Why This Advanced Discussion?

What is there about the Schley case that it has never been considered on its merits irrespective of some ulterior effect of its hearing and decision?

Why should President Roosevelt before rendering his verdict on Admiral Schley's appeal deem it necessary to call in Senators Allison, Aldrich and Spooner, Speaker Henderson and Congressmen Grosvenor and Cannon to consult with them on the political effect of his opinion?

Does the President not know that the more care he takes to make his opinion fit political exigencies as seen through the partisan spectacles of three republican Senators and three republican Congressmen the more certain will it prove a partisan and unconvincing document to the people who look for a judicial decision based on evidence and not a campaign document based on political necessities?

If President Roosevelt had sat up nights to devise a scheme to prevent popular acceptance of his decision as settling the Schley case he could not have hit upon anything more certain to accomplish that end than the conference of last Saturday. What faith can the people have in the judgment of a judge who has not enough faith in himself to formulate it without securing the approval of interested parties as to its effect on their joint fortunes? —Chicago Record-Herald.

The German Prince Is Our Guest.

Prince Henry, a brother of Emperor William, is now on a visit to the United States and will be entertained at Washington and receive such courtesies as are due to his station, and as a representative of the Emperor. Much has been said about his reception and entertainment, many objecting to any expenditure by the government for that purpose on the ground that it is a recognition of royalty. They lose sight of the fact that we do not necessarily endorse all the convictions of others because they happen to become our guests.

The Prince comes on a mission of friendship and should be treated as his station demands. This is not toadyism but courtesy.

A general snow storm in Kansas and adjoining states delayed trains and did much damage. At Memphis and Little Rock the sleet was so heavy that many roofs were crushed and travel greatly impeded.

THE NEW YORK WORLD
THRICE-A-WEEK EDITION.
The Most Widely Read Newspaper in America.

Time has demonstrated that the Thrice-a-Week World stands alone in its class. Other papers have imitated its form but not its success. This is because it tells all the news all the time and tells it impartially, whether that news be political or otherwise. It is in fact almost a daily at the price of a weekly and you cannot afford to be without it.

Republican and Democrat alike can read the Thrice-a-Week World with absolute confidence in its truth.

In addition to news, it publishes first-class serial stories and other features suited to the home and fireside.

The Thrice-a-Week World's regular subscription price is only \$1.00 per year and this pays for 156 papers. We offer this unequalled newspaper and WHITE OAKS EAGLE together one year for \$2.00.

THE COMMONER.

[Mr. BRYAN'S Paper.]

The Commoner has attained within six months from date of the first issue a circulation of 100,000 copies, a record probably never equaled in the history of American periodical literature. The unparalleled growth of this paper demonstrates that there is room in the newspaper field for a national paper devoted to the discussion of political, economic, and social problems. To the columns of The Commoner Mr. Bryan contributes his best efforts; and his reviews of political events as they arise from time to time can not fail to interest those who study public questions.

The Commoner's regular subscription price is \$1.00 per year. We have arranged with Mr. Bryan whereby we can furnish his paper and WHITE OAKS EAGLE together for one year for \$2.00. The regular subscriptions price of the two papers when subscribed for separately is \$2.50.

AMERICAN PLACER COMPANY.

The American Placer Company is now getting down to business. The dredge is working like a watch except the shovel which has been partially disabled, being knocked out of plumb. This however, has been to a great degree overcome and the machinery is now in operation and the results are more than was ever expected. The well furnishes more water than is required to run the machine and it is believed that the company has water enough to run two other machines of the same capacity and plans are now being considered to put in others.

The grounds are even richer than was estimated, and the company feels jubilant over the outlook. H. B. Hatfield is the local manager, Wallace Gumm and Jas. Simms are the engineers in charge of the machinery of the dredge.

Horses For South Africa.

Representatives of the British government loaded 6 car loads of horses at Carrizozo Tuesday for use of the English army in the Transvaal. Jas. Woodland who was helping to load the horses tagged a noted outlaw Spanish pony; placing on the tag General De Wett, via Transvaal. Jim says the Britisher who straddles this horse, will ride to the coast if not captured and will certainly cross the republic if he misses the lines, and on hearing the first shot the journey will begin.

The Rip Van Winkle Begins Work.

Col. G. W. Prichard has begun work on the Rip Van Winkle. He is contracting a tunnel to cut the lode west from the Solitare shaft, and will drive this tunnel a distance of 400 feet if the ore is not reached before that distance is obtained. He has obtained permission from the Solitare people to run a tunnel from the bottom of their 240 foot shaft west into the Rip Van Winkle, and when a distance of 400 feet has been reached in this tunnel a depth of 300 feet will have been reached on the Rip Van Winkle. There are three well defined leads on this property and the one to be cut in this tunnel, it is thought, will prove to be the richest. The Rip Van Winkle is on a line between the Little Mack and Compromise, and has from date of discovery been considered a valuable property. It is now out of the control of a company and no conflicting interests to interfere in its operation, and Col. Prichard intends to make it a producer just as soon as it is possible to do so.

"The Best is the Cheapest." Not how cheap, but how good, is the question.

The TWICE-A-WEEK REPUBLIC is not as cheap as are some so-called newspapers. But it is as cheap as it is possible to sell a first-class newspaper. It prints all the news that is worth printing. If you read it all the year round, you are posted on all the important and interesting affairs of the world. It is the best and most reliable newspaper that money and brains can produce—and those should be the distinguishing traits of the newspaper that is designed to be read by all members of the family.

Subscription price, \$1 a year. Any newsdealer, newspaper or postmaster will receive your subscription, or you may mail it direct to THE REPUBLIC, St. Louis, Mo.
