**PUBLIC INDEBTEDNESS.**

The first fruit of the eleventh  
census has just been given to the  
public by the Superintendent, Hon.  
Robert B. Porter, and relates to the  
public indebtedness of the coun-  
try. The report gives the National  
bonded debt in 1890 at \$719,175,-  
570, as against \$1,709,993,100 in  
1880, which is a decrease of the  
bonded debt of ten years of \$1,990,-  
817,530. The debt of the States  
aggregate \$228,679,817, as against  
\$283,413,690 in 1880, which  
is a total decrease of  
\$54,413,690. The existing State  
debts at the present time is made  
up of \$194,954,206 in bonds and  
and \$33,724,610 floating indebted-  
ness. The decrease of indebted-  
ness as distributed to the various  
sections is \$11,296,177 for the  
Eastern States, \$11,378,482 for the  
Middle States, \$28,022,964 for the  
Southern States, and \$3,752,920 for  
the Western States. The decrease  
in the Eastern and Middle States  
is nearly the same, and leaves  
those two groups nearly the same  
aggregate indebtedness, that of  
the Eastern States being \$39,794,-  
000, while that of the Middle States  
is \$33,498,412. The Southern  
States, which show the largest de-  
crease in ten years, are left with an  
indebtedness about equal to the  
balance of the States, which  
amounts to \$107,616,077. With  
the present rate of progress in the  
Southern States it is expected that  
the next decade will be felt the re-  
duction of public indebtedness in  
that section more than in any  
other. The Western States, which  
show so small a decrease of indebt-  
edness, are left with a total of \$47,-  
591,261. The reductions of this  
section during the last ten years  
has been necessarily limited by the  
urgent demand for public money  
with which to make public im-  
provements, and also by the low  
rates of taxation arising from a  
sense of depression in agriculture.  
The bonded indebtedness of the  
counties is stated now at \$134,735,-  
599, as against \$104,493,752 in  
1880, which shows an increase of  
bonded indebtedness of \$26,241,207.  
The counties, however, had a float-  
ing indebtedness in 1880 of \$16,-  
745,391, which has been cut down  
to \$14,958,881 in 1890, making a  
reduction of \$1,786,450 in this  
class of indebtedness, and leaving  
the net increase of county indebt-  
edness for the ten years \$24,454,-  
757. This is not a bad showing  
for the counties, when we take into  
consideration the very great num-  
ber of new counties which have  
been settled and improved during  
the last ten years, and for which  
public buildings, school-houses,

and the roads had to be provided  
by a sparse population unable to  
bear the burden of the entire cost  
at the present time. Altogether,  
the showing is a very satisfactory  
one.—Kansas City Commercial.

The movement in Texas to or-  
ganize a meat exporting syndicate  
has reached a point at which its  
projectors have filed a charter for a  
company of \$1,000,000 capital, and  
announce a date at which they ex-  
pect to make their first shipment  
of fresh meats. A large movement  
in this direction can but prove  
beneficial to the live stock interest  
of the West, and especially of Tex-  
as.—Kansas City Commercial.

Germany took the lead as the  
country of syndicates in 1889.  
Ninety-two are known to have  
been formed there, while the Uni-  
ted States had 58, Austria 38, Great  
Britain 31, France 6, Russia 7, Bel-  
gium 8, Italy 2, Sweden 4 and Den-  
mark 1. In addition, 11 interna-  
tional trusts were formed to control  
copper, zinc, nitrates, rails, mirror  
glass, sugar, dynamite, and hotels.  
A great many other syndicates and  
trusts were undoubtedly formed,  
but their existence was not form-  
ally recorded.—Illustrated Ameri-  
can.

The volume of trade in the month  
of May must have been nearly,  
if not quite, the largest ever record-  
ed in any month. Outside New  
York the increase over last year  
was about 22 per cent., though a  
little less at the principal cities to-  
ward the close. In five months  
ending with May, the increase has  
been 13.2 per cent., so that the gain  
on the first five months of the year  
during the last five years of con-  
tinued expansion of trade has been  
72½ per cent.; for every \$100 paid  
through clearing houses outside  
New York in 1885 during these  
months, about \$162.50 has been so  
paid in 1890.—New York Tribune.

Mr. Quinby Vance, the new receiver of the Las Cruces land office, has entered upon his official duties and now has charge of the affairs of that office. Little Jimmy Dolan can return to that very democratic county of Lincoln and prepare himself to pose as an amphibious political office-seeker while his friend, Mr. "O'Riley," will announce his willingness to bet that he, (Jimmy), will cast his vote next fall in favor of both parties; and Mr. Browne, the cross-road, country merchant, will burn midnight oil while figuring to find out just how he does stand financially with his late office and how he can explain the matter to the receiver. Mr. Vance is the right man in the right place.—Black Range.

James A. Alcock, the long time manager of the Carrizozo Cattle Co., Lincoln county, has tendered his resignation. Mr. Alcock and family will depart for Kansas City in a short time. As manager of the Carrizozo company, Mr. Alcock made a record which cannot be excelled by any other manager in the territory, leaving the affairs of the company in good shape and returning to the stockholders a good per cent for their investment. He is deservedly popular with the people of Lincoln county, who will sincerely regret any move on his part that will take him out of the territory.—Las Vegas Stock Grower.

Harry Williams, convicted of cattle stealing in Lincoln county, and sentenced to one year from October, 1889, has also been pardoned by the governor. This action was taken at the instance of the judge who tried the case, the sheriff, county clerk, foreman of the grand jury and some 200 leading citizens of Lincoln county. His conviction was had upon the testimony of a witness who had anything but a good reputation and prior to the difficulty Williams had borne an excellent reputation. He is an aged mother's only support.

At the last annual encampment of the Grand Army of the Republic, department of New Mexico, held at Socorro, April 10th, a committee was appointed consisting of W. S. Fletcher and Francis Downs, of Santa Fe, and A. J. Fountain, of Las Cruces, to look after the long lost records of those worthy people who served during the war in this Territory in the union army.

A. C. Race, who spent the winter at Nogal and Parsons, Lincoln county, looking after matters at the Hopeful mine, has returned to Wichita, Kansas.

The assessor's return shows the number of cattle in Lincoln county this year to be 230,000. In 1888-89 there was returned for taxation 243,784.—Stock Grower.

#### Chicago's Population.

Chicago, June 20.—The Journal from an admission dropped by the supervisor of census, says the population of Chicago is a million and a quarter.

Internal Revenue Collector L. A. Hughes has announced the following appointments: Deputy collector at Albuquerque, John Borradaile; deputy collector for Arizona, C. R. Martindale, of Prescott.

E. E. Kirby, of Dona Ana county, was convicted in March last of "acting as justice of the peace without authority" and sentenced to six months in the penitentiary. Upon the petition of Judge McFie, District Atty. Wade and Col. A. J. Fountain, who prosecuted the case, and because Kirby is wanted in Arizona as an important witness in a murder trial, he was pardoned by the governor.

#### A Skunkery.

Here is a spicy story told by Timothy Nestor, ex-mayor of Marquette, Mich.: "My state has one industry that is not likely to be gobbled up by an English syndicate. It is a skunkery. That is an establishment where skunks are raised. It is located at Homer. Abe Veerland, a farmer, is raising skunks on a large scale. The stock will be increased this season by over three thousand animals. They are tame, inoffensive, and the skunkery is paying 200 per cent on the investment. Choice animals for pets bring about \$12 per pair. The hides are worth 40 cents each. It is a great business, and I believe Michigan is the only state in the union that can boast of such an industry. Skunks make excellent pets, and hundreds can be found all through Michigan."

A fact that may not be generally known is that all stamped envelopes that may be spoiled in directing, or other causes, and all postage stamps that are stuck together and cannot be used, will be taken by any postmaster at their face value.

There are annually killed in Africa a minimum of 65,000 elephants, yielding a production of a quantity of raw ivory, the selling price of which is some £850,000. This quantity is shipped to various parts of the world—to the American, the European, and the Asian markets. A large quantity is, however, kept by the natives of Africa, who are very fond of—and as a rule, very good judges of—ivory. The production out of Africa is only insignificant, and India, Ceylon and Sumatra together produce only some 20,000 kilograms per year. India is the largest consumer of ivory, and China is also a good market.—London Industries.

## AN EARLY CONVENTION.

The Democrat is heartily in favor of an early territorial convention of the democratic party, and it makes this suggestion to both the democratic leaders and the democratic press. We think Albuquerque the most convenient place, as it is the most central, and we think August 15th full late enough. What say the exponents of the party? Two years ago the territorial convention was so late in the season that it threw the county conventions almost on the eve of election. There was no time for organization and for the prosecution of such a fight as New Mexico politics required. The same mistake should not be made this time. If we mistake not the purpose of the democracy it is to wage such a war this fall from Raton to Stern's Pass and from the San Juan to the extreme verge of the Pecos as shall overwhelm the republicans in irretrievable defeat, and purge New Mexico of the gang which now trails the banner of our fair territory through the slums of unequaled corruption and profligacy. This can be done, but it needs an early convention followed by complete organization in every county. The times are now ripe for the grandest victory that ever perched on the banners of New Mexico democracy. But the democracy must be worthy of the hour. We must appreciate the possibilities of the occasion and show ourselves able to use them. Early action and early organization are steps in this direction.—Albuquerque Democrat.

The above suggestions are all right, but Lincoln County Democrats would like to see the date a little later; as this County holds Convention the 14th, and at Roswell the 21st. Make the date early in September.

The political pot is boiling, and some enthusiastic republican has circulated the report, that Lincoln county this fall will give 400 majority to the republican ticket and named other democratic counties as doing likewise. The Raton Range, a very conservative republican paper, in speaking of this wild promise, by would be leaders, looks upon the statement as being very improbable. Lincoln county as constituted for the ensuing election shows a good safe democratic majority. Taking as a basis the vote cast for Joseph at the last general election, almost all of the precincts show a decided preference for the local democrats in the various offices now filled; where this revolu-

tion, and how it is to occur, the prophet sayeth not. The democrats will have a good majority in Lincoln county, and the few republicans can enjoy themselves from now until election in their golden dreams, that is about all they will have.

As the campaign approaches politicians gird their loins and prepare for the contest. It is perhaps a little early to talk politics, but as politicians are already at work in this county, we wish to inform them that their efforts are useless. The people will not be lead by the nose in the approaching contest; they will see that only good men are elected to office, and any set of men who attempt to run their party machinery to their own interest will meet with defeat. We are happy to note, that as yet, we have heard no Democrat express himself as irrevocably set upon the candidacy of any one man for any certain office, but all appear to be anxious for the nomination of the best men, irrespective of personal feelings. This is a sentiment that will win; put up our best men without regard to our personal feelings and we will see victory perch upon our banner.—Socorro Advertiser.

## SECTION NINE.

The Federal Election Bill, in the form in which the Republican organ of this city says that it "will become law," provides in section 9 that where ballots for a member of Congress are found in a wrong ballot-box—one intended, for example, for State and Legislative ballots—they shall nevertheless be counted as if deposited in the proper box.

The effect of such an enactment elections supervised by persons selected for the purpose by Mr. Quay or Mr. Dudley will be to provide for cumulative voting of a kind not contemplated in any scheme of minority representation ever publicly presented for consideration.

If this section becomes law local campaign committees will have no occasion to negotiate for floaters in blocks of five. Every partisan voter will be in himself a block of five or as many more as there may happen to be ballot-boxes. It will only be necessary for him to have all his ballots Congressional ones and deposit one in each of the boxes. He will thus cast as many for his Congressional candidate as there are ballot-boxes at no other cost than the sacrifice of his right to vote for State and local officers, legislators and the like.

It is a wonderful bill in many ways, but section 9 is its crowning glory as a measure designed to enable the administration to elect as many members of Congress as it may desire.—World.

Romulo Martinez, of Santa Fe, was in the city yesterday. It may

be said of Mr. Martinez that there is not a more popular man in New Mexico of either party. Should he submit to the importunities of many of the leading democrats of the territory and accept the nomination of delegate to congress he would have a walk over with any man whom the republicans could bring against him.—Albuquerque Democrat.

The junior senator from Colorado, Mr. Wolcott, who is one of the youngest men in the Senate, made a speech in favor of free coinage of silver which at once established his reputation as an orator, if it did not change any votes on the silver bill. He attacked Mr. Harrison for trying to injure silver and make it a mercantile commodity such as wire, copper or any other base metal, notwithstanding the plank in the republican national platform favoring silver; but what probably cut most of all was his reference to the fact that Mr. Harrison was "standing in the shadow of a great name."—Our Washington Correspondent.

Major Clarkson, the Washington correspondent of the Philadelphia Ledger, and clerk to the Ways and Means Committee, states in a dispatch to the Ledger that the new pension bill "will swell the roll for the fiscal year of 1891 to an aggregate of nearly \$175,000,000, if it does not exceed that sum." Six years after the war, when General Garfield, as chairman of appropriations, reported the pension appropriation of \$35,000,000, he excused the amount and justified the passage of the measure, because, as he stated, that was the largest sum that could ever be called for to pay pensioners, as from that time the list would decline. Now, twenty years later, our pension expenditures are up to \$175,000,000 with reasonable prospect of reaching the enormous sum of \$200,000,000. Grover Cleveland handed over to Harrison a surplus of \$43,000,000. There is promise of as great deficiency the next fiscal year, if it does not reach \$60,000,000.—Pittsburgh Post, June 16th.

## SILVER BILL.

The Silver Bill as passed by the Senate:

The vote upon the passage of the bill was, yeas 42, nays 25. Mr. Carlisle did not vote at all, but dodged on the final passage of the bill, though he was not paired. He voted, however, on all the other amendments with his party. The republicans who voted for the perfected free coinage bill were Senators Cameron, Ingalls, Jones, of Nevada; Manderson, Mitchell, Moody, Paddock, Pierce, Plumb, Power, Sanders, Squire, Stewart, Teller and Wolcott—fifteen in all. The only democrats who voted against the bill, were Senators Gray,

McPherson and Wilson, of Maryland.

As to what will become of the bill in the House is a matter of considerable difference of opinion. Free coinage was beaten on a square vote when the bill was up in the House before. There were twenty democrats in that body who have said that they would not vote for it, but the members of that party are greatly delighted to-night over the passage of the bill in the Senate. It is very probable that no help will be got from them in the way of defeating the bill in the House. It was supposed that democrats such as Senator Blodgett, of New Jersey, Gorman of Maryland and Payne of Ohio would vote against free coinage, knowing that their States were opposed to it. But they all voted for the bill in the Senate, believing it good politics to do so. Mr. Gorman chuckled greatly over the passage of the bill and is said to have remarked that any democrat would be a fool to aid in keeping the free coinage bill from going to the White House.

So far as the Democrats were concerned, Mr. Gorman thought it would make no difference whether the President signed the bill or not as it was certain in either event to benefit the Democratic party. If the President vetoed it, he would have the Pacific Coast States against him, this Democratic leader claimed, while, if the President signed it, he would have the East against him. So he thought it was a piece of sharp politics for the Democrats to help pass the bill. No doubt this will be the view taken under his advice by the Democrats in the House, which will make the defeat of the bill there difficult unless the small contingent of Western Republicans who have been supporting free coinage change their attitude on the question.

Speaker Reed, however, said to-night that he did not think the bill could get through the House. He thought there were enough Republican votes alone to defeat it. But the support of Mr. Cameron and other Republican Senators whose constituents were known to be against the measure has given fresh hope to the silver lobby, and they are loudly declaring to-night that the bill will go through the House without any trouble.

The Aztec index, a republican paper, says that "under the constitution and laws of Wisconsin the qualified electors of school districts can vote an annual tax for school purposes on every dollar of assessed valuation in the district as high as 5 per cent, or 50 mills. Under the proposed constitution for New Mexico nine-tenths of the school districts would be prohibited from voting any school tax whatever, and in the other tenth the franchise is restricted to payers of taxes on property, and they can vote a tax of only 2½ mills. Yet the advocates of statehood assert that the educational feature of their abortive instrument will compare favorably with the corresponding articles in the constitutions of the older states. How does it compare with that of Wisconsin?"

The worst piece of Road in Lincoln county is between White Oaks and Manchester. The road overseer is certainly derelict in his duty in not in some way making it passable. There is not a person coming over the road but what complains of its fearful condition. The county will be mulcted in a big bill for damages some of these days. We have been called upon by several to publicly call attention to this matter, and if something is not done soon so as to make the road more passable, more vigorous steps will be taken.

And whereas, default has been made by the said John T. Reid and Kate Reid, in the payment of said note and the interest thereon, and the same has been fully paid by William H. NOTICE FOR PUBLICATION.

LAND OFFICE AT ROSWELL, N. M., May 8, 1890.

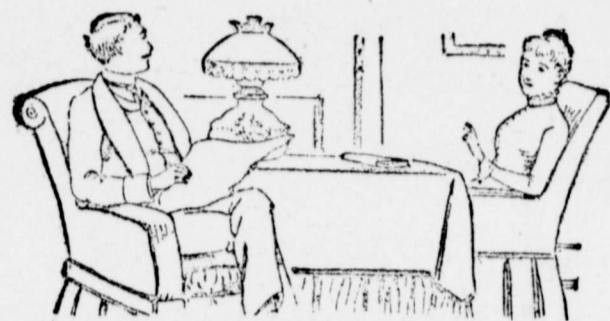

Notice is hereby given that the following-named settler has filed notice of his intention to make final proof in support of his claim, and that said proof will be made before Probate Clerk of Lincoln Co., at Lincoln, N. M., on Saturday, June 18, 1890, viz: Edward Schaefer, pre-emption D. S. No. 3509, for the E. 1/2 S. W. 1/4, Sec. 24 Tp. 6 S. of R. 11 E.

He names the following witnesses to prove his continuous residence upon and cultivation of, said land, viz:

- Edward Fitzpatrick of White Oaks, N.M.
George Fitzpatrick, " " "
Chas. M. Bryan " " "
Bird Dyer " " " "

Any person who desires to protest the allowance of such proof, or who knows of any substantial reason, under the law and the regulations of the Interior Department, why such proof should not be allowed, will be given an opportunity at the above mentioned time and place to cross-examine the witnesses of said claimant, and to offer evidence in rebuttal of that submitted by claimant.

WINFIELD S. COBEAN, Register.

Mr. LEE. "Why, Addie, you needn't cry about it! I only said Mrs. Allen was a very well-informed woman, and I wished you would follow her example."

Mrs. LEE. "Yes, and last week you said you wished I could manage to look as stylish as Mrs. Allen,—and she makes all her own clothes. But she has what I haven't."

Mr. LEE. "What is that?"

Mrs. LEE. "Well, she gets all of her information from the Magazine they take. I admit that she knows all that is going on, and is bright and entertaining in conversation; but I could do as well as she does if I had the same source of information. She lent me the last number of her Magazine lately, and I learned more in one hour's reading, about various social matters and the topics of the day, than I would pick up in a month by my occasional chats with friends. It certainly covers every topic of interest, from the news of the day down to the details of housekeeping; and everything is so beautifully illustrated, too. Every time Mamie goes over to the Allens' she comes back and teases me to get you to take Demorest's Family Magazine, as the stories are so good. Even the boys watch for it every month, as a place is found for them also in its pages; and Mr. Allen swears by it. It is really wonderful how it suits every member of the family!"

Mr. LEE. "Well, perhaps I had better send for a Specimen Copy; for, if it is anything like what you say it is, it will amuse and instruct the whole of us."

Mrs. LEE. "I see that W. Jennings Demorest, the publisher, 15 East 14th Street, New York, is offering to send a Specimen Copy for 10 cents, so we can't lose anything, as each number contains a 'Pattern Order' entitling the holder to any pattern she may choose, and in any size—which alone makes each copy worth 30 cents; and I just want a jacket pattern like Mrs. Allen's. The subscription price is only \$2.00 a year; and I must say I can't see how they can publish so elegant a Magazine for so little money."

"WHAT MEDICINES ARE MOST CALLED FOR?"

asked the reporter of an old druggist. "Dr. Pierce's preparations," he replied. "They are sold under a positive guarantee that they will, in every case, give satisfaction, or the money is promptly refunded. His 'Favorite Prescription,' for all those chronic weaknesses, nervous and other derangements peculiar to women, is used with unfailing success. It cures weak back, bearing-down sensations, irregularities and weaknesses common to the sex, and being the most perfect of tonic medicines builds up and strengthens the entire system. The demand for it is constant, and I am conversant with scores of cases cured by it." Returning after a few moments' absence, the venerable wielder of the pestle remarked, "the number of sarsaparillas and other, so-called, 'blood medicines' is legion; but Dr. Pierce's Golden Medical Discovery outsells them all and it is the only blood-purifier out of the many which I am obliged to keep upon my shelves, that is guaranteed to benefit or cure in all cases for which it is recommended, or money paid for it is refunded." "In the line of Pills," remarked the old gentleman, "the little Sugar-coated 'Pellets' put up by Dr. Pierce—lead all others, both in amount of sales and the general satisfaction they give my customers."

CANCER OF THE LIP CURED.

I suffered from Cancer on my lip that defied the skill of the best physicians in the State. I had it burned out, but the operation only made it worse, causing it to spread over more surface and eat deeper in. I finally had it burned off again, and used Swift's Specific (S. S. S.) to heal it up and drive the poison out of my blood. The effect of the Specific was magical! It healed up the Cancer entirely without leaving a scar as a reminder. This was over four years ago, and since then there has been no sign of a return of the Cancer. I will cheerfully answer any enquires in regard to my case.

"Eleven years ago I was suffering from an attack of White Swelling. A great many prominent physicians attended me but failed to effect a cure. I commenced using Swift's Specific (S. S. S.), and after using it for a few months I was entirely cured, and have had no symptoms of its returning. I feel that cure is entirely due to the curative properties contained in S. S. S. I can cheerfully recommend it as a medicine to all suffering humanity."
