**THOU'RT EVERYWHERE.**

BY EUGENE OUDIN.

When I gaze upon the lily,  
Growing in a garden fair,  
Or upon the lonely rose that  
Lifts up its head in beauty rare,  
I but think how far more stately,  
Thou art with thy queenly air,  
When I gaze upon the lily,  
Growing in a garden fair.

When I gaze upon the heavens'  
Lofty dome of azure blue,  
Or upon the restless ocean,  
With its molten sapphire hue,  
I but see thy wondrous eyes,  
That thrill my being through and thro',  
When I gaze upon the heavens'  
Lofty dome of azure blue.

For of everything in nature  
Thou'rt the type my lady fair;  
There's a spell, love, in thy beauty,  
That pursues me everywhere;  
Not my heart the silent flowers  
Or the heavens can ensnare—  
There's a spell, love, in thy beauty  
That pursues me everywhere,

**AN AMERICAN GIRL.**

About two years before his death Charles Sumner, was ordered abroad by his physician. On the steamer in which he sailed was a mother with her three children, whose she was taking to Europe to be educated. It happened that the only girl of the party was seated near Mr. Sumner at the table, and could hear much of his conversation. In a short time she became fascinated with the rare personality that for so many years had inspired a great political party.

She listened eagerly to every word, but she became greatly mortified because she could not understand much of what he said. She had never studied the science of government; she knew nothing of European politics, and little of American history.

For the first time in her life she realized that an interesting, helpful science had been neglected in her education. She determined to supply the omission for herself, and on reaching England began the study of American politics. The functions of the different parts of a government, legislative, judicial and executive, who vote and why, town-meetings, education, taxes, labor and capital, strikes, banks, commerce, diversities of industries—all these she soon found to be factors in a fascinating problem.

Her growing enthusiasm amused her friends, especially her brothers. What could be the use of a girl troubling her head about such things? they asked. The answer came in a manner quite unexpected.

One evening during their continued residence in England the family was invited to a small reception given to John Bright, the

at the zenith of his fame. Shortly after their entrance into the drawing-room the conversation turned to American politics, in which Mr. Bright manifested great interest. A convention was at that time in session in a western city, and much anxiety was expressed about the nomination which it was likely to make.

Turning to an American gentleman, Mr. Bright made some inquiry as to the rules governing the formation of such an assembly. The person addressed, evidently greatly chagrined at his ignorance was obliged to answer that he did not know. Appeals to three other guests met with the same response. Then, to the surprise of every one, a modest little American girl advanced timidly to Mr. Bright, and gave him the desired information.

Mr. Bright was delighted. He seated himself at the girl's side and talked with her for the entire evening, and when taking leave of her said to her mother:

"You Americans have indeed made wonderful advance in education. The future of a country is secured when the young men and women alike are trained to intelligent understanding of the laws which govern them. The next generation will be a race of patriots."

A few days afterwards came an urgent invitation for the entire family to spend a week at the Bright homestead. There the little American was introduced to Mr. Gladstone and many other prominent English statesmen.

Her unique experience is very suggestive. How many of our young people are at all acquainted with the present state of European politics? Too many of them, indeed, have yet to learn the very alphabet of their own government.—Ex.

The influenza microbe has been discovered. He has the shape of a cassock and is of a dark blue color. He belongs to the same family as the pneumonia microscopic fiend, but has no relation to the cholera parasite. In cook-book phrase, "the hare is caught." Now let some one tell us how to kill him. Here is a chance for fame and good service to suffering mankind, the world over. We want another Pasteur.—New Mexican.

JULIAN'S REJOINDER.

From the Albuquerque Democrat.

The ex-Surveyor-General takes his pen in Hand and with its point stabs the land grabbers and their employes to the very quick.

A friend of ex-Surveyor-General Julian has received the following communication from that unflinching enemy of corruption:

My Dear —: I am greatly obliged to you for the information you have given me touching the late meeting of the Bar association of New Mexico, and the address of Mr. Springer on the subject of Spanish and Mexican grants. This address is a most dismal and doleful performance. In dealing with the grants he thinks the nation has violated its plighted faith as embodied in the treaty of 1848. He arraigns congress for its recreancy, and declares it to be "dead to the obligations of the compact with Mexico." He insists that the rights of grant claimants have been surrendered to intruders and squatters by the supreme court of the territory, and that even the supreme court of the United States has indicated its purpose to do the same thing. Warming with his subject he proceeds to declare, in the travail of his soul, that the surveyor general of this territory, without any authority of law, overhauled the work of his predecessors for the past thirty years without giving any notice whatever to interested parties—a statement which he well knew to be a pure invention. He abuses the North American Review for allowing me the use of its pages in uncovering the theft of millions of acres of the public lands by his beloved and guileless friends, the grant claimants. In the throes of his gathering wrath and exasperation he seeks relief in a torrent of billingsgate and personal defamation which unmistakably show the value and effectiveness of my work in New Mexico. A more remarkable effervescence of baffled rascality has rarely been witnessed. I pity him.

But Mr. Springer is not alone in this authentic howl of the land grabbers who have scourged the territory for more than a third of a century. Misery loves company, and his legal brethren, who belong to his party, rushed into his loving embrace. The bar association—I mean the republican part of it—with the hero of the Maxwell Grant and John H. Knaebel at its head, and E. L. Bartlett and Max Frost at its tail, voted, it seems, to print 500 copies of its picture as photographed by Springer, for the use of members of congress. This picture should have been sent to the rogue's gallery. It only postpones still further the admission of New Mexico as a state, and humiliates the audacity of the men it represents.

What right had so unfragrant a slave of mercenaries to offend

the nostrils of a member of congress by thus airing their unclean linen? Will these abettors of wholesale land stealing never learn that they help every cause that they oppose and harm every cause that they espouse? What they need, above all earthly possessions, is character, and if this fact they betray the most childlike unconsciousness. Let them take refuge in silence, and strive to get themselves well forgotten; for so long as they continue to snap at the heels of decent people they will have to whelp under the vigorous kick they will receive in return. I am

Very truly yours,  
GEORGE W. JULIAN.

Every woman in America ought to read the article "Women of Siam" in DEMOREST'S FAMILY MAGAZINE for February, to know how happy her lot really is. The forcible contrast between our progressive civilization and that of the far East has seldom been so strikingly presented to our notice as in this readable article, illustrated in part by drawings made by a native Siamese artist, which compare curiously enough with the fine examples of our modern illustrative art in this same number. The other beautiful illustrations (nearly two hundred) include an exquisite fullpage gravure on heavy plate-paper, entitled "How Long?", portraits of the venerable Don Pedro, deposed emperor of Brazil, and his family, and as if these were not sufficient attractions for any publication, the past is made to yield us its treasures, and the time "When Grandmother was Young," is portrayed for us in charming pictures and descriptions. From grandmother to baby, who will be delighted with the funny "Japanese Paper Frog," no member of the family has been slighted in compiling this number. Demorest's is justly celebrated as a "Family" Magazine, and this issue is fully up to its reputation. Its useful departments are replete with information, as usual: a Supplement of beautiful fancy-costumes enriches the Fashion Department, a thrilling temperance poem by the author of "Curfew Must Not Ring To-Night," will appeal to every mother's heart, and a full quota of delightful stories, etc., render this February number an unusually attractive one. But one of the most attractive features of this remarkable Family Magazine is its price,—only \$2.00 per year. Published by W. JENNINGS DEMOREST, 15 East 14th St., New York.

## THE SILVER PROBLEM.

## Colorado Mining Men Meet and Discuss Windom's Measure.

Denver, Jan. 31.—The state silver convention was called to order yesterday afternoon in the rooms of the Tabor Investment company in the opera house block, by President Tabor. The latter gentleman briefly stated the object of the meeting. It was to take action disapproving the Windom silver bill and protesting against the passage of the bill. The two sections the president called especial attention to in the bill are as follows:

Sec. 5. That when the market price of silver, as determined by the secretary of the treasury, shall exceed \$1 for 371.25 grains of pure silver it shall be the duty of the treasurer to refuse to receive deposits of silver bullion for the purpose of this act.

Sec. 6. That it shall be lawful for the secretary of the treasury, with the approval of the president of the United States, to suspend temporarily, the receipt of silver bullion for treasury notes at any time when it is considered by the president and treasurer of the United States that the price is arbitrary.

In his opening address the senator dissected the two sections and went on in a logical way to prove that if such a bill was passed the interests of the west and all over the country would be seriously affected. He censured the supporters of the bill and classed President Harrison among that class. President Harrison's opponent was opposed to silver coinage. Harrison and Windom are both narrow minded and sectional in their views of the silver question.

He concluded by stating that what the people of this country want more than anything else is representatives in congress who are better informed and have the interests of the west and the country more at heart.

The calling of the roll revealed that a number of the vice presidents, who were unable to be in attendance personally, were represented by proxy. It was plain that the feeling against the Windom bill was very severe and all favored that action be taken showing how the silver men of Colorado stand up

on the momentous question.

An earnest address was presented by Mr. A. E. Robinson, in which he condemned the bill most severely and gave his reasons for doing so.

Mr. Adams stated that the silver men of Colorado do not like Windom—they do not like his antecedents, nor his tendencies towards silver, nor Wall street generally. He favored that a vigorous protest against the bill be made in the form of a resolution, and upon his motion a committee of six, with Senator Tabor as chairman and Messrs. McMichen, Goodell, Costigan, Gelder and Buchanan the other members, were appointed to formulate the resolution.

## A BIG ROW IN THE HOUSE.

Mr. Speaker Reed is playing the tyrant very effectually, in the House of Representatives. The House has not adopted rules for the session, and Reed, by his peculiar tactics, is delaying the adoption of any. Meantime he substitutes his own discretion and appreciation of party needs, for parliamentary law.

On Tuesday he persisted, in order to make a quorum and carry out his party aims, in counting a number of Democrats as present, though they refused to vote, without which the proceedings would not show a quorum present—a measure to which no Republican Speaker of the House has ever dared to resort.

This brought to his feet every Democrat in the House, and bedlam reigned supreme for a time.

The purpose of this extraordinary procedure on part of the speaker is to secure the seating of some dozen or more of Republicans in the places of Democrats against whom merely partisan contests have been entered, before any rules can be adopted, and while Reed can make his own rules; as after the adoption of rules the trial of these contests would have to be governed by strict formalities of procedure, as in all legislative bodies.—Headlight.

## White Oaks Railroad.

Editor Times:—I have a proposition from reliable New York capitalists that they will build the White Oaks railroad on the following condition:

First, congress to pass an enabling act authorizing New Mexico to grant the power to the voters of Dona Ana, Lincoln and San Miguel counties to vote \$4000 per mile in thirty year 7 per cent gold bonds in aid of said bonds, to be exchanged for stock at par. Bonds to be delivered on completion of each section of ten miles, within ten days after demand.

Second. The title to the \$100,000 worth of land in New Mexico to be placed in escrow and to be turned over to the railroad compa-

ny on completion to White Oaks.

Third. The \$50,000 subscribed by the citizens of El Paso to be paid in, and the balance of the subscription, \$50,000, to be paid on completion to White Oaks.

Fourth. The bonds and stock to be issued and placed in the hands of said New York capitalists. Upon these conditions being complied with, said parties to prepare to pay off the indebtedness, and build the road.

A bill was prepared and sent to Senor Antonio Joseph, delegate in congress from New Mexico, with the urgent request that the same be presented to congress and its passage urged by him. A similar bill has been introduced in behalf of certain counties in Arizona, and our New York friends are positive that if the proper influence is brought to bear upon our representatives by all interested, the bill so introduced will become a law, and if the citizens of Dona Ana, Lincoln and San Miguel vote the bonds asked for, we will have a through line to Washburn, Texas, via White Oaks, and be in direct communication by this route with Kansas City, St. Louis and Chicago.

Yours truly, &c.

MORRIS R. LOCKE.

El Paso, Texas, Jan. 31, 1890.

The United States to-day is the worst monopoly cursed nation on the face of the earth. They have made more millionaires in twenty years than all Europe and England have made in 500 years. Everything in the country is controlled by a syndicate, pool, combination, patent, or corner. If a boy now grown to manhood desires to go into business, he must buy himself in. If he wishes to go into commerce, he must buy a seat on the board of trade; if he wishes to go into manufacturing, he must buy himself into a combination which represents and has monopolized that business.—New Orleans Democrat.

Governor Francis reflected the sentiments of the Democracy of Missouri, when he made the following declaration to a reporter in New York; "In Missouri no one else is mentioned or thought of for the presidency in 1892 but ex-President Cleveland. The state will send a solid delegation for him. I believe that he will be the strongest man we can name. Governor Hil? Well, he is known among the Democrats West, but is never discussed as a probable candidate for the presidency."—Oceola Advance.

## Fremont to be Cared For

Washington, Jan. 31.—At a meeting of the house committee on military affairs, a favorable report of the bill placing General John C. Fremont on the retired list of the army with the rank of major general was ordered to be made to the house.

Prof. H. O. Ladd, of Santa Fe, nominated to be supervisor of the census in New Mexico, may be knocked out in the first round when his name is presented to the senate for confirmation. His cloudy record in church matters will be looked into. Deacon Houghton's money, you remember.—Optic.

J. E. Sligh, a well known citizen of Lincoln county, a resident of Nogal, and an old newspaper man, but recently has chosen the profession of law, and is now prepared to practice in all the courts in the Territory. Mr. Sligh has been visiting Socorro during most all the week, with a view of purchasing residence property, most all of his property is in Socorro county, and should he be successful in making a deal for a lot of cattle he has been looking after for several days, he will no doubt become a permanent resident of Socorro. Mr. Sligh is a gentleman of extraordinary culture and business qualifications. Should he determine to locate here, he will prove a valuable acquisition to our city.—Socorro Chieftain.

Can it be? Are we to lose the transcendent Sligh, with his many schemes "to stir up the animals?" Should J. E. Sligh leave us, we wish him unbounded success, and hope from his varied experience in Lincoln Co., he may have learned a lesson. There is much in Sligh, if properly applied, to make a valuable citizen—for Socorro county.

In another column will be found the communication of Morris R. Locke, regarding the El Paso & White Oaks R. R. The plan to bond, is looked upon as excessive and impracticable. We are not inclined to throw cold water on any plan that may be suggested for the R. R. to White Oaks, but this bond scheme will not be received with any favor by our people.

Washington, Feb. 3.—The residence of the secretary of the navy was destroyed by fire early this morning. The occupants of the house were asleep and had no warning of the fire until it was well under way. Secretary Tracy's wife and daughter were burned to death. The secretary was unconscious when by heroic efforts he was finally taken out of the building. Fears are expressed that his injuries will prove fatal.

Delegate Joseph, of New Mexico has introduced a bill to provide for an additional associate justice of the supreme court of the territory of New Mexico.

The entertainment given by the "Cheerful Workers" on Tuesday evening last, was a success, intellectually, if not financially. The program was sufficiently attractive to call out a large audience under ordinary circumstances, but owing to the unusual amount of sickness in town, the attendance was not so large as it would have been under more favorable conditions. Rev Dr. Lane's lecture was in his usual happy, off-hand manner, and was hugely enjoyed by those present. The balance of the program was rendered to the satisfaction of all. The proceeds go towards furnishing the new Congregational Church.

The Masquerade Ball which we announced last week to take place the 14th inst., is indefinitely postponed on account of so many of our citizens being in the clutches of La Grippe.

We are in receipt of the "Cosmopolitan" a monthly magazine, printed and published at New York. It is by far the very best magazine published, and the subscription price is reasonable \$2.40 per year. Call and look at our copy.

Later—On arriving at Carthage Mr. Brown received a telegram that his father was dead and buried. They returned home yesterday morning.

Juan Lahun, and Francisco Jemias, were complained of for pasturing sheep within three leagues of a settlement. Justice McCourt fined them \$1.00 and cost.

The mail still stops 30 hours between San Antonio and Carthage, 9 miles distant, this administration are doing things in no half way stile.

Mr. and Mrs. John A Brown left for Owensbro, Ky. Tuesday last on receipt of a telegram that the aged father of Mr. Brown was dangerously ill.

We can reliably inform our readers that some mining deals are now under way, that will prove advantageous to the camp, we are forbidden to give particulars until later.

"Our Boys," was one of the most popular plays ever given in the City of London, Eng'and., where it was presented 1500 nights in succession. The White Oaks Dramatic Club, who are now rehearsing the above play, will have the performers better drilled than any of their former dramas, and will give it at the Town Hall on the evening of the 21st of this month.

MORTGAGEE'S SALE.

Whereas, Charles T. Clark and Lillys M. Clark, his wife, then of Lincoln County, Territory of New Mexico, by their certain mortgage deed, dated the 27th day of May, in the year 1893, and recorded in the Probate Clerk's office, of Lincoln County, in book B of the record of mortgages, pages 193-195, did convey to the undersigned, Peter Strumquest, his heirs and assigns as mortgagee, the following described real estate, situated in the County of Lincoln, and Territory of New Mexico, as follows, to wit:

Lot No. two (2) in Block No. sixty-two (62), in the town of White Oaks, according to the official plat of said Town. To secure the promissory note of said Charles T. Clark and Lillys M. Clark, of even date with said mortgage deed, for two hundred dollars, payable to the order of the said Peter Strumquest, six months after date, with interest at the rate of twelve per cent per annum, from date until paid; And whereas, it was provided in and by said mortgage, that if default should be made in the payment of said note, together with all interest that may have accrued therein, when the same should become due and payable, then in such case the said mortgagee, his agent, or legal representative, might sell at public auction, said mortgaged premises, to the highest bidder for cash, first giving notice of the time and place of said sale, by publishing a notice in some newspaper published in the County of Lincoln, for at least twenty days before the date of such sale, and in their name or names, or as the agent of said mortgagors, might make and deliver to the purchasers at such sale, a good and sufficient deed or deeds of said premises.

And whereas, also, default has been made in the payment of principal and interest due upon said note, which default still continues:

Now, therefore, public notice is hereby given, that on the 22nd day of February, A. D. 1890, at two o'clock in the afternoon of said day, on the lot and premises above described, in the said town of White Oaks, the said Peter Strumquest will sell at public auction, to the highest bidder, for cash, the lot and premises hereinbefore and in said mortgage described, pursuant to the powers and provisions of said mortgage. The amount claimed to be due under said note, on the day of said sale, is two hundred and seventeen and .65 dollars.

MR. LEE: "Why, Addie, you needn't cry about it! I only said Mrs. Allen was a very well-informed woman, and I wished you would follow her example."

MRS. LEE: "Yes, and last week you said you wished I could manage to look as stylish as Mrs. Allen,—and she makes all her own clothes. But she has what I haven't."

MR. LEE: "What is that?"

MRS. LEE: "Well, she gets all of her information from the Magazine they take. I admit that she knows all that is going on, and is bright and entertaining in conversation, but I can't do as well as she does if I had the same source of information. She lent me the last number of her Magazine lately, and I learned more in one hour's reading, about various social matters and the topics of the day, than I would pick up in a month by my occasional chats with friends. It certainly covers every topic of interest, from the news of the day down to the details of housekeeping; and everything is so beautifully illustrated, too. Every time Mamie goes over to the Allens' she comes back and teases me to get you to take Demorest's Family Magazine, as the stories are so good. Even the boys watch for it every month, as a place is found for them also in its pages; and Mr. Allen swears by it. It is really wonderful how it suits every member of the family!"

MR. LEE: "Well, perhaps I had better send for a Specimen Copy; for, if it is anything like what you say it is, it will amuse and instruct the whole of us."

MRS. LEE: "I see that W. Jennings Demorest, the publisher, 15 East 14th Street, New York, is offering to send a Specimen Copy for 1 cent, so we can't lose anything, as each number contains a 'Pattern Order' entitling the holder to any Pattern she may choose, and in any size—which alone makes each copy worth 50 cents; and I just want a jacket pattern like Mrs. Allen's. The subscription price is only \$2.00 a year; and I must say I can't see how they can publish so elegant a Magazine for so little money."

The government contemplates removing the Apaches to the Indian Territory From Florida. The following opinion is general :

Prominent army officers to-day said: "If these Apaches are sent to Fort Sill, they can reach the mountains of Arizona and New Mexico inside of ten days. The Kiowas and Comanches who visit the Mescalero Apaches, of New Mexico, would act as guides for these renegades. There are no troops to stop them, and if they are let loose in the Indian territory life and property in Arizona and New Mexico will not be safe. As Fort Sill is one of the healthiest posts in the country it is difficult to see why it should have been chosen :

"If a woman is pretty,  
To me 'tis no matter,  
Be she blonde or brunette,  
So she lets me look at her."

An unhealthy woman is rarely, if ever, beautiful. The peculiar diseases to which so many of the sex are subject, are prolific causes of pale sallow faces, blotched with unsightly pimples, dull, lustreless eyes and emaciated forms. Women so afflicted, can be permanently cured by using Dr. Pierce's Favorite Prescription; and with the restoration of health comes that beauty which, combined with good qualities of head and heart, makes women angels of loveliness.

"Favorite Prescription" is the only medicine for women, sold by druggists, under a positive guarantee from the manufacturers, that it will give satisfaction in every case, or money will be refunded. It is a positive specific for all those painful disorders, irregularities and weaknesses with which so many women are afflicted.
