PROSPECTORS AND GEOLOGISTS

Prospecting for gold is done either in a region hitherto improved, or in sections which contain auriferous areas for extensions or lost or abandoned leads. There are still tracts in this State which have never been carefully prospected, but where gold may possibly be found. The Los Burros district in Monterey county, is in a range where no one supposed good mines could ever be discovered; yet some good mines are being worked there, and it is on the coast range. The relations between the geologist and the practical miner have been very cordial in this country. There is a tendency on the part of the geologist to regard the miner as an empiric, while the miner is apt to regard the geologist either as possessing mysterious knowledge or one ignorant altogether of practical mining.

Geological science does not teach that gold is arbitrarily confined to any particular formation, or to rocks of any special groups; but the experience of practical observations and the result of scientific investigations show that in various parts of the world the deposit of gold in matrix rocks has been most actively developed during certain geological periods, some very ancient, others comparatively recent, and that alluvial gold can only be looked for successfully in formations resulting from the denudation of such matrix rocks. Every old prospector can tell his tale to illustrate how uncertain and apparently erratic is the mode of occurrence of gold in both alluvial and quartz. The creek prospected from side to side without result, while the rich lead lay concealed under adjacent hill-slopes; the holes bottomed without a color, while a few feet away ounces of gold to the pan rewarded subsequent workers; the promising quartz gravel in well defined lead, worthless, while an adjacent ledge wash angular detritus near by paid well; the well defined lead barren, while an insignificant vein near by paid largely. All and many more instances are within the experience of most men who worked in gold fields.

This does not imply there is no law. It simply means we have not mastered the law so far as to be able to indicate certainly where gold will or will not be found within an area having generally encouraging conditions. Every fragment of gold is in the place where in consequence of the operation of certain fixed laws. The chemical laws we may know, but have not learned their application as regards the de-

posits of gold in matrix rocks. The mechanical laws are simple enough in themselves, but how their operation was influenced by past geological or physical conditions we can only conjecture.

Hence it can be easily understood that, though the geologist may be able on scientific reasoning to indicate generally the areas where gold may or may not be found, he may or may not be able, unless he has had practical experience, to direct the actual search as well as the practical prospector, who has been taught by numerous failures and successes to look for it in any conceivable position, regardless of any apparent law that may have been formulated from a limited experience.—Mining and Scientific Press.

Riches from an Old Mine.

When two men can take out \$100,000 in less than a year from a quartz mine, they are doing a pretty good business. Yet this is what two young men, Messrs. Grant and Appel, have done in the Chipps Flat pocket mine, between Moore's Flat, Nevada County, and Allegheny, Sierra County. And they have no mill, either, simply pounding the rich rock up in a mortar by hand.

This mine was abandoned over twenty years ago, and lay idle until these men took hold of it. They ran about twenty feet further in the old tunnel and struck it rich. Since then they have made a number of buillion shipments, the last bar weighing 125 pounds.

Should we read of an occurrence of this sort in a distant region, hundreds of men would be anxious to go to a locality so favored. Yet here it has attracted no special attention. The same may be said of the Bonanza claim, a pocket mine in Tuolumne County, which has yielded very largely of late. In pocket mining there are great chances to be taken, of course, but if the chance is a lucky one, there is great reward for labor. Doubtless many others of the abandoned mines in the older districts of the State will be worked again in course of time, when people come to a realizing sense of their good fortune in living in a region where there are such golden possibilities. Sierra and Tuolumne are not the only mountain counties where there are opportunities for energetic and persevering men in quartz mining.—Min. and Sci. Press.

UNCLE SAM'S PAYROLL.

The Actual Number of People Who Work for the Government.

An accomplished statistician has just completed a series of interesting calculations showing the total number of persons employed in all manner of capacities by the United States Government. The results of his calculations show that there are 88,000 employed in all branches of the postal service alone and 62,000 others filling positions in the legislative, judicial and miscellaneous divisions of the government, with some 35,000 privates in the army, navy and marine corps and between 12,000 and 15,000 men and boys who gain their livelihood from the government for work directly incident to the increase of the navy and the construction of heavy guns, making a grand total of about 200,000 persons enrolled in the glorious service of Uncle Sam. The number who would like to add themselves to this vast army, in the experience of the active politicians, is probably something like six or eight millions more.

The postal employes comprise in addition in addition to the clerks in the Post Office Department, all mail contractors, mail messengers, clerks in the railway mail service, postmasters, with their assistants and letter carriers. In the military and naval list proper only the names of officers are given, while the privates are not counted. There are 26,000 of them in the army, 8,250 in the navy, and 2,000 in the marine corps. The civil service branch includes, besides the post office people, all employes subordinate to the executive departments, the officials of Congress, all the secondary and independent bureaus, the Government Printing Office, the Smithsonian institution and National Museum, all the Indian agencies, mints, custom houses, all the benevolent and philanthropic institutions in Washington, and the government of the District of Columbia. Taking the statistician's estimate of the average salary received by all the government's servants, not counting the privates in the army, navy and marine corps, the annual payroll aggregates not less than \$165,000,000. Assuming that out of the 85,000,000 inhabitants of the U. S. at least twenty-six millions are grown up persons, men and women, there would seem to be only one office holder in every circle of 157 grown persons, and one office holder in every collection of 333 men, women and children.—Philadelphia Press.

Columbus, O., January 10.—Democratic members of the legislature convened in caucus last evening for the purpose of selecting a candidate to be voted for United States senator to succeed Henry B. Payne, and Calvin S. Brice was nominated on second ballot.

STANLEY HAS COME,

The Hero of Africa,
A New Book of His Wonderful
Adventures.

Henry M. Stanley stands now as the greatest explorer and adventurer the world has known. He is the hero of the most remarkable discoveries in all the records of daring and explorations.

Emin Pasha was wondering in the tropical wilderness, and struggling to hold the country of which he was ruler. Stanley hastens to the rescue. He vanishes from the sight of the civilized world; months and seasons pass, and still no news from Stanley.

After untold privations and amazing triumphs, he emerges from the wilds of the Dark Continent accompanied by Emin Pasha. In his last great triumph he has put the climax upon all his previous explorations and victories.

His adventures have been grand, wonderful and marvelous. The full and authentic accounts will be related in the new genuine Stanley book, from his first entrance into Africa, and richly illustrated with over 400 of the grandest and most wonderful new engravings and colored plates ever seen in a book of travels. The History Company, 723 Market Street, San Francisco, Cal., are the publishers. The book will be sold by subscription only. Agents are wanted to sell the book, to whom most liberal inducements will be offered on application. We call attention to the advertisement in another column.

THE WILD GIRL.

The girl of sixteen who will neither sew nor do housework has no business to be decked out in finery and rambling about in search of fun and frolic. There is no objection to fun, but it should be well chosen and well timed. No girl or woman who will not work has a right to share the wages of a poor man's toil. If she does work, if she makes the clothes she wears, and assists in the household duties, the chances are that she will have enough self-respect to behave properly when play time comes; but if she should still be a little "wild" the honest toil she has done will confer upon her some degree of right to have her own way, ill-judged though it may be. The wild girl usually aspires to prominence in some social circle or other, and her manners and conduct are in greater or less degree designed to attract the following of men. She should remember that followers are not always admirers, and that the most sincere admiration a man ever feels for a woman in a drawing-room is when he looks upon her, and says, in his own consciousness: "She is a perfect lady." That is a reflection that never occurs to him as his eyes fall upon the wild girl.—N. Y. Ledger.

ALGER AND HARRISON.

M. Russell A. Alger, of Michigan probably represents republican principles and tendencies more fully than anyone else in public life. He is a millionaire, brigadier and a Pratorian. This combination of qualifications is rare even in the republican party, and it is natural that Mr. Alger should conclude that he is better entitled to the presidency than the present incumbent, or than any one else in the party. This view is not shared by Mr. Harrison, nor is there any evidence that any very large number of unpurchased republicans are enthusiastically in favor of nominating Mr. Alger out of abstract admiration for his money. It is tolerable certain that the next republican nominee will be a brigadier, but brigadiers are still so plentiful that Mr. Alger's claims on that score are liable to be offset. He has a certain element of strength as the "commander" of the G. A. R., and if all the politicians in that society demand his nomination in earnest there is little doubt that it would follow. The chances are all against the probability of such a demand. It was openly stated in the discussion preceding his election for "Grand Commander" that "his wealth would enable him to represent the organization properly"—a suggestion which leaves little to be said of the amount of affection felt towards him or of the use to which he is being put. The managers of the G. A. R. are shrewd politicians. They need Alger to a certain extent, but they need a candidate for the Presidency who can be elected, and they are not likely to conclude that Mr. Alger answers that requirement.

He can obtain no little amusement from his candidacy, however he has the Harrison administration at a cruel disadvantage. He can use the G. A. R. to force it into a policy of unlimited pensions with the certainty that to comply with or to refuse the G. A. R. demands will be equally fatal to Mr. Harrison's hopes of a second term. It is not probable that either Harrison or Alger will head the next republican ticket, but that is no reason they should refrain from entertaining and instructing each other and the country.—St Louis Republic.

ELECTION.

The local election which took place last Monday was quite spirited, and a large vote polled. Following is the result:
Total vote, 193.

JUSTICE OF THE PEACE, PRE. No. 8.

J. B. McCourt, reg. Democrat received 89.
J. B. Collier, Ind. Dem. 75

The result is gratifying to Mr. McCourt and his friends, under the circumstances. The Republican vote vanished through no fault of their candidate, but for the interest manifested in the fight between McCourt and Collier, Mr. Ozanne would have received a much heavier vote. The Republicans can and did put up a ticket only to have it "knocked into pi," while there was an equal amount of defection from the Democracy. There was altogether too much personality manifested. The candidates were used merely as figure-heads, by which certain parties endeavored to pay off old scores, of one character or another.

The most signal failure was with the Republicans, where, with two Democrats in the field, their candidate received but 27 votes in a total of 193. White Oaks is solidly democratic.

El Paso is making another effort to get the White Oaks road built. It is too late. The Santa Fe Company is on its feet again and will not allow any road to get into Lincoln county ahead of them. When the Santa Fe builds, it will be from Socorro or Carthage, and in either case socorro will be the junction.—Advertiser.

The above sentiment is all right, as far as it goes, but the El Paso people are quietly making every effort to push their road through.—The contracts are nearly completed and signed to begin on the old line. While we are willing and ready to receive any road that desires to reach Lincoln county, we hope the Santa Fe people are not laboring to hinder the El Paso people by "rainbow" promises. When the

Santa Fe company make a bona fide start, they have our best wishes and will await their movements with the hope that the road from Carthage to White Oaks will be commenced at once.

That great political satellite, Col. W. L. Rynerson, lays down the law and penalty to those who dare to differ with him on the questions of statehood for New Mexico. Those citizens who have the manhood to do their own thinking and who honestly believe that statehood is not advisable at present, are dubbed, in his most polished manner as "breech clouters." After this out-break the people of the Territory fully understand the situation. They can either vote for statehood and be enrolled among the followers of the "tal basswood of the Rio Grande," or vote against the proposition and forever after be stigmatized as a "breech-clouter." Great scheme! It is expected to settle the statehood question just as soon as congress can reach it.—Raton Range.

The Sun is just in receipt of a telegram announcing the election of Col. Calvin S. Brice, of Lima, Ohio, to the United States senate in place of Henry B. Payne, of Toledo, who prefers to buy up Standard Oil stock than to wear a senatorial toga for six more dreary years. Col Brice will complete the work that the Ohio legislature has so wisely begun.—Sun, Santa Fe.

The Hon. Hannibal Hamlin, said recently, on presenting a flag to the Bangor, Me., school: "Perhaps a little history of this flag will not be out of place. First, consider the beautiful red stripes, an emblem of valor; the white, an emblem of purity; the blue field, the blue arch of heaven, and the stars which bestud it, the freest government on earth.

A Washington dispatch states that George E. Smith, and C. H. Wilkes, of Silver City, N. M., have been granted a patent on an ore stamp. The invention can be attached to any stamp mill in a few minutes, and will more than double the capacity of the ordinary stamp. If it is half that is claimed for it by the inventors, the boys have made their fortune, besides conferring a lasting benefit on the mining world at large.—New Mexican.

While working in the north drift of the Cash Entry, on the 600 foot level, a few days ago the miners struck another flow of water that sent them scurrying out of the drift in a hurry, necessitating a new pump. Fortunately it was on hand and soon in place. Four pumps are now required to keep the mine dry. The water, a continuous flow of eight inches, is now turned down the gulch to San Marcos arroyo. The flow of water in the

Central mine at less than 300 feet is estimated to be 120,000 gallons in every twenty-four hours. What a pity it is that some method can be devised to utilize this supply of water for the irrigation of farm lands.—New Mexican.

The Indianapolis Journal is very wroth, because the English vessels in the port of New Orleans, displayed their flags at half mast, on the occasion of Jefferson Davis' funeral. We trust and believe, that the President is too much of a high toned gentleman, to sympathize in the low malevolent hate which prompted the disgraceful sentiment of the editor, and will treat, he, and his cabinet, with silent contempt, his suggestion, to demand of England an apology for the act.—Ind News.

A pious old citizen of Carrollton went to the cars the other day to see his daughter off. Securing her a seat he passed out of the car and went around to the car window to say a parting word. While was passing out the daughter left the seat to speak to a friend, and at the same time a grim old maid took the seat and moved up to the window. Unaware of the important change he hurriedly put his head up to the window and said; "One more sweet kiss, pet." In another instant the point of a cotton umbrella was thrust from the window, followed by the wrathful injunction, "Seat, you grey-headed wretch! He scatted.—Ex.

DISSOLUTION.

White Oaks, N. M. Dec. 31, '89.

The copartnership heretofore existing between the undersigned under the firm name, and style of Bond & Stewart, is this day dissolved by mutual consent, Arthur J. Bond retiring, Levin W. Stewart will continue the business of the late firm, and will, and is hereby authorized and empowered to collect all debts due the firm, and will pay, and hereby assumes all the liabilities thereof.

ARTHUR J. BOND.

LEVIN W. STEWART.

To my friends, patrons and the public at large. Having sold my interest in the firm of Bond & Stewart to Levin W. Stewart. I gratefully thank you one and all for your kind and lavish patronage in the past, and sincerely hope that you will continue to bestow upon my worthy successor, (Mr. Stewart) the liberal patronage and support, deserving of one who is a thorough business man, well and widely known, and for doing business on a strictly square basis.

Most respectfully yours,

ARTHUR J. BOND.

White Oaks, N. M. Dec. 31, 1889.

Referring to the above card, I hereby gratefully acknowledge all past favors, and bespeak your kind continuance of same. I shall do all in my power to merit your good wishes, and keep your patronage.

Yours respectfully,

LEVIN W. STEWART.

W. F. Blanchard, U. S. Deputy Surveyor, who has the contract for the survey of the boundary line between Lincoln and Dona Ana counties, came in Wednesday from the field of operation. He has not completed the work, but informs us that the line runs much farther west than he anticipated, and that nearly all those good Democrats Dona Ana tried to steal from us will be reclaimed.

Both Homestake mines and mills are working steadily. The Parker and Wells coal mine is supplying the town with an excellent quality of coal. Other coal properties are being developed with encouraging results, especially that of Conger & Co.

The Santa Fe Sun, a new Democratic Paper, is a welcome guest on our table. The Sun is neatly got up and presents a good appearance, both mechanically and editorially. We trust the Sun may live long to reflect the principles of true Democracy throughout New Mexico.

As will be seen by referring to the dissolution notice published elsewhere, that the late popular firm of Bond & Stewart, is dissolved. Mr. Bond retiring, Mr. Stewart continuing the business. We be-

speak for Mr. Stewart a continuance of the liberal patronage the late firm has hitherto enjoyed, We also wish Mr. Bond equal success in his future undertakings in whatever lines they may be cast.

The new stone Congregational Church is nearly completed. The late cold snap has retarded the work of plastering, otherwise the building is about completed.

J. C. Gillman, the genial representative of Mandell Bros., hardware merchants, of Albuquerque, arrived by Monday evening stage, and remained in town till Wednesday morning, when he left for Lincoln, will return on Sunday en-rout for home.

C. L. Pearman, is headquarters for steel rails, wire nails, stoves etc.

It has been eagerly awaited, and will be more sought after, make more money for the agent and make it easier than any book issued for the past fifty years.

CAUTION! Old and unreliable accounts of Stanley's travels are being published. Do not be deceived by old books, re-hashes and battered plates. We announce this to protect our agents and the public against the numerous, so-called Stanley Books—all of which are simply old books that have been in use for years, and are now being offered as new books, with a few pages of new matter added.

AGENTS WANTED EVERYWHERE.

Teachers, Young Men, and Ladies, Ministers, Farmers, Mechanics and Clerks can easily make from \$5 to \$25 per day. No experience required. Canvassing outfits now ready. Send immediately for illustrated circulars and terms free, or, to secure an agency at once, send \$1.00 for the outfit and you shall be served first. Money refunded if not satisfactory. Address

One of the BEST TELESCOPES in the world. Our facilities are unequalled, and to introduce our superior goods we will send FREE TO ONE PERSON in each locality, as above. Only those who write to us at once can make sure of the chance. All you have to do in return is to show our goods to those who call—your neighbors and those around you. The beginning of this advertisement shows the small end of the telescope. The following cut gives the appearance of it reduced to about the fiftieth part of its bulk. It is a grand, double size telescope, as large as is easy to carry. We will also show you how you can make from \$2 to \$10 a day at least, from the start, without experience. Better write at once. We pay all express charges. Address, H. HALLETT & CO., Box 282, PORTLAND, MAINE

It will pay you to write to Ben Small, of El Paso, Texas, for samples of Wall paper.

The Flight of a Louisiana Gentleman—He Loses His Finger Nails and Hair.

The following is an extract from a letter written by Mr. William S. Loomis, of Shreveport, La., under date of September 19th, 1888.

"For a year I was afflicted with a horrible case of blood poison, and upwards of five months of that time I was unable to do work of any kind. My finger nails came off, and my hair dropped out, leaving my head as clean and smooth as if it had been shaved. I consulted the best local physicians, and spent hundreds of dollars for medicines of different kinds, but without receiving the slightest benefit. I was advised finally to visit the Hot Springs. This I did, but becoming disgusted with the treatment I was receiving there, commenced taking Swift's Specific (S. S. S.) The effect that S. S. S. had on me was truly wonderful. I commenced to recover after taking the first bottle, and by the time I had taken twelve bottles I was entirely cured.—cured by Swift's Ppecific (S. S. S.) when the world-renowned Hot Springs had failed.

Queensland, Australia, lays claim to the greatest and richest gold mine in the world. It is called Mount Morgan, and will this year pay to its owners not less than \$6,000,000, with the promise of a great increase when more completely developed. The gold obtained from it assays 99.3 pure, a test which is believed to be without its parallel. The original owner of this property bought it for a shilling an acre and sold it at about one pound sterling per acre, or in all for about \$3,000. It is now valued, judging by the price of the company's shares, at \$50,000,000.—Boston Herald.

WHICH WILL IT BE?

Which is the fairest, a rose or a lily?
Which is the sweetest, a peach or a pear?
Merry & sociable, and charming is Milly,
Dora is gentle and fair.
Sweet as a flower was her face when I loved her,
(Love is the romance and glory of life.)
Milly, my playmate, I love "like a sister,"
But Dora I choose for my wife.

That is right, young man, marry the girl you love, by all means, if she will have you. Should her health become delicate and her beauty fade after marriage, remember that this is usually due to functional disturbances, nervousness, irregularities, or painful disorders peculiar to her sex, in the cure of which Dr. Pierce's Favorite Prescription is guaranteed to give satisfaction, or money refunded. See the printed certificate of guarantee on bottle-wrapper.

For overworked, "worn-out," "run-down," debilitated teachers, milliners, dressmakers, seamstresses, "shop-girls," housekeepers, nursing mothers, and feeble women generally, Dr. Pierce's Favorite Prescription is the greatest earthly boon, being unequalled as an appetizing, cordial and restorative tonic, for strength-giver.

Anthony Joseph, our hard working delegate, has presented a bill providing for the appointment of a commission for the investigation of the land claims of New Mexico and Colorado. It was read twice and referred to the committee on Territories. It is undoubtedly a twin bill to Senator Walcott's, of Colorado, and if we give Mr. Joseph proper support, it will probably become a law.

Kansas raised 34,000,000 bushels of wheat this year. If made into bread, reckoning a bushel to sixty pounds of flour, it would give each man woman and child in the United States thirtyfour two pound loaves of bread.

Brief sermon by the New York Press: "United States exports of iron and steel manufactured for the year ending June 30, 1889, \$21,156,077. United States imports of iron and steel manufactures, except tin plate, which we do not make, \$21,155,140. Excess of exports, \$937.

The natural objects that have been classed as the seven wonders of the new world are; Niagara Falls, Yellowstone Park, Mammoth Cave, of Kentucky; the Canons and Garden of the Gods of Colorado; the Giant trees of California; the Natural Bridge of Virginia and the Yosemite Valley.

The annual meeting of the New Mexican bar association was held in Santa Fe on Tuesday, of last week. After the transaction of regular business the following officers were elected for the ensuing year: Frank W. Clancy, president; G. C. Preston, vice president, 1st district; H. B. Ferguson, vice president, 2d district; John Y. Hewitt, vice president, 3th district; W. J. Mills, vice president, 4th district; E. L. Bartlett, secretary; Eugene A. Fiske, treasurer.

It will pay you to write to Ben Small, of El Paso, Texas, for samples of Wall paper.

STOP THE PAPER.

There is something of which we would speak, and it is the habit indulged in by the publishers of this Territory of sending their paper to every man of prominence therein when it is not ordered, and then after lapse of a few years sending in the bill. There is only one decent way of sending a paper to a man who has not ordered it, and that is as a complimentary, when in that case every copy so sent should be marked plainly "Comp." No matter how prominent a man he may be nor how strongly possessed with the self-same politics of your paper, you have no right to force it upon him unsolicited except in the form of a gift, and then so clearly defined as to admit of no mistake. To do otherwise is a certain form of begging, brethren, pure and simple, and subjects the editorial fraternity to no credit. During a recent trip to the Mesilla Valley a prominent gentleman said to the writer: "I receive about every paper in the Territory, although I subscribe for but two. Every little while I receive a newspaper bill, but pay no attention to it. I cannot afford to. I never asked for these papers. Neither have I the time nor the postage stamps to spare to write to these

men to stop them. Consequently, when I do not honor their bills they should not kick."

He is right. Let the Territorial Press association, at its forthcoming meeting at Albuquerque, sit down on this kind of journalism.—Silver City Sentinel.

A LIBERAL OFFER.

We would call attention to the most liberal offer ever made by any paper in the territory. We will send THE DETROIT FREE PRESS and the INTERPRETER, one year for the sum of \$2.00, and for two dollars and seventy cents (\$2.70) we will send both papers and Dickens complete Works in 12 volumes.

It gives all Government Land Laws and all information relating to the same; also all Patent, Postal and Pension, as well as all useful information relating to the Government. It gives a colored map of every State and Territory, including Alaska, with Histories of the same from earliest times, and all such information with regard to laws as is most desirable for settlers to know. It also gives a description of every nation in the world, with all the most important facts in relation to the same. In addition it contains a perfect encyclopedia of useful facts and information which could hardly be found in any other one hundred books. THE GUIDE AND HAND-BOOK is printed on fine paper with good type, contains 400 pages, and is mailed to any part of the world for 50 cents.

By special arrangements, orders can be forwarded to the publishers of this paper for either of the above, which will be promptly filled; or we will send both the above and a copy of THIS PUBLICATION one year for only \$2.25.
