

ble. Las Vegas with a population of 8,000, has probably fifty gambling houses, each of which pays the magnificent sum of \$25 a year license. Saloons are licensed at \$75 a year."

The Mexicans as a class are very ignorant. The country is simply so poor that schools cannot be afforded. Here, I would suggest, is a good opportunity for a little missionary work and the establishment of parochial schools.

"One peculiarity of the Mexican is his incorrigible hatred for the Indian. When Cortez conquered Mexico only the officers of the Spanish army brought their wives with them to the land of untold wealth. The soldiers, for the most part, married Aztec squaws, and the present population of New Mexico is principally composed of descendants of these people. They have some Indian blood in them, but you dare not tell them so. Nothing is tended to wound the feelings of a don more than to tell him that Indian blood courses in his veins. They seek some consolation by claiming that they are descendants of the Moors who invaded Spain, and insist that some of them constituted the command of Cortez when he conquered Mexico. One thing that appears strange to me is the fact that some male member of each family bears the given name of Jesus, the only people probably who give their children such a sacred name.

In the next decade I expect great improvements to take place in New Mexico. Wealth will roll in, manufactories will be established and the natives will be educated. It is no place for a young man to go now, but it will be some day."

Dunnell, of Minnesota, chairman of the house committee, on the 11th census to day introduced an apportionment bill on the basis of one representative for each 178,371 of population. This would provide for a total representation of 365. Under the apportionment, Alabama, California, Colorado, Michigan, Missouri, New Jersey, Oregon, Texas, Washington and Wisconsin would each give one member; Arkansas, Illinois, Kansas and Pennsylvania each two; and Minnesota and Nebraska each three; and Ohio would lose one.

"Several of our more or less esteemed contemporaries are evidently waiting to be seen 'for the constitution' or 'fornist the constitution.'"—Santa Fe New Mexican.

And several of the other paid and subsidized "tool" newspapers, are continually insinuating that the papers which are opposed to statehood are boodle sheets. Now do not judge others by yourselves. Although you may know it and although it may be above your comprehension, there are such

newspapers as have not been bought and are not for sale on this subject. Now would it not be well for you to at least keep a discreet silence in this matter. A pertinent question comes to us as we write. Where are the 50,000 copies of the constitution which the Santa Fe New Mexican Printing company was to print? Yes, where are they? Come now let the people see how you are to answer this question. It was 50,000 copies altogether, if our count is right, 20,000 in September 1889, and 30,000 in August 1890 which the constitutional convention ordered printed. Where are they?—Black Range.

Silver has been going down for the past week and our Republican contemporaries have nothing to say about the silver bill. It only proves our assertion that London controls the silver market and will continue to do so until we pass a free coinage act and no amount of Republican buncombe can get around the fact. We (the Democrats) demand the free coinage of silver.—Industrial Advertiser.

We wish to call the attention of voters to article XI, Sec. 4 of the Santa Fe constitution, to impose a tax on "particular things" and occupations, also to the latter part of section 10 of the same article, which provides for a tax on the output of unpatented mines. Working men and miners should examine this well and then cast their votes against the constitution on October 7th.—Industrial Advertiser.

The following clippings upon the duties of voters on October 7th, regarding the Constitutional election, are taken from the Headlight of the 13th.

The friends of Mr. Joseph should bear in mind that every vote cast for this Constitution in October amounts to a vote for Otero in November, and that a majority against the Constitution in October means the increase of Mr. Joseph's majority by a thousand votes in November. This is now the issue—the situation into which the campaign is revolved by the action of Mr. Otero himself, in his efforts to bunco the people into electing him to Congress. It is thoroughly a buncoing game, a put up job to elect a bunco Congressman. It is for the people to say whether it shall succeed.

It is not an extravagant estimate that ten million acres, or one-sixth of the best lands of New Mexico, are owned and controlled by the majority of the convention that made the pending Constitution. It is not strange, therefore, that we find in that Constitution a limitation of the general tax to a figure that makes the support of government impossible from that source, nor that the deficit is to be made up by a tax on occupations and peculiar articles. The lands of these gentlemen members of the Convention cannot be touched. The poor mechanic, tradesman and laborer must make up the difference.

Every vote against the proposed Constitution in October will count two votes for Mr. Joseph and a Democratic Legislature in November. Let every friend of Mr. Joseph and good government

remember that and vote against the Constitution.

Every vote cast against the proposed Constitution will be a protest against the rule of the land barons who so made that Constitution that people who don't own land will have to pay the bulk of the taxes for the support of government.

The butcher, the baker, the carpenter, the barber, the milkman, the saloon keeper, and the grocery man, who votes for the pending Constitution on October 7th next, should understand that he votes to impose upon himself an occupation tax of five, ten, fifteen or twenty dollars a year, whatever, may be necessary to make up the deficit in the general tax for the support of state government that he votes to establish. That is a provision of that Constitution—and it limits general taxation to a point that makes this tax on occupations inevitable under state government.

The cattle man who votes for the proposed Constitution on October 7th next, should understand that in doing so he votes for the levy of a tax on every horse, steer, cow and calf he owns, to make up the deficit of the general tax provided for the support of the government, for the great land owners who made the Constitution limited the general tax to a sum below the needs of the state government, in order to shield their own property from its fair share of public and necessary taxation.

The change of the day for voting on the proposed Constitution from the general election day to a special election a month in advance was because the makers of that instrument feared the people. They knew that a full vote, such as would have been had in November, would be fatal to their scheme, and so removed it to a day when a full vote will be impossible. Is it safe to put a lot of such conspirators in power who will not trust the people to say what they want?

Every vote cast against the proposed Constitution will be a protest against ring rule in New Mexico.

On Saturday evening upon very short notice a good crowd of our people, ladies and gentlemen, gathered at the Town Hall and listened to a short and entertaining address by Hon. G. A. Richardson, the democratic candidate for the Council. Everyone was pleased with the remarks and desirous of hearing the gentleman again, before the canvas closes. The whole affair was an impromptu—one of but short notice but altogether interesting. There were some republicans in the audience who were attentive listeners and pleased with the speaker, and the manner in which he treated Hon. C. B. Eddy, his opponent in the race. Mr. Richardson made a good impression and he is a clean thorough gentleman and will make friends throughout the district. May he call again.

Democrats all over the Territory are going to vote against the Constitution to be submitted on October 7th.

John Y. Hewitt, as chairman of the meeting on Saturday evening last, used some very pertinent and telling phrases, when alluding to the men who were endeavoring to foist the so called constitution upon the people. In the course of his speech he used the term "Thieves and Scoundrels," at which Maj. Caffrey of the Leader, seemed to be somewhat ruffled. Now, the Maj. should not feel so badly at what a political opponent says. What will the Major and the G. O. P. think of the following from the Optic:

"Continued success has developed the never failing symptoms of relaxing integrity and the foreshadowings of ultimate dissolution. Perhaps the republican party in New Mexico is not in a stage of hopeless corruption; but certain it is that it is full of leeches, of barnacles, of papsuckers and ringsters, of corruptionists and wirepullers. Certain it is that people demand a radical change, a reckoning at the hands of the dominant party for the present condition of territorial affairs. The people are not passing blatant resolutions. They are not taking up arms. They are not revolutionists. But in the privacy of their home they are doing a great deal of thinking. They are looking at events with a keen vision that sees beneath the surface and pierces through hypocrisy. They are coming to the conclusion that there is something rotten in the territory of New Mexico, and that the ringsters and corruptionists, the public Jekylls and private Hydes, have reached the end of their rope. Those whom the vote of the majority seats in the chair of public power are getting too bestial, and therefore the majority is getting too beastly. It may be cut down this fall unless a radical change takes place. This will perhaps be the case, however. Let it be so and all will be well."

The republican caucus, it is said, in its meeting on Friday night denounced Chief Justice O'Brien in terms neither measurable nor euphonious. They even went so far as to propose that resolutions should be offered in the convention condemning his course and demanding his removal at the hands of Mr. Harrison. All this tempest in a teapot was caused by the fact that the chief justice said in substance that if a set of land thieves should attempt to fence up the country back in the states as they are doing in New Mexico not only would their fences be cut by the plundered people but their houses would be burned over their heads. Touch a land grabber, even so much as by word or implication, and all the republican bosses are stirred to fury, like a hive of bees deprived of its queen.—Albuquerque Democrat.

SMALL THANKS DESERVED.

Judge James O'Brien, the imported republican chief justice of this territory, was interviewed in Kansas City the other day, and that interview has been published in the Star. Like republicans generally in the states, this late Harrison importation seems to have none too good an opinion of New Mexico or her people. He says emphatically: "It is no place for a young man to go now, but it will be some day." This is giving us a black eye with a vengeance, and will do more to retard immigration than all the bureau of immigration combined with private effort can do to accelerate it. He puts our population at 130,000, says the majority are very ignorant, and declares that the country is simply so poor that schools cannot be afforded. More black eyes and plenty of them.

The most remarkable thing about the interview is the fact that he charges the land stealing upon "English loan companies." He adds that the action of the English land barons in gobbling up all the land they could possibly get their hands on, has on one or two occasions, almost created a revolution. These loan companies fence in millions of acres and stock men break the fences down." It is true that Judge O'Brien has been in New Mexico but for a few months, but if in that length of time he has not learned who the New Mexico land thieves are, his want of acumen for the position of chief justice is something less than doubtful.

The following little bit is commended to the careful consideration of our Mexican citizens: "One peculiarity of the Mexican is his irreconcilable hatred for the Indian. When Cortez conquered Mexico only the officers of the Spanish army brought their wives with them to the land of untold wealth. The soldiers, for the most part, married Aztec squaws, and the present population of New Mexico is principally composed of descendants of these people. They have some Indian blood in them, but you dare not tell them so. Nothing is calculated to wound the feelings of a don more than to tell him that Indian blood courses through his veins. They seek some consolation by claiming that they are descendants of the Moors who invaded Spain, and insist that some of them constituted the command of Cortez when he conquered Mexico."

The fact is that O'Brien's interview is very much of the tone of the minority report, of which we heard so much of two years ago.—Albuquerque Democrat.

Star Route Dorsey was a delegate to the Otero convention and was loud in asking for his nomination. Dorsey was a delegate from Colfax county.

One box and three upright heating stoves, to close out that line.—Stewart of White Oaks.

W. C. McDonald left on the stage Sunday evening, to attend to business at Liberal, Kansas, and may go farther east. Mr. McDonald, as manager of the Carrizozo Cattle Co., has his hands full these days. He will be home in ample time to attend to his canvas for the legislature and will make the race. As yet democrats are not sure who he is running against—rumor has it that Mr. Tillitson, the opposing nominee, refuses to run. If this is the case, give the democrats some one else to knock out. The republicans could go farther and do worse than make McDonald's election unanimous.

Much excitement has been caused the past few days on account of a reported rich strike of silver, lead and copper ores near Three Rivers. Several White Oaks parties have been prospecting in that locality for some time past and Messrs. A. N. Price and J. D. Grumbles, are now on a tour of investigation.

The dance held on Wednesday evening—tendered to Bird Dyer, was largely attended.

Bird Dyer has gone to San Marcial and from there to Trinidad, Colo. Bird has left a great many friends here who will be pleased to see him return again and make this his permanent home.

Chas. Weidman, of Lincoln, member of the well known firm of Whelan & Co., merchants and hotel men, and the candidate on the Alliance ticket for County Treasurer, was a visitor in White Oaks this week, and favored the INTERPRETER with a visit. Mr. Weidman is a gentleman whom it is a pleasure to meet, and the alliance people certainly selected an honest and capable man for their candidate for Treasurer, and should Charlie Weidman become the Treasurer, the county funds will be in secure hands.

Jas. A. Alcock, the popular ex-manager of the Carrizozo Cattle Co., arrived home on Sunday last, from an extended eastern trip, where he has been looking after matters for the company.

A party of ladies enjoyed a horse-back ride on Tuesday last, to Water Canon, in Carrizo Mountain—they went for a supply of wild hops, which are to be had in abundance, and the scenery is delightful.—Such a trip could be enjoyed by most anyone—the party had a very pleasant time.

Brothers and Kinraid, in the Jicarillas, have tunneled into the mountain about 210 feet and have struck a good cross vein. Parties who were on the ground Sunday last, report the best find yet made in this prospect, and the men at work are sanguine that the long looked for bonanza in the Jicarillas is about to be realized. These parties certainly deserve success for their patience and untiring efforts.

The finest lot of buggy whips in town, for the price, at Ridgeway's.

Hay in abundance has commenced to come into town—the market is dull. Hay for sale at \$15.00 is pretty cheap for White Oaks.

Page Otero and Ruble were in from the Jicarillas on Monday preparing to go to work on the claims in the hills.

The Jicarilla well company, is about to resume work some time this month on the artesian well. The plant now on the ground and the depth the well is already sunk will warrant a further endeavor of the company to reach water.

Col. Heman, E. McB. Timoney and Mr. Ayres, delegates to the Otero convention at Albuquerque, have returned and are at home again.

Chas. Anderson and wife have sold their homestead to W. H. Weed—the deed passed Thursday last. Mr. Weed is investing heavily in White Oaks real estate of late.

The World Enriched.

The facilities of the present day for the production of everything that will conduce to the material welfare and comfort of mankind are almost unlimited and when Syrup of Figs was first produced the world was enriched with the only perfect laxative known, as it is the only remedy which is truly pleasing and refreshing to the taste and prompt and effectual to cleanse the system gently in the Spring time or, in fact, at any time and the better it is known the more popular it becomes.

Rev. Gibbons, the Methodist divine who will preside in White Oaks, is expected next Sunday.

Mr. Thompson, of Dakota, brother of J. W. Thomson, of Red Cloud, arrived on a visit last Wednesday. These brothers have not met for years.

Miss Hull, the popular teacher of the Academy, arrived on Wednesday's stage. Her school opened Thursday with an attendance of 24 pupils. Everyone is pleased to see Miss Hull back again, especially her scholars.

Our new stock of boots and shoes will soon arrive—get our prices before you buy—they will astonish you.—Young & Taliaferro.

Remember, spot cash buyers, that we will not be undersold by any firm in Lincoln county.—Young & Taliaferro.

A fine mounted grind-stone for sale cheap.—Stewart of White Oaks

Smith Lea left Wednesday morning for Roswell. Mr. Lea while under the care of Dr. Paden, has rapidly recovered.

W. C. McDonald was on the fair grounds at Albuquerque, on Wednesday.

Anthony Joseph and his estimable wife were at the Albuquerque fair Wednesday, having left Washington Friday night.

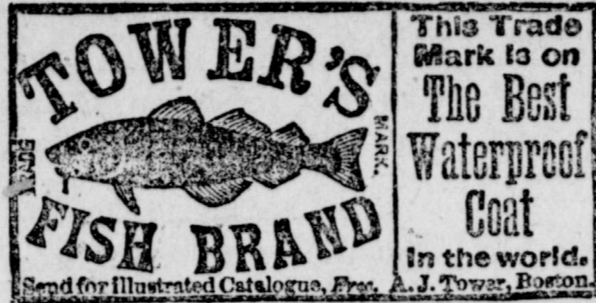

WHITE OAKS COAL.

A White Oaks correspondent to the Santa Fe New Mexican, under date of September 13th, writes concerning coal and mining, as follows: "Here at White Oaks we have not only soft coals, however, we have the best coking coals in New Mexico, and abundance of semi-anthracite. How little is really known of this section is illustrated by the ignorance of the progress of the White Oaks mining district. In this little district, ninety miles away from railway and as little known as the 'darkest Africa,' is the deepest mining in the territory. We have four shafts deeper than any others in New Mexico; one of them has just reached the depth of 1,000 feet. At that depth the famous North Homestake has ore richer and wider than at any point above. Had this occurred anywhere else than in New Mexico, it would have created wild excitement, and would have drawn in people from a dozen different states. Here it has excited no attention, and, in fact, is unknown a mile away from the mine. The resources of this part of New Mexico are greater than anyone unfamiliar with the country would believe."

On Monday November 10th, 1890, at Las Vegas, the United States Court then in session the 4th week, has set for trial the following cases of interest to people in this locality: U. S. vs. Blanchard, U. S. vs. El Capitan Land & Cattle Co. and U. S. vs. Copeland; Wednesday Nov. 12th, U. S. vs. McPherson et al. and U. S. vs. Parker et al. These cases against the mill men are to be prosecuted to the bitter end, notwithstanding the promises held out by influential republicans, that they were to be dismissed. Gentlemen be prepared to take your medicine like good faithful adherents of the G. O. P.

The Masonic Fraternity are about ready to institute their new lodge. The dispensation is expected daily.

Judge Bellomy on Wednesday last, had a ride on one of the best horses on the range. Judge Bellomy is now the champion.

E. W. Parker and his estimable wife, of White Oaks, were at the Commercial this week. Mr. Parker has done more to bring out the mining interests of Lincoln county than any other one man and is now successfully operating the South Homestake mine and mill.—Las Cruces Republican.

ADVICE TO MOTHERS.

Mrs. Winslow's Soothing Syrup, has been used by mothers for children teething for over fifty years with perfect success. It relieves the little sufferer at once, produces natural, quiet sleep by freeing the child from pain, and the little cherub awakes as "bright as a button." It is very pleasant to taste, soothes the child, softens the gums, allays pain, relieves wind, regulates the bowels, and is the best known remedy for diarrhoea, whether arising from teething or other causes. Twenty-five cents a bottle.

The Las Vegas Optic of the 11th, had Mr. and Mrs. E. W. Parker among the passengers bound East—to New York City, so they report.

DEMOCRATIC PLATFORM.

We, the Democratic party of the Territory of New Mexico, in convention assembled, reaffirm our allegiance to the time-honored principles of the National Democratic party as enunciated in the platform adopted at St. Louis in 1888.

We demand the free coinage of silver.

We arraign the National Republican party for squandering the surplus revenues in the treasury in order to furnish a pretext for increasing tariff taxation on the necessities of life—for depriving Democratic constituencies of their representatives in Congress and arbitrarily seating republican candidates who were not elected by the people—for adopting an arbitrary and unconstitutional system of rules in the House of Representatives and thereby suppressing the rights of the minority—and for attempting to pass the Lodge election bill to suppress free elections and subvert the rights of the states, in utter disregard of the Constitution of the United States—and practically for having awarded seats in the Senate of the United States to two Senators from the state of Montana, who were not lawfully elected thereto.

As heretofore, we reiterate, that the General Government has been and still is, hostile to the rights of New Mexico and its obligations under the treaty of Guadalupe Hidalgo, in failing and refusing to pass such a law as will secure the prompt and speedy settlement of land titles in New Mexico.

We declare that the native population of New Mexico are entitled to the lands held by them or their predecessors under the laws of the Republic of Mexico, and that their rights thereto should be respected.]

We endorse the course of Hon. Antonio Joseph, our delegate in Congress as a zealous and faithful public servant, at all times tireless in his efforts in behalf of the people of New Mexico, and heartily commend him for re-election.

We denounce the action of L. Bradford Prince Governor of New Mexico in requesting the quartering of United States troops in the county of San Miguel to overawe the people under the pretext of resistance to the civil authority, when no process was in the hands of the officers of the law unreserved, as in keeping with the spirit of contempt for the civil authorities usually reserved by the Republican party.

We arraign the Republican party of New Mexico for reckless disregard of the will of the people and turning out of the last Legislature duly elected Representatives in order to secure a majority sufficient to pass iniquitous measures over the executive veto.

We arraign them for passing a libel law contrary to the spirit of the age—a order to suppress free speech and a free press; for the passage of a change of venue law in the interests of a single corporation and thereby so increasing the cost and delay of litigation as to amount to a denial of justice; for passing a law changing the practice in taking appeals to the Supreme Court, applicable only to a limited number of cases in which Republican members of the Legislature were either parties or attorneys; for assuming the powers of the Territorial Executive in order to place in office incompetent and corrupt party favorites; for passing a law authorizing the competition of convict with honest labor; and for passing many other outrageous laws subversive of the rights of the people.

We condemn them for failing and refusing to enact such legislation as would secure to the Territory an efficient public school system, and for a manifestation of general hostility to public education, as shown by their defeat of the effort to establish such a system by the last Legislative Assembly, as well as their denunciation of the Perkins' Bill for the reason that such a system for the education of children of the masses would require the taxation of large land grants.

We condemn the Republican party of New Mexico for placing the management of the Penitentiary in the hands of a board composed of perpetual incumbents of public office, which board, in defiance of public opinion, has given employment almost wholly to relatives of the members thereof, and turned what was intended to be a reformatory institution into a house of debauchery.

We denounce the prostitution of the Courts by packing juries to secure wholesale indictments for crime against innocent persons as a means of intimidation for political purposes, and as a further means of rewarding a horde of party strikers who are kept in attendance on Courts as witnesses, term after term, while refusing the accused the speedy trial guaranteed by the law of the land.

We declare ourselves in favor of the unqualified repeal of the Act of Congress of 1859 restricting entries on the public lands, and thereby retarding the progress of the Territory; and of the repeal of the law prohibiting the investment of foreign capital in our mining industries.

We condemn the Republican party for passing such an act, authorizing the holding of a Constitutional Convention, as deprived the Democratic counties of the territory of any opportunity to secure a fair or equal representation in said Convention, and of attempting to foist upon the people a Constitution framed in the interest of that party alone, and discriminating in favor of the few as against the masses.

We declare that the Constitution so framed would, if adopted, deprive the people of the State of the right to elect the judges of the Supreme Court, while providing for the election of the judges of the District Courts by districts so constituted as to render such right valueless. We further declare that said constitution denies to the Executive the power usually conferred by such instruments, and makes him the mere puppet of the Legislature by subjecting him to suspension from office upon impeachment without trial. We further declare that said Constitution so limits the power of taxation upon personal property as to enable all large property interests of individuals and corporations to escape the just burdens of the government, and inequitably and unjustly authorizes the same to be imposed upon particular articles and occupations.

We further declare that this proposed system of taxation will not produce, by property tax, sufficient revenue to support a State government and meet the public obligations, thereby rendering it absolutely necessary to impose a tax upon particular articles and occupations, thus making the masses pay for the benefits of the government received by the property of the few.

We further declare that said Constitution makes such an arbitrary and partisan apportionment for the election of members of the Legislature as to virtually disfranchise opponents of the Republican party. We further declare that the action of pretended apportionment, on the 18th day of August, 1890, was taken without color of legal authority and without the presence of a quorum of said original Convention, and that the manifest object of a change in the date of the submission of said instrument to the purpose of defeating a full and fair expression of the popular will thereon.

We therefore call upon all patriotic citizens of New Mexico to go to the polls on October 7th next, and vote against the proposed partisan Constitution, to the end that all advocates of Statehood for New Mexico may without regard to present or future party affiliation unite in an honest effort to secure from Congress an Enabling Act, for the submission of a fair and just Constitution.

JOHN LEE.

The republicans at Albuquerque on Saturday the 13th, nominated M. S. Otero as their candidate for Congress. Antonio Joseph will again beat him worse than ever. The most ridiculous speech Otero ever endeavored to make, he made at the convention. He said: "You honor the republican party when you honor M. S. Otero. Once I got elected, next time I got beat, and now I am before you again."

Col. Theo. Heman and E. McB. Timoney, of White Oaks, were taking in the city yesterday, prior to the convention. These are good men and true, whose greatest defect is that they train with the republican party. However, THE DEMOCRAT has not given up all hopes of their conversion, but anticipates that their declining days will be spent in peace, righteousness and democracy.—Albuquerque Democrat.
