AMERICANS EVERYWHERE are concerned about inflation, especially in the field of energy, and those in the Bovina area are no exception.

While paying this month's utility bills, residents were painfully reminded as to the way our natural gas and electric costs have skyrocketed in the past few years. And at the same time, suppliers of both energy sources are seeking price increases in the not-too-distant future.

Our letter writer in last week's issue pretty well summed up the feeling of the average wage-earner. They are frustrated by what they see going on in our country today.

Just where this price spiral will end is anyone's guess. Did the major oil companies create the gas and oil shortage, in order to get their prices up? Some people think that they did, at least to some extent.

Now, other facets of our economy are also affected, such as interest rates. The high interest rate has practically stymied the home building industry, coupled with the increase in the cost of building materials.

We have seen the cost of gasoline more than double during the past six or seven years, and triple within a ten-year span. Interest rates likewise have been steadily climbing, until interest costs can no longer be considered just an incidental expense.

Some say that our nation had the luxury of "cheap energy" for a number of years, and this is probably right. But, there needs to be a happy medium, most people think. Prices need to find a level and stay for awhile.

This would give businessmen and industry an opportunity to try to make a profit, without having to keep a constant eye on the barometers which indicate that the economy is in trouble.

A little belt-tightening probably is good for our country, which has had virtually three decades where they have not had to watch their budgets very closely.

But with inflation in the "exploding" category, it is hard for most people to make ends meet simply by trimming off some of their unnecessary expenditures, or putting off purchases.

With inflation continuing in a double-digit manner, it is becoming hard for many people, especially those on fixed incomes, to exist, merely with the things they have to have, food, shelter, etc.

With the recent reminder as to the high cost of our home utilities, more people are beginning to turn their thermostats down somewhat, and may in turn leave the setting a little higher next summer. But when you have temperature extremes, there is just so much you can do, in order to keep your utility bills down.

The price of these things is not likely to go down, as long as the demand continues high. What we need to do to fight inflation is to try to curb our tremendous appetite for energy, and perhaps if our country as a whole could cut down its consumption of energy of all kinds, then we might see some type of price rollback.

Six File For Board

Six candidates have filed for three spots on the school board in the coming election. They are Richard Steelman, Larry Webb, Jon Lin Riddle, Wayne McClaran, Tom Ware and Keith Garner.

Absentee voting will begin March 17 and end April 1. Persons wanting to vote absentee may do so at Ridgelea Elementary School.

Banquet Tickets On Sale

Tickets are on sale for the annual Bovina Chamber of Commerce and Agriculture banquet, which will be held on Thursday, March 20.

Tickets are available from any member of the chamber's board of directors, and are priced at \$10 each.

Speaker for the 1980 banquet will be Mike Ditka, coach of the special teams and receivers for the Dallas Cowboys.

Ditka finished his third year as a Dallas coach. He had a 12-year career as an NFL player, starring for the Chicago Bears where he was a four-time all-pro. Ditka finished his career with the Cowboys, and played in Super Bowls V and VI.

Beef referendum

Vote Fails

Indications are that cattlemen voting in the beef referendum program throughout the nation have rejected a move to spend \$40 million to promote the beef industry.

Cattlemen throughout the country have been voting since February 19 on the "beef referendum." Ballots were sent to county offices of the Agricultural Stabilization and Conservation Service last Wednesday. Although final results have not been tallied, indications are that both Texas and New Mexico as well as many other states failed to pass the referendum.

Parmer County had 142 cattlemen to vote on the referendum, with 85 voting against and 57 voting for. In the State of Texas approximately 75 per cent of the cattlemen voted "no" on the referendum.

Curry County cattlemen were just as much against the proposal with a vote of 82 for and 129 against. Out of the 2,295 cattle owners who registered to vote in New Mexico, only 1,880 cast their ballots; 1,218 against and 662 for.

Booklet Has Tax Tips

Patsy Nance, Tax Assessor-Collector for the Bovina Independent School District, today announced the availability of the new 12 page pamphlet which explains how the property tax system in Texas operates, and highlights possible savings available to citizens. This pamphlet may be picked up at the tax office.

The publication was developed in accordance with the provision of Senate bill 621, passed by the Texas legislature in 1979.

Homeowners are eligible for a \$5,000 school homestead exemption, and the certain disabled veteran and those aged 65 or older may qualify for additional exemptions of \$10,000 from the value of their property. Also farmers and ranchers have the option of having their agricultural land taxed at its productive rather than market value. To qualify for the exemption and the productivity valuation, application must be made to the school tax office before the districts rendition period ends on April 1, 1980.

Fire Dept. Has Calls

The Bovina Volunteer Fire Department answered three calls this week. On Saturday they were called to a fire at Englant's Laundry.

They answered two calls on Monday. About eleven a.m. they were called to a fire at the Manyela Bexar home. Approximate damage of \$300 was sustained. About 4 o'clock they were called to Bovina Super Market where a grocery truck was burning. No estimate of damage was available.

Good Crowd At Hearing

A good crowd attended the hearing Tuesday in Farwell concerning the pheasant season for 1980.

Commissioner Jack Patterson and a number of other county residents spoke out against the month-long season, such as the one held here in 1979.

The Blade will present a detailed report of the hearing in its next edition, as the meeting was concluded near our deadline time.

Area Group Has CA Jaguar Hunt

Four residents of the Hub area returned recently from a trip to Belize, Central America, where they spent a week hunting and fishing.

Clyde Woodard, Kenneth Hall, Otis and Annie Elder went by plane from Lubbock to Belize. Elder had sold a number of hunting dogs to Mary Ann Boggess, who lives on a ranch in Central America, and she invited the Elders down for a visit and hunting expedition.

The group left the Lubbock airport at 8:45 a.m. January 15 and arrived in Belize, 2300 miles away, at 3:30 p.m. the same day. The Boggess ranch is located 62 miles from the airport.

The next day, the group went fishing on the beautiful New River which joins the Boggess ranch and empties in the Carribbean Sea. They also visited the Maya Indian Ruins,

which are approximately 4,000 years old.

The second day, the group loaded five long-eared hounds, seven men (including two guides) into a four-wheel drive pickup and drove some 30 miles into the jungle for a jaguar hunt.

A guide had to cut a trail with a machete knife so the pickup could follow.

The group hunted three days. On the third day they spotted a big jaguar, which walked out in the road in front of the pickup. They released the dogs, and they chased the cat about 40 minutes, treeing the animal.

They got this animal, and then went after another. In all, the dogs treed two jaguars and one lion.

The group were guests of Mary Ann Boggess and Bader Hanson. "They were very cordial, and we appreciated everything and enjoyed our trip very much. It was a dream come true. I can't believe it really happened," said Elder following the trip.

The group returned home January 22.

ATTEND SEMINAR....Celia Quintana, left, manager of the Allsup's Store at 100 3rd Street in Bovina is greeted by the company's president, Lonnie Allsup, prior to the start of a shortage control seminar in Clovis, New Mexico. Over 200 Allsup's employees attended the seminar which dealt with merchandise shortage and effective methods to control it. Jack Henry, a nationally known expert in convenience store security, was the featured speaker. According to Mr. Allsup, "This seminar is part of our commitment to our customers. Country-wide surveys show that over 8 billion dollars a year is lost due to theft and is reflected in the price of all products. Ultimately these losses are borne by the consumer. We at Allsup's are doing our best to prevent these unnecessary cost increases by making our people aware of available solutions."

This hybrid's record for consistency has made it one of the most popular hybrids on the High Plains. In 77 comparisons over the last four years against competitive hybrids, 3184 has shown an average yield of 183.7 bu./A. with a yield advantage of 14.3 bu./A. over competitors. Bred with outstanding drought tolerance, 3184 can adjust ear size and kernel depth to match growing conditions. And strong stalks keep 3184 standing straight for speedy harvest. It's just what High Plains farmers need in a dependable, high-yielding corn hybrid. And its maturity makes it a good companion for 3183.

Push this one for highest yields! In 43 comparisons on the High Plains in 1979, this hybrid averaged 192.1 bu./A. A sampling of yields from 1979 includes 216 bu./A. for Sheldon Rapp at Hooker, Oklahoma... 210.4 bu./A. for Larry Kemp of Muleshoe... and 196.7 bu./A. for Doyle Underwood at Dimmitt, Texas. 3183 has demonstrated very good standability and ear retention in this area. Excellent drought tolerance helps 3183 maintain outstanding consistency year after year. And it has been especially impressive on gray soils. Plant 3183 along with 3184. Spread genetic risks and get top performance, too.

I talked with the girls in Idaho Sunday and they said they were having beautiful summer weather so maybe it's headed our way....

the Jim Russells. They are on their way to Norman, Oklahoma to make their new home. The couple married last Saturday night in Albuquerque.

Last Tuesday morning Myrtie Hester suffered a broken hip as she was attempting to get out of her car at the post office. The wind was blowing hard and she lost her balance. She is in serious condition at the High Plains Hospital in Clovis. I talked with her daughter Myrna Hammonds and she said her mother's condition has improved a little. Myrna's brothers and sisters have been in Bovina with her: Neland Hester of Little Rock, Arkansas; Dr. Fletcher Hester of Galveston, and Lily Jones of California.

SMILE:

The girl had just broken off her engagement with a young doctor. "Do you mean to tell me," asked her friend, "that he actually asked you to return all his presents?" "Not only that," replied the girl, "he sent me a bill for 103 house calls."

Have a nice rainy week and thank you for your help with the Scoops....

What A Flower Says About God

Read John 12:20-26

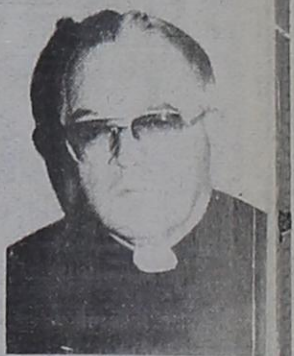

"Truly, truly, I say to you, unless a grain of wheat falls into the earth and dies, it remains alone; but if it dies, it bears much fruit."
--John 12:24 (RSV)

SEEING the flowers pushing vigorously through the ground, I know that we are nearing spring. One flower is already standing proudly erect with its radiant green foliage in sharp contrast against the frost-burnt brown grass of winter. This flower, the jonquil, has bravely borne the icy winter blasts to attest the coming of spring. With its golden yellow flower, the jonquil brings to my mind an impression of the warmth and calm breeziness of springtime.

Silently stands the little flower; yet it shouts of the unique creativity of God. I see revealed in the symmetrical perfection of the jonquil the concern of the Creator for His creations. Anything of such beauty as this flower must have been created with love. To me the jonquil is an allegory of the new birth of man, the joys of life, and the love of God.

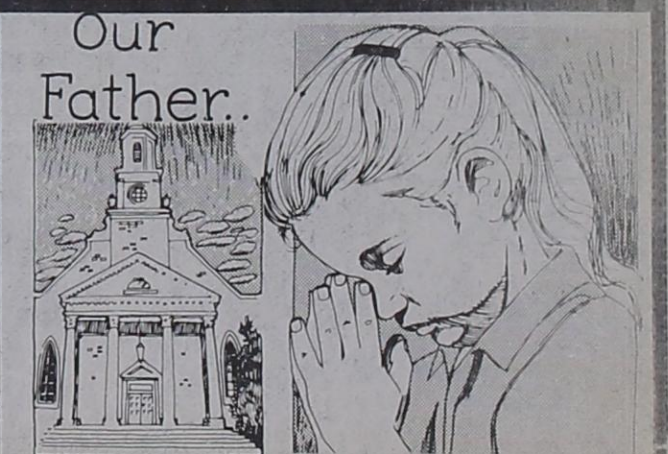

PRAYER: Our heavenly Father, help us not to lose sight of the good, the true, and the beautiful—in spite of the evil, the false, and the hideous which seem to surround us today. Amen.
