I had said, as the man put down she was talking rapidly. And then a suitcase on the little folding he struck her. I am here?" Naively I had thought it odd he hadn't announced me when I arrived.

"Oh, yes, Madame, she will be in formed," he said perfunctorily.

"And what time is dinner?" I wanted to know.

The man had looked vague, "Oh -the usual hour, I expect. At eight. But you can have your tray sent at any time you wish. A little earlier?"

I was afraid I stared. As guickly as I could, I said, "No-at eight, then," and my voice was not successful, either, in cloaking what I

For the sake of saying something indifferent-sounding, I asked quickly, "Just where is the art gallery here?" and he told me that it was around the corner from my room, on the same floor, across the

Then he shut the door with professional quiet, and I pretended to be busy about the room, unpacking quer of the Chinese furniture, the note of levely rose in the deep-cushioned chair. But I was just getting more angry inside. A warm bath didn't soothe me, nor donning the red frock I had brought for "five o'clock," My cheeks were flaming. I found myself dwelling on the noble origins of my ancestry, and the presumably ignoble money-grubbing strains in these upstarts-absurd, the intensity of childish emo-

tion I wasted on that experience! Of course, my disappointment was making itself felt, for it was not only a blow to my pride, but to the little vague, excited hopes I had been cherishing ever since I had been given the commission to go over the Keller collection, and the Keller secretary-through whom the arrangements had been made - had asked me to come down Friday afternoon. Why Friday afternoon, if I was not to be part of the houseparty that the papers said the Kel-

lers were assembling? Why, I was an artist! Not a painter-but an authority on old masters. In studying abroad I had worked under Berenzen, fascinated by his science of detecting impostures, and had given myself to study of the past. I knew canvas. threads, pigment. I might have known them, unrecognized, for long years; but by luck my discovery of the Lorenzo substitution, just as the Detroit millionaire was completing the purchase, flashed me in

stepping into the shadow of the wall to find one.

Out of the darkness a voice spoke by my European experience, that vious to any feeling of slightedness, it was some watchman of the gal- to go down, as if it were a matter lery, and I said, quickly: "It's all of indifference.

I heard somebody walking toward Then my fingers found the the room, I fairly flew. switch, and the lights sprang on. And before me the face of a man in evening dress seemed to spring silver slippers. The crystal chain out at me with the lights, it was so white, so startling. It was a beau- with a comb. tiful face, narrow, high-bred, chalenging, like some of the portraits of gay young aristocrats in old Engsh canvases. But the expression vas queerly desperate. It was the ost bitter and tormented face I ad ever seen.

A little breathlessly I said: "Oh! thought it was the watchman, I ust wanted to see the pictures.' His words pricked me with em-

parrassment at having blundered on some rendezvous. "I was just-walting," he said a ittle vaguely, "You-we haven't

met before-have we?" 'No-oh, no," I stammered. just came to see the pictures." And I turned to be gone, before that girl for whom he was wait ing should arrive.

"You can't see the pictures you go," he reminded me with a of negligent amusement "They stay on the walls."

"I mean - I just came to the been six when I arrived-it was ouse to see the pictures-to examine them," I explained. "I'm not part of the house-party. I'll see them better by daylight.

And as he said nothing to that, I went. Back in my room, I told my-

Adventurers' Club

> "Cigarette in the Dark By FLOYD GIBBONS Famous Headline Hunter.

ELL, sir, here's one man who will never join the Antibacco League. He is Peter B. Greenberg of Woodmere, And why won't he join the Anti-tobacco League? Well, it's e a cigarette once saved his life. And there's quite a story of that, too, boys and girls.

It happened back in 1924, when Pete was living in Brook He started out for a stroll one evening and ran into an old pal. Pete went to his pal's house and, since they hadn't seen each for a good many years, they began to swap tales.

Pete was in the heating business and doing pretty well at it. out the years hadn't treated his pal so well. He was a doctor, and 't making much money at his chosen profession. In fact, ne was behind in his rent down at the office, and was going to have to move out on the first of the week.

Well-Pete had a couple of trucks that he used in his business, and ove his friend's furniture. His pal accepted the offer grate-, and on Saturday, Pete went down to his office to help him pack up. Landlord Was the Last Man They Wanted to See.

Pete started out for the office that Saturday with his pack of cigaket and little dreaming that one of those butts would ly turn into a life-preserver before the evening was over. He got the Doc's office and they began packing up the furniture.

They had been working for about half an hour when there sek on the door. Pete started to open it, but the Doc m back, whispering to him that it was probably the landord, who lived in the building, and what with owing him a lot nt money, he was the last man in the world Doc wanted to

dy had to say something. "To be discreet," says Pete, "I as there, and I was asked the same thing. I told him I was a c's and that we were cleaning house. 'All right,' he answered, uld bear him walking away down the flight of stairs."

"Stick 'Em Up" Wasn't Exactly Music to Pete's Ears. It was a close call, but it looked as if they had gotten by with it. e and Doc were almost finished with the packing by then. There were such a hurry that it really was funings left that the Doc wanted to take care of himself. Pete ny. You would have thought he bad nd called it a day. He put on his coat, walked down the burned his toes. Then he turned walted for the Doc who said he would be with him shortly.

It was cold outside, so Pete just stood in the vestibule to "The vestibule was dark," he says, "and all I could the lighted cigarette between my fingers. The Doc was coming. I finished my cigarette, waited a while, and on It another one. It was a good thing I did. The fact that I ive today is probably due in a large measure to the fact that, at times, I will smoke one cigarette right on top of another."

s dragged on. Pete was halfway through that second ciga te and was beginning to wonder why the Doc didn't come. His back

Pete Felt a Gun Jammed Between His Ribs.

the door and he was leaning against the wall when suddenly, out where came the terse command: "Put them up!"

Landlord Is Suspicious of Skullduggery in Doc's Office. "I was startled at first. Then it came to me that Doc had the stairs and was playing a joke on me. I said, 'Oh, stop Doc.' And with that something hard-it hurt, I tell youd between by ribs, and again came the order: 'Put 'em up or I'll

That time, Pete's hands went up-just as fast as he could . He didn't know then that it was a stick-up, or what. But he'd felt that gun in his ribs and that had been plenty. Now pulled him out into the vestibule, and he saw, to his ret it was a policeman.

the story began to come out. When the landlord had knocked at or, he had become suspicious at the evident reluctance of Inside to let him in. He didn't believe Pete when he said he of Doc's and, in fact, sort of suspected that there was

lowing Cigarette Butt Is Beacon to Copper.

he went down those stairs, he went right out looking for a He found the officer on post, told him there were burglars in nd the cop came hot-footing it back to the vestibule where

it was nothing but the cigarette that saved Pete's life. first command, which Pete didn't obey, the cop tightened or on the trigger. He was ready to shoot the minute the mmand was out of his mouth. It was dark in the vesticop couldn't see a thing but that cigarette butt. When up in the air, it told him that his command had been nd he held his fire.

cop walked up to Doc's office to check his story, he was face and covered with perspiration. The realization that he tilled an innocent man made him weak in the knees for the of an hour. And as for Pete-well-he didn't feel any too t it either. He still doesn't to this day.

gry red in Billy's eyes he knew that Billy wasn't fooling. "Goodness. that was a narrow escape!" exclaimed Bobby. "I'm ever so much obliged to you, Billy Mink. I hope that some day I can do something for you. If you hadn't happened along tonight I guess I would be in a terrible fix right now. Do you

suppose that trapper built that little

'He built it so that the only way of going up or down the Laughing Brook without taking a lot of trouble would be to go through that little opening, and no one could get through that little opening without stepping in that trap. There's another one set just the same way on the other side of the Laughing

Brook." Bobby Coon looked across and for the first time he saw the other little fence. Bobby's face became very sober. "We ought to do something about those traps," said he. "We are the only ones who know anything about them and we can't sit here all the time to warn others who may be traveling up and down the Laughing Brook. I wouldn't want my worst enemy to be caught in one of those dreadful traps. What can we do to warn others?"

"I don't know," replied Billy Mink. "I guess we'll have to put our heads together and think up something. You know, two heads are better than one.' Bobby nodded. "Let's go back to

that old log there and talk it over,' said he. And this is just what they CT. W. Burgess.-WNU Service.

No Need to Suffer "Morning Sickness"

"Morning sickness"—is caused by an acid condition. To avoid it, acid must be offset by alkalis—such as magnesia. Why Physicians Recommend Milnesia Wafers

These mint-flavored, candy-like wafers are pure milk of magnesia in solid form— the most pleasant way to take it. Each wafer is approximately equal to a full adult dose of liquid milk of magnesia. Chewed thoroughly, then swallowed, they correct acidity in the mouth and throughout the digestive system and insure quick, com-plete elimination of the waste matters that cause gas, headaches, bloated feelings and a dozen other discomforts.

Milnesia Wafers come in bottles of 20 and 48, at 35c and 60c respectively, and in convenient tins for your handbag contain-ing 12 at 20c. Each wafer is approximately one adult dose of milk of magnesia. All good drug stores sell and recommend them. Start using these delicious, effective

anti-acid, gently laxative wafers today Professional samples sent free to registered physicians or dentists if request is made on professional letterhead. Select Products, nc., 4402 23rd St., Long Island City, N. Y.

A Line To You

What was wrong with us last week? (Nothing, except that we did not hear of any more bricks CHURCH OF THE NAZARENE being thrown). And we did not go on a vacation either.

The other day we decided we would do a little investigating and started quizzing some of the veterans. We have not seen very many, but here is what we heard. No. 1, when asked what he would do with his bonus, replied: "Why, pay off my debts, guess then I can go to work and make some new ones." No. 2 replied: "Well, I don't know, that is a lot of money, don't think I want another house, not much money in a house." No. 3: "What if I should answer you as the little boy, 'It's none of your business.' " No. 4: "Well, I'm going to pay for my home." (So, there! When we have the courage, we'll find out some more).

We heard the other day of an elderly trio who went to church and went up to the front seat (to be sure they would hear the minister). They slept through the sermon.

Typewriters for Rent at Messenger

Secretary Henry A. Wallace last week approved changes in the ag ricultural conservation program for the southern region which allows small producers and others to be paid for additional cotton base

acrege planted to soil-conserving

crops or devoted to soil-building

Heretofore, the maximum diversion for which full payment could be paid was thirty-five per cent of an individual producer's base cotton acreage. The change allows small producers with a base of five acres or less to receive full payment for diverting up to two acres

The provision that payments for a county as a whole could not exceed twenty-five per cent of the county quota was changed to allow individual producers to be paid for diverting the full thirty-five per cent. Under this ruling, any producer may receive full payment for diverting thirty-five per cent even if diversion for the county exceeds the previous twtney-five per cent maximum by a figure ranging up

The modifications enable small producers and other cotton farmers who have been hit by the drought to take full advantage of the crop insurance provision of the agricultural conservation program.

The change which enables producers with a base cotton acreage of five acres or less to divert up to two acres is in line with that section of the soil conservation and domestic allotment act which provides that the secretary of agriculture shall in every practicable manner, protect the interests of small producers.

The modifications will be of value principally in the drought area but Mr. Cobb said they would apply in instances where other causes made

CARBON PAPER-The Messens

Washington Digest National Topics Interpreted By WILLIAM BRUCKART TONAL PRESS BLOG. WASHINGTON, D. C.

WASHINGTON -- Dr. Francis E. ! bers were afraid, they were ment of pensions Townsend of \$200 per month

Plan Flops for everyone over sixty years of age but there are developments in conunworkable scheme that merit comment. The good coctor and his halfbaked idea have been skidding rapidly since the house investigating committee showed up the plan as a befuddled idea and as I once predicted, the bubble burst in a big

While I am aclined to believe that Doctor Townsend was honest and sincere in proposing the \$200 per month pention, it was the sort of thing that serves as an inducement for racketeers to gather. It was the old molasses barrel for the flies in the world of racketeers. It never had a chance to go anywhere and never will, because it was fundamentally unsound. We can dismiss it then except for the two phases which ought to be vigorously condemned by right-thinking people everywhere.

The two circumstances which I hear discussed most frequently are: The tragedy, the heartaches, that obviously follow in the wake of "movements" such as the Townsend plan that cannot succeed and that draw to themselves thousands, if not hundreds of thousands, of persons who believe they are going to me that the house committee, headed by Representative Bell, of Missouri, overplayed its hand with the result that it has brought upon house committees the same public disgust and distrust as characterizes 90 per cent of the senate investigations.

Each of these conditions is to be deplored. Each is definitely destructive. There can be no more excuse for some of the methods employed by the house committee in crucifying Doctor Townsend than for Doctor Townsend himself to wreck hearts and hopes and homes by pushing forward such a miserably impossible proposition as his \$200 per month pension program.

The house committee had within its power opportunity to do a magnificent job in exposing the rack eteering that became part and parcel of the Townsend plan. It had within its hands the capacity to educate millions within the United States against following such an illusion, such a mirage, as the Townsend plan. If it had confined itself to that work, Representative Bell the plaudits of the nation. But the of us they are and will remain the sad story is that the committee un- seventeen-year locusts. der Mr. Bell's guidance allowed itself to become an agency of prosecution, even persecution, rather than an unbiased investigating unit. determined only to obtain the truth.

Since there never was any question that the Townsend nostrum would fall of its Committee own weight eventually, it is diffi-Errs

cult to understand why the committee resorted to the tactics it used. ; watched some of those hearings. As the committee delved deeper into the activities of Doctor Townsend and his associates, it became infuriated. That was where it made its big mistake and It is going to be quite a long time before house committees again can have a reputation throughout the country of conducting unbiased and reasonable investigations.

Doctor Townsend was sufficiently "hard boiled" to justify the committee in making a vigorous investigation. He was sufficiently indifferent to their offers or hints of co-operation to warrant a feeling on the committee's part that they had to "bear down." Yet it must be said the committee went beyond all reason and I imagine that in the end it will flare back on the individuals.

Now, Doctor Townsend surely cannot blame anyone other than himself for the fact that he is faced with proceedings by the United States attorney. It will be remembered, of course, that Doctor Townsend deliberately walked out of the committee and refused to testify, That has always been held as contempt and congress has the right to punish for contempt. In this instance, the house of representatives elected to turn Doctor Townsend's case over to the United States attorney for punishment in court rather than to employ a house vote which might send the elderly dreamer to jail.

Further, the whole Townsend investigation has turned out to be something of a mess like the Townsend plan itself.

. . . Thus, there is every evidence of a second type of politics in this investigation. The Second Type evidence of pollof Politics ties lay in the fact that the house voted the inquiry largely because many of the individual house mem-

Townsend's fanciful dream for pay- cowardly, to take a definite stand in their home districts against the Townsendites, True they did not know how strong the Townsend movement was. So, as politicians seems to have gone up in smoke, always do, they dodged the issue and moved to expose it through nection with the California doctor's the medium of a house investigation rather than fight individually to show how ridiculous, how unsound, the plan was,

Having set up the picture show ing an utterly impossible program on the part of Doctor Townsend and his associates and followers, the house politicians were confronted suddenly by Doctor Townsend's arrogance in his refusal to testify. That presented a sudden change in the scenery. To explain the dan gers in this new problem, it is only necessary to say that if the house had acted promptly by voting that Doctor Townsend was in contempt and must spend some time in jail, I expect the result would have been martyrdom for Doctor Townsend

The house, therefore, has turned over the affair to the courts and the courts, being slow moving as they always are, will not get around to Doctor Townsend is left out in the cold. He can neither use the influence that is characteristic of martyrdom nor can he say that his skirts are clear. The house has left him hanging conveniently in benefit; and secondly, it seems to mid-air and it was done solely for political reasons,

There may be some more hearings on the Townsend plan during the summer but the chances are that Representative Bell will not call the committee together again for some months. Practically, the case is closed. It has undoubtedly stopped to a large measure the drain that the Townsend organization was making on the unthinking, the aged and the destitute whose quarters. dimes and nickels have financed the thing thus far. While the committee did a good job by exposing the character of the scheme, I still am doubtful that it has brought to itself or to the house of representatives any fresh confidence in our governmental structure.

The national capital, along with many other sections of the country,

. . .

has been listening 17-Year to the purring of hordes of "lo-Locusts custs." I use the

They are cleadas but to the most Dobbs. They have visited many parts of the world together.

It is said that the first colonists in America, never before having met with the insects and belfeving that everything of God's creation was accounted for in the Bible. concluded they were locusts and the name has stuck. In any event. they appear in greatest numbers at seventeen-year intervals and 1936 seems to be a banner year.

Back in 1919, trees in many secions of the country were pierced by tiny saw-like instruments which the Department of Agriculture says are part of the equipment of the female cicadas. Billions of eggs were deposited under the soft bark. A month or two later, grubs emerged on the branches and dropped unnoticed to the earth.

Through the last several weeks these great beetle-like bugs with wings like isinglass have been humming and thrumming and leaving their empty shells attached to trees and grasses.

During that period, the males have spent their daylight hours the Presbyterian board of pensions, singing. The Department of Agri- who was elected moderator of the culture is not quite sure why this general assembly of the Presbytesinging has gone on because it has rian church in the United States. ascertained that all of the lady cicadas are quite deaf.

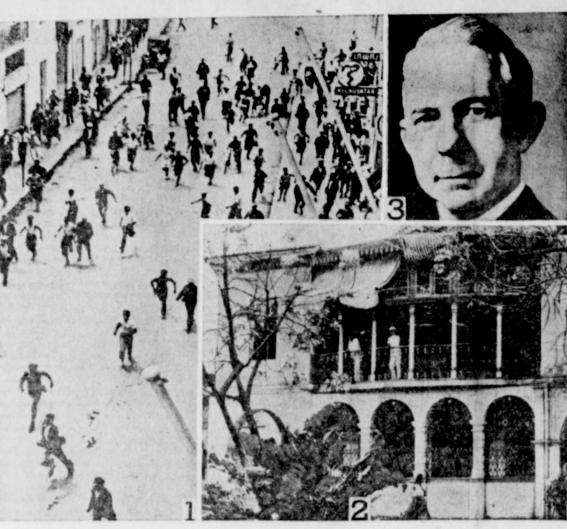

Perhaps I have devoted too much space to the story of the seventeenyear locust. Perhaps the seventeenyear locust is not important at all except to the robins and the starlings and the sparrows and the other birds which have had a feast in 1936 that almost no other bird now living has known. But I have a thought about these seventeen-year ocusts, a train of thoughts, in fact. They lead to this:

What will conditions be in 1953. or seventeen years hence when those humans on earth will hear again the mating song of the locusts?

Will the policies and the principles initiated by Franklin D Roosevelt and called "the New Deal" be firmly imbedded as American traditions or will they be cast out as impractical and forgotten? Will the changes in civilization be such that people will be willing to submit to regimentation, to have their government tell them what to do and how to do it, or will this nation be a nation of individuals who insist upon the rights and the privileges which the founders of our country believed to be just and right?

REVIEW: JESUS MEETING HU-MAN NEEDS

GOLDEN TEXT-Jesus of Nazareth . . . went about doing good.-

PRIMARY TOPIC- Jesus Our Best JUNIOR TOPIC-Because He Lives. INTERMEDIATE AND SENIOR OPIC-Jesus Meeting My Needs. YOUNG PEOPLE AND ADULT TOPIC-Jesus Meeting the World's

The lessons of the quarter center in one supreme person and have one transcendent theme. Jesus Christ the world's Savior. The best method of review for senior and per. They will send adult classes will be to refresh the ply of health girl minds with the principal facts and leading teachings of each lesson, The following suggestions are of-

fered: Lesson for April 5.

The great supper represents It gives all .- H. God's gracious provision of salvation for mankind. The urgent invitation is extended to all to accept Jesus Christ as Savior. The making of excuses illustrates the sin and folly of men in rejecting God's free grace.

Lesson for April 12.

The resurrection of Jesus Christ is the supreme proof of the delty of Jesus Christ. The empty tomb is the divine guarantee that Christ was what he claimed to be, and that his offering on Calvary's cross was accepted by God.

Lesson for April 19.

The center of interest in this parable is not the prodigal son or his brother, but a certain man who had two sons. He who falls to see the heart of our Father God will miss the purpose of the parable. The whole of revelation as it pertains to a sinning race and a pardoning God is swept before us in this narrative.

Lesson for April 26.

The story of the rich man and Lazarus gives us a look into two worlds. In this world the rich man lived in luxury while Lazarus begged at his door. In other words, their positions are reversed. Death is coming to rich and poor. Worldly condition is not a test of man's reationship to God. The rich man did not go to hell because he was rich, neither did Lazarus go to eaven because he was poor.

Lesson for May 3.

Forgiveness is a Christian obligation. Humility is a Christian qual

Lesson for May 10.

Prayer is an obligation on the part of the believer. Spiritual growth is absolutely impossible without it. Men should pray under all circumstances.

Lesson for May 17.

Zacchaeus brushed aside all difficulties in order to see Jesus. He proved the reality of his conversion by making restitution. He was saved instantly upon receiving Jesus Christ, Salvation is a present reality to those who believe on Jesus Christ.

Lesson for May 24.

Jesus warned against the scribes. They claimed to be loyal to the Word of God yet showed their lack of the saving grace of God. In connection with his teaching in the temple, Jesus prophesied of his return and warned against unpreparedness as to his coming.

Lesson for May 31.

The last meal that Jesus ate with his disciples was the passover, the memorial of the national deliverance which pointed to the supreme deliverance to be effected by Christ on the cross of Calvary. In connection with the passover, the feast of the new covenant was instituted. This has a double import, looking backward to the great deliverance wrought through Christ's atoning death and forward to the even greater deliverance which he shall accomplish at his second coming. Lesson for June 7.

Jesus' indescribable agony in the garden shows what it cost the sinless Son of God to identify himself with the sinning race when in anguish he sweat as it were great

frops of blood. Lesson for June 14.

The crucifixion of Jesus Christ was the greatest tragedy of all hisory. May the fact of the sinless Son of God suffering for a sinning race, move all sinners to accept salration at his hand.

Lesson for June 21.

Jesus having given the disciples the parting message to evangelize the world, ascended into heaven, May these last words of our Lord be received by us as our supreme obligation to take the gospel to very creature.

The lessons of the entire quarter ave been rich in teaching material. A faithful presentation of the Bible essages given should mean conversion for some and growth in grace for others.

League of Nations and the World

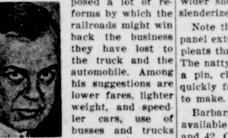

Governor Landon in a telegram read to the convention by his campaign manager, John Hamilton, placed his own interpretation on certain planks in the platform. Under the title of labor he advocated a Constitutional amendment permitting the states to adopt legislation necessary to protect women and children in the matter of maximum hours, minimum wages and working conditions, provided it is not possible to do so under the Constitution as it now stands.

He likewise advocated a currency expressed in terms of gold and convertible into gold, adding: "I recognize, however, that this requisite must not be made until and unless it can be done without penalizing our domestic economy and without injury to our producers of agricultural products and other raw mate-

Concerning the merit system in civil service, he suggested that it should include every position in the administrative service below the rank of assistant secretaries of major departments and should cover the entire Post Office department.

Eastman Offers Program of Railway Reform

TUST as his office was about to expire, Joseph B. Eastman, federal co-ordinator of transportation, submitted a report in which he proposed a lot of re-

and consolidation of terminals and other facilities.

He also advised the development of a nation-wide "container" service in the movement of freight by railway, highway and water, predicting that this would save millions of dollars in the handling of present freight and would create much new business. The containers are now used in a limited manner in some localities and industries.

Eastman recommended a "search ing examination and thorough overhauling" of railroad pullman service, and a plan of operation under which the pullman company would own and operate the cars and railroads, leasing them and retaining the entire revenue from the sleep ing and parlor car service.

Russia to Become Only "Real Democracy"

R USSIA proposes to establish what its rulers assert will be the only real democracy in the world. A new constitution, to be promulgated next fall, has been drawn up under the direction of Josef Stalin, the dictator, and will be acted on by the all-union congress of soviets on November 25. This document guarantees protection for private property, suffrage for all citizens more than eighteen years old, regardless of race, sex, religious belief, and previous activities or property ownership. The communist party will be retained as the only recognized political organ-

There are to be two legislative bodies, the council of the union, elected by the people, and the council of nationalities, selected by the present indirect system. These two bodies will elect a board of 31 officials to run the government. The chairman of this board will be equivalent to the president of a republic,

The official press in Moscow says bourgeois democracy is a "dictatorship of capitalism," whereas the Soviet democracy will grant the widest rights to all working people the "old, exploiting classes" having disappeared over there. (

Death of G. K. Chesterton, Noted English Author

O NE of England's most distinguished and interesting authors and critics passed from the scene in the death of Gilbert Keith Chesterton, generally known as "G. K." He was sixty-two years old. Chesterton was converted to Catholicism in 1922 and thereafter much of his writing was devoted to his championship of that church. For many years his writings were very popular and in 1926 he established his own weekly magazine. He was the author of about 50 books and innumerable articles.

Chesterton loved to write something incongruous and was called "prince of paradoxes." Combative, unconventional, and dogmatic, his was a distinctive style. His outspoken criticisms in addresses and writings frequently led to contro-

TEA TOWELS BRING **GAYETY TO KITCHEN**

No "afternoons off" for this colored Mammy, for she must "wash the cups and saucers up, and put the clothes away." But you can take an afternoon off and embroider yourself a set of tea towels with these amusing Mammies, for the work goes very quickly, it's cross stitch, outline, running and single stitch. Her gay bandana and checkerboard apron suggest themselves for the brightest floss you can find. A set's nice to donate when Fair time comes around. In pattern 5547 you will find a transfer pattern of seven motifs-one
