The Farmer and His Banker

Our bank never fails to give as good service to the farmer as it gives to any business man. As a matter of fact, few banks could exist in this day and age of the world without the co-operation of the farmers. Often a farmer can make money by borrowing, and we are glad to advance money at any time possible. Do not hesitate to call on us when you want the money. We welcome a responsible borrower quite as heartily as a substantial depositor. It will pay every farmer to carry a checking account with us.

Our burglar-proof safe and great vault protection, by electricity, together with conservative management, makes our bank an absolutely safe place for your money. Deposit your savings and grow with a growing bank in a growing community. Why not come in and talk it over with us today? Accounts may be opened by mail and monies deposited or withdrawn in this way with equal facility. The rural mail route solves the problem. It is not necessary to come to town to do your banking. We make a specialty of serving the farmer.

Very truly yours,

JEFF F. MONTGOMERY, Cashier,

The Brady National Bank,

Brady, Texas.

CIRCUS CONTRACTS.

Brady May Get Hagenbeck's This Fall.

Railroads leading into Fort Worth are beginning to make preparations for handling the circuses in the fall.

The Frisco received a contract from Carl Hagenbeck's show to provide transportation for his trains from North Ft. Worth to Granbury, Dublin, Comanche,

Brownwood and other West Texas points.

Hagenbeck's circus will be in Fort Worth October 14, according to the contract.

Contracts from other circuses will be received by other roads soon.

AGED MAN DROPS DEAD

LABORER ON SANTA FE EXTENSION DIES SUDDENLY

But Little Known About Man—Reported Had \$1000 in Bank At Fort Worth.

Judge Walker Wednesday night received a phone message from Justice of the Peace Porter, at Rochelle, stating that the latter had been called to hold an inquest over the body of a man who had died suddenly while at work on the Santa Fe extension near the county line, and being unable to determine the cause of death, had ordered the body shipped to Brady.

The judge was somewhat startled and dismayed at being the recipient of so peculiar a shipment, but under the circumstances could do nothing but receive the body and turn it over to the undertaker.

From what could be learned from a co-worker of the deceased, the man's name was Paddy Wheeler. He was about 70 years old, and for the past ten years during which the two had been cronies, he had drifted from place to place, invariably taking up railroad work. At the time of his death he was working on the surfacing gang at Mile 5 1/2, and apparently had been in the best of health. Shortly after dinner, however, he suddenly dropped dead, heart failure evidently causing his demise.

Aside from the fact that he had three cousins, one in Nebraska, one in Illinois and one in Missouri, nothing is known about his family, and as far as is known he was unmarried. A search of his person revealed \$25 in currency, \$3.60 in silver, a knife, tobacco pouch and a few other trinkets, but not a scrap of writing. Likewise, the grip containing his clothes threw not the least light upon his identity. His companion stated, however, that he knew him to have \$1000 on deposit in the First National bank at Fort Worth, and also stated that in his trunk at the Pacific house in Fort Worth would probably be found letters addressed to the dead man.

The body was buried yesterday by the county, and meanwhile the authorities are endeavoring to reach his relatives.

F. W. Henderson visited in Brownwood the first of the week.

WANT LOCKETT ADAIR.

Brownwood Ministers Wait on Great Evangelist.

Rev. Lockett Adair left Monday by auto for Brownwood, where he was the guest of Rev. J. Gilmore Smith, pastor-evangelist of the Presbyterian church, for the day. While there he was waited upon by a number of Brownwood pastors who desire him to come to Brownwood to hold a meeting. The ministers were very enthusiastic on the subject, but Mr. Adair could give them no date earlier than January, and if not at that time, then some time in March. As several of the ministers interested in the union meeting were absent from town, no action was taken in the matter, but it is likely that an agreement will be reached in the near future and the evangelist's services secured.

Rev. Adair went from Brownwood to Alpine, where he opened a meeting this week.

Bids Wanted.

Rights of all kinds for the Encampment at Rochelle August 21, 22 and 23rd, will be sold at 4 o'clock p. m. August 12, 1911. Committee.

A Watermelon Feast.

One of the features incident to the close of the great union meeting was the watermelon feast tendered the children attending the afternoon prayer meetings, at the Dutton grove. The event proved a most enjoyable one. F. J. Neal, who took particular interest in the children during the meeting, had provided a large tank in which to cool the melons, and also delivered them to the grounds where the feast was to take place. The children were faithful attendants and earnest workers in the prayer meetings, and the feast was a pretty and appreciated way of acknowledging the fact.

WATERHOLE BELOW CITY

WILL SUPPLY CITY FOR THE PRESENT.

8,200 Feet of 4-Inch Pipe Ordered Rushed From Dallas, and Ditches Now Being Dug.

Wednesday morning the city council met in called session. Mr. J. H. White, of the Brady Water & Light Co., appearing before that body and announcing that the source of the city's present water supply would hold out but a few days longer, and that the city must look elsewhere for its water.

The announcement created considerable consternation among the citizens, and considerable anxiety has prevailed over the matter. Mr. C. C. Bumgardner, through Mr. White, tendered the city the use of his water hole, and Mr. White proposed to bear the expense of laying the pipe, providing the city would agree to purchase the same, stating that inasmuch as the city intended to take over the water works, it would be no more than just that they bear such expense.

The council decided to take advantage of Mr. Bumgardner's liberality, and accepted Mr. White's proposition. An order was phoned to Dallas in the afternoon for 8,200 feet of 4-inch pipe, with instruction to rush shipment. Agent Hundley also took the matter up with headquarters, urging rushing the shipment through, and it was hoped that the car might be brought out on the passenger train. However, this is not likely, as where first class passenger service has been established, the railroad commissioners raise strenuous objections to such a course.

Latest advices are that the car was not loaded in Dallas until 4:30 yesterday afternoon and will arrive in Brady some time this afternoon.

Meanwhile, Manager Martin, of the water company, has his entire force at work cutting a ditch from the Bumgardner hole to the Compress, a distance of 8,000 feet, where they will connect with the city mains, and also building a foundation for the engine and pump at the hole. His force began work last night and will rush it to completion as fast as possible.

For a mild, easy action of the bowels, a single dose of Doan's Regulators is enough. Treatment cures habitual constipation. 25 cents a box. Ask your druggist for them.

Secretary Hardison was unsuccessful in arranging for an aeroplane exhibit at the Brady fair this fall while in Dublin, having been advised by the directors there to apply to the Curtis Aeroplane Co., direct. He has already written and expects to get the real article for an attraction here.

Hawley's Assistant Here.

W. S. Cunningham arrived in the city yesterday to represent John B. Hawley in the work of inventorying the Brady Water & Light Co. plant. However, Manager Martin, of the water company, was so occupied with the preparations for changing the pumping station to the Bumgardner hole and with arranging up with the city mains, that it was impossible for him to go over the plant with Mr. Cunningham. Accordingly, the latter returned last night to Fort Worth. He will return just as soon as Manager Martin can find time to lend his assistance in the matter of going over the plant.

County Pays Half.

The matter of adjusting the claim of the city against the county for one-half of the expenses of erecting the bridge over Brady creek at the upper crossing, has at last been settled, and the county will bear its part of the expense, amounting to \$462.50. This is in accord with the original agreement.

The trouble arose over a ruling of the attorney general's department which was construed to mean that the county could not pay for any bridge or road improvements within the city limits. The matter was again laid before the department, with the result that the city and county officials were advised that the county must pay its part of the cost, and accordingly the commissioners will pay the amount.

The change in ruling was for the reason that the bridge was originally built by bonds, which would permit of the money being spent anywhere in the county.

BRADY, TEXAS, AUG. 10, 1911

THE BRADY FAIR.

The Brady fair, reunion and Santa Fe celebration this coming October should be the best advertised event Brady has ever held, and it will be. The Santa Fe celebration alone would bring crowds that would tax our hospitality to the utmost, but combine with it the reunion and the annual fair, and the event presents a herculean task for the promoters, if they would make it the success it should be.

No time can be wasted in preparing for the occasion, and every community in the county must lend their assistance. The exhibits should already be well under way and every citizen should take pride and interest in contributing his share toward the displays from his particular vicinity. Likewise, there is work ahead for every citizen of Brady. There are a thousand and one details to be arranged. The crowds who attend must be taken care of in every respect, and no one allowed to leave with any but the best impression of Brady, her people, her products, and likewise of all McCulloch county.

Brady and McCulloch county can do it; have done it, and will do it again. But a hint to the wise is sufficient. Get ready now, and come to the greatest of them all—the Brady fair—reunion—celebration. The dates are October 11, 12 and 13.

Come to Brady.

A good road to a good town is a good thing.

McCulloch county is the home-seekers' paradise.

Buy Texas-made goods—and boost the Brady fair.

Get a line on McCulloch county property—it's the thing.

Good roads promote prosperity; bad roads provoke profanity.

Every day offers hundreds of opportunities to the booster. Say a good word.

Brady will soon be the busiest burg in 46 states—hear those cotton bolls a-popping.

Get the habit, come to Brady. The roads are good—they will soon be better.

Bring your folks to Brady—the best, the most progressive, the most moral town that graces old Mother Earth.

The Mason Herald announces the installation of a modern news press and other improvements, while the Mason News advertises its entire outfit for sale, and states that it will install a complete new outfit, including a fast news press and a linotype. What a difference a railroad means to the life and development of a town. We congratulate both our neighbors upon their enterprise, and trust they may grow and wax fat.

**Three Quarters of a Ton
1,500 Pounds**

That's the amount of paper used each month in the year in the printing of THE BRADY STANDARD.

Looks like an immense quantity, doesn't it? And it is.

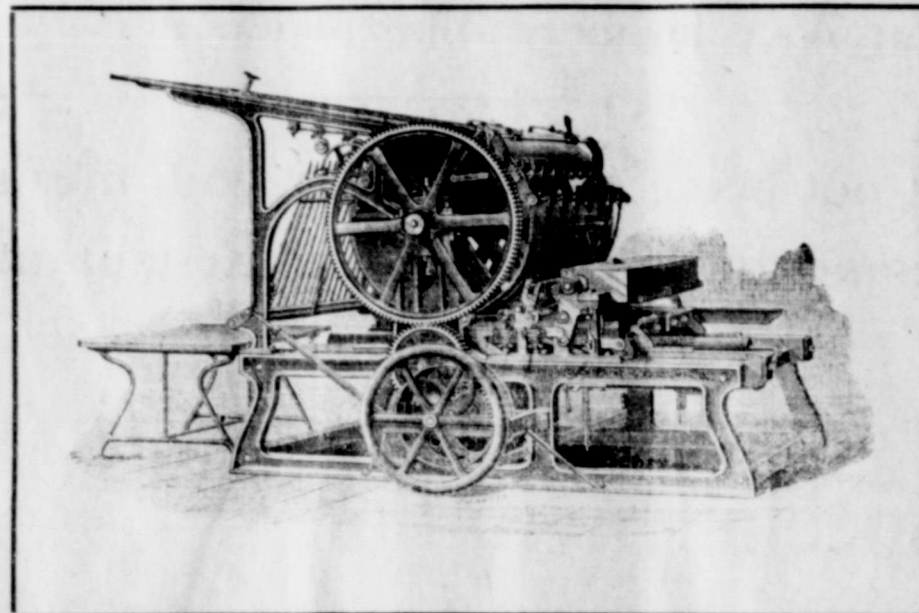

Laid end to end this quantity of paper would make a carpet two and a half feet wide and 55,000 feet, or about ten and one-half miles in length.

That's why we say The Brady Standard covers the Brady trade territory. It does cover it. It covers it like a plaster.

Can you think of anything that in any way approaches The Brady Standard for reaching the people—reaching them persistently, cheaply, effectively. We would like to hear of it.

We've got the goods. We don't deny that. And we deliver them, too. Put that down in your note book.

THE GLAD HAND.

Here's our hand, San Saba. Shake!

We know what it means to a town to secure a railroad, and we rejoice with you, now that your ambition to be numbered with the railroad cities of Texas has been accomplished. And incidentally, we are glad that it is our city that is bound to you by indissoluble ties of steel; that of a great railroad corporation. It means that we are to be neighbors, close neighbors, with you throughout all the ages to come.

What a change connection with the outside world by rail will bring about in a city, is already being realized by San Saba, even as Brady realized it ten years ago with the advent of the Frisco. It puts life in a town; it lays bare the resources, the undeveloped resources, of a town to an ever interested world. And above all it brings growth and development.

Therefore, it is natural that San Saba should rejoice, for has she not played hostess to thousands and tens of thousands of visitors from all parts of Texas the past few days, who will help to spread the good news to every corner of the globe, and who will place San Saba in the limelight as never before.

Brady rejoices with San Saba. We will rejoice in its continued prosperity and growth, for there is no petty jealousy upon our part in the success of a neighbor city, no room for envy or malice. There is room for all in Texas, and such wonderfully great room for development.

So grow your best, San Saba; Brady will lead the way.

And remember our larch string is out, and the dates are October 11, 12 and 13th.

Life is a hard road in a poor roads community.

Brady's good roads will be well under way by the time of the fair. Another good boost.

THE SPECIAL EDITION.

Nothing could be more encouraging than the enthusiasm which everyone has shown in the Special Lockett Adair edition which The Standard will issue tomorrow. The issue will contain endorsements of the Rev. Lockett Adair by practically every business man and many of our citizens, and will be an interesting memento of the revival.

In the matter of advertising, the response has far exceeded our anticipations. We had hoped to secure enough advertising by a dint of effort to repay us for the expense and labor involved in getting out the edition, but were not at all prepared for the ready response met with on all sides. In fact, we fairly had to "sit down" on the advertisers in order to keep the same within the bounds of where we could handle it, so as to have the edition ready for the citizens by tomorrow.

Had we had more time, we feel sure we could have issued an edition of two or three times the size. However, as it is, the paper will be a true reflection of our city from a moral and religious standpoint, as well as displaying the enterprise and progressive spirit of our merchants.

COME TO BRADY.

With the completion of the Santa Fe extension into Brady, the great obstacle that has, ever since Brady was a railroad town, been confronting our real estate men, our merchants, and the public in general has been removed. All this time, the complaint has been that prospectors, traveling men, and visitors in general were, more or less, backward about making a trip to Brady for the simple reason that they would have to return over the same route as they came—in other words, they would have to travel 100 miles to get 50.

With the advent of the Santa Fe, and the opening of regular

passenger service, visitors can now make Brady from Brownwood, and continue their trip via Lometa, or vice versa. What a change this will make in Brady's favor cannot be estimated. It adds to the importance of Brady from every standpoint, and gives us a fair shot at our just opportunities.

Brady has always presented a united front on every question affecting the welfare of the city, and now is the time for our citizens to get together and do some effective advertising, for if ever good work can be done, it is now.

Rome's temples have fallen, but her good roads survive.

Brady must solve the water question—and Brady never has failed to accomplish anything she undertook.

Talk about slow towns, this is the limit: The Santa Fe railroad will start passenger service into Brady August 8. The Standard thinks the town can get ready to celebrate the occurrence about October 11th. That's goin' some.—San Saba News.

Considering that this is the first train that the Santa Fe has run into Brady in over 8000 years, it is not at all surprising that it should take Brady a matter of something like sixty days in which to prepare a fitting celebration of the event. However, if the editor of the News is so impatient to come to Brady, he need not wait, for Brady's celebration started when the Frisco first hit Brady ten years ago, and has been going on ever since. The fireworks will be exploded on October 11, 12 and 13th. Come to Brady.

I guarantee to put in the best amalgam filling for 50c and up, and all dental work as cheap in proportion.

Waldrip, Texas, August 6.

Editor Brady Standard:

Ye scribe was on the sick list last week, therefore no letter from here.

Messrs. Preston and Joe Wicker returned to Eagle Lake last Sunday after spending the summer here. They have won many friends who regret to see them leave.

Mrs. Lederer and daughters, Misses Lona and Julia, left for their home in Temple last Tuesday morning.

Mr. and Mrs. E. W. Frost were host and hostess and Miss Emma Wizwell, honoree, at an entertainment given last Friday evening. Flinch, forty-two and other games were enjoyed by all until a late hour.

Mr. Will Dupree is visiting his uncle and aunt, Mr. and Mrs. W. H. Ramsey.

We were favored with another splendid rain Tuesday night, which was accompanied by such vivid lightning and terrific thunder that many sought refuge in storm cellars.

D. W. Hill, Jr., is having his old gin reconstructed and expects to have it in operation by the time of the ginning season.

Misses Rosa and Mattie Daniels, of Grandview, are visiting their uncle, Mr. J. H. Daniels.

The young people enjoyed themselves at a party given by Mr. and Mrs. Rabe Wednesday night. The amusements were games of various kinds and music by a splendid Edison phonograph.

Prof. Wright, of East Texas, has been secured as principal of our school for the ensuing term and Miss Lederer as assistant teacher. We are sure the above stated teachers will give satisfaction.

Miss Verna Mae Briscoe was the charming hostess at her birthday supper given Thursday evening. Those who were present to enjoy the delicious supper were: Misses Maggie and Mary Powell, Miss Dovie Watson and Mr. Burney Wright.

Rev. Moran will begin a meeting here tonight. He will be assisted by Rev. Shirley.

News was received here last Tuesday of the death of Mr. and Mrs. Will Looney's little daughter, Fay. Mrs. Looney is Mr. and Mrs. T. R. Briscoe's daughter, and Mrs. Briscoe left for Carlton on the evening train. We extend sympathy.

Misses Jessie and Mattie and Mr. Davis Ramsey returned home Saturday. They have been attending the summer normal at San Marcos.

Dr. Powell's father is visiting him again.

Mrs. Joe Gattis is very ill. Drs. Powell and Manning, attending physicians.

The readers of this paper will be pleased to learn that there is at least one divided disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer one hundred dollars for any case that it fails to cure. Send for list of testimonials.

LIGHTNER LIGHTNINGS.

Lightner, Texas, Aug. 5.

Editor Brady Standard:

Having seen nothing from this part of the world in The Standard, will send you a few items.

Now, Lightner is the coming little city, located on the Frisco extension something near half way between bully old Brady and magnificent Menard. I make mention of this for the benefit of any of the readers of The Standard who have not had the pleasure of visiting this section of the country.

Of course, Lightner being born since the extension of the Frisco west, it was not mapped out before that time, but you will find it on any map printed since that time. Look for it, because we are on the map, and don't you forget it.

Our business houses consist of one grocery and hardware store, postoffice and lumber yard. And we want to say that some reliable gin man is missing the opportunity of a life time if he doesn't come to Lightner and build a gin, for there is something like 4000 acres of cotton tributary to a gin at this place.

This section of the country had a splendid rain on August 2nd, and the prospects for a good crop could not be better. Bengtson Bros.' large tank on Rube's creek was filled for the first time since it was built.

The farmers are all very busy planting sugar cane and milo maize, as prospects for a full feed crop are simply fine.

This being my first attempt, I will wait to see if it finds the waste basket.

LIVED ON RAW EGGS

Mr. Richard's Experience With Different Diets. Peaches and Buttermilk for Three Years.

Cecilton, Md.—Mr. George Richards, of this place, during the past 12 years, has probably tried more different diets than the average person would ever use in a lifetime.

What he has to say about his experiments, must therefore be highly interesting to anyone suffering from indigestion or stomach troubles of any kind.

He says: "For more than 12 years, I suffered with stomach troubles, and paid hundreds of dollars for doctor bills and medicines. I was also operated on for piles.

I lived on dried peaches and buttermilk for nearly three years. The only thing that would not give me pain was raw eggs.

I was a physical wreck. I could not sleep, and was as near crazy as a man could well be.

I must say that after taking two 25-cent packages of Theford's Black-Draught, it did me more good than all I ever spent for other medicines.

I have been working daily on the farm ever since, and I am as hard as iron. This purely vegetable remedy has been in successful use for more than 70 years. Try it. But be sure that it's Theford's.

Later—The people are all very much overjoyed over the good rain that fell Tuesday night, August 1, and expect the crops to freshen up and look quite different.

The Christian meeting which has been in progress here for the past week has closed with thirteen additions to the church. The beautiful singing was very much enjoyed. On Sunday morning services were held at the usual hours. A most delicious dinner was spread on the ground and everybody was invited to eat, which was appreciated by all. In the evening at 4:30 o'clock services were held at the baptising, and that night at 8 o'clock. Most everyone appreciated Bro. Allen's preaching, and would have liked very much to have had him preach longer.

Best wishes to the readers.

Editor Brady Standard:

Since our last writing the angel of death has been in our midst, this time claiming Mrs. J. M. Davis. She, with her husband, J. M. Davis, was among the first settlers of McCulloch county, having lived here over fifty years. Aunt Sarah, as she was called, was known and loved by all throughout this country. On last Saturday, well as common, she had gone to one of her nephews' to see a little boy who was sick, and while there was taken with heart trouble and only lived about ten minutes. Her death was caused from heart failure. Aunt Sarah was a good wife, a good mother, a good neighbor, but above all, a good Christian. MRS. STALLINGS EXPLAINS

To Patrons, Former Pupils and Friends:

In view of the fact that Supt. Long claims that my application was not read before the Board of Trustees, and that I was elected to no special position, and in view of the further fact that the Board of Trustees have conferred upon Supt. Long the exclusive right to assign the teachers elected by them to any work that he thinks best, and for the further reason that Mr. Long informs me that he would not give me my former position if every man, woman and child in Brady would petition him to do so, it seems to me that justice to myself requires that I should inform you of the true conditions relative to my position as teacher in the Brady Public Schools and the unpleasantness brought about by the action of Supt. Long in giving my position to another teacher and requiring me to do third grade work.

In the outset, permit me to say that for the past three years, with the exception of about two months that I was in the high school, I have had charge of the seventh grade work. During that time if there has ever been an objection to me or my work, with the possible exception of Mr. Tom Bell and Supt. Wilson, I am uninformed. The first intimation that I had that Mr. Tom Bell was not my friend was at our first examination. Mr. Wilson required me to submit to him for approval my examination questions and stated that the other high school teachers had already done so, which was proven to be false by asking Mr. Glazner, Prof. Wallace and Miss Lowrance, who stated that they had not submitted any questions for his inspection up to that time. Mr. Wilson said he and I would have to be very careful since Mr. Baze was not his friend and Mr. Bell was not my friend. I told Mr. Wilson that if Mr. Bell was not my friend that somebody was responsible for it, for he had no cause not to be, and that he had publicly stated at the opening of school that he was and complimented me most highly, and that I was going to see him and find out the trouble. I did go; I walked to his residence in North Brady and told him what Mr. Wilson said. Mr. Bell denied it. Said he was my friend.

Of course, I have been somewhat surprised to hear during Mr. Long's administration that Mr. Bell was against me. I am informed, whether correctly or not, that he or Mr. Long suspended Gus Mays from school and said that I told his mother to send him back and that I would see that he was reinstated. The truth of the matter is that if Gus had been suspended I did know it. His mother called me up over the phone and stated that Gus had been having some trouble with his teacher and that she thought both were to blame to some extent, but that she did not think that Gus was all to blame, and asked if I would take him in the seventh grade and do what I could for him if Supt. Long would let him. I told Mrs. Mays that all was with Mr. Long, and that if he said for me to take him, of course I would and do the best I could for him. This was all. Mrs. Mays is living and can bear testimony.

I have been informed that Mr. Bell has said that he was going to put me out of this school. Why, I do not know. He came to Miss Massey's room at a period when I had charge of her Algebra class to lecture the pupils. He reprimanded them pretty severely for being so disorderly. I merely told Mr. Bell that I was surprised; that those children always behaved well and gave me good or-

der when I was in the room, and if they had been giving Miss Massey any trouble I had failed to hear her mention it. I have understood that Mr. Bell took offense at my statement and said I publicly held him up to ridicule before the pupils. I did not mean it in that sense at all for I knew his information was not personal knowledge. I did not then and do not now know of anyone who had better opportunity to speak truthfully of the deportment of those children than Miss Massey and myself.

Some have said that Mr. Bell was against me because my husband was for Joe Bailey, but surely this is the result of too vivid imagination. I do not see how any manly man could do such an unmanly thing, but this I do know; duty is mine, consequences are God's. I felt it my duty, so far as my personal knowledge extended, to defend those children, and I did, and I leave Mr. Bell with his conscience and his Master for the injustice done me.

The first knowledge that I had of Supt. Wilson's dissatisfaction was when I approached him at the request of Mrs. Carroll for me to see him and ascertain if it was possible to get her daughter, Ima, who had spent the previous year, with the exception of a short time at the close of the term, promoted to the tenth grade. Mrs. Carroll said she was paying tuition and did not feel able to pay for that which her daughter had already acquired, and besides lose a year's time. I told Mrs. Carroll that Ima's promotion was entirely with Supt. Wilson, but I would do her the courtesy to speak to him about it. I did so and to my utter surprise Mr. Wilson told me to promote her myself, as I seemed to be running things up there. I was shocked, mortified, chagrined. I could not comprehend, and to my further astonishment he said that he and I could not teach in the same school; that our ideas were so different. And to this day I am ignorant as to what his objections were to me or my work, except that we had different ideas. Of course there was only one reason why he spoke to me in the manner in which he did. It has been rumored that I promoted pupils without consent or knowledge of the Superintendent. If this be so, it can be easily proven by naming pupils. I deny it, and ask that the pupils be produced. I told Mr. Wilson there was nothing left for me to do but resign, which I fully intended to do, but a member of the Board, Mr. Callan, came to me and said not to worry, as Mr. Wilson had tendered his resignation, and as soon as the Board could get together they would accept it. I told Mr. Callan that it would be easier to find a teacher to take my place than it would be to get a competent Superintendent at this time. He said not to worry about that, for he had applications in his pockets right then. The Board met and accepted his resignation. I was in no way responsible for the action of either Mr. Wilson or the Board. Mr. Wilson never intimated to me that my work was not satisfactory until the morning he blessed me out and fired a parting shot at Mr. Stallings.

The Board elected Mr. Long, who filled out the unexpired term of Mr. Wilson. Mr. Long unqualifiedly states that my work has been perfectly satisfactory to him. He further says that he has never heard a single complaint against me or my work, from patrons or pupils. Believing that I have performed my every duty faithfully and well, and that I had fulfilled the requirements of all concerned, I made a written application to the Board of Trustees for my same position and was informed that I had been unanimously

Some of my friends tell me that it is nothing but jealousy. It would seem to me that a Superintendent who was loyal to the child's well-being and well-doing and to the school's best interests, would be delighted to find that the pupils loved their teacher. I thank God all my pupils for the past twenty-five years seem to love me and I pray they may continue to do so through all time and even when time shall be no more. If it is contended that I promoted pupils at the end of the term who were not qualified for promotion, I answer that I have always promoted them on the same conditions that the high school pupils were promoted until this year. This year Prof. Long would not allow me to allow anything on class work and yet he permitted high school teachers to do so. Miss Duncan said that she had never handled an eighth grade that was better

prepared for their work than the eighth grade in the Brady school the past year. I consider Miss Duncan, excellent authority. For many years I have been passing pupils from high schools to colleges and universities with credit to themselves and honor to me, and many are the graduates who will tell you so today. This is the first time in my professional life that I have been accused of a dishonest act. How a Board of Trustees can elect a person to a certain position in a school and then allow their Superintendent to nullify their official acts, I cannot understand. I have never asked nor expected special favors, but have always felt that I was entitled to justice.

It was no lack of disposition to co-operate with the Superintendent for the school's best interests that I decline to teach the third grade, but in consideration of the best interests of the children of the third grade. Of course, I do not feel that I cannot afford to sacrifice my professional character which I have been for a quarter of a century in building, to please a Superintendent whose reasons for changing me is unreasonable and questionable. There is a shadow somewhere, and I believe that "Truth crushed to earth will rise again."

For three years I have assisted fathers and mothers in the cultural development of their sons and daughters to their entire satisfaction, and as a citizen of the town, I see no reason why I should not continue to do so, in my same position if I so desired and requested.

With an earnest desire for the ultimate success in life of every pupil of the Brady Public Schools and many thanks to each and all for every past courtesy or favor shown me, I must, in justice to myself and the pupils, decline to accede to Supt. Long's demand that I shall teach the third grade.

Most respectfully,
MRS. M. L. STALLINGS.

Onion Gap Meeting.

The meeting at Onion Gap, which began July 27th, was brought to a successful termination last Monday morning at the water, when nine were baptised. In addition to this number, four were returned to the church. Elder T. L. Allen, of the Church of Christ, conducted the meeting, being accorded large and attentive audiences, the visitors coming from far and near to attend. All who attended are loud in their praises of the good people of the Gap, who threw open their doors and bade everyone a hearty welcome, and throughout the meeting displayed the greatest interest in and hospitality toward the guests in their midst.

DEAR AMY:

This morning, Baby John got into the basement with a hatchet and chopped at the parlor set until it isn't presentable. We stored our heavy furniture for the summer. My! but his father would have had lots of furniture to buy if baby hadn't smashed his thumb when he did and given the alarm.

But buying new furniture is an easy task for me. I long ago found a reliable place to trade and I've been going there for a long time and nowhere else.

Mayor Conley Resigns.

To the Citizens of Brady: Since I was elected Mayor of the city I have missed but one meeting of the city council. At that meeting the council set the salaries of the three incoming councilmen, and the old councilmen have been drawing \$2.00 for each regular meeting and nothing for called meetings, and the council set the salaries of the three incoming councilmen at \$3.00 and the mayor and the two hold-overs to receive \$2.00 for regular meetings and nothing for called meetings; and when setting the salaries for the three incoming councilmen they left out the word "regular" and that makes the three new councilmen draw \$3.00 for called meetings and all, making it cost the city \$9.00 for every called meeting. Everything that comes up, they want a called meeting, therefore asking the city to pay \$9.00 each and every time.

I asked the three new councilmen to not demand the \$3.00 each on called meetings, as it will take most all the income for the city to pay the council. This is a burden on the city it is not able to pay. Mr. Abney told me he would not ask the \$3.00, but Dr. McKnight and Mr. Anderson said they would.

Now, as the city is about out of water, Mr. White told us he would tap the hole of water at Bumgardner's if the city would furnish the pipe, and he would lay the pipe, but when through he would not take up the pipe; that would have to be at the expense of the city. They asked me to have another called meeting, which would cost the city \$9.00 again, and which I refused to do. The council went and had the meeting anyway, without my consent, as I refuse to be a party to spend the people's money in any such a way.

When elected mayor, I took an oath to protect the city's interests at all cost, and now the council ignores me and goes ahead and has the called meeting to buy pipe for the water company and the water company to receive all the proceeds, which I claim is not treating the people fairly.

As the council has taken the city government in their own hands, I now resign as mayor of your city. While I was mayor of your city I have done what I thought was right to the best of my ability and to the best interests of the city, and when I see the city's funds paid out in salaries when the city needs it for improvements, I refuse to have a hand in the deal.

I thank the people of Brady for their confidence placed in me. I now find myself so placed with the council that I cannot serve you any longer, so I today resign and leave it with the people.

S. A. CONLEY.

Thirty Years Together. Thirty years of association—think of it. How the merit of a good thing stands out in that time—or the worthlessness of a bad one. So there's no guesswork in this evidence of Thos. Ariss, Concord, Mich., who writes: "I have used Dr. King's New Discovery for thirty years, and it's the best cough and cold cure I've ever used." Once it finds entrance in a home you can't pry it out. Many families have used it for forty years, it's the most infallible throat and lung medicine on earth. Unequaled for lagrippe, asthma, hay-fever, croup, quinsy or sore lungs. Price 50c, \$1.00. Trial bottle free. Guaranteed by Jones Drug Co.

County Superintendent's Notice.

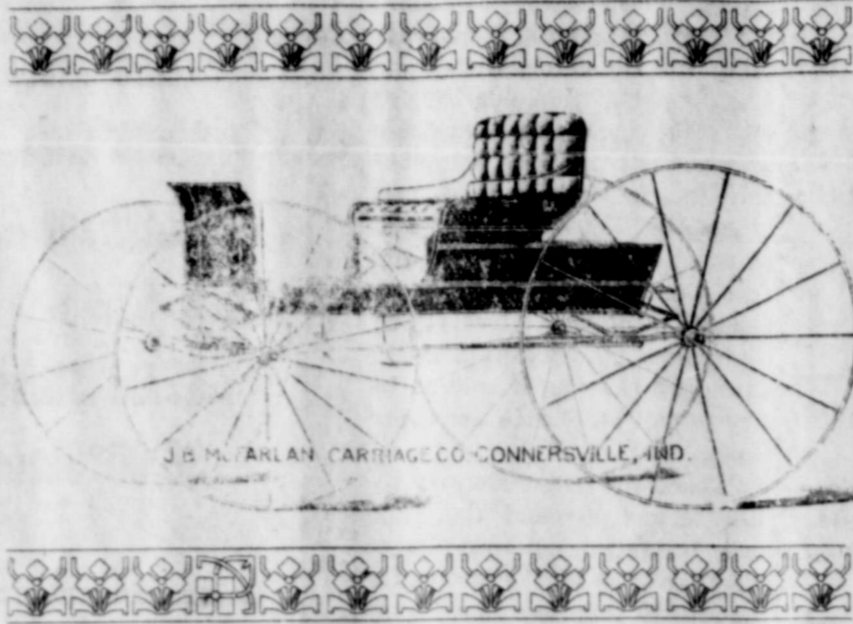

The law provides that the County Superintendent of each county shall hold a county teachers' institute of five consecutive days, of seven hours each, within the first four months of each scholastic year, and all teachers under contract to teach in the county at the time the institute is held are required, under penalty of forfeiture of their certificates, to attend the full five days, for which attendance they are entitled to receive pay, according to their contracts, as though they were teaching. The county teachers' institute is recognized, as well as regarded, as a part of the regular school work of the year, the main object of which is the training of the teacher for that particular line of work, which he or she may have for the scholastic year. The State Superintendent requests that the program for said institutes be made out at least one month before the date of holding, and that the teachers and trustees of the county be furnished with a copy of the same. Also that the institute be held at a time when it will least interfere with the regular sessions of the schools, but that Christmas week, or the week just before the holidays, or any week that would require the closing of all the schools, are the most unsuitable for the holding of said institute. That the teachers shall not only be present at roll call, but for the full seven hours each day, and that the County Superintendent has no legal authority to grant a permit of absence to any teacher. That a failure to attend seven hours of each day, except on account of sickness or other misfortune, shall deprive the teacher of any pay whatever for the entire week, also that the State Superintendent has expressed himself in favor of a faithful, intelligent execution of the Rural High School law, which law requires the county board of trustees to classify every school in the county, said classification to be based upon a well defined course of study, conforming to the law and the requirements of State Department of Education. In view of the above facts, and further, that there are some of the schools of the county that have not yet contracted, and that some of the teachers to teach in the county live hundreds of miles away, and of the rigid requirements with reference to the attendance on the part of teachers; also that at least one month's notice should be given to the teachers, and that the State course of study for the schools of the county has not

TOOLS FOR EVERYBODY

Who is it That Does Not Need a Hammer, a Saw, a pair of Pliers or some other kind of Tool. They are as much an economical necessity as anything to be found about the home. Think of the waste that could be avoided by timely repairing. Keep a few good tools and enjoy the satisfaction of using them. The cost is but a trifle.

been given out, and the schools of the county have not been classified, neither can they be for some time yet; and further, it being desirable to have a county trustees meeting to follow the teachers' institute, that they may arrange for regular annual meetings; and further agreeing with the State Superintendent, as to the unsuitableness of the week just before the holidays for this institute session, also that the contemplated date for its being held will be at the end of a month's work of the Brady public school, it being the only school in the county that will be in session at that time, hence need not be of material disadvantage for its teachers to join in the work at such date. The institute for the county will be held the first week in October, beginning Monday, October 2nd, and closing Octo-

ber 6th, and the trustees meeting called for Saturday, October 7th, following the said county institute.

This date will be such that every teacher contracted in the county can conveniently attend, and that after such attendance they may begin their school work immediately after the institute work closes. I have requested every board of trustees with whom I have conferred to try to begin their school work at least by the 16th of October, as I contemplated holding the institute session just preceding that date, and many have arranged their contract in accord thereto. I hope that every teacher, every board of trustees, and every patron who can possibly do so will attend this institute session at least one day. I believe if you would, it would be of more value to you and your school in an educational way than any other thing you could possibly do.

To the people of Brady, with whom we have always held our institutes: You have always shown your hospitality and generosity when it comes to a matter of entertaining and caring for those engaged in a work of such a commendable nature, and to the Brady board of trustees, we are grateful to you for favors showered on us in the past, and assure you that our association with you in a professional way has been most pleasant, and to the faculty of the Brady high school, we do not want to lead, neither do we want to drive, neither do we want to be led or driven, but come and join with us, and let us together do this work for the upbuilding of the educational interests of our town and county, thereby endeavoring to ourselves the professional duty before us, that of clearing away the obstructions that may impede the progress or imperil the welfare of our boys and girls.

CONFIRMED PROOF

Residents of Brady Cannot Doubt What Has Been Twice Proved.

In gratitude for complete relief from aches and pains of bad backs—from distressing kidney ills—thousands have publicly recommended Doan's Kidney Pills. Residents of this vicinity who so testified years ago, now say their cures were permanent. This testimony doubly proves the worth of Doan's Kidney Pills to Brady kidney sufferers.

D. C. Dingus, of Coleman, Texas, says: "When living in Comanche, three years ago, I gave a public statement recommending Doan's Kidney Pills. At this time I am pleased to add that my boy who was cured of kidney complaint by Doan's Kidney Pills has never had a return attack of the trouble. For some time his kidneys were weak and there was a lack of control over the kidney secretions. This caused no end of worry and extra work and defied all efforts for relief until Doan's Kidney Pills were used. The fact that the cure effected by this preparation has remained permanent, is convincing proof that it is one of great merit."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

E. B. RAMSAY.

Arch Brown, of Fredonia, one of the old timers in McCulloch county, was here Wednesday after some lumber for improvements on his place. He stated that while they could use some rain, cotton was looking remarkably well, although feed stuff was not as good as last year.

Brownwood's First Bale.

Brownwood's first bale of 1911 cotton was marketed Monday by J. P. Alexander, of the Brookesmith community. The bale was classed as strict middling and weighed 450 pounds and sold for about 12c, and a premium of \$25.00 was made up. Mr. Alexander had to pick over about fifteen acres to get the bale, and frankly stated the rest of his crop was sorry on account of the light rains.
