and Texas highway officials at El Paso, Butt praised the co-operative plans agreed upon or an improved highway from the Carlsbad Caverns to El Paso. The new route from Carlsbad, he said, will make the rare potash fields easily accessible and will go between New Hobbs and Old Hobbs. An all-paved road between the Caverns and El Paso, he added should attract many tourists into New Mexico from the transcontinental highway between Fort Worth and Los Angeles, and allow them to continue on by way of Roswell, Alamogordo and Las Cruces to U. S. 80. They could thus visit the White Sands national monument near Alamogordo. "It looks like New Mexico gets another cut-off in the southern part of the state," he commented "but I am against cut-offs unless I can see where we benefit from it, and I believe we can. The bankhead highway from Ft. Worth to the coast is reported to have an average of 1,800 cars a day. If we can connect it, we may attract several hundred cars a day into New Mexico for visits to the Carlsbad Caverns."

ROY LEE HEARN AND IRMA LOVE MARRIED

Miss Irma Love, daughter of E. L. Love of Dexter, became the bride of Roy Lee Hearn, son of Mrs. M. G. Hearn, of Hagerman, in a quiet wedding ceremony on the lawn of the Presbyterian church Saturday evening. The service was read by Rev. John G. Anderson, pastor of the church. Mr. and Mrs. Hearn are two of the Pecos valley's finest young people. Mrs. Hearn is a graduate of Dexter high school, and Mr. Hearn, a graduate of Hagerman high. They will make their home in the Van Arsdol apartments.

HAGERMAN SCHOOLS OPEN SEPTEMBER 4 FIRST DAY IMPORTANT

School starts Monday, September 4th, and according to Superintendent White, prospects are favorable for one of Hagerman's best school terms, with one of the largest enrollments, and possibly the greatest attendance in the history of the school. The first day is of great importance. Many points are made clear as to the courses offered and the requirements for graduation. Parents who are not sure as to what their children should offer for in high school, should consult with Mr. White before making out individual programs or buyin books. Brennon Witt will perform a like service for the grades. Very few changes in the faculty have been made. The new teachers are: Miss Grace Padock, a daughter of a former superintendent of the Hagerman schools; Miss Almarita Grawden and Brennon Witt, who will be principal of the grades. These three people are well qualified for their work, both by training and experience. They have the standard bachelor's degree and if necessary could qualify for high school work. All faculty members should meet in the superintendent's office not later than 8:00 a. m. for instruction as to enrollments, classification, the securing of blank books, report cards, lesson plans, registers, etc. The faculty of the Hagerman schools is well trained, honest, conscientious and is ready not only to co-operate in making this term of school one of the best in the state of New Mexico, but is willing to co-operate in every community affair which is to the best interest of the Hagerman people. The school is ready at any and all times to serve the community. It will be of interest to many to know that readers of the first three grades will be furnished free to all children of the community. Those who have old readers of these grades, who do not care for them, might send them to school the first day, as this would enable the school authorities to supply more pupils. These old books will be accepted as part payment on new ones. Under this plan, new books may be furnished to late comers, as well as those who start in at the first of school. Detailed instructions have not been furnished to the superintendent as to how the books will be let out. Further directions will be given out as soon as they come from the state department of education at Santa Fe. It is hoped by all that Hagerman will have the best school year it has ever known. To accomplish this, it will be absolutely necessary to have the full co-operation of faculty, students and parents. Hagerman has found that its economic life has been made possible by proper working together of its citizens. Co-operation in its irrigation project, in its alfalfa marketing, its city water works, which is one of the cheapest in the state, its cotton gins, and other varied interests have won success for them. Co-operation in the school will bring the same gratifying results.

Texas Goes Wet

DALLAS, Texas—The final unofficial tabulation announced at 6 p. m. Sunday by the Texas Election Bureau on results of Texas' referendum Monday on repeal of the 18th amendment and legalization of 3.2 per cent beer showed repeal leading by 111,502 votes and beer legislation by 124,600 votes, out of a total of 435,658 tabulated. The Election Bureau, a semi-official organization maintained by Texas newspapers, estimated that less than 100,000 votes were outstanding—these so widely scattered as not likely to affect the final vote. The vote for repeal represented 62.78 per cent of the total tabulated and the vote against 37.22 per cent. The vote favoring beer represented 64.47 per cent of the total and the contrary vote 35.53 per cent. Returns from 239 out of the state's 254 counties, including 35 complete and more than 150 substantially complete, showed: For repeal 273,580. Against 162,078. For beer 277,440. Against 152,840. Mr. and Mrs. Louis Michelet left Monday for their home in Clovis after a few days visit with Mr. and Mrs. Vedder Brown. Mr. Michelet had played in the Roswell Golf Tourney.

Ain't It Grand?

HAROLD DYE, Managing Editor

BEHIND THE SCHOOL

Monday sees Hagerman launched on another educational year. It is a sacred task which is committed to the faculty of Hagerman schools and to the patrons of this community.

The children of this community are our most solemn trust. We can give them of our strength, of our courage, and of our help, or we can fail them all together.

The challenge to Hagerman community now is to pull itself together, to forget petty differences, and to be magnanimous in thought and action.

Patrons are responsible for the harmony, or lack of it within the school itself. Parents can make horrible mistakes. Any parent who speaks slightly of any teacher before his or her child, has been guilty of a serious error.

Another failing which parents have that causes grief untold to those who are dealing with their children, is the attitude which some assume that "my child is perfect."

Let's pull together this year. Be willing to overlook a few faults, and ready to help and we will be able to reap the satisfaction of knowing that we have been busy doing our part well.

APPOINTED ENGINEER EXAMINER PUBLIC WORKS

SANTA FE—George M. Neel Monday accepted appointment as engineer examiner of the New Mexico Public Works board.

Chairman M. A. Otero, Sr., of the board announced the appointment Monday, saying the salary had been fixed at \$4,000 by Washington. Neel refused the place at \$3,000.

The board said it now would be able to handle the 250 applications for financial help from all over the state. These represent projects for schools, public works, water works and reservoirs.

The board said it probably would have 17 to 20 million dollars to spend in New Mexico "provided sufficient labor can be found to use that sum."

It rained—b'gosh!

Our idea of pep, power and personality, is John Langenegger's Model T. Ford.

School starts Monday. We had a letter from Miss Nell Burt last week. Miss Burt has been concentrating on a unique invention this summer.

A news story tells of the arrest of two men for sleeping in a Los Angeles theater. If they ever go so far as to arrest people for sleeping in church, we'll have a big public works program build-enough jail houses.

A lot of people think there'll be a mint in selling beer if beer comes back. They figure strong on the fellow who likes to see his personal liberty returned, but some fellows so strong on personal liberty may be like the guy who wants a wife mighty bad until he gets one.

And here's the story of a colored preacher's picture of eternity in hell, that has been going the rounds. Our readers ought to know more about what eternity means when they read this:

"But now, sistern an' brethern, does yo' know wha's eternity? Kin yo' sinful minds picture ETERNITY? Eternity in HELL? Lemme give yo a idea what eternity in hell is. Ovah yondah to de east is de Atlantic ocean. An' ovah yondah to de west is de Pacific ocean. Hit's three thousand miles of dis United States of America, solid land, between dem two oceans. Three thousand miles of land between dem two oceans whut's got so much watah in 'em dat de Mississippi rivah don't mount to no mo' to 'em dan one spit in hell.

HOW TO PLAN FOR LOW COST MEALS

Low cost meals can be well balanced and palatable if they are carefully planned in advance, says Veda A. Strong of the New Mexico State College.

When planning low cost dinners for a week, the following may prove helpful: Serve meat for four dinners, using the cheaper cuts of meat in soups, stew, and meat and vegetable pie.

Use fish for dinner, such as an inexpensive brand of canned salmon. This can be served as it is or made into salad, salmon loaf or scalloped salmon.

Dried beans, peas, or lentils can be served as the main dish for one dinner, and no meat will be necessary.

With the above dinners, potatoes may be served with the meat and fish dishes. One other vegetable or fruit should be served each day.

A dessert is not absolutely necessary but adds interest and flavor to the meals. Some inexpensive and very good ones include bread, rice and Indian pudding, but this type should not be served on the day that the macaroni or rice dish is used.

thousand miles to San Francisco, again. He don't fly, He don't run. He don't hop. He jus' walk, slow lak an' easy. When he git to San Francisco he pick up one mo' drap o' watah out'n de Pacific ocean, an' he start back fo' New Yawk. Drap by drap sistern an' brethern, dat li'l jaybird finish de job he done start. He don't fly. He don't run. He don't hop. He jus' walk, back an' fo'th, slow lak an' easy. He ca'y dat watah fum de west to de east, fum de Pacific to de Atlantic, drap by drap, in he li'l beak. He ca'y hit fum de Pacific ocean, an' he drap hit into de Atlantic ocean.

GOVERNOR WANTS 20 C. C. C. CAMPS

Governor Seligman Tuesday announced his intention of applying for 20 C. C. C. winter camps, after a conference with Supervisor Elwood, Washington, of the national park service.

In the meantime, he is appointing State Highway Engineer G. D. Macy and Jesse Nusbaum, director of the Laboratory of Anthropology, as a state park commission to plan a program.

Elwood told the governor he might be able to get 12 camps. Governor Seligman has four parks in mind, one in Santa Fe canyon, one on the Lincoln forest, one on the Datil and one in the Mogollon range.

These are already natural parks; but, said the governor, they are hard to reach. He would have the C. C. C. boys put to work building roads, putting up shelter huts and making other improvements to attract visitors.

WASHINGTON IS WET, 3 TO 1

SEATTLE—Washington Tuesday became the 24th state to join the unbroken procession toward repeal of the 18th amendment on the basis of incomplete but representative returns from the 46 legislative districts in the state.

CRIME ANNUALLY COSTS 13 BILLION

Every year, on an average 12,

TASTY SANDWICHES FOR SCHOOL LUNCHES

School lunches can be better balanced and more attractive if time and effort are put on them. Many of the canned meats can be used for sandwiches. During the canning season, some products can be canned which are especially planned for school lunches.

Sandwich Spread No. 1 Grind 14 medium sized cucumbers, 1 quart onions (after they are ground), 3 red peppers and 3 green peppers, through fine knife of vegetable grinder. Add 1/4 cup salt. Let stand over night. Drain off brine. Cover with weakened vinegar and 4 well beaten eggs. Cook these ingredients until smooth and thick, then add 1 cup sweet cream and 1 teaspoon each of celery and mustard seed.

Sandwich Spread No. 2 Mix together 1 quart ground green tomatoes, 1 quart ground cucumbers, 1 quart ground sweet peppers. Soak overnight in salt water made by adding 4 tablespoons of salt to 1 gallon of water. Drain off salt water. The next morning, grind or chop, 1 bunch of celery and 2 onions and add to first mixture. Mix together 2 cups of sugar and 1 cup flour. Add 1/2 cup butter, 1 cup prepared mustard, 1 quart of mild vinegar and 1/2 teaspoon of celery seed and mix thoroughly. Add vegetables and cook for 30 minutes, stirring to prevent burning. Push to back of stove and simmer for 30 to 50 minutes longer. Pack boiling hot and seal.

Sandwich Spread No. 3 Cook meat until it comes off the bones readily. Run through a food chopper. To each gallon of ground meat add the following: 1 quart of soup stock, 2 medium sized onions (ground), 1 cup prepared mustard, 1 teaspoon cinnamon, 1/2 teaspoon cloves, 1 tablespoon celery salt, 1 teaspoon pepper, 2 tablespoons salt, 4 tablespoons vinegar and 1 teaspoon chile powder. Mix well, put in can and process quart jars 55 minutes at 15 pounds pressure.

If you want additional information on school lunches, secure the circular "School Lunches" from W. A. Wunsch, county extension agent at Carlsbad.

The annual vocational home economics conference for New Mexico was held at State College August 22-25. The four day conference was attended by home economics teachers from all over the state.

Plans were formulated for further co-operation between home economics departments in the schools with relief and welfare agencies. Vocational home economics departments have already been very active in meeting present economic emergency through programs of food preservation and clothing renovation and have done much to relieve distress.

Other speakers at the conference were Miss Margaret Reeves, state welfare director, and Mrs. Georgia L. Lusk, state superintendent of public instruction. The conference was in charge of Miss Zelpha Bates, state supervisor of home economics education.

AMERICA FLIES AHEAD

There's a real thrill for Americans in the survey of world aviation just completed by W. B. Courtney, aviation editor of Collier's Weekly. Mr. Courtney spent ten weeks in Europe, flying over the leading commercial air routes there, and comparing them with similar American air routes.

"The airways of America have caught up with and passed all foreign rivals," he reports. "They are now the most efficient and reliable in the world."

American airports are superior to anything in Europe; American airway schedules are faster, more reliable, safer; Americans fly more miles per day than all the rest of the world put together. These are Mr. Courtney's conclusions, and he has the figures to back them up.

Night flying is almost unknown in Europe. No more than four commercial planes are in the air at night on the whole continent. In America nearly 100 commercial planes are flying on regular schedules every night of the year.

Some of Mr. Courtney's findings, even in minor matters, are an interesting commentary on European conservatism. "In boxing air freight," he says, "the Europeans use lumber where we use light paper cartons. European packers are thorough, and they have a droll faith that lumber will protect the good in case of cracks."

Mr. Courtney's report, the most authentic and complete of its kind which has yet been made, will have a wide technical and popular interest, and will probably be read with considerable care in Europe, where a realization of their com-

HEALTH COLUMN

ATTENDANCE AT WORLD'S FAIR WILL SMASH ALL RECORDS

CHICAGO, Illinois—The race is half over, A Century of Progress

the Chicago World's Fair — leads, and is steadily pulling away from the field. That is how the 1933 fair stands in its attendance race with all other American expositions in history. At midnight Sunday, August 13th, the fair passed its seventieth day, with seventy-nine more to go before closing time November 1. The total number of visitors who paid for admission tickets was just a whisper away from the 9,000,000 mark.

The attendance for the first half was just a few million shy of the total attendance at the St. Louis exposition and at the San Francisco exposition. Only one previous American exposition looms to challenge the 1933 record. That is the World's Columbian of 1893, generally considered the most successful of all fairs.

A Century of Progress at the close of its seventy-ninth day had been host to nearly 9,000,000; the 1893 fair, which passed its eighty-ninth day on August 13, drew a total of 6,346,954 during that span of time. More than 15,000,000 came through the gates during the second half of the Columbian exposition to swell the final figure to 21,480,000.

If the 1933 fair maintains its present attendance ratio to the 1893 fair until closing day, the total attendance will reach 30,482,000.

"The attendance record for the first half of A Century of Progress is highly encouraging," says General Manager Lenox R. Lohr's comment. "With the first half of the exposition over, we have received about one-third of our total paid attendance, if the experience of past expositions is any criterion.

"Should our attendance continue in the present ratio to the attendance at the World's Columbian exposition of 1893, we shall reach the 30,000,000 mark."

One of the most substantial reasons advanced for the great crowds is that A Century of Progress offers the visitor such a great number of free exhibits. There are eighty-two miles of free exhibits in the 1933 fair. Eighty-five per cent of the exposition may be seen for the price of a general admission ticket.

Mr. Strawson will broadcast over KOB at 7:30 p. m. September 4th, Labor Day.

SELIGMAN WANTS N.M. OIL ALLOWABLE

SANTA FE—Request that New Mexico be allowed a daily production of 150,000 barrels of oil will be made by Gov. Arthur Seligman to the federal agency which will control oil production under the new oil code.

This request is considerably more than the state is now producing, but the governor feels that since New Mexico has produced her oil in a scientific manner during the past few years when some other states were glutting the market with cheap oil, consideration should be received from the federal agency and the local allowable increased. Texas, California and Oklahoma according to information reaching oil men here, want the federal agency, which will probably be headed by President Roosevelt himself, to base the new allowables on present production.

The governor believes this will be unjust to New Mexico and will fight to have the New Mexico allotment fixed at 150,000 barrels daily. Under the new code, price of crude oil will probably materially increase, which is another reason the governor is anxious for the New Mexico allowable to be boosted. Royalties to schools and institutions will be hiked, it is believed, as well as royalties to owners of land in fee.

If the oil severance tax, passed by the last legislature, is held not subject to the referendum, due to its emergency clause, then the increased production will mean a considerable increase in tax revenue, which will be applied to reduction of the property tax. Production of 150,000 barrels daily will not harm the ultimate recovery from the Hobbs pool, since this amount is still far below the pool's daily capacity of over a million barrels.

Price control by the federal government is certain to increase the price of crude oil, operators believe. The code, according to information reaching Santa Fe, takes the years 1928 to 1932 as the basis for fixing the price of crude. It was found during this period that a price of crude oil brought 18.5 times as much as a gallon of gasoline at the refinery, wholesale. If this ratio is correct, then if gasoline sells for five cents at the refinery, wholesale, a barrel of crude oil will bring 92½ cents. This expected advance in price will materially add to the state's income from royalty. Whether the price jumps to 92½ cents or not is still problematical, but it is expected to go considerably above the 30 cents per barrel, now effective in the Hobbs pool.

"None of the oil produced in New Mexico has ever been stored," the governor said, "which is another reason why we should be given a material increase in daily production. Other states have stored considerable oil. The oil in storage will be drawn upon, as well as the oil still in the ground. Unless our production is increased under the code, we will be discriminated against in this respect."

1,500,000 NOW ENLISTED IN NRA CAMPAIGN

WASHINGTON, D. C. — NRA volunteers — 1,500,000 strong — opened Monday, under Hugh S. Johnson's mandate "we cannot afford to fail," a campaign to implant the blue eagle in every business house and in millions of homes.

Speeding this "greatest corps of volunteers in the country's history," on its door to door canvass, Johnson told his workers and the country that "either through codes or agreements we enter this drive with between 70 and 80 per cent of the employers in trade and industry already under the blue eagle.

The recovery administrator described the drive as "a milestone in human progress, explaining: "For the first time the American people has a chance to test in business a principle that they long ago proved in government. That principle is the trite old slogan — 'In union there is strength'."

"Buy under the blue eagle" was the watchword set by Johnson for his volunteers after warning that "even a shadow" of "boycott, intimidation and violence" would spoil this whole endeavor."

He added: "But there must not be the slightest misunderstanding. It is not a boycott for the people of a distressed country to say they are going to stick to those who do their part to cure a common evil and to ignore those who refuse to do so. To do otherwise would be to frustrate the national purpose."

When Johnson made his address he had just completed one of the NRA's biggest tasks and was deep in critical negotiations to try for completion of a second.

ADMIT N. M. GINNERS

DALLAS, Texas—New Mexico ginnermen have been admitted to the Texas Cotton Ginnermen's association for the purpose of putting into effect the ginnermen's special code approved by Gen. Hugh S. Johnson, national recovery administrator, George Hagn of Segun, president of the association announced Tuesday at the close of a board of directors' meeting.

The code provides for a gin storage charge of 25 cents a bale for the first 20 days and a cent a day thereafter. Provision of a 40-hour week was made for office workers in gins, excepting those paid \$35 a week or more; a 50-hour week for factory workmen and a minimum wage of 20 cents an hour for all workers excepting weighers, who minimum was set at 30 cents an hour. No hour limit was set for weighers.

LEA COUNTY COURT TERM

Judge James B. McGhee of Roswell will open the September term of court in Lea county at Lovington on September 11. The retrial of the case of Milton Groom Riddle alleged to have killed his wife, and whose conviction was reversed in the state supreme court will be held.

REESE SAYS SEPT. 9 IS DEADLINE FOR THE VOTERS TO REGISTER

The following opinion from District Attorney George Reese with reference to who may vote in the special election September 19, may be of interest to our readers. Mr. Reese gave out the opinion to valley newspapers after the publication at Roswell of an item stating that it was too late to add names to the registration list: "I refer you to Chapter 135 of the session laws of 1923, which is an act calling the election for September 19th, 1933, for the purpose of election delegates to a convention which shall approve or reject the proposed amendment relating to the repeal of the eighteenth amendment to the constitution of the United States and in said act it is provided that at the same time an election shall be held for the purpose of approving or rejecting all amendments to the constitution of the state of New Mexico proposed by the last legislature.

Section 5 of said act provides as follows: "The persons in each voting precinct qualified to vote at such special election shall be qualified voters of such precinct as shown by the final registration book of the precinct for the last preceding general election; "Provided, however, that registration list may be corrected by being purged of names of all persons who since the date of such general election have died or for any reason have become disqualified to vote, and by adding to such registration the names of electors who have become qualified to vote since such last preceding general election. Any qualified voter may, at any time not later than ten days prior to the holding of said special election, apply to the district court of the county in which he is a qualified voter to correct or purge said registration book as herein provided. The district court shall immediately consider any such petition and if it appears that any names should be stricken or added shall order the clerk to correct, add to, or purge the same accordingly and the clerk shall make final corrected copies of said registration list available to the proper election officials on the day of the election."

The above statute is self explanatory and needs no comment, as by its expressed terms, the district court is required upon the filing of a proper petition to purge the registration list at any time within ten days prior to the 19th of September.

Yours very truly, G. L. REESE, JR., Dist. Attorney.

GERMANS FAVOR SCOTTISH PLAIDS

German fashion experts have decreed that these rather loud looking plaid shirts are just the thing for wear by the men folk. Being rather economical, they are said to be ideal for wear in warm weather.

SMART MULE

HEMPHILL, Texas—Pole Mason, farmer near Hemphill, has a mule with a disposition extraordinary docile. For seven years he has walked between the cotton rows, careful not to trample the growing staple.

Last week, Mason had planned to start plowing up his cotton. The old mule refused to lean against the collar and pull the plow. No amount of persuasion, either gentle words or punishment could move him. Mason and his sons tried all day to force the animal to work. When the struggle was over they conceded his strength of purpose.

The School Year Begins

Hagerman and Dexter school teachers and students are invited to visit our lunch and cold drink counters when in Roswell. We have always served the discriminating people of Hagerman and Dexter communities, and this year will be no exception to the rule.

TAXES SHOW DROP

Property taxes remitted to the state treasurer's office during the last fiscal year totalled \$1,991,275.15, says a statement given out by Deputy State Treasurer R. L. Ormsbee at Santa Fe. For the year ended June 30, 1932, they were \$2,116,949.17; for that ended on the same date, 1931, \$2,254,410.27.

All receipts coming into the treasurer's hands in the last year amounted to \$12,400,792.61. For the preceding year they were \$12,416,992.21; the year before that \$15,115,940.99. Of this \$12,400,792.61, Ormsbee classifies \$1,549,837.86 as non-revenue receipts and \$10,850,954.75 as revenue receipts. The former include debt obligations, such as highway debentures; monies collected for other civil divisions; from the sale of investments or from miscellaneous sources.

The revenue receipts for the preceding year were \$10,273,213.93.

Among the revenue receipts, a noticeable feature is that fines collected by the district and justice of the peace courts dropped to \$5,694.66 for the last year, from \$10,997.56 for the preceding year. For the fiscal year ended in 1931 fines totalled \$21,843.21.

The gasoline tax declined to \$2,354,557.55 for the year, from \$2,534,066.19 for the year before. This tax brought in \$2,722,131.13 for the fiscal year ended in 1931.

SLEEPING SICKNESS CLAIMS MANY

ST. LOUIS—Lights in St. Louis medical centers are burning far into the night as science, tired eyed but undiscouraged, seeks an explanation for an ever-widening spread of mysterious "sleeping sickness" which Monday had taken 40 lives.

The valiant but so far futile fight has claimed the attention of federal, state and local authorities.

MARKETS

N. Y. COTTON (October Option)		
	Open	Close
August 24	9.30	9.40
August 25	9.52	9.67
August 26	9.76	9.70
August 28	9.56	9.63
August 29	9.63	9.65
August 30	9.55	9.48
August 31	9.38	9.40

During the week under review the market has fluctuated over a range of sixty points or three dollars a bale.

Fisdick points out a rather bullish feature that should not be overlooked. He says "seventy five per cent of the farmers signing up to reduce acreage have discovered that they are having to plow under 10 to 25 per cent more of their cotton than they had supposed." In a few instances 50 per cent of their crop, when the acreage signed was plowed under has taken all their crop. These considerations will amount to approximately two million bales and needs to be carefully considered as the season advances.

Aside from this there is little bullish news for consideration. There is still a rather strong belief that the administration cannot afford to enforce the completed N. R. A. program with cotton at present levels and some sort of inflation seems certain about the last days of September or early October.

We are of the opinion that commodity prices have much better chances to advance from here than to decline drastically. Government report due October 8th may show a slight increase but other factors are now of greater moment than these officials guess.

Mrs. Perry Andrus, who has been seriously ill, is improving.

Mr. and Mrs. Ramon Welborne have arrived in Hagerman for the next school term.

Mr. and Mrs. Brennon Witt have moved into the George Bible house. Mr. Witt is principal of the grade school this year.

Mr. and Mrs. John Henry Slayter left Wednesday morning for their home in Clovis after spending a few days here. Mr. Slayter is teaching in the Clovis school again this year.

Frank Curry has given up the chicken business in Carlsbad and is here for a few days before going back to State College. He ordered the Messenger for a year, as did also Tom Utterback, who is leaving after a few days. Hagerman boys know that they can't live without The Messenger.

SCOUT NEWS

One hundred and fourteen Girl Scouts camped at Camp Mary White this summer.

Sixty-two girls stayed two weeks, 21 were in camp for four weeks and 29 stayed six weeks.

Including staff members and leaders taking Girl Scout training courses, there were 175 campers in all.

Twenty-one towns and five states were represented in the children's camp.

Camp closed August 27, after having been in session for six weeks.

FURTHER STEPS AGAINST UNLAWFUL PRICE ADVANCES

WASHINGTON, D. C.—Representatives of the National Consumers' Advisory Board are present at all hearings on codes, as are those of the National Labor Advisory Board and the National Industrial Advisory Board and of the research and planning and legal bureaus of NRA. Yet a further step has been taken by the cabinet advisory board of NRA to protect the public against profiteering after employers secure the blue eagle. Request will be made of all operating under codes of fair competition or under the President's Re-employment Agreement to submit information on recent price increases. In addition, at the suggestion of the recently created central statistical board of the government, each code approved would include provisions requiring submission of such statistical information as may be desired. The purpose is to prevent prices soaring faster than purchasing power can be stimulated.

been tendered a very good position as English and Spanish teacher in the high school of Downville, California, which carried a splendid salary. School opens September fifth. Miss Van de Bout is a graduate of Berkeley University.

MITCHELL-RAWDON
The marriage of Miss Goldie Rawdon and Fenn Mitchell Saturday afternoon in Santa Fe, was a surprise to their many friends in the Dexter vicinity. Mrs. Mitchell is the daughter of Mr. and Mrs. A. B. Rawdon of Dexter and is a most popular young lady. Mr. Mitchell is in the farming business with his brother west of Dexter, and is also connected with the Akin Gin each season. This young couple has a host of friends in the valley who wish them all the happiness that can come to anyone.

SPOTTED RAINS FALL OVER AREA WASHOUT ROADS AND HIWAYS

Spotted showers continue to fall in the eastern section of the state. The showers, heavy in sections have been interspersed with hail. Reports reaching here say that a heavy hail fell in the region about twelve miles southwest of Hope and cut down and destroyed all vegetation. An upland tank was filled to a depth of two or three feet with hailstones after the storm had passed, it was reported. During the same night a good rain fell from the Beckett ranch to Eagle Draw bridge. Monday night also, a torrential rain fell at the edge of the Cap Rock, forty-five miles east of Artesia and washed great holes along highway 83, it was said. A highway maintenance crew was called to make repairs before travel could be resumed over the highway.

Scattering rains have fallen over the greater part of the state and west Texas during the past two weeks. The moisture has brought relief from the summer heat and run the thermometer down to an average of 90 degrees for the maximum. Up to Tuesday the moisture received here had been negligible, amounting to about .15 inches. Roswell received another heavy rain Sunday night, which extended north to Vaughn, Clovis and Lovington on the east. Passenger traffic was delayed for several hours unday night due to high waters in the Roswell area. Ranges in the eastern section of the state are in good condition for this season of the year. The range west and extending into the hills is getting dry, but there is still stock water in the water holes and creeks. A general rain now would practically insure winter range.

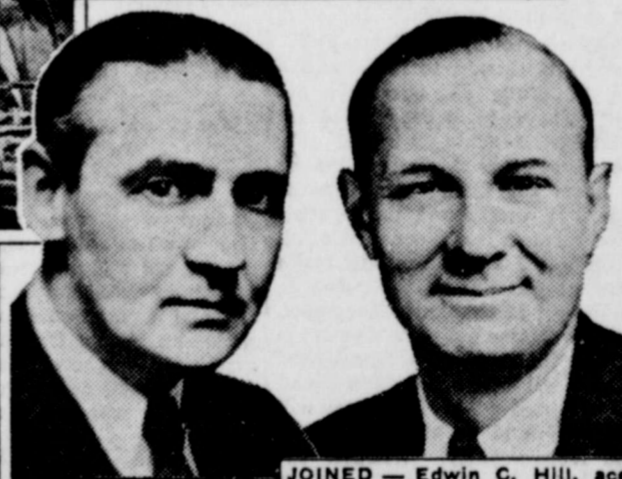

The Santa Fe spur from the refinery of the United States Potash Co., to Lovington suffered several wash outs and blocked traffic at several points Friday.

Adelbert Weiland of the Weiland Engineering Company of Pueblo and Denver, is in Hagerman consulting with members of the town board and others in regard to a sewer and water system here.

PAUL ARES SHOOTS SELF AT HOME OF SON IN EL PASO FRIDAY

Paul N. Ares, 64, pioneer west Texas and New Mexico rancher and cattleman, died a few minutes after he was found late Friday with a bullet wound in the head, at the home of a son, Calvin T. Ares in El Paso, Texas. He was found by his ten year old grandson, George Ares.

Calvin Ares told detectives his father had been despondent over the loss of his large estate and feared he would become a burden to his children. The elder Ares had made his home with his son in El Paso since coming from Carlsbad.

Survivors were four sons: Calvin T., F. N. Ares of Las Cruces, L. M. Ares of Slaton, Texas; A. E. Ares of Carlsbad and a brother, Albert Ares of Mariana, Arizona.

Mr. Ares operated a ranch for a number of years in the Guadalupe mountains southwest of here and was well known to many of the older cattlemen of this section.

W. A. Losey and H. P. Saunders with Beauty and Sue, bird dogs belonging to Mr. Saunders, left today for a prairie chicken hunt north of Tatum.

Mr. and Mrs. Conrad Christensen and children, of Pinos Altos, New Mexico, are in Hagerman visiting with Mrs. Christensen's parents, Mr. and Mrs. J. L. King. Mrs. Christensen and children will remain here for the school year.

Tea Plant Is a Tree
The tea plant is really a tree and left to itself will grow to a height of 20 to 30 feet, but scientific pruning keeps it to an average of three feet. This makes the young leaves and shoots more compact and accessible. The plants are perennial and the leaves are picked every 10 or 12 days throughout the year. The quality is determined by the part of the bush that is picked. That which is chosen from the buds and tips is called "flowery." If young leaves are included it is orange pekoe. Then as subordinate in value, come pekoe, souchong, congou and dust.
